The summer of 1902 I took typhoid fever which left me with inflammatory rheumatism. My legs used to swell and the pain at times was almost unbearable. In January, 1903, I was compelled to go to bed and one month after my leg broke open at the knee. I was removed to Sarnia Hospital, where I spent almost one year and during that time had four operations. A part of the femur was removed from my leg and they made an incision through the other leg which went right through the bone. I left Sarnia hospital in February, 1904, and started to treat with other remedies but they failed to do me any good. In November, 1906, I was taken to Toronto hospital. At that time my right leg had gone back knocked-kneed until it was at right angles. They put a Thomas splint on to straighten it up and opened up the wound again. I left the hospital in February, 1907, and remained at home until July, 1907, when I returned to Toronto hospital again. They broke my leg just below the knee and straightened it. I came home in December, but the sore in my leg was still open. I was then using the cupping treatment which helped a little for a time. I tried a number of different Ointments, but they did not appear to help me.

In July, 1908, your agent left me a box of Dr. Henderson's Herb Tablets and Hou-Tan Ointment. After using them for about six months my health has been fully restored and the four different sores on my leg are completely healed.

Dr. Henderson's Herb Tablets and Hou-Tan Ointment are for sale at WARNE'S DRUG STORE, Peterborough. Herb Tablets $25c, 50c and $1.00 per box. Hou-Tan Ointment 50c. Ask for Pamphlet and free sample of Tamblets.

THE HENDERSON HERB CO.
TORONTO.

CAUGHT HUGE FISH.

LINDSAY, Sept. 1.—Mr. "Jimmie" Allen, Victoria Avenue, who has a summer cottage on Sturgeon Lake in the vicinity of Bald Point, is one of the most successful fishermen on the water, and fish dinners are common. Yesterday morning he showed a specimen of the piscatorial tribe, caught by Mr. Allen, and, without exaggeration, it is almost as big as the clever fisherman who caught it, and it would make a good meal for a lumber camp.

CONSTIPATED CHILDREN

Children who suffer from constpation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always be depended upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold under a guarantee to be entirely free from opiates or other injuries drugs. Concerning them Mrs. Thomas A. Boutot, Lake Baker, N.B., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipaton." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

V. EASTWOOD, Manager

COAL THAT COSTS $3.90 TO MINE SELLS TO CONSUMERS FOR $18.00

HENRY FORD'S PAPER EXPLAINS WHY PROFITEERING IS DOWN TO A FINE ART.

It will be helpful to those who seek to understand the anthracite coal situation to-day if they will bear in mind a few of the fundamental facts concerning this industry. It is important to know that there is far less hard coal than soft coal in reserve. Against three and one-half trillion tons of bituminous, or soft coal, there is a supply of but twenty-two billion tons of anthracite upon which to draw.

The consumption of soft coal varies in direct proportion to industrial prosperity and activity. The consumption of hard coal increases constantly in direct ratio to the increase in population. The present demand is for 87,000,000 tons, and this will increase year by year.

So it is that men who make a business of preparing Government statistics, who think of time in generations rather than in years, point out the fact that the day is coming when natural law of supply and demand will act to raise the price of anthracite to such a point that the average citizen wil be forced to abandon its use.

This point, as far as the people who may be cold next winter are concerned, is yet far removed. Consider that from 1807 to 1919 the United States consumed but a little more than three billion tons of hard coal and that there are still twenty-two billion tons left in the ground, and you will be relieved of any fear for the immediate exhaustion of the anthracite resources.

So when you are told that the price of coal is due to shortage you need not believe it. We are nowhere near a shortage.

And if you are told that the high price of coal is due to the high wages of the miners do not believe that either, because the entire cost of producing a ton of coal, as has been stated is a trifle less than $4.

And if they try to tell you that the high price of anthracite is due to decreased production reject that also. More hard coal has been produced to date this year than was produced during the same period in 1919.

Gouging the Public.

The facts, simply stated, are that coal producers and wholesalers are gouging the public for "all the traffic will bear" because they feel they can get away with it.

Compare the factors which enter the marketing of hard coal at $14.50 a ton in 1920 as against the factors which were involved in 1914, using the city of Boston as the market.

	1914	1920	Increase 1920 Over 1914 Amount	%
F.O.B. mine cost, all sizes	$2.24	$3.90	$1.66	14.1
Operator's margin	.40	.65	.25	62.5
Operator's sales realiz'n	2.64	4.55	1.91	72.3
Margin or sales agent.	1.19	3.39	2.10	176.5
Price f.o.b. mine	3.83	7.84	4.01	104.7
Freight to Boston	2.65	3.20	.55	20.8
Cost to retailer	6.48	11.04	4.56	70.4
Retailer's margin	1.27	3.46	2.19	172.4
Cost to consumer	7.75	14.50	6.75	87.1

These figures were taken from exhibits offered by counsel for the miners in the hearings recently held before the United States Coal Commission in Scranton, Pennsylvania, and were prepared to refute the oft repeated statement that the increase in the price of coal is due to the advance in wages

Much of this increase is of recent date. There was a general raise, for instance about April 1, of this year. This raise amounted to $1 a ton, and in some markets to more than that. It was suggested at the time that the operators who had agreed to go before the coal commission to debate the mine workers' request for a 27 per cent. increase in wages, retroactive to April 1, were preparing for a decision favoring the workers.

Going back to the table showing the elements which enter into the price of a ton of coal, attention is called to the fact that the increase in retail prices has been three times the increase in mine labar costs.

Note also that the margin of sales realization over total mine costs has increased. The mine operators you will notice, have never borne any of the burden of advancing costs. They have passed it all on to the consumer, and added a little for good measure.

And then we find another hidden profit, for the group of financiers who control the mines and the sales corporations also control the railroads and take the profits which accrue from carrying the coal.

Ask Even Higher Prces.

There are independent mines also that is, independent of this great combine, and it cannot be recorded that their freedom from Wall street domination has softened their treatment of the general public. In fact the Federal Trade Commission, in its studies on the coal situation, has found that in times of coal shortages such as this country has known during the past few winters, the independents ask an get even higher prices for their coal than do the mines of the great central group.

When counsel for the miners came before the Scranton commission, of which Dr. W. O. Thompson, of Ohio State University, is chairman, they presented their demands which, in brief, were the establishment of a living wage, with a minimum rate of $6 a day and differentials for skill, efficiency and experience that would bring the anthracite miner up to the wage level of the worker in the bituminous fields. In order to show that these demands were not excessive councel for the miners had caused to be prepared a large number of exhibits and charts dealing with wages, the relation between wages and the price of living, costs of operation, profits and comparison between profits and wages; freight rates, evidence of combination in the anthracite fields and wholesale and retail pices of coal.

When the miners attempted to submit these demands and to make them part of the records, counsel for the records interposed objections and fought the effort on the ground that the commisson had no power to pass on the question of profiteering in the coal industry but was appointed solely for the purpose of determining whether the wage demands of the miners were just.

The miners, on the other hand, argued that the jurisdiction of the commission was as broad as the public interest. The operators won but in a way they lost, for while they kept the documents offered in evidence from becoming a part of the record, they did not keep them from the public

WHO GETS HUGE PROFITS ON COAL?

Before the war you could buy a ton of hard coal for $7.50.

In the spring of this year, the price was $16.

Now it is $18.

Within the next month or so, or even before, the price in Peterborough may go to $20—perhaps more.

"The covers have been laid and invitations issued by the coal interests for the most sinful orgy of profiteering ever known," so says a writer in Henry Ford's weekly paper, the Dearborn Independent.

"The public is to be exploited, thoroughly and completely.

"There is just one chance that these plans may fail. It lies in the possibility that the sinister interest behind them have planned so greedily that they have overreached themselves, and that the public will awaken to its danger in time to meet the attack.

"If you hestate to believe these statements go to your retail coal dealer and ask him what he thinks the price of coal will be November 1.

"And after you have received the answer consider the fact that it costs approximately $4 to produce the ton of coal for which you are asked to pay $20.

"There is a difference of $16 between the cost and this selling price. The mine worker, the mine operator, the sales agent, the railroad, the jobber and the retailer all deny that they get it.

"Where does it go?"

The Dearborn Independent article, re-published in full herewith, gives the answer.

TRENT RIVER REGATTA LIST OF PRIZE WINNERS

At the recent Trent River regatta the prize winners in the different events were:

Boys' single canoe race—R. Ruttan, H. Harkins.

Men's single canoe race—F. Cook, F. Garneau.

Ladies' single canoe (cottagers only)—Miss N. Davidson, Miss A. Fairbrother.

Men's rowing race— F. Cook, F. Wright.

Ladies' double canoe (cottagers only)—Misses Dolman and Fairbrother, Misses French and Davidson.

Boys' double canoe under 15 years of age—E. Chiles and D. Chapman, F. B. Horkins and C. Christie.

Mixed canoe race—Mrs. J. Cook and Mr. J. Garneau, Miss Fairbrother and Mr. F. Cook.

Men's double canoe race—F. Cook and H. Horkins, E. Morton and W. Christie.

Girls' single canoe race, under 16—B. Covert.

Men's rowing race (cottagers only)—G. Chiles, S. J. Dolman.

Ladies' single canoe race—B. Covert, Mrs. Cook.

Boys' swimming race, under 14—B. Reynolds.

Diving contest—G. Salt, Mr. Allan.

Boys' diving contest, under 14—C. Christie, E. Chiles.

Men's swimming race—G. Salt, B Curtis, W. Wright.

Single canoe for those who had not won a prize—K. Dolman, Lela Ruttan.

Ladies 'double rowing race—Misses Dolman and Davidson, Mrs. J. Cook and Miss A. Wright.

Canoe race, paddled from bow—T. B. Horkins, D. Chapman.

Ladies' swimming race—Miss Davidson, Mrs. J. Cook.

Won in Draws.

In the drawings the winners were: Mrs. J. Liberty, half dozen silver spoons. Mrs. T. L. Diamond, half dozen silver spoons. Mr. P. Logan White, gold necklace. Mrs. McGreg or, canoe cushion, seat and lazy back.

The Last Corn

When you end your corn with Blue-jay, it will be the last corn you let grow.

You will know how to stop the pain. And how to quickly and completely end all corns.

There are millions who use Blue-jay now, and they never let a corn remain.

The new-day way

Blue-jay is the new-day way, the scientific method.

It was perfected in a laboratory world-famed for its surgical dressings.

It is supplanting the many treatments which are harsh and inefficient.

It has made paring as ridiculous as it is unsafe, for paring doesn't end corns.

Do this tonight:

Apply to a corn a Blue-jay plaster or liquid Blue-jay—whichever you prefer.

Mark how the pain stops. Then wait a little and the corn will loosen and come out.

© B & B 1920

What that corn does all corns will do. Some 20 million corns a year are ended in this way.

Don't suffer corns. Don't have your feet disfigured. They can be ended almost as easily as a dirt-spot on your face. They are just as inexcusable.

Don't forget this. It means too much to you.

Ask your druggist for Blue-jay.

One ton of steel is said certainly to supply 1,400,000 pen nibs.

ACUTE ECZEMA ON BABY'S HEAD

Face, Neck, Arms. Terrible Sight. Itched And Burned. Cuticura Heals.

"Baby was two months old when I noticed little pimples on her head. They kept getting worse and spread till her head, face, neck and arms were one mass of eruptions, burning, itching, and bleeding. I was told it was acute eczema. I had to sew up her arms and legs in linen. She was a terrible sight. For one year I had no rest night or day.

"We got Cuticura Soap and Ointment. In less than two weeks she began to mend and in a few months sh. was healed." (Signed) Mrs. Boorman, 243 McDonnell St., Peterboro, Ont., April 19, 1919.

Stop the use of all doubtful soaps. Use Cuticura for all toilet purposes.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.

HALF HOLIDAY IDEA SPREADS TO SEPTEMBER

Woodstock Jewellers Continue It—Others May Follow Suit.

WOODSTOCK, Sept. 2.—The idea of continuing the half holidays which are in vogue here each week during the summer months, seems to be spreading. The local meat dealers yesterday decided to continue the Wednesday half holidays throughout the year. Yesterday the jewellers of the city have reached a somewhat similar decision. They will not continue the half-holiday throughout the entire year, but will continue it throughout all of the month of September, and will close at noon on each Wednesday during the present month.

McCrimmon's Odorless Disinfectant

DISINFECTANTS are necessary to every household and stock man. They are the weapons with which we combat diseases. Disease is caused by germs or bacteria. While humanity has been well equipped by nature to guard against disease by giving power to see, hear, feel, taste, and smell, still none of these warn you against the presence of disease germs, which occur in air, water, food, and houses, and are an ever-present danger. **Disinfectants** are a necessity in life, but the popular objection to their use is their disagreeable odors. To eliminate this without impairing their disinfecting and deodorizing qualities has been the aim of much chemical research. **McCrimmon's Odorless Disinfectant,** that both disinfects and completely destroys all kinds of odors in a few minutes, has been put on the market as a **Sanitary, Odorless Disinfectant.** Itself being **Odorless,** it does not overpower one odor with another, but as soon as applied leaves the atmosphere pure and sweet. The real test for a disinfectant and the only one that interests the user is what it will do in the presence of organic matter, such as filth, fæces, blood, etc. This is the practical test, and to make good our claims **we guarantee** refund of money if **McCrimmon's Odorless Disinfectant** does not do everything we claim for it. It is used to-day by leading physicians, veterinaries, dentists, etc., in their practice and homes.

It is also being used throughout the Dominion in leading hospitals, asylums, public buildings, banks, hotels, restaurants, colleges, schools, packing houses, factories, dairies, laundries, stables, hen houses, dog kennels, etc.

You should use it, because it is a disinfectant that disinfects.
Lasts longer than other disinfectants.
Cheaper than inferior brands.
Has no disagreeable odor.
Tested and endorsed by leading laboratories on the Continent.

ADVANTAGES

PURITY.—Free from tarry impurities and odorless.

EFFICIENCY.—Used by government institutions and hospitals, after being thoroughly tested by them.

BENEFICIAL.—Can be used anywhere, as it is odorless and stainless, and does the work immediately it is applied.

EASY TO USE.—Fill sprayer or mix with water in the sprinkling can.

HOUSEHOLD USES.

DRAINS, SINKS, TOILETS.—Flush periodically with a solution of 1 part liquid to 15 water, or spray with pure liquid.

KITCHENS.—Spray garbage can, or wherever you have odor, with pure liquid.

BEDROOMS, SICKROOMS.—Spray with full strength liquid, and you will immediately have a pure and sweet atmosphere.

CARPETS, ETC.—Before laying carpets, spray the floors and felting, and room remains sweet and pure.

INFECTION.—Spray room thoroughly with full strength liquid and keep closed for few hours.

NIGHT COMMODES AND UTENSILS.—Spray before or after using and odors will be eliminated at once. Spray the liquid whenever there is an odor you want eliminated.

For McCrimmon's Disinfectant and Deodorant, ask your Druggist.

PETERBORO PUBLIC SCHOOLS WERE POLISHED UP FOR THE RECEPTION OF CITY'S JUVENILE POPULATION

NEARLY THREE THOUSAND YOUNG HOPEFULS ANXIOUSLY AWAITING THE RETURN OF SCHOOL DAYS—HOW THEY SPENT THEIR SUMMER HOLIDAYS.

From summer resort and playground, backyard and alley, the hungry maw of the monster "Public School" will gather in twenty-eight hundred reluctant little school children on Tuesday, September 7th, for the commencement of the fall term, and ninety per cent. of the parents of the city will gladly prepare the necessary equipment which will ensure Tom, Dick and Harry's safety for at least six hours a day. The greater number of the children of twelve years and under spent the summer in the city and had as their one and only outing the privileges provided by the playgrounds, and some few were fortunate enough to have summer resorts provided for them. About ten per cent. spent a good part of the time at the Public Library, and, happily, only a very few spent the days like one little chap confided to his teacher this week, "having the loveliest time in the livery stable near home."

Not one per cent. of the children of the Peterborough Public Schools figured in any accident during the past ten weeks, and none came to any serious harm.

Schools Ready.

With an appropriation of $10,000 voted by the Board of Education, the Property Committee has thoroughly overhauled the schools from cellar to basement, putting them all into better shape for the reception of scholars than they have ever been before. Schools not touched, outside of a few minor repairs, for over ten years, have been re-painted, calsomined and thoroughly sanitized, and $400 worth of new slate blackboard has been installed. At the commencement of the holidays the teachers of the different schools were invited by the Property Committee to submit to them a detailed account of such improvements as they would like to have made on their particular departments, and every request, all of which were within reason, was acceded to. Through the medium of this system the committee has picked a number of valuable suggestions to be worked out in finishing the new Prince of Wales School.

Extensive Improvements.

At the Central School all walls have been repainted and calsomined, and the old collegiate building, used for some of the primary rooms, has been practically re-made inside. Every wall is newly painted in buff and the ceilings re-calsomined in white from attic to cellar. The cellar has been re-whitewashed, and a complete new cement floor has replaced the broken flooring of the girls' indoor play-room in the cellar. The improvements were the first extensive ones undertaken in the memory of the janitor of the school who has been there since 1910. Next year the committee anticipates repainting the exterior of the two schools.

Queen Alexandra.

At the Queen Alexandra the improvements have been more extensive than in any of the other schools. The exterior has been completely repainted, also the interior from roof to basement. Semi-indirect Dominion lights have replaced the rather antique system of lighting, burlap has been placed about the walls for the facility of pinning up art work, and the leaking roof, a nuisance for years, been mended. The cellar has also been recemented. In order to accommodate the ever-increasing number of pupils, the board found it necessary to authorize the opening up of a new classroom for the school, and the old storeroom has been transformed into a very bright form. For the teachers' convenience new cupboards have been made in the cloak rooms and a splendid new cupboard installed near the principal's office for supplies.

The kindergarten room has undergone a course of thorough repair and a new and separate entrance has been provided for the little ones, in order that they may come and go as the teacher wishes them without interfering with the more advanced pupils.

The girls' entrance has been remodelled and a new floor been laid. At the teachers' request, a ladies' waiting-room has been installed on the second floor. Added to the present improvements at Christmas time the board installed an electric bell system which has proved its worth to the satisfaction of the principal.

Recently Renovated.

The Queen Mary School, which was in little need of repair, only having been completed a few years ago, was thoroughly cleansed, burlap installed about the class-rooms for pinning up art work, the walks widened and a girls' separate entrance made into the basement. The King Edward School, which was thoroughly renovated in 1919, required little attention outside of thorough house-cleaning. The King George School was, like the Queen Mary, built recently and required only minor alterations. The South Central School, which will become a memory when the Prince of Wales' School is completed, was cleaned and the furnace attended to.

Collegiate Institute Overcrowded.

Even with the opening of two new rooms, it will be impossible to conduct the Collegiate Institute for more than the coming year without an addition being made. Every day Mr. H. R. H. Kenner is compelled to refuse requests for admission to the school coming from districts outside the town limits, and the education of such children is ruined.

To afford additional accommodation for the present, pending the building of a new wing to the Collegiate Institute, the board has turned the library, used last year as a commercial and an art room, into the fifth form. The fifth form room has been converted into an extra third form and the typewriting room has been placed in the assembly hall, resulting in a contracted space available for the calisthenics. The cadets' room off the assembly hall has been transformed into a commercial form and accommodation for the cadets has been secured in the Armouries.

These alterations will, however, be absolutely inadequate next year. Mr. Kenner stated this morning that in September, 1921, the Adolescent Act comes into force, which will extend the age of compulsory attendance to 16 years, while it is now fourteen years, the time when the majority of the pupils pass their entrance. The extended period of compulsory attendance will absolutely necessitate several new forms being added to the school in the immediate future.

Kitchen Installed.

For such social functions as the entertainment of visiting teams, etc., a kitchenette has been installed in the top of the building and a cupboard and gas plate been provided. Weatherstripping has been placed in all windows on the top floor. The front entrance has been newly varnished and the brickwork at the front of the school repaired.

Alterations on the Collegiate Institute aggregated $1,500.

Satisfied With Work.

The Property Committee is absolutely satisfied with the work done upon the schools and is justly proud of the appearance of the schools. All painting was done by Coleman Bros., cement work by Elmer & Bebe, carpentering work by John Taylor, the lighting by Miller, Powel and Watson, and the electric bell system by Pennington Alexander.

Mr. A. Mowat has co-operated with the Property Committee in installing improvements so conscientiously that he spent his entire holidays in visiting the schools.

Fifty Applications.

The Board of Education did not experience any difficulty in obtaining a full staff to go on duty for the fall term, and fifty applications were received in response to an advertisement inserted by the Board for one teacher required.

On Monday (Labour Day), the Post Office will be closed except between the hours of 8:30 a.m. and 10.30 a.m., during which period the lobby of the Post Office will be open, postage stamps will be on sale, and the general delivery and registration wickets will be open.

There will be no delivery by letter carrier. All outgoing mails due for despatch after noon on that date will be closed at that hour.

All money order, savings bank, and postal note wickets will be closed.

There will be two collections only made from the street letter boxes, commencing at 8 a.m. and 9 p.m.

A MOTHER'S TRIALS

CARE OF HOME AND CHILDREN OFTEN CAUSES A BREAKDOWN.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CARELESS MOTORIST.

KINGSTON, Sept. 2.—Another evidence of careless handling of a motor car was given yesterday morning at the corner of Clarence and Wellington streets, when a driver, who had parked his car there, on starting away nearly knocked down a woman, passing on the straight crossing from Stewart's corner to go down Clarence street. The driver backed the car without any thought of who might be passing on the straight crossing behind, even after nearly causing injury to the woman, the driver laughed and muttered something about the woman "shouldn't be on the crossing," and drove away without any inquiries as to whether the woman was hurt or not.

ASST. PROVINCIAL SECRETARY RETIRES

C. H. SPROULE IS SUCCEEDED BY CHARLES MATTHEWS.

TORONTO, Sept. 4.—After nearly fifty-three years in the service of the province, C. H. Sproule, assistant provincial treasurer, has retired, opening the way in doing so, to the promotion of Charles Matthews, who served as private secretary to four treasurers in three Governments. Mr. Matthews takes over his new duties at once

It was in December, 1867, following Confederation, that C. H. Sproule entered the provincial service, starting as a junior clerk in the Treasury Department. He made his way up through the various branches of the department until in 1886 he was appointed Provincial Auditor, a post he held until 1905, when he became assistant Provincial Treasurer. Mr. Sproule is one of a number to be superannuated, his retirement being arranged a little ahead of the others at his request. He will receive a retiring allowance of $2,000 a year, the maximum allowed under the Government's plan.

Mr. Matthews, the new Assistant Treasurer, was appointed secretary to the late Col. Matheson in 1905, having previously been private secretary to Sir John Willson. He was "right hand man" to Hon. I. B. Lucas and Hon. T. W. McGarry, who in turn held the Treasury portfolo, and has helped Hon. Peter Smith over the rough spots since the present Government took charge. For some years past, Mr. Matthews has borne an increasing burden of responsibility in connection with the department. He has had charge of the preparaton of the Government estimbates, and has had a good deal to do with provincial financing.

SASKATCHEWAN FARMERS HAD NOTES EXTENDED.

(Canadian Press.)

REGINA, Sask., Sept. 4.—About five hundred Saskatchewan farmers who, owing to crop failure, were unable last year to meet their notes given for lumber and agricultural implements, or to pay the interest or principal falling due on their real estate mortgages, were protected by the Provincial Government.

The Government interceded with their creditors and secured extensions of credit for them. This was made public recently by Edward Oliver, secretary of the Bureau of Statistics of the Saskatchewan Department of Agriculture, who was designated by the Government to handle ths work.

The WILLIAMS PLAYER PIANO

differs from ordinary reproducing pianos in that it enables you to give a really natural tone-shading to any composition. It is the only Player having the Floating Rail and Transposing Scale, by means of which you can give true expression to music by the mere act of pedalling. It is this feature which causes the most accomplished musicians to prefer Williams-made Players above all others.

A Williams Player gives you the music you love, without natural skill or training.

New Hair Growth After BALDNESS

On legal affidavit, John Hart Brittain, business man, certified to this: "My head at the top and back was absolutely bald. The scalp was shiny. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth. "Yet now, at an age over 60, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs." Mr. Brittain certified further:

INDIAN'S SECRET OF HAIR GROWTH

After hair growth

Photo when bald.

"At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian 'medicine man' who had an elixir that he asseverated would grow my hair. Although I had but little faith, I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days.

That I was astonished and happy to express my state of mind mildly.

Obviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertilizing potency of the mysterious pomade. I negotiated for and came into possession of the principle for preparing this mysterious elixir, now called Kotalko, and later had the recipe put into practical form by a chemist.

That my own hair growth was permanent has been amply proved."

How YOU May Grow YOUR Hair

It has been proved in very many cases that hair roots did not die even when the hair fell out through dandruff, fever, *alopecia areata* or certain other hair or scalp disorders. Miss A. D. Otto reports: "About 8 years ago my hair began to fall out until my scalp in spots was almost entirely bald. I used everything that was recommended but was always disappointed until at last I came across Kotalko. My bald spots are being covered now; the growth is already about three inches." G. W. Mitchell reports: "I had spots completely bald, over which hair is now growing since I used Kotalko." Mrs. Matilda Maxwell reports: "The whole front of my head was as bald as the palm of my hand for about 15 years. Since using Kotalko, hair is growing all over the place that was bald." Many more splendid, convincing reports from satisfied users.

KOTALKO FOR FALLING HAIR BALDNESS, DANDRUFF
For Sale at all Busy Drug Stores

Kotalko is wonderful for women's hair.

KOTALKO contains GENUINE BEAR OIL and other potent ingredients. No alcohol, no shampoo; but a hair elixir of wonderful efficacy. All ingredients are safe and harmless, even for a child's scalp and hair. Positively KOTALKO is one delightfully reliable hair preparation that succeeds upon genuine merit. Buy a Box of KOTALKO at the drug store. Or ask for Kotalko at the toilet goods or drug counter of any large department store. Remember the name. A Man! An Accident! A Miracle!

Right Here In Peterboro Last Week

A plank upon which were two men fell acrbss my toes, crushing them so I thought the bones were broken. Upon bathing them in warm water they were swollen, purple in color and very painful. I bound them up in

GALLAGHER'S GOLDEN DROPS

In a short time the pain was gone. The next morning my toes were practically all right; I put on my boots and went to work. If anyone told me anything could do what GOLDEN DROPS did I would not believe them. It is a miracle. My name and address my be had at the Gallagher Remedy Company's office. You should keep a bottle in the house as it may save you much pain and loss of time. CITIZEN.

Not what it will do but what it has done. Took the pain out of a bad scald in two hours and healed it in one day. Killed a carbuncle in twenty-four hours. Healed a sore which could not be healed for years. Has cured many infections and a felon in two days, and countless other unbelievable things.

GALLAGHER'S GOLDEN DROPS are for sale at all our city druggists and in every town in this district. Price, 50 cents.

TRUE BLUES MEET AT MT. FOREST NEXT YEAR

FORTY-SIXTH ANNUAL CONVENTION GRAND LODGE AT OSHAWA CLOSED.

OSHAWA, Sept. 4.—With the singing of the time-honored fraternal hymn, "Blest be the Tie That Binds," and the National Anthem, the 46th annual session of the Supreme Grand Lodge of the Loyal True Blue Association, which has been in conference in Oshawa for three days, was brought to a close at noon Thursday. This forenoon was taken up entirely with the election of officers, which resulted as follows: Supreme Grand Master, W. Geo. Farley, Toronto (re-elected); Supreme Deputy Grand Master, D. H. Church, Orillia ;Supreme Grand Secretary, Miles S. Plumlev, St. Catharines (re-elected); Supreme Grand Treasurer, George Burnett, Toronto (re-elected); Supreme Grand Chaplain, Geo E. Morrish, Port Perry (re-elected); Supreme Grand Director of Ceremonies, J. F. Mcon, Mount Forest; Supreme Grand Lecturers, J. Moser, Halifax, and Mrs. M. E. Etherington, Toronto; Supreme Grand Auditors, Jas. Stewart and W. T. Davidson, Toronto; Grand Outside Tyler, A. J. Smeltzer, Halifax; Representatives to Orphanage Board, Sister W. A. Reynolds, Hamilton; W. M. Fitzgerald, A.D.G.M.; Sister Milk, Ottawa; A. D. G. Secretary, Sister A. Simpson, Guelph; A. D. G. Treasurer, Sister R. H. Trenier, Orillia A. D. G. Director of Ceremonies, Sister A. Dandie, Toronto; A. D. G. Chaplain, Sister Taylor, Toronto; A. D. G. Lecturers, Sister Pearce, Collingwood; Sister Ida Musson, Collingwood. Mount Forest was chosen for the next annual meeting.

COUGHLIN'S Monumental Works

Long Established Reputation for Quality Work

Now is the opportune time to order monuments to be erected this year. Prompt attention given every order. Material and workmanship guaranteed first class. Our factory is equipped with stone working machinery to fill orders promptly at minimum prices. Scotch and foreign monuments carried in stock. No trouble to show intending purchasers and give estimates on our latest designs. Call and see us at 214 Hunter street.

Hensley's Little Plumber

WE will charge you less than you expect for good, substantial plumbing work. We would rather keep quite busy all the time and charge regular man to man prices than we would to overcharge a few dissatisfied customers and finally take a job plumbing the poorhourse.

After Vacation Peel Your Discolored Skin

Women returned from the seaside or country with browned, reddened or freckled skins will be wise in immediatelyy taking up the mercolized wax treatment. Weatherbeaten skin had best come off, for no amount of "beautifying" will ever make it pretty to look at. The surest, safest, easiest way to shed the despoiled cuticle is with the treatment suggested. Put the wax on before retiring, as you would cold cream, and rinse it off next morning with warm water. Minute particles of scarf skin peel off day by day, gradually showing the healthful, youthful skin be neath. One ounce of mercolized wax, obtainable at any drug store, is enough to make any discoloured or spotted complexion clear, white and satiny soft. Its action is so gentle no harm is caused and the face shows no trace of its use.

Burning heat, irritating winds and dirt are such wrinkle-makers that the daily use of the following astringent tonic lotion at this season is highly advisable: Powdered saxolite, one ounce, disolved in witch hazel, one-half pint. Used as a face bath this is a splendid

One of the largest machinery and factory plants in Columbus, O., has a woman vice-president, Mrs. W. O. Wood.

DRASTIC STEPS URGED IN REPORT ROUSE LAWYERS

RECOMMENDATIONS REGARDING PRIVY COUNCIL AND JUDGES ENLIVEN MEETING.

WILL BAR POLITICS

(Canadian Press).

OTTAWA, Sept. 4.—The even tenor of the annual meeting of the Canadian Bar Association was rather rudely disturbed here by a report of the committee on the administration of justice, introduced by Mr. Justice McWhinney, K.C., convener.

The report by no means satisfied a certain section of the convention as in it was a great number of controversial recommendations.

Some of these were:

Further increases to all judges.

Judges' salaries not to come under income taxation.

Judges to enjoy full pensions hitherto enjoyed before the legislation of last session.

Maintenance of the present right to appeal to the Imperial Privy Council.

A recommendation that the Imperial Privy Council should sit in the various capitals of the Empire.

Increasing the number of Supreme Court judges and having an uneven number of judges in that court as it could not divide evenly as in some recent cases.

Uniform Marriage Laws.

Uniform laws on marriage and divorce to be passed by the Federal Parliament and adopted by the Provincial Parliament.

Each sex should be treated on a basis of equality.

While the members expressed themselves guardedly it was evident that there was much feeling on two points, namely, the recommendation to increase judges' salaries so soon after the recent increase, and secondly, the ever controversial one of the appeals from Canada to the Imperial Privy Council.

Some members wanted a vote at once. Mr. George F. Henderson, in speaking of the latter question, said that owing to an incident early in the proceedings this matter had received a very full consideration by the members. Without expressing any opinion himself, he would like to see the members go on record in the matter.

Should Eliminate Politics.

Mr. R. B. Bennett, of Calgary, took very advanced grounds as regards the judiciary. He thought Canada could not have a great judiciary so long as the appointments thereto were the reward very often of political service. Moreover, judges should not be appointed after the age of sixty, but younger, so they could get the judicial habit. He would almost advocate that men who made public life and service their vacation should be debarred from judicial positions, and those given to the most eminent practising lawyers who were in touch with the law.

Others agreed with this view.

Col. Ponton, of Belleville, in reference to the appeal to the Privy Council, supported the idea strongly. Little Englanders in Britain had taken down their shingle some time ago and he advised little Englanders here to do the same. The "right little, tight little island," God bless her, was not a foreign land. (Cheers).

After numerous motions the debate was seen to be so controversial that it was adjourned.

HOARDED SUGAR AND PUBLIC BLED

FAMINE IN HALIFAX WHILE SPECULATORS HELD MILLIONS. OF POUNDS.

(Canadian Press)

HALIFAX, N.S., Sept. 4.—While Nova Scotians were paying 25 cents a pound for sugar most of the Summer, one of the reasons given for the high price being an alleged scarcity, millions of pounds owned by New York speculators were stored right in Halifax, in the Dominion Government warehouse at the ocean terminals. Having been stored there for nearly four months in the hottest season of the year, part of the 6,500,000 pounds which still remain is now beginning to cake, and hence is deteriorating in value. It is said that if the hot weather continued much longer a large part of it would cause a big loss to the New York owners, who will probably welcome the coming of cooler weather.

Early in May 112,000 bags of sugar were sold by a refinery to some New York brokers, and the whole was stored in Government warehouse No. 24 here. Since then nearly half has been shipped to New York and elsewhere, but 65,000 bags remain. The sugar has changed ownership several times, it is stated, without being moved from the warehouse, each time at an advance in price, but now that sugar is on the decline here and everywhere, the portion still remaining here would cause the owners a loss anyway, even if the quality remained high. The sugar is, or was, best granulated, and is in a huge, long pile in the warehouse which is a hot, sultry building in warm weather, and some of the sugar, particularly the bags at the bottom of one big pile, is feeling the effects of weather and pressure from above. During the shipyard strike here recently about $2,000,000 riot insurance was placed on it.

GIRLS ARE BEING SOLD.

PEKIN, Sept. 4.—Parents are selling girls in famine-ridden districts south of Pekin, acording to advices received—girls 10 years of age having been sold for $10.00, it is reported.

THE RE-UNION OF CHRISTENDOM

AN APPEAL TO ALL CHRISTIAN PEOPLE.

The following "Appeal to All Christian People" has been issued by the archbishops and bishops of the Anglican communion assembled in conference at Lambeth Palace:

We, archbishops, bishops, metropolitan, and other bishops of the Holy Catholic Church in full communion with the Church of England, in conference assembled, realizing the responsibility which rests upon us at this time, and sensible of the sympathy and the prayers of many, both within and without our own communion, make this appeal to all Christian people.

We acknowledge all those who believe in our Lord Jesus Christ, and have been baptized into the name of the Holy Trinity, as sharing with us membership in the universal Church of Christ, which is His Body. We believe that the Holy Spirit has called us in a very solemn and special manner to associate ourselves in penitence and prayer with all those who deplore the divisions of Christian people, and are inspired by the vision and hope of a visible unity of the whole Church.

The Fellowship of the Church.

I. We believe that God wills fellowship By God's own act this fellowship was made in and through Jesus Christ, and its life is in His Spirit. We believe that it is God's purpose to manifest this fellowship, so far as this world is concerned, in an outward, visible, and united society, holding one faith, having its own recognized officers, using God-given means of grace, and inspiring all its members to the world-wide service of the Kingdom of God. This is what we mean by the Catholic Church.

The Present Position.

II. This united fellowship is not visible in the world to-day. On the one hand there are other ancient episcopal communions in East and West, to whom ours is bound by many ties of common faith and tradition. On the other hand there are the great non episcopal communions, standing for rich elements of truth, liberty and life, which might otherwise have been obscured or neglected. With them we are closely linked by many affinities, racial, historical and spiritual. We cherish the earnest hope that all these communions, and our own, may be led by the Spirit into the unity of the faith and of the knowledge of the Son o fGod. But in fact we are all organized in different groups, each one keeping to itself gifts that rightly belong to the whole fellowship, and tending to live its own life apart from the rest.

The Causes of Division.

III. The causes of division lie deep in the past, and are by no means simple or wholly blameworthy. Yet none can doubt that self-will, ambition, and lack of charity among Christians have been principal factors in the mingled process, and that these, together with blindness to the sin of disunion, are still mainly responsible for the breaches of Christendom. We acknowledge this condition of broken fellowship to be contrary to God's will, and we desire frankly to confess our share in the guilt of thus crippling the Body of Christ and hindering the activity of His Spirit.

A Present-Day Call.

IV. The times call us to a new outlook and new measures. The faith cannot be adequately apprehended and the battle of the Kingdom cannot be worthily fought while the body is divided, and is thus unable to grow up into the fullness of the life of Christ. The time has come, we believe, for all the separated groups of Christians to agree in forgetting the things which are behind and reaching out towards the goal of a reunited Catholic Church. The removal of the barriers which have arisen between them will only be brought about by a new comradeship of those whose faces are definitely set this way.

The vision which rises before us is that of a Church, genuinely Catholic, loyal to all truth, and gathering into its fellowship all "who profess and call themselves Christians," within whose visible unity all the treasures of faith and order, bequeathed as a heritage by the past to the present, shall be possessed in common, and made serviceable to the whole Body of Christ. Within this unity Christian Communions now separated from one another would retain much that has long been distinctive in their methods of worship and service. It is through a rich diversity of life and devotion that the unity of the whole fellowship will be fulfilled.

V. This means an adventure of goodwill and still more of faith, for nothing less is required than a new discovery of the creative resources of God. To this adventure we are convinced that God is now calling all the members of His Church.

The Genuine Basis.

VI. We believe that the visible unity of the Church will be found to involve the whole-hearted acceptance of:—

The Holy Scripture, as the record of God's revelation of Himself to man, and as being the rule and ultimate standard of faith; and the creed commonly called Nicene, as the sufficient statement of the Christian faith, and either it or the Apostles' Creed as the baptismal confession of belief:

The divinely instituted sacraments of Baptism and the Holy Communion, as expressing for all the corporate life of the whole fellowship in and with Christ:

A ministry acknowledged by every part of the Church, as possessing not only the inward call of the Spirit but also the commission of Christ and the authority of the whole body.

The Relation of Episcopacy.

VII. May we not reasonably claim that the episcopate is the one means of providing such a ministry? It is not that we call in question for a moment the spiritual reality of the ministries of those communions which do not possess the Episcopate. On the contrary, we thankfully acknowledge that these ministries have been manifestly blessed and owned by the Holy Spirit as effective means of grace. But we submit that considerations alike of history and of present experience justify the claim which we make on behalf of the episcopate. Moreover, we would urge that it is now and will prove to be in the future the best instrument for maintaining the unity and continuity of the Church. But we greatly desire that the office of a bishop should be everywhere exercised in a representative and constitution manner, and more truly express all that ought to be involved for the life of the Christian family in the title of father-in-God. Nay more, we eagerly look forward to the day when through its acceptance in a united Church we may all share in that grace which is pledged to the members of the whole body in the apostolic rite of the laying-out of hands, and the joy and fellowship of a Eucharist in which as one family we may together without any doubtfulness of mind offer to the one Lord our worship and service.

Preliminary Steps.

VIII.—We believe that for all the truly equitable approach to union is by the way of mutual deference to one another's consciences. To this end, we who send forth this appeal would say that if the authorities of other communions should so desire, we are persuaded that, terms of union having been otherwise satisfactorily adjusted, bishops and clergy of our communion would willingly accept from these authorities a form of commission or recognition which would commend our ministry to their congregations, as having its place in the one family life. It is not in our power to know how far this suggestion may be acceptable to those to whom we offer it. We can only say that we offer it in all sincerity as a token of our longing that all ministries of grace, theirs and ours, shall be available for the service of our Lord in a united Church.

It is our hope that the same motive would lead ministers who have not received it to accept a commission through episcopal ordination, as obtaining for them a ministry throughout the whole fellowship.

In so acting no one of us could possibly be taken to repudiate his past ministry. God forbid that any man should repudiate a past experience rich in spiritual blessings for himself and others. Nor would any of us be dishonoring the Holy Spirit of God, Whose call led us all to our several ministries, and Whose power enabled us to perform them. We shall be publicly and formally seeking additional recognition of a new call to wider service in a re-united Church, and imploring for ourselves God's grace and strength to fulfil the same.

Mutual Sacrifice.

IX. The spiritual leadership of the Catholic Church in days to come, for which the world is manifestly waiting, depends upon the readiness with which each group is prepared to make sacrifices for the sake of a common fellowship, a common ministry, and a common service to the world.

We place this idea first and foremost before ourselves and our own people. We call upon them to make the effort to meet the demands of a new age with a new outlook. To all other Christian people whom our words may reach we make the same appeal. We do not ask that any one communion should consent to be absorbed in another. We do ask that all should unite in a new and great endeavour to recover and to manifest to the world the unity of the Body of Christ for which He prayed.

FULFILLS COAL CONTRACT.

(Canadian Press).

PARIS, Sept. 4.—Germany has fulfilled her coal contract and has delivered a million and a half tons up to the end of August.

"DANDERINE"

Stops Hair Coming Out: Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

...AT! BUY MORE VICTORY BONDS?

We should say so. If ever opportunity knocked at the door of every individual, it is there now.

Victory Bonds, backed by the whole of the Dominion of Canada, and tax free, are selling on a basis to yield the investor 5.68 per cent. to 6.37 per cent., the taxable issues can be purchased to yield from 6.24 to 6.27 per cent.

NEW PRICES.

Price	Yield
98 and int.	6.37%
98 and int.	6.15%
97 and int.	6.27%
97 and int.	6.00%
96½ and int.	5.88%
93 and int.	6.24%
98 and int.	5.68%

Dominion Income Tax.

The large purchasing orders which have resulted from these lower prices will quickly absorb the floating supply and higher prices will be the result.

We urge every investor who contemplates the purchase of Victory Bonds, to do so at once. You may feel at liberty to wire or telephone your orders at our expense.

Bonds are issued in denominations of $50, $100, $500 and $1,000, suitable for every type of investor.

Delivery of securities will be made free of all charges.

BEFORE YOU INVEST, CONSULT US.

LONDON, ENG. NEW YORK MONTREAL WINNIPEG

EGGS AND POULTRY

The market remains practically unchanged. Shrinkage in grading is very severe, and as a result the lower grades of eggs are accumulating and finding slow sale. Dealers are paying stores 58 to 60, f.o.b. Ontario country points. A car of firsts is reported sold for export at 70, f.o.b. seaboard. Exporters claim there is no profit under 73 f.o.b. seaboard. Toronto firm and unchanged. Montreal firm, jobbing specials 74 to 75, extras 68 to 69, firsts 58 to 60, seconds 50 to 53. Some export enquiries are reported, but no sales. Manitoba and Saskatchewan unchanged. Car seconds rolling Sault Ste. Marie 56 f.o.b. Brandon. Edmonton receipts very light. Wholesale $16.50 for straight receipts, cases included. Extras 59, firsts 55, seconds 47, cracks 37. Calgary firm with very light receipts. Packers paying 58 loss off, wholesale No. 1 selects $19, firsts $17.80. Vancouver firm and unchanged. Adjacent States firmer. Live poultry steady and unchanged. Maritime provinces, egg market firm and unchanged, poultry prices lower. Chicago current firsts 51 to 52, storage firsts 53½. New York current extra firsts 57 to 59, firsts 54 to 56. Detroit, some live fowl reported, 38 delivered.

DUCK SHOOTING NOT VERY GOOD

THIS IS ATTRIBUTED TO PREVAILING WARM WEATHER.

Vague reports from Chemong Lake would indicate that the duck shooting has not been as good, so far, as other years, due, it is said, to the warm weather.

At Rice Lake the same condition is said to prevail. Most of the Indians at the village are away flax pulling in Western Ontario, and there are few of them trying for the ducks.

There are many Americans shooting at Pigeon Lake, but no report of their success has yet been received.

The duck season closes on 15th December. The limit on the number of ducks is 200.

The license fee for non-residents of Ontario to carry guns, rifles, and firearms and to hunt and shoot is $25.00.

The Greatest Investment Bargain in Canada

The new prices for Victory Bonds make them the greatest investment bargain in the history of Canada.

Canada's great prosperity has taxed the financial resources of our manufacturing and mercantile establishments, and the banks are engaged in financing what is probably the greatest crop in Canada's history. To procure funds for necessary industrial expansion some lots of Victory Bonds have been liquidated. To such sources the present supply is largely due.

In conformity with these conditions and with the temporary rates for money the world over, the present price adjustments have been made.

5½% BONDS—FREE FROM DOMINION INCOME TAXES

Due	Price		Yield
1922 (1 DEC.)	98	and interest	6.37%
1923 (1 NOV.)	98	and interest	6.15%
1927 (1 DEC.)	97	and interest	6.00%
1933 (1 NOV.)	96½	and interest	5.88%
1937 (1 DEC.)	98	and interest	5.68%

INCOME SUBJECT TO THE USUAL INCOME TAXES.

1924 (1 NOV.)	97	and interest	6.27%
1934 (1 NOV.)	93	and interest	6.24%

If you are a holder of Victory Bonds there is no question as to security any more than there would be any question as to the goodness of sugar or other staple commodity, if there were a lowering of price. A wise man would take advantage of the lower prices and buy all he could. If you own any Victory Bonds hold them.

The present prosperity of the country as indicated by the splendid crops, increasing foreign trade, increased bank clearings, the unprecedented bank deposits, and numerous other factors, prove conclusively that Canadians are well able to keep up the record of 1918-1919 when they purchased $1,200,000,000 of Victory Bonds.

The current supply is by no means unlimited. As compared with the total purchased by the public in the last two years it is infinitesimal. Immediate advantage should be taken of the present prices. If you have funds available buy to the limit. VICTORY BONDS ARE CANADA'S ONE BEST SECURITY.

We are excellently equipped to serve you and your orders will receive our best attention.

quantities of catalogues, such as Eaton's and Simpson's delivered from horse or automobile vehicles, and that in offices where carriers are employed after their regular duties, to sort this matter, they be paid the regular rate of overtime.

The convention also recommended that any letter carrier who served in His Majesty's forces in the war, be given the privilege of transfering to any clerical position in the service, and be exempt from qualifying examinations, provided that he was a permanent employee in the service prior to enlistment.

A discussion on street railway transportation disclosed the fact that in some cities letter carriers are given passes and tickets in others.

The convention requested the Department that passesbe issued for use by the carriers when on duty and in uniform.

The Peterboro carriers had passes, Mr. Reid said, until the street railway was taken over by the Hydro Electriacl Association which advanced the price of the passes from $25 to $35 a man, which sum the Department would not pay.

Work Done for Nothing.

That large quantities of periodical magazine mail is delivered free or at a very low rate, burdening the carriers with onerous work from which the government derives no revenue, was asserted by one of the delegates in speaking on the resolution to reduce the period for reaching the maximum salary to not more than three years with a minimum of $1500 a year. The minimum is now $1380.

Delegates said that a carrier should become efficient in less or at least three years and there was no reason why his apprenticeship should exceed that period.

The educational value of newspapers was acknowledged by John Archer but he denied that there was anything educational in the Hearst Magazines which were purely antagonistic to the British Empire, but were delivered by Canadian Letter Carriers many of whom has served overseas. The revenue from them was only ¼ of a cent a pound. McLean Publishing Company's periodicals were delivered free within a forty mile radius of Toronto.

John Archer, Hamilton, said that when the Hon. Mr. Rowell mentioned a $3,000,000 loss in the Post Office Department, he was reminded of these free and cheap services, and told that the loss was not due to the men's salaries, but Mr. Rowell did not deign to reply.

Sunday Work.

"After all the efforts of our executive to secure a 44 hour week I am surprised that any one would stick up for a thing like that," said E. V. Browning of Toronto, in a comment on the remark of C. H. Taylor of Windsor, that the closing of the Post Office on Sunday to employees, unless they were on paid duty, would put an end to the practice some carriers made of getting their work ready for Monday morning deliveries.

"If carriers have too much work to do let them ask for help," Mr. Browning advised.

Other delegates told of the disadvantages of this Sunday work to carriers who prepared their mail at the regular hour on Monday morning. They were made to appear slow in starting their deliveries by those men who had done on Sunday part of the Monday morning work.

The resolution asking the department for an order forbidding the admission of employees to the post office on Sunday except when performing duties for which they were paid, was adopted.

The postmen want to see henceforth what they have to wear. They request that samples of all aparel for their use be submitted to the executive for approval before orders are given.

"They see to be handing out anything to carriers," said F. M. Healy. "The raincoats we got were supposed to be extra good, but you could almost see through them"

Examinations too Hard.

"So long as a man can read, write and spell, I don't see that a lot of the rest of it is needed for a letter carrier," said C. H. Taylor, of Windsor, in supporting the resolution asking that the examination papers which carriers are required to pass be made easier. Mr. Taylor said that the Windsor branch would favour the abolition of examinations altogether. "The additional lot is all punk," he said.

Discussing the question of the term of temporary service after which a carrier be made a permanent employee, Mr. Taylor said that the Windsor branch was seven men under strength. Windsor, he said, had the highest cost of living in Canada, and new men could not exist on the government's wage of $2.50 a day. There was a steady stream of men, some remaining a day or so and many for not more than a week.

The convention asked that any carrier after six months' temporary be made permanent.

Other Resolutions.

Other requests to the Post Office Department, were as follows:

"That an issue of money instead of boots be made to the Carriers before April 15 and October 15 each year;

"That all uniforms be made locally, by union labor where possible, and paid for by the government;

"That inspectors who investigate complaints be alloted distinguishing uniforms in order that they may be known to the carriers as inspectors, and the men promoted to this work be chosen from the ranks of the letter carriers.

"That the Department secure free transportation on government railways for letter carriers during their vacations.

"That for summer wear Panama hats be issued every two years instead of the Stetson; and that for winter a black Persian lamb cap of the present shape be isued every five years.

"That $12 for boot isue be given to all carriers twice a year.

"That lockers be supplied to each postoffice for the safekeeping of uniforms when not in use and that the keys be kept by the carriers.

"That two pairs of summer trousers with hip pockets be issued each year."

HOLY WAR IN MESOPOTAMIA.

British War Office Reports a Grave Situation in the Lower River Region.

LONDON, Sept. 2.—Another attack against Hillah, west of the Euphrates River in Mesopotamia, was launched by a force of 1,500 rebellious tribesmen last Thursday, but the attackers fell back under heavy shell fire, says an official statement issued by the War Office.

"The situation in the Muntefik area of Mesopotamia, that is, between the lower Tigris and the lower Euphrates, grows more ominous," the statement continues. "A violent holy war is being preached, and this tribe is expected shortly to throw in its lot with the insurgents. The situation around Samaweth also gives rise to anxiety. Movements of rebel bands have been observed and renewed attacks on our posts are expected."

Kakuba, a town thirty miles northeast of Bagdad, which was taken by Arab tribesmen recently, was occupied by Sikh troops on Saturday, according to a despatch from Bagdad. Only slight resistance was offered by the Arabs in the town, it is said.

The tribesmen in the Ramadi-Fallujah area of Mesopotamia have become definitely hostile to the British, but the British communication between the two places is still open, says a War Office statement.

There are signs of increasing restlessness in the Samarra division. The Sullimariyes division is in the main still steady, although some of the tribes are showing restlessness.

The communication says it is reported that in both the Dyala and Kirkup areas the disturbances are disjointed, and that except in Bakula they show no religious or nationalist colour, but are dictated almost wholly by opportunities for looting.

BLOOD PUMPED BY LUNGS, NOT BY HEART.

WASHINGTON, Sept. 1.—George Anston, of this city, has started a discussion among American scientists by inventing a machine which proves, he says, that the lungs and not the heart pump blood throughout the human system. He says:

"We breathe for two purposes: To force the blood into circulation and to keep our body heat in an even temperature.

"The air does not purify our blood, as the old theory tells us, but cool air cools the thin walls of the blood capillaries.

"Medical men in time will realise the truth of this proposition, and the science of physiology will be greatly improved."

OCEANS OF BEER.

SUDBURY, Sept. 1.—When the Sudbury Brewing and Malting Co. finishes up a contract upon which it is at present engaged, the name of Sudbury will be music to the ears of many thirsty citizens of the United States and Canada. The contract calls for the manufacture of 15,000 barrels of beer, each barrel containing 12 dozen bottles, so that the total amount of beer sent will be 2,160,000 bottles in all.

NATIVE OF DOURO HAS JOINED THE LOCAL POLICE FORCE.

Thomas W. Low, the Douro lad that has been added to the police force, has a name that is a misnomer. Low stands 6 feet 4¼ inches in his socks, and his mark on the measuring post at the station is two inches above any others. The young man promises to make a sturdy policeman, and one that will be looked up to.

Our September "Investment Guide" Is Now Ready

SEPTEMBER presents to the investor a period when many interest coupons and dividend checks are due, thus placing at his disposal surplus funds for re-investment.

Present conditions call for unusual care in the selection of investments, so that your funds will return to you the greatest income, consistent with safety.

For your assistance in selecting the proper securities we have compiled in our "Investment Guide" for September, a complete list of current offerings, which carry our recommendation.

These bonds are suitable for every form of investor, and for the investment of large or small amounts.

A copy of this issue will be mailed to your address upon application, and each month as published, without obligation.

Before you invest, consult us.

SPORTING NEWS, VIEWS AND GOSSIP

LORD DESBOROUGH, EMPIRE'S POPULAR SPORTING PEER, IN TORONTO SEPT. 16

WILL PRESIDE OVER NINTH CONGRESS OF CHAMBERS OF COMMERCE—MEMBER OF PARLIAMENT AND ALL-ROUND ATHLETE.

(By LOU. E. MARSH.)

TORONTO, Sept. 2.—Far just one day the athletes on the Canadian Olympic team of 1908 were bashful and ill at ease with Lord Desborough, the famous British sporting peer, who is to preside over the Ninth Congress of the Chambers of Commerce of the Empire, which is to meet in Toronto, September 16th.

After then it was "Dessy, old chap" —not quite as familiar-like as it sound, but toned to indicate a sort of a deferential spirit of comradeship which sprang up instantly between the Canucks and the titled sportsman who was head of the British Olympic Committee in charge of the games that year.

Today I asked Jack Tait, the Toronto winner, who was on that team, what he thought of Lord Desborough.

"Good fellow! Fine fellow!" he replied instantly.

To-day I asked Captain Elwood A. Hughes, manager of Sports Day at the Exhibition, who took Jim Corkery, the Canadian Marathon Champion, to England and won the Sporting Life Trophy, what he thought of Lord Desborough, who he met at that event.

"Good fellow! Fine fellow!" he replied instantly and entusiastically. "One of the finest sportsmen I ever met." and Hughes has met them from Athens to Stockholm, and from New York to Frisco.

Lord Desborough—good fellow—would be the caption of this if sporting men in Great Britain and her colonies had anything to say about it, for Lord Desborough is just as popular among South African, Australian and Indian athletes as he is among Canadians and those in the old country. Any man who can make and hold through forty years of active connection with sport a reputation as a "Fine Fellow" can stand on his own two feet in any company.

In Hall if Fame.

I know but mighty little about Lord Desborough outside of his sporting activities, but he certainly has now a niche in the sporting hall of fame. I was with the Canadian team at the 1908 Olympic in London and remember him there.

The first day he came into the training room at the station, and the boys were all introduced, they were very formal and ill at ease with him. The next time he visited us was during training hours. He sauntered in alone and promptly clapped the bare back of the athlete on the rubbing board. The latter, I think it was Walt Andrews, the cyclist, thinking it was one of the boys, rolled over and whacked his tormentor vigorously with a wet towel. When he found out who it was he sought to apologize, but Lord Desborough entered so heartily into the spirit of the fun that then and there he became "Dessy" to the entire team. In fact only J. G. Merrick and Morton Crow, the managers of the team, called him Lord Desborough around the Canadian training quarters.

And I found it was the same with the rest of the Colonial athletes.

All-Round Athlete.

Lord Desborough was in his day a real athlete. He made his athletic fame in open amateur competition and was an all-round sportsmn. He could run, ride, drive, row, punt, play cricket, fence, and swim with the best of them. He even swam the Niagara River twice from pure love of adventure. The turbulous water of Canada's mighty gorge attracted him on a visit here away back in the eighties, and he peeled off and proceeded to battle his way across.

Lord Desborough is of Cornish descent. He was born on October 30, 1855, the son of Mr. Charles W. Crenfell, who represented Sandwich and Windsor in the British House of Commons. He sprang into athletic fame at Harrow n 1868. He showed ability as a mile runner and bowled for his college against Eaton two years in succession. In 1874 he went to Palliol College, Oxford, where he took up long distance running and rowing and rowed for Oxford against Cambridge in 1877 and 1878. In 1877 he was in the crew which rowed the famous dead bear with Cambridge. It was a gruelling contest all the way but young Crenfell, like the rest of the lads, gave his every last ounce in the effort to win. The crew did come back on the row off and rowed Cambridge dizzy.

The unique honor of simultaneously holding the presidency of both the Boat and Athletic Club at Oxford fell to him in his college years, and he was subsequently president of the famous Marylebone Cricket Club. Along about this time, while spending a vacation in Switzerland, he ascended in eight days the Little Waterham the Rothhom, Monte Rosa the Matterhorn, the Weisshorn, a superb exhibition of strength, agility and stamina.

Member of Parliament.

After leaving Oxford in 1870 young Grenfell went in for rowing, and with his crew heard the finishing gun first in several notable events. Even after he became a member of Parliament he competed in regattas, and as a member of the famous Leander crew, rowed n a Grand Challenge Cup final, and held the amateur punting championship while a member of the House. He was fond of engaging in unique feats. Once he stocked an eight-oared crew across the turbulous English Channel, and with two others, sculled from Oxford to London in 22 hours. He was one of the founders of both the Queen's Club and Bath Club.

In addition to being president of the British Olympic Committee in 1908, he has always been a pillar of amateur sport in England, and is now president of the Lawn Tennis Association, the Croquet Association, and the Amateur Fencing Association.

Has Shot Big Game.

He has shot big game in India and Canada, angled for tarpon and other big fish, fenced, drives a four in hand, and in fact tackled everything in the sporting line that an English gentleman may engage in, from foot racing to elephant shooting, and has since he has left the nine active sporting events to younger blood had a place in the Government of about every sport worth while in the Old Country.

Lost Sons in War.

If you want to know anything about Lord Desborough's political, fraternal and social career you'll have to ask "Politicus" and "The Tattler," but I do know that when war broke out his two sons, Captain, the Honorable Julian Henry Francis Grenfell, D.S.O., of the Royal Dragoons, and the younger son, Honorable Gerald William Grenfell, of the Rifle Brigade, went to the front on the first call, served with distinction and both fell on "Flander's Fields."

Worked in War.

Lord Desborough himself engaged in war work, was Deputy Director of the War Office and was responsible for the protection of the Upper Thames bridges and the London Water Supply intakes, and was president of the National Motor Volunteers.

No man in England worked more incessantly or unselfishly during the war than Lord Desborough.

Includes All Basic Trades.

From the basic industries of the Empire, such as iron and steel, railways, sugar and grain, pulp and spinning, weaving and manufacturing, no branch of activity which has made the Empire great is overlooked in the representation of business leaders at the Ninth Congress of Chambers of Commerce of the Empire to be held in Toronto on September 16th.

Among the captains of industry who have announced their intention of taking part in the debates are men whose names are known wherever men of commerce meet together. Outside of Canada and Great Britain, both very widely represented, all other British Dominions and even foreign countries, in which there is a British Chamber of Commerce, delegates are coming.

Industries Represented.

A partial list of the industries represented is as follows:

Engineering, railways, shipping, iron and steel, spinning and weaving, leather, cotton, linen, wool, dress, hosiery, sugar, oil, jewellry, pulp, printing, straw, drugs, tools, foodstuffs, tea and rubber.

Overseas Delegates.

The overseas delegates who are now on their way to Canada include the following:

Rt. Hon. Lord Desborough, K.C., V. O., Bucks; Stanley Machin, J.P., London; A. J. Hobson, J.P. London; Hon. J. G. Jenkins, London; C. Cambie, London; Chas. E. Musgrave, London; A. J. Hobson, J.P., London; R. B. Dunwoody, London; J. A. Aiton, C.B.E., Derby; W. F. Russell, Glasgow; Arthur H. Smith, Aldershot; F. A. Darracott, Aldershot; C. G. Selfe, Streatham; Albion Williams, London; Alfred Aslett, J.P., Barrow-in-Furness; James H. Stirling, Belfast; Thomas Somerset, Belfast; H. G. Longford, Toronto; James Stanworth, J.P., Blackburn; W. COMRADES' FOOTBALL TEAM FOR MONDAY

The following players havt been selected: J. Young, goal; A. Nicholls, and R. Leach, backs; T. Bolam, H. Court and W. Yates, half-backs; C. Hopkins, B. Martin, M. Dunkley, W. Warman and F. Mallinson, forwards.

The oldest member of the new German reichstag is Frau Clara Zetkin, who is now past seventy-three years of age.

GOOD SHOW AT GRAND TO-NIGHT

'DON'T TELL" IS A HIGH-BLASS PRODUCTION—ORIGINAL SCOTCH CAST.

The new Bailee, yielding to the demands of his family, consents to hold a private rehearsal, at his home, of the duties he will be called upon to perform officially. The abilee, whose trade is plumbing, was suddenly elected to the Magistracy. During the mock-trial he discovers that his daughter is concerned in a matter which seriously affects the entire family. He continues with the trial, which he is urged to end quickly now by the nervous mother, the frightened sister and the apprehensive brother. On the first day of his official duties he will be called upon to pass the sentence on his own daughter. After the mock-trial he secretly gives his son a sum of money for the girl's bail. The mother does the same thing. The aunt also contributes, as does the younger sister. All of this money is placed in the hands of the brother, who is an inveterate gambler, and particularly fond of the races. He is admonished by each to keep secret the source of the money for the girl's bail lest the official dignity of the new Magistrate be endangered. This is the promise of the story upon which "Don't Tell!" is based. It is described as a new comedy of Glasgow life by Graham Moffat, the author of "Bunty Pulls the Strings." It will be presented here at the Grand this evening by William Morris, the manager of Sir Harry Lauder, who, after seeing the play in Glasgow, induced Mr. and Mrs. Graham Moffat, Miss Winifred Moffat and the entire original Scottish cast to make their first tour of America, and, to further assure play-goers of this country that they will see a typical Scottish comedy, he had Mr. Moffat bring over the original production with its quaint scenery, furniture and typically modern Glasgow gowns and furnishings.

VAUDEVILLE AT THE GRAND OPERA HOUSE

XCELLENT PROGRAMME FOR LABOUR DAY.

A certain rich man's daughter saw her father's valet reading a book.

"Is it interesting?" she asked.

"Quite," he replied, offering her the volume. "It was given to me by the best servant in the city."

On the fly leaf she read an inscription from her father.

"But my father is not a 'servant,'" she objected.

"We all are servants," answered the valet. "Your father may be a millionaire, be he is a servant—as I have said, a good one."

Events testified to the truth. The millionaire, in a desire to give his city better service in public utilities, became mayor. He was the instrument by which a great strike was settled. He drew closer capital and labour by establishing the profit-sharing system. He made his valet his chief secretary and aide.

And did the valet marry the rich man's daughter? He—well, see Frank Keenan in the new Pathe picture—"The World Aflame," which comes to the Grand Theatre for three days, beginning Monday. There you can watch the entire courtship, the culmination and the new-thought relationship of capital and labour all at once.

The programme will also include three acts of vaudeville.

Main Grandstand - Gentlemen 25c,

Moore and Murphy, clever comedians coming with the popular musical comedy, "MY SOLDIER GIRL," at the Grand Opera House, Thursday night, September 9th, with an all new 1920 edition.

PRETTY TUNES IN "MY SOLDIER GIRL."

Pretty tunes and captivating song hits occur incessantly in the new musical play with a military atmosphere, "My Soldier Girl," under the management of LeComte and Flesher and will be presented at the Grand on Thursday, September 9th.

It possesses more song hits than any other musical offering presented in years. The tuneful melody of "My Soldier Girl" is fast becoming the vogue everywhere, so impressive is this haunting melody that the audiences are heard to whistle after the first act or humming same, as they exit. The other effective song hits include, "Just For You, Dear," "LaVeeda," "Bundle of Love," "That Dixie Wedding Tune," "I Want a Regular Man," "Jasper's Ragtime Band," "New York" and "When You Dance with the Girl You Love."

UNIVERSALS BEST TEAM WILL MEET THE PETES

The Universals of the Riverdale League, Toronto, who play the Petes here on Labor Day morning at Riverside Park are a real ball club is shown by the fact that they wound up their League season by winning seven games in a row and were right at the heels of the Classics. They are bringing their whole team for Monday's game, the squad arriving here to-morrow night. The game on Monday will undoubtedly attract a big crowd of fans and will give a line on the Petes' chances when they tackle the Toronto winners two weeks from to-day.

CLAIMS MOTOR LAW IS NOT FAIR TO DRIVERS.

TORONTO, Sept. 2. — President George Hodgson, of the Ontario Motor League, in an address at the regular luncheon of the Kiwanis Club here, stated that 75 per cent. of the automobile fatalities of last year were due to carelessness on the part of the pedestrian who was struck, and he claimed that the present law regarding motor accidents is against all sense of British fair-play and justice as far as the motorist is concerned. He stated that the way the law was at the present time the onus was put on the driver, and he was practically considered guilty until he proved himself innocent.

He also furnished advice to the city for lessening of congestion on certain streets after the city has taken over the Toronto Street Railway system. Mr. Hodgson advocates the removal of street car tracks from certain of the principal main streets, including Yonge Street, and suggested that only single tracks be laid on any streets running north and south between Sherbourne and Spadina, and also on King, Adelaide, Richmond, and Queen Streets.

THE KING WORE RACING COLOURS IN NECKTIE

"NUTS" IN LONDON IN QUANDARY TO FOLLOW FASHION.

LONDON, Sept. 3.—The "Nuts" as the men who adopt every dress fad are known, are in a terrible quandry. King George set a new fashion at Goodwood by wearing his racing colors in his necktie. The King could do this, his colors being a natty purple and gold. The Early of Derby might get by with a black and white, and "Jimmy Rothschild" close to royalty, with a dark blue and yellow, but London is waiting agape to see "Solly Joel" blazing where Mary wore her beads, in violet, green and pink.

The Marquis Cholmondeley's valet is suffering from insomnia as a result of arranging the marquis' scarf in blue, red and yellow. Lord Astor, who is already viciously described as "Lady Astor's husband," trembles before the possible necessity of appearing in light blue and pink neckgear opposite Horatio Bottomley's blatant vermilion, black and white.

Speaking of black and white, as much as it is possible to speak in these "dry" days, Sir James Buchanan may risk mixing trade with sport by wearing neckties of the screaming colors once so familiar to many New York bars, and "Johnnie" Dewar of happy memory may break out in a Highland tartan. Lord D'Abernon, British ambasador to Berlin, may walk in Unter den Linden wearing a snappy blue and turquoise, while Richard Croker sports his pale blue and old gold at Leopardstown, yielding the tiger's yellow and black to the Duke of Westminster.

Lord Rosebery wears a combination of primrose, while Mortimer Singer, popular American horse owner, impersonates a soda fountain in light blue with chocolate stars.

White collars for men have received their death sentence, for according to the clothing and outfitting trades exhibition at the Agricultural Hall, London, well dressed men in the future will be wearing clothes that match in a color scheme.

Tangerine, lemon, cherry and lilac—the whole fruit and flower kingdom has been ransacked for hues—shirts, collars, ties and socks are to be worn. The cry of the outfitter is for color—but color to match. The jazz effects that followed the armistice have been doomed to extinction.

If a man's tangarine colored shirt arrives home safely from the laundry let him tak care that his one and only clean collar is not of lilac tint. If he finds that his lemon colored or washed out khkai socks want mending he must not offend against taste by temporarily wearing his cherry half hose with his other lemon garments in a walk down the Strand.

SAYS HE KNEW NOTHING OF BAG PACKED WITH LOOT

WINDSOR, Sept. 1. — Although he was found sleeping in a bed in the home of George Rason on Victoria street on Sunday night, Charles Smith in the police court stoutly insisted that he knew nothing of the affair. Neither was he able to explain the presence of some $500 worth of Rason's silverware found in a bag beside the bed in which he lay sleeping when the police arrived and took him into custody. Smith was found guilty of burglary and remanded for a week.

Some of the gorgeous girls with F. Stuart's 5th and greatest pantomime, "THE BABES IN THE WOODS," at the Grand for one night only, Friday, Sept. 10th.

The annual engagement of Mr. F. Stuart Whyte's English pantomime at the Grand Theatre has become the outstanding event of the season with a great majority of the local playgoers. Mr. Whyte brought his first company to Canada five years ago, and each production since then has been more elaborate than its immediate predecessor. This season the fairy legend of "The Babes in the Wood" has been chosen as the background for Mr. Whyte to draw the series of brilliant, scenic and costuming displays, which, together with the usual bevy of stunning girls and abundance of clean comedy, has gone to make the name of this clever British producer stand for all that is wholesome in theatrical entertainments.

"Babes in the Wood" will be the attraction at the Grand Theatre on 10th September.

"WESLEYAN" IS NEW DANCE.

Dancing Masters Hope Church Will Approve Latest Step.

NEW YORK, Aug. 31.—The only dance approved by the National Association of Masters of Dancing is the "Wesleyan," which was adopted at the closing session of the convention at the Astor Hotel. The new dance, it was announced, is one which the dancing masters hope may gain the approval of the Methodist church. It is above reproach, they say, and for that reason was named for the founder of the religion that his disapproved of dancing.

The 'Wesleyan' resembdes the waltz although it is somewhat slower and is more graceful than the old time minuet. It was adopted as a supplemental dance to the one step, fox trot and waltz previously approved by the dancing masters. It is believed that it will appeal to the very young and the more mature dancers. A description of the dance as issued at the convention follows:

Gentlemen's part given here, partner counterpart: Left foot forward, count one; right forward, count two; left forward, count three; right forward, half turn; left foot to side, count two; draw right to left, count three; half turn to right; walk back right, back left, count one, two, three; right back, turning left; left to side; draw right to left, count one, two, three; left to side, count one, two; draw right to left, count three; left side, count one, two, three; right footforward, making one waltz turn to right, count one, two, three, four, five, six. (Eight measures.) Repeat from beginning, but starting with right foot with reverse turns.

JUSTIFY INCREASES.

(Canadian Press).

TORONTO, Sept. 4.—Hon. Manning Doherty says the Milk Commission's report will justify increased price.

BIG PROGRAMME FOR THE GRAND

The programme at the Grand on Monday night is particularly appropriate for Labour Day, for the feature picture is based on the relationships between Capital and Labour. "The World Aflame," with Frank Keenan in the leading role is a particularly timely picture. In addition there are three big vaudeville acts, the three Sangers in a comedy novelty bicycle act, Clown Sanger and his boxing dogs and the Great Anderson, magician and conjurer. This programme will be repeated on Tuesday and Wednesday with daily matinees.

YOUTHFUL PROFITEER.

LONDON, Sept. 2 — A local junk peddler was the victim of profiteering this morning at the hands of a small boy, while on his rounds on Nelson Street. The victim purchased a bag of rags from the young profiteer and placed them on his wagon. While busily engaged purchasing junk at the house next door the youth visited the peddler's wagon, and proceeded to remove therefrom the rags he had just sold.

He accomplished his mission and took the rags into his house, locking the door. The peddler, returning to his wagon, was astonished when he missed his recent purchase, and his suspicions being aroused, he rushed to the house of the boy and loudly banged on the door. After much persistent knocking the lad came to the door. By dint of persuasion the peddler recovered his goods. He drove away rapidly, apparently distrustful of the entire neighbourhood.

SCRATCH MY BACK

CORN KILLED CHILD.

Following an operation, when a kernel of corn was taken out of her windpipe, Frances James, eighteen months old daughter of Mr. and Mrs John James, Lanark county, died in the Ottawa hospital The little girl is said to have found some grains of corn on the floor at her home a week ago, but her parents did not know she had swallowed anything.

Overland

Canadian Women

Find Marked Advantages in This Sedan

DAINTY summer dresses are safe in this Sedan. In sudden storms you raise the windows and *drive on*, with view unobstructed.

"Sun out again"—windows are lowered to breezes, but hot rays do not penetrate the permanent top. When leaving the car, parcels or wraps may be locked in.

Women particularly appreciate the wonderful comfort of *Triplex* Springs—ending all fear of rough roads.

Because of light weight this car is easy to handle and very economical. You must see this Canadian car to realize how perfectly it meets Canadian requirements.

ATHLETES

"ABSORBINE JR." Makes an Ideal Rub-Down.

Football and lacrosse players, tennis and golf enthusiasts, runners and oarsmen, find quick relief from bruises and muscle soreness after a brisk rub-down with a trainer's wash made of one ounce of "ABSORBINE JR." and a quart of water or witch hazel.

This wash—used by many prominent athletes, physical directors and trainers—is healing, soothing, strengthening and invigorating. Puts vim into tired, lame muscles—wonderfully effective in strains and wrenches—prevents "next-day" soreness.

"ABSORBINE JR." keeps the muscles pliable and in proper tone.

Keep a bottle of "ABSORBINE JR." in your locker. $1.25 a bottle—at most druggists or sent postpaid by W. F. YOUNG, Inc., Lyman Building, Montreal. 84

UNION SERVICES OF GEORGE STREET AND ST. PAUL'S.

The union services will be continued to-morrow in George Street Methodist Church in the morning and St. Paul's in the evening. The services will be in charge of Rev. R. Pogue, who has returned from his holidays. As to-morrow is Labour Sunday, his morning message will have special application to labour and social conditions.

LABOUR DAY SERVICES IN TRINITY AND ST. ANDREW'S.

At the Union services to-morrow in Trinity and St. Andrew's the Rev. F. E. Malott will deal with the great questions of the day. This will be the last Sunday of the Union services. Men of all classes are invited.

The Sunday school service of both churches will be held at 3 p.m., again, in their respective halls. All the classes are asked to rally to-morrow. Teachers and officers are requested to be in their places.

Social and Personal

Mr. Geo. W. Hall, Dalhousie street, announces the engagement of his daughter, Keturah, to Mr. Donald J. McLeod, of Detroit, Mich., son of Mr. and Mrs. S. McLeod, Lake street, city, the wedding to take place on Sept. 22, 1920.

Mr. and Mrs. J. H. Lowes, Sherbrooke street, accompanied by Rev. O. C. Fee and Mrs. Fee, Pittsburg, U.S., left the city to-day for Gananoque, Toronto, Buffalo and Detroit.

Mr. and Mrs. J. H. Glass, Cameron street, south, are spending their vacation in Gananoque.

Miss Letha La France has returned to her home after spending a pleasant a week in the city with her sister, Mrs. J. H. Glass.

Mr. and Mrs. Fry, 175 Rubidge Street, accompanied by their niece, Miss Reynolds, left on the morning train for Toronto to the Exhibition.

Mr. William Trussler and son Lynn, of Sherbrooke, Que., and Mr. Joseph Trussler and sons, Paul and Alan, attended the Canadian National Exhibition yesterday.

Mr. and Mrs. H. C. Huffman and family, Mr. and Mrs. I. D. Moore and family, and Mr. and Mrs. E. J. Searight, who have been summering on Chemong Lake, have returned home.

Mrs. J. E. Emmerson left to-day to spend a couple of weeks with her sons—Arthur of St. Catharines and Frank of Merriton.

Miss Ada Chambers is spending the holidays with friends in Toronto

Miss Harrington left to-day for a couple of weeks' camping trip.

Mr. Peter Moffat is visiting relatives in Toronto over the week-end.

The families of Mr. and Mrs. Louis J. LeClair and Mr. and Mrs. W. G. Menzies, Reid Street, who have been summering at Maple Grove Cottage, Belmont Lake, returned to their homes in the city to-day.

The Misses Isobell Millar, Lois Gourlay, and Ena M. Appleby left this morning for Toronto, where they will spend the holiday.

Mr. and Mrs. Reginald Lockhart motored to the city to-day to spend the holiday with Mr. and Mrs. A. J. Robertson.

Mr. and Mrs. John Barnes and family motored down to Hamilton to spend the vacation at her sister's, Mrs. James Smith.

Miss Marguerite Walsh, Patterson Street, is spending the holiday with friends in Hastings.

Mrs. Alan Christie and Miss Katie, of Port McNichol, are in the city, visiting Mr. and Mrs. W. S. Clarke, Roger Street.

FAILS TO SWIM CHANNEL.

LONDON, Sept. 4.—For the second time a woman has attempted to swim the English Channel, and failed. Mrs. Arthur Hamilton, daughter of the late Sir Charles and Lady Fairlie Cuninghame, started from St. Margaret's Bay Thursday evening at 6.10 o'clock with Cape Gris Nez near Calais as her objective. She was forced to abandon the attempt near the South Goodwin Sands.

Mrs. Hamilton was the first woman to make the trial since Annette Kellerman failed 15 years ago. Mrs. Hilda Willing, an English woman, intends to attempt swimming the Channel in the near future.

Is a wise investment This is emphatically true of any Warne Diamond.

We offer you high quality and best value, because our selections are from expert European cutters

WARNES
DIAMOND HALL

WEDDING BELLS

MATTHIAS—HAY.

A quiet but very pretty wedding was solemnized at St. Luke's Church on Saturday, the 4th September, at 1.30 p.m. by the Rev. W. H. White, when Miss Frances Isabel Hay, daughter of the late Thomas A. S. Hay, Esq., and Mrs. Hay, was married to Mr. Chas. D. Matthias, son of the late Mr. and Mrs. William B. Matthias, of Peterborough.

Owing to bereavement in the bride's family, only the immediate relations were invited, but a number of friends of both bride and groom were present in the church, which had been prettily decorated by the girl friends of the bride.

The bride wore a sand coloured suit embroidered in blue, with blouse and hat to match. The bridegroom is a veteran of the great war, having served overseas for five years with the Fort Garry Horse.

On their return from their wedding trip, Mr. and Mrs. Matthias will spend September at Chemong, and will later live at 192 McDonnel Street, Peterborough.

GODFREY—CHRISTIE.

On Wednesday, 1st September, in George Street Methodist parsonage, the wedding was quietly solemnised, Rev. Mr. Young officiating, of Elizabeth Lavina Christie, of Otonabee, and Frank Godfrey, also of Otonabee.

Immediately after the ceremony, the wedding party drove to the home of the bride's parents, Mr. and Mrs. E. Christie, Otonabee, where a wedding breakfast was served. They will reside in Otonabee.

OBITUARY

MICHAEL GANNON.

Death removed one of the most widely known residents of Ennismore last night in the person of Michael Gannon, aged 79 years. The deceased is the eldest son of Mr. and Mrs. John Gannon. Some fifty years ago the father died but the mother is still living, although she has passed the century mark by two years. On March 21 next she will be 103.

The deceased was but a year old when his parents moved to Gannon's Narrows. Shortly after they took up residence in the house in which the deceased has lived and died, a small log structure at one time a Hudson Bay Co.'s post. Mr. Gannon had necessarily led a strenuous and active life. Farming in those days was many times harder than to-day and when Michael was only a young man, John Gannon died, leaving the son to run the farm. There were ten children in the family. Sarah, Michael, Bernard, Mary, John, Annie, Helen, Celia, Stephen and Margaret. Of these three survive, John who farms the original farm, Annie and Ellen at home.

The strength of the deceased had been failing for some time and his death was not unexpected.

The funeral will take place from the family residence, Gannon's Narrows, on Monday morning at eight o'clock to St. Martin's church and cemetery, Ennismore.

SCHOOL BOARDS FAIL TO REPORT TO INSPECTOR.

Public schools in Victoria County opened Wednesday for the fall term, while Qmemee High School as well as the Collegiate Institute at Lindsay will not open until Tuesday of next week.

In conversation with Public School Inspector W. H. Stevens that gentleman stated that many of the school boards in the county have failed so far to report to him the name of the teacher engaged for the coming term and the salary. There have been a large number of changes in teachers, but the Inspector understands that all vacancies have been filled. At least one-third of the boards, however, have failed to notify the Inspector as to the changes in the teaching staff.

A New School.

Several of the schools have been renovated and improved during the year, while a brand new school will be opened at Bexley Village in Bexley Township. This new school will replace the old one which was removed.—Watchman-Warder, Lindsay.

AUTO AND CAR COLLIDE FOUR SEVERLY HURT

TORONTO, Sept. 4.— When the motor car in which they were proceeding east on Hayter street was struck by a College street car, Mr. and Mrs. Joseph Devitt and their two children, of 30 Northview Avenue, Scarboro, were thrown out of the auto and injured. Mr. and Mrs. Devitt are suffering from head injuries and the two children from shock. All were able to go home. The accident happened at Hayter and Terauley streets.

SUDDEN DEATH THIS MORNING

MRS. M'EALE WAS FOUND DEAD IN BED.

Mrs. Catherine McHale Somers, of Ottawa, died suddenly this morning at the residence of her son-in-law, Mr. J. R. Corkery, 303 Boswell Avenue, where she had been visiting for the past two weeks.

Deceased had been in her usual good health until last evening, when on returning from church she complained of pain about her heart, but no serious consequences were feared, and she was found this morning dead in bed, having passed away through the night.

She leaves of the immediate family one son, Mr. W. P. Somers, of Ottawa, and two daughters, Mrs. J. R. Corkery, of this city, and Mrs. N. D. Kelley, of Ottawa.

The funeral will be announced later.

ANOTHER GOVERNMENT SHIP TO BE READY THIS MONTH.

(Canadian Press).

MONTREAL, Sept. 4.—Another addition to the fleet of the Canadian Government merchant marine will be made about the middle of this month, when the Complete Canadian Runner will be turned over to the company by the Canadian Vickers, Ltd. Launched on May 8, 1920, from the yards of the Port Arthur Shipbuilding Company, the vessel is of 4,350 deadweight tons, and had to be cut into two sections to come through the Lachine Canal. The bow section is already at Vickers and the stern is expected to arrive to-day. She should be ready to sail, probably for the United Kingdom, about the end of the third week in September.

PROCLAIMS NEW STATE.

National Flag Will Be the French Tri-colours.

(Canadian Press.)

PARIS, Sept. 4.—The proclamation of the new state of Lebanon was made at Beirut on 1st September by General Gouroud, the French High Commissioner for Syria. The new state will be bounded on the north by the River Kabir, from which it will extend southward to Palestine frontier, and its eastern boundary is fixed along the hills to the east of Lebanon.

Beirut, the chief city of the country, is named as the seat of government, which has been granted administrative autonomy.

The national flag will be the French tri-colour, with the cedar of Lebanon on the white part of the banner.

HUDSON BAY CO. PLANS STORE TO COST $5,000,000.

(Canadian Press).

WINNIPEG, Sept. 4.—Immediately the Simon scheme for a mall, leading up to the new Parliament Buildings, on which there will be a street car service, is approved by the City Council, the Hudson Bay Company will embark on the preliminary work in connection with the erection of a $5,000,000 store on Portage Avenue, according to a statement by Ald. A. H. Pulford. Written assurances to this effect, he said, had been given by the company, which would likely make a start with actual construction next spring.

G. T. R. TRAIN STRUCK MOTOR CAR SIDEWAYS

Otherwise all of its Occupants would have been Killed.

WOODSTOCK, Sept. 4. — Shortly before noon on Thursday a G. T. R. express struck the auto in which Mrs. James Goodwin and her two little sons, aged five and three were driving. Mrs. Goodwin escaped uninjured, but the two children were hurt.

Mrs. Goodwin was driving out of the farm, the driveway runs parallel to the railway crossing one mile to the south of Drumbo village. She did not see the train and it struck the car sideways, both being headed in the same direction. If the automobile had been going at righ angles to the train all would have been killed. As it was the car was smashed, and the five year old child was thrown into the ditch, suffering injuries which are expected to prove fatal at almost any moment. The other child was uninjured, but has a chance of recovery.

(Canadian Press).

OTTAWA, Sept. 4.—The present population of Canada, based on Ottawa, is estimated at eight million seven hundred and fifty thousand.

NEW OIL FIELD.

(Canadian Press).

HAILEYBURY, Sept 4.—Oil prospectors stake territory for three miles along the shore of Lake Timiskaming.

WILD GRAPES ON THE MARKET

With a pencil which could scarcely work quickly enough a woman at the market this morning booked orders for wild grapes of which she had a sample pail on hand. Pushing and shoving one another out of the road her customers murmured about "delicious grape jelly," and ordered as many as three pails at 45c each, confiding in undertones something about "ten days' fermentation," which would hardly apepar to have any bearing upon jelly.

Slow Sales.

The outside market bore a strong reminder that Hallowe'en is in the near future, so laden were the farmers' waggons with apples, grapes, squash and pumpkins, the latter making their maiden appearance on the market this year. So overburdened were the carts and so many that the farmers had some difficulty in disposing of their supplies.

Apples bulked the produce and sold as low as 15c a peck for excellent Duchess and 25c and 30c for later varieties. Most of the farmers claim that the shoppers had better make the most of the early varieties as the winter crops is a failure locally.

Tomatoes were high, due to the price of baskets. If the people had been less wasteful last year, one of the farmers said, and had retained the fruit baskets they used as kindling wood the price would have been about 25 and 30c. As it was however with baskets retailing at 15c each they were forced to charge 50c for a peck basket. The growers claim that they cannot market them satisfactorily by the peck as too many become bruised and broken in transit.

Beets were sold for the first time by the peck to-day and brought 40c a peck. Onions were a little easier, selling at 70c and 75c a peck.

Potatoes Higher.

Potatoes reached a higher level this week, selling at $1.75 a bag, and 30c a peck. The late crop however will probably help in bringing them down by next Saturday.

Honey was plentiful, selling at 30c a pound and $1.50 a 5 lb. pail.

Monster pumpkins sold at 20 and 25c each, and are said to be plentiful this year. Squash sold at 10 and 15c each; celery at 10c a bunch; carrots at 5c a bunch; cabbage and cauliflowers at 10c and 15c each; gherkins at 50c a basket, red peppers at 75c a basket; pickling onions at 60c for a small basket, and cucumbers at 3 for 5c.

Indoor Market.

In the indoor market fowl was plentiful and prices a little easier than last week. Chickens sold at 30c and 35c a pound, and $1.25 for an anaemic looking pair; ducks sold at 30c a pound and $1 and $1.25 each.

Butter was on the upward grade, selling at 65c and 67c a pound, 2c in advance of what it can be bought from the creameries.

Eggs sold at 58 and 60c a dozen — last week's prices repeated.

FORMER PREMIER'S ESTATE OF $14,411 GOES TO WIDOW.

TORONTO, Sept. 4.—Authority to administer the $14,411 estate of the late Lady Mildred Peel Ross, widow of Sir George W. Ross, former Premier of Ontario, was granted the Royal Trust Company Thursday. Lady Ross, who died at Santa Barbara, Cal., in her will left to her sister, Daisy Peel, $9,335 in stock and $3,923 cash in the bank. To her niece, Mildred Belden, she left an oil painting of herself, and bequeathed the painting of her brother, Paul Peel, to her brother Fred. The paintings by her brother, Paul Peel, "The Dancing Doll," she directed should be sold and the proceeds divided between her brother Fred and sister Daisy.

CHIROPRACTIC FOR RHEUMATISM

Pressure upon nerves at the point where they emit from the spine causes an abnormal functioning of the organs or parts supplied by those nerves. If the nerves affected are the ones supplying the organs of elimination the waste and poisons which are normally thrown off or eliminated from the body are left to accumulate within the system. These poisons working into the cells and tissues of the body gradually work a structural change and if allowed to progress, form tiny crystals in the body tissues. The joints, muscles, etc., may be affected and the suffering produced be very severe.

The Chiropractor removes the pressure which the misaligned vertebrae produce on the nerves which control the organs of elimination. When these organs receive their normal amount of nervous energy or mental impulse they function normally. The poisons are thrown off, the crystal formations being dissolved, and the normal lymph and blood supply is again established. Why not investigate and find out what Chiropractic Adjustments will do for you?

VOL. XVLII. NO. 56 PETERBOROUGH, TUESDAY, SEPTEMBER 7, 1920 PRICE THREE CENTS

20,000 Miners Expected to Return to Work After "Vacation"

A SEVERE STORM SWEPT OVER CITY LAST EVENING POWER SERVICE CRIPPLED

THEATRES WERE UNABLE TO COMPLETE THEIR PROGRAMMES—LIGHTNING STRUCK TWO TRANSFORMERS.

CANDLES USED

As a result of lightning striking two transformers at the high tension power house at Auburn at 9.35 last night the city was without lights from 9.35 to 10.45 o'clock and in some sections longer. An explosion took place when the transformers were stauck and the Fire Department was called but no fire followed.

The entire city was in darkness and the motor fire truck ran to the power house through unlighted streets, the men dazed by the rapid and vivid flashes of lightning.

George Street was as dark as a backwoods road and in the dim light thrown here and there by candles in theatres and restaurants glimpses could be caught of staid citizens following inclinations which would have gone unsatisfied in the light of day or arc lamps. At the railway stations the partings were prolonged under the shroud of darkness and when the lights came on suddenly at 10.45 o'clock the streets were the scene of sudden and embarrassed returns to the decorum demanded by Hydro illumination.

The theatres and restaurants were especially inconvenienced by the cutting off the power which came just as the crisis of most of the "movie" dramas were developing. Candles were secured and the ushers turned their flashlights back and forth through the theatres while the orchestras did their best to keep the audiences entertained. As it became apparent that there was little hope of the power being turned on before a late hour it was decided to close the theatres.

Guttering candles supplied the light in the restaurants and ice cream parlors and some closed as soon as the power was turned off.

At Best's Corners the storm was exceedingly severe, and hailstones fell with such force that several windows in homes were broken. The station platform was covered with hail to a depth of about half an inch.

Douro Hit.

In Douro the thunder and lightning kept up almost continuously for two hours. Three cows owned by John Lloyd were killed by the lightning, while on the pasture near his house.

Bridgenorth and the surrounding country was visited by the severest hailstorm of years last night. Hailstones as large and larger than marbles pelted down for 15 or 20 minutes. Farmers were to-day congratulating themselves that the storu had not visited them a few weeks ago, when serious damage would have been done to the crops. As it was, a few broken windows was the extent of the damage. Summer visitors at Pigeon Lake were treated to an electrical display that rivalled anything ever shown at Toronto Exhibition. The storm moved nearly around in a circle beginning in the west. This morning it was raining on the lake, but showed some signs of clearing up.

GETTING READY FOR THE CONGRESS

LABOUR DELEGATES WILL MEET IN WINDSOR NEXT WEEK

(Canadian Press)

OTTAWA, Sept. 7.—From Vancouver to Sydney credentials are being received from delegates who will attend this year's Dominion Trades and Labor Congress at Windsor. A resolution touching on almost every subject of interest to Labor have been received, and it is expected that chief interest will centre around discussion on the Industrial Disputes Act, cost of living, Workmen's Compensation Acts and immigration of workmen to Canada. Many workers in this country feel that Labor is being brought in from other countries without any reasonable prospect of work being found for them upon arrival. Political activities of workers are also expected to be freely discussed.

Every preparation has been made at the Border City to find quarters for hundreds of delegates who are expected to attend the city next week.

G.W.V.A. MEETING.

U. S. ARMY AVIATOR KILLED IN DOING AERIAL STUNTS

DETROIT, Sept. 7.—Myron L. Tinney, former United States army aviator, fell 50 feet to his death last yesterday, while performing aerial acrobatics at the State Fair Grounds. Tinney's 'stunts' were similar to those performed by Omer Locklear, who was killed several weeks ago.

In an attempt to catch a rope-ladder on which he was to climb from one plane to another flying above him, he missed his hold and plunged from the top of his machine. A crowd estimated at nearly 200,000 witnessed the accident.

Tinney was in the flying service at a Texas training field when the war ended.

STABILITY IN GRAIN MARKET

THIS IS DESIRED BY THE MILLING INTERESTS

It will be October 1 before the grain market becomes steady, a local miller told the Examiner to-day. The wheat prices are very unsteady and the mills prefer to have a nominal price quoted. Considerable grain is coming into Peterborough, he stated, much of it coming up on the boats.

Practically all the vegetables that are grown in this country are now on the market and the price in almost every instance is lower than has been the case for several years. Potatoes are now selling at $1.50. Tomatoes are quoted at 50c. and 55c. This week will either show a rise or fall in the price of tomatoes stated a local fruit dealer, but a rise is expected by the majority. Two more weeks will see the end of the crop. Prices of other vegetables show very little change.

Plums are selling at 75c. and 85c. a basket or by the quart 2 for 25 cents. Peaches are selling at $1.15 and $1.25 a small basket. Niagara blue grapes are coming on to the market and are retailing at 20c. a lb.

WHARVES ARE IN BAD CONDITION

The "Examiner" directed attention a short time ago to the shameful condition of the government wharves along the river and at Gore's Landing. Nothing has been done to improve the condition of any of these public approaches, and the disgraceful state of repair still remains, a reproach to those in charge of the work. In some cases the planks of the tops of the whaves are almost entirely destroyed and left bare of covering, exposing the rough stone work below. Rotting planks cause breakages and holes to appear that are unsafe to walk over, and unless some attention is given to this work serious accidents are liable to happen.

Mr. A. L. Killary, Superintendent of the Trent Canal, when spoken to in regard to the above communication, declined to make any statement and resented the publicity given to this and the breakdown of the Lift Lock on two holiday occasions.

WILL NAME CANDIDATE

Canadian Press.

OTTAWA, Sept. 7. — The postponed convention for the selection of a government candidate in East Elgin by-election will be held at Aylmer on Friday next. Sir George Foster, the Minister of Trade and Commerce, will speak.

EXHIBITION VISITOR LOST SEVENTY DOLLARS

Melville McWilliams, of Bridgenorth, found that a trip to Toronto cost him far more than he ever figured on when he left Peterborough last week to see the Canadian National Exhibition. He also discovered why women keep their bills in the National Bank and why men sew any spare green backs they may have in between the lining of their vest or some such concealing place. Mr. McWilliams was relieved of $70 while boarding a North Toronto car. The unsuspecting visitor to the Exhibition was helping a lady on with her luggage after he had put his wife on the car, and he believed it was then he was relieved of the bills. Later he discovered his loss and reported to the police but little hopes are held out for the recovery of the money. He notified friends in Bridgenorth of his loss over the 'phone and came home the following day.

Defection Spreading

SOVIETS ARE RUSHING GREEN TROOPS TO SCENE OF DISORDERS

(Canadian Press.)

HARBIN, Manchuria, Sept. 7.—Soviet authorities are rushing all available Siberian troops largely Austro German war prisoners to West Siberia in an effort to quell growing uprisings. Petrograd and Perm districts likewise are mobilizing according to reports received here. Defection has spread to Ural and Orenburg Cossacks and Southern Urals who have joined Bashki and Tartars. Insurrection at Nikolasivsk in Samara Province, is spreading north along Volga because of lack of harvests, harsh requisitions and mobilizations. Green troops of Kostruma and Yaroslavi Governments in Moscow region are carrying on guerilla warfare and destroyinf communications. Reports regarding crop failure in Russia forecast worse famine than that of 1891.

MINERS GOING BACK TO WORK

TWENTY THOUSAND ARE EXPECTED TO TERMINATE VACATION TO-DAY

(Canadan Press)

WASHINGTON, Sept. 7.—Twenty thousand miners were expected to return to-day from their "vacation" and resume work in mines adjacent to Wilkesbarre, according to reports received by the Department of Labor. It was predicted that ten collieries would be re-opened in the Scranton division. The Department of Labor officials stated to-day that optimistic reports also were being received from Pennsylvaniia, where it was thought that all miners would have returned to work by the end of this week.

LIST OF CHARGES WAS NOT COMPLETE

DISMISSED MEN SAY THEY HAD GIVEN ONLY AN INDEX OF CONDITIONS

The Fire, Water and Light Committee's report that an investigation of the Fire Department, as requested by the Trades and Labour Council, is unnecessary, is expected to be adopted by the City Council at their regular meeting to-night. Several days before the committee prepared its report two of the firemen who have been dismissed stated that they had not presented anything like a complete list of deficiencies in the management of the Department. They had felt that the charges they had listed were of sufficient seriousness to impress the committee with the need of a sweeping investigation rather than contenting themselves with a hearing of the written charges the men had compiled. They feel aggrieved with the treatment they received by the committee, stating that they were closely questioned on every point by Aldermen Gordon, Whitehouse and Jones, while they in turn had no opportunity of questioning those firemen who were called in addition to the signatories of the list of complaints. The men point out that the Aldermen placed particular emphasis upon the lack of employment at the Fire Hall as if the men were themselves to blame for that condition. This, the dismissed men say, was one of the conditions which they complained of, and they say that the responsibility for the idleness rested wholly upon the Chief and the senior officers.

"They made a lot of the fact that all that the men did was a little dusting," commented one of the dismissed men, "but there has been no real censure of the officers who allowed that condition to prevail for two years. It was their duty to lay out work, exercises, lectures and a general programme if they had any ability to teach the firemen anything. And that condition continued two years. We could have told of the work and training we got in Howard's time. The committee ratifies the dismissal of the three men, but do they expect, and do the citizens expect, that the officers who did nothing in the two years while the men were 'only dusting' are likely to show any great initiative or sudden disclosure of administrative talent in the future?"

WHERE TO GO TO-NIGHT

GRAND—Vaudeville and pictures. Three acts.

ALLEN—"Scratch My Back."

EMPIRE—Constance Talmadge in "Happiness a La Mode."

REGENT — William Duncan in "Smashing Barriers."

COUNCIL MEETING—Open to the public.

APPEALED TO THE LEAGUE OF NATIONS

POLAND CLAIMS TO BE SUBJECT OF UNPROVOKED ATTACK

(Canadian Press.)

LONDON, Sept. 7.—The Polish government has appealed to the League of Nations requesting its mediation in the Polish-Lithuanian dispute. Unless an improvement occurs in the situation, Poland will be compelled to declare war on Lithuania, the appeal states.

The communication declares an unprovoked attack has been made on Polish troops by Lithuanian forces. The League of Nations is considering the appeal.

A Niagara Accident

THREE VISITORS KILLED WHEN FIVE TONS OF SHALE FELL FROM CLIFF

BUFFALO, N.Y., Sept. 7.—Dropping 180 feet from the brink of Horse-shoe Falls onto the bridge leading into the Cave of the Winds, five tons of shale killed three persons and seriously injured two others, who were crossing the bridge. A sixth occupant of the bridge escaped uninjured. The dead:

A HARTMAN, 37 years old, 4118 Avenue P., Brooklyn.

LOUISE HARTMAN, 36 years old, wife, 4118 Avenue P., Brooklyn.

SARAH M. FAUST, 22 years old, 2656 Norwood Avenue, Pittsburg, Pa.

The injured: T. W. Lee, 44 South Street, Pittsburgh, Pa.; Frank Herling, No. 85 Claredon Avenue, Detroit, Mich

Without warning the huge mass of shale let go and crashed onto the frail bridge, splintering it into a thousand pieces and continuing on through into the Cave of the Winds beneath, carrying the five persons with it.

Hardly had the noise of the crash died away when a rescue party of officials of the Customs and Immigration Services started digging to unearth the bodies buried under the pile of rocks at the edge of the rapids.

While the rescuers worked the Maid of the Mist, a little steamer which navigates close to the Falls, made her way to the edge. As the injured were dug out they were placed aboard the steamer, which made several trips to the dock, where ambulances waited. Other trips were made for the bodies of those killed.

Mrs. Frank Herling, of Detroit, was walking within a few feet of her husband when the mass of debris struck the bridge. She saw her husband disappear before her eyes, but escaped injury, although rock spliniters fell all about her.

The dead and injured were members of a party of tourists just completing a tour of the cave. With a guide leading, the party was in the middle of one of the four bridges in the cave when the slide came, its noise drowned by the roar of the cataract. The guide was not touched by the slide, and his first intimation of it came from the screams of the women in the party.

To recover the bodies of the dead it was necessary to take a rowboat from the Mail of the Mist steamer. It was a hazardous venture, but the rowboat crew finally brought the bodies out of the pool and regained the steamer.

The accident is the first of the kind that has occurred in the cave since the first stairway was built in 1883. There have been slides before, but only in the winter or early spring.

Erosion is the only explanation of the accident, which the authorities at the Falls advance. The bridge has been roped off to prevent further accidents in the event of more rock letting go. The bodies of the dead will be sent to their homes tonight, the injured are in the Memorial Hospital at the Falls.

DIED THIS MORNING.

Hon. S. N. Parent, ex-Premier of Quebec is Dead.

(Canadian Press)

MONTREAL, Sept 7—Hon. S. N. Parent, ex-Premier of Quebec, died this morning in the Hotel Dieu after a long illness. He was born in Beauport, near Quebec, in 1855.

SAWDUST PILE SMOKES EAST CITY RESIDENTS.

Fire, whose origin is believed to be spontaneous combustion, broke out again on Sunday afternoon in the sawdust pile in East City. The Fire Department was called in order to control the dense smoke, which is very obnoxious to nearby residents.

It is Fire Chief Grange's wish to allow the pile, which has become a nuisance, to burn itself out, but the dense smoke which arises interferes, —as it is extremely obnoxious to the residents.

Series of Outbreaks

SINN FEINERS PLAN A NEW CAMPAIGN—RELEASE MACSWENEY FROM OATH

(Canadian Press.)

LONDON, Sept. 7.—The Daily Mail says that it learns that new activity has been noted among certain well-organised units of the Sinn Fein Republicans army. It is believed in official circles, the newspaper adds, that a new series of armed outbreaks have been planned and that it is considered likely these will begin on or about Sept. 25.

The same newspaper asserts that after the Government's definite refusal on Friday to release Lord Mayor Macsweney, his friends in London addressed an urgent petition to the "Depublican Government" in Ireland asking that the Mayor be released from his oath and that permission be given him to take food.

WAS KIDNAPPED.

(Canadian Press.)

BELFAST, Sept. 7.—A boycott against the police in the western and other parts of County Donegal is being enforced. In Bungrana, armed men visited the residents during the night and warned them that if they were caught speaking with the members of the Irish Constabulary, they would be dealt with drastically.

Thomas MacGovern, for fifteen years the chairman of the Rural District Council of Manor Hamilton, Co. Leitrim, was kidnapped by armed masked men. The kidnapping is believed to be the result of MacGovern's refusal to cease trading with Belfast.

GETTING WEAKER.

(Canadian Press.)

LONDON, Sept. 7.—Terence MacSweney, the Lord Mayor of Cork, was reported apreciably weaker this morning, but conscious and able to talk.

Father Dominic, his chaplain, said the prisoner was suffering intense pain in the abdomen and heart.

Regarding the statement that Premier Lloyd-George would allow MacSweney's release if guarantees were given that the killing of the Irish Police would be stopped, the priest said: "If the Government is satisfied that murders are taking place, why doesn't it capture the murderers and execute them?"

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Sept. 7.—Substantial advances were registered by most of the leading issues at the stock market opening. U.S. Steel at 89 1-8 was off 1-4, General Motors 21 3-4 up 1-4, Southern Railway 28 5-8 off 1-4, Baldwin 59 1-4 up 3-8, Royal Dutch N.Y. 85 1-2 up 1 3-8, Studebaker 62 1-8 up 1-8, Pan-American 90 3-4 up 1-2, Crucible 123 1-2 up 1, Bethlehem B. 77 1-2 up 1-2, Reading 93 1-8 up 3-8, Texas Co. 50 1-2 up 1-2, Mexican Petroleum 169 1-4 up 3-4.

During the first hour Pan-American got up to 92, Mexican Pet. to 170 1-2 and Houston close to 109. Steel Common sold at 90 7-8, or the equivalent of above 92 with the dividend on.

An effort was made in the early afternoon to revive interest in rails Traders were selling oil stocks and some of the steels. Reading got up to 94, within 3-4 of the year's high. The Mexican Pet. dividend announcement showed an increase from ten to twelve dollars annually. No change was made in the Pan-American rate.

EXCHANGE MARKET.

(United Press.)

NEW YORK, Sept. 7.—Foreign exchange was weaker at the opening to-day. Demand sterling at $3.54 1-4 was off 1.1-4 cents; Francs demand $.0685 off $.009; Lire demand $.0454 off $.0011; Marks demand $.0197 off $.0003; Canadian dollars $.9050.

WIRE BRIEFS

(Canadian Press.)

WAS ASSASSINATED.

(Canadian Press.)

KOBE, Japan, Sept. 7.—Salto Ryoei, Director of Commercial Affairs, was assasinated.

SUGAR LOWER.

(Canadian Press.)

TORONTO, Ont., Sept. 7.—Retailers here are selling sugar cheaper than the wholesaler.

ELECTED MODERATOR.

(Canadian Press.)

OTTAWA, Sept. 7.— Rev. R. B. White, of Knox's church, elected moderator of Ottawa Presbytery to-day.

A MOVE ON FOOT TO LOOK INTO OPERATIONS OF THE IMPLEMENT MANUFACTURERS

COST OF FARM IMPLEMENTS HAS ADVANCED SEVENTY-THREE PER CENT. IN THE LAST THREE OR FOUR YEARS.

COMMISSION'S REPORT

(Canadian Press.)

WASHINGTON, Sept. 7.—Declaring the prices of farm implements in the United States to have been increased without warrant through the "concerted action" of the manufacturers and dealers, the Federal Trade Commission, in a report made public last night, recommended the re-opening of anti-trust proceedings against the International Harvester Co. and the institution of judicial proceedings against the implement manufacturers and dealers.

The Commission declares that its investigation, which was ordered by the Senate, disclosed that in the period of the war, the prices paid by farmers for implements advanced 73 per cent., with a greater portion of the increase coming in the last two years.

MOTHER THREW INFANT OUT OF BURNING HOTEL

KLAMATH FALLS, Ore., Sept. 7.—Nine charred bodies had been recovered at noon yesterday from the ruins of a fire yhich destroyed the Houston Hotel and Opera House and burned two blocks of dwellings and business houses. Five bodies have been identified.

Many persons were burned or injured in escaping from the burning hotel. All the dead were believed to be from Oregon.

Mrs. Mary Camporn, to whom a baby girl was born last Friday, threw the infant from a third-storey window, then jumped. The baby was uninjured, but Mrs. Camport suffered serious hurts.

CHURCH SERVICES AT MARK STREET

LARGE AND APPRECIATIVE AUDIENCES ATTENDED BOTH SERVICES

Large and appreciative congregations attended Mark Street Church on Sabbath last, and although some of the choir members were on holiday, the music at both services was excellent.

"The Trumpet Band of Faith" was the subject of the morning sermon, and was based on Hebrews II, 30. "By faith the walls of Jericho fall down when they had been compassed about seven days." Rev. G. E. Ross, the pastor, developed the following propositions:

1st—God has never lacked a Church and never will. The first was very small, not many members, just Abraham and his family. Then Joseph and his brethren. Later, Moses and the host of the exodus.

2nd—The crossing of the Red Sea; Sinai and the wilderness wanderings, the last encampment and the passage of the Jordan; and the Church of the living God faces Jericho.

3rd—This city was the key to the Land of Promise. The story of its fall is no parable, but a burning fact. It is concrete history, in spite of the babel of the critics.

4th—The relation between the blast of a ram's horn and the fall of Jericho is unknown to us, so is the relation between the acorn and the oak, or the coral insect and the island which it builds. We receive this by faith. God chooses the weak things of this world to confound the mighty.

5th—The walls fell when they had been compassed seven times. Here was persistent effort. Here was absolute obedience. Here was unquestioning faith. Not once, but seven times.

6th—What is your Jericho? Is it a walled fortress of sin? Concentrate upon it by cumulative effort and mighty faith and the citadel is yours. The great forces of evil must totter and fall before the cumulative effort of the Church of God.

Evening Service.

The evening subject "There was a rainbow round the throne" or "The rainbow in the cloud" was based on Rev. IV,3. The following points were discussed.

1st—The Apostle John had a vision of God and heaven on the Isle of Palms because he was in the Spirit on the Lord's Day. Visions of heaven or hell depend upon the spirit in which we find ourselves on God's Sabbath Lay.

2nd—In his vision he saw the throne of "God surrounded by a rainbow. The throne stands for Law but the rainbow stands for Grace. The throne stands for power and majesty, but the rainbow stands for Love and Mercy. So the rainbow of God's love and mercy surrounds the throne of his Law, Power, Truth and Justice.

3rd—Remember, that God and man are within the rainbow. We never can go beyond the circle of His love and care. When I was a small boy I often tried to reach the base of the rainbow, but I never found myself within the magic circle. No matter how far afield we may wander, we are always within the rainbow of God's grace.

4th—The rainbow borders on the storm. Since the world began there has been the bow of God's promise in the cloud, but it never meant so much as when it encircled the mighty grave of a drowned world. There is a rainbow in the cloud for all of us. Our joys and sorrows, hopes and fears, wants and woes, are all within the rainbow. Sinai is within the bow, but so is Calvary. Let us line up with God, for the rainbow of His promise encircles His people.

WANTED — TEAMS ON HUNTER STRRET BRIDGE. APPLY RUSSELL - TOWNSEND CO. 2d59 2412

LOCAL MEN ASSUME TORONTO BUSINESS

MR. WILFRID STRATTON AND MR. GORDON CAMPBELL IN PARTNERSHIP

Mr. Wilfrid Stratton and Mr. Gordon Campbell, both old Peterborough boys, have bought out the long established Toronto financial firm of A. E. Dyment & Co., formerly Dyment and Cassels and have established a firm to be known as Dyment Stratton Company to deal in stocks and bonds. They have also bought a seat on the Toronto Stock exchange and have commenced business with first class and very strong financial backing.

The popularity of both young men has more than assured their success in their latest enterprise and both have had extensive experience with financial houses, Gordon Campbell (Pete) having been for a number of years with R. C. Mathews, Bonds and Brokerage and Wilfrid Stratton with the National City Bond Company.

SUDDEN DEATH OF T. S. ROSEBOROUGH

TOOK A CHILL FROM WHICH HE NEVER RECOVERED

Thomas Sherman Roseborough died suddenly at the family residence, Lot 24, Concession 7, on Sunday morning after one day's illness, aged 26 years and 3 months.

Deceased had helped with the threshing on his cousin's, Mr. Stanley Roseborough's, farm on Friday until late in the evening, and upon returning took a severe chill, from which he never recovered.

There are left of the immediate family his wife and two small children.

The funeral took place this afternoon to the Lakefield Cemetery, Rev. Mr. White officiating.

TOOK THE WRONG ROAD.

Robert Hay and J. McCabe were assessed $5.10 in the Police Court this morning for using the Canadian Pacific Railway tracks as a bicycle drive. C.P.R. Constable Evans, of Havelock, made the arrest.

GOOD EYES INCREASE PRODUCTION.

The need of to-day is increased production, but if your eyes are not efficient you cannot do your share. If your vision is poor or if you cannot comfortably stand working or reading for any length of time, your eyes need attention. See W. H. Lacey, Optometrist, 410 George St.

SPELLING OF GANANOQUE.

There has been a controversy at times regarding the spelling and meaning of "Gananoque." The following letter by Judge H. S. McDonald, Brockville, will put all right on the subject:

In volume 17 of the papers and records of the Ontario Historical Society there is a very interesting paper by Mr. Frank Eames, formerly of Gananoque, now of Toronto. The paper is entitled, "Gananoque's First Public School, 1816," and in it Mr. Eames states sundry names given to Gananoque at sundry times. However, he does not appear to have hit upon the exact name, although one of them given by him is very nearly correct. It is "Can-da-no-ghue,"—"Rocks in running water." I have in my hand as I write, a letter written by Col. Joel Stone in July, 1793, in which he says: "You will direct me at the River Cadanoghqua," in the town of Leeds, County of Leeds, and Eastern District of Upper Canada. And again on the margin of his letter he writes "River Cadanoghqua," and says, "This is the real Indian name of the said river." Their reference between this and Mr. Eames is that this ends in "hue" while Col. Stone's ends in "qua."

VOICES.

What magic has the humar voice,
That though long years may creep
Between two hearts, its tones can wake
Old memories from their sleep.
And never are there two the same!
Once known, once loved — or loathed—
Naught can disguise the wondrous thing
In which the thoughts are clothed.

Up to my windows, opened wide,
Myriads of voices come,
Now harsh, now sweetly clear, now shrill
Above the city's hum.
And ah, I know my heart could tell—
If but one word were said—
The voice that filled the world for me
In the old days long dead!

Somewhere in far-off lonely lands,
That voice I used to know
May still be calling crazed commands,
Broken and harsh and low.
And yet . . . faint o'er an unseen wire,
Or in a crowded street,
My ears one day may hear it speak—
And life could be so sweet!

Ethel Wolff, in New York Times.

IMPROVEMENTS TO MILITARY BUILDINGS.

KINGSTON, September 7. — The first fruits of the visit of the Honourable Mr. Guthrie to Kingston on Monday last to the function of the Naval Brigade have arrived in the city in the form of the first part of an appropriation for the improvement of Kingston military buildings.

Tete du Pont Barracks and the old riding school on the Place d'Armes will be the first to receive attention after which the huts at Barriefield now used by the permanent Machine Gun Brigade will be put in condition to properly house the Brigade.

For some time there has been talk of the Machine Gunners going to Hamilton, but it is now pretty well decided that Kingston will retain the P.M.G.B. and everything will be done to make their quarters comfortable.

KEEP TELEPHONE WIRES OFF POWER LINE POLES.

ORILLIA, Sept. 7. — The inquest into the cause of the death of Silas McAmmond, electric lineman, killed last Saturday morning, was held yesterday afternoon and a verdict of accidental death returned. A gang of five employees of the Orillia Water, Light and Power Commission were engaged about twelve miles north of the town in restringing the telephone wire which connects the plant on the Severn River with the town station. The wires are on power poles about six feet below the high tension wires. Clarence Holdich was up the pole, holding the telephone wire, and evidently came into contact with the high tension wires.

There was a flash and Holdich was so badly burned about the face that he fell to the ground and the current was carried down the wire to the coil held by McAmmond, who stood at the foot of the pole, so seriously injuring him that he died within half an hour, but there were no marks on his body to show where he had been hit. The other three men were knocked down and one had two fingers badly burned.

Holdich is in hospital, but will probably recover. The evidence showed that necessary precautions had been taken to prevent the accident, and the men had been warned regarding the high voltage. The jury attached a rider to the verdict, recommending that the telephone wires be placed lower on the power line poles or strung on separate poles. No blame or negligence was attached to anyone. McAmmond was 21 years of age. He was buried with full military honors.

Never allow fat to smoke. It decomposes and forms a substance which is irritating to the digestion.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"

Made in Canada.

THE HOME CIRCLE COLUMN

UNANSWERED PRAYERS.

By Ella Wheeler Wilcox.

Like some schoolmaster, kind in being stern,
Who hears the children crying o'er their slates
And calling, "Help me, master!" yet helps not.
Since in his silence and refusal lies
Their self-development, so God abides
Unheeding many prayers. He is not deaf
To any cry sent up from earnest hearts;
He hears and strengthens when He must deny,
He sees us weeping over life's hard sums,
But should He give the key and dry our tears,
What would it profit us when school were done
And not one lesson mastered?

What a world were this if all our prayers were answered. Not
In famed Pandora's box were such vast ills
As lie in human hearts. Should our desires,
Voiced one by one in prayer, ascend to God
And come back as events shaped our wish,
What chaos would result!

In my fierce youth I sighed out breath enough to move a fleet,
Voicing wild prayers to heaven for fancied boons
Which were denied; and that denial bends
My knee to prayers of gratitude each day
Of my maturer years. Yet from those prayers
I rose always regirded for the strife
And conscious of new strength. Pray on, sad heart,
That which thou pleadest for may not be given,
But in the lofty altitude where souls
Who supplicate God's grace are lifted, there
Thou shalt find help to bear thy daily lot
Which is not elsewhere found.

One of the great inconsistences of Christain pepole to-day is their intolerance of any religion but their own, No one has the right to judge or choose another's method of life or belief. Because our environment, our education, or our training has made a certain form of religion acceptable to us, these same qualities may it wholly unacceptable to others. There is a golden thread which runs through every religion and this is the thread which all are seeking. The differences in doctrines will make no difference to the Master and they should make no difference to us. Fundamentally most forms of religion teach us the same thing, but sometimes they seem to fail in their mission. When we see two good old deacons of different churches very nearly come to blows over some slight difference regarding their form of communion service or baptisms, we wonder how they can reconcile their actions with the teachings of their creed. The Pilgrim Fathers settled here that they might have freedom in religious matters, Let this tradition continue. Actions speak louder than words and a mere matter of creed is not going to get you through the pearly gates.

Unselfishnes is the key to real religion. You need no creed or doctrine for that. Yet we have hundreds of thousands of churches in this broad land and hundreds of creeds but very few unselfish people—practically unselfish. That is because it is easy to build churches—it is easy to go to church but it is not so easy to be really unselfish. To think of others before yourself is the most difficult thing in the world. Yet unselfishness can be practical as the managers of big business are learning. They have found out that in the degree that they consider their employees' health and happiness in that degree will the employees increase the output of their product and the income of their pockets.

Yes, unselfishness is the key to real happiness. Yet most of us, instead of watching and overcoming our own unselfish traits are constantly attending to those of our neighbor—constantly running about trying to run God's world after man's idea.

"Within yourself lies the cause of whatever enters into your life. To come into the full realization of your own awakened interior powers, is to be able to condition your life in exact accord with what you would have it."

MY MOTHER'S HANDS.

Such beautiful, beautiful hands!
They're neither white nor small.
And you, I know would scarcely think
That they were fair at all.
I've looked on hands whose form and hue
A sculptor's dream might be;
Yet are those aged wrinkled hands
Most beautiful to me.

Such beautiful, beautiful hands!
Though heart was wear yand sad,
These patient hands kept toiling on,
That the children might be glad.
The tears well forth as looking back
To childhood's distant day,
I think how these hands rested not
While mine were at their play.

Such beautiful, beautiful hands!
They are growing feeble now,
For time and pain have left their mark
On hand and heart and brow,
Alas! alas! how near the time
Of pain and loss to me,
When 'neath the daisies out of sight,
Those hands will folded be.

But, oh, beyond the shadow land,
Where all is bright and fair,
I know full well those dear old hands
Will palms of victory bear.
When crystal streams through endless years,
Flow over golden sands,
And where the old grow young again
I'll clasp my mother's hands.

He who has tasted a sour apple will have the more relish for a sweet one. Your present want will make future prosperity all the sweeter.

Perhaps we may be looking on the dark side of things but it seems to us that young married people these days are missing a lot of joy out of life. They start in with all the things that we used to have to work twenty-five years for, and it is as true as the Gospel that we enjoyed work. Each piece of furniture we added to our little stock had individual memories. For a certain mahogany rocker we each gave up a trip to the city. And for our round dining table the whole family went without fall suits and wore made-overs. This is merely a hypothetical case but it hits the nail on the head for a lot of the older couples.

Now the young people must start in with everything complete — a beautiful tapestry living room set—a library table — bronze book ends containing books that are never read—a Louis XIV dining room set—four poster beds—electric irons and vacuum cleaners — pyrex kitchen ware. An outlay of about twenty five hundred dollars sets them up nicely, but we still contend that they are missing a lot of fun. Don't you agree, oldtimers, who started about twenty-five years ago?

Poverty is really a state of mind. You have all seen the rich man who eternally bewailed his empty pockets, and you've all seen the poor man whose poverty as such never occurred to him. There is an old Latin proverb something to the effect that "not he who has little but he who wants more is poor," and truer words were never spoken.

It was my good fortune at one time to know a very remarkable man. If he had a dollar in his pocket he considered himself wealthy and he had imbued his wife and family with this same spirit. They were, I believe, the happiest family it will ever be my privilege to meet. He was a good provider, his children were well educated, his wife and himself enjoyed life to the fullest extent. Yet he was never rich in dollars and cents. If he had always taken pay for his services for other people he might have been a wealthy man, but he always said that money took the joy out of service.

To be sure, when he went from this world there was no troublesome will to break for there was no property to fight over. Yet he left those children a far richer heritage than any multi-millionaire could have left them—the advantages of a good education, a happy childhood, the memory of a wonderful home life and the beautiful teachings and example of a generous and a God-re-[illegible]

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

Rx Genuine Aspirin Prescribed by Physicians for Eighteen years —

BAYER BAYER

The name "Bayer" identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Standard Diet in Hospitals

Pure Gold Quick Puddings are so wholesome and easily digested they are used as standard diet in hospitals for convalescent patients. They are specially suitable for the patient whose fickle appetite needs tempting.

Keep a supply in the house. They're an excellent food for the children, and always welcome. Surprise the family with one some night and see how delighted they are. Tapioca, custard and chocolate, 15c. a package at all grocers.

Pure Gold Desserts
QUICK PUDDINGS

Pure Gold Manufacturing Co., Ltd., Toronto

At the home of Mrs. Chas. Needler one evening recently Miss Eleanor McBean was given a "ower" by her girl friends, as a token of the high esteem in which she is held by her many friends. A real enjoyable time was spent by all present.

It is so easy to find fault that self-respecting persons ought to be ashamed to waste their energies in that way.

ENGLISH HUNGERSTRIKER SUCCUMBS IN PRISON

WORCESTER, England, Aug. 31.—The first death resulting from a hunger-strike in an English jail occurred here to-day.

Karl Dunwell, succumbed after going without food for five days. He had been imprisoned for contempt of court because he insisted on re-occupying his home after being ejected

You will like Lantic *fine!*

For BAKING. **For pound, tea and sponge cakes, coffee cakes; angel cake, layer cakes, fruit cakes; cocoanut cakes, pork cakes; nut cakes, short cakes, macaroons and biscuits, crullers, rolls, buns—ALL cakes—Lantic creams *quicker* with the butter—because it's FINE.**

For PRESERVING. **For peaches, pears, plums and grapes—if you use Lantic you can smile at the old caution "Let it simmer until all the sugar is dissolved." While yet the fruit retains its beautiful color and attractive form, the preserving is *done!*—because it's FINE.**

FINE in granulation—finer than all other sweeteners in actual use—finest in results obtained. "Fine" has many meanings to the Lantic user! In snowy glistening crystals of pure cane sugar—all sugar and nothing else—Lantic brings you concentrated sweetening. And because each crystal is fine and even, Lantic dissolves at once—it instantly delivers its great sweetening power without hesitation. *Of course* it goes farther. *Of course* it costs less. Of course *you* will like it *fine.*

For BEVERAGES. **For tea, coffee, cocoa, lemonade, root beer, orangeade, lemon pop and fruit punch—in fact for all home-made beverages—use LANTIC. There will then be no wasted spoonful left at the bottom of the cup or glass—because it's FINE.**

In PRESERVING late fruits such as pears, plums and peaches, it eliminates the danger of over-cooking, which robs fruit of its natural color and shape, and some of its flavor.

In BAKING, Lantic creams quickly with the butter—which makes the cake light and dainty. Creaming need not be tedious.

In CANDY-MAKING fine granulation gives candy a soft velvety quality. Most of the highest grade chocolates and finer candies are made with Lantic. The exquisite "velours" of the best chocolate creams comes from Lantic fineness.

In TEA or COFFEE, in fact in all beverages (hot or cold), every Lantic crystal dissolves at once, yielding readily the full sweetening of the purest cane.

ATLANTIC SUGAR REFINERIES, LIMITED
MONTREAL

For CANDY-MAKING. **For fudge, taffy, butterscotch, caramels and fondants, walnut and maple creams, marshmallows, peppermints, peanut brittle, candied fruits, and of course all icings, Lantic has the call with the best candy makers because it's FINE.**

R. M. CLOVER, Managing Director.

"Peterborough Presents Possibilities Unsurpassed."

SATURDAY, SEPT. 4TH, 1920.

GOOD ADVERTISING.

Peterborough will receive some splendid advertising as a result of the convention here of the Letter Carriers, for the delegates have scattered to their homes in all parts of the Dominion, delighted with the hospitality extended to them here, most favorably impressed with Peterboro's many advantages and charmed with the scenic beauty of the district. The sail down the picturesque Otonabee and across beautiful Rice Lake, was a fitting climax and the letter carriers were enthusiastic in their praises of the outing, their tributes to the charm of the scenery causing one to wonder if Peterboro people really realize what a heritage they have in the winding Otonabee River and in the wonderful lakes that are so close to their doors. They read of the beauties of far away spots, and yet visitors come, as the letter carriers did last week, from these very places, and tell us that our own district cannot be surpassed. Are we getting the full value from the advantages that we possess?

Citizens generally owe the local letter carriers a vote of thanks for their enterprise in securing the convention for this city and for the manner in which they looked after the entertainment of their visitors, who will carry far and wide the story of a splendid reception—no better advertisement for Peterboro could be planned.

A QUESTION OF TASTE.

Do the theatre-goers of Peterborough prefer the blare and glare of the average American musical comedy to the refreshing and sincere realism of the standard British companies? The patronage that has been tendered such sterling attractions as "The Luck of the Navy" last season and the splendid Scottish comedy, "Don't Tell," which appeared at the Grand on Saturday seems to be prima facie evidence that the popular taste here prefers the light musical comedy to the genuine acting of the British stage. Those who appreciate the sheer artistry, the convincing effectiveness and the all round merit that distinguish a production by a standard British company will however sincerely hope that Peterborough will be given another chance and will not be judged and condemned on the reception given the attraction on Saturday evening. The work of Mr. and Mrs. Graham Moffat in their wholesome comedy, "Don't Tell," was so far superior to the average of the acting seen here that it was a pity that the theatre was not crowded to the doors. One of the chief aims of the Trans-Canada Theatres Limited is to give the people of Canada a chance to see the best actors and the best productions of the British stage. "Don't Tell" ranks high in the list, but a fourth rate stock company would have been more enthusiastically received in Peterborough. The local theatrical taste will have to improve, for theatre owners are simply business men and if they decide that Peterborough wants only light attractions then we can say good-bye to the really good things in the theatrical world.

SPEED TO BLAME.

The other day the President of the Ontario Motor League, discussing automobile accidents, threw the reaponsibility for most of these accidents upon the carelessness of pedestrians. His declaration that this cause could be held responsible for 95 per cent. of the accidents, has caused considerable discussion, and many people have disagreed with him.

It is interesting to note that about the same time as the Motor League President was placing the onus upon pedestrians, the National Safety Council of the United States was holding its annual session at Atlantic City and some startling figures were given by the executive Council as to the death toll which the general secretary declared to be the price of the modern speed craze:

Official statistics for the current year, according to the report of the executive, show that "three times as many people are killed by automobiles as are killed in all the factories, mines, railroads and other industries in America." During the last four months one person was killed by an automobile in the United States every thirty-five minutes. In that time the deaths from this cause were over twenty-five per cent. greater in number than during the similar period of the previous year.

The report adds, for the purpose of comparison a British official statement dealing with the commercial development of the aeroplane. It shows that over 75,000 persons were carried upon aerial journeys in Great Britain last year with but one fatality.

According to the estimates prepared for the council the terrible death toll from automobiles is due almost entirely to reckless driving and the craze for speed. Ninety-seven per cent. of the fatalities are ascribed to these two causes. But because the killings have increased in an even greater proportion than have the number of automobiles in use, the council believes the situation should be given immediate consideration by the automobile makers of the country "unless they expect soon to be confronted by a great volume of hostile public opinion."

It must be clear that such a staggering death rate cannot continue without causing unusual action. Safety legislation can be tightened and strengthened, but legislation cannot do everything. The great need is for the development of a strong and effective sentiment among owners of automobiles themselves against the reckless driver and the speed fiend.

AM I MY BROTHER'S KEEPER?

Above all else this country needs a nation-wide revival of old-fashioned prayer-meeting religion—

A religion that makes men realize that if there is a Heaven, there must also of necessity be a hell—

A religion that makes a man realize that every act is recorded on his own conscience, and that though that may slumber, it can never die—

A religion that makes an employer understand that if he is unfair to his employees and pays them less than fair wages, measured by his ability and their efficiency and zeal, he is a robber—

A religion that makes an employee know that if he does not give full and efficient service, he too is a robber—

A religion that makes a farmer, who packs bad fruit at the bottom and deceives the buyer by the good fruit on top, realize that he is a thief just as much as the one who robs a hen roost at night—

A religion that makes a man who robs a railroad of its fare, or its freight bill, know that he robs himself of all right to feel that he is an honest man—

A religion that makes a man realize that by driving too hard a bargain with his servant, his employee, or his merchant he can be just as much a profiteer as the seller or producer who swindles by false weight, false packing or false charges—

A religion that will teach church members who fail to contribute to the extent of their ability to the support of religion, and that compels them to recognize that if they are paying their pastor less than a living salary, they are robbing God and man alike—

A religion that will make the politician who yields principle for the sake of party, who worships at the feet of any class and sells his soul for political preferment know that he is not a coward and a poltroon, and unworthy of the respect of any decent man, but which will also make him see that he is helping to murder human liberty, as great a crime as murdering the individual man—

In short, we need a revival of that religion which will make every man and woman strive in every act of life to do that which, on the great Judgment day, they will wish they had done, as with soul uncovered they stand before the Judgment Seat of the Eternal.

Until the people of this nation accept and live this religion, there will be strife where there should be peace; there will be strikes and lockouts and murder where there should be co-operation and harmony; there will be hatred where there should be friendship and love.

In the golden rule, followed in the fullness of the spirit of this kind of religion, there would be found a solution for every business trouble; there would be created friendship between employer and employee; capital and labor would work in harmony and with efficiency, efficiency for the capital and efficiency for the labor, with profit to both.

Religion of this kind is not measured by the hope of a Heaven hereafter, but by the full fruition now of "Peace on earth to men of good will."

It is not merely the chanting of hymns here or in the world to come, but it is in the recognition and full application by rich and by poor, by learned and unlearned, that each one is indeed his brother's keeper, that we can bring this country and the world back to safety.

A nation-wide acceptance of this, the only true religion in action, would bring business peace and world peace where there is now turmoil, and men would then cease to seek to gain their aims by lawless acts of immorality, but would in spirit and in deed follow the divine command, "All things whatsoever ye would that men do to you, do ye even so to them."—Exchange.

CHOIR SINGERS SHOULD ALWAYS BE SENT AWAY FROM PRACTICE IN GOOD HUMOUR.

An Experiment That Failed.

A successful choir leader who was recently asked to prepare a little talk for a conference of brother leaders said some things that will be considered very timely, by those who are connected with the hundreds of volunteer church choirs and amateur choruses throughout Canada. The speaker said in part:

"With small choruses one of the difficulties lies in the timidity of the singers. Frequently the tenor section is weak and when asked to sing its part alone succumbs through fright or self-consciousness. As the basses are usually more self-reliant, they should be made to rehearse their part first. Or the sopranos may rehearse the tenor part with the tenors. Many a conductor has been forced to have the altos sing on the tenor leads or on important sections where the alto parts cease, but of course at the same pitch as the tenor voices and not an octave higher.

"I once tried an experiment with a small chorus which failed, although theoretically it seemed logically valid. I placed the more experienced singers at the back, feeling sure that I could rely on them and thinking that the weak singers would be greatly assisted by hearing the strong voices behind them, and also that the volume would be increased. The experiment was tried at a rehearsal, fortunately, since it resulted most disastrously. The timid singers lost all confidence and practically flunked, while the good ones seemed blanketed by being placed behind them. So good singers to the front has been my working rule ever since.

"If one is so fortunate as to possess an accompanist who can transpose the music to a lower key, it helps wonderfully in the portions where the range is to high for comfort. Otherwise the best plan is to rehearse the passages an octave lower until they are fully conquered.

"If singers become restive or bored change to something they know or like. If stern necessity keeps you at the discouraging parts, have a good story to tell, or illustrate your musical points by some humorous comparison. A good laugh is priceless. It heartens the disheartened and encourages the discouraged in a most surprising way. Above all things send your singers home in good humour. If you have reason for satire or invective, forget it as the rehearsal draws to a close. Sing something climatic and inspiring, or quiet and soul-stirring, and send them home with assurances of your confidence and appreciation of their good will and hard work. Good nature and optimism are invaluable, and there is simply no justification for displays of artistic temperament on the part of a leader.

WORLD HAPPENINGS

LONDON, Sept. 7.—Correspondent of the London Daily News on Premier Lloyd George's train states that a guarantee that assassination shall end will be followed by release of all hunger strikers.

VISITORS KILLED.

"MY SOLDIER GIRL"

Presented by a big company of nearly fifty people, the new version of the brilliant musical spectacle, "My Soldier Girl," coming to the Grand on Thursday, Sept. 9th, for one performance only offers three hours of the most novel and entertaining musical show presented the theater-going public in the past decade. A smashing hit from its first performance playing to capacity houses night after night, goes to prove that this clever musical comedy offers something different. There are two acts—the opening is laid at Miami, Florida, Colonel Stone's house overlooking the Biscayne Bay, where an evening of gayety, a Fete, is in progress in honor of "overseas" boys and girls. The last act shows a grand production of The Follies in rehearsal on the roof of a New York theater with a gorgeous production, and the change of costume and scene is bewildering in its frequency. Some have said it was the book—others that the music, still others declare that it's the combination of the book, score, costumes, scenery and the excellent company working in harmony that makes "MySoldier Girl" the success it really is. There are some twenty musical numbers, of which "My Soldier Girl," "Just For You, Dear," "Jasper's Ragtime Band" "That Dixie Wedding Tune," "I Want a Regular Man," "La Veeda," "New York" and "When You Dance With the Girl You Love" are the most popular.

"BABES IN THE WOOD"

In "Babes in the Wood" F. Stuart Whyte's fifth English pantomime to visit Canada the scenic and costuminf effects are said to be on an even more lavish scale than ever before and last season's success "Red Riding Hood" was thought by many to be the ultimate in extravagant production.

Among the seventeen scenes introduced in "Babes in the Wood" are the much talked of modern allegory "The Land of Opportunity." The btautiful hand painted georgette crepe effect in "Cupid's Garden" and the sailing of the "Mayflower" from old Plymouth Dock, when that famous trans-Atlantic pathfinder brought over the ancestors of the majority of the present day population of the States.

The local engagement of "Babes in the Wood" is for one night, September 10th, at the Grand Theatre.

Teach your boy to have sound moral judgment when he is very young and you will not in later years be singing that sad old song, "Where is my wondering boy tonight," with a heavy heart.

Protection and Profit

When money is in a Savings Account in The Merchants Bank, it is absolutely safe from loss, as far as you are concerned. All the time it is here, it is earning interest—so that the bank actually pays you to let it take care of your money. Don't carry unneeded sums on your person or hide them at home. Protect them against loss, theft and fire by opening a savings account.

THE MERCHANTS BANK OF CANADA

Head Office: Montreal. Established 1864.

PETERBORO BRANCH, - - C. S. CUMMER, Manager.

Sub-Agency at Fraserville open Mondays and Thursdays.

HOUSEHOLD ECONOMICS.

Less bread will be wasted if the loaf is put on the table with a knife beside it and the bread cut as needed.

Coal dust should never be wasted. Have a special scuttle and mix enough water with it to make it quite moist. When a fire is good and clear bank it up with this coal dust and it will last for hours.

To measure butter without softening it: If half a cup is needed fill a cup half full of water, then add some pieces of butter until the cup is full. If a cupful is wanted repeat the process.

Save and dry your orange and lemon peel and use for flavoring. If well dried it will keep for weeks and when cake or pudding is made grate off the outer rind and get a delicate flavoring that costs nothing but a little time. The other part use for kindling a new fire.

An always at hand method for cleaning steel is to use a slice of raw potato, then polish with a piece of flannel.

Before putting a garment with snap fasteners through the wringer, snap the fasteners together. This saves the little knob from being crushed and broken.

When straining lard or drippings or any hot liquids, fasten the cloth to the retainer with clothespins. You can thus do it alone and not burn yourself.

Mrs. Arthur Hamilton, who was the first woman to swim the Solent, is preparing to attempt the English Channel swim in August. Mrs. Hamilton is well know in English society, being the wife of a prominent army officer and the daughter of a baronet. She is a descendant of the famous Duchess of Gordon, who raised a battalion of Gordon Highlanders by offering to kiss every man who enlisted.

No person is so rich that he can afford to lose a friend.

The principal ingredient in luck is common sense.

The new name of what was once German East Africa has been provisionally fixed by the British colonial office as Tanganyiki Territory.

Great Britain has some 10,000 troops still stationed in France as guard to "dumps" of war material.

A new industry has been introduced at Milan, Italy. It consists in the manufacture of collars, cuffs, cigarette and other boxes, carpets, purses, furniture coverings and a variety of other things from waste leather cuttings, which have hitherto been useless.

SUNLIGHT SOAP

THE WIND IN THE PALMS.

I have heard the wind in the mountain pines
Where the peaks lift stark and high;
I have heard it roar through the sycamore
Where the moody bayous lie;
But I never knew what a weird, wild strain
The wind in a tree embalms
Till I heard it croon its dead-lipped tune
Through the ghostly brooding palms.

It whispered of tom-tom haunted nights
On isles in the coral seas;
Of fishers of pearl and a fair-haired girl,
And of mocking mysteries.
It murmured of moods and mystic creeds
And music of strange sweet bells;
Of the terror that creeps in the jungled deeps
Where the silence throbs and swells.

It muttered the curses of buccaneers
And wailed of the swift red death,
Of the swirling rain and the hurricane
And of gasping cry for breath.
It screeched of horrors on haunted seas,
Of moon-mad, murderous calms,
Of a corsair-ship and the gruesome drip—
This wind in the ghoulish palms!

—Oscar M. Rossner, in New York Times.

FORTUNE IN OLD POSTAGE STAMPS

SENSATIONAL DISCOVERY IN GARRET OF OLD PHILADELPHIA HOME.

A sensational discovery of rare postage stamps is reported from Philadelphia, where, in the garret of an old Walnut street building, have been found half a dozen trunks filled with thousands of letters, comprising the personal correspondence of a former Secretary of the Treasury, Mr. William Meredith.

Affixed to these letters are specimens of early United States and other old postage stamps, the present-day value of which has been estimated by Dr. Woodhouse, of the Pennsylvanian Museum, as running into hundreds of thousands of dollars. They cover practically all issues from the private stamps introduced by the postmasters of New York and other American cities before the regular Government issue, and the carrier stamps n use from 1849 to 1851, to defray carriage on letters to and from the Government post offices ,there being at that time no general delivery. Many of the "Carrier" stamps are extremely scarce and valued at from £100 to £500 apiece. All the regular issues of the United States Post Office from 1847 down to the Civil War period are also said to be fully represented. So numerous and varied are the specimens that some weeks must elapse before they can be properly classified and even an approximate value placed upon this philatelic treasure trove.

Mr. Meredith, who in his lifetime occupied many positions of public trust, made it a practice to preserve every letter and document that come into his possession. The boxes had remained untouched since his death, more than half a century ago; they were recently discovered by his descendants durng some alterations to the building.

American cities have in the past been the scenes of some remarkable "finds" of valuable stamps, more particularly those of the United States themselves. The last took place in Philadelphia in 1912, when a waste-paper dealer in the city bought for £10 an accumulation of old letters from a brokerage firm. Among them were discovered no less than 51 letters franked with rare United States postage stamps, to a total value of more than £20,000. It is thought, however, that this figure will be greatly exceeded by the aggregate value of the stamps on the Meredith correspondence.

Latest Plebocite Issues.

The clause in the Peace Treaty which provides for the introduction of special postage stamps, under the control of the International Commissions in the various plebiscite areas, has been responsible for a large proportion of the most recent additions to the stamp album. The latest issue of plebiscite postage stamps comes from the Baltic seaport of Memel, where, in place of the customary overprint on current German stamps, those of the contemporary issue of France are in use, surcharged with local currency values —viz., 5pf. on 5c. green, 10 pf. on 10c. red, 20pf. on 25c. blue, 30pf on 30c. orange, 40pf. on 20c. red-brown, 50pf on 35c. violet 60 pf. on 40c. red and blue 80pf. on 45c. olive-green and blue, 1m, on 50c. brown and lavender, 1.25m. on 60c. violet and buff, 2m. on 1f. lake and green, and 3m. on 5f. blue and buff.

To the Danzig series have been added the denominations 1.50m. brown and 2m. grey-lilac in the existing German Post Office type. The 15pf. of the current Allenstein instead of the former brown-violet color. Additional high values of German postage stamps have been brought into use at Marienwerder, —viz., 1m., 125m., and 2.50m. The 1m., 2m., 3m., and 5m. stamps in the Italian-printed "Popul Voluntatas" series have been seen with the additional imprint of the words "Plebiscite Kwidzyn" printed upon thicker paper without watermark, but perforated 11 1-2 as before. It is understood that supplies of the lower values bearing the same overprint are on hand at Marienwerder, but have not yet been brought into use.

New Egyptian Stamp.

Word-wide increases in postage rates are making new and hitherto unfamiliar denominations of postage stamps necessary in a large number of countries and colonies. Egypt's current postge series is about to be augmented by a 15 millemes stamp bearing the effigy of Rameses II., for internal postage. The inscriptions on the "Postage nel?" stamps of this Protectorate, at present reading "A Percevoir," are in future to be rendered in English while a change in the design of the watermark used for all Egyptian stamps, from the single Star and Crescent, which is the Turkish emblem, to the triple Stars and Crescents of Egypt itself is foreshadowed.

The design approved for the forthcoming Tercentenary stamps of Bermuda has two oval vignettes in the centre, of which the one on the left contains the head of King George V., and that on the right the good ship Sea Venture, in which Sir George Somers was wrecked on the islands in 1609. Between the two panels is a large crown, and across the top of the stamp, in one line, the inscription, "Bermuda Commemoration Stamp," while at the foot in two lines, are the words, "Tercentenary of Establishment of Representative Institutions." The stamps are to be printed in two colors, and will comprise the values 1-4d., 1-2d., 1d., 2d., 2 1-2d., 3d., 4d., 6d., and 1s. They are to be issued next month.

The population of New York State is 10,750,000, compared with 9,113,614 in 1910.

NORTH ONTARIO TO GET WAR TROPHIES

Mr. N. D. Mackinnon, of Cannington, received a letter from Hon. Dr. Reid, advising that the following war trophies have been allotted to North Ontario:

Cannington—One trench motor and two machine guns.

Uxbridge—One field gun and two machine guns.

Beaverton—One trench mortar.

Sunderland—Two machine guns.

Brechin—Two machine guns.

The foregoing trophies, Mr. A. S. Doughty, director of war trophies, hopes to ship some time this week.

FRANCE FEARS THE BLACK MASS

It is reported that the general wave of interest in Spiritualism and the indestructability of personality common to a great part of the civilised world has adopted a form in Paris which is very like a revival of "Satanism," that is, of Satan worship. Here and there this terrible irreligion has cropped out in France, starting from the Dark Ages and continuing down to the present. The name give to it now is la Messe Noir (the Black Mass).

There usually has been a recrudescence of Satan worship in the French cities during periods of unrest and moral and political perment. The cult has had a hold on the Latin races, Italian and French particularly. But it is called by many the Gallic cult.

During the reign of Louise XIV. there was an expose of this worship of Satan and many aristocratic names were involved as belonging to devotees. The Marquise de Brinvilliers was found guilty of practices of poisoning and sorcery, and she and La Voisin, her accomplice, who was an acknowledged sorcerer, poisoner and priestess of Satan, were burned at the stake. The Voisin woman boasted that she had celebrated the mass with the assistance of an ordained priest over 1,000 times in the city of Paris. In her confession she implicated persons of the very highest rank, many of whom were able to prove their innocence.

The original, or at least most noted, practitioner of the Black Mass was infamous Giles de Retz, who had high birth, being the lord of the three manors, and was moreover a very learned Latinist. He was proved to have sacrificed in his worship of Satan hundreds of children. Their ages ranged from infancy to three or four years, and the younger they were, De Retz said, the more acceptable was the blood to his lord, "Satanus Rex Inferne." The atrocious monster suffered a hideous death, all his bones being broken before he was hanged.

The custom of sacrificing children was abandoned early as too dangerous, and Satan worshippers in the twentieth century sacrificed to their deity a lamb or a dove. The scene is a spacious vaulted room hung with black and heavy with incense. There is an altar lighted by candles exactly as in a lawful church, but with this difference—that the candles are useless unless they have been made of human fat. In front of the altar is a couch draped with a pall, where the postulant, generally a woman, throws herself at full length and remains there throughout the eremony.

One of the prayers used is thus translated: "Glory to thee, O Satan! Glory and honour and power to thee for ever and ever! We praise thee, we adore thee, we glorify thee! Master, Omnipotent King of Hell! Receive our supplication!"

A gong divides the mass into three parts, the last of which sees the vessels, in form and material like the vessels used in the Catholic mass, profaned and broken. The contents of the host are poured over the postulant at the close and then the candles are blown out. In total darkness the infernal business ends with the usual words: "Ite missa est."

The recrudescence of the horror, which has been described by Eugene Sue and later writers, is the way the brilliant but somewhat incomprehensible Gallic intellect (to Anglo-Saxon peoples) exhibits its spiritualistic interests.

NEW STAR DISCOVERED.

A new star was discovered Monday night by Professor William H. Pickering, of the Harvard Astronomical Station at Mandeville. It is in the Milky Way in Cygnus, near Vega and Alpha Cygni. It is half as far from the latter as from the former and nearer the Pole star than either of them.

CANADIAN SHOES FOR CANADIAN PEOPLE

To the People of Canada

THERE are many things which you need not buy unless you choose. But footwear is not among them. You must have shoes. From the standpoint of your health, as well as for comfort and appearance, *good* shoes are a *necessity*. And that fact alone places upon the manufacturer of shoes a responsibility which he must at all times appreciate.

That responsibility to the Canadian public is shared by the 158 manufacturers of shoes in Canada, from whom you buy nearly $50,000,000 worth of footwear every year.

The fact that we have built up an industry of such magnitude is the best evidence that we do appreciate this responsibility. One may think that our responsibility ends when we have produced footwear of honest value and sincere workmanship, and have placed it on the shelf of the retail store where it is accessible to you. That is one essential service which our industry is called upon to render.

But we cannot dismiss our responsibility quite so easily. We believe that we should do more than that.

Good shoes are of such daily importance that we ought to make public certain facts and conditions which govern the quality of the product we make, and the value which you receive for your money. We ought to point out clearly, the part which *you* play, and the influence which *you* exercise, in establishing those conditions. We should urge upon you, *your own responsibility* in the matter, and show you just how you can help to maintain the quality of the footwear which we offer you.

This is the first advertisement of a series which will be devoted to that purpose.

¶ *Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices always, of the utmost that modern skill can produce in Comfort, Service and Style.*

CANNING HINTS

To Can Peaches.

Make a syrup of one quart of sugar and five of water. The peaches should have nice red cheeks, scald the ones ripe enough, and skin them instead of peeling with a knife. This leaves them a pretty color. Cut the peaches in two, take out pits, drop carefully into the boiling syrup and cook—not too fast—from 15 to 20 minutes. Then carry a scalded can to the range, lift each half of a peach into the can, breaking or mashing it as little as possible. When the can is full take a cup and pour into the can enough of the hot syrup to fill up, then seal instantly. The worst of it is one has to do every can this way; it's tiresome, but nice—especially when you've finished the job.

Preserved Peaches.

Some folks take pound for pound in making preserves, but sugar being still dear do them with 3-4 of a pound of sugar to a pound of fruit, dissolving the sugar in the juice of the peaches and allowing the fruit to cook only twenty minutes, keeping it well skimmed. Seal : nce.

Peach Butter.

Take a quart of peeled and sliced peaches quite ripe, a quart of sugar, a half pound crushed almonds, juice of an orange, teaspoonful mixed spice, beat well together, and cook slowly until thick.

Canning Beets.

Pick out beets of uniform size, scrub and rinse in plenty of cold water. Scald for five minutes, cool, skin, and pack closely in cans, add quarter of a teaspoonful of salt to each pint can, fill with boiling water, put the covers on loosely and place in the boiler on the range, nearly covered with hot water. Let cook for an hour and three quarters or two hours, adding hot water to that in the boiler as it evaporates. Lift out on a thick towel which has been wrung out of hot water, and screw tops on tightly.

Butter Beans.

Pick over the beans, wash and put on to cook in granite kettle, season to taste with pepper and salt. When the beans are tender put at once—boiling hot—in cans already prepared for them, fill to overflowing with the hot water they are cooked in and seal.

PRISONERS IN MILTON ATTEMPT TO BREAK JAIL

MILTON, Sept. 4.—The three prisoners at the jail, George Cooper, Ed. Humphries and Ed. Black, with Burwash sentences, made an attempt to break jail, but a portion of the wire they were picking the lock of the cell door with broke off in the lock, thus rendering their efforts fruitless. They are a dangerous trio and are being closely guarded day and night.

Down to March 31, 1919, 24,177 permanent pensions had been awarded to N.C.O.'s and men of the British arms.

POSTUM

doesn't "let you down"

Many coffee drinkers who have tried the change to Postum feel better and know "There's a Reason"

WRANGEL BLAMES WOES ON DENIKINE

INCOMPETENCE OF COMMANDER CAUSED LOSS OF ANTI-SOVIET TROOPS.

WASHINGTON. — The Russian volunteer army commanded by Gen. Denikine collapsed because of the failure of its commander to take adequate military precautions according to charges contained in a letter written to Denikine by Gen. Baron Petgr Wrangel, now recognized by France as foremost anti-Bolshevik leader in Russia.

A copy of the letter reached official circles here to-day and makes public for the first time the inside story of the break between Wrangel and Denikine. It throws light also on the volunteer forces that marched to the very gates of Moscow, only to be hurled back and scattered beyond reorganisation. It tells of the destruction of Admiral Kolchak's forces and charges that Denikine failed to heed warnings that might have prevented disaster.

Written upon the occasion of Gen. Wrangel's retirement from Russia in April at the request of Dennikine, the letter said in part:

"Having tasted power, poisoned by ambition and surrounded by dishonest hangers-on, the struggle so brilliantly started by you and so unworthily lost is coming to an end. Into it have been thrown hundreds of thousands of Russia's best sons innocent of your mistakes. Their salvation and the salvation of their families depend on the help of our allies, who have promised you that help.

"I joined the Volunteer army and voluntarily placed myself under your orders, believing at that time that you were an honest soldier, placing the welfare of your country above personal interests and ready to lay down your life to save the Fatherland.

Aid Fails to Go to Kolchak.

"On the 6th of January, 1919, I proposed to you that you should move my army to help Admiral Kolchak. My proposal was rejected. . . . What I foretold was prophetically fulfilled.

"You wrote that you would subordinate yourself to Kolchak. But ambition, intoxicated by success, was not able to carry out this sacrifice. Kolchak, left to himself, was defeated and started to retire eastward. Treacherously abandoned by us, his troops were annihilated.

"Even when the volunteers were victoriously advancing to the heart of Russia and your ears seemed to hear the pealing of the Moscow bells, alarm crept into the hearts of many of your subordinates. An army taught to loot and drink and the example of whose leaders demoralized the troops—such an army could not save Russia.

"Not having an organized rear, not having prepared a single fortified position behind the lines and not a single point of resistance, retreating in a territory where the civil population had learned to hate it, the volunteer army, having begun its retreat, fell back and nothing could stop it.

"As the enemy's success developed and the poorness of our strategy and policy became evident, Russian society commenced to see things clearly. In the desire of old army chiefs, the army and society to see me at the head of troops acting in the main theatre, you saw a new danger for yourself. Even before the occupation of Tsaritsin, when I was chief of staff of my army, Gen. Yousefovitch suggested concentrating a large mounted force in the Kharkoff region under my command. At this meeting you expressed an opinion, worthy of you, that we were trying to be the first in Moscow.

Tries to Find Treachery.

"We saw how your power lessened and authority slipped through your fingers. Clinging to it in absolute blindness, you set out to search for treachery and mutiny. Two agents, the Kartashef brothers of the intelligence department of your staff, conducted a special campaign against me among the Cossacks and spread reports of my intention of bringing about an upheaval with the aid of 'Monarchists' and of my desire to take 'German orientation.'

"These reports spread by your staff even went abroad. In Novorossisk I was visited by Mr. Mackinder, who had arrived from England with wide powers and who informed me that he had received a telegram from the British Government requesting information as to the veracity of rumors of this proposed upheaval. He asked me whether I found it possible to be perfectly frank with him on the subject. I replied that 'I could not admit the thought of any action against my chief, under whose orders I had voluntarily placed myself,' and authorized him to inform his Government that my past military service is sufficient guarantee for what I said."

STAND BY YOUR TOWN.

If you think your town's the best,
Tell them so.
If you'd have her lead the rest,
Help her grow.
When there's anything to do
Let the fellows count on you,
You'll feel bully when it's through,
Don't you know.

If you want to make a hit,
Get a name,
If the other fellow's it
Who's to blame
Spend your money in your town,
Thusly keep your prices down,
Give the mail concern a frown—
That's the game!

If you're used to giving knocks,
Change your style;
Throw bouquets instead of rocks,
For a while;
Let the other fellow roast,
Shun him as you would a ghost,
Meet his manner with a boast,
And a smile.

When a stranger from afar
Comes along,
Tell him who and what you are—
Make it strong;
Needn't flatter, never bluff,
Tell the truth, for that's enough;
Join the boosters—that's the stuff.

HOUSEHOLD RECIPES

Creamed Potatoes.

Melt a tablespoon of butter, add the same of flour and stir smooth. Then add a cup of milk and two cups of cold boiled potatoes cut in dice. Boil three minutes and add a teaspoon of chopped parsley.

Lettuce Salad with Crawford Dressing.

Wash the lettuce and place in a cheese cloth and then on ice for three hours. Chop one hard boiled egg, three olives, one small onion, half a green pepper chopped, half a sweet red pepper and a teaspoon of chopped parsley. Beat together parsley. Beat together with half a tablespoon of mustard. Then add three tablespoons of olive oil, a tablespoon of vinegar, a tablespoon of lemon juice, two tablespoons of tomato catsup, pepper and salt. Chill and pour over the lettuce just before serving.

Fritter Pudding.

Use two cups of cooked oatmeal, add a cup of milk, one beaten egg, two teaspoons of baking powder, a teaspoon of grated nutmeg, and a little salt. Then add flour enough to make a batter that will just fall off the spoon. Fry on a well greased griddle and serve with maple sugar.

Russian Tea.

Place four teaspoons of tea in a pitcher and add one sliced lemon and a quarter of a cup of sugar. Turn over a quart of boiling water and let stand three hours. Strain and serve with shaved ice.

Too Fat?

Do not try to become slender by drastic doses of thyroid or salts. Reduce weight and watchless adipose, double chin, etc. by the safe, reliable Korein system. The shadow on this picture gives you an idea how she looked and felt. By taking Korein and following easy directions of Korein system she reduced from clumsy features to graceful proportions. Now she is agile, attractive, mentally alert and in better health. Why not you? Reliable anti-fat self-treatment.

Let Korein Make You Slender

Many, both sexes, report they have reduced 10 to 60 pounds. No starving; no exhausting exercises. *Become exquisitely slender and remain so.* Safe, pleasant method, endorsed by physicians. Legions of testimonials. $100 GUARANTEE, or money refund. Buy Korein (pronounced *koreen*) at busy druggists', Or write for free booklet to Korein Company, 277-A, Toronto, Ont.

WAYS TO MAKE SUBSTANTIAL UNSWEETENED JELLIES

Jellies are not merely a trifling dessert. For gelatine contains body-building elements, and should be used far more often than as a sweet dessert or a garnish for salads. For summer especially it is a good plan to keep on hand the plain, unsweetened gelatine to convert quickly into a cool aspic containing vegetables, fish or meat of some kind. The most popular of summer aspics is tomato. This can be used in any number of ways, either as a plain salad or otherwise in combination with meats, fish or with other vegetables.

Tomato Aspic.

2 cupfuls of cooked tomatoes
1 tablespoonful of gelatine
2 tablespoonfuls of vinegar
1 teaspoonful of rinnamon.
1 onion
Salt, pepper.

Strain the cooked tomatoes. Soften the gelatine in one-half cupful of cold water, then pour the hot tomato juice over it and stir until melted, adding other seasonings. Pour into a large mould or individual ramekins and set aside in a cool place to harden.

Jellied Shrimp Salad

2 cupfuls of conned of fresh cooked shrimp
1 1-2 cupfuls of stock or water
1 tablespoonful of gelatine
1 tablespoonful of lemon juice
1 cupful of cooked peas
1 teaspoonful of capers
1 teaspoonful of chopped green peppers

Soften the gelatine in one-half cupful of cold water, then pour on the hot water or hot stock slowly, stirring until melted. Mix with the shrimp, peas and seasoning and pour into a chilled mold. Set aside to get cold and firm; serve on a bed of lettuce leaves with mayonnaise dressing.

Any of the canned fish or fresh shellfish like lobster, crab or cold shopped meats may be prepared similarly, using seasonings as preferred. Chickens blends well with chopped celery; chopped onions may be used with any other of the cold meats. A very attractive salad can be made by mixing chopped beets, cucumbers and asparagus tips in an aspic.

Salad Dressing for Tomato Aspic.

1 tablespoonful of grated horse radish
2 tablespoonfuls of vinegar
4 tablespoonfuls of whipped cream
Salt, cayenne

Place the small mounds of tomato aspic on lettuce leaves and pour this heavy dressing over it.

Or a thick mayonnaise may be used instead. If desired surround with sliced cucumbers, diced cold potatoes or any other vegetable.

Cucumber Jelly.

3 cucumbers
3 tomatoes
1 small onion
1-2 cupful of cold water
1 tablespoonful of gelatine
1 tablespoonful of tarragon vinegar
1-2 tablespoonful of salt
1-2 tablespoonful of pepper
2 peppercorns
1 clove

Soften the gelatine in cold water. Stew tomatoes and when soft strain. Cook this pulp with seasonings and add gelatine, stirring until dissolved. Pour into a ring mould and set aside to harden. When set, dip the mould in hot water for a moment to loosen jelly and place on a dish. Fill the centre with the chopped cucumbers that have been mixed with salad dressing.

BROKEN PINIONS.

I remember reading once some pathetic lines about a bird with a broken pinion.

Let us think for a moment how really pathetic such things are. Think of a bird used to flying, when it would, soaring high in the air, singing as it wends its way heavenward, but presently being caught in a trap and maimed for life. Yes, the bird still sings, but there is a different note in its song, sweet and plaintive, which goes to the heart of those who hear it, and we thank God that if the bird cannot fly it can still sing, sing with a note of warning in its voice, saying to other birds—don't come too near the earth.

Some of us perhaps have known some human beings who, like the bird, have been caught in a trap. They too have soared on eagle wings, cleaving the sky, but now they cannot fly. They are maimed by their own folly, and I would like to say to all such, Do not lie down and grieve too much for your broken wing. Use your voice in song, and your song with its note of pain and warning will keep another from the snare; and the life which sin has smitten save another from despair. Not only so, but it will draw to you the sympathy and fellowship of those whose fellowship is worth having, because like you they are conscious of their own folly. They dare not say, Lord, I thank thee I am not as other men are, but are truly humble—and no matter what others may think of them because of their sweetness and humility they think little of themselves. Such as these preach sermons to us without being conscious of it, for their humility, their gentleness and their suffering appeal to us as nothing else can do, and prove to the world that truth that God will use the weak things, and things which are despised, to bring to nought things that are.

The Only Dessert of This Kind

There are numerous forms of quick gelatine desserts. But Jiffy-Jell is the only one with the real-fruit flavors sealed in glass.

They crush the fruit, condense the juice and seal it. A bottle of the liquid fruit essence comes in each package of Jiffy-Jell. In a moment's time you can prepare a delicious fruit dessert.

Sugar is used in Jiffy-Jell—not saccharine. And real-fruit flavors in place of artificial. It will give you a new conception of these delightful dainties.

Jiffy-Jell is often used in place of jam, marmalade, etc. Additional sugar may be used to suit the taste.

DOUKHOBORS SETTLING DOWN FOR GOOD.

(Canadian Press.)

EDMONTON, Sept. 4.—It looks now as if the Doukhobors, instead of quitting Alberta, as rumoured a short time ago, are intending to settle down even more permanently than before. They have just organised, for business purposes, the "Christian Community of Universal Brotherhood of Alberta," which has been incorporated and duly entered upon the lost of new commercial enterprises in this province.

Peter Verigin himself, leader and business adviser of the Doukhobors, is number one on the directorate, and associated with him are J. R. Shonkin and M. W. Cayaroff. The concern opens up with an authorised capitalisation of $20,000, and Cowley is its headquarters.

Can You Do More Work by Neglecting Sleep

WHEN a man finds himself up against more than he can do, his solution may be shorter hours instead of longer—*more sleep* instead of less.

There is no greater help to good work, and keen enjoyment in doing it, than plenty of that deep, sound sleep that wakes a man up feeling alive all over.

When a man finds that he is not sleeping properly, he should look to his *bed*. No one can sleep soundly unless his bed is noiseless and steady; his spring resilient, and his mattress and pillow invite perfect relaxation.

THE truly noiseless Bed is the Simmons Metal Bed—*built for sleep.*

Just as the *sleep-inducing* Spring is a Simmons "Waldorf," of specially tempered spring coils. Fine Springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmons Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

And Simmons Pillows, which rest the head and neck exactly as they need to be rested.

Years ago Simmons Limited established the principle of Beds, Springs, Mattresses and Pillows *built for sleep.*

It is today the largest maker of fine sleeping equipment in the Dominion.

It is a specialist in *Twin Beds*—a pioneer in that fine modern principle of a separate bed for each sleeper.

Simmons Metal Beds, Brass Beds, Springs, Mattresses, Pillows, Day Beds and Children's Cribs are the most sought after sleeping equipment in leading stores of this community.

The prices are little if any higher than for the ordinary.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established *beautiful and authoritative design* in Metal Beds.

© Simmons Limited, 1920

The REVERE—*Design 1962*

It is made of Simmons Seamless Square and Rectangular Tubing throughout. Easy running casters.

Your choice of Double Width and Twin Pairs—and especially pleasing in *Twin Pair.*

Has the Simmons Patented Pressed Steel Noiseless Corner Locks.

Enameled in Ivory, the Decorative Colors, and Mahogany, Oak and Circassian Walnut effects.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

CAMPBELLFORD IS BUSY TOWN ON TRENT RIVER

LIKE ALL OTHER PROGRESSIVE TOWNS IT HAS A HOUSING PROBLEM—POWER DEVELOPMENT.

Industrially the town of Campbellford is booming. The Hydro-Electric Commission is constructing a new power development plant at Ranney's Falls, Campbellford, which, when completed, will develop 15,000 horse power, and the Peterborough Cereal Company have recently established a flour mill there which is employing 20 men and has an output of 220 barrels a day. In addition to these there are older industries which are steadily expanding.

The new power plant at Ranney's Falls will, with the Campbellford municipal plant, make Campbellford's total power development nearly 20,000 horse power.

Excavation work has begun at Ranney's Falls on the 400 foot tail-race, but the date of the completion of the plant is as yet indefinite.

Campbellford boasts of a pulp mill, paper mill, woollen mill, flour mill, shoe factory and candy factory.

Hydro Pulp Mill.

The Hydro-Electric Pulp Mills, located at Ranney's Falls, have a capacity of 9,000 tons of pulp a year. About 50 men are employed and the plant covers a large area.

Northumberland Paper Company.

The Northumberland Paper Company adjoins the Hydro pulp mills at Ranney's Falls. It is employing 70 men and shipping 28 tons of box board paper a day.

Trent Valley Woollen Mills.

The Trent Valley Woollen Mills, the town's largest industry, emloys 329 men and women. It has a large four-storey plant which extends for some distance along the river and its output is about 625,000 yards a year. The plant is working day and night shifts.

Peterborough Cereal Company.

The Peterborough Cereal Company began operations in the Campbellford mill early in the present year. It has a four storey mill 40 by 120 feet, a three storey warehouse 40 x 100 feet, two elevators, one at the railway station with a capacity of 30,000 bushels and one at the mill with a capacity of 35,000 bushels, and a loading warehouse at the railway station. The mill is turning out 220 barrels of flour a day and employing 20 men.

Weston Shoe Company.

The Weston Shoe Company, manufacturers of women's, misses' and children's shoes, have their headquarters in Campbellford. The output is 400 pairs of shoes a day and there are about 60 men and women on the company's payroll. The plant is a four-storey building 60 by 80 feet.

The company manufactures the "Diamond," "Canadian Girl" and "Queen City" shoes. It moved to Campbellford from Toronto in 1902.

Long Candy Company.

The Long Candy Company, a Campbellford industry, has not yet begun operations, but expects soon to move into the factory which it is now building.

Assessment $1,365,782.

Campbellford has a population of approximately 3,400 and its assessment for the year is $1,365,782. It is on the Trent Canal and the Belleville-Peterborough line of the Grand Trunk Railway. It has six churches, a high school, free library, opera house and a newspaper, "The Campbellford Weekly Herald." Its streets are wide and well laid out and it has several beautiful residences.

Recreation Facilities.

The Trent river flows through the town and besides serving as an artery, of commerce in that it is a part of the Trent Valley Canal, provides excellent recreation facilities. The river both above and below Campbellford is a summer resort and the fishing is excellent.

The Campbellford Lawn Bowling and Tennis Association is establishing tennis conurts and bowling greens beside the river at the south of the town and is building a club house. The location is ideal.

The town has a baseball team, a cricket club, a good sized skating rink and a large curling rink.

Housing Situation Acute.

The housing situation in Campbellford is becoming acute due to the cessation of building activities and the increase in population brought about by the Hydro development work and the coming in of the Peterborough Cereal Company.

Large Tourist Trade.

Campbellford is having its share of the tourist trade, both motorist and yacht. Several large yachts have passed through the town, among which was that of Henry Birks, of Henry Birks and Sons, jewellers, of Montreal.

Extensive Waterworks.

The town has an extensive waterworks and electric lighting system. The sewerage system, however, serves only the business section and schools, and a few residences.

Telephones Show Prosperity.

The prosperity of Campbellford is evident from the fact that it has more telephones in proportion to population than most municipalities of the province. The Bell Telephone Company maintains a large exchange, which has over 800 subscribers.

Three Banks.

The three banks, Union Bank of Canada, Standard Bank, and Bank of Montreal, all receive large deposits.

Every Prospect of Further Growth.

On the whole, Campbellford is a busy industrial town, prosperous and clean, and steadily growing. Its importance as a factor in the Hydro-Electric Central Ontario development system, its position on the Trent Canal, its industries, and its position as the centre of a farming community, give every indication of further progress.

"Fellows like we, who drive most all the time every day, and who must keep down operating costs to make a profit, see the big advantage of Imperial Polarine and Imperial Premier Gasoline. The more you use the car the more highly you will think of Imperial products."

Imperial Polarine Pays Because It Saves

ANY motorist, who keeps a record of his car expenses, can quickly satisfy himself that Imperial Polarine pays because it saves—because it saves not only gasoline, new piston-rings, spark plugs and other repairs, but also *depreciation*.

Imperial Polarine makes a good car better, keeps the motor in perfect tune, thoroughly lubricated against excessive wear and break-downs. It provides an unbreakable oil film which lubricates every friction surface—makes a perfect piston-ring seal and saves wear on moving parts.

What grade is best suited for your car? Do you know? Look for the Imperial Polarine Chart of Recommendations, on display wherever Imperial Polarine is sold, and learn the grade specified—use this grade exclusively and get the utmost service.

Four-gallon and gallon steel cans, steel half-barrels and barrels, and steel 12½-gallon kegs—for sale by dealers everywhere. Buy in large containers to save money.

EPIGRAMS OF AN ARAB AT PEACE CONFERENCE

The oriental tact and personal charm of Emir Feisal did much to win friends for the Arabian cause in Paris. No one ever came away from him in an angry mood. The Emir is very witty and many stories are told of his clever retorts to acquaintances in Paris. On one occasion a correspondent asked him to give his opinion of modern statesmen as a result of his acquaintance with them at the Peace Conference. He replied, "They are like modern paintings. They should be hung in a gallery and be viewed from a distance." Another time at a meeting of the Council of Ten, M. Pichen referred to the claims of France in Syria, which he said were based on the Crusades. Emir Feisal turned toward him and inquired mildly: "I am not a great student of history, but would you kindly tell me which one of us won the Crusades?"

Mr. Balfour once tried to find out what Emir Feisal thought of the British Government. He succeeded. "It reminds me of a caravan in the desert. You see an impressive string of dromedaries in the distance, trekking single file across the shifting sands. When you first overtake them, you observe that the last camel is tied to the tail of the next in line. When you reach the head of the column, you find that a little donkey is leading the whole string."—Asia for August.

Ladies of Culture and Refinement Use DELMAY'S FRENCH HAIR TONIC. It Makes the Hair Beautiful and Lustrous.

At last a remedy has been discovered that will positively destroy the Pest Dandruff.

That Dandruff is caused by germs is accepted by every sensible person. Dandruff is the root of hair evils. DELMAY'S FRENCH HAIR TONIC will kill the dandruff germs and remove dandruff in ten days, or money back.

The manufacturer guarantees it. It will grow hair, stop itching scalp, falling hair, and make the hair thick and abundant. It prevents hair from turning grey, and adds life and lustre. DELMAY'S FRENCH HAIR TONIC is a hair dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large, generous bottle costs only $1.00 at leading druggists everywhere. The name "DELMAY'S FRENCH HAIR TONIC" is on every bottle.

Sold in Peterborough at Bond's Drug Store, Cor. Hunter and George street. Madill's Old Stand.

Mrs. Mary B. Wanamaker, wife of John Wanamaker, department store proprietor, died at Atlantic City.

SCARCELY TRACE OF WAR'S RAVAGES REMAIN AT OSTEND

It is hard to believe that for four years and more Ostend experienced war in various forms; that it suffered invasion, bombardment, and raids by sea and air, says a writer in the London Times. Scarcely a trace of all this remains, only here and there, in the suburbs, a few bits of shattered walls and a few gaping roofs bear witness to the tragedy.

To-day in the neatly kept streets, with their lines of freshly painted houses, decorated with flags and banners, the shops display collections of princely wares, while the facades of the countless restaurants are spotless—each with its trim rows of geraniums or begonias, like the colored hem of a white garment. Every open window offers a vision of white tables, gay with brilliant flowers and gleaming silver, and as you pass there floats from within the building the dreamy strains of the waltz, or the jerky ryhthm of the tango and the fox trot. On all sides opulence and enjoyment meet the eye—evidence of the wonderful vitality of a little nation that is both industrious and gay.

Everything Large.

When you have passed through the town you come suddenly to a spot where the wind from the open sea strikes you in the face and the immense panorama of Ostend opens out before you. Everything at Ostend seems larger than anywhere else; the wide Digue with its spacious double road stretching, I am told, for 15 kilometres; the monumental hotels—square blocks of masonry—that boast, some of them, as many as 600 rooms; the vast, endless beach, on which the human figures look like ants in a pool of honey; the boundless sky, with swollen clouds galloping furiously acros sit; and lastly, the sea, a limitless disc of bright steel roling away beyond the horizon, traversed by fitful gleams of opal. It is scenery for giants.

The sea here, let me explain, is not merely a sea of pleasure. It is not like the sapphire sea of Nice, just a fine setting for triumphs of elevgance and fashionable philandering. It is not like the emerald sea of Biarritz, a thing that exists solely for the enjoyment of poets and artists, flinging up its picture que foam-topped waves with conscious art against the rocks. No, the sea at Ostend is a serious sea, business like and a rifle abrupt. It pays scant attention to the pretty ladies in bathing suits and the idlers on the beach. Its rough wind has little respect for paudre de riz or "Marcel waves"; it possesse none of those brilliant or soft tints dear to the producers of picture post cards. This sea never ceases from its strenuous labor; every day it carries on its grey back hundreds of vessels—yachts, fishing smacks, colliers, slow, lumbering, black-funnelled tramps, and white, immaculate mail steamers.

"Kolossal" Kursaal.

But there is something at Ostend even more gigantic than the scenery, and that is the Kursaal. "The most spacious in the world, sais-tu-bien, Madame," a Belgian proudly informed me, as I stood horror-stricken, contemplating that enormous pile of variegated crockery ware, crowned with ridiculous domes, bristling with towers, minarets and a thousand incongruous proturbances—an architectural monstrosity standing out indecently in the hard glare of the sun. Kolossal is the only word for this, alas! still living invasion of German taste which preceded that of 1914 in Belgium and France—a less brutal affair perhaps but equally unfortunate. As, why, I sighed, did not some English shell or some French bomb alight on this spot? Louvain destroyed and the Kursaal spared!—such is the injustice of war!

However, let us not overlook small mercies. In the huge circular hall, which my Belgian informs me, will hold 100,000 people, between the twisted columns overburdened with uncouth ornaments, beneath the disgustingly gorgeous red and gold lamps, you may hear some excellent music. Recently, for instance, the keen, pale features of Alfred Cartot, one of the leading pianists of to-day, was to be seen bent over the piano there, as he drew forth from it the feverish notes of that bewitched genius Chopin.

Then the Kursaal also possesses polished floors with surfaces like glass for those who have been bitten with the dance craze; there is a quiet sunny reading room and a curving terrace from which, ensconced in a comfortable wicker chair, with an ice or a cigarette, you may watch the crowd of bathers on the beach and drink in the sea air.

GARMENT SHOPS CUT TIME.

Union Official Blames Woolen Company for Situation.

BALTIMORE, Aug. 31.—According to Hyman Blumberg, manager of the Joint Board of the Amalgamated Clothing Workers, the industry is now facing the worst period of idleness it has experienced in the last four or five years. Practically all the shops, big and little, are employing 10,000 workers on a three-day basis. This has endured for six weeks, says Mr. Blumberg, and is likely to continue until December.

"It is due," said Mr. Blumberg, "to the shut-down of the American Woolen Company's mills in an effort to keep the price of cloth up, and to the consequent fact that the manufacturer cannot get cloth."

He admits, however, that the fall clothing trade has been very dull.

"The idleness will not, however, result in lower clothing prices to the pubic," said Blumberg. "The prices of cloth and trimmings have not come down. They are the greatest elements in the costs of a suit of clothing."

Airplane service for the English peace delegates in Paris cost more than $500,000.

Rates for Telephone Service

OUR rates for exchange service, fixed many years ago, developed many inequalities as between cities at one time equal in population,

In the new schedules filed with the Board of Railway Commissioners we have so grouped cities and towns of approximately equal telephone development as to wipe out these inequalities.

The rates for exchange service proposed for Peterboro under the new schedule are shown in the following table:—

	Proposed Monthly Rate

These new rates, we submit, should be considered in the light of the present purchasing power of the dollar. They compare favorably with the increased rates which telephone companies have had to secure from Public Service Commissions all over the continent.

The commodities we have to buy—labor and material—have advanced in no lesser degree than have those staples of every day use, the cost of which has made present living expenses so high.

STONEY LAKE NEWS

STONEY LAKE, Sept. 7. — Mr. John Kennett of Southampton, England, spent a few days last week at Eagle's Nest.

Rev. W. H. White and family, of Peterborough, are at the Burnham cottage, Upper Stoney Lake.

Mr. George Cochrane and Miss Cochrane have closed their cottage on Eagle Mount and returned to Peterborough.

Miss Madelon Mairs, who has been visiting her mother and sisters at "Pinehurst" for the past month, has returned to New York.

Miss Blanche Moore of Peterborough, was a week end visitor at 'Star Cottage.'

Mr. and Mrs. R. Taleman of Anne Arbor, Mich., are guests at 'Viamede.'

The services in St. Peter's church are closed for the season, Sunday last being the closing service.

Mrs. (Dr.) Brown of "Wabuno," has closed her cottage and returned to Toronto.

The weekly dances at Juniper Island are only a pleasant memory now as they are discontinued.

Mr. La Verne Walton of Peterborough, spent the week end at "Star Cottage."

Mrs. F. Pakenham of Peterborough, has been at "Viamede" for the past week. Mr. Pakenham and Miss Gwelda joined her for the week end.

Mrs. W. A. Sanderson closed "Belmont" for the season on Saturday and returned to Peterborough.

Mrs. C. Meeking of Toronto, was a week end visitor at "Viamede."

Miss Bessie Thompson of Mount Julian, has returned from a few days holiday at Toronto Exhibition.

Guests at Juniper.

The following are registered at Juniper Island: Miss Frances Harstone, Miss Mary Harstone, Detroit, "Oakland"; Miss Florence McIntyre, Toronto, "The Cedars"; Horace K. Rogers, New York, "G... Rock"; John A. Dow, Toronto, "Yarrow Brae"; Mrs. Ernest Green, "Lochiel Lodge"; J. Porteous, Peterborough, "Bass Rock"; J. C. McDonald, Lily McDonald, Perth, "Shota"; Mr. and Mrs. N. Smith, Toronto, "Eagle Mount"; E. P. Eggleston, Pittsburg, "Eagle Mount"; Mrs. R. H. Harstone, Miss Mary Harstone, Peterborough, "Oaklands"; B. K. Taylor, Woodstock; Mr. and Mrs. D. G. Carlisle, Peterborough, Juniper; P. O. Dumble, Toronto; Grace M. Wilson, Muriel Wilson, Peterborough; E. H. Moore, Montreal, "Ojar"; James A. Wilson, Peterborough; Margaret Schofield, Jean E. Lowe, Boby Lowe, Cleveland, "Glenwood"; Mr. and Mrs. G. H. Graham and daughter, Peterborough.

Cottage Closed.

This week will see a great many cottages closed for the season and the lake will settle down for a quiet September. Every year the number of people remaining for September is greater and the colony who remain through this most delightful of months have nearly as gay a time as the set who only remain for July and August. The beautiful hazy days invite rest and an ideal for picnics and when the glorious moonlight is over and the nights are dark they gather around the fire and tell stories and play games. Some of the autumn colony who remain not only for September but also for October tell fascinating stories of good times on the lake.

MUSIC IN THE HOME

DON'T TELL.

Fragrant and wholesome as a breeze from the heather, "Don't Tell," the new Scottish comedy by Graham Moffat, well known as author of "Bunty Pulls the Strings," which appeared at the Grand Opera House on Saturday, proved one of the most notable productions that Peterborough has witnessed. Mr. and Mrs. Moffat, their talented daughter, Winifred, and the original Scottish caste and production were all seen here, and the result was a performance that will long be remembered by those who were fortunate enough to be present. Unluckily for Peterborough play-goers seem unable to pick the wheat from the chaff in maters theatrical, the attendance was small. It was an unique chance to see an entire British production that will be delighting Broadway audiences all winter and Peterborough failed to take advantage of the opportunity.

Too much cannot be said in praise of the acting of the entire caste. Somehow British companies are invariably more successful than the American players in creating the proper atmosphere in their offerings and in the accuracy in which their character delineations are presented. This was certainly true of the Moffat production in which even the most minor role was realistically portrayed.

"Don't Tell" is a most amusing comedy that does not depend upon slapstick work or burlesque methods for its effect. Nor is it of the boudoir type that the majority of American comedy-writers seem unable to get away from. It is the story of a Glasgow plumber, vividly played by Mr. Moffat himself, who has been unexpectedly made a magistrate. He is persuaded by the members of his household to conduct a rehearsal in the duties of his new position and in the midst of this scene it is discovered that one of his daughters has fallen foul of the police because of her suffragist activities. The complications that ensue furnish the humour of the production and the interest is sustained until the finish.

Mr. Moffat's conception of the Bailie was a masterpiece, while Mrs. Moffat scored as the old maid cousin, Tobie Tocher. The part of the flapper daughter was admirably played by Miss Winifred Moffat. Clyde Campbell was a most convincing lover and George Tawde as the Bailie's son, around whose adventure much of the comedy is centred made the most out of a role full of possibilities. The many other parts were skilfully sketched and the whole production was a triumph of stage methods. It isunfortunate that more of the city playgoers could not have seen this production. There will be nothing better all season.

VERY DESIRABLE NEW CITIZENS

ANTICIPATE MAKING THEIR HOMES HERE

A large number of Scots people arrived in the city yesterday from the Land of the Heather after a very pleasant trip across on the S. S. Cassandra, Donaldson Line. Included in the company are a number of young ladies who contemplate making permanent homes in Peterboro: also a few Scots families that have come out to their forerunners to Canada. Now that immigration has started it is up to the people of Peterboro to give these desirable citizens every arrangement to become real live promoters for a larger Peterboro.

Next Friday evening a very prominent lady worker in the city will hold a private social and dance in the Woodman of the World hall so as to make the new arrivals feel at home and get acquainted with new friends.

FALL FASHIONS

NEW YORK.—The fluffy ruffly wisp of feminity appears to be a wee disregarded by Dame Fall Fashion, and it is her sturdy, tweedclad sister that is getting the cream of attention. It's a fact that the huge wardrobe which this old sartorial Dame has shoisted upon the back of the world this year, is about three-fourths full of sport clothes, and such raiment as is not typically sportish shows the sport tendency in line and color.

Coats are represented by a bevy of three-quarter lengths in sturdy homespuns, rough weave plaids, or even leathers that are loose in cut, baggy at the sleeve and topped with immense shawl collars of self material or long furs such as oppossum or raccoon. Most of these are tan in color and occasionally trimmed with scroll designs cut from patent leather.

Short, much-pleated skirts of every combination plaid are worn with these sport top-coats. Either the accordion or side pleats, are used and some skirts show a combination of plain material with gusset pleated inserts. Narrow attached belts fastening with buckles or large buttons trim the skirts, and there seem to be no pockets. Although few plain colors are shown, the plaids are not as bright as in former days. Black and white combinations are very good and all effects use a background of black, taupe, tan or deep blue. Very few touches of scarlet, orange, or emerald are shown. An interesting innovation is given by the ring-around effect of stripes, as most materials run crosswise this year rather than lengthwise as has been the case so many former years.

The sweater craze is developed in a dozen different modes but the tie back, surplice effect continues in favor. Black and white is a leading color, and tricolette the favored material. A combination of new pleated skirt with sweater of contrasting hue is labeled the very best standby for the 1920 sports girl.

Mannish blouses of heavy linen, pique or duck are offered the antifrills maid and matron. They are made exactly like the old-time shirt waist and can be worn buttoned way up to the ears or with lapels. Buster Brown collars and windsor ties are back in the sartorial running.

Even street dresses seem to favor the sport loving girl as they are straight of line, loose, and simple A three-piece suit of loose, chemise dress with knee length coat developed in dull blue or brown silk jersey is an ideal late fall sport outfit.

Shoes and gloves also seem to favor an anti-feminine trend of fashion ah heels are low, vamps moderately long, and gloves heavy and plain.

SEPTEMBER MEETING OF WOMEN'S INSTITUTE.

On Wednesday afternoon the September meeting of the Mount Julian Woman's Institute was held in the parlour at Viamede. For ten years Mrs. Graham has been the hostess at the September meeting of this splendid society of earnest workers. Mrs. Lauder, the president, was in the chair, and Miss Emma Reid, the secretary, was as usual her able assistant. The work of these women has had a great effect on the community life of this section of Peterborough County, and if more of the rural districts would organise Woman's Institutes it would make a better county. In the war their work was magnificent and both money and service were given gladly.

HAIR CURLING TROUBLES ARE OVER—READ THIS

Have you heard about the newest way to keep the hair in curl? If not, by all means, cut out these simple directions and try this wonderful method. Procure a new tooth brush and a few ounces of plain liquid silmerine from your druggist. Apply enough of the liquid with the brush to moisten the hair from root to tip just before doing it up. You will be quite astonished when you find you have such lovely waves and curls they appear altogether natural, instead of having been artificially acquired. Best of all, the waviness will last very much longer than it would otherwise.

Your hair, of course, will have more "body" and fluffiness than where the drying, singeing, waving iron is used. It will appear glossier and livelier, for silmerine has proved equally desirable as a dressing for the hair. You'll find it pleasant to use, and it will leave no sticky, greasy or streaky trace.

Quality Hats

BARBISO'S

—Italy's finest product. The BARBISO Hat will outwear TWO Hats of any other make and has the distinction of being the FINEST Fur Felt Hat in the market.

IT PAYS TO ADVERTISE IN THE EXAMINER.

OFTEN MAKE MISTAKE WHEN MOTOR SKIDS

SIDE SLIP MAY BE CONTROLLED BY DRIVER.

"Every motorist knows the danger of a sudden skid on a wet and slippery street. When your car has started to skid there is no positive way to stop it, but the sideward motion of your car can be checked and in many cases controlled by proper steering and careful use of your brakes," says an auto distributer.

"When your car starts to skid you should turn the front wheels in the direction of the skid rather than in the opposite direction. Do not jam on your brakes, for that only locks your rear wheels and causes them to slide more freely towards the curb. The brakes should be applied gently and intermittently without throwing out the clutch. If your engine is delivering a little power to the rear wheels you can break them more effectively, and you avoid the danger of locking them.

"Many drivers become frightened at the first sign of a skid and do the very things they shouldn't do. They apply both brakes, throw out the clutch and try to right the direction of the car by steering in the opposite direction of the skid. A clear, cool head will save the day. Leave the clutch in and apply your brakes gently and release them several times and always turn your front wheels in the direction you are skidding."

Large Bars of Castile Soap, 29c

LEADER

September Shipment of "Palm Olive" Soap, 3 Cakes for 25c

"Palm Olive" is the people's popular toilet soap, and here is ten gross of full sized cakes to be disposed of at this unusual price. Not more than 12 cakes will be allowed to one buyer.

25c to 35c Dress Guimpes, Appliques and Braids, 17c Yard

We have taken about four hundred yards from our street floor stock and placed them on sale at this price. First buyers will find a splendid selection of appliques, braids and guimpes.

Second Annex Sale of 45c Canadian Prints, 29c Yard

These good quality Canadian Prints are 30 inches wide and have light grounds, with neat stripe patterns. Our street floor everyday price is 45c yard.

Large Size All-White Terry Bath Towels, 95c Pair

These Terry bath towels are a large size—20 x 40 inches. They have hemmed ends and are ready for use. This price is away less than to-day's wholesale cost.

NINE O'CLOCK SALE

1,000 Yards of Yard Wide Flannelette, 29c Yard

The price is much less than to-day's mill cost per yard for this twenty-piece lot of Striped Flannelette. It is a splendid quality and can be had in an assortment of light and medium stripe patterns. The width is between 35 and 36 inches. To prevent dealers buying, the quantity to each customer is limited to not more than twenty yards and no 'phone orders will be accepted.

55c Heavy White Flannelette, 43c Yard

This heavy quality pure white flannelette is 33 inches wide and has a soft combed finish. To-day's wholesale cost is as much as our regular street floor price of 55c a yard. There is a limit of 20 yards to one buyer and 'phone orders will not be accepted.

38c Bleached Steamloom, 27c Yard

This steamloom is priced 11c less than its regular value. It has a cambric finish and a fineness that makes it suitable for ladies' and children's wear. This price is one that is well worth while.

Second Annex Sale of "Ibex" 12-4 Flannelette Blankets, $3.95 Pair

"Ibex" is the best flannelette blanket that is made in Canada. These are the largest 12/4 size and every pair is guaranteed to be the first quality. You have your choice of grey or white with colored striped borders.

"North Star" and "Crescent" Cotton Batting, 2 Rolls for 29c

Five bales of cotton batting of two of the most popular brands. They are especially low in price for to-morrow's selling.

Pepsodent Tooth Paste, 39c

(FIVE GROSS.)

This popular tooth paste is beyond reproach and is highly recommended by those who know. It ensures healthy gums and pearly white teeth. Everywhere it is priced at 50c. To-morrow's' price in the Annex will be 39c.

Fourteen Dozen Only, 85c Value Corn Brooms for 59c Each

This is not the Annex broom that we usually sell at 49c. This lot is an over-shipment we have taken from our third floor. It is equal to any 85c broom and is made of fine wisps of green corn and bound with four strings and spiral wire binding.

LEADER.

Thirty Dozen Children's Fleece Lined Sleeping Suits, 95c

Kiddies' fleeced lined sleeping suits for the cool fall evenings. They are light grey in color and have snug fitting feet, button back and drop seat. This season's regular prices are $1.25 to $1.50, according to size. Decidedly worth buying your season's requirements in the Annex to-morrow.

LEADER.

Forty Dozen Children's "Little Darling" and "Little Daisy" Hose, 59c Pair

These fine ribbed Cashmere stockings have perfectly finished heels and toes that have no hard seams or lumps to irritate the wearer. There are about forty dozen in the lot and the sizes are from 4 to 7 and nearly all are black. This is an exceptional opportunity.

It Will Be Profitable to Buy the Boys' and Girls' School Hose in the Annex To-morrow at 39c Pair or 2 Pairs for 75c

There are fine ribbed ones for girls and heavier ribbed ones for boys. There are all sizes from 6 to 10. At this price it will be worth your while to buy a season's supply.

LEADER.

Ladies' 55c Cashmerette Hose, 44c Pair, 2 Pairs 85c

FORTY DOZEN "LONDON KNIT."

This is a splendid value fifty five cent stocking that is seamless and is the correct weight for fall. You can have either brown or black.

These Fall Weight Undervests Are Excellent Value at 59c

They are ribbed and have buttoned fronts and long sleeves, and can be had in white or grey. Only by quantity buying and carrying them in stock from last season is this price possible.

The CRESSMAN Grocery Limited

TEN THOUSAND DOLLARS HAS BEEN WELL SPENT ON THE PUBLIC SCHOOLS

MR. A. A. FOWLER HAD A BUSY SUMMER AS CHAIRMAN OF THE PROPERTY COMMITTEE — FEW HOLIDAYS FOR INSPECTOR MOWAT.

MR. A. A. FOWLER.
As chairman of the Property Committee, Mr. Fowler had a busy summer and the present condition of the Public Schools of the city is a testimonial to his successful efforts to improve them.

When Peterborough's children walked into the older of this city's Public Schools to-day they were astounded, not to say filled with delight, at new interior decoration and equipment prepared for their comfort and convenience. At an expenditure of $10,000 voted by the Board of Education before adjournment for the summer months, the Central, Queen Alexandra, Queen Mary Schools and the old Collegiate building have been thoroughly overhauled from cellar to roof, and the rooms now present a bright, cheery appearance and afford a degree of utility and health conservation which will be fully appreciated by teachers, pupils and parents alike. Apart from these improvements accommodation in the Queen Alexandra has been provided to control a never-growing congestion in attendance from the north ward.

That the $10,000 has been well and judiciously spent goes without saying when one considers the personnel of the Board of Education's Property Committee, under whose control a thorough system of sanitation renovation and increased room for teaching and teachers' requirements has been carried into effect. This committee has an indefatigable chairman in Trustee A. A. Fowler, who, together with appreciable co-operation from Inspector Mowat, has spent every dollar of the Board's appropriation for repairs to the best possible advantage, and to the whole-hearted acceptance of all concerned. As in all public bodies of this nature, it is committee chairmen upon whose shoulders fall the execution of plans voted, and during the past vacations Chairman Fowler has had but little time for holidaying. However, he applied himself energetically and cheerfully to those somewhat onerous duties entailed by school improvements, and in the hundred and one questions which have cropped up the last couple of months, his manifold decisions have been reached with commendable promptness and a helpful knowledge of those school requirements and improvements needed, the supervision of which rested mainly with him.

It is also gratifying to note the increased accommodation that awaited student this opening day, in the provision of which Chairman A. A. Fowler had the valued advice and co-supervision of Principal H. R. H. Kenner. One thousand five hundred dollars has been expended in this building.

In lookng over the schools repaired and altered, and now once again falling up for the current term, one cannot but be struck with the thoroughness of all work accomplished, which thoroughness tells a story of unskimped execution by the contractors and constant chairmanship direction which should win the fullest measure of recognition from the School Board and the city generally.

MR. A. MOWAT, P.S.I.,
who spent the most of his summer holidays furthering the interests of education in this city.

HAIRS WILL VANISH AFTER THIS TREATMENT

(Toilet Helps.)

You can keep your arms, neck or face free from hair or fuzz by the occasional use of plain delatone and in using it you need have no fear of marring or injuring the skin. A thick paste is made by mixing some of the powdered delatone with water. Then spread on the hairs and after 2 or 3 minutes rub off, wash the skin and all traces of hair have vanished. Be careful, however, to get real delatone.

WORKERS SEIZE METAL PLANTS

MOVEMENT IS SPREADING IN ITALY —TO HOLD CONFERENCE

(Canadian Press)

ROME, Sept 7.—Government officials will open negotiations with the General Industrial Conference at Milan on Thursday with view to solving the problem presented by the seizure by workers of metal factories throughout Italy. Socialist group in the Italian Parliament will hold a meeting with the Governing Committee of the General Workers' Confederation Friday, and it is expected that this gathering policy will be adopted by workers relative to present anomalous condition of Italian industry. It is estimated that four hundred of the largest metal works in Italy have been occupied by mechanics and workers and the movement is still expanding.

ADDITIONAL ATTACKES ON POLISH FORCES

(Canadian Press) .. .. ..

WARSAW, Sept. 7.—Monday's official statement from military headquarters reports additional attacks by Lithuanians upon Polish forces which the latter have repelled.

WILLIAM MELLEN SHOT IN ANKLE

SHOOTING ACCIDENT IN VICINITY OF JACKSON PARK

William Mellen, of 499 Stewart street, was accidentally shot in the ankle on Sunday afternoon by William Jewell, of 200 Stewart street, near Lily Lake. The two boys and three others were hunting at the time and Jewell attempted to change the cartridge in his rifle in order to shoot at a squirrel. He was holding the gun pointed toward the ground when it accidentally discharged and the bullet entered Mellen's ankle.

Jewel carried Mellen for about 100 yards and then his strength gave out and he went on for help. He attempted to get help at neighbouring farm houses but the farmers in the district were so incensed at the shooting, which has been going on every Sunday, that it took some time to get aid. Mellen was at last taken into the city to Nicholls' Hospital.

The bullet lodged against the bone in Mellen's anke, spintering it and an operation was necessary.

Tractor plows operating near Medan, Sumatra, are turning up 20 acres of ground in five hours which, it is claimed, would have taken 100 coolies one working day to perform.

INAUGURAL MEETING PETERBOROUGH AMATEUR ATHLETIC ASSOCIATION

RUGBY SERIES WILL BE ARRANGED THIS FALL—OFFICERS ELECTED —TEAM IN THE O. H. A.

At the inaugural meeting of the Board of Directors of the Peterborough Amateur Athletic Association, held last Friday evening in the Board of Trade rooms, at which the following were present: J. E. Bates, Gray Copping, Dr. Frank, G. H. Giroux, H. R. H. Kenner, Dr. McPherson, Maurice Park and J. W. Worth, the following officers for the ensuing year were elected from their number, and were formally instated in office:

President—H. R. H. Kenner.

Vice-Pres.—Dr. A. W. McPherson, by acclamation.

Auditor—J. E. Sullivan, by acclamation.

Owing to unforseen circumstances Mr. Sam Ray, the Hon. President, was unable to attend.

The appointment of Secretary-Treasurer went to Mr. Leon Frazer, secretary of the Board of Trade, pending the sanction of the Board.

Following the elections further consideration was given to additional by-laws, which will be again considered and passed on at the next meeting of the Board of Directors, and submitted to a general meeting, to be held at a future date.

Vice-President Dr. A. W. McPherson was appointed as delegate to interview the Peterborough Football Association at the next meeting of their executive, on September 14th, at which a full explantion will be given to that Association, of the aims and objects of the re-organized Athletic Association.

Rugby.

On motion by Dr. McPherson, seconded by Dr. Frank, a special meeting has been called for Friday evening next, September 10th, at 8.30, in the Board of Trade rooms, at which it is hoped all residents in the city interested in the formation of a Rugby Club will be present, at which a Club with its representative officers will be formed, in affiliation with the Athletic Association.

Hockey.

The Board of Directors are now making arrangements to organize a hockey team to represent the city on the O.H.A., and a meeting of all interested will be called in the near future.

As it is earnestly desired by the Board of Directors that the Athletic Association will act in every way in co-operation with the various sport clubs and associations in the city, suggestions from them will be very much appreciated ,and communications to the Secretary-Treasurer will be drawn to the notice of the Board of Directors at its next meeting.

Considerable attention was devoted to the possible development of school leagues in various classes of sport, and it is hoped that in the near future a definite plan will be laid before the educational authorities.

The next meeting of the Board of Directors will be held on Friday evening next, September 10th, at 7.30 p.m., at which it is expected that others interested in the development of the activities of the Athletic Association, other than the Board of Directors, will be present and will be given an opportunity of giving suggestions.

GREEK DIVISION IS BEING LANDED

(Canadian Press.)

CONSTANTINOPLE, Sept. 7.—A Greek division is being landed on the Black Sea probably at Ineboli, Asia Minor, for Ango-Ra and vossibly will establish Pontus Republic. The Greeks are also relievinf the British at Ismid.

TROLLEY CARS IN COLLISION

NIAGARA FALLS, N.Y., Sept 7.—Seven persons were injured at 12.30 o'clock yesterday afternoon in a rear-end collision of two Gorge Route trains of trolley cars at Elm Grove, about one mile north of the Devil's Hole in the Niagara Gorge. Scores of other passengers on the trailer on one of the trains saved themselves by jumping when they saw the other train bearing down on them. Only one was seriously injured.

In Catholic countries, bells, like other church furniture, are solemnly consecrated before being taken into use.

PHILADELPHIA ORCHESTRA

For sheer beauty and perfection the present recording of the Blue Danube Waltz by the Philadelphia Orchestra is perhaps one of the most attractive records that has been issued during the month. No music lover can forego this record of the waltz, which many a great composer envies. It is a 12-inch record listed at $2.00 and will be sent to any address on receipt of amount by Ye Olde Firme Heintzman & Co., Limited, George and Hunter streets, Peterborough.

IDEAL WEATHER IN SASKATCHEWAN

(Canadian Press)

REGINA, Sept. 7.—Ideal weather for harvesting has marked the past week in Saskatchewan. According to Government officials ninety per cent. of the provinces' wheat crop is cut and about seventy-five per cent. of other grains. Cutting is expected to be completed and threshing will be general this week. There has been not a sign of frost and garden crops are making fine progress.

WANTED: KEATING'S POWDER. To will cockroaches—EVERY cockroach. Sprinkle Keating's round the cracks and crevices in the kitchen at night, and sweep up the cockroaches in the morning—DEAD. Sold in Cartons only at all dealers. Insist on having Keating's.

Aunt Ruth's Beauty Notes

WASH YOUR FACE EVERY DAY FOR THESE REASONS

If you know the wonderful structure of your Skin, this advice is superfluous. You know that thorough Cleanliness is the fundamental skin treatment — an absolute essential to a fair, smooth complexion.

This is because countless minute Glands and tiny Pores are constantly eliminating oil and perspiration, which must be washed away.

Let this oil and perspiration accumulate, allow it to combine with dust, and successive applications of rouge and powder, and these glands and pores become clogged. Natural, healthy elimination can't go on. Irritation surely follows.

This irritation soon results in redness and ugly blotches. These develop into Pimples and Eruptions. External applications won't help; medication is useless. You are only treating results instead of the original cause.

Wash your Face thoroughly every day, and this calamity will never happen. Give your complexion intelligent care, and you need not fear imperfections.

Don't say your complexion won't stand Soap. This is superstition. You may find ordinary Soaps too harsh, but never the *mild lather of the* PALMOLIVE.

INVESTITURE OF MONSIGNOR McCALL IN NEW RANK OF DOMESTIC PRELATE

PROMOTION OF THE PASTOR OF THE CHURCH OF THE IMMACULATE CONCEPTION FORMALLY CARRIED OUT ON SUNDAY NIGHT —CONGRATULATED BY HIS PARISHIONERS.

CONFERRED BY BISHOP

The investiture of Rev. Monsignor McColl in the dignity of a Domestic Prelate, of which his new title and the purple robes are privileges of that rank, took place on Sunday evening at the Church of the Immaculate Conception, of which he is pastor. The honour paid to Monsignor McColl by a decree of Pope Benedict XV. on May 30th last was formally conferred by His Lordship Bishop O'Brien in the presence of a large congregation of the people of the parish and of the priests of the diocese, including Monsignor Casey of Lindsay and Monsignor Murray of Cobourg.

The occasion was accepted by the parish as an opportunity to welcome Bishop O'Brien on his first visit to the church since his return from Rome, and also of congratulating their parish priest upon the recognition of his service by the Holy Father. Prior to the ceremony twenty-five men, representing the congregation, approached the sanctuary rail, where an address to Bishop O'Brien was read by Mr. John Primeau. Later the address to Monsignor McColl was delivered by Mr. James Drain, and a substantial cheque was presented by Mr. Wm. McAuliffe on behalf of the people.

Followed ceremony of the blessing of Monsignor McColl's purple vestments and the reading of the decree of promotion by Rev. J. J. O'Brien.

Replying to the address from the parishioners, Bishop O'Brien spoke of his visit to Rome and of the comfort he received in talking over with His Holiness matters pertaining to the spiritual welfare of the diocese of Peterborough. He asked the people to continue their prayers for the Pope. "He needs your prayers at the present time because of the tremendous problems he is called upon to solve," said His Lordship. "The world realizes to-day more than at any time in the last hundred years the immense power for good of the Catholic Church, and the value of the principles for which Catholicity stands. If things are righted satisfactory it must be through the principles the Catholic Church has taught and was taught herself by Christ."

Bishop O'Brien said that in his pilgrimage to Lourdes and in all his prayers while absent from Peterborough he specially asked for religious vocations in this diocese. Since his return he had observed that there had been signs of a really wonderful number of vocations throughout the diocese. This week fifteen young women would enter Mount St. Joseph, in another week there would be the young men going to the seminary and others entering St. Michael's College to continue their higher education. Others, again, were joining the Christian Brothers.

MONSIGNOR McCOLL.

Referring to the promotion of Monsignor McColl, Bishop O'Brien said he had been glad to make the recommendation to the Holy Father.

"We all know the work of Monsignor McColl in Peterborough. When we look at every one of our institutions we see the results of his labours and constructive genius. I am very glad he has been honoured and I hope he may live long to enjoy it."

Monsignor McColl.

Replying to the address of the parishioners, Monsignor McColl referred to the flourishing condition of the parish, which he credited largely to the co-operation of the people. "I could not do anything without your help. The fact that you have co-operated is because you have a strong faith, and where you find a strong faith you find a people who accomplish many things. I thank you for your generous donation. I didn't expect it, but can use it to good purpose. I value this honour as I value every honour conferred upon me, because it is the Church that has given it to me and because it is our Bishop that has conferred it."

Monsignor McColl paid a tribute to Bishop O'Brien, whom he said he had known for many years. He had always been unceasing in his efforts to help the priests and the people of the parishes. I have never had a complaint, but on the other hand have had every reason to rejoice for the kindness I have received from Bishop O'Brien and from both bishops during my nineteen years here. I thank him and I also thank you for every consideration you have shown me."

LETTER CARRIERS CHARMED BY SCENIC BEAUTY OF THE OTONABEE

DECLARED THE PETERBOROUGH CONVENTION THE BEST THEY EVER ATTENDED—GREATLY IMPRESSED BY THE CITY'S HOSPITALITY AND THE ATTENTIONS OF THE LOCAL COMMITTEE.

EDMONTON NEXT YEAR

Loud in their praises of Peterboro's hospitality and enraptured by the enchanting beauty of the Otonabee River and Rice Lake, the delegates to the Dominion Letter Carriers' convention made a reluctant departure during the week end. If anything had been lacking in their previous entertainment or anything wanting to impress the visitors with the natural endowments and special advantages this city enjoys, the concluding excursion on Saturday afternoon as guests of the local letter carriers more than supplied the purely hypothetical deficiencies.

As a matter of fact the delegates wound up at noon Saturday what they declared to have been one of their most succesful conventions. The closing session was crowded with important business, including the election of officers. The agenda had been satisfactorily disposed of and votes of thanks passed to every one who had contributed to the pleasure and profit of the convention, and the proceedings were given their customary final touch by the singing of "O Canada" in French by the Quebec deputation. But Robert Reid and the local committee had kept the main feature for the last, and although some of the delegates had talked of taking the afternoon trains for their homes, the roll call was practically complete when the "Stoney Lake" cast off from the George street wharf for the sail over the Lift Lock and down the river to Rice Lake.

Charmed by Scenery.

"When they returned about ten o'clock on Saturday night these delegates representing the letter carriers' branches in nearly every province in Canada were still under the spell of an experience they said they hadn't in the least expected. The "grand and glorious feeling" had made them volubly eloquent in their admiration of the scenic grandeurs of the winding Otonabee, of the unspoiled enthralling beauty of Rice Lake and of the brilliant September sunset they had viewed from the hilltop over the little Anglican church at Gore's Landing.

"Mr. Reid and the local committee was disappointed that we couldn't go up the canal to the lakes north of the city," said Harry Bundy, of Toronto, "but from what I've heard there are a lot of cottages and resorts there. We want to tell him that we can't imagine anything better than the river and Rice Lake. Every bend presented new scenery to us, and the variety of it and its complete naturalness was wonderful."

"We were so delighted with that trip that we were seriously thinking of asking the Federated executive to buy a lot or an island at the lake where we could come every summer," was the commendation of A. E. Hull, of Toronto.

"I've never seen the Hawaian Islands nor many of the other beauty spots of the world," said Chas. Schippanowski, of Kitchener, "but I'm satisfied that there is no place grander in its way than what we saw this afternoon."

A Memorable Convention.

From these and other enthusiastic appreciations it is likely that the Peterborough convention will be memorable to the delegates who attended it.

Greeted by "Postmaster."

On the Saturday afternoon outing Mr. Robert Reid and his committee had overlooked nothing that could conduce to the pleasure of their guests, including the Peterborough letter carriers and their families. Everything was free at the well-stocked refreshment booth, and the Great War Veterans' Band excelled themselves with a splendid and unstinted programme. It was originally intended to land at Idyl Wyld, but the trip over the Lift Lock took longer than was expected. The boat was nearly an hour behind the schedule when Peterborough was left behind on the sail down the river, and there were doubts of the dockage facilities at Idyl Wyld. For these reasons the shorter trip to Gore's Landing was decided upon, but without any regrets on the part of the visitors. Casually some of them called at the Gore's Landing store and discovered a comrade in the proprietor, who is also the village postmaster.

A Flaming Sunset.

He was taken by surprise, but provided a little impromptu reception in the store, which was crowded to capacity. He distributed souvenir postcards, had his picture taken with the delegates, every one of whom promised to write him from their respective branches. The sunset spectacle wasn't on the programme, but it was singularly inspiring partly from the fact that the visitors as it were happened upon as if discovering the end of the rainbow's trail. The sheer majesty of that scene made an unforgettable impression, and Alex. McMordie, the veteran secretary, who, freed from the convention burdens, was the youngest of the boys all afternoon, said that the long climb up the hill had unfolded a brilliant panorama that would stamp the memory of this convention in the minds of all the delegates.

The half-hour stay at Gore's Landing didn't permit the shore dinner as planned, but it was served on the boat by T. H. Hooper, and proved the crowning event of the day's pleasure. The home-bound trip passed too quickly with a delightful programme of music and amusement.

Grateful to the Committee.

To "Bob" Reid and his committee, the president-elect, W. A. MacDonald, of Hamilton, and the other officer gave the warmest thanks for the entertainment features provided for the delegates and also for the convenient arrangements for the convention itself. There wasn't a hitch in the programme from the civic welcome to the parting song, "Auld Lang Syne." Mr. Reid performed the bulk of the work and in every detail it was a complete success. He invited the Federated Letter Carriers to Peterboro for the 1920 convention and he sent the sixty delegates home boosters one and all for Peterboro and its people. Not only were the visitors indebted to him for his efforts, but also the citizens for the highly favorable impressions the delegates received during their three days' visit.

The Concluding Business.

Saturday morning's proceedings were reported up to the election of officers, which resulted as follows:

President — W. A. MacDonald, Hamilton.

Vice-President—Fred. G. Bushell, Calgary.

Secretary-Treasurer — Alex. McMordie, Toronto.

Auditors—E. V. Browning and C. J. Only, Toronto, and C. H. Taylor, Windsor.

Provincial Vice-Presidents—Ontario, R. H. McDonald, Toronto; Quebec, James Last, Montreal; New Brunswick, J. F. McDermott, St. John; Nova Scotia, Jos F. Day, Halifax; Alberta, A. D. Campbell, Edmonto; Saskatchewan, A. E. Webb, Moose Jaw.

Organizing Secretry.

John Archer, of Hamilton, was the unanimous choice of the convention for the newly created office of organizing secretary, with A. E. Hull, Toronto, alternate.

The former motion to appoint 3 delegates to the Trades Congress, one each from the eastern, central and western sections of Canada, was rescinded, and Mr. Archer or his alternate, Mr. Hull, were elected to attend the Trades Congress.

Mr. Archer and R. H. McDonald of Toronto were appointed delegates to attend the proposed round table conference of the Civil Service Departments.

A. E. Hull, Toronto, was greeted with outburst of applause when declining nomination for secretary-treasurer, he said, "It has been rumoured that I came here to try and get the secretary's position. Mr. McMordie has done all the work while the salary was low and now that there has been an increase I think that he is entitled to it."

Edmonton Next Year.

Edmonton was chosen for next year's convention in preference to Ottawa, Hull and Toronto.

The election of Vice-President McDonald to the Presidency over E. V. Browning, president of the Toronto branch, was in one sense a vote of confidence in the Federated executive of last two years.

DEFEATED LAKEFIELD.

At the field day held yesterday at Indian River Keene baseball team defeated the Lakefield team by a score of 13-12.

The game was very fast and played at Close odds throughout.

CATTLE MARKET

(Canadian Press.)

WHY BE AFRAID OF GOOD FOOD?

Eat What You Like Best But Follow It With a Stuart's Dyspepsia Tablet.

When the stomach sours or becomes gassy, with heartburn, it needs the alkaline effect to offset the acid conditions. This you get

from one or two Stuart's Dyspepsia Tablets.

Relief is usually very prompt. The regular use of these tablets after meals gives the stomach and small intestine substantial help to digest food and you will then be bold enough to eat baked beans, fried eggs, sausage, buckwheat cakes and many other things you thought would make your stomach miserable. Get a 60 cent box of Stuart's Dyspepsia Tablets at any drug store and you will then eat whatever you like and be fortified against the acid, sour stomach due to indigestion or dyspepsia.

A woman at New York was watching a moth circling about a lighted gas jet when it fell burning on to her shirt waist, setting it afire. She was seriously burned.

THE P. B. I.

"The P. B. I. or Mademoiselle of Bully Grenay" was written by, and played by and for, the troops as an everlastnig monument to the Canadian Infantryman. It enables Canada's citizen Army to live over again for a few hours those wonderful days in France and to give every Canadian a concrete idea of the War as it was, stripped bare of the usual fake heroics, impossible incidents and theatrical flag-waving but depicting the fighting troops' conception of true manhood, tried in the fire of month after month in the billets, trenches and dugouts of the Western Front. This play will give a return engagement at the "Grand", Matinee and evening of Saturday, 11th September.

APPEARED IN POLICE COURT

Last evening Earl Foster accepted Roland Brock's challenge to "go outside and settle the matter."

This morning both were charged in the police court with disorderly conduct.

According to their story they had a dispute at the Exhibition Grounds yesterday afternoon over a "kewpie" doll. Last evening the altercation was continued in the Munro House pool room and Brock challenged Foster to go outside and settle it. Foster accepted. Some time after Brock was found lying unconscious at the corner of Water and Murray streets in a pool of blood. This morning Brock bore the marks of a heavy onset.

The settlement cost Foster $5 and costs of $4.10 and Brock $5 and costs of $9.10 which included the doctor's bill.

GET BEHIND THE TEAM

The fans who pay their money to see the ball games at Riverside Park undoubtedly have the right to "bawl out" the players as they see fit as long as their language is within the bounds of decency. That is their privilege, but while they have the right the wisdom of their doing so is quite a different matter. There is a certain class of "wise" fans who think it smart to roast the players on every opportunity; the kind who shout "Aw, hit it out," when a batter is sent up to sacrifice with a couple on bases and who yell "Bone-head" when the player takes their advice and hits into a double play; the kind who consider it a proof of their baseball knowledge to shout "Take him out" if the home pitcher happens to allow a hit or two. We have a good many of this class in Peterboro and they made their presence disagreeably known on Saturday afternoon and to some extent yesterday morning.

These loud-voiced, slow-thinking individuals never remember all the good plays a player may have made, but are ready with the harpoon as soon as he makes a slip. They are of little help to a team and it is to be sincerely hoped that they will be missing when the Petes go into the big series for the Ontario championship.

Peterboro has a team this year which the fans should be proud of and glad to get behind. They have won the championship of their own league in decisive fashion, have given the local followers of the game a lot of good baseball and are conceded ti have a splendid chance of bringing home the Ontario championship. The boys are pulling together like a happy family, every player working for the success of the team and every man, woman and child in Peterboro should be with them in their fight for the championship. They should enter the series with the Toronto winners feeling that the whole city is pulling for them, instead of playing under the handicap of realizing that up in the stands there is a bunch of their own home fans ready to bawl them out at the first sign of a slip.

Think it over, some of you knockers, and throw your hammers in the river.

DOWN THE RIVER.

The Steamer "Geneva's" Labor Day Trip to Rice Lake.

The depressing character of the weather on Labor Day did not prove too great for quite a number of our citizens who boarded the steamer "Geneva." Capt. Harris, at her wharf, bound for Rice Lake. The "Geneva" has carried a favorable reputation for endeavoring to give Peterboro citizens an opportunity to enjoy the benefit of water trips down the Otonabee to Rice Lake points for several years past. The attentiion given to this route by Capt. Harris' entitles him to greater encouragement than has been shown for the supplying of so pleasant an outing for our citizens. Campers and excursion parties, as well as others, have been greatly accommodated by the "Geneva's" service up and down the river. Many citizens who had gone down the river on Saturday and who had to return back Monday night, came up on the "Geneva" and had their canoes and camping outfits carried back with them safely. All were unanimous in praising the captain and his obliging crew for the prompt attention showa them.

WOOL MARKETS.

BOSTON, Sept. 7.—The Commercial Bulletin says:

With few exceptions sales of wool during the past week have been of retail description. Prices are barely steady on the basis of last week's sales. There is little new with reference to the new domestic clip.

"The manufacturers are generally engaged on samples and it is hoped that the mills will be re-opened generally by the middle or the last of September, although some of the New England worsted mills have been closed this week for an indefinite period."

OF INTEREST TO PETERBORO LADIES

It has come to the attention of the directors in charge of the Ladies' Work Department of the Peterborough Industrial Exhibition that there is a large amount of fancy work that would be entered in the Exhibition if the ladies were fuet aware of the procedure as to how to make an entry.

The making of an entry is very simple. A prize-list can be obtained from Mr. V. Eastwood of the Royal Bank, who is chairman of the committee, Mr. Roland Denne, president, Jordan Bros.' store, or from Mr. F. J. A. Hall, the secretary. An entry form is in each prize-list, and any one of the directors can give the information, if it is necessary, as to making out the entry forms.

This year the directors in charge of the ladies' work have secured the top floor of the Main Building for the exhibit of ladies' work. The prize-list has been revised, and in order that this department of the Fair may be as fully up-to-date as all the other departments, it is hoped that the ladies in the city and in the district who have fancy work will make an exhibit in the classes outlined in the prize-list.

With the growth of this department will come additions, and extra prizes in the prize-list. And, while during the past two years there has been an excellent exhibit of ladies' work, it is hoped that this year this department will eclipse all others from an exhibitors' standpoint.

The building will be fitted up for the proper care of exhibits, and will be protected against loss or damage.

The following is the prize-list in the Ladies' Work Department:

LADIES' WORK

DIRECTORS IN CHARGE
Messrs. Eastwood, Glover, Fraser and Graham.

Judging will commence at 2 p.m. on Monday, September 20th.

Tottenham Hot. 2—Derby 0.
Preston 2—Middlesbro' 0.
Manchester Uni. 1—Arsenal 1.
Liverpool 0—West Bromwich 0.
Aston Villa 3—Manchester City 1.

—Second Division—

Clapton 2—Cardiff 0.
Portvale 9—Coventry 0.
West Ham 1—Wolverhampton 0.
Barnsley 2—Nots County 2.
Hull 1—Birmingham 0.
Rotherham 1—Stoke 1.

—Third Division—

Millwall Ath. 0—Brentford 0.
Merthyr 4—Brighton 0.
Northampton 0—Queen's Park R. 3.
South End 3—Grimsby 1.
Swindon 3—Southampton 2.

STONEY LAKE NEWS

STONEY LAKE, Sept. 7.—Mr. Ludwig Ries, of Dennison, Ohio, and Dr. A. J. Ries, of Cleveland, are guests at Mount Julian Hotel.

Misses Bessie and Irene Thompson, of Mount Julian, are in Toronto attending the Exhibition.

Mr. E. C. Carter and a party of friends spent a few days at Jack's Lake this week. They had a splendid time, but the fishing was not as good as it was earlier in the season.

MADE NEW RECORD.

Empress of France Cuts Down the Trans-Atlantic Time.

MONTREAL, Sept. 1.—The Canadian Pacific Ocean Steamships liner Empress of France, which arrived at Quebec yesterday, broke the record for the Liverpool to Quebec trip.

CONVICTS CHEER LIPTON.

'Don't Make the Same Mistake Again' is Tea Baron's Advice.

OSSINING, N. Y., Sept. 4. — Sir Thomas Lipton visited Sing Sing Prison and was given a long ovation by the inmates, whom he addressed in the prison yard.

"I am very much gratified, boys," said Sir Thomas, when the cheers subsided. "There never was a man born who did not make a mistake. I've made them, and I guess most of you have. The thing is, when we grow older, not to make the same mistakes again."

The Irish baronet was presented with a hand-painted souvenir, made by the inmates.

CHAMPION MAULER DEMOLISHED MISKE

WILLIAM MISKE WAS NO MATCH FOR JOHN DEMPSEY

(Canadian Press.)

BENTON HARBOR, Mich., Sept. 7.—Jack Dempsey, world's heavyweight champion, received fifty-five thousand for battering Billy Miske, the St. Paul challenger, to defeat in the third round of the fight yesterday, according to a statement of receipts given out to-day by Floyd Fitzsimons, promoter of the contest.

The total attendance at the battle was eleven thousand and the total receipts were nearly $135,000. Miske fought on a straight guarantee of twenty-five thousand.

Benton Harbor, Mich., Sept. 6. — Jack Dempsey, super-fighter, made good his title this afternoon by knocking out Billy Miske in the third round of their scheduled ten round go.

It was one of the easiest triumphs of Dempsey's career. Never for a moment was he in danger and through every minute of the fighting he was master of the situation. Miske hardly laid a glove on him during the entire battle, whereas Dempsey gave Miske some terrible body punishment. A right-hander to the chin brought an end to Miske's championship dreams after one minute and thirteen seconds of the third round were over.

The story of the fight is just a story of a super-fighter battling a man frightfully outclassed. If Dempsey had not elected to box with Miske in the first round, and had gone out to slug he probably could have put away his foeman within the first three minutes of fighting, but Dempsey spurned the use of sluggery in the first session. He boxed along with Miske, probably with the idea of letting himself out for a match at some future date with George Carpentier ,the widely heralded French speed marwel.

And, in Dempsey's behalf, it can be said that in the first round he flashed boxing ability and defensive trickery that has not heartened the Carpentier followers. The champion battled Miske at Miske's own style, and made Miske look like a boxing novice. He outspeeded the St. Paul youth; in fact, ran circles around him. The Dempsey speed was bewildering. And though Miske shot through a score of his famous jabbing leads, Dempsey either brushed them away, ducked or sidestepped.

At the Ringside.

Here are a few facts regarding the fight:

Jack Dempsey knocked out Billy Miske after one minute and thirteen seconds of third round fighting.

Dempsey scored two knock-outs aside from the knock-out.

Dempsey knocked Miske down in the second round with a short right-hander.

He knocked Miske down for the count of nine in the third with a right-hand to the jaw. As soon as Miske got up the champion hit him on the same spot with the same right-hander and Miske was counted out.

Estimated attendance 20,000, which was the arena capacity. Estimated receipts were $200,000. Dempsey received $50,000 with the reported privilege of 50 per cent. of the gross gate.

Miske's "bit" totalled $15,000.

Jim Doughetry of Philadelphia refereed the main bout, which was to be ten rounds without decision. Weather conditions were ideal.

Bill Tate, one of Dempsey's negro sparring partners, easily outpointed Sam Langford in a six-round preliminary.

Harry Greb, of Pittsburg, who also was a sparring partner in Dempsey's camp, won in the sixth round over Chuck Wiggins.

The betting at ring time was 5 to 1 on Dempsey to win—without takers. Odds of 8 to 5 that Miske would not last six rounds also found no takers.

The State Boxing Commission of Michigan has been enriched approximately $20,000 by the fight because its share is 10 per cent. of the gross.

Floyd Fitzsimmons, who promoted the show, cleaned up between $25,000 and $50,000 on the show.

Official Figures.

The official fight figures were: Attendance, 11,348; total receipts, $134,904; state and government taxes, $25,528; net receipts, $109,376.

Inasmuch as the Arena was packed solid the estimate of the promoter that the maximum capacity was 20,000, was rather wide of the mark, as was his maximum esitmate of a $200,000 gate.

COCOANUT PIE.

Beat two eggs, add a quarter of a cup of sugar, a cup of milk, and a half cup of grated cocoanut. Fill a plate lined with pie crust and make as you would a custard pie. Serve with a little grated cocoanut on top.

The E. P. Ranch in Alberta

There is a strange magic in the lure of the prairies; there is charm in the Alberta foothills, there is a grandeur in the snow-capped Rockies. Such is the setting for the ranch acquired by the Prince of Wales in Alberta.

This property, for many years owned by Mrs. Bedingfeld, adjoins the famous Bar-U ranch, owned by Mr. George Lane, who entertained the Prince in September, 1919, and who negotiated the transaction by which the heir to the British throne became a farmer and rancher.

A more charming situation could not be found. In the West are the snow-capped mountains, to the north and south are the rolling foot hills and the gentle slope of the prairies to the east. Winding its way through the estate is the Highwood river, a crystal-clear mountain stream where there are choicest fish, the cut-throat trout. To the west, in the higher foothills and Rocky Mountains proper, are found deer, bear, partridge, the big mountain grouse, and other game. On the ranch, the prairie chicken flourish. In every direction, from the ranch house, stretch inviting glades, carpeted in summer with luxuriant grass and brilliant flowers. After his visit to the Bar-U ranch, the Prince expressed the wish to spend twenty-four years instead of twenty-four hours there, and the lure of it all impelled him to leap from his bed in the grey dawn of his first morning there, jump through the window, unknown to his attendants and walk five miles to the rising sun and back again. His Royal Highness saw visions that morning and the culmination of the impression that was made was the acquisition of the Bedingfeld ranch. Mr. Lane took the Prince away to the Bar-U ranch, for a full day and night, as his guest and not even the Prince's retinue or personal attendants, beyond his body servant, were permitted to go. It was simply a family party with Mrs. Lane as hostess. The prince, exhausted with a lengthy round of formalities, literally revelled in the experience—it was, to him a delightful fairyland. The cow-boys, many of whom, had served overseas and had already met the Prince, were his chums. The round-up, the cutting-out, the branding, the old trails, the clear skies, the vast distances, were all a clear delight—is it any wonder the Prince was impressed ?

In 1883, Mrs. Bedingfeld, on her first horseback journey through the foothills, in search of a western home, was captivated by the entrancing environment of what is now the "E. P." Ranch, and homesteaded the property, adding from time to time, until 1,600 acres were acquired. In addition to this, 20,000 acres of leased land passes into control of the royal purchaser.

Recently the Prince of Wales shipped by Dominion Express from England a number of horses and ponies for his new Canadian ranch. The animals were landed in Montreal from the C. P. O. S. ship "Montcalm".

At the dock's side, box cars built especially for the royal horses by the Dominion Express company, were waiting for their passengers, fresh in red paint and with the walls tinted in soft greys. Pitner lights, and running water in the troughs were a few of the arrangements prepar for the transfer of the horses to the prince's ranch near Calgary. On the floors were scattered quantities of sterilized shavings.

H. W. Monsell was in charge of the transfer of the horses by rail to the ranch and he personally attended to the fitting up of the cars.

The racing fillies are well worthy of a royal ranch, for they have in their veins the blood of derby winners, the blood of Ben D'Or, the progeny of Ormond of St. Simon and Galopin.

The fillies and ponies made a wonderful trip from Avonmouth. Though the latter had to be caught wild at Dartmoor on the ranch of the Prince of Wales, at Tore Royal, at Princeton, Devon, they were in fine fettle when the ship tied up at the quay. Two of the ponies are named "East" and "West." Another, "Owarks," a beauty, is sired by a horse which was presented to British royalty by an Indian prince, and never was beaten.

Some Notable Fillies.

The fillies of the greatest note are:

Drizzle, out of Marcoville, out of Dripsy, by Desmond.

Cerabossa, by Freddie King, out of Cyllene, by Buenos Vista, by Ben D'Or.

Miss Milligan, a very fast short distance racer, three years old, by Loch Ryan, out of Little Patience (a great winner), by Felleron, by Gallinule.

De Beers, (the best bred of the lot), by White Magic, out of Dollars, by Matchmaker, by Donovan, by Milliopin. White Magic the sire, is by Sundridge, by Sun Star by Ormond.

There is also Laggon, by Cyllene out of Cygad.

All fillies are two and three year olds and the ponies up to six years.

Dr. Baker, the dominion government inspector of health of animals, stated that he never saw horseflesh arrive in as good condition.

Muffins?

Dilute ½ cup Borden's with ½ cup water; 1 teaspoon salt; 2 tablespoons butter substitute melted; 1 egg; 2½ tablespoons molasses; 1 cup cornmeal; 1 cup flour; 1 cup bran; 4 teaspoons baking powder. Beat egg; add other ingredients in order. Beat well; transfer to well-oiled muffin pan. Bake 25 minutes in moderate oven.

Delicate, delightful. As simple and economical as you'd ever wish for. The secret is in the recipe—and it calls for only one egg! A guaranteed success if you use.

IENDS GREETINGS TO KNIGHTS

Lloyd George Writes Best Wishes—Ireland Open to Them.

COMO, Italy.—David Lloyd George, he British Prime Minister, sent a etter of greeting to the American Knights of Columbus when they were eaving Lucerne.

"You have my best wishes and my incere hope that your tour will continue to be a successful and a happy one," said the message.

Baron George Riddell, the Premier's spokesma, informed the Knights that hey might visit Ireland whenever they lesired. The programme of the Knights included visits to Milan and Florence.

Sueprflous war vessels filled with concrete are being offered by European governments to coast towps for use as breakwaters.

MOTHER!

"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

ROAD FOUNDATIONS NEED REAL THOUGHT

IMPORTANT FEATURE OF HIGHWAY BUILDING IS ROLLING.

At the present time when the Dominion and Provincial Governments are apropriating vast sums for highway construction and cities, towns, villages and counties are selling debentures for raising funds for the roads which they are and intend building. This applies more particularly to roads built in the smaller towns and counties as in the larger cities the matter of proper foundations is usually well taken care of.

In many localities there exists today waterbound macadam roads which have outlived their usefulness as such and which in many instances can, if having a sufficient thickness of metal, with a small amount of shaping, be used as foundations for any of the various classes of bituminous pavements, both hotmi xand penetration types.

Should the macadam be in bad shape, it should be scarified and the irregularities eliminated by an even layer of new stone which should be well rolled before the new surface is put down. Care should be taken in scarifying not to remove too much of the old surface. Particularly when widening a road or when the old crown is high, the centre of the road is often ripped up and the stone worked to the sides, thereby weakening the proposed foundation at the most important point. When an old macadam road with a high crown is intended to be used for a foundation, the metal in the centre of the road should be left intact and the sides brought to the desired thickness and grade. This insures a firm foundation in the centre of the road over which most of the traffic will travel.

A new rolled stone foundation regardless of subgrade, should never be less than six, or if heavy traffic is expected less than nine in inches in thickness. To-day with the great demand for mileage an important feature in foundation construction is often sighted, that of thorough rolling. Many materials and mixtures laid on foundation which have not been sufficiently compacted have been the subject of much criticism on account of their failure to stand up under traffic. Modern traffic demands smooth pavements which can only be obtained by having well consolidated foundations.

CHOICE RECIPES

INDIAN BREAD.

Mix two cups of cornmeal, a tablespoon of molasses, two teaspoons of baking powder, one egg, two cups and a half of milk and a tablespoon of shortening. Bake brown and crisp and cut in strips.

STEAMED FOWL.

Place the fowl in a deep kettle with a little water and steam one nour. Fill with a dressing made of seasoned mashed potato and roast in a hot oven until brown.

FRIED TOMATOES.

Cut in slices without peeling, dip in egg and fry in hot butter on both sides.

CAFE PARFAIT.

Whip a cup of cream stiff, add a cup of very strong coffee, half a cup of marshmallow, whip and turn into a mould. Pack with salt and ice and let stand three hours.

VEGETABLE HASH ON RICE TOAST.

Chop two cups of cold potatoes, one-half cup of beets and a cup of carrots. Brown in a frying pan with a little butter and serve on the rice toast. Boil enough rice to make a small pan full. Place in a pan, place a weight on top and keep over night. Fry brown on both sides in butter.

FRENCH TARTS.

Make a pie crust and form into tarts. In a cup of strained apple sauce add one beaten egg and a tablespoon of honey. Add a little cinnamon and a tablespoon of currants. Fill the tarts and bake until the crust is done.

SWISS CHARD.

Pick over and wash well. Place in a little cold water and boil one hour or until tender. Drain, chop coarsely and grate over one hard boiled egg.

BERRY PUDDING.

Mix half a cup of rye flour, two cups of milk, half a cup of molasses, one egg, a tablespoon of oleo, and a half cup of blueberries. Turn into a baking dish and bake three-quarters of an hour, then add a cup of milk and bake 20 minutes longer.

WAFFLES.

Mix two cups of flour, three teaspoons of baking powder, a teaspoon of maple syrup, three eggs (the whites and wolks beaten separately), a cup and a quarter of milk and a little salt. Fry on well greased waffle irons.

FRIED LAMBS' TONGUES.

Boil the tongues in water just to cover in which a tablespoon of lemon juice has been added. Skin, cut in halves lengthwise, dip in melted butter and fry brown. Serve with the following sauce: Boil the contents of a can of tomatoes five minutes. Thicken with a little dissolved flour and add a teaspoon of chopped green peppers. Strain the tomatoes before adding the peppers.

PEANUT SANDWICHES.

Chop the peanuts and brown a little in oil of butter. Add two tablespoons of chopped pickles, a tablespoon of Worcester sauce, and cook a minute longer. Remove from the fire and blend the mixture into a cream and spread between thin slices of Graham or rye bread.

BRAN POPOVERS.

Beat two eggs, the whites and yolks separately, add a cup of milk, a little salt and half a cup each of bran and flour. Bake in greased muffin tins about twenty-five minutes.

BLACKBERRY AND BANANA SALAD.

Cut a head of lettuce in quarters and lay on ice until wanted. Peel three bananas and arrange on the lettuce in a circle and fill the centers with blackberries. Beat together a teaspoon of lemon juice, the same of vinegar, two tablespoons of olive oil and teaspoon of sugar. When blended pour over the salad. Serve very cold.

GOOSEBERRY FOOL.

Cut the tops and tails from a quart of gooseberries and put them into a jar with four tablespoons of water and sugar to taste. The amount of sugar depends upon the acidity of the berries. Set the jar in water and cook until soft. Beat to a pulp, press through a sieve, and to every pint of the pressed fruit beat in half a pint of whipped cream and half a pint of boiled custard. Serve in sherbet cups with a bit of nutmeg grated over the top.

PRINCE CAROL'S LIFE IN WAR DESCRIBED.

Heir to the Throne of Rumania Joined Infantry to Set an Example to Nobility.

NEW YORK.—The life and popularity of Crown Prince Carol of Rumania among his people have been revealed by Lieutenant Dimitri Dem Dimancesco, a former brother officer in the Prince's regiment, the Vanitori de Munte. Lieutenant Dimancesco, Military Attache of the Rumanian Consulate at Pittsburgh, was a caller at the Prince's suite in the Waldorf-Astoria. He said Prince Carol chose an infantry unit in order to set an example to the wealthy and the nobility, who usually served with the cavalry or the artillery. As Colonel of the regiment he became very popular because of his democratic ways and thoughtfulness of their welfare.

Prince Carol also received Sam Blotor, a labourer in the steel mills at Woodlawn, near Pittsburgh. In behalf of eleven other Rumanian workers he presented the Prince with a bronze statuette representing two runners in a foot race, to be offered in a Boy Scout competition when the Prince returns home. Prince Carol is a member of the Boy Scout organization in Rumania and is also President of the Associated Athletic Clubs of Rumania.

SAYS HE'S NEVER SEEN ITS EQUAL

QUEBEC FARMER DECLARES HIS HEALTH HAB BEEN RESTORED BY TANLAC

"I shall never forget my trip to the States because it was while there that Tanlac restored my health," said Napoleon Therrien, well-known farmer at St. Leonard, Province of Quebec, Canada.

"For about six years I suffered from indigestion and stomach trouble. My food turned sour and I used to bloat up so with gas that sometimes I thought it would kill me. Then my appetite failed and I had no desire to eat at all. I couldn't sleep much and would get up in the mornings as tired as though I had been up all night. I became so weak at last that many a day I had to lay off from work and just let my farming go. Finally I decided to take a complete rest, and went to Manchester, N.H., to visit some friends.

"I told friends there about my condition and everyone would say, 'Why not try Tanlac? I called at the Drug Store and bought a bottle, and I hadn't taken half of it before I began to feel better. I felt hungry all the time and thought I should eat my friends out of house and home. I can eat things now that I haven't dared to touch in years and my food agrees with me perfectly.

'I never have any gas on my stomach now and sleep sound all night. I have gained ten pounds and have returned to Canada feeling better than I have in years. In all my sixty years I've never come across a medicine to equal Tanlac."

Tanlac is sold in Peterborough by W. B. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co., Ltd., in Fowler's Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son.

ACTION AGAINST HOSPITAL.

Robert Leuch, of Gananoque, through his solicitor, J. Arthur Jackson, of Gananoque, is bringing an action against the Kingston General Hospital for $5,000 damages for injury to his daughter, Edith, an infant, while a patient in the hospital, through, it is alleged, the negligence of the defendants or their servants.

THE DIFFERENCE.

I hear so many stories of When Mother
Was a Girl!
She always stood so very still to have
her hair in curl;
She brushed her teeth three times a
day, and kept her nails so clean,
And never once forgot that little girls
should just be seen.

Now, I'm a very diff'rent child. I'd be
a nervous wreck
If I couldn't fidget all I want, and talk
a teenty speck;
If I don't forget I brush my teeth—if
I can find the time—
And I clean my nails, but they mostly
show a horrid edge of grime.

My Mother kept her stockings darned,
when she was oh, so small!
For roller skates and loop-the-loops
she didn't care at all;
And playing baseball with the boys—
"My dear! It wasn't done!"
The tomboy things her daughtre loves
were not considered fun.

My Mother always sat up straight and
kept her elbows down.
Said "If you please," and "Thank
you, ma'am," and never wore a
frown;
She always used her napkin, and never
tipped her dish;
She didn't whistle in her soup, nor
mess up with her fish!

But I'm a very trying child! My
manners don't exist,
Big Sister says, and tries to head me
off when I insist
On picking out the kind I like of candy
when there's guests,
And paying no attention to her hints
and kind requests.

If I wait till the guests choose theirs,
my kind will all be gone!
I know this by experience, because
I've tried it on.
Of course, my Mother never would
have been a Greedy Pig,
But if she wasn't 'shamed of me, I
wouldn't care a fig.
Because I'm sure, away down deep
(I'll never say it, though),
What good times meant, in Mother's
day, they simply didn't know!

Alice W. Forsyth, in New York Times.

ABOUT NATIONAL ANTHEMS.

How various national anthems originated is told in an article on the music page of the Fort Worth Record by H. Vivian Hamilton, composer and pianist, who is passing the summer in Fort Worth. Mr. Hamilton's article follows:

"Many are the political vicissitudes and technical mutations which a national anthem undergoes before it arrives at thot state of perfection which endures for ever and cause the patriotic heart to beat with a pride that delegates the name of its author to a place among the immortals.

"And many are the famous names associated with the national hymns known in their accepted versions all the world over.

"Several bars of the Marseillaise, one of th most stirring of all, would not be recognised by Rouget de Lisle if he heard it as it is sung to-day.

"On the other hand no improvement could be made in the Austrian Hymn which was not the only immortal creation of so accomplished a musician as Haydn. The fate of the Napoleonic hymn 'Partant pour le Syrie,' is now probably sealed for ever, and there are few people who can hum the forgotten melody to-day. It was written by Queen Hortense, daughter of Empress Josephine by her first husband ,Genera Beauharnais and the wife of Napoleon's brother, Louis. She, however, has a place in history which the faithlessness of man to her effort will not erase.

"So trivial is the Italian hymn that it is as well not to inquire the composer's name, and it is to be regretted that Verdi, perhaps the most prolific melodic composer the world has ever known, whe nasked by Victor Emmanuel II. to write one, was so modest as to declare that he did not feel equal to the task.

"The British National Anthem is probably the oldest, unless some Oriental nations can give theirs that distinction. The earliest version dates further than the twelfth century, when it was exhumed in a coffin in Yorkshire, and bears little resemblance to the well-known version of to-day.

"Its authorship is lost in the mist of ages, and the many changes rung in on the original tune are signed by as many composers. In simpler harmonic form and in common instead of triple time, it was also the Saxon hymn before the war.

"A unique interest that is not generally known is attached to the Venezuelan hymn, which has habitually been attributed in musical dictionaries, books of references, and personal obituary notices to the famous pianist, the late Madame Teresa Careno, born in Caracas. In the presence of the writer of this article, however, she once declared 'I've been told so often I wrote the Venezuelan National Anthem that I'm beginning to think I did.'"

HIGH PRICE FOR FISH.

Oshawa was boasting of their fishermen selling fish in New York at 35c per lb. Port Hope fishermen received as high as 47½c per lb. in New York for fish this season and at this exorbitant price the fish were not cleaned.

ATTEMPT TO DRIFT NEAR NORTH POLE

SAN FRANCISCO, Sept. 3.—Trails blazed across the Arctic ice pack a quarter of a century ago by Fritjof Nansen, Norwegian explorer, were expected to be followed, for a distance, by Nansen's fellow-countryman, Captain Ronald Amundsen, discoverer of the South Pole, when he left Nome, Alaska, recently, on an attempt to drift across or near the North Pole.

Nansen, in 1895, attempting the same drift, sailed around Russia and Siberia and locked his boat, the Fram, in the ice off the New Siberian Islands, which lie in the Arctic north of Siberia. Amundsen, on leaving Nome, said he planned to sail to the same New Siberian Islands, let his boat, the Maude, freeze in the ice and then allow the winds and currents to carry him where they wished.

New Current Claimed.

Explorers' theories that an Arctic Ocean current starts near the New Siberian Islands, runs through the Polar Sea, across or near the Pole, and finally ends at Greenland, in the Atlantic, were used by both Nansen and Amundsen as a base upon which they made their plans.

Existence of the current has been disputed by many Arctic authorities, who claimed the wind, and not the current, determined the route of the ever-drifting Polar ice. Nansen, one of the first advocates of the theory, pointed to the fact that wreckage from the exploring craft, the Jeanette, destroyed near the New Siberian Islands, was found two years after the wreck along the Greenland coast. A "throwing stick" used by Alaskan Eskimos was found, it has been claimed, in driftwood on a Greenland beach. The wreckage and the stick, it was argued, lodged on an ice floe which carried them across the Polar wastes to Greenland.

Drift Not Strong.

Nansen found the drift not as strong as he expected, mainly because the Polar basin was much deeper than he had believed. He also discovered that the wind determined, to a great extent, the route of the ice drifts. The Fram was carried to within 350 miles of the Pole, and later cleared the ice near Greenland. When the drifting Fram arrived at the 82nd parallel, Nansen attempted to reach the Pole over the ice. With one companion he left the ship, and, in which has been described as the most daring sledge journey ever undertaken, proceeded to the 86th degree, at that time, the farthest north ever reached by man. There he turned back.

PLEASURES THAT ARE FREE.

It doesn't cost money, as many suppose,
To have a good time on the earth;
The best of its pleasures are free
unto those
Who know how to value their
worth.

The sweetest of music the birds to us
sing,
The loveliest flowers grow wild;
The finest of drinks gushes out of
the spring—
All free to man, woman and child.

No money can purchase, no artist can
paint,
Such pictures as Nature supplies
For ever, all over, to sinner and
saint,
Who use to advantage their eyes.

Kind words and glad looks, and
smiles cheery and brave,
Cost nothing—no, nothing at all;
And yet all the wealth Monte Cristo
could save
Can make no such pleasure befall.

To bask in the sunshine, to breathe
the pure air,
Honest toil, the enjoyment of
health,
Sweet slumber refreshing — these
pleasures we share,
Without any portion of wealth.

Communion with friends that are
tried, true and strong,
To love and be loved for love's
sake—
In fact, all that makes a life happy
and long
Are free to whoever will take.

MONSTER MASKINONGE.

A monster maskinonge, four feet, three inches in le th and weighing thirty-five pounds, is caught by Samuel Hart, Rosmore, while trolling on the Bay of Quinte. The fishermen had no gaff but managed to stun the fish with a stick and safely land him.

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhea (Rigga' Disease) if used in time and used consistently.

And in preventing Pyorrhea—it guards against other ills.

Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

SPORTING NEWS, VIEWS AND GOSSIP

PETES EASILY WIN FROM THE UNIVERSALS

VISITORS HAD EARLY LEAD BUT SOLOMON CREW WON GOING AWAY BY 11 RUNS TO 3 IN MORNING GAME AT RIVERSIDE PARK—HOLYMAN'S FIELDING A FEATURE.

The Petes in their Labour Day games with the Universals of Toronto split even with the Riverdale Leaguers, winning the morning game at Riverside Park handily by 11 runs to 3 and losing the afternoon fixture at the Exhibition Grounds with a make-shift line-up by 5 runs to 4.

In spite of the wet diamond the morning fixture was a fairly good game of ball and the Petes with the exception of one innings, in which they bunched their three errors played with snap and vim. Lornie Rose started in to do the twirling but had had retire on account of a sore side at the end of the second, having allowed two singles and no runs. Kirn finished the game, and after the third innings when the Petes wavered temporarily, Kirn making two misplays himself and the Universals gathered in three runs, had the visitors competely tied up. In the last six innings two singles were all they could collect and not a visitor reached first base after the fifth.

The Petes drove Finlay, the visitor's pitching ace, to cover in the fifth and Lefty Brown finished the game.

Holyman's fielding was a feature. The second baseman had a double play unassisted and handled eleven chances without a slip, making a grand stop of Reading's smash in the eighth.

The visitors did all their scoring in the third innings when Kirn had to go in without warming up. Robertson started the trouble by singling to centre. McLaughlin bunted for a sacrifice but Kirn threw wild to first, Robertson going to third and the batter to second. Swanston picked Robertson off third with a quick peg to Murray Reading walked On a double steal McLaughlin scored when Kirn intercepted Holyman's throw and threw wide to second, Reading going to third. Ashton hit to Cherrett and went to second on the short-stop's wide throw to first, Reading scorning. Brown rolled to Holyman, Ashton scoring from second on the play. Kelly fanned and the Universals were through scoring for the morning, getting only two singles in the next six innings.

The Petes got two back in their half of the third. Jackson opened with a walk and was sacrificed to second by McCarney. Kirn fouled to Reading but Cherrett singled through short, scoring Jackson. Cherrett stole second and came home when Kelly dropped Murray's fly. Swanston fanned to end the innings.

In the fourth the home brigade went out in front. Ross got a life on Finlay's muff of his pop fly and after Ray Rose had fouled out Holyman rolled to Robertson who let the ball slip as he tried to snap it to second and everybody was safe Jackson singled to right, scoring Holyman. McCarney's safe bunt and Kirn's double to left sent two more runs in.

The Petes made it three more in the fifth. Swanston doubled to left to start with and Ross walked, both moving up on a wild pitch. Ray Rose doubled to right, scoring Swanston and Ross. He went to third on Holyman's out and scored on a wild pitch. Brown relieved Finlay at this stage and got the side out without further scoring.

In the seventh the Petes added another trio. Corrin opened with a single. Ross bunted to Brown who threw to second too late to get Corrin. Holyman bunted to Brown and was safe when Ashton dropped the throw. With the bases loaded Jackson doubled over short, clearing the sacks and going to third when Reading let the throw to the plate get away. The next two went out.

Wild pitch—Finlay, 2. Passed ball—Reading. Hit by pitcher—By Kirn, 1 (Reading). Empires—Kay at the plate, Lebarr on the bases.

BARONESS MacDONALD DEAD.

LONDON, Sept. 7.—Baroness MacDonald of Earnscliffe, widow of the great Canadian Premier, Sir John A. MacDonald, died on Sunday, it is announced. Baroness MacDonald, who was born in 1836, was given that title in her own right on the death of her husband, in recognition of his public services.

PETES HEAVY HITTING DEFEATS NEW LISKEARD

LOCAL DEFENCE SHAKY AGAINST TEMISKAMING CHAMPIONS BUT THEY HAMMERED THE BALL HARD—BOB ROSS FEATURES GAME WITH A HOME RUN WITH TWO ON THE BASES—FINAL SCORE 15 TO 7.

The Petes showed the effects of their long lay-off in Saturday's exhibition game at Riverside Park with New Liskeard, for although they beat the Temiskaming champions by 15 to 7, their defence wobbled badly, and it was only an unusually healthy use of the willow by the home brigade that saved the day. The Petes had their biggest batting carnival of the season at the expense of "Polly" Winks, the veteran pitcher of the northerners, who was combed for twenty solid smashes. Bob Ross lead in the assault with four safeties in five times up, his string including a clean home run with two on the sacks. This circuit clout was a feature of the game, Ross driving the pill to deep centre field and sending in Murray and Harrison ahead of him. The rap came at a very opportune time for it put the Petes ahead after New Liskeard had scored two runs in the second innings. Harrison, Cherrett and Ray Rose with three hits each were the other local leaders in the swatting bee, two of Harrison's blows being doubles, while one of Cherrett's was good for an extra base.

Kirn was on the firing line for the Petes at the go-in and it was evident that the long rest siince the Oshawa game had had its effect, for he lacked both "stuff" and control. In addition his support was shaky, the usually reliable Tommy Holyman gumming up two plays with the bases full, while Kirn helped to put himself into trouble by dropping a fly. The result was that the visiitors scored pretty freely, while the Petes, using their war clubs to good effect, kept in the game by persistent hitting. Lornie Rose pitched the last three innings and should have got by without being scored upon if Hap Harrison hadn't lost a throw, the miss letting two runs filter iin. It was a see-saw affar until the Petes broke loose in the eighth with an avalanche of hits that drove seven runs ovtr the pan and put the game on ice. Time was called at the end of the eighth to allow the visitors to catch a train.

The New Liskeard team was really a combination of Temiskaming League players, assisted by Frankie Britton, the good little catcher of the St. Francis of Toronto. Winks, who did the twirling and who started out as if he had the Petes thoroughly buffaloed, hails from Cobalt, and several of the other players were with Haileybury this season. Britton hat four hits in five times up and was of great assistnace to his team. The visitors were the first to score. Britton led off in the second on a clean single to centre, going to third while Holyman was throwing out Spence and Brisson. Fleming singlel past the box to score Britton, Grills walked and Winks pasted a single to centre, sending Fleming in. Burns walked, filling the bases, bot Thompson flied to Holyman.

The Petes took the lead in the third. Kirn singled through third and Cherrett over second. Murray hit to Burns, forcing Kirn at third and Cherrett, over running second, was doubled on the play. Harrison hit through short for two bases, sending Murray to third and Ross came through with a homer to centre, three runs coming in.

The visitors tied it up in the fourth when Grills singled and stole second, scoring on Burns' single over second.

In the fifth New Liskeard flashed in front. Simms was safe when Kirn dropped his fly. Britton hunted safely and Spence singled to centre, filling the bases. Brisson hit to Holyman who threw to the plate too late to get Simms and everybody was safe. Feming also hit to Holyman, who held the ball while Britton scored and Fleming reached first. Holyman and Ray Rose changed places at this stage Spence was out at the plate trying to steal home and Grills hit into a fast double play, Cherrett to Ray Rose to Harrison.

In their half the Petes took the lead again. Cherrett doubled through short Murray rolled to Simms but Harrison doubled to right, scoring Cherrett. Ross beat out a roller to short and stole second. Lowe walked, filling the bases. Ray Rose singled past third, scoring Harrison and Ross. Corrin fanned.

The Petes increased their margin in the sixth. Holyman started with a single through short and was advanced to second on Lornie Rose's neat sacrifice. Cherrett fanned, but Britton missed the third one and the runner was safe. He stole second and came home with Holyman when Murray singled past first.

New Liskeard closed the gap in the seventh. With one down Britton singled, his fourth hit of the day. Spence hit to Murray, who threw to Ray Rose to force Britton, but Rose lost the throw. Brisson hit to Lornie Rose, forcing Britton at third. Fleming rolled to R. Rose, but Harrison dropped the throw, Spence and Brisson scoring.

It was 8 to 7 when the Petes went to bat iin the eighth, and with one out singles by Cherrett, Murray, Harrison, Ross, Jackson, R. Rose asd L. Rose and a double by Holyman sent seven runs in. The score:

Peterboro—	AB	R	H	PO	A	E
Cherrett, ss	5	3	3	0	2	0
Murray, 3b	5	2	2	1	2	0
Harrison, rb	4	3	3	12	0	2

Winning pitcher, Kirn. Hit by pitcher—By Winks, 1 (Harrison); by Rose 1 (Thompson). Umpires—Kay at the plate, Lebarr on the bases.

ETHEL CLAYTON IN ADVENTURE-ROMANCE "CROOKED STREETS"

China is Scene of Exciting Picture Adapted from a Samuel Merwin Story.

Ethel Clayton's latest photoplay, "Crooked Streets," will be the attraction at the Allen Theatre Wednesday and Thursday. It is an adventure-romance of China and was adapted from an original story by Samuel Merwin.

Miss Clayton has the role of Gail Ellis, who, answering an advertisement, becomes secretary to an antiquarian on a trip to China in search of rare vases. In Shanghai, Gail becomes suspicious that her employer's errand is not an honest one. Venturing alone into the native section of the city, she is involved in a brawl between some Chinamen and roistering French soldiers on leave. An Irish adventurer named O'Dare rescues her with difficulty, but the adventure is not half so startling as the one which follows. Suffice it to say that the picture ends happily for Gail and her rescuer.

An excellent cast, including Jack Holt and Clyde Fillmore, supports Miss Clayton in "Crooked Streets." Paul Powell, who recently directed Mary Pickford in "Pollyanna," was the director. The picture is a Paramount Artcraft.

PLAN MONSTER FUNERAL.

Sinn Feiners Will Hold Demonstrations Throughout England and Ireland.

(Special to The Examiner.)

LONDON, Sept. 4.—The Sinn Feiners are planning monster funeral demonstrations throughout England and Ireland in the event of Mayor MacSweney's death.

A pretty girl in Kansas City called on the Welfare Loan Agency and asked for a loan on a georgette nightie that cost her, she said, $32.00. The hard-hearted appraiser said he couldn't take the risk.

LABOUR DAY CELEBRATION DREW BIG CROWD TO EXHIBITION PARK

FIELD SPORTS AND ATHLETIC CONTESTS, WITH MUSIC AND GRANDSTAND ATTRACTIONS, PROVIDED ABUNDANT ENTERTAINMENT—FOOTBALL AND BASEBALL GAMES WERE FEATURES.

HAD A THEATRE NIGHT

With a big bill of attractions at the Exhibition Park in the afternoon, and in the evening a special programme at the Grand Opera House, which they had prempted for the occasion, the Labour organizations of Peterborough made a complete success of the celebration of their annual holiday. Every detail of the arrangements was conducted, under the auspices of the Trades Council, with a smoothness that must have been specially gratifying to the committee which had devoted many nights to the preparation of the plans. The variety of the amusements at the Exhibition Park assured entertainment for everybody and so many events were in progress simultaneously, almost like a three ring circus, that the large crowd found plenty of satisfaction for their individual preferences and tastes.

A cubist glimpse of the proceedings showed a baseball match on the eastern grounds between the Peterboro team and the Universals of Toronto, a scheduled city league football game between the Comrades and De Laval on the western pitch, races and other athletic sports interspersed with imported vaudeville numbers in front of the grand stand, and a continuous programme of music supplied by the 57th Regt. band, the Chemong Indian band and the Caledonians' new pipe band. The committee had left nothing to chance, nor had they spared expense, and their efforts were rewarded with a big attendance and a class of entertainment that left no disappointments.

The usual parade from Central park was not as long nor as impresive as last year's. Mr. V. Lebarr was the mounted marshall. Some of the Unions were noticeably under strength largely for the reason, it was said that members had taken advantage of the holiday to attend the Toronto exhibition.

The Labourers made the best showing with the Chemong band escorting them and their decorated float including a conspicuous bulldog wearing a mantle with the paraphrased inscription, "What we haven't got we'll go after." The Carpenters preceded by the 57th band, were well up to strength, but the Machinists were not. The full forces of the Moulders and Printers were missed but the Bakers and Confectionery Makers were out in full regalia of John Dough. The Pipe Band made a decided hit both in the parade and at the grounds, and again in the evening at the Opera House.

Speeches were Brief.

The afternoon's sports were officially opened with brief speeches by Mayor McIntyre and Mr. T. Tooms, M.L.A.

"It is with pleasure that I comply with the request of the Trades and Labour Council to open this field day. This holiday has been established for the benefit of and in honour of Labor and of all those who contribute to the maintenance, development and the growth of the community, and it is very fitting that such a holiday should be celebrated by the Trades Council."

Mr. Tooms said that the sacrifices of the war were in vain if Labour was not emancipated. The Labour movement was gaining ground and would continue to move forward so long as Labour was denied the chance to enjoy the things of the world. In the war it was found that Kaiserism and Czarism were unnecessary. Likewise they were unnecessary in industry. Organized Labour was at a critical stage. In the next few months, Mr. Tooms believed, a strong effort would be made against organized Labour.

"We must stand firm," he said. "Are we going to break faith with those who made the sacrifice for us, our brothers who fought and died in Flanders fields. The people must think for themselves and stand together industrially and economically."

Mr. Tooms referred to the three conventions that had been held here this year and of Labour's contribution to the welfare of Peterboro in that respect by making known the advantages of this city to the representatives of Labour organizations from all over the Dominion. Mr. Tooms said he deplored unrest but by striking a happy medium Labour would continue its progress.

THE BALL GAME.

It was a makeshift line-up that Manager Solomon had to throw into action against Universals in the game played on an improvised diamond at the Exhibition Grounds. Swanson, Cherrett, Harison, Lowe and Shaughnessy were all absentees, and with Lorne Rose untable to pitch and Kirn tired after the morning game, the Petes were in bad shape. Corrin went to first base, Lornie Rose to second, Holyman moving over to short and Kirn played right field, while the sterling utility player of the Petes, Ray Rose, after covering first in good style in the morning and playing the outfield and second base on Saturday, showed his all round ability by going to the rubber.

His work was the big surprise of the afternoon, for he allowed the visitors only three hits and fanned three. He had a bunch of stuff, and although his control was bad, he would have easily earned the decision with perfect support.

Dunnet pitched for the visitors and after being touched up for four hits and four runs in the first two innings, tightened up and blanked the Petes in the last five innings, the game being called at the end of the seventh to let the visitors catch a train.

With two out Universals got on in the first. Reading walked and Ashton was hit. Reading was caught off second but scored when Lorne Rose threw badly to third.

Peterboro went ahead in their half. With two out, Jackson singled to right. Ray Rose tripled to centre, scoring Jackson. Holyman singled through third, seoring Rose. Corrin fanned.

In the second Brown walked and stole second. Judge fanned. Compers drew a pass. Dunnet hit to Ray Rose but Corrin lost the throw, Brown scoring. Compers was caught between second and third on the play and was tagged out and Dunnet over-running second was doubled up.

The Petes got two in their half. Kirn opened with a single to centre. L. Rose fanned. McCarney drew a pass. Compers' error on Murray's tap scored Kirn and Ross' long sacrifice fly to left sent McCarney in. Jackson walked but Ray Rose flew to left.

The visitors tied it up in the fifth. Kelly went to second on Holyman's wild throw. Ray Rose threw high to third and Kelly counted. Brown fanned; Judge bunted safely, and stole second and third, coming home on Compers' double to right. Murray threw out Dunnet and nabbed Robertson's fly.

Universals got the winning counter in the fifth. McLaughlin bunted and got a life when Ross' throw hit him. He stole second. Reading fanned. Ashton hit to R. Rose and went to second on the pitcher's wide throw, McLaughlin scoring. Ashton stole third, but was out at the plate on Kelly's tap to R. Rose. Kelly stole second but was out stealing third..

THE FOOTBALL GAME

One of the items in conection with the Labour Day programme was a League Game in the local football circles. Phomptly at 3:30 Referee Alex. McKinley lined the teams up as follows:

DeLaval—J. Smith, goal; B. Hartshorn and J. Godfrey, backs; W. Brown, Ed. Humpage and J. Murray, half-backs; J. Conway, R. Lindsay, J. Long, H. Hanson and J. Lindsay, forwards.

Comrades — J. Young, goal; A. Nicholls and R. Leach, backs; W. Yates, H. Cowie and T. Bolam, half backs; W. Warman, Ben Martin, M. Dunkley, F. Williamson and J. Haw, forwards.

De Laval won the toss to take advantage of the wind and was the first to attack by compelling Nicholls to concede a corner that was fruitless. Immediately thereafter Hanson was adjudged offside. Nice combination between Martin and Dunkley was spoiled by B. Hartshorn to place to Conway who made a poor attempt to score. The whole DeLaval forward line went down into the Comrades' goal to miss a great opportunity. In spite of the wind against them the Comrades put up an excellent defence that produced an occasional raid to De Laval end.

On one attempt the Comrades were right through but unfortunately B. Martin hit the ball with his hand when five yards out. Humpage placed to Hanson who tested out. A few minutes afterwards the De Lavals were pressing hard and from a timely pass by B. Lindsay to Hanson he hit the post while Young was out of goal. At the other end the same performance was repeated by Warman and Dunkley. Play was mostly confined to the Comrades' goal with the DeLavals giving a poor exhibition of shooting for goal.

Half Time.

On resuming the Comrades had the wind and through a solo run by Warman the ball went into the centre of the goal with nobody to put it through. From the goal kick Cowie returned it to Godfrey, who miskicked to let Ben Martin into goal but to the great surprise of the spectators he missed the open goal. Even play ensued for a while. A breakaway by "Jock" Lindsay on the left ended with Long shooting wildly over the bar from two yards out. Another miskick by the DeLaval defence let Martin through to get a corner. Conway placed it nicely for Smith to clear, but Dunkley shot the ball into goal to strike the post to go into play.

The DeLavals played a better game against the wind and the Comrades' very drratic in their shooting. In the closing stages of the game the play ran from end to wind with none of them producing the necessary goal that left them to get one point a piece. Final—no scoring.

THE PRIZEWINNERS.

Following are the results of the Labour Day sports.

Baby Show.

Class 1.—Mrs. James Murroff, 98 Gladstone avenue, boy, 10 months. Mrs. Nokes, 100 Stewart street, boy 5 weeks. Mrs. Lee, 762 Water street boy, 6 months. Mrs. McArthur, 213 Park street, boy, 3 months. Mrs. Laws, 610 Concession street, girl, 3 months.

Class 2.—Mrs. Glover, 583 George street, girl, 19 months. Mrs. A. Redburan, Browntown, boy, 11 months. Mrs. Clark, 75 Smith street, boy, 8 months.

The Races.

100 yards dash (men under 45 years)—John Shaver, 282½ Sherwood Place. H. C. Seeley, 209 Murray street.

100 yards dash (men over 45 years)—James Murphy, Archie Moore.

Married ladies, 75 yard dash—Mrs. Phil Bursal, Union street. Mrs. Scholey, 59 Alfred street.

220 yard dash, open,—Dan Taylor, Chemong, H. Seeley, 219 Murray street.

Young Ladies' Race, (75 yards)—Lizzie Murphy, 466 Patterson street, Mary Lipsett, 70 Hunter street.

Three legged race (50 yards)—S. McPherson, 533 Patterson street and F. Sheehy, 751 George street, P. Dallon, 696 Water street and J. Ward

50 yard dash, girls under 16 years—Lila Hatley, 140 Park street, Ethel White, 37 Stewart street.

50 yard dash, girls under 12 years—Ethel White, 37 Stewart street, Mary Lipsett, 70 Hunter street.

Boys race under 16 years—F. Sheehy, 751 George street, J. Kearns, 619 Roger street.

Boys race under 12 years—F. Maudsley, Herbert Panter, Frank street

Tug of War—Labor Union vs. Carpenters, Captain A. Pinch, Laborers, Captain F. Rooke, Carpenters.

Catch Jingle Man—Robert Storey, 313 Lewis street.

Wheelbarrow race, boys under 16 years—Tom Mosley, 215 Bethune street, P. Koster, 599 Gilmour street

3 mile bicyble race open—Harver Webber, Monaghan; Harry Whitlaw, 240 Simcoe street.

1 mile bicycle race, boys under 16—Tom Griffin, 124 Park street; F. Roberts, 552 Bethune street.

1 mile foot race open—P. Luther, 75 Crescent street; John Ward.

White Bros. special bicycle race, 1 mile—Eric Roberts, 552 Bethune street; J. Webber, Monaghan; G. Loescher, 122 Park street.

Sack race—J. Kearns, 619 Roger street; J. Corkery, 172 Reid street.

Pillow Fight—Brady Lieber, E. Jordan, Mrs. Savigny, B. Lavery.

Dog Race—John Rice, 550 Concession street, R. Herren, 616 Roger street.

Tug of war—In an open tug of war the team captained by Mayor A. A. McIntyre beat the one captained by Mr. T. Tooms, M. P. P.

THE PROFESSOR'S BREAK.

Statistician (on the platform) — "These are not my figures, ladies and gentlemen; they are the figures of a man who knows what he is talking about."—Boston Transcript.

C. G. E. REGISTER FIRST WIN CANADIAN WOOLLENS UNLUCKY

WOOLLENS WERE ALL OVER C. G. E. IN EARLY PERIOD AND REGISTER 2 GOALS, BUT C.G.E. SCORED THE WINNING GOAL IN LAST FEW MINUTES.

Under League auspices the C.G.E. team were the guests of the Canadian Woolens at Nicholls Oval on Saturday afternoon and before a good attendance of spectators Referee Frank McKinley started the game at 3.30 prompt.

The Teams.

C.G.E.—W. Ridley, goal; J. Davis and J. Williamson, A. Parkins, H. Turner and A. Bestard, half-backs; J. Williams, C. Hotston, C. Griffine, A. Gash and Ted Hotston forwards.

Canadian Woollens —S. Calladine, goal; J. Hillman and J. Cridland, backs; J. Montgomery, H. Jackson and A. Barton, half-backs; C. Thorpe, J. Roberts, J. Chambers, J. Hodson and C. Clark, forwards.

The Game.

From the kick-off the Canadian Woollens were the first to press and held the C.G.E. to their own half of the field during the early period. On an attack by the Woollens on the C. G.E. Williams handled the ball on the verge of the penalty area for a free kick although the Woollens claimed a penalty, but it resulted in the same decision for Chambers beat Ridley all the way from 19 yards out. Encouraged by their success they held the C. G.E. out from the defence in spite of the desperate attacks by Hotston and Williams. From a miskick by Davis in front of goal Hodson caught hold of the ball to shoot across the goal for Ridley to be deceived through the ball striking inside the post to go into the net. Nothing lively happened until C. Hotston accepted a pass from Davis in the Woollens half and wasting no time shot the ball across to Gash who put past Calladine from close in. Play travelled from end to end until half time.

Half Time.

On resuming Chambers got hold of the ball in midfield and outwitting the C. G. E. defence went straight through to let drive in great fashion to miss the post by inches. Immediately thereafter Hodson missed an open goal by shooting over the bar from five yards out. Even and uninteresting exchanges intervened. After 30 minutes' play Griffine accepted a nice pass from the wing and Woollens' full-backs let him through easy to register a goal. The Woolens tried hard to gain another goal but luck was against them. On an attack on Calladiine's goal he was injured and found difficulty in clearing many times. With 3 minutes to go Griffine put the C.G.E. ahead to get full points. In fact the game was value a draw. Final, C.G.E. 3, Canadian Woollens 2.

Goal scorers—Chambers, Hodson, Woolens; C. Hotston and Griffine (2) C.G.E.

THREE STRAIGHT WINS FOR THE CALEDONIANS IN FOOTBALL LEAGUE

PLAYERS ON HOLIDAY MAKE MANY CHANGES—J. SHAW OPENED SCORING—J. WILLSHAW ADDED SECOND—RHAMM SCORED ON PENALTY—HALF TIME 2-1—CALEDONIANS ADDED TWO MORE THROUGH TERRACE AND ROBERTS—CALEYS 4, DELAVAL 2.

A fair attendance of spectators turned out on Saturday afternoon to witness the De Laval and Caledonians play a game in the local Football League. Owing to a number of players being on holiday, both teams showed many new faces. The teams:

De Laval—L. Smith, goal; B. Hartshorn and A. Rutter, backs; W. Brown, E. Humpage and J. Murray, half-backs; J. Long, J. Conway, J. Rhamm, J. Lindsay and B. Lindsay, forwards.

Caledonians— C. Fenner, goal; J. Service and Sam McMillan, backs; A. Duthy, J. McMillan and R. McDowall, half-backs; J. Roberts, K. McKay, J. Willshaw, J. Shaw and C. Terrall, forwards.

Referee, Mr. Frank Keller.

Goal in 5 Minutes.

Even play in the opening exchanges until McDowall initiated a raid up the left wing to Willshaw and J. Shaw for the latter to let drive from 20 yards out to open the scoring. At the other end Rhamm spoiled his excellent play by striking the ball with his hand and from the free kick McMillan the back placed the ball to J. Shaw who made Smith touch the parting shot over the bar for a corner that was fruitless. Rhamm again made an opening and raided the Caleys' goal for Humpage to miss the mark. Even and interesting exchanges ensued with the De Laval having the Caleys hemmed into gaol with the two teams right into gaol trying to make a definite issue but Long skied the ball over the bar from one yard out. Just afterwards Humpage dropped the ball into goal for Fenner to clear nicely to McDowall, who worked his way down the field to have a long drive for goal. Nice combination between the brother Lindsays bewildered the Caleys' defence for Fenner to save a rocket shot from "Jock," but came back again for J. Murray to test Fenner again. Caleys' supporters were shouting at them to wake up and just at that moment J. Willshaw tackled three men in succession to give Smith no chance whatever. Play travelled from end to end until the raid by De Laval resulted in McDowall giving a penalty for Rhamm to let drive from the penalty kick to score. From this until half-time the Caleys were doing all the pressings and during that time J. Shaw tried hard to score.

Half Time.

After a litle rest and refreshment the teams got started for De Laval to get a corner that brought nothing. The Separator fellows were all over the Caleys and from a nice break away J. Long beat Fenner with a fast ground shot to even up the score. Two well placed corner kicks by Roberts gave the De Laval a lot of trouble until cleared by Hartshorn. At this point Willshaw was put into centre and Terrace outside left and resulted in a new lease of life to the Caleys. A solo run down the wing by Conway brought a corner and nicely placed the ball into centre of the goal for Long to be adjudged offside. From the goal kick to McMillan, halfback, placed the ball forward to Willshaw who defeated the two defence men and swinging the ball out to Roberts, the outside right, it came back for Smith to make a clever clearance but McKay shot it back again, Smith saved, J. Shaw a try for Hartshorn to check, then Roberts lifted the ball over their heads to Terrace who headed through. Play ran from end to end in quick succession for both goal keepers to give a good account of themselves, although Fenner had to run out of his goal on two occasions to assist the defence when the De Laval were about through. With about 5 minutes to go Roberts beat Brown and Rutter on a tackle and travelled right through to give Smith no opportunity to save from a low ground shot. Nothing of interest transpired thereafter. Final, Caledonians 4, De Laval 2.

Goal scorers, De Laval, Rhamm 1, Long 1;; Caleys, J. Shaw, Willshaw, Terrace and Roberts.

Analysis of the Game.

Referee Keller's decisions were as follows and gives the run of play.

De Laval—	1st Half.	2nd Half.	Total.
Goals	1	1	2
Goal kicks	6	8	14
Corners	3	3	6
Offsides	0	1	1
Fouls	1	0	1

Caledonians—	1st Half.	2nd Half.	Total.
Goals	2	2	4
Goal kicks	3	7	10
Corners	2	2	4
Offsides	1	0	1
Fouls	1	0	1

BICYCLE RACING

Harvey Webber did some sensational work at the Labor Day races at the Exhibition grounds, covering 3 miles in less than 8 1-2 minutes on a muddy track, winning the race by one full lap 1-2 mile. In other words he covered 3 miles in the time it took the other rides to wheel 2 1-2 miles. Harvey rides a COLUMBIA Bicycle secured from Millard's Bicycle Shop which he considers easier running than other makes and his record of winning every race he has so far entered seems to prove that he is right in his opinion of an easy running wheel. 2d-58-2398

The cultivation of the use of the left hand develops certain organs of the brain which otherwise lie dormant, according to an English medical scientist.

HASTINGS TEAM DEFEATED LOCALS

BOHUNKS LOST OUT IN THE TRENT RIVER TOWN

The Bohunks' nine went down to defeat before the Hastings outfit in the Trent River town yesterday afternoon by the score of 5 to 4. The game was close and fast, but two errors on the Peterborough's team's part sealed their fate. The game was called at 3 o'clock and ran the full nine innings.

The Bohunks lined up as follows: C. Bergoine c, A. Doughty p, R. White 1b, E. Ecobichon 2b, J. Thirnbeck ss, C. Wolff 3b, W. McGee lf, E. Meredith cf, F. Herbison rf.

The Peterborough aggregation were in top form. The work of "Doc." Meredith in the field was sensational, but scarcely eclipsed his hitting. His three-bag wallop in the fourth was the feature hit. Doughty and his opponent both pitched good ball, so the batteries were evenly matched.

The Bohunks play in Millbrook on Thursday and in Port Hope the following Wednesday.

WEDDING BELLS

McCAFFERY—BUSHNELL

The Methodist Church, Omemee, was the scene of a very pretty wedding on Wednesday, September 1, when Lulu Olive, only daughter of Mr. and Mrs. James Bushnell, was united in marriage to Mr. Chas. D. McCaffrey, of South Porcupine, son of Mr. Chas. McCaffrey, Omemee. The ceremony was performed by Rev. Stillman. The church was effectively decorated with ferns and autumn flowers. The bride, who was given away by her father, wore ivory charmeuse and lace embroidered in pearls, with court train and veil arrayed in Grecian style, and carried a shower bouquet of Ophelia roses. The bridesmaids, Miss Elsie Bushnell, Toronto, cousin of the bride, and Miss Hilda Green, Stoney Creek, wore frocks of mauve and pink crepe de chine and taffeta with black picture hats and carried roses; while little Anna Dobbins, Peterboro, cousin of the bride, daintily dressed in a frilled frock of lace, made a pretty flower girl. Mr. Harold McGill, North Bay, acted as groomsman while Mr. James Milligan, North Bay, and Mr. Clifford Laidley, Toronto, were ushers. During the signing of the register Mr. Ernest Bushnell, Toronto, brother of the bride, sang "Until." The wedding marches were played by Mrs. Cecil Cornell, Omemee. After the ceremony a reception was held at their home, Sturgeon street, which was artistically decorated with asters and gladioli and where a buffet luncheon was served to about eighty guests. The bride's mother wore amethyst satin with georgette hat to match and corsage bouquet of sweetheart roses.

The bride and groom left for Montreal and points east, the bride travelling in a suit of navy gabardine with hat to match and wearing the groom's gift, a sable wrap.

MARRIED.

MATHIAS — HAY.— On Saturday, September 4th at St. Luke's church, Peterbrough, Ontario, by the Rev. W. H. White, M.A., Frances Isobel, daughter of the late Thomas A. S. Hay, Esq., and Mrs. Hay, to Mr. Charles Dunlop Mathias, son of the late Mr. and Mrs. William B. Mathias, of Peterborough, Ont.

Miss Vedra Storey left to-day for Lindsay, where she is entering the Ross Memorial Hospital as nurse-in-training. Her many friends wish her every success.

OBITUARY

MRS. TARBUSH.

Mrs. Margaret Tarbush died this morning at the residence of her daughter, Mrs. Giveure, 307 Townsend street, aged 88 years. She had been a resident of the city for the past two years. The remains will be sent to Angus, Ont., for interment.

MRS. DEBORAH MURPHY.

Deborah, widow of the late Patrick Murphy, died on Saturday morning in the House of Providence, where she had been an inmate for a number of years, aged 82 years.

She leaves of the immediate family two sons, Rev. Father Murphy of Delhart, Texas, and John of Detroit, also one daughter, Sister Giovanni, of Cathedral Convent, New York.

Solemn High mass was sung in St. Peter's Cathedral this morning by Rev. Father Phelan, assisted by Rev. Peter Maguire and Rev. C. C. Cantillon as deacon and sub-deacon. Interment took place at St. Peter's cemetery at 9 o'clock.

CONSERVATORY HAS SECURED A NOTED PIANIST FOR STAFF

The following, taken from the Toronto Globe, will be of interest to local people. By arranging with Dr. Vogt, of the Toronto Conservatory, this noted pianist will teach on the staff of The Peterborough Conservatory one day each week. For information, apply Conservatory of Music, or 'phone 355:

There will be an important addition to the artistic forces of Toronto through the arrival this week in the city of Mr. Charles Buhler, the eminent South American pianist. Mr. Buhler, who was born in Buenos Ayres, is by education a European, having received his degree at the University of Geneva, Switzerland. His musical education was obtained at the Conservatory of Music at Geneva, where he secured the first prize in 1913 as a pupil of De Motta. Subsequently he came under the personal influence of Stavenhagen, d'Albert, and Busoni, and became one of the leading piano teachers of the famed Geneva Conservatory of Music. He converses fluently in Spanish, English, Italian, Portuguese, and German. His parents being Swiss, he entered the Swiss Army as a young officer at the outbreak of the late war. In 1918 he came to New York and played there a number of times. He has also played in a number of cities in the New England States. For the past year he has been concertising in some of the southern States, and lecturing in musical subjects in some of the universities of the United States. Mr. Buhler enters upon his duties this week as a member of the piano faculty of the Toronto Conservatory of Music, thus strengthening a department in the institution which has already earned a most enviable reputation internationally.

BIRTHS.

THOMPSON—To Mr. and Mrs. Louis Thompson, 464 Parnell street, on September 7th, a daughter — Thelma Margarete.

LONERGAN — On Tuesday, Sept. 7, 1920, at St. Joseph's Hospital, to Mr and Mrs. Joseph Lonergan—a daughter.

HALL.—To Mr. and Mrs. B. D. Hall, at Nicholls Hospital, Monday, Sept. 6th, 1920, a daughter.

PRIMEAU.—To Mr. and Mrs. Jack Primeau, Tuesday, Sept. 7th, a daughter.

IN MEMORIAM.

In loving memory of Percy B. Pammett, who died September 7, 1919:
The home has been darkened
By shadow of death,
It was one a loving brother
And him we'll ne'er forget.

The gates of heaven were left ajar
A voice had whispered come,
And in the early morning light
God took his loved one home

Far and oft our thoughts do wonder
To a grave that's far away,
Where they laid our loving brother
Just one year ago to-day.

A vacant chair now tells the tale
Of the debt that he has paid,
Angels bright watch day and night
O'er the grave where he is laid.

The silver cord is broken
A life well spent is o'er,
At rest asleep in Jesus
He rests forever more.
—His Brother Jim.

VOL. XVLII. NO. 57 PETERBOROUGH, WEDNESDAY, SEPTEMBER 8, 1920 PRICE THREE CENTS

A BIG INCREASE IN FREIGHT AND PASSENGER RATES

Canadian Railways Receive Permission To Increase Rates

FREIGHT RATES UP FORTY PER CENT. IN EAST AND THIRTY-FIVE PER CENT. IN WEST AND PASSENGERS TO PAY TWENTY PER CENT. MORE.

EFFECTIVE MONDAY

(Canadian Press.)

TORONTO, Sept. 8.— The Toronto Board of Control to-day, after describing the Railway Board's order for increased freight and passenger rates as "outrageous," passed a resolution calling for the taking of the appeal to the Governor-General-in-Council and calling upon Toronto city to seek co-operation of other cities and towns in Canada in opposition to the increase. The government was also requested to re-organize the Board of Railway Commissioners in the public interest and grant stay of order of the Board until the appeal is heard.

(Canadian Press)

OTTAWA, Sept. 8.—By virtue of a judgment issued from the offices of the Board of Railway Commissioners, railway companies in Canada are granted an increase of forty per cent in Eastern Canadian freight rates, and thirty-five per cent in Western freight rates, effective on Monday next, September 13, and to continue in force until December 31.

After December 31 the increase in the freight rate in Eastern Canada is reduced from forty to thirty-five per cent., and in Western Canada from thirty-five to thirty per cent.

Simultaneously with the increase in freight rates, passenger rates all over the country are advanced twenty per cent., so long as they do not exceed four cents a mile. This increase is effective only to December 31. After that date, and for the six-month period from January 1, 1921, to July 1, 1921, a ten per cent. increase is authorized. Following July 1, passenger rates return to these in force at the present time.

The Judgment will authorize increases of fifty per cent. in sleeping and parlor car rates, and an increase of twenty per cent. in the rate on excess baggage.

No increase is authorized in the rates on milk. Authorization is given for an increase in freight on coal from 10 to 20 cents a ton.

Summary of the Order.

A summary of the judgment was given out this evening by the chief commissioner, Hon. F. B. Carvell. The chief commissioner stated that during the exhaustive hearing which opened on August 10, and continued for nearly two weeks, a tremendous mass of documentary evidence had been submitted. The work of going through this evidence had been a very large one, and it was only by the greatest effort on the part of the commissioners that a judgment was arrived at so soon

The judgment will refuse to authorize any increases in the rates on sand, gravel and crushed stone, and incidental services, such as switching, milling in transit, diversions, reconsignment, stop-overs, demurrage, weighing, etc. but provision is made for special applications in any or all of these services.

No increase is authorized in the rates on milk or commutation fares, nor in the minimum class rate scale, or the minimum charge for shipment.

Authorization is given for an increase in the freight rate on coal from 10 to 20 cents per ton, flat rate, according to distance. When the freight rate is under 80 cents per ton, an increase of 10 cents is allowed. When it is over, 80 cents and under $1.50, the increase authorized is 15 cents, and when the rate is over $1.50, the increase will be 20 cents per ton. The rate on cordwood, slabs, mill refuse, etc., for fuel purposes is increased ten per cent.

GOOD EYES INCREASE PRODUCTION.

The need of to-day is increased production, but if your eyes are not efficient you cannot do your share. If your vision is poor or if you cannot comfortably stand working or reading for any length of time, your eyes need attention. See W. H. Lacey, Optometrist, 410 George St.

WHERE TO GO TO-NIGHT

GRAND—Vaudeville and pictures. Three acts.
ALLEN—Ethel Clayton in "Crooked Streets."
EMPIRE—Constance Talmadge in "Happiness a La Mode."
REGENT — William Duncan in "Smashing Barriers."

MACSWENEY WAS BRIGHTER TO-DAY

CONFLICTING REPORTS ON THE LORD MAYOR'S CONDITION

(Canadian Press.)

LONDON, Sept. 8.—The Lord Mayor of Cork entered to-day on the twenty-seventh day of the hunger strike. Reports from Brixton Prison stated he was a little brighter this morning but much weaker and more exhausted. It wasadded he had passed a fairly good night. The bulletin issued at noon by the Irish Self Determination League said the "Lord Mayor suddenly got much weaker. Doctors are very anxious."

MR. J. J. TURNER IS HOME AGAIN

STRUCK BY THE CHANGED CONDITIONS IN EUROPE

Mr. J. J. Turner, his wife and daughter Margaret, returned to the city on Saturday after a two months' tour in Europe. They were with the party of Dr. J. L. Hughes of Toronto, one of Canada's most prominent educators. The party visited England, Scotland, France, Belgium and Switzerland, and through Dr. Hughes' influence had the opportunity of visiting several institutions of note not open to tourists, and meeting several persons of prominence.

In Edinburgh several members of the party, including the Turners, were the guests of Dr. Morgan, head of the Episcopal College of Edinburgh, and met Gambley, the famous sculptor, whose statute of King Edward VII had been viewed by King George and Queen Mary the preceding week.

In Gay Paree.

In Paris the party, through the kindness of Mme. Mochelle, wife of General Mochelle, governor of Paris, visited the orphanage for French war orphans, whose education until the age of 14 is being financed by Canadian organizations and individuals. Here they met Philipe Roy, Canadian Trade Commissioner to France and ex-member of the Senate, who entertained them and who will be the guests of the party at a banquet to be given in the King Edward Hotel in Toronto on Mr. Roy's return from France next week.

They visited the devastated area of Northern France and Belgium and saw the battle fields, cemeteries and devastated towns.

Europe Recovering.

When seen this morning, Mr. Turner spoke with delight of his trip and remarked upon the rapidity with which France and Belgium are proceeding with the work of reconstruction. Everywhere are indications of bumper crops and every available piece of land is being cultivated intensely.

While in Belgium the party visited Antwerp and Mr. Turner noticed the discrepancy in the number of representatives competing at the Olympic games there from the European countries and the United States, showing the relative loss of manhood in the war of these countries.

The unrest in England was particularly noticeable, Mr. Turner said, and due to the threatened coal strike many of the factories are closing down.

HON. MANNING DOHERTY AT PETERBORO' FAIR

ONTARIO'S MINISTER OF AGRICULTURE WILL OPEN EXHIBITION TUESDAY, SEPT. 21ST AT TWO O'CLOCK

The Peterboro Industrial Exhibition with fine weather will, it is expected, break all records in attendance at a Peterboro Fair. It opens for four days on Monday, September 20th, with the placing of exhibits, and is officially opened on Tuesday, the 21st, at 2 o'clock, by Hon. Manning Doherty, Provincial Minister of Agriculture.

Thousands are coming to Peterboro from a distance to see the greatest fair in Central Ontario.

Thousands of dollars have been spent on new buildings and this year's programme is the biggest and most attractive the Fair Board has undertaken.

The Prize List has been revised and is the best list in the district.

Don't miss the finest Fair in the Province outside of Toronto.

See the grand street parade from Central Park, Tuesday, September 21st, at one o'clock.

BOLSHEVIKI AIDING LITS

TROTSKY SAID TO BE CARRYING ON CAMPAIGN OF PROPAGANDA

(Canadian Press.)

WARSAW, Sept. 8.—Conditions along the Lituanian front are becoming more serious daily, and according to the latest reports, the Poles and the Lithuanians are fighting spasmodically across an improvised frontier.

In one action, two Lithuanian officers and two hundred men were captured by the Poles.

German and Russian Bolsheviki are aiding the Lithuanians, it is contended by Polish authorities.

Reports reaching army headquarters state that Leon Trotzky has ordered the Soviet troops to help the Lithuanians to drive the Poles out of that country. The latter, however, contend that they have not crossed the demarkation line fixed by the Allies.

Trotzky is asserted to be carrying on a campaign of propaganda, declaring that the "Polish invasion" threatens Lithuanian independence, and urging that the Poles be expelled at all costs.

MISS EDWINA PALMER STUDIED IN LONDON

HAS RETURNED TO PETERBOROUGH FOR THE COMING SEASON

Miss Ewina Palmer is a graduate of the Toronto Conservatory of Music and has been a teacher there for the past three years. She has also filled many engagements as violinist in Toronto and neighboring towns. She has spent the past year and a half in London, Eng., studying the Auer method of Tone Production, with Miss Editha G. Knocker, one of England's foremost violin teachers, who has been associated personally with Professor Auer in Petrograd, Russia, for many years, and who, during the war, undertook the training of those pupils who could not follow him to New York. It might be noted that Prof. Auer is responsible for such world-famed artists as Mischa Elman, Jacka Heifetz, Zimbalist, Isolde Menges, etc.

Many young violinists at present before the London public are pupils of Miss Knocker, and Miss Palmer herself had the honor of playing in Wigmore Hall before leaving London. As she received her early training in the Conservatory of Music here, Peterboro takes a special interest in this young artist and looks forward to the programmes she is preparing to give during the coming season.

HAND WEEDING DONE AWAY WITH

LOCAL SUPERVISOR DEVISES A NEW METHOD

H. M. Hobson, supervisor of tracks for this division of the Canadian National Railways, has ingeniously fitted up an automobile to run on the track sand do the weeding along the side of the track, work that has till now always been done by hand. The car, an old model Stevens-Duryeau, which was bought in Millbrook, had not been used in five years, but was overhauled and now runs exceedingly well. Mr. Hobson devised a means of weeding that has proved far superior to any previous method used. Four discs similar to those used on a disc harrow on each side of the cad do the work efficiently and are so constructed that the whole arm can swing back on the rear of the car, the body of which has been stripped off.

At a speed of about four miles an hour the work can best be done. This is much faster than the old way and the upkeep of the machine is not heavy. This entire division from Belleville to Lindsay, Port Hope to Lakefield will be weeded by this efficient mechanical weeder.

E. W. O'DELL, HAMILTON TO REPRESENT CANADA

(Canadian Press.)

OTTAWA, Sept. 8.—E. W. O'Dell, Hamilton, general superintendent of the Bootand Shoe Workers for Canada, will represent Canadian organized labor at the coming meeting of the International Labor Office (League of Nations). The governing body meets in Geneva early in October, and he will substitute for P. M. Draper, secretary of the Trades and Labor Congress, who is the official labor delegate from Canada.

OFERS TO FREE MacSWENEY.

Lord Mayor Will be Released if Irish Outrages Cease.

(Special to The Examiner.)

LONDON, Sept. 8.— Government makes official offer to free MacSweney if Irish outrages cease.

STRICKEN BY EARTHQUAKE

SCORES OF LIVES BELIEVED TO HAVE BEEN LOST IN ITALY

ROME, Sept. 8.—Scores of lives are believed to have been lost in the district north of Florence, which was severely shaken by an earthquake yesterday morning.

As reports from the stricken region come in over faltering telegraph and telephone lines, the extent of the disaster seems to be growing, and there is a possibility that the damage done may be much more serious than was at first believed.

The territory violently disturbed seems to be lozenge-shaped, with Florence at the southern apex and Moden at the northern end. It extends along the Etrurian coast, and runs over the Appenines eastward for upwards of one hundred miles.

In this district there are many populous towns, and no tidings have as yet been received from many of them.

TRADES CONGRESS SUPPORTS MINERS

AGREES THAT COAL WORKERS' CLAIMS ARE REASONABLE AND JUST

(Canadian Press.)

PORTSMOUTH, Eng., Sept. 8.—The Trades Union Congress to-day adopted a resolution expressing the opinion that the coal miners' claims were reasonable and just, and should be conceded forthwith. Congress also pasesd a resolution urging that the Trades Union movement concentrate its efforts on reducing the cost of living and instructing its Parliamentary committee to take immediate steps to prepare a policy, which would include nationalization, and refer it to a ballot of members of all affiliated unions.

DR. YOUNG M.O.H. HAS HAD FINE RECORD

HAD PREVIOUS EXPERIENCE WITH THE BOARD OF HEALTH

Dr. T. W. H. Young, who was appointed Medical Officer of Health last night, is particularly qualified for the position to which he brings previous experience in municipal health control apart from his studies and work as a doctor. He was acting M.O.H. during the illness of the late Dr. Bingham, and for seven years was a member of the Peterboro Board of Health, during two years of which he was the chairman. He holds the Trinity degree of Doctor of Medicine and is a Fellow of the Trinity Medical College, also a Licentiate of the Royal College of Physicians and of the Royal College of Surgeons, and a Licentiate of Medicine of Edinburgh.

Col. Young served three years during the war and was amongst the first volunteers. He was medical officer of the 2nd Division, and was afterwards attached to the 4th Feld Ambulance. He was Commanding Officer of the First Canadian Casualty Clearing Station close to the trenches in France and Flanders, was Commanding Officer of the Military Hospital at Buxton, Eng., and Commanding Officer of the Convalescent Hospital, Uxbridge, England.

Dr. Young's complete record is an Extensive and valuable one, and in appointing him Medical Officer of Health the members of the Council were confident that he would make a successful official in charge of probably's the city's most important department.

ELEVATOR AT PORT COLBORNE WORKING

Destroyed by Fire, 75 Per Cent. of Plant is Restored.

(Canadian Press.)

OTTAWA, Sept. 8. — Hon. J. D. Reid, Minister of Railways and Canals, stated last night that the restoration of Port Colborne elevator, which was destroyed August last year, has proceeded to a point where seventy-five per cent. of the plant is available for operation. A few days ago the steamer "Valcartier," with two hundred thousand bushels of wehat, was unloaded at the elevator in twelve hours, actual working time, only three of four marine legs being in operation. It is expected the entire plant will be available in a fortnight.

DIED

YOUNG.— At the residence of her son-in-law, Jas. H. Northey, 576 George street, Marion Alexander, widow of the late John Young, in her eighty-second year. Funeral will take place from the residence of Mr. Northey on Thursday, September the ninth. Service at 2 p.m. Interment at Bridgenorth cemetery.

Bones of 100 mastadons and 20 elephants were dug out of one bog in Kentucky.

Public Enquiry Into Fire Dept. Refused By Council

CLOTHING FIRMS LOOK FOR A DROP IN PRICE OF CLOTHING THIS FALL

That prices of clothing will begin to decline this autumn, and that there will be an appreciable drop before the spring, was the opinion that two clothing salesmen expressed to The Examiner.

They believed that clothing prices have reached the peak, and that though the decline this fall may not be great, a gradual decline will continue until the spring, when prices may be back to as near normal as might be expected.

One of the chief factors in the bringing about of high prices has been the tendency of people who have had more money than ever before as a result of the inflation of economic conditions by the war, demanding the very best in every line, regardless of the price, and who have purchased with the fallacy in mind that the most expensive article is the best. Merchants found that the slightly coarser lines, which before the war had sold well, remained on the shelves, scorned by the buying public who demanded the best, and refused to consider the price.

This abnormal condition, however, is abating, and the tendency is becoming apparent to go to the opposite extreme. Price is once more becoming important in influencing demand, and one merchant was overheard to remark that he had refused to handle certain lines of underwear this season, as with the new tendency on the part of the public, the price was prohibitive. The salesmen were of the opinion that with the public demanding the cheaper goods, the price is being forced down.

High Wages Responsible.

Prices, however, cannot be expected to return to normal under present wage conditions, the salesmen stated. Operators in clothing factories are still demanding increases, and in one Toronto factory the operators are demanding a 50 per cent. increase.

The large orders from Roumania for Canadian cloth have entered into the present shortage of woollens, but the situation is gradually improving, they believed.

BY-LAW GOVERNING OPERATION OF PETERBORO' MARKET PLACE

SEVERAL CHANGES MADE BY THE CITY COUNCIL LAST EVENING—AUTOMOBILES WILL BE PROVIDED FOR—OLD BY-LAW WAS INADEQUATE.

The market by-law passed seventeen years ago, and which has been the cause of trouble because of its inadequacy to meet conditions to-day, has been amended, and was passed by the City Council last night.

There was considerable confusion in the old by-law, the word Market Square being confused with Market Place. By the new by-law the word place is substituted for the other word to clearly define what is meant.

Motor Vehicles.

In the old by-law no provision was made for fees on motor vehicles, which were then only at the experimental stage. Motor vehicles are now classed in the by-law with two-horse vehicles. Fees for bringing in articles in either of these conveyances will still remain at 10 cents, except when wood or wheat is carried.

Weighing Charges.

The by-law reads regarding weighing charges:

"The following fees and no others shall be imposed for weighing on the market scales and shall be paid by the vendor of articles, the weighing of which is compulsory, and in other cases by the person bringing the articles to be weighed:

For weighing a load of hay—25c.

For weighing slaughtered meat or grain or other articles exposed for sale, if weighing less than one hundred pounds—2c.

If weighnig more than one hundred pounds and less than one thousand pounds—5c.

If weighing more than one thousand pounds—10c.

For weighing live animals, other than pigs, sheep, or calves, per head, when only one weighed—10c.

For each additional animal weighed at the same time—5c.

For weighing sheep, pigs, or calves, one or two—10c.

For three, four or five—15c.

For six or seven—20c.

Fo eight, nine, or ten—25c.

For each additional animal above ten—2c.

For measuring a load of wood—10c.

By the original by-law, charges of 10 cents were allowed on each head of cattle weighed. If ten were weighed the market clerk collected $1.00. Now his charge will only be 10 cents for the first one and 5 cents for each additional one, or a total charge of 55 cents.

For sheep or pigs, he has charged 5 cents each. On ten he would charge 50 cents. By the amended by-law he can only charge 25 cents.

Nothing has been added to the old by-law with reference to the parking of cars on days other than Wednesday and Saturday mornings.

SHEEP WORRIED BY ROVING DOGS

"DOGS SHOULD BE TIED UP" SAYS NORTH MONAGHAN FARMER

"A little advice to the farmers to keep their dogs tied up now would be seasonable," a well-known North Monaghan farmer remarked to an Examiner reporter to-day. Sheep worrying generally begins at this season of the year, and Richard Payne, of North Monaghan, who lost one lamb and three sheep on Monday night with three others wounded, which will in all probability die, is the first farmer to suffer. "Every dog should be tied up now and if they start wandering from home the best thing to do is to shoot them," he added.

Nearly 70,000,000 wild animals are killed yearly for their fur.

SUGGESTS CHANGE THRESHING SYSTEM

GRAIN IS TURNING OUT GOOD IN PETERBOROUGH COUNTY

Farmers in this district state that they have practically completed threshing alsike and sweet clover and are threshing their grain. The yields of the former crops were very good, they declare. It is difficult to secure the threshers and as a difficult to get men to help on threshing days, a farmer said to-day

A business man and one who is in close touch with farming and farmers vouched the opinion to-day that the threshing outfits used around here were too big and awkward to move and were tearing the roads all up. Smaller outfits, more compact, would do the work equally well and not take half as many men to operate. He believed that five farmers should "put in" and buy a mill between them and eliminate all the confusion existing under the present system of hiring an outfit for the one, two or three days' threshing. "But you mustn't advise the farmers," he remarked with a laugh.

There are 470 different species of bees in Great Britain.

G.W.V.A. DANCE.

THE WEEKLY DANCE WILL BE HELD IN THE G.W.V.A. HALL ON THURSDAY EVENING. GOOD MUSIC AND REFRESHMENTS. ADMISSION 50 CENTS. 2d-59-2423.

FIRE, WATER AND LIGHT COMMITTEE'S REPORT ADOPTED LAST NIGHT — SOME IMPROVEMENTS SUGGESTED BY DISMISSED MEN ARE DEMANDED—DISCHARGE OF THREE FIREMEN APPROVED.

ALD. CROWE'S INITIATIVE

The Fire, Water, and Light Committee's report rejecting the request of the Trades and Labour Council for a public investigation of the Fire Department, and confirming Fire Chief Grange's action in dismissing Firemen Copperthwaite, Menzies, and Lebarr, was adopted by the City Council at their regular meeting last night.

Its adoption was moved by Ald. Morrison, who, as chairman of the Committee, read it, and seconded by Ald. Copping.

An amendment by Ald. Gainey to the effect that the clause endorsing Chief Grange in his dismissal of the three men failed to secure a seconder.

Mr. T. Tooms, M.L.A., and ex-Ald. Murray apeared as a deputation, and urged that a public inquiry of the Department be held instead of hearing conducted by the Committee, and later, when the report was under brief discussion, Ald. Crowe gave the Council the benefit of his visit to three Fire Halls in Toronto yesterday. Otherwise the incident passed smoothly to its forecasted conclusion, and those members who had busied themselves in the session of the Fire, Water and Light Committee, sat back with nearly all the others until Mayor McIntyre called for the vote, when action spoke more loudly than words.

Mr. Murray.

Mr. Murray stated that the request had been not for an investigation by the Fire, Water and Light Committee, but by the City Council. Referring to the evidence given by the firemen at the hearing before the committee and to the findings of the committee as set forth in its report, he made several criticisms.

In answer to the question of Ald. Whitehouse at the hearing, "Why didn't you lay this complaint before" Mr. Murray stated that the men had a fear of thus going outside the Department and discussing its affairs, contrary to the regulations. As for the objection to the matter being brought to the attention of the Council through the Trades and Labour Council, he explained that that body was second only to the City Council, and that it represented the majority of the working class of the city.

He declared that he was present to advocate justice, not as a member of the Trades Council, and that that advocacy had already been the cause of his being refused work at seven factories in the city. Nevertheless, he was determined to see justice given.

Referring to the incident of the ladder falling among the men at the Metal Products fire, and the Chief's statement that the ladder was badly worn, he said that the fact that the ladder was badly worn cast blame upon the Chief, as it was his duty to see that the apparatus was efficient.

At this point Ald. Morrison, chairman of the Fire, Water, and Light Committee, evidently smarting under the inferred criticism of his committee, interjected, "Have we got to sit here and listen to this all night? This is a reflection on one of our officials."

Ald. Whitehouse was prompt in aiding Ald. Morrison in his objections.

At last Mr. Murray was allowed by

SAVED FIVE LIVES.

Thursday afternoon five little girls are reported to have gone on the river in a leaky punt a short distance east of the waterworks pumping station at Brockville. The craft started to sink and the little girls jumped into the river. Their predicament was noticed by Miss Lou Conlson, Bennett street, who was swimming nearby. She went to the rescue and brought all of the party to shore. The water was deep at the point.

NOTICE TO CREDITORS

IN THE SURROGATE COURT OF THE COUNTY OF PETERBOROUGH.

IN THE MATTER OF THE ESTATE OF OMER BOURGON, OF THE CITY OF PETERBOROUGH, IN THE COUNTY OF PETERBOROUGH, AND PROVINCE OF ONTARIO, FARMER, DECEASED.

NOTICE IS HEREBY GIVEN, Pursuant to the Revised Statutes of Ontario, Chapter 121, Section 56, That all Persons having Claims against the Estate of the said Omer Bourgon, Deceased, who died on or about the day of December, A.D. 1918, at the said City of Peterborough, intestate, are required to send by post to or deliver to the undersigned Solicitor for Laura Bourgon, the Administratrix of the said Estate, on or before the Twenty-fifth day of September, 1920, their names, addresses, full particulars of their Claims and the nature of the security (if any) held by them respectively duly verified by Statutory Declaration.

And after the said last-mentioned date, the said Administratrix will proceed to distribute the Assets of the Deceased among the Parties entitled thereto, having regard only to the Claims of which she shall then have notice, and she shall not be liable for the Assets of the said Estate, or any part thereof, to any Person or Persons of whose Claim notice shall not have been received by her at the time of such distribution.

Dated at Peterborough, Ontario, this 25th day of August, A.D. 1920.

A. E. DIXON,
397½ George Street, Peterborough, Ont.,
Solicitor for said Administratrix.

INCINERATOR KICKED.

This morning it was found almost impossible to burn the garbage at the incinerator due to the fact that a large number of citizens, in spite of frequent warnings, still persist in not draining their garbage. Some of the garbage containers have as much as three inches of water in them. This smothers the fire at the incinerator and to-day Sanitary Inspector Stapleton gave orders to the garbage collectors to refuse all undrained garbage in the future.

Notice to Creditors

IN THE MATTER OF THE ESTATE OF JOHN S. CROWE, LATE OF THE TOWNSHIP OF CAVAN, IN THE COUNTY OF DURHAM, FARMER, DECEASED.

NOTICE IS HEREBY GIVEN, Pursuant to Section 56 of the Trustee Act, R.S.O., 1914, Chapter 121, That all Creditors and others having Claims or Demands against the Estate of the said John S. Crowe, who died on or about the 28th Day of January, A.D. 1920, are required on or before the First Day of October, 1920, to send by post prepaid or deliver to the undersigned Solicitors for John McIntosh, of the Township of North Monaghan, in the County of Peterborough, Farmer, Administrator of the Estate of the said Deceased, their Christian names and surnames, addresses and descriptions, the full particulars, in writing, of their Claims, a statement of their Accounts, and the nature of the security, if any, held by them.

AND TAKE NOTICE, That after such last-mentioned date the said Administrator will proceed to distribute the Assets of the said Deceased among the Parties entitled thereto, having regard only to the Claims of which he shall then have notice, and that the said Administrator will not be liable for the said Assets or any part thereof to any Person or Persons of whose Claim notice shall not have been received by him at the time of such distribution.

Dated at Peterborough, this First Day of September, A.D. 1920.

HALL & HALL,
118 Hunter Street, Peterborough,
Solicitors for John McIntosh,
Administrator Estate John S. Crowe.

Lady Eaton and party motored from Toronto on Sunday to visit the former's mother, Mrs. McCrea.

Mrs. E. Mitchell and daughter, Miss Emily, were visitors to Lindsay on Saturday.

Mr. and Mrs. A. Jones and son, of Peterboro, were the guest of Mrs. Jones' sister, Mrs. B Courtney, over Sunday.

Our school re-opened on Tuesday with a large increase of students entering High School.

PUBLIC ENQUIRY INTO FIRE DEPT. IS REFUSED, ETC.

(Continued from page 1).

the Mayor to continue on condition that he condensed his remarks.

He found more evidence condemning the Chief practically throughout the report of the evidence given at the preliminary hearing.

The Trades Council, he concluded, had asked for an investigation which would be open to the public and not conducted in committee, with the press as the only auditor, as in the case of the hearing before the Fire, Water and Light Committee.

T. Tooms, M.P.P.

Mr. Tooms opened by saying that many citizens were commenting upon the impropriety of the Fire, Water and Light Committee conducting the hearing.

Ald. Morrison and Ald. Whitehouse sought information as to the identity of these citizens. This Mr. Tooms refused to supply, but quoted himself as an interested citizen. He intimated that the chairman casting the deciding vote, as was done in the finding of the Fire, Water and Light Committee, was an injustice.

Ald. Whitehouse again objected. "This is all out of order," he said. "We are taking up time by reviewing what the committee did. That is a reflection upon the Fire, Water and Light Committee. This discussion should stop right here."

Mr. Tooms replied that there would be no chance to speak after the matter had been decided upon by Council, which body, he said, was the servants of the people and not the rulers. The men, he concluded, should get the same justice as the Chief.

Ald. Crowe's Enquiry.

Ald. Crowe retailed some of the information he had received from the officers of three fire stations in Toronto on Monday.

'They thought that it wasn't diplomatic to discipline three firemen so drastically, especially as they were long service men and were discharged for alleged inefficiency. The Toronto men thought it was foolish of the Chief to have done so

They also believed that officers should be appointed according to seniority and therefore when Lieut. Degen was reduced a new man shouldn't have been appointed instead of men who had been on the brigade for years. Such a practice wouldn't be tolerated in Toronto. They also said that the Chief's action appeared tyrannical in dismissing Drummond for sitting on the couch in the watch room.

As regards room for drill there is more room at the local fire hall than at all of the three fire stations I visited. It is the duty of the captains in Toronto to drill the men. They don't need the Chief to train them. They thought it was a great lack on the Chief's part not to have held drills here.

"I visited their central training station where forty men were at work with dummy hydrants, using the nets and tower and getting other practice.

Wasn't Under the Palm Tree.

Ald. Morrison—I'd like to ask Mr. Murray how many nights he was under the palm tree at the fire hall consulting the firemen before this came up?

Mr. Murray—Not once was I under the palm tree. I visited the fire hall during the Chief's absence on his holidays, and you gave him five weeks. The only men I know at the fire hall are the two Johnstons.

Ald. Gainey—Lieut. Degen was appointed provisionally. Are all the officers appointed that way?

Ald. Gordon—By the Council?

Ald. Gainey—I don't know. The Council gets no word. How are we to know who are officers if they are appointed provisionally. The Chief said Degen had insulted a gentleman who asked him how he was going to vote. I don't see why a man should be punished for answering a question of that kind. It ought to be recommended that he be placed in his old position.

Ald. Gordon— Do you think he is better than Jones.

Ald. Gainey—I think he is.

Ald. Crowe—The Toronto men say that if Lieut. Jones was so qualified in the old country he should have stayed there.

Ald. Phelan— Idon't think there is any need of going to the expense of buying more land at the fire hall. The department costs the city enough now without going to extra expense. I'd like to see the eight o'clock drill put in force again.

Ald. Gordon—If there is any recommendation to purchase more land it will have to come before the Council.

Ald. Turner said he regarded the Fire Department as an investment, not an expense. He thought that the men who had brought this question before the Council should be commended.

"I trust the result will be increased efficiency at the fire hall, and I am strongly in favour of no one receiving any injustice, but I can't see how we can have more than one head. If it can be proved that he can't handle men he should be removed."

Ald. Crowe said he didn't think it was right for the Chief to take drastic steps, and he might take the members of the Council into his confidence.

"He's been a cause of this disturbance," said Ald. Crowe, "and he is getting off without blame, while the firemen alone are made to suffer for what they have done."

Ald. Gordon said it was unfortunate this matter reached the degree of friction it did. There was no doubt of the necessity of the head of the department being in control and when friction arose one of the elements of the friction had to be removed. Some men who have many good qualities are suffering. That is a thing I'm sure the Council regrets.

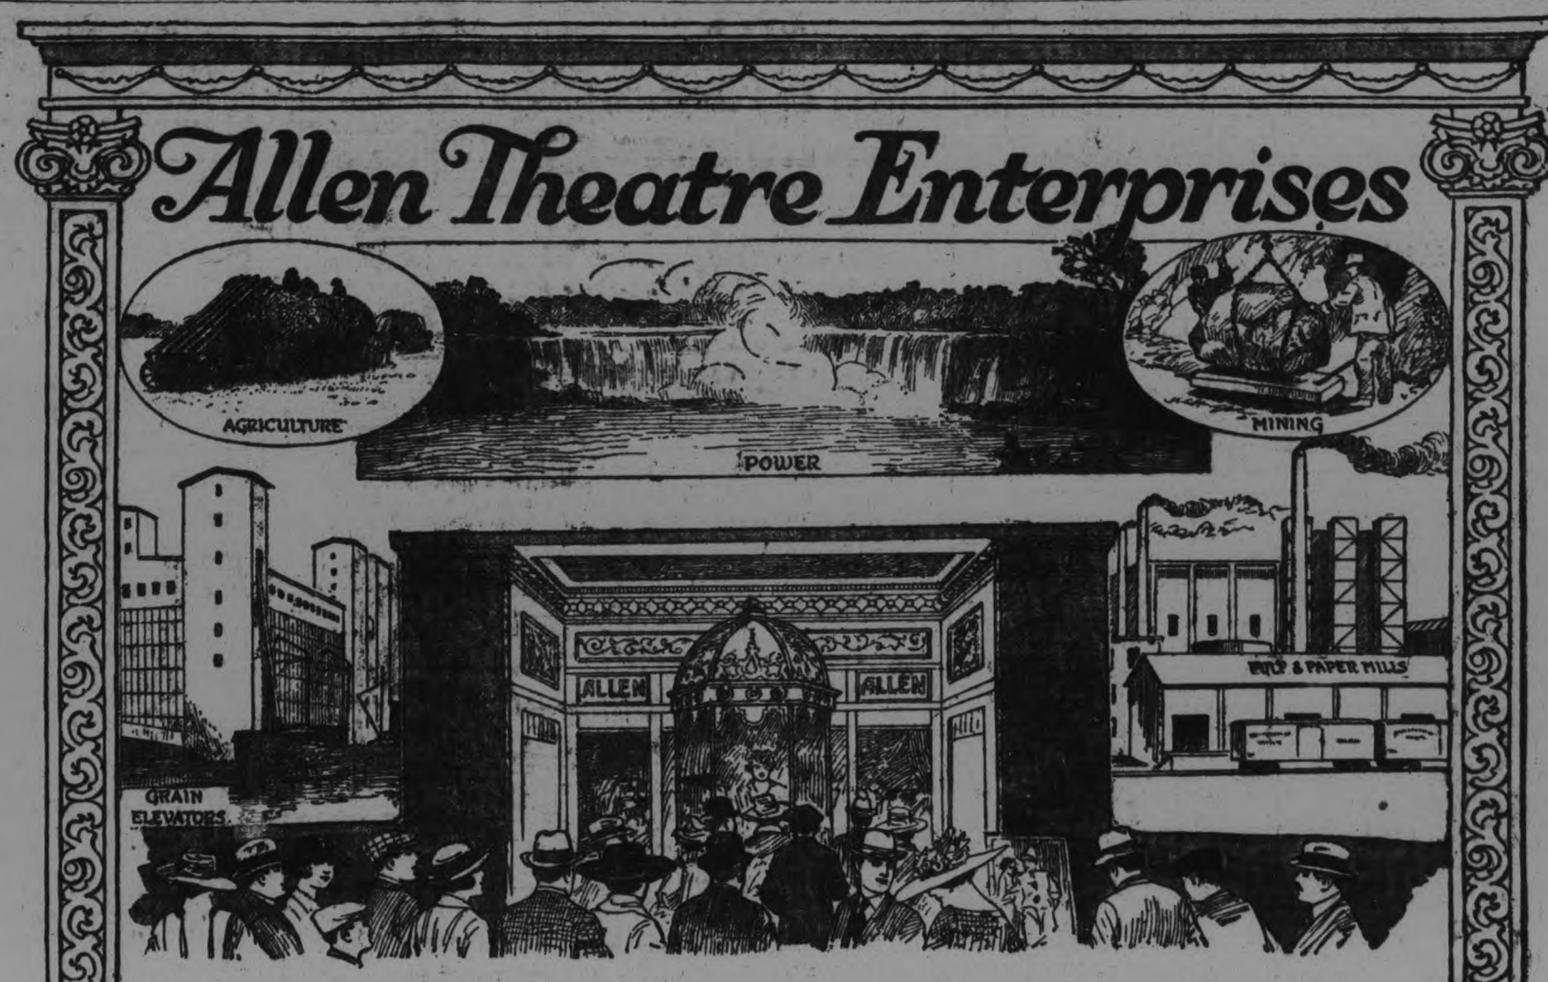
Ald. Gainey apparently supposing Ald. Turner to have alluded to the dismissed firemen who had first made complaints of inefficiency, proposed that the men be returned to work.

Ald. Turner replied that Ald. Gainey had misinterpreted his reference. He was thinking of Mr. Tooms and Mr. Murray who had appeared at the special meeting of the Council.

Ald. Crowe— I can't see my way clear to seconding that. There's got to be a head to the Department. The whole thing ought to be cleaned up.

Ald. Gordon—There may be something in that.

The vote on Ald. Morrison's motion that the report of his committee be adopted was called by Mayor McIntyre and carried.



Catching the Flashes of Canada's "New Dawn"

Events in Canada have moved with dramatic swiftness in the last ten years. Even before the coming of the war that was to reveal the strength of the young northern giant of nations the dawn of a new day had flashed its signals.

Commerce was looking beyond Provincial borders, agriculture was building a new empire in the west, and the spirit of the people was growing with the world's recognition.

Motion pictures had passed beyond the experimental stage, but with no clearly-defined future. It was then that the early struggles and mistakes were being encountered—and paid for. A newly-discovered industry that demanded pioneering courage also exacted the most careful business judgment. A thousand prospectors thought they saw the trail to a new Eldorado.

A few survived, notably, we believe we can say, the Allen Theatre Enterprises.

Theatres that bear the Allen name from one ocean to the other essentially are Canada's development of the motion picture industry. They represent the Canadian idea in pictures—the response of Canadians to an idea and an ideal.

The Allens, young-minded and with every ounce of resource, in the spirit of the game, cling to two beliefs. They believe first of all in the possibilities of motion pictures—and they believe in the Canadian people.

Wherever an Allen Theatre was opened in the last ten years the people of Canada gave to it a generous patronage—in hearty co-operation with the enterprise and the policy that built the Allen chain.

Soon the building of these theatres gave the opportunity for greater development. That development meant putting "the something more" into each and all of these theatres—and eventually carrying a Canadian enterprise beyond the country's borders.

Canada builds for the future and reaches out with new-found faith and courage. The Allen Theatre Enterprises are abreast of the tide. 5

HASTINGS NEWS

HASTINGS, Sept .8.—The schools have re-opened after the mid-summer vacation, with the former staff of teachers and a large attendance of pupils.

Miss Ona Doxsee has been engaged as teacher in No. 5, Asphodel.

Miss Mae Hinton has secured the Dutch Line school for the ensuing year.

Labour Day was duly observed, all places of business being closed for the day.

A sad death occurred here on Saturday, when Mrs. T. Lemoire passed away at the early age of 29 years. Deceased leaves to mourn her loss a sorrowing husband and two small children, the youngest being a babe less than two weeks. The funeral was held on Monday afternoon. Service at the house was conducted by Rev. Courage, Anglican clergyman. Interment was made in the Norwood cemetery. Universal sympathy is extended to the husband and young children.

Mrs. H. Chapman has been visiting friends in Toronto.

Mrs. (Dr.) Hess and son Clifford, returned on Friday from a pleasant visit with friends at Wooler.

Mrs. Malcolm Baker returned during the week from an extended visit in Western Canada.

There passed away on Tuesday morning at the home of her son, Mr. Lew Kelly here, Mrs. J. Kelly of Warkworth, at the age of 61 years. The funeral will be held from the residence of her son on Thursday. Interment in Warkworth cemetery. To the family much sympathy is extended.

Some of our people attended the Fair at Wooler on Friday.

Mr. and Mrs. J. Stevenson and family motored to Toronto and spent Labor Day at the Exhibition.

Mr. W. Gould has disposed of his drug business here to Mr. Hawkins, of Toronto and leaves for Colborne in the near future.

Miss M. Butler, who has had charge of the millinery parlors here for some time, has removed to Lakefield and is going into business there.

Mrs. C. Jones and Mrs. A. Knight were in Peterborough last week.

Mr. and Mrs. W. Baker took a trip to Toronto last week.

Mr. and Mrs. Winter Runnels of Lindsay, spent the holiday in town, guests of Mr. and Mrs. F. Runnels.

Mr. and Mrs. Gordon Beavis and daughter Margaret, accompanied by Mr. and Mrs. Groshea, of Colborne, called on friends in Hastings on Sunday.

Mr. Cunningham of Peterborough, was in town on Tuesday.

DR. YOUNG'S APPOINTMENT.

The appointment of Dr. T. W. H. Young as Medical Officer of Health will be received, it is certain, with the approval of the public generally. Dr. Young stands high in his profession and in the esteem of his fellow citizens and in addition to his personal qualifications for the position, the fact that he served with the Canadian army overseas makes him in the eyes of those who believe that all such public appointments should go to returned soldiers a most suitable appointee. The position he is called upon to fill is a most important one, for the guardianship of the health of the community is a responsible task if its duties are conscientiously undertaken, as they undoubtedly will be by Dr. Young. There are times when the Medical Officer of Health has to take steps that are not popular with the individuals most concerned. The strict enforcement of the quarantine regulations in the case of infectious diseases is an example and there are others that will suggest themselves. However the duties of the Medical Officer can be considerably lightened if the public will co-operate with him in his work. More and more is the importance of public health measures being recognized and it is hoped that the growing appreciation on the part of the people of the necessity of paying proper attention to matters affecting the health of the community will do much to assist Dr. Young in his new position.

FLAT RATES FOR HYDRO.

The municipalities of Ontario who are connected with the Hydro-Electric scheme should not miss the significance of recent speeches made by Premier Drury in regard to power charges, for the tone of his remarks leaves little doubt that the municipalities will have a fight on their hands in the near future to prevent the introduction of a flat rate system in the Province. The United Farmers favour a change in the present method of charging for electric power; they want electricity brought to their doors as cheaply as possible and to compel the consumers in the city to make up the difference by paying higher rates. Premier Drury agrees with this view. He thinks that the charges should be re-arranged so as to give the townships power at lower rates than at present, while the larger centres would have to pay higher prices. From this position to the introduction of a flat rate system is only a step and the municipalities whose interests are vitally affected by the prospective change in the Province's policy towards Hydro-Electric would be displaying only ordinary caution in preparing to resist a plan that would eventually wreck the whole system of public ownership of power in Ontario.

A SPLENDID BUILDING.

An unmistakable and impressive proof of the advancement that is being made by the Peterborough Industrial Exhibition is the splendid new Manufacturers' Building, which is practically completed and which many citizens saw for the first time on Labour Day. The manufacturers of the city and the Exhibition Board are alike to be congratulated upon this fine addition to the buildings at the Exhibition grounds, which will afford an opportunity of a splendid demonstration of the many products thati are manufacturers in Peterborough. Hitherto, the manufacturers, although willing to co-operate with the Exhibition Board and anxious to make an exhibit of their products, were unable because of the lack of accommodation to arrange for a proper display. The new building, the cost of which has been largely met by the local industrfial concerns, will enable them to stage a "Made in Peterborough" exhibit that will provide the finest kind of advertising for this city. Many nationally known products are made here and visitors to the Exhibition this year will be thoroughly impressed with the fact when they visit the manufacturers' building. The display there should be one of the outstanding features of Peterborough's big fair.

THE BOARD OF EDUCATION.

The Board of Education has often, and with a good deal of reason, been pronounced as a model of efficiency in transacting the public business that comes under its jurisdiction and ratepayers have been known to wonder why the City Council could not adopt similar methods in dealing with affairs with which it has concern. But the Board stands in danger of losing some of the admiration in which it has ben held by the citizens. The failure to hold a regular monthly meeting because there was not a quorum of members present at the scheduled time for commencement is not a creditable showing, especially in view of the fact that at the June meeting there was a total attendance of only four members. Chairman Denne's reprimand for the absent members is not a bit too strong. They were elected to look after the educational needs of the community and are giving a very poor imitation of interest in the duties of their position in their failure to attend the regular sessions. Probably on behalf of some of the members it may be pointed out that they were prevented by reasons over which they had no control from being present at last night's meeting, but nevertheless if there are any any more repetitions of a failure to secure a quorum the ratepayers cannot be blamed for doubting the genuineness of the interest taken in the business of the Board.

A FISH HATCHERY.

Mr. R. R. Hall's suggestion that a fish hatchery should be established at some suitable point on the Kawartha Lakes is one that should be enthusiastically impressed upon the Dominion government. The City Council, the Board of Trade, the Stoney Lake Cottagers' Association and other organized bodies would do well to interest themselves in this matter and institute a systematic campaign to impress upon the government the desirability of keeping the wonderful chain of lakes and rivers in the Kawartha district stocked with fish. Convenient of access as these waters are, they are of great benefit to thousands of people, but as Mr. Hall points out, the fact that they are within easy reach leads to them being quickly fished out. A hatchery would at a cost inconsiderable in view of the results that would follow, keep the supply of fish at a level that would provide sport for the host of anglers that would be attracted to the Kawartha chain.

LITTLE HAS BEEN DONE FOR CITY BY THE DOMINION GOVERNMENT

During the last nine or ten years little has been done by the Dominion Government in the City and County of Peterborough, as compared with the enormous amounts of money, the people of this City are directly and indirectly contributing in taxes to the Dominion Treasury.

On the other hand, there is evidence of complete neglect on the part of the Dominion Government of the interests of the City and County.

A vacant lot was bought on which to erect a Custom House and Post Office, but nothing more was done.

The Dominion Government made an attempt to buy a property, on which a dry dock was to be constructed, but that fell through.

THE PIGEON CREEK BRIDGE.

Pigeon Creek Bridge has always been maintained and has always furnished a short route to the Northern end of the county, but that bridge has gradually been shunned more and more, as it became from time to time more dangerous to cross, until it finally floated away. If you now want to go to Bobcaygeon and Kinmount, you must take a route ten miles out of your way, either through the cow pastures of the Township of Emily, or over the hills and through the woods of Harvey. Why? Just neglect.

Many works can and ought fairly to be done to advance the interests of this County and City. I shall refer to one of them:

One of the finest summer resorts in Canada is to be found on the Kawartha Lakes. They are charming and beautiful, and when fish can be caught in them, they are most attractive to tourists. It is because they are so convenient of access, that they so quickly get fished out, and then the tourist fails to return for another dose of "fisherman's luck."

ESTABLISH A FISH HATCHERY.

Why should not a Fish Hatchery be established at some suitable point on the Kawartha Lakes, and of sufficient capacity to produce from five to ten millions of bass and maskinonge fry per annum to be placed in the Kawartha Lakes every year. If these waters were then properly protected during the close season and if some proper care were given to those which are naturally produced, and particularly in the regulating of the waters during the spawning season, then the Kawartha Lakes would become known throughout the Continent as the Fisherman's Paradise.

The next thing to do, to enable Peterborough to become an attractive centre, would be to have a first class road from Port Hope to Peterborough, and to Lakefield, Young's Point, Burleigh and Bobcaygeon.

It is safe to say, that thousands and tens of thousands of American tourists would be attracted to these real fishing lakes, and in passing through Peterborough, and beholding its many prosperous factories, and its enterprising citizens ,some of the best of them would be induced to locate other factories here.

Millions of dollars per year are spent by tourists in the State of Maine and in the State of Wisconsin, and I believe that they can furnish no such attractions and sport, as it is capable at small cost to the Dominion Government, to be obtained on our Kawartha Lakes.

It is impossible for tourists to spend their many millions without every citizen in the district deriving some benefit directly or indirectly.

Canada already has about thirty fish hatcheries and there is no reason why one should not be erected and maintained at some suitable point on this chain of lakes.

They cost not much to erect and not a great deal to operate and maintain but the results are ten thousand fold the cost.

R. R. HALL.

Peterborough, September 7th, 1920.

BRITISH PLAYS.

Yesterday the Examiner had occasion to question the taste of local theatre-goers and wondered if they really preferred the sometimes far from meritorious American productions to the work of British companies of recognized merit. In this connection the Kingston Whig publishes some interesting comment upon the prospects of Canadian theatres receiving more British plays during the coming season.

Fewer New York plays will henceforth be seen in Canada, says the Whig. The people of this country will now view more of the best British dramatic productions. For many years Canada has had to depend upon the United States producers for stage material. Once in a while a British company would come along and the eastern cities of Canada would see something real good from the Old Land. It was perhaps just once in a while that the United States productions sent on tour could be called good, but any theatrical production that came across the ocean was a top-notcher, being the companies of Sir Henry Irving, Martin Harvey, Forbes Robertson, Ellen Terry and other eminent British players. Of late years, there has been a revolt in Canada agains having to swallow everything that the American taste considered good. Many productions which satisfied New York did not and could not satisfy Canadians, whose stage tastes are more British than American. Likewise, New York turns down some of the best British plays which find immense favor in Canada. We prefer the more wholesome British plays which, as a Britisher reviewer says, express our own thoughts, spirit and opinions. Some day Canada will have its own stage productions on a large scale, but that time has not yet come. However, it will be made nearly so by getting into closer touch with the British theatrical world. The organization of the Trans-Canada Theatres Limited, with the object of bringing British plays direct from London to Canada, is a big step in the direction of helping the drama in Canada.

The number of cases of alcoholic treatment in Bellevue Hospital, New York, has increased within the past few weeks until it is virtually equal to that of pre-prohibition days.

HARVESTING IS NEARING CLOSE

PAST WEEK HAS BEEN FAVOURABLE FOR THRESHING

The following is a summary of the weekly reports made by the agricultural representatives to the Ontario Department of Agriculture:

The past week has been favorable for harvesting and threshing, more especially as threshing in the stock is becoming more common. Considerable grain, however, is still lying in the fields awaiting time or help to get it into the barn.

Market prices for wheat range all the way from 2.20 to 2.50 a bushel.

The second growth of pasture has proven good for live stock, although there are some reports of a decided falling off in the milk flow. Many farmers are already supplementing pasture with other feeds.

Not many beef animals are going to market. Dry cows are selling in Frontenac at around 8 cents a lb.

Norfolk reports milk as selling at $3.38 a cwt. to a Toronto dairy, delivered at the shipping point, Simcoe.

Hogs appear to be scarce, and are being slowly marketed at from $19.75 to $20.60 a cwt.

Good Oat Crop.

Reports have been received of oats running as high as 80, 90 and even 100 bushels to the acre, but on the other hand some of the crop has been discolored by the wet weather at harvesting.

Hay is being held pretty closely by owners, but what sales are made range from $22 to $28 a ton.

The second cut of alfalfa is proving very satisfactory.

Grey reports that sweet clover is an exceptionally good crop.

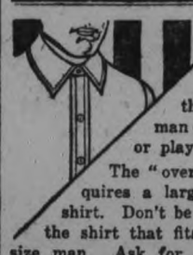
Kent states that farmers are finding it difficult to procure sufficient help to harvest their tobacco, beans etc.

Fruit raisers are still complaining of the lack of pickers, and of baskets and other containers. For this reason a number of growers in Lincoln and Wentworth are allowing a considerable quantity of early apples, and also plums, to rot on the trees.

The peach harvest is now on, and pickers are in great demand; one growers is advertising for 200 of them.

The lateness of harvest is delaying fall seeding. There is also a tendency to hold back the fall wheat in order to avoid the Hessian fly. Considerable of the after harvest plowing has been shallow. The land has been rather too dry and hard for general plowing. It has been particularly difficulty with sod.

The Peterboro representative says: "Owing to continued dry weather most of the farm wells of the county are dry, and live stock are suffering for want of sufficient water. This is more especially true of the ranches."



Made in a great variety of styles to meet the needs of the man or boy at work or play.

It may be your eyes!

Lots of headaches—lots of weariness—bad temper — and "nerves" come from eye strain.

And in such cases, nothing but skilled and careful attention to your eyes will remedy these disorders.

If day after day, night after night, you are straining or overtasking your eyes--sooner or later—small disorders grow to large ones. Sooner or later your eyes will have serious, perhaps permanent, defects.

If "things don't seem to be normal,"—if your eyes "don't feel exactly right"—Why not find out definitely what is wrong—and have it corrected now?

Go to your Optometrist. Let him investigate. If it is not your eyes that are the source of trouble, he will tell you.

If you need glasses—or need different glasses—he will tell you.

If you consciously—or sub-consciously—feel that all is not right with your eyes, go to your Optometrist this very day—*he knows!*

THAT SON-IN-LAW OF PA'S — Now Pa'll Have Plenty of Oats for Breakfast — By WELLINGTON

DR. T.W.H. YOUNG WAS APPOINTED MEDICAL OFFICER OF HEALTH

DUTIES BEGAN TO-DAY WITH SALARY OF $1800 A YEAR—CITY'S COAL TO BE SUPPLIED CITY INSTITUTIONS AND BUILDINGS—MAYOR M'INTYRE TO ATTEND TELEPHONE RATES HEARING.

COUNCIL'S BUSINESS ITEMS

Dr. T. W. H. Young was appointed Medical Officer of Health and city physician by the Council last night with a salary of $1,800 a year, beginning to-day. Other applications for the position vacated by Dr. A. W. McPherson were received by the Property Committee from Dr. N. H. Sutton and Dr. D. C. King, but the committee in their report left the appointment open for the Council's decision.

When the by-law was introduced to name the new official, Dr. Sutton was proposed by Ald. Hamilton, seconded by Ald. Turner, and Dr. Young by Aldermen Gordon and Jones.

Ald. Phelan moved that Dr. King be appointed, and Ald. Gainey submitted an amendment that the applicants be asked to state the salaries at which they would accept the position. Ald. Crowe alone supported the amendment.

Ald. Morrison said he didn't think the doctors would specify the salaries they would be willing to accept, and Ald. Jones believed that the applications had been based on the existing salary to the M.O.H.

Ald. Phelan said he knew one doctor who was willing to accept less until he had proved his abilities for the office.

Ald. Gordon stated that Dr. McPherson had been appointed medical supervisor by the Board of Education.

Ald. Morrison suggested that the two positions might be combined, but Ald. Gordon pointed out a probable obstacle in the fact that the Medical Officer of Health attended contagious diseases which would be objectionable to the School Board.

Ald. Crowe supported Ald. Hamilton and Ald. Turner in favour of the appointment of Dr. Sutton, Mayor McIntyre and Aldermen Phelan and Copping voted for Dr. King and Dr. Young was appointed by the votes of Aldermen Gordon, Jones, Copping, Whitehouse, Morrison and Mayor McIntyre.

Salary of $1,800.

Ald. Gordon moved, seconded by Ald. Hamilton, that Dr. Young's salary be $1,800 a year. Ald. Gordon said that last year Dr. McPherson's salary had been raised from $700 to $1,200 and finally this year to $2,000.

An amendment by Ald. Jones, seconded by Ald. Whitehouse, named the sum of $2,000, but the amendment was defeated

Under the new agreement the Medical Officer of Health accepts he is required to make a monthly statement to the Property Committee and Board of Health of the number of patients in the Isolation Hospital, the number of cases, if infectious, diseases and other details of the work he performs.

Use the City's Coal.

Ald. Morrison reported that the city was paying $35 a month rent for the building in which they emergency coal supply is stored. He asked the Council if they desired to keep the coal under that circumstance.

Ald. Gordon moved that the city's buildings and institutions be supplied with their requirements for the winter.

Ald. Morrison stated that present price of coal was too high to go into the market and buy for the municipal fuel yard.

$700 to T. Rehill.

The city treasurer was instructed to issue a cheque for $700 to T. Rehill for land purchased from him. Ald. Whitehouse made this motion, seconded by Ald. Jones.

Rescued by Ald. Crowe.

Toronto's proposal that the Bell Telephone system be expropriated was on the way to the waste basket.

"The service is bad enough now," said Ald Gordon.

Ald. Crowe broke in with a suggestion that this idea be given some consideration, and his motion, seconded by Ald. Turner, that this question be referred to the Committee of the Whole. Carried.

Mayor a Delegate.

Peterboro's assessment by the Union of Canadian Municipalities of the cost of opposing the Bell Telephone's application for increased rates is $200.

Ald. Gordon moved, seconded by Ald. Phelan, that this sum be remitted and that Mayor McIntyre represent the city when the application is heard by the Railway Board.

City Engineer Parsons promised Ald. Morrison he would take up the work of providing iron grates in the crossing at the corner of Bolivar and Thomas streets, and Ald. Whitehouse assured Ald. Crowe that the Board of Works would consider Ald. Crowe's idea of painting on the street light poles the numbers of the nearest houses as a means of locating any house after dark.

$2,000 for Land.

Ald. Gordon moved, seconded by Ald. Crowe, that the city treasurer pay $2,000 to the E. B. Edwards estate for the triangular lot at the corner of Perry and Stewart streets, which the city gave the Raybestos Company for the extension of their factory.

Leave for Inspector.

Plumbing Inspector Motheral was granted leave of absence to attend the Plumbing Inspectors' Convention in Toronto on September 9th and 10th.

Ald. Gordon: At his own expense?

Ald. Jones: We don't usually do so

Ald. Gordon: He should. He's been on the job only a short time.

Ald. Crowe: You have created a precedent and I don't know how long you intend to keep it up, but I'd like to see it cut out.

Sell Strip of Land.

A by-law was passed authorizing the City Trust to sell to George Melton, Water street, a twelve-foot strip off the Hilliard farm adjoining his property for the sum of $120. The City Trust have already approved of this sale.

Replying to the Council's memorandum objecting to gambling devices being operated at summer carnival shows, the Exhibition Board wrote that they were in full accord with that resolution and suggested that the Provincial Government be memorialized as they issue all licenses to that class of show. It was also replied that the president of the Board and the chairman of the Amusement Committee had asked the chief of police to see that the law was not violated.

Propose New Siding.

Plans of a new G.T.R. siding across Rink street between the Belleville and Port Hope branches were submitted by A. MacNab, local G.T.R. agent. This siding will be located in the rear of coal houses and oil tank between River and Perry streets. It would tend to reduce switching by trains passing west through the city and also tend to reduce switching by the yard engine.

This communication was referred to the Railway Committee.

Statement of Roll.

Tax Collector Green's report of the roll up to August 31 was as follows:

Total amount of roll	$570,267.86
Deposited June, July and August	379,278.15
	$190,989.71
Balance of 2nd instalment taken in Sept.	140,680.54
	$ 50,309.17

R. C. Braund wrote pleading for a sidewalk on the west side of Park street from Albert street to Lake street. Not only was his property depreciated by the lack of this sidewalk, Mr. Braund wrote, but as another result, a great congestion was caused at noon every day on the single east sidewalk which was used by the employees of the C.G.E. works, De Laval and other factories. The first request Mr. Braund made five years ago. Referred to the Board of Works.

Notice of the annual meeting of the Hydro-electric Association of Ontario in Hamilton on Sept. 13th was sent on to the Railway Committee with the power to act.

Wanted Park Lighted.

T. J. Redpath and other residents of the northeast end of the city asked that several lights be placed in the east Nicholls' Park (Oval). Referred to the Fire, Water and Light Committee.

Wm. Steele's claim for $25 damages for injuries received on Euclid avenue was referred to the Legal Committee.

FAM-LY-ADE For the Children

YOUR children will love the cooling, fruity tang of FAM-LY-ADE. Give it to them often. Your grocer or druggist sells FAM-LY-ADE in a handy glass tube—enough for 32 glasses. It costs but 35c. Simple directions on every package. Made in Canada.

VOICE OF THE PEOPLE

Editor Examiner: It is perhaps natural that I should take more than a passing interest in the investigation of the Peterboro fire department, and especially with the frequent references to the fire in the Bell apartments last winter, a fire which I have several substantial reasons for remembering, not only on account of the loss and inconvenience to which I was subject, but because I then contracted an illness, through exposure, that almost put me out of business for good.

I cant' understand now, any more than I could immediately after the fire, what all the criticism of the department and their work on that occasion is or was about. I was routed out of bed about 2 a.m., with some difficulty, and in less than five minutes after I was up the ceiling of my bedroom fell in. It did not take me long to ascertain that the fire had started in the attic, in the flat above, and that the building was in no great danger. The firemen made a quick response to the alarm. I met them coming up the stairway with two lines of hose, and went back with them to show them where the fire was. As soon as I had thrown open the door of my bedroom word was sent up that the hydrant was frozen. Then I knew that the jig was up and left the building.

Before connection was made with the hydrant on George street, and the water turned on after a delay of ten or fifteen minutes, the place was full of smoke and the fire now through the roof. Any firemen who would have climbed on the roof in order to fight the flames, would have simply gone to his death. As it was no man's life was safe in the building. Chief Grange knew that the building was not safe, and surely cannot be censured for protecting the lives of his men.

Had it not been for the frozen hydrant the fire would have been put out in ten minutes, and the loss would have been nominal. Only two rooms, my own bedroom and the attic above, would have been affected. As it was the property of the tenants did not fare so badly.

Let every man be given his due and do not try to crucify a fire chief because he appears to hold human life in higher regard than property.

ALEX. McGREGOR,
Renfrew, Sept. 6.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

Post's Bed Bug Poison is the best and most reliable remedy to All Bed Bugs. Apply to the infected parts with a brush. One application will get rid of this pest. Sold at Lynch's drug store, 168 Hunter street, Peterboro. 6d 4-11-18 25-1-8

PRESENTATION TO MISS FLORRIE CARD

In honor of her approaching marriage and as a token of the affection and esteem of her fellow workers the members of the spinning department of the Canadian Woollens on Saturday, September 4th presented Miss Florrie Card with a handsome gift.

The presentation was accompanied by an address expressing the regret felt by her fellow workers at her leaving the department with which she has been identified for a number of years, and wishing her all happiness and prosperity in the future years.

To the address, which was signed on behalf of the spinners and doffers by Miss Lillian Gregory and Miss Hazel Lang, Miss Card made a graceful reply, thanking her former associates for their thoughtfulness and assuring them of her continued interest in all of them.

EXPECTS ANOTHER "FLU" EPIDEMIC.

(Canadian Press.)

NEW YORK, Sept. 8. — Health Commissioner Copeland claims that the nation is in for another influenza epidemic, but not nearly as widespread as last winter.

MRS. WM. P. SMITH, of Los Angeles, Calif., who says Tanlac completely restored her health when no one believed she would ever be well again. Has gained thirteen pounds.

"I will never stop praising Tanlac, for it has restored my health when everyone who knew of my dreadful condition had no idea I would ever get well.

"Two years ago, following an accident, I began suffering from indigestion and severe stomach trouble. I grew worse so rapidly that my health soon became perfectly wretched. My stomach became so weak I couldn't eat the simplest food or even drink a glass of milk without suffering for hours afterward. I was extremely nervous, and would have palpitation of the heart so badly at times I would almost faint. My circulation was very poor, I had no colour, and weighed only eighty-one pounds. It seemed I was just gradually starving by degrees, and I had almost given up hope.

"After the best medical treatment failed to help me, travel and a change of surroundings was advised, so I travelled nearly all over the United States and had treatment every place I went, but always with the same disappointing results. How I stood my suffering is more than I can tell, and I became so despondent that life seemed hardly worth living.

"That is just the condition I was in when I began taking Tanlac. When my husband first suggested Tanlac, I told him I had no faith in it, but the next day he bought me a bottle, and to my great surprise it seemed to agree with me, so I kept on taking it. The results speak for themselves.

"I have gained thirteen pounds in weight, and I feel perfectly well in every way. My appetite is splendid, and I eat just anything I want and never have the slightest symptom of indigestion. I am so happy over the recovery of my health that I feel just like telling everybody about this wonderful medicine."

The above remarkable statement was made recently by Mrs. William P. Smith, a well-known and highly-respected resident of Los Angeles, Calif., residing at 139 East Avenue 36.

Tanlac is sold in Peterborough by W. B. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co., Ltd., in Fowler's Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son. (Advt.)

SCHOOL BOARD LACKED QUORUM

SPECIAL MEETING WILL BE CALLED AT A LATER DATE

Mr. Roland Denne, chairman of the Board of Education, gave the absent members of the Board a rap over the knuckles last evening when, on the calling of the regular meeting a quorum failed to report until after the time scheduled, according to the constitution, for the opening.

"It's a crime," he said, "that they have so little interest in the Board that they cannot be on deck at the right time." He also reminded the members present that at the June meeting the most important meeting of the year, only four of the members showed up.

While four members and the chairman reported before eight o'clock last evening the fifth required to make the quorum, delayed by professional business, was unable to appear until a few minutes after eight and the chairman decided that it would be illegal to carry on the meeting.

The members present were Mr. R. Denne, Mr. J. W. Worth, Mr. G. O. Cameron, Mrs. W. R. Morris, Dr. F. C. Neal and Mr. J. M. Greene.

"FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with the fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

HON. F. C. BIGGS WAS NOT PRESENT

GAVE THE APSLEY FOLKS A DOSE OF THE ABSENT TREATMENT —APSLEY NEWS

APSLEY, Sept. 8.—On Thursday, Sept. 2nd, members of the Council and others journeyed to Burleigh with the object of waiting upon the Hon. F. C. Biggs, Minister of Public Works, for the purpose of presenting arguments in favour of a provincial highway between Peterboro and Coe Hill via Apsley, and enthusiasm ran high as to the favourable outcome of the efforts of the deputation. Unfortunately the only part of the programme that materialized was the "waiting," as owing to confusion of dates or other causes the Minister did not arrive, neither could any trace of his whereabouts be found. Telephone messages were sent to Peterboro in an endeavour to locate him, but all to no purpose. It is hoped that the meeting will be effected at a later date.

Whooping Cough.

The epidemic of whooping cough that has prevailed throughout this district for the past two months shows signs of abating, chiefly through want of fresh victims, almost every family having suffered from it. A peculiar feature of the disease is its tendency to attack old as well as young, people of advanced age "whooping" as painfully as infants.

Surprise Party.

A surprise party was given at Mr. Pete Johnson's on Saturday evening in honour of Miss Mae Johnson, who is shortly leaving Apsley. A large number of young people attended and a very pleasant evening was spent in dancing.

Marsh Hay.

The cutting of marsh hay is in full swing and none too soon, as the haymakers report it on the pools in the marshes in Friday and Saturday mornings of last week. There will be a good crop, in some places being above the average.

New Parsonage.

The house and Post Office occupied by Mr. Hales has been purchased by the Anglican Church for a parsonage and parish room. The old parsonage has for some time been in too dilapidated a condition to be occupied. Possession will be given in October.

Returned Home.

Mrs. Booth, Apsley House, has returned home after an extended visit to Winnipeg and Port Arthur, and presided at the organ at St. George's Church on Sunday last. Miss Grant has been playing at the services during her absence.

Personals.

Miss Lily Wilson has resumed her position as teacher at the school at Apsley.

Mr. and Mrs. John S. Scott and Mr. and Mrs. H. Stafford and family of Canton, Ohio, are at the Union Hotel.

A PIANO THAT LEADS

The Ionic design art upright piano made by Ye Olde Firme Heintzman & Co., Limited, George and Hunter Street, Peterboro, holds a very popular place among the series of art pianos made by this long established Canadian firm—business established 1850. The design of case is one that makes the instrument an ornament in any home, while the beauty of interior construction manifested in tone and singing quality gives it a first place among the great pianos of the world.

Annual Picnic.

St. John's branch of the W. A. will hold their annual picnic in Inverlea Park to-morrow (Thursday) at 3.30. Should the weather prove unfavourable, the school room will be utilized.

WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

NUXATED IRON

Dr. Ferdinand King, New York Physician and Medical Author, says:

"It is my opinion that in practically nine times out of ten, nerve-strung nervousness and failing strength and vitality are due to deficiency of iron in the blood. I am convinced that there are thousands who, simply by taking Nuxated Iron, might readily build up their red-blood corpuscles, increase their physical energy and get themselves back to vibrant and vigorous health."

Matthews-Eastwood Nuptials

Practically all fashionable Peterboro and a large representation of society from Toronto, Hamilton and other Canadian cities gathered today at 1 o'clock in the Murray street Baptist church, when the wedding was solemnized, Rev. J. R. Webb officiating, of Agnes Erskine, second daughter of Mr. and Mrs. Vincent Eastwood, "Athol Place," and Gordon Smithson, son of Mr. and Mrs. T. F. Matthews, Warren Road, Toronto.

The church with its profuse and artistic decorations resembled a gorgeous rainbow with a color scheme of pink and mauve predominating. The entire organ loft was banked with ferns interspersed with pink and mauve asters while the Baptistry was banked with palest pink gladioli and ferns. Separating the pews reserved for the invited guests, huge bouquets of hydrangea were caught about tall flower filled baskets with bows of white ribbon.

Escorted to the altar by her father the bride entered the church to the strains of the wedding march played by Miss Ida Sanderson, and looked lovely in her wedding gown of white charmeuse with draped bodice of rose point lace, long court train lined with white embroidered in gold, over all which fell her wedding veil with a band of rose point lace, and caught with orange blossoms. She carried a shower bouquet of sweetheart roses and orchids.

The little flower girl, Miss Mary McPherson, who preceded the bridal party, was very pretty in pale pink georgette with a lace and silver hat. She carried a basket of palest pink sweet peas and forget-me-nots. Mrs. Allan Hector Cameron, matron of honour, and sister of the bride, was strikingly attired in pale yellow charmeuse, yellow shot taffeta hat, with long loops of gold ribbon and sprigs of gold maiden hair fern. She carried a sheaf of mauve and purple asters. She was preceded by the bridesmaids, Miss Jean Eastwood, sister of the bride, and Miss Jessie Matthews, of Toronto, the groom's sister. Miss Eastwood was very charming in orchid georgette with over dress of orchid net embroidered in silver and orchid shot taffeta picture hat with silver streamers and sprigs of silver maiden hair fern. Miss Matthews looked very pretty in pale green georgette with an overdress of pale green net embroidered in silver, pale green shot taffeta picture hat, with silver streamers, and sprigs of silver maiden hair fern. Both bridesmaids carried huge bouquets of mauve and pink asters.

Mrs. Vincent Eastwood, the bride's mother, was extremely handsome in a gown of white georgette with broad bandings of black Spanish lace, and black panne velvet picture hat.

Mrs. T. F. Matthews, the groom's mother, was beautifully gowned in heavy black silk with over dress of ecru Spanish lace and black jet. She wore a picture hat of black velvet.

The groom was supported by Mr. Roy MacKay of Hamilton, while Mr. Wilfred Stratton, Mr. Meredith Huycke, Mr. Jim Matthews of Brantford, Mr. Arthur Mills of London, England, Mr. Douglas Lawrie and Mr. Vincent Eastwood acted as ushers.

During the entire ceremony Miss Ida Sanderson played the organ softly and during the signing of the register, Miss Florence Scott sang, "Beloved, it is Morn," by Florence Alward.

After the ceremony the bridal party and guests drove to "Athol Place," the home of the bride's parents, where in the reception room, a bower of asters which like the church carried out the color scheme of mauve and white, a reception was held.

The dining table was centred by the wedding cake which stood on covers of Italian cut work and filet about which profusions of palest pink sweet peas were artistically arranged.

During the reception the bride slipped away and returned in her travelling suit of nigger brown duvetyn with which she wore a small brown feather hat, cinnamon fox furs and brown suede shoes.

At the station from which Mr. and Mrs. Matthews departed for a honeymoon to be spent in Atlantic City and New York hundreds of the young people gave them a rousing send-off amid showers of confetti and good wishes for the future. Upon their return to the city they will reside at the corner of Belmont avenue and Hunter street.

Out-of-town guests included Mr. and Mrs. T. F. Matthews, Toronto; Mr. Jim Matthews, Mr. and Mrs. R. C. Matthews, the Misses Matthews, Mr. and Mrs. Albert Matthews, and Miss Grace Matthews, of Toronto; Mr. and Mrs. W. E. Matthews, and Miss Dorothy Matthews, of Ottawa; Mr. and Mrs. G. F. Matthews, Mr. Jim Matthews and Miss Margaret Matthews of Brantford; Mr. George Somerville of Toronto; Miss Regina Villaincourt and Miss Lucy Morin of Welland; Miss Emma Cox, of Toronto; Miss Helen and Mr. Gordon Flavelle of Lindsay; Mr. and Mrs. J. B. McCarter and Mr. Douglas McCarter, Mr. and Mrs. G. E. McCarter, Mr. and Mrs. J. R. Eastwood, of Toronto; Mr. Arthur Mills, of London, Eng.; Mr. F. Blackwell, of Toronto; and Mr. and Mrs. Reginald Lockhart, of Toronto.

PHONE 1013

PETERBORO' U.F.O. CONVENTION

The following communication re U.F.O. convention was addressed to the Examiner:

In a recent issue of the Examiner a wrong impression might be conveyed as to the attitude of the United Farmers in regard to the political situation in this riding. Being by principle a co-operative organization, the United Farmers wish to co-operate with all other classes.

As farmers and producers we realize the needs of the consumer and for this reason, as well as others, we realize the need for our co-operation with other industries. The motto of the U.F.O. is "Equal rights to all and special privileges to none." As farmers, we are doing all in our power to carry on the reconstruction necessary following the war. We have confidence through this co-operation in the future of the nation; but it is necessary for all to do their part. By pulling together the desired end may be accomplished. A pessimistic view of the present situation is injurious to the welfare of the country as we believe that the resources of Canada, properly handled, are sufficient to meet all requirements and to make Canada's credit good on the markets of the world.

In speaking of Canada, we owe our war veterans the deepest gratitude for the part they have played. They have defended our homes and who more than they has helped to bring Canada to the front among the nations? If we were all to cultivate more real loyalty to our country and less of the variety which consists chiefly of flag waving and behind which there lurks the ever present idea to get all while the getting is good, it would be in the interests of all concerned.

To come back to the present situation in this riding, the convention called for the 28th was unavoidably postponed to the 11th of September. The farmers of West Peterboro, although a minority of the rate-payers of the county have no apology to offer for putting a candidate in the field. As farmers, we represent six townships. So far as our recollection goes West Peterboro has never in the past been represented by a farmer. Ig at the close of the coming bye-election we should find ourselves for once represented by a farmer. If at the close of the coming not, however, and is not now the intention of the farmers to control the Government. We merely wish a fair representation on the floor of the House at Ottawa.

In view of these facts and in view of the situation in general the U. F. O. candidate will not be tagged onto any political party. He will run simply as a U.F.O. candidate.

W. R SHIELDS,
County Director.

ANOTHER WAR OVER.

General Semenoff's Adventures in the Far East Have Ended.

(Canadian Press.)

LONDON, Sept. 8.—General Semenoff's adventures in the far east have ended, and his troops, under General Lokhvitski have gone over to the government of the Russian Far Eastern Republic, according to a wireless despatch from Moscow. Semenoff's entire gold reserve is said to have been captured and handed over to the Vladivostok government.

MEDICAL INSPECTOR FOR LOCAL SCHOOLS

DR. A. W. M'PHERSON ENTERS A NEW FIELD OF LABOUR

Dr. A. W. McPherson, B.A., is resigning as Medical Officer of Health after serving in that capacity since June of 1909. He is leaving the Health Department with only one case of contagious disease on its hands. The Isolation Hospital has been closed for over a month this summer, and was opened only to admit two cases from North Monaghan.

Dr. McPherson first came to Peterborough in 1899 as a teacher at the Collegiate Institute. He taught there until 1903, when he entered the medical course at the University of Toronto, graduating in 1907. He served in the Toronto Isolation Hospital for 8 months, and in the Hospital for Sick Children in Toronto for a year.

He returned to Peterborough in the fall of 1908, and began practice. In June of 1909 he was appointed Medical Officer of Health. He served in this capacity until he went overseas in 1915. He was in charge of the Bromley Convalescent Hospital in England for a year and saw service in France as a medical officer.

On his return to Canada he was appointed Inspector of Military Hospitals in Military Districts 1, 2, and 3, and later was transferred to Eastern and Western districts.

On being discharged from the Army in July of 1919 he resumed his practice here, and the position of Medical Officer of Health.

During his service as Medical Officer of Health the city has seen the inauguration of a Sanitary Department, garbage and ash collection, various by-laws in regard to sanitation, such as the inspection of milk and bakeries, and the inauguration of a laboratory for the testing of the city water.

Dr. McPherson is resigning to accept the position of Medical Inspector of the Public Schools, as he is especially interested in work among the children.

He will be succeeded by Dr. T. W. H. Young.

LIEUT.-COL. T. W. H. YOUNG
Appointed Medical Officer of Health by the City Council. Dr. Young's experience includes seven years as member of the Board of Health, with two years as chairman.

VOICE OF THE PEOPLE

Editor of The Examiner:

Dear Sir,—I note by yesterday's Examiner that a number of people have landed in Peterboro from Scotland with a view of becoming permanent residents here. As a commencement to probable residence here I would suggest a royal welcome be given and that the function be held in one of the central churches in the auditorium where the welcome could be given for the city by the mayor, by the Ministerial Association and some prominent farmers from the townships, and perhaps the U.F.O. and others. There would also be music.

Afterwards an opportunity to meet them and a cordial hand shake and a personal word of welcome.

I make these suggestion as a possible welcome to them, also that a sufficient number of persons having motor cars would give them a sightseeing drive round the city. One thing more: Some of the leaders in Peterboro would require to take action.

J. RIDDELL.

RUSSIAN SOVIETS RECAPTURE OMSK

GERMAN AND HUNGARIAN WAR PRISONERS UNITE WITH BOLSHEVIK FORCES

(Canadian Press)

HARBIN, Manchuria, Sept. 8. — Russian Soviet forces, aided by German and Hungarian war prisoners, have recaptured Omsk, where, as in other towns in Western Siberia, the peasants recently overthrew the Soviets.

The Bolsheviks also are in possession of the northern portion of the railway, along which fighting has been proceeding, but they are isolated and without food. Peasant population of villages along the railroad have evacuated, taking with them cattle and foodstuffs, and traffic proceeds only with the greatest difficulty, under guard of the former Austrian and German war prisoners.

Confirmation has been received here of a revolt against the Bolsheviki in the Ust-Kamengorsk region.

Altai Province has been cleared entirely of Bolsheviki.

FRUITS OF THE FIRE DEPARTMERT INVESTIGATION

FIREMEN TURN OUT AND SHOW A LITTLE PEP IN LADDER DRILL

The fruits of the recent controversy over the Fire Department were manifest this afternoon when the firemen were summoned from their seat under the "Palm Tree" on Aylmer street for the express purpose of indulging in ladder drill. The night platoon was summoned through the medium of Box 25, which turned in an alarm at 2.30 o'clock. It took the men several minutes to get over the surprise of being called out for drill purposes, but when they recovered from the first shock they started in to amble up and down the ladders and go through the motions of ladder drill.

The ladders were placed against the hose tower at the Central fire station. This was followed by hose drill. The men laid a line of hose from a hydrant on Simcoe street near Bethune street and had the water running in five minutes and ten seconds from the time the hose wagon left the fire station.

DR. A. W. McPHERSON

Autumn 1920

ANNOUNCING OUR FORMAL SHOWING OF

Fall Merchandise

THURSDAY, FRIDAY AND SATURDAY

MILLINERY

Great breadth through the sides and a general shortness of line from front to back still characterizes the fall millinery models.

Crowns continue low and capacious. Many are beret shape and many are in sectional pointed Chinese styles. Velvet crowns with felt brim and velvet crowns with feather brim are strongly featured. Cloche shapes in medium size dominate. Turbans are also conspicuous, however, especially the boat shape. The Egyptian and Hindu turbans are still in good repute.

Marked irregularity of brim is characteristic of many of the newest models, the brims rolling gently away from the face across the sides and front, while across the back it is broad, straight and flat.

All hats continue to be worn extremely low over the forehead.

COATS

Wrappy coats, as a rule, are cut on dolman lines, although some follow the lead of Paris in the long straight silhouette and unbelted effects. Collars have received considerable attention this season, with the result that many types are shown. The predominating influence is in the cape collar style. Some of them reach to the waist and others barely cover the shoulders. Embroidery is a feature of many of the models that receive the most attention, and all the belts are narrow and are made of the fabric itself.

SUITS

In some lines a decided hip fullness is featured in suit coats. This is accompanied by pleating or godet gores often trimmed with braid or hand embroidery. Fur trimmed suits are highly favoured and an unusual variety of furs are used for collars, cuffs and panels. Among the furs most popular for suit trimming are squirrel, mole, opossum, seal or beaver and nutria.

Fabrics that have won favour for fall suits and coats are duvetyn, duvet de lain, velour de lain, silvertone, velour and nutria.

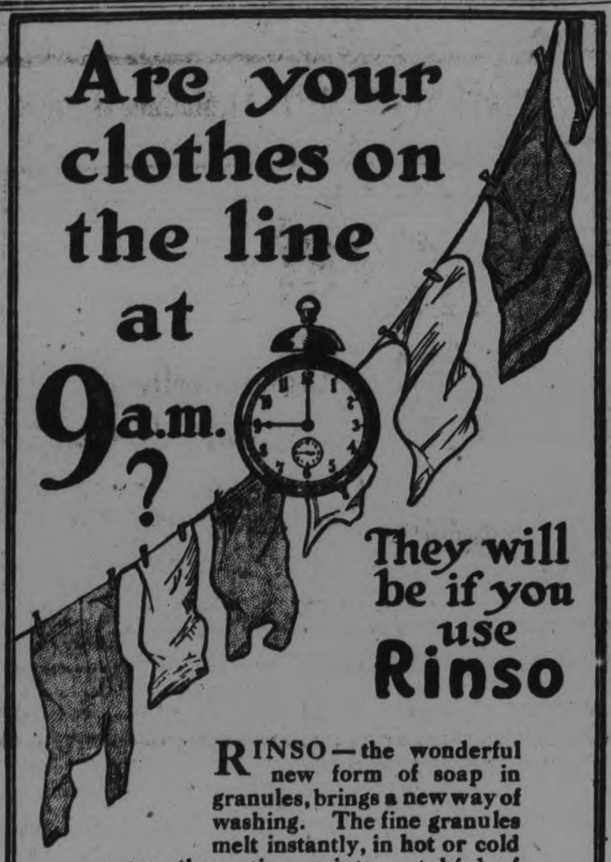
SILKS AND DRESS GOODS

In wool fabrics the great demand is for velours, duvetyn, gabardines, tricotines and tan and brown and green and brown homespuns. These are for suitings, of course, and the coatings are heavy cheviots, heavy wool velours and duvetyns. Such colours as grey and black and tan and brown are well spoken of. Navy blue is a favourite as usual.

Satins and taffeta vie with one another for supremacy, and for evening wear the colours are to be pink, turquoise, Chinese blue and emerald. For afternoon frocks there is no restriction as to colour but there is a marked partiality to the darker tones.

The GRESSMAN Company Limited

Are your clothes on the line at 9 a.m.?



They will be if you use Rinso

RINSO—the wonderful new form of soap in granules, brings a new way of washing. The fine granules melt instantly, in hot or cold water, they stir up into a tubful of sparkling suds. You soak your clothes overnight, or for three hours in the morning — and rinse them. They're clean. No boiling. No rubbing. No other soap needed.

One package of Rinso does the week's wash. Harmless as pure water itself. Get a package to-day.

REVOLTS SPREADING.

Disturbances Are Directed Against the Soviet Government.

(Canadian Press.)

LONDON, Sept. 8.—Several serious revolts against the Russian Soviet government have broken out in the neighborhood of Moscow and have been suppressed with much bloodshed says a despatch filed in Copenhagen yesterday. It quotes telegrams received in that city from Riga.

The Great French Tonic "VITAL" TABLETS

Makes Men and Women Strong. Go to Your Druggist and Get a Box and Be Healthy.

Since the introduction of VITAL into Canada the sale has been phenomenal. VITAL is purely a tonic—it builds up the run-down system, creates a new lease of life. Everybody should take a tonic. The only question is what to take. You can rely upon VITAL as one of the greatest, if not the greatest, that man ever prescribed. Every Tablet of this wonderful French tonic contains life. Your nerves are toned up to their proper tension. The stomach and the bowels are made healthy and strong, while the kidneys and the liver are cleansed and put in good working order. Headaches, biliousness and all blood impurities are at once removed. The skin becomes clear and healthy. VITAL, in short, will change your whole system, making it pure and healthy. Your druggist will refund your money if it fails. Price 50c a box.

STILL GIVING WHISKEY AWAY

TIME-WORN STORY POPS UP IN POLICE COURT AGAIN

Liquor figured prominently in the police court this morning, and two citizens are less wealthy as a result of the police interrupting their imbibing in a way that is becoming rather disconcerting, to say the least, to the friends of Spiritus F. Booze. One man paid $104.10 for having the forbidden fluid in a place other than his private residence and another was assessed $19.10 for intoxication.

Crown Attorney Hatton examined both in an effort to find out where they got the liquor but they frustrated his efforts with the time worn story of meeting an unknown philanthropist, who took them to a secluded spot, presented a bottle, and then disappeared in the oblivion from which he came.

There are said to be 30,000 dependent blind persons in England.

A Mescosta, Mich., man was fined because, while drunk, he attempted to kiss an 80-year-old woman.

Dr. Jesse E. Green, Westchester, Pa., who died recently in his 103rd year, is claimed to have been the oldest insured man in the United States. When written his policy was for four figures and during his long life increas-

LOCAL BOARD FOR MOTHERS' PENSIONS

CITY WILL APPOINT TWO MEMBERS AND PAY HALF THE COST

The Mothers' Allowance Commission notified the Council last night that the Mothers' Pensions Act takes effect on 1st October, and asked that the names of citizens, including women, be submitted from whom a local board of five members would be selected—two by the city and three by the Commission. At least two of the five members shall be women.

Ald. Hamilton proposed the names of J. J. Hartley, Mayor McIntyre, and Mrs. W. R. Morris; Ald. Gordon named Sidney Whatley, Rev. C. J. Phelan, and Mrs. Nina E. Frederick; Ald. Crowe submitted the name of Mrs. Joseph Mills; and Ald. Gainey named Thomas McMurray and Mrs. J. V. Gallivan.

In the end, this detail of business was referred to the Finance Committee, on Ald. Gordon's motion, seconded by Ald. Jones.

"WORLD AFLAME" AT THE GRAND

GOOD VAUDEVILLE AN THE GRAND THIS EVENING

One cannot recall any serious film drama of quite such interest to every element comprising the vast constituency of the silent stage as "The World Aflame," seen last night at the Grand Theatre, with Frank Keenan as star. Primarily, it is a play for thinkers, a play with a message, but at the same time, it is a play for those whose craving is satisfied with straight drama, the drama of tense situation, of vivid and incessant action, the drama with the heart-touch and the love interest.

It is the third offering by Mr. Keenan since he has become an independent producer, and every minute of its run denoted the master hand, every scene attesting to the care which one may not only expect from but demand of an accomplished actor and stage technician as Frank Keenan is. Summed up, "The World Aflame" is one of the strongest features yet released by Pathe Exchange, Inc., which will handle all the Keenan productions.

Mr. Keenan has chosen his offering at a most propitious moment. Nothing more timely has come before the notice of the film fans. The story of "The World Aflame" is a panoramic thesis on industrial conditions of the country to-day. It is a problem play which does not lower its curtain with the mere expounding of the problem, but goes further in that it supplies the answer to the problem in an undeniably convincing fashion. The nation's big question now—Secretary of State Lansing, in the last speech he made just before leaving Paris, said: "the world is facing great peril"—is that of employer and employee. "The World Aflame" visualizes Mr. Lansing's words.

Of splendid continuity in telling, "The World Aflame" is the story of Carson Burr, a millionaire manufacturer, who has foresight. Because his city is misgoverned, he runs for mayor and is elected. A nation-wide strike threatens to have its incipiency in his city. Not only does he quell the unrest, but he abolishes the cause of all strikes for all time, by adopting the system of profit-sharing in his own plant and inducing all other extensive employers of labor to do the same thing. Meantime his secretary and chief aide in the dark times of menacing revolution, his former valet, who earned promotion because he was such "a good servant," had fallen in love with the mayor's attractive young daughter. The love story of this wooing and winning in itself is an entertaining play.

Mr. Keenan's individual performance is all that one might expect of him. His supporting cast is carefully chosen and gives most satisfactory backing. His "big scenes"—the attack of the alien disturbers, in their effort to corrupt American workingmen, the repulse by the arrival of soldiers, and the midnight visit of the mayor to the secret headquarters of the Reds—are done with lavish precision. Experienced judgment compels the verdict that "The World Aflame" be declared one of the great film hits of the current season.

Three good acts of vaudeville will also be included in the above programme.

The Genuine Original

Kellogg's

TOASTED CORN FLAKES

Nut-like kernels of sweetest corn, cleanly pan-cooked, ice-cooled and flaked, then touched with a flavor like honey, and toasted to a turn.

London the home of Kellogg's

These games must be played off by Saturday, Sept. 18th.

Names in these draws have been chosen from those who have been active members during the season. If any whose names do not appear in this list and who desire to play will notify the captain their names will be posted in the present draw.

LOCAL LAWN BOWLING TOURNAMENT

The local tournament which was held last week was a decided success. Ten rinks took part, including two from the Brinton Carpet Co. Club.

The rinks were very evenly matched and some close and exciting games were witnessed.

The honors of the tournament fell to Tom Pratt's rink, who defeated Jack Fitzgerald's rink in the final of the primary event. The Consolation event was won by Jack Mayneord's rink who defeated George Cairns in the final game, after a very close and hard fought battle.

The tournament was so much enjoyed by the players that it has been decided to put on another this week, the only difference in the rules being that the vice-skips will take charge of the rinks. The draw was made last (Tuesday) night and is posted in the club house. Play will commence to-night (Wednesday) at 7 p.m. Players are requested to be on hand at the hour mentioned. The prizes for last week's tournament were all donated by the members of the club, so that the fees, approx., $20, have been placed to the club's credit.

The draw for to-night's games is as follows:

Preliminary round:
W. Dayman vs. H. McCusker.
First round.
Dr. Holloway vs. winner of Dayman-McCusker game.
Ed. Taylor vs. Dr. Craig.
R. J. Soden vs. D. H. Moore.
J. C. Read vs. R. Elliott.
Games called at 7 p.m., sharp.

GETTING READY FOR THE RUGBY SEASON

The prospects for the return of rugby in Peterborough are brighter than for some time. The Peterborough Amateur Athletic Association had plans for a city rugby league under consideration, and a meeting of the rugby enthusiasts of the city is called for Friday evening at 8.30 o'clock in the Board of Trade Rooms to form a rugby club, and consider means of organising a city rugby league. All those interested in rugby are invited to attend the meeting.

A meeting of the directors of the Peterborough Amateur Athletic Association will be held at 7.30 o'clock on the same evening in the Board of Trade Rooms.

The first church organ in Boston was put into King's Chapel in 1713, but so great was the prejudice against it that for seven months it stood unpacked in the vestibule of the church

There were 2828fatala street accidents in England and in Scotland last year.

Capt. Perpler, of the Portuguese steamer Mormugia, discovered after he had been at sea some days that there were 28 stowaways on board, and her crew only numbered 22.

Bewitching Maxine Lockwood, soubrette with the tuneful musical novelty, "MY SOLDIER GIRL," coming to the Grand Opera House Thursday night, September 9th.

SMOKE HOME FROM ANTWERP

PETERROROUGH MARATHONER'S CHANCES WERE KILLED BY A CARELESS BICYLIST

Disappointed that an accident prevented him from doing justice to himself in the big race, but having thoroughly enjoyed his trip across the pond, Albert Smoke, Peterborough's Olympic Marathoner, arrived home this morning, looking fit and well after his long journey.

Smoke's chances of winning points for Canada in the Marathon disappeared a few days before the blue ribbon event of the Olympic Games. While out with other Canadian runners training for the event, the Chemong boy was run down by a reckless cyclist, who did not even stop to see if anyone had been hurt by his carelessness. Smoke sustained two badly injured knees, and his prospects for victory in the Marathon went a-glimmering then and there. Every effort was made to get his legs in shape for the Marathon, but the time was too short, and although Smoke started and ran fifteen miles, he was travelling on his nerve alone, and he finally had to quit. One knee is not better yet, although Smoke thinks it good enough to enable him to start in the twelve mile race on Saturday at the Toronto Exhibition.

"I'll have something to think about all my life," remarked the Marathoner, in referring to his trip, which he said was a most enjoyable one, the members of the Canadian team being well looked after and given fine treatment. They spent six days in England on their way back.

"CROOKED STREETS" EXCITING

One surprise follows another in "Crooked Streets," the photoplay in which Ethel Clayton will be seen at the Allen Theatre for 2 days, commencing to-day. The scene is Shanghai and the central figure a resourceful young American girl, who is serving as secretary to an alleged collector of antique vases. In reality, he is engaged in opium-smuggling, and his guilt is established in a most dramatic manner and only after his youthful secretary has been involved in all sorts of romantic adventures. Jack Holt is the leading man.

"BABES IN THE WOOD"

Among the new faces in the cast of F. Stuart Whyte's fifth annual English pantomine, "Babes in the Wood," which comes to the Grand Theatre for one night on September 10, are Geo. H. Summers as Capt. Kidd, who has to quit piracy and take to the real estate business on account of the luxury tax; R. N. Hincks, who by the way is responsible for the book of the piece as "The Semi-Wicked Baron;" Victor Dyre as the "Very Wicked" Baroness, Tom Ellis, who came from London to do the part of Dick Turpin; Mona Warren, a charming and talented western girl who has made a name for herself in England, will appear as the Pineapple Boy. Included in last year's favorites who are with the company are wee Dorothy Mackay, who won such a warm spot in affections of local play-goers last year as Red Riding Hood and who will this year be seen as one of the Babes, in company with Madge Strachan, and last but not least, Charlie Gardall and Harriet Fawn, who se screamingly funny coster skit is well remembered here.

"MY SOLDIER GIRL"

When the brilliant musical spectacle, "My Soldiers Girl," offering an entire new version, makes its bow before local theatre-goers at the Grand on September 9th, the reason for the success of this popular musical play will impress itself upon the auditor at once. There is action both in music and dialogue from the rise to fall of the final curtain. Scenic beauty and gorgeous costumes delight the eye and tuneful melodies are abundant. It requires more than money or hard work or experience to prepare such a production as is to be seen in "My Soldier Girl." The excellent cast and bewitching beauty chorus help to make the performance complete, while the tuneful music is a tower of strength, since it is of the sort that makes the head "nod" and the foot "tap."

There are two acts—the first, opens at Miami, Florida, during a lawn fete, given at Colonel Stone's home in honor of "overseas" boys and girls, whom he had the pleasure of meeting his own personal service while "over act is an elaborate stage setting for tet is an elaborate stage setting for The Follies, which is in its final dress rehearsal and presents a shower of gold and silver. Nothing prettier has been produced than "My Soldier Girl" presents in its little story.

THE P. B. I.

A strong detachment of our infantry detrained this morning at the Feterboro rail-head and, after slight skirmishes with the Station Guards and minor engagements with the taxi-bandits, they advanced along George street valley in artillery formation. Following a short preliminary bombardment, the P.B.I. attacked and captured the Empress Ration Dump which position they immediately proceeded to consolidate.

Operation orders have been issued to all concerned and it is learned from the general's batman that the main attack will be launched at stand-to this evening. The troops will first bomb up Dort C.T. and then assemble on the Grand Theatre line. The P.B.I. will be in the jumping-off trench at least twenty minutes before zero hour and at two-thirty pip emma and eight-fifteen precisely an orchestra of all calibres will open up a heavy curtain-fire. Under cover of this barrage, the Poor Bloody Infantry will kick-off and drive home their attack with the utmost elan. It is confidently predicted that Gloom Strong-Point and Ennui Redoubt will fall before the first onslaughts of our shock-troops. The six subsequent jumps will be over-run under protection of a barrage of heavy laughter. The final objective in a history-making attack will be gained at 23.00 hours, when the show will be all over except for the cheering—and the wee tot of S.R.D. for the tripes.

Stuart Whyte's Fifth Annual Pantomime, "BABES IN THE WOOD," at the Grand For One Performance Only, Friday Night, Sept. 10th.

KITCHENER TAKES NO ACTION ON BELL RATES

Waterloo Endorses Memorial For Postponement of Hearing.

(Canadian Press.)

KITCHENER, Sept. 8.—City Council last night decided to take no action on the memorial of Toronto City Council petitioning the Dominion Railway Commissioners to defer hearing of the Bell Telephone Company's application for increased rates until such htime as the Ontario government can investigate the desirability of taking over the system as a publicly-owned institution.

The Council also declined to contribute toward the cost of opposing the Bell's application, the Canadian Unio nof Municipalities having assured Council a hundred dollars.

Waterloo's Council endorsed the Toronto memorial.

The bull and the cow are sacred animals to the Hindoo and are never killed for food.

OLD-TIME PRICES.

Lucium R. Dodge, of Milford, Mass., has kept an exact account of every cent he has earned and spent for personal or family expenses for the last thirty years. It shows these minimum prices: In 1889, butter 30 cents a pound; lard, 8 cents a pound; milk, 5 cents a quart. In 1884: sugar, 4 cents a pound. In 1897: eggs, 15 cents a dozen, eight dozen for $1.00. In 1893: flour $4.00 a barrel. In 1895: coal, $5.50 a ton. In 1905: potatoes, 50 cents a bushel.

I MUST BE GOOD.

I must be good, no matter how
I'm temtped or distressed,
I must get victory over sin
If I would find soul rest.

For peace of mind and rest of soul
Dwell's not where passions sway,
But in the pure and trusting heart,
When sin is put away.

NEW YORK STOCK MARKET

NEW YORK, Sept. 8. — Prices were generally irregular at the Stock Market opening to-day. Mexican Pet opened at 170 1-2 off 1-2; Crucible 123 3-4 up 1 3-4; Baldwin 110 unchanged; American Smelting Pet 1-2 unchanged; U S Steel 90 off 3-8; Sinclair 32 1-2 up 1-8; Can Pac 119 5-8 unchanged; Studebaker 62 5-8 up 5-8; Royal Dutch N Y, 88 3-4 unchanged; N Y Central 75 off 1-8; Republic Steel 85 unchanged at the end of the first hour. Traders were bearish and their hammering tactics brought Steel Common down to 90. Mex Pet after an easy run up to 171 1-2 lost all its gain. Sloss Sheffield sold up 1 1-2 to 72 3-4.

Despite continuing of short selling stock rallied easily when profession pressure was lifted. Baldwin, after getting down close to 109, rallied a point and Pan-American advanced one. Canadian Pacific ran up to 120 7-8. Other rails continued soft. American Smelting made an early high at 61 1-8.

FOREIGN EXCHANGE.

Mr. Peter Moffatt and daughter, Miss Janet, 176 Smith Street, have returned home after visiting friends in Toronto.

OBITUARY

MARION ALEXANDER YOUNG

Marion Alexander, relect of the late John Young, passed away on Tuesday, September 7th, at 7 p.m., at the residence of her son-in-law, Mr. Jas. H. Northey, 576 George street.

The deceased was the eldest daughter of the late Pennington and Isabella Alexander, and was 82 years of age, and until the time of her marriage had lived in North Monaghan.

She leaves to mourn her loss two daughters, Mrs. Tate, of Outlook, Sask., and Mrs. Northey, of Peterboro. Three sons, Alexander, of Smith; Andrew, of Lakefield, and William, of Calgary. One daughter, Mrs. Wm. Robinson, and two sons, John and James, predeceased her some years ago. Three sisters, Mrs. Walter Evans and Mrs. Jos. Hopkins, of this city, and Mrs. G. H. Winch, of Laredo, Texas, as well as one brother, Pennington Alexander, of Peterboro, also survive.

The deceased was a Presbyterian by religion, and won the good will and respect of everyone with whom she came in contact.

The funeral will be held on Friday, September 9th, at 2.30 p.m., from 576 George street, to Bridgenorth Cemetery, and will be conducted by Rev. Mr. Jall, of Lakefield, and Rev. Mr. Mallott, of Trinity Church.

WEDDING BELLS

COX—SMITH.

On Saturday afternoon in the Methodist Church, Oakville, a wedding of considerable local interest was solemnized, when Miss Carol Ecclestone Harland Smith was united in matrimony to Mr. Wilfred Maynard Cox, formerly of Peterboro, son of the late Aaron Cox, of this city, and nephew of the late Hon. George A. Cox, of Toronto.

The bride, who is the daughter of Mr. and Mrs. Harland Smith, is a well-known horse woman, having won many cups at New York, Toronto and other horse shows.

The guests at the wedding, which was one of the fashionable events of the season, included Mr. Keith Lech, of Peterboro; Mr. Herbert Cox, Mrs. Johns, of Cleveland, formerly of Peterboro, and Major Eaton, of Oakville.

ELLIOTT—KEARNEY.

The marriage took place at Knox Presbyterian Church, Thedford, on Saturday last of Creta Marie, daughter of Mr. and Mrs. M. J. Kearney and Mr. Edward Percival, son of Mr. and Mrs. E. M. Elliott, of this city. Rev. R. A. McGinnis officiating. The bride, who was given away by her brother, wore a simple, white satin and georgette gown, and a veil of white tulle, arranged with a coronet of rose buds, and carried a shower bouquet of ophelias roses. Miss Zeta Kearney, of Victoria Hospital, London, was her sister's bridesmaid and Mr. Charles Elliott, brother of the groom, was best man. The wedding march was played by Miss Bettie Ironside, of Thedford.

During the signing of the register Miss Viola Wight, of Thedford, sang "In the Veil of Arcady." A reception at the home of the bride's parents followed the ceremony, the guests including immediate relatives and a few close friends.

The bride's going away suit was of brown broadcloth with hat to match. After their honeymoon Mr. and Mrs. E. P. Elliott will reside at 64 Cameron avenue, Windsor.

LAW—STUART.

A quiet wedding took place at the home of the bride's parents, Mr. and Mrs. Archie Stuart, Cannington, on September 4th, when their youngest daughter, Flora A., was united in marriage to Mr. Lewy A. Law, only son of Mr. J. Law, Peterborough, by the Rev. J. T. Priest.

To the strains of Mendelssohn's wedding march the bride entered leaning on the arm of her father. She wore a travelling suit of brown, with hat to match, also ermine neck scarf, the gift of the groom. She carried a bouquet of roses.

They received many beautiful presents of silverware, cut glass and a check from the groom's parents, also an electric toaster from the post office staff.

After the ceremony the guests partook of a sumptuous wedding breakfast, after which the happy couple left for a short wedding trip. On their return they will reside in Peterborough.

THOM—BELL.

In Knox manse last evening at 8 o'clock the wedding was quietly solemnized, Rev. J. A. MacKenzie officiating, of James W. Thom, late of Glasgow and Mary Bell, who recently arrived in the city from Airdrie, Scotland. They were attended by Mr. and Mrs. John B. Tengel.

Mr. and Mrs. Thom will reside in Peterborough.

TIGHE—LONSBERRY.

This afternoon at 1.30 the wedding was solemnized in Knox manse, Rev. J. A. MacKenzie officiating, of Arthur George Tighe, of Detroit, and Mabel May Lonsberry, of Dummer township.

Mr. and Mrs. Tighe will reside in Detroit, for which city they left by the 3.20 C.P.R. train to-day.

EASON—McCLENNAN.

In Ottawa to-day in St. Paul's church, the wedding was quietly solemnized of David E. Eason, Superintending Engineer of the Trent Valley Canal and Clarice McClennan, daughter of Mrs. James McClennan, of Ottawa, formerly of Peterborough. They were unattended.

After a wedding trip to be spent on the Great Lakes, Mr. and Mrs. Eason will return to reside in Peterborough.

RYAN—PICARD.

In St. Peter's Cathedral this morning at 8 o'clock a pretty wedding was solemnized, Rev. Father Phelan officiating, when Agnes Picard, daughter of Mrs. T. Fredenburg, 374 McDonnell street, was united in matrimony to Thomas Ryan, son of Mr. Patrick Ryan, of Perth.

The bride was prettily attired in her travelling suit of navy blue with taupe hat and corsage bouquet of sweetheart roses and orchids. Her bridesmaid, Miss Josie Picard, wore a navy suit and hat to match. The bride's mother was attired in navy suit with touches of red.

The groom was supported by Mr. Fred Flaherty. After the ceremony the guests returned to the bride's home where a sumptuous wedding breakfast was served. The guests included Mrs. Fred Austin in white crepe de chine, Mrs. Bert Hamilton in navy suit, Mrs Flaherty in black silk, Mrs. Frank Houle in grey crepe de chine, Mrs. Kemp in black satin, Mrs. A. McCall in blue voile with valenciennes trimming, Miss Pearl Kemp in navy suit, Miss Daisy McCall in blue silk, Mr. and Mrs. Bert Hamilton, Mr. and Mrs. Russell Houle, Mr. and Mrs. Harry Young, Mr. and Mrs. T. Fredenburgh, Mr. and Mrs. Fenton, Mr. and Mrs. Fred Austin, Mrs. L. Kemp, Mr. L. Kemp, Mrs. J. Sweeney, Mrs. A. McCall, Mr. Orville McCall, Master Max Fredenburgh, Master Charlie Sieber, Mr. Charlie Sieber, Miss Pearl Kemp, Mr. and Mrs. Flaherty, Mrs. Wilbert Kemp, Mr. Fred Flaherty, Miss Thelma Wright, Mrs. D. Rice, Miss Josie Picard, Miss Rita Flaherty, Master Joe Fenton, Miss Daisy McCall, Miss Nettie Young.

After a honeymoon to be spent in Toronto and Niagara, Mr. and Mrs Ryan will return to reside in Peterborough.

Twenty Years From Now
You will want good sight twenty years from now. But if you are going to have it you must not neglect your eyes now.
If your eyes pain, don't put off attending to them. Have Dr. Fowler examine them at once. If you need glasses he will prescribe the correct lenses to relieve your eye trouble.

VOL. XVLII. NO. 58 PETERBOROUGH, THURSDAY, SEPTEMER 9, 1920 PRICE: THREE CENTS

Several Members of British Cabinet Threaten to Resign

THE BRITISH GOVERNMENT WEATHERS ANOTHER CRISIS OVER MACSWENEY CASE

BRITISH CABINET REFUSES TO INTERVENE AND AUTHORIZE THE LORD MAYOR'S RELEASE.

GETTING WEAKER

(Special to the Examiner).

LONDON, Sept. 9. — Lord Mayor MacSweney was much weaker to-day, the twenty-eighth day of his hunger strike, according to a bulletin issued at the Sinn Fein headquarters here.

"The Lord Mayor spent a very bad night," the statement said. "He complained of giddiness and numbness. The doctors consider him much weaker than yesterday."

In the face of increasing public pressure, the British Cabinet has again refused to intervene and authorize MacSweney's release. The decision was said to have been reached after a threatened Cabinet crisis, in which Chief Secretary Greenwood, Viscount French and Sir Nevil Macready offered their resignations.

A bulletin issued at noon said MacSweney was growing weaker and that his legs and arms were becoming numb. They were being massaged and bandaged.

(Canadian Press).

LONDON, Sept. 9.—A noon bulletin issued by the Irish Self-Determination League regarding the condition of Lord Mayor MacSweney stated that signs of atrophy of the skin had appeared, and that as a consequence the Mayor's arms were being massaged and bandaged. He is said to be much weaker.

RALLY SUNDAY AT ST. JOHN'S

REV. R. A. HILTZ WILL CONDUCT ALL SERVICES NEXT SUNDAY

All services at St. John's Church on Sunday will be conducted by Rev. R. A. Hiltz, M.A., of Toronto. Mr. Hiltz is the capable general secretary of the Religious Education Board of the Church of England in Canada. Sunday morning he will preach to the heads of families on Sunday School work, the duty of the Sunday School and its importance to the church in general. In the evening the reverend gentleman will address himself especially to young people on their duty to their church through the Sunday School, and their religious responsibilities in the parish to which they belong. Mr. Hiltz will conduct a general children's service in the afternoon, to which all are cordially invited.

The Rev. R. A. Hiltz is one of the most forceful and interesting Anglican speakers in Canada, and church men and women should avail themselves of this opportunity to hear him on this Rally Sunday in St. John's Church.

GOOD EYES INCREASE PRODUCTION.

The need of to-day is increased production, but if your eyes are not efficient you cannot do your share. If your vision is poor or if you cannot comfortably stand working or reading for any length of time, your eyes need attention. See W. H. Lacey, Optometrist, 410 George St.

ACCIDENTS CLAIM FOUR TIMES AS MANY AS WAR

CHICAGO, Sept. 9.—Every year about one-tenth of the total population of the United States falls downstairs, gets run over, trips into open manholes, leans too far out of the window, peers into a gun that is supposed to be unloaded or, to cut it short, drowns. The result is that 11,437,000 persons are injured every year. Also 10,000 are killed accidentally every year. All of which and more came to light to-day at the Health and Accident Underwriters' conference at the Hotel La Salle.

During the war 31,000 Americans were killed in battle, whereas right at home with no battle going on 126,000 Americans died of accidents during the same period, according to figures produced at the conference.

DEPUTY REEVE SAYS TORONTO IS ALL HOG

LINDSAY'S COUNCIL DISCUSS INCREASE OF PHONE RATES

"I move that we ignore that communication. Toronto is all hog, and besides they did not help other municipalities out in the matter of the retention of police court fines."

The foregoing are the remarks of Deputy-reeve O'Reilly in Lindsay's Council's last regular session, in reply to an invitation from Toronto's City Council that Lindsay's civic body unite with municipalites in opposing the proposed increase in Bell phone rates.

Mr. J. J. Tilly, the company's local manager, was in atendance, and presented the Bell's case.

Council deferred action until Monday next, when the following draft of a resolution submitted by Mr. Tilley will be considered;

"That in view of the high cost of labor and material it may be reasonable that the Bell Telephone Company shall be permitted to increase its rates in harmony with the general increase of other prices, and whereas a fully developed and adequate service is of first importance to any community and whereas the Board of Railway Commissions for Canada has been created for the express purpose of controlling the rates charged by public companies, including the Bell Telephone Co., this council is of the opinion that it should be left to such Board to determine what, if any increase is necessary, but the council demands that the Board shall make a thorough and exhaustive investigation before deciding, and shall see that the charges of the Company be equitably distributed throughout the territory within which it operates.

JUDGE FOR LOCAL PLOUGHING MATCH

MEETING WILL BE HELD IN THE COURSE OF FEW DAYS

President W. J. Cleghorn, of the Ploughmans' Association of the County of Peterborough, has received word from Mr. James MacLean, of Richmond Hill, that his services are available as judge at the ploughing competition and his name will be brought before the directors for their consideration at a meeting to be called in a few days, and if approved by the directors, the ploughmen are assured of a square deal at the big match to be held at J. Smithson's and Sons at a date to be decided in a few days.

PIMPLE CAUSED DEATH.

A sad death occurred in Smith's Falls last Saturday when Miss Mary Winnifred Lee, daughter of Mr. and Mrs. Edward Lee, succumbed to blood poisoning, developed from a small pimple which appeared on her lip and although everything was done to prolong her young life, it was in vain. The deceased was twenty-one years of age and a general favorite.

PRINCESS PAT WAR HERO SHOT HIMSELF BECAUSE HE THOUGHT HE WAS A BURDEN TO THE COMMUNITY

HE WAS SENT HOME LAST MARCH AS A HELPLESS BIT OF WAR DEBRIS—ALLOWANCE FROM THE CANADIAN GOVERNMENT WAS STOPPED—THE WIDOW'S LAMENT.

CHICAGO, September 9. — Every morning John Hoar's wife wheeled his chair to the front window, so that the sun would warm his body, or what was left of it. For a burst of minenwerfer in a shell hole on the Somme, almost in the shadow of the Cathedral Amiens, had shot off John's two legs. He had joined the Princess Pat regiment in Canada before America had decided to go in.

John's wife would kiss him and tweak his nose and kiss him once more, and hurry away for the elevated to go down to the State street department store where she worked. They lived in two small rooms in a light house keeping apartment. Theirs had been what one might call a war romance. They were engaged before John went away on the great adventure. He was sent home last March as a helpless bit of war debris. Catherine Menrath, loving him even more, insisted that they be married, and they were. She went to work.

"But I don't feel it's right; I'm selfish, Kitty," he used to protest. "You are working your fingers off for me. I'm no good now. Just like a baby, I am."

She did not pay any attention. She loved him.

But yetserday, while she was away at work, John was handed a letter by his landlord. The letter made John more helpless than ever. The Canadian Government authorities at Ottawa, said the letter, had decided to stop his disability allowance of $85 a month. The $85 had helped a lot, too, because Kitty could not make very much. John got out his war medals his M. M., his D.C.M., his Croix de Guerre. He smiled grimly.

Last night his wife went out for a visit with her mother. John thought of Vimy Ridge, when the Canadians blew up a whole mountain side of Germans; he thought of shell holes and the yellow Flanders mud, and boys sitting around drinking vin blanc, and singing. Then he thought of his Kitty working there down town, and he looked at the letter again—and turned on the gas. The police found his body in the morning.

"I gave my consent that he go to war," wept his widow to-day, "because he seemed to be so determined to do his part. I was quite proud because he wanted to do his share, and I promised to marry him when he came back. And I was even prouder when he wrote of the battles that he had been in.

"Then he was nearly killed. He was sent to England and returned to the United States last December. He came to Chicago in March of this year.

"'Well,' he said, 'Kitty, I suppose our plans are gone now.' There were tears in his eyes. I told him I did not think so, that he had made sacrifices and that I was ready to stand by our agreement. He said that he would not think of being a burden to me. But I insisted on keeping my promise. And now he's dead. He was my hero."

WANT SPECIAL SESSION TO AMEND "SANDY" BILL

DOMINION ALLIANCE SEND RESOLUTION TO PREMIER DRURY CALLING FOR IMMEDIATE ACTION—DEPLORE PERSISTENT RUM-RUNNING

TORONTO, Sept. 9.—A request that the Prime Minister of Ontario call a special session of the Legislature immediately to so amend the "Sandy" Bill as to permit the measure to be brought into force immediately was the subject of a resolution passed yesterday at a largely-attended meeting of the Dominion Alliance, at which representatives were present from every part of the Province. Reports were presented dealing with every phase of Alliance activity.

The Provincial Government was complimented upon the appointment of Rev. J. O. Spracklin as special officer in the Windsor district, but the amount of rum-running still being carried on was termed as a disgrace to Canada.

It was decided to co-operate fully with the Council of the Dominion Alliance in the effort to secure total nation-wide prohibition. The following resolution was unanimously adopted by the meeting:

"We view with much concern the present situation in the Province of Ontario in regard to the liquor problem. Rum-running upon the border is carried on to an extent that involves our national honour. The shipment of liquor within the Province upon orders sent to outside dealers has reached enormous proportions, and the ease with which liquor may be obtained under the existing law adds immensely to the difficulties of the enforcement of the Ontario Temperance Act, the sustaining of which the people of Ontario so emphatically supported last fall. The unexpected delay in the taking of a vote to prevent the importation of liquor, and thus the continuance of these unsatisfactory conditions, makes immediate action imperative.

"We believe that the bringing into force of 'The Act Respecting the Transportation of Intoxicating Liquor' (the 'Sandy' Bill), passed by the last session of the Legislature, will be of great value and aid to law enforcement and of substantial benefit to the Province.

"We would therefore respectfully request the Hon. E. C. Drury, Prime Minister of the Province of Ontario, to have a special session of the Legislature called forthwith, and to so amend Section 10 of the said 'Sandy' Bill as will permit that excellent measure to be brought into force immediately."

LOCAL ENGINEERS ATTEND GATHERING

TWELVE REPRESENTATIVES TO GO FROM PETERBOROUGH

The Engineering Institute of Canada are holding their seventh Ontario geneneral professional meeting in Niagara Falls at the Clifton Hotel, beginning on September 16th The meeting will extend till the 18th. Some twelve members from the Peterborough branch, with their wives and lady friends, will attend the meeting, and apart from the professional knowledge to be derived from the three days' meeting they look forward to an excellent program for their entertainment at the Falls.

The engineers' interests will be chiefly centred on the construction and design of the new Welland ship canal, the Queenston-Chippewa power development (both of which are now under construction), and the several power plants on the American and Canadian sides of the Niagara River. The engineers have chosen well in selecting Niagara Falls as the meeting place this year for from both an engineering and scenic standpoint it is unsurpassed in the Dominion.

WILL INCREASE THE COST OF THE BRIDGE

NEW FREIGHT RATES WILL ADD ANOTHER ITEM

The increased freight rates will add another item to the mounting cost of the Hunter Street Bridge, several of the Aldermen reported last night. For the quantities of cement alone that are required for the main arch and for the completion of smaller arches, it was stated that the extra freight charge would be appreciable. The City Council is preparing a new money by-law which will be presented to the people in a short time.

BIG IMPROVEMENT IN WATER SUPPLY

RECENT TESTS SHOW DECREASE IN ORGANIC MATTER

A decided improvement in the city's water may be expected soon. This is a welcome bit of information to the citizens who, since June have been drinking water that, because of its impurity, has been chlorinated to a degree that was never anticipated would ever be required a few years ago; R. L. Dobbin, waterworks superintendent advised The Examiner to this effect this morning.

Tests during this week have shown a decrease in pollution, and with cooler weather coming on and the army of cottagers that have left or are leaving the upper lakes, Mr. Dobbin is confident of an improvement and lessening of the chlorination.

MAY LIVE SEVERAL WEEKS.

Dr. Ruth Lightall Claims to Know by Experience.

(United Press.)

CHICAGO, Sept. 9.— MacSweney may live several weeks longer, says Dr. Ruth Lightall, who went on hunger strike when arrested as a pacifist in 1919.

LAST OF DAYLIGHT SAVING SATURDAY

(Canadian Press)

TORONTO, Sept. 8.—The Board of Control decided to-day to revert to standard time on Sunday morning, Sept. 12th.

GRADUATING EXERCISES.

The graduating exercises of St Joseph's Hospital Training School, class 1920, will be held at St. Alphonsus Lyceum at eight o'clock on Thursday evening, September 16th. A cordial invitation is extended to friends and parties interested.

Hundreds Perished

EARTHQUAKE IN ITALY MORE SERIOUS THAN AT FIRST ANTICIPATED

(Canadian Press.)

ROME, September 9. — More than five hundred persons perished in an earthquake disaster which shattered cities and villages north of Florence, on Tuesday morning.

Governmental and private relief agencies are at work aiding the survivors and searching the ruins for any victims who may still be alive. The work is seriously handicapped by the difficulty that is experienced in reaching many of the towns which are situated in the mountains and are almost inacessible. Electric light wires have been broken and the work in the ruins must stop at nightfall.

Fifty dead victims were taken from the ruins of the town of Barga.

(Canadian Press)

FLORENCE, Sept. 9.—The number of dead from Tuesday's earthquake is steadily growing. The latest advices from Fivizzano bring the total dead there alone up to 432, while in Vignatta 454 are dead and a thousand injured. In nearly three scores towns and villages serious damage was done and the total population of more than ten thousand rendered homeless.

Emilia embraces the district of Detown Apennines and River Po, and is divided into eight provinces of Placenzia, Para, Reggio, Modena, Bologna, Ferara, Ravenna and Forlio. It covers an area of nearly eight thousand square miles, and has a population of about two and a half million.

THE PASSING OF HAWAII'S NATIVE S

(Canadian Press.)

HONOLULU, T. H., Sept. 9. — Hawaii's native race will be extinct in 75 years if the ratio of births and deaths set by the official figures for the fiscal years 1919-20 is maintained. This is indicated by the report of Dr. F. E. Trotter, president of the territorial board of health which shows that during the year the deaths of pure-blooded Hawaiians totaled 1,009, while there were 676 births.

There are approximately 25,000 pure-blooded Hawaiians living on the Hawaiian islands, according to estimates. Reports for past years show decreases in their numbers.

In marked contrast with the evidence that the Hawaiians are membrs of a "dying race" are the vital statistics dealing with those who represent mixtures of Hawaiain with Caucasion and Asiatic blood.

Of the Caucasion-Hawaiians, 249 died during the last fiscal year, while there were 699 births in that section of the territory's population. The Asiatic-Hawaiian strain — principally Chinese-Hawaiian — recorded 103 deaths and 491 births.

The natural increase in the Japanese population of the territory during the year was 3,366. During the year there were 4,963 births and 1,597 deaths among the Japanese.

MOVIE STAR ILL.

Wife of Jack Pickford is Afflicted With Mercurial Poisoning.

(United Press).

PARIS, Sept. 9 — Olive Thomas, movie star, wife of Jack Pickford, is very dangerously ill from mercurial poisoning.

TO TAKE ACTION AGAINST DEALERS PROFITEERING BY NEW RAILWAY CHARGES

HON. F. B. CARVELL PROMISES SPEEDY ACTION— WILL WATCH THE COAL DEALERS.

PUBLIC INTERESTED

(Canadian Press.)

OTTAWA, Sept. 9.—Hon. F. B. Carvell, Chief Commissioner, Board of Railway Commissioners, with respect to a statement appearing in the press that certain coal dealers had stated that they would have to raise the price of coal 30 cents a ton on Monday, when the new freight rates become effective, stated that the greatest possible increase which could take place on coal coming into Ottawa as a result of the railway rate decision would be 15 cents per ton, and therefore if any dealer increases his price more than that amount, it was profiteering, pure and simple.

Mr. Carvell stated that in consideration of the tremendous cost of coal at the present time, the Board had granted the railways an increase in freight on this commodity less than one-half of what it should have been, to be fair to the railway companies, and if any person could bring him a clear case of any merchant adding to the price of coal even one cent more than the actual increase in freight rates, speaking for himself, he was willing to discipline him, even to the extent of refusing him any more coal for the remainder of the season, which he claims the Board has power to do under the recent legislation.

Mr. Carvell was very emphatic there would be no provteering with the freight rates as an excuse, anyway.

A BIG HOWL.

OTTAWA, Sept. 9.—From all quarters of Canada come intimations that various public bodies, stunned by the size of the increases in rates given the railroads by the Dominion Board of Railway Commissioners, will join in the appeal to the Governor-General in Council from the judgment making the increases effective from 13th September next.

The judgment expresses the opinion that "the people, in the light of the actual facts, will cheerfully contribute their quota in order to keep these utilities in a position to transport efficiently the business of the country."

It is variously estimated here that the country will be called upon to "put up" an amount from $150,000,000 to $200,000,000 in increased freight rates and indirect increase of commodity prices for this efficiency.

MONTREAL HAS 801,216.

Fifth City in Population in North America.

MONTREAL, Sept. 9.—Statistics compiled for the new issue of the city directory give Montreal a population of 801,216, showing it the fifth largest city on the North American Continent.

The Washington census bureau shows Detroit to be the fourth largest, United States city, with 993,739, and Cleveland the next in size, with 796,836.

SUGAR PRICES STILL ON THE TOBOGGAN

PROSPECTS ARE THAT IT WILL GO MUCH LOWER.

TORONTO, Sept. 9. — Sugar refiners are slowly letting out sugar to Ontario consumers at lowered prices. Around $21 was the wholesale price in Toronto yesterday, but some stores are advertising plenty at 21 cents retail. On the other hand one wholesaler admitted to selling a quantity at lower than $20, and also that there is a real prospect of a decided drop shortly.

Chicago houses are advertising sugar as low as 11 cents a pound, and with duty and exchange, this might mean that Toronto consumers should pay around 15½ cents. Some wholesalers are not able to get rid of their stocks here, because consumers have stopped buying until the price is lowered. At least one firm took a severe loss in sugar during the past month.

COAL PRICE TO RECEIVE BOOST

TEN TO TWENTY CENTS A TON TO BE ADDED TO PRICE

The price of coal will be increased from 10 to 20 cents a ton in consequence of the increase in freight rates, local coal dealers told the Examiner to-day. The increase will depend upon the distance of haulage.

Coal in Peterborough is now selling at from $16 to $19 a ton, the price being influenced by the method of transportation and whether the coal is secured from independent operators.

The coal situation remains practically unchanged, and with the exception of the greater car shortage which will result when the transportation of grain begins, there is little likelihood at present of a great change before the closing of navigation on the Great Lakes.

INCREASE FOR PETERBORO' MEN

NEW WAGE AWARD ON RAILWAYS WILL BENEFLT ONE HUNDRED MEN

MONTREAL, Sept. 9.—It is announced that the Canadian National Railway has agreed to grant to the clerks, freight handlers, express and station employees on their staff the increased wages granted to this class of employees by the United States Labor Board award, allowing back time from May 1. This increase has already been agreed to by the Grand Trunk and the C.P.R., so that all the Canadian railways are now on an equal footing in this respect.

The acting grand president of the Brotherhood of Railway Clerks had an interview with the Minister of Labor in Ottawa last week, and it is understood that details of the award will be completed in time to allow of employees receiving the increase on their cheque for September 30.

The increase will effect about one hundred employees of the G. T. R. C.P.R., Canadian and Dominion Express clerks in Peterborough.

ALDEMEN FIGHT GRANT.

(Special to The Examiner)

WINDSOR, Sept. 9.—Three aldermen fight grant to the Dominion Trades and Labor Congress, meeting here next week.

WHERE TO GO TO-NIGHT

FIREMEN THREATEN TO RESIGN FROM FIRE DEPARTMENT

MEN WILL PRESENT ULTIMATUM TO THE CHIEF

Ten of the firemen who have seen long service with the Fire Department are preparing an ultimatum demanding redress of their grievances which they will present to Fire Chief Grange and the City Council and in event of the Chief and Council refusing to grant their demands before Wednesday next, the 5th, thy will resign from the Fire Department.

The ultimatum will be first presented to the Chief and if he refuses to recognize it, it will be presented to the City Council. Immediate action is demanded and the resignation of these ten old hands will follow if no action is taken before next Wednesday.

Refusal of the Chief and the Council to grant these demands will cause a serious situation to arise. These men are the most experienced of the Department, which already has five entirely inexperienced men on its staff as a result of the retirement of one man, the discharge of three others, and another being on two months' sick leave.

This action on the part of the men has come as a result of what they consider extremely unfair treatment at the hands of the City Council, which as its meting on Tuesday night, by adopting the report of the Fire, Water and Light committe, refused to hear the grievances of the firemen and the allegations of inefficiency in the Fire Department, thus leaving any investigation to the Fire Underwriters, the result of which, if the alleged inefficiency is found to exist, may be an appreciable increase in local fire insurance rates.

RUSSIAN REDS AGAIN DEFEATED BY POLES

SOVIETS WITHDRAW TO EASTERN BANK OF BUG RIVER---NOW HOPE FOR PEACE

(Canadian Press).

LONDON, Sept. 9.—Russian Bolshevik forces, fighting against the Poles south west of Brest - Litovsk, have evacuated the city of Hrudieszow, thirty miles west of the Bug River, under pressure from the Polish troops, says an official statement issued in Moscow yesterday. The statement admits that Soviet troops in that region have been withdrawn to the eastern bank of the Bug River.

Ready to Talk Peace.

(Canadian Press).

WARSAW, Sept. 9.—Letvia has given the necessary guarantees to the Russian Soviet Government, and as a result, the Bolshevik peace delegation will go to Rega to meet the Polish representatives, Prince Sapieha, Polish Foreign Minister, has been notified by George Tchitcherin. The latter, however, did not mention the date when the Soviet representatives would leave Moscow.

REPRIMAND FOR MAGISTRATE DUMBLE

CROWN ATTORNEY G. W. HATTON RETURNS THE COMPLIMENT PAID TO HIM A WEEK AGO

Magistrate Dumble left for Toronto without giving notice to the Crown Attorney, and this morning the Police Court was disorganized as a result. City Clerk Armstrong took the bench, and after the Crown Attorney had reprimanded the Magistrate for not giving notice of his intended absence, the case of assault brought by Mrs. Palmer against Mrs. Charge was enlarged until the 11th of the month.

FEATURE PICTURE AT ALLEN THEATRE

In "Crooked Streets," the feature picture at the Allen Theatre, which drew capacity houses last evening, Ethel Clayton does some of the cleverest acting of her career. Posing as Miss Ellis as secretary, she agrees to accompany a supposed antique hunter on a mysterious expedition to the Orint, where she tracks him and his family until, after some of the most exciting situations ever staged, she gradually runs his expedition, opium smuggling, to earth with the co-operation of a secret service man from England. A fight betwen the British secret service man and a drunken sailor for the possession of Miss Ellis affords some breathless moments for the audience.

NEW YORK STOCK MARKET

(United Press).

NEW YORK, Sept. 9.—There was a firm tone to securities prices, although fractional changes were registered by most issues at the Stock Market opening to-day. Canadian Pacific opened unchanged at 120; Anaconda 53 5-8, up 5-8; General Motors 21 1-8, unchanged; Sinclair 31¼, off 1-8; Retail Stores 67, off 1-8; Texas Co. 49, off 1-8 Crucible 122, off ¼; U.S. Rubber 85¼, unchanged; Mexican Pet. 167¼, up ½; Reading 92, up 3-8; Baldwin 108 5-8; U. S. Steel 89, up 1-8; American International 75, up 7-8; New Haven 33 3-4, unchanged.

Steel stocks were still under pressure, most of it apparently being directed by Bethlehem B. Rumors that plans of the United Fruit Co. call for a stock dividend causes United Fruit shares to climb while the rest of the market was reactionary.

EXCHANGE MARKET.

NEW YORK, Sept. 9.—Foreign exchange was steady at the opening today. Demand sterling opened at $3.53¼, unchanged; francs demand .0678, unchanged; lire .0434, off .0002; marks .0191, up .0002; Canadian dollars $.9060.

POULTRY AND EGGS.

NOTICE

In the Surrogate Court of the County of Peterborough

In the matter of the Guardianship of Muriel Esther Byers of the City of Peterborough, in the County of Peterborough, Infant.

NOTICE is hereby given that on Tuesday, the Fourteenth day of September, A.D. 1920, and after the publication of this notice in twenty consecutive issues of the Evening Examiner, Emma Elizabeth Cox will make application to the Surrogate Court of the County of Peterborough, before His Honour Edward Cornelius Stanbury Huycke, Esquire, Judge of the said Court, at the hour of eleven o'clock in the forenoon, in Chambers at the Court House, in the City of Peterborough, to be appointed Guardian of the said Infant and the said Infant's Estate.

DATED at Peterborough this 16th day of August, A.D., 1920.

CLERGY AGAINST DRY LAWS.

Anglican Synod in South Australia Opposed to Prohibition.

(Canadian Press.)

ADELAIDE, South Australia, Sept. 9.—Resolutions favoring prohibition were rejected by the Anglican Synod in session here. During the debate on the resolution, one of the speakers, Rev. Mr. Walker, said: "Prohibition is anti-Christian and the idea of American cranks."

HOME FOR V.C. HERO.

City Will Look After Pte. Richardson for Month.

TORONTO, Sept. 9.— The Board of Control this morning considered the question of providing a home in the city for Private Richardson, the 88-year-old V.V., who is now an inmate of the House of Refuge at Lindsay, but who formerly lived in Toronto.

It was decided that the city should take care of him for a month, pending some permanent arrangement being made.

TO MAKE HAIRS VANISH FROM FACE, NECK OR ARMS

(Beauty Culture.)

Keep a little powdered delatone handy and when hairy growths appear make a paste with some of the powder and a little water, then spread over hairy surface. After 2 or 3 minutes rub off, wash the skin and it will be entirely free from hair or blemish. This simple treatment is unfailing, but care should be exercised to be sure and get genuine delatone, otherwise you may be disappointed.

THE LATEST SCOTTISH STORY.

He was a Scot, and had got a "wee drappie to take home." Stowing the bottle away safely in his hip pocket, he started homewards, but, slipping on the frozen snow, he fell with all his weight. Picking himself up, and gently patting the snow off his clothes, he suddenly became conscious of something trickling down the back of his right leg—something wet.

For the moment his heart stood still, then, with soulful emphasis, he breathed, "I hope it's blood!"

Tombstones remind us that the average man is not as white as he is sculptured.

Too Fat?
EASY, HOME SELF TREATMENT
Overstoutness weakens, the liver becomes sluggish, fat accumulates, heart action becomes weak, energy fails, work is an effort and the beauty of the figure is destroyed.

Fat excess is unhealthy, it shortens lives of many. Don't allow your health to be ruined through a burden of unhealthy fat. *Become slender!* Spend some time daily in the open air; breathe deeply. Get from any druggist a box of Korein and follow Korein system simple directions that come with it. Weigh yourself and take your measurements every week. Continue reducing until you are down to normal. Korein system is absolutely harmless, is pleasant, and even a few days' treatment is likely to show a noticeable reduction. Legions of testimonials.

Korein system (pronounced *koreen*) has succeeded when other remedies, etc., have failed. It is the delight of those who wish to improve their figure and to acquire a young, active appearance. $100.00 guarantee that you reduce 10 to 60 pounds, (whatever you need to) or cost you nothing! Buy Korein at any busy pharmacy; follow directions. Or write for free booklet to Korein Company, 277 St. Toronto, Ont.

HOUSEHOLD RECIPES

Broiled Chops.

Wipe with a damp cloth, remove superfluous fat and place on a greased broiler over a very hot fire. Sear quickly on both sides, then reduce heat and finish cooking very slowly. Lamb or mutton chops should cook from 6 to 10 minutes, depending on their thickness.

Braised Mutton Chops.

Use thick rib chops for this dish. Cut on the sides and stuff with bread or opultry dressing. Fasten with skewers and brown quickly on both sides in hot fat. Place in a baking dish with one cupful of boiling water, season with salt and pepper and bake for 45 minutes.

Lamb chops from the forequarter are usually cheaper than loin or kidney chops as they have more bone. However, they have an excellent flavour and are tender and worth trying.

Lamb chops or lamb cutlets which are cut from the forequarter of lamb are delicious when fried in deep fat, or broiled. Season lightly with salt, pepper and dip in beaten egg and crumbs. Fry in deep hot fat for about seven minutes. Or to saute, dip in flour only and fry on each side 10 minutes. If desired broiled, do not cover with bread crumbs, or flour. Simply place on a greased broiler, or on a lightly greased frying pan and cook over a hot fire on each side for five minutes.

Casserole of Chops.

Sear the chops in hot fat in the frying pan, browning on both sides. Place one or two pieces of the meat in the bottom of a greased baking dish, then a layer of sliced raw potatoes, then a layer of sliced raw potatoes, then meat until both are used up. Season with salt and pepper, add one cupful of stock and hot water, cover and bake until tender.

MUFFINS.

Beat two eggs very light and add a cup of milk, a teaspoon of baking powder, a little salt, and a cup and a half of flour. Bake in muffin tins.

CAKE WITH RAISIN FILLING.

Mix half a cup of butter or butter substitute, half a cup of sugar, two eggs, half cup of mlik, and a cup and a half of flour. Then add two teaspoons of baking powder and half a teaspoon of salt. Bake in layers and put together with the following: Half a cup of seeded raisins, half a cup of boiling water, the grated rind and juice of one lemon, half a cup of sugar, and two tablespoons of cornstarch. Boil until thick, and when cool spread between the cake.

CUCUMBERS.

Pare the cucumbers and when pared draw from top to bottom a silver fork quite sharp. Now slice thin and lay in ice water for two hours. Serve with a French dressing.

SIX EXCELLENT WAYS TO MAKE BANANA DESSERTS,

If rice or potatoes are absent from the meal supply the necessary starch by using bananas in the dessert. Raw bananas are not generally to be commended for unless eaten very slowly and thoroughly masticated they are not very digestible, and few persons — especially children — eat them any way but rapidly. The best way to serve bananas raw is as a whip.

Banana Whip.

4 bananas.
4 tablespoonfuls of powdered sugar
2 egg whites.
4 tablespoonfuls of grape juice.

Carefully peel and scrape the bananas and press them through a sieve. Add the grape juice, sugar and stiffly beaten egg whites. Mound in sherbet glasses and serve well chilled. Garnish with a half walnut. This may be differently flavored—a half teaspoonful of almond extract may be used instead of the grape juice, or vanilla or some other extract or jelly

Fried Banana to Serve with Meat.

Cut the bananas crosswise in thick pieces, roll in flour and fry in deep, hot fat. Serve with a tart jelly sauce or plain with powdered sugar as preferred.

Banana Omelet as a Luncheon Dish.

3 bananas.
3 eggs.
½ cup of sugar.
½ cupful of bread crumbs.
Salt.

Mash the bananas, add the beaten egg yolks, sugar, breadcrumbs and salt. Lastly add the stiffly beaten egg whites, folded in, and cook in a buttered pan.

Banana Souffle.

6 bananas.
2 lemons.
1 pint of cream.

Mash the bananas through a sieve, add lemon juice and whipped cream. Mix well, place in a buttered baking dish and bake in a quick oven. This must be served immediately. If cream is not available the whites of eggs may be used instead.

Banana Pie.

1 banana.
3 eggs.
2 tablespoons of sugar.
1½ cupfuls of milk.
1 tablespoonful of cornstarch.
3 tablespoonfuls of powdered sugar

Have a pie crust ready baked. Mash the bananas and add the beaten egg yolks and the sugar. Dissolve the cornstarch in a little cold milk and boil with the banana mixture in a double boiler until thick. Fill a baked pie crust, add a meringue made of the whites of eggs, powdered sugar and a dash of vanilla, spread on top and bake in the oven until light brown.

Banana Croquettes to Serve with Chicken.

Use small, well ripened bananas. Cut them into two or three parts, depending on the size of the bananas used. Sprinkle with pepper and salt. Roll in beaten egg and cracker crumbs, and leave on ice for an hour. Fry in deep hot fat until brown. This is an appetizing and very delightful change from the potato accompaniment to meat and supplies the same nutritive value.

Solving Some "Chop Problems" Deliciously.

Although steaks and chops are the quickest meats to prepare they are by no means the easiest, and there are many experienced housekeepers who are excellent cooks but confess that they dare not attempt a steak. Chops are easier to handle, but steaks need to be watched carefully and broiled correctly or they are inedible. Steak broiling requires actually more skill than the preparation of many more complicated meat dishes.

Chops may be broiled over an open fire, or pan broiled, or they may be baked on casserole, or fried in breadcrumbs in deep hot fat. Broiling is about the most wholesome method as there is then no chance of absorbing any grease.

Breaded Lamb or Mutton Chops.

Wipe chops with a damp cloth, dip in beaten egg to which one tablespoonful of water has been added, then in fine bread crumbs and season with salt. Place in a frying basket and cook in deep fat, hot enough to brown a small bit of bread in 40 seconds. Do not try to cook more than three lamb chops or two mutton chops at a time. When the chops are seared on both sides reduce the heat a trifle so that the chops finish slowly.

WHY WATERMELONS ARE HIGH IN CITY

LIMITED DEMAND IN THE PETERBORO' MARKET FOR THIS CLASS OF FRUIT

A newspaper despatch from Baltimore states that watermelons are selling there at prices ranging from $2 to $10 a hundred. If this price is correct one hundred watermelons may be purchased there for about the same price as has been paid for one melon during the season here. The prevailing price for watermelons all summer has been $1.75 or $2. Now the season is just over and of a number of fruit stores visited this morning none had any in stock. A Charlotte street dealer stated that he bought his last lot several weeks ago in Toronto, paying $1.25 wholesale. When he paid the freight and then sold the fruit for $1.75 it did not leave him with a very large profit. Not only is the profit to be made on the melons small, but their perishable qualities must always be reckoned with Out of the last shipment, he declared, that his whole profit was practically wiped out by some of them spoiling.

Heavy freight rates, exchange and duty accounted for the wide margin between the Baltimore price and the Peterborough price. Freight on one car from that city would be about $500 To this must be added a 3 per cent. exchange rate and a duty charge of 3 cents a fruit are made at the border. That is why melons have cost so much in Peterborough this summer, and the high price has resulted in the citizens absolutely refusing to buy in any quantity. Days when all one could carry away could be had for 50 cents a piece are not readily forgotten by the watermelon lovers, and however much they might want to buy one, they have admired them more than purchased them, consoling themselves with the fact that in all probability they will be selling at a much lower figure next summer.

When watermelons sold at 50 cents the dealers paid 32 cents, including freight, and made, they declare, more profit than they do now.

The Jewish population of the world is estimated at 15,430,000. Poland and the Ukraine each have 3,300,000 while there are 3,100,000 in the United States, 900,000 in Russia, and 300,000 in the British Isles.

The "Cream and Sugar Taste"

When your favorite coffee is fresh and steaming—hot, delicious, savory—that's the time to try Borden's Eagle Brand and to experience the new, delicious and distinctive flavor which it alone will give.

Eagle Brand puts the "cream and sugar taste" into your coffee. And introduces a new economy too—costs less, lasts longer and keeps fresher.

The success of Borden's Eagle Brand in nourishing infants is shown by the great number of children who have been and are being brought up on it.

At all drug and grocery stores.

THE CAR THIEF SPEAKS.

"Any man who owns a motor car can make it practically thief-proof by the use of a really efficient lock. You hear great tales of automobile thieves who can pick any lock that ever was made, and probably a lot can, but none of them in his senses is going to bother with a car that is locked when right around the corner he can find one without the sign of a lock on it. Thieves aren't looking for extra work any more than honest men are. Put a good lock on your car and the chances are ninety-nine out of a hundred that it will never be tampered with, unless you insist on giving the thieves such an opening that their self-respect won't allow them to neglect it." Thus spake a man less than a month out of prison, where he served a term of three years for appropriating to his own use a motor car belonging to another member of the community.

When a widower begins to take dancing lesons it is a sign that he means to grasp another opportunity.

You Can't Afford To Miss This - - BIG SHOW

It is the Second Largest in Canada

If you haven't decided to spend Fair Week in Ottawa—do it now. There will be something to instruct and to amuse every minute of your stay. Besides, it is an excellent chance to visit your Nation's beautiful Capital—to see what the world is doing and to keep abreast of the times.

Ample arrangements have been made for all visitors

Visit the Ottawa Fair Sept 10th to 20th 1920

A Big Midway
Jam Full of Attractions

This feature is being improved every year. It will include such features as the La Rouse Electric Fountain—Over the Falls — Merry-Go-Round — Ferris Wheel—the Whip—the Tango Swing — the Monkey Circus — Aeroplane Carousal — the Submarine — Circus Sideshows—etc., etc. You are bound to find a lot that will amuse you here.

Some of the Many Attractions

Pure Food Show
Poultry Show
Dog Show Cat Show
Automobile Show
Baby Competition
Government Exhibit of War Trophies
Experimental Farm Exhibit
Balloon Ascension
Public School Exhibits
Rural School Exhibits

Big Night Show

Every evening before the Grandstand will be shown a really worthy entertainment, comprising high-class comedy and New York Hippodrome acts, a grand Spectacle Naval Battle of Dover, and the destruction of the German Raiders, a musical ride and manoeuvres by the Royal Canadian Mounted Police, ending up with a pyrotechnic display, under the supervision of the famous Hands Co., of Hamilton.

Mardi Grass Festival

This feature for closing night is an uproarious carnival of fun. It is the culminating joy-making event of the Fair. The entire Midway and Grandstand attractions will be intact. Fancy dress costumes and other fun-making devices will be provided by the management as long as the supply lasts to all making application. Ask the Management about costumes early.

$30,000 in Prizes for Live Stock

An exhibition of Canadian-bred horses, cattle, sheep and swine that is not bettered anywhere. Every farmer and breeder will want to see it.

Entries positively close September 3.

$5,500 in Prizes for Trials of Speed

The Racing Committee for this year have provided a programme that will please every lover of this "sport of kings." The Exhibition has a fine half-mile track, and ample stable accommodation for all entries. The Grandstand affords a good view of the entire course.

You will Enjoy every Minute of Your Visit

The Fair is getting bigger and better every year. Until now it has reached such proportions that it is really the big event of the year in Central Canada.

THURSDAY, SEPT. 9TH, 1920.

A DICKENS TITLE.

There have been various sugestions as to a suitable name for the new Hunter Street Bridge, but one well-known citizen declares that he has found a name that exactly fits. The Oliver Twist Bridge is his choice, and readers of Dickens will probably agree with him that the name is appropriate. For the benefit of those who are not familiar with the works of Dickens, it may be explained that Oliver Twist was a young gentleman with the habit of asking for more.

THE U.F.O. CANDIDATE.

The statement of Mr. W. R. Shields, county director of the United Farmers of Ontario, published in The Examiner last evening, leaves no doubt as to the intention of the farmers in connection with the West Peterborough by-election. Mr. Shields states that there will be a standard-bearer in the field, and that "he will run simply as a U.F.O. candidate." There is no mention of the Independent Labour Party in the communication. So that it is evident that the farmers are quite willing to take their chances without the co-operation of the Labour interests, although the assistance of the latter would no doubt be appreciated.

The local Labour leaders have endeavoured to secure the co-operation of the farmers in electing a Labour candidate as a Labour-U.F.O. representative, but it is apparent that all efforts to reach a compromise with the farmers have failed. The U.F.O. have definitely decided to nominate a candidate on their own account, and Labour will have to fall in line or place a candidate in the field on their own initiative. The Farmers will undoubtedly be the first entry in the political sweepstakes, for their nominating convention takes place on Saturday.

SCANT COMFORT.

There is scant comfort for the public in the judgment of the Board of Railway Commissioners in regard to the freight and passenger rates to be charged by the Canadian railways. The Commission, in spite of the many protests against the increases asked for, has practically decided to give the railways all they requested. The freight rates in the East will jump 40 per cent. on Monday, while in the West the rates will advance 35 per cent. At the same time the passenger rates will be increased 20 per cent.

The later increase will not perhaps be so severely felt as will the higher freight rates. The holiday season, during which the greater part of the pleasure travelling is done, is practically over, and the Board's order authorises the 20 per cent. increase only until the end of the present year, when it will be reduced to 10 per cent. On 1st July of next year the passenger rates return to their present level.

The freight charges are, however, a very serious burden which will be felt by the country generally. The effect will be to further increase the cost of living, for very few products are exempt from the increase—milk being the only food product that must be carried at the present rates. In spite of the already abnormal coal prices, the railways are authorised to charge from ten to twenty cents a ton more, according to distance, and the consumer will, of course, have to pay the shot.

Altogether the decision of the Board will be a disappointment to the public, who have been hoping that the Commissioners would at least cut the increases demanded by the railways in two. The published judgment, however, shows that this hope has been a vain one—there is every consideration for the railways, and apparently none at all for the people.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. OUR FISH SUPPLY.

The sugestion made by Mr. R. R. Hall in a letter to The Examiner last evening that the Dominion Government be asked to establish a fish hatchery in the Kawartha Lakes district has been favourably commented upon by many citizens who like to spend their leisure time in the summer months in pursuit of the finny tribe. Undoubtedly some such provision for re-stocking the lakes with fish will have to be provided if the district is to continue to be the mecca for tourists and sportsmen.

The Kawartha Lakes are being advertised as a paradise for anglers, but the title will soon be a misnomer if steps are not taken to replenish the lakes and rivers. There is no use in trying to disguise the fact that the fishing in some of the nearby lakes is not nearly as good as a few years ago; nor is it to be wondered at in view of the thousands of visitors who pour into the district each summer, and in view, too, of the failure of the Government to make any systematic effort to re-stock the waters.

The establishment of a hatchery, more adequate protection for the fish during the spawning season, and a systematic enforcement of the regulations are all necessary to restore the conditions that existed when the Kawartha region was indeed a veritable anglers' paradise.

THE FARMERS' VIEW.

(The Farmers' Sun.)

This paper has never held a very high opinion of the Board of Commerce, and does not see its way clear to change that opinion, although the personnel of the Board is now different to what it was some months ago. The action of the Board of Commerce in peremptorily ordering milk distributors to return to the summer prices without investigating or considering in any way the reason for the new price, is on a par with the former activities of that autocratic body.

The Board of Commerce seems to have taken a special dislike to farmers, and especially to dairymen. The vice-chairman of the former Board characterised dairymen as "baby-killers," although he knew that the dairymen were receiving less than one-eighth as much per hour as the union men, to which Mr. Murdock belonged, were receiving. The Board of Commerce seems to have an idea that farmres should work for nothing and board themselves. They might as well realise, first as last, that farmers have grown tired of being told just what they must do and what prices they must take for their products. If the Board thinks farmers are going to get up at three or four in the morning, milk cows, work hard until nine or ten at night for wages ranging from eleven to sixteen cents per hour, and do that summer and winter, Sundays and holidays, and then be told they are profiteers and baby-killers, and that they must take less for their milk, the Board will get a rude shock.

Farmers do not have to keep cows. It is not absolutely necessary to sell milk to city people in order to live on a farm. A farmer can go into other and more remunerative work, or he can produce enough for his own needs. In the final analysis, farmers will be the last to starve.

If the Board of Commerce wants to justify its existence, let it get after the profiteers who have made this country the dearest place on earth in which to live. The Board does not concern themselves with the 310 per cent. earned by the Dominion Textile Company, or the 72 per cent. earned by the Paton Manufacturing Company. They do not prosecute the sugar profiteers, nor the wholesale grocers, nor the thousand and one others who are the real guilty people. If they think the sixteen cents an hour dairymen earn is exorbitant, what about the $1.25 which the plumbers and scores of other trade unionists in our cities get?

This thing must come to a showdown, and if it is necessary to defy the Board of Commerce and the Union Government, we are ready to throw down the gauge of battle and enter the lists. The farmers are tired of being the under dog. The Board of Commerce and the Meighen Government may fix milk prices, but they cannot compel farmers to keep cows at a loss.

Best of all Fly Killers 10c per Packet at all Druggists, Grocers and General Stores

WELL SATISFIED WITH THE DRILL

A PROMISE OF BETTER THINGS AT THE FIRE HALL

After the drill at the Fire Hall yesterday afternoon Fire Chief Grange expressed himself to an Examiner reporter as more than satisfied with the showing which his men made in the drill. He remarked especially upon the work of the five new men. "They went up the ladders like cats,' he said

Drills will be held daily in the future until the men are whipped into shape, the chief declared, and once a week a drill such as that of yesterday, in which both platoons will be called out, will be held.

MR. BURNHNM REPLIES TO MR SHIELDS COUNTY DIRECTOR OF THE U. F. O.

To the Editor of The Examiner:

Sir,—Will you allow me to say how thoroughly fair and just in my opinion the letter of Mr. Shields, county director of the U.F.O., is.

He states the case of the U. F. O. with entire reasonableness and justice. But let me make a few observations in reply:

1.—It is not correct to suppose that farmers have not been asked to contest W. Peterborough. To my knowledge a farmer candidate has been sought time and again for this riding by both parties, but without success.

2.—The farmer is represented by at least two score of farmers in the House of Commons. Moreover, he has what no other single interest has, viz., a department and a minister wholly devoted to agriculture. There is a standing committee wholly set apart for agriculture also, something that no other interest has.

3.—Why are there so many lawyers in the House? Because most of them are sent there by corporations and other interests just as they are sent to court. And here let me say that if a farmer wants his business done anywhere in or out of court he gets a lawyer to do it. But I believe that this sending of lawyers to Parliament to represent special interests is worse than wrong. No special interest but the whole nation should be the care of the members.

4.—It is very gratifying to find Mr. Shields repudiating "a farmer's party." He does not believe in any interest's wishing to grab the reins of power. Nor do I, and the spectacle of a new party and a new band of leaders seizing power at Ottawa without ever asking anybody's leave is too much for me. Soon after entering Parliament I gave up all thought of the practice of law because the practice of private interests of any kind often stands in the way of adopting measures of public interest. It is nothing but ruin to the public interest to have men representing it whose chief object is to betray it.

5.—Let me say as a candidate that I hope the farmers of W. Peterborough, if actuated by the lofty motives set out by Mr. Shields, will put a man in the field. We must consider our country first and we cannot leave too many in the field who seek its general welfare.

J. H. BURNHAM.

WINNERS OF BABY SHOW AT LABOR DAY SPORTS

The following prizes were awarded by the judges of the Baby Show at the Labour Day sports at the Exhibition grounds on Monday:

Babies under 6 months—Mrs. Nokes 100 Stewart street, baby boy.

Babies over 6 months and under 12 months — Mrs. Clarke, 75 Smith street, baby boy.

THAT SON-IN-LAW OF PA'S — Anyhow, It's going to Be Bad Luck for Pa - - - - By C. H. WELLINGTON

Norwood Correspondence

NORWOOD, Sept. 8.—Mrs. Blackwell, of Brockville, is a guest at the home of her parents, Mr. and Mrs. John Baskin.

Miss Laura Clarke has taken a position in Kitchener.

Mrs. W. J. Puffer has returned home from a visit in Toronto and Burlington.

Mr. W. J. Stares was in Toronto last week.

Miss Vera Finlay, of Toronto, was home for the week-end.

Mr. E. J. Laing has returned home from Bright, where he has been visiting his daughter, Mrs. (Rev.) Eyre.

Mr. Louis George, who underwent an operation in St. Joseph's Hospital last week, returned home on Saturday.

Mr. and Mrs. George Salome have been visiting in Toronto.

Mr. Nelson King, of Kirkfield, spent the week-end in town.

Mr. and Mrs. Arthur Nixon spent Sunday and Labour Day at Clarina, the guests of the latter's brother, Mr. Walter Crowe.

Mr. Maxwell McNaughton, of Peterborough, was in town over the holiday.

Mr. and Mrs. M. R. Callendar, of Fargo, Dakota, are guests of the latter's brothers, Messrs. A. J. and T. E. Finlay.

Miss Teresa Robson was home from Toronto for the week-end.

Mr. and Mrs. Oscar Brennan left on Sunday afternoon for their home in Brooklyn, N.Y.

Mrs. Fred Garlick has returned from a visit in Kitchener.

Mr. and Mrs. Lawlor returned from their summer home at Stoney Lake on Monday.

Miss Marjorie Johnston spent the week-end in Toronto.

Mrs. John Thompson, of Hastings, has been visiting her parents, Mr. and Mrs. Hugh Robb.

Rev. E. Wolland has handed in his resignation as pastor of the Presbyterian Church.

Miss Linda Fry has returned from a two weeks' visit in Alnwick.

Miss Wood, of Havelock, visited her sister, Mrs. W. Beckett, recently.

Mr. Brock Powell and son Theodore, of Greenwich, N.Y., were in town on Wednesday calling on old friends. Mr. Powell had not been in Norwood for over thirty years.

Mrs. Trout has returned home to Burlington, after a visit of several weeks with her daughter, Mrs. W. Puffer.

Mr. W. A. Richardson was in Kingston last week.

Miss Higgs, of Madoc, has been a guest of Mrs. W. H. Tucker.

Miss Cora Robb spent part of last week in Toronto.

Miss Gertrude Greenbanks has been engaged to teach in the primary department of the Public School for a few months.

Mr. and Mrs. John Weir are spending a couple of days near Belleville—the guests of Mr. and Mrs. Finkle.

Mr. Ira Cummings has moved his repair shop into the Metcalfe block.

Miss Frost, of Sault Ste. Marie has been visiting at the home of her uncle, Mr. James Frost.

Mr. Will Robb was in Toronto last week.

Mrs. Nixon has returned from a visit in Seymour.

Mr. Floyd Patterson has secured a position in the toy factory in Beaverton.

Miss Nellie McNaughton is visiting in New Brunswick.

Dr. Roy Richardson was in Kingston last week.

Mr. H. G. Buck has rented the upper storey of his machine shop to Mr. F. Quinn of Kingston, who will manufacture fibre furniture.

Miss Vera Taylor of Warsaw, has been visiting Miss Cora Robb.

Mr. and Mrs. W. H. Tucker and Mr. Basil Tucker motored to Toronto last week.

Mr. Will Weir was in Madoc last week.

Mr. and Mrs. Tho. Wigmore have returned home to Oxbow, Sask.

Miss Annie Thompson has returned from a visit in Toronto.

Mr. and Mrs. Coleman Elliott and Master Stanley spent the last few days in Toronto.

Mr. Stanley Foster of Bracebridge, motored to Norwood on Friday night and spent the week end at the home of Mr. and Mrs. J. Weir.

Miss Madeline McNeely of Toronto, is visiting at her parents' home.

Mr. Armar Weir of North Gower, Mr. Alex. Weir of Colborne, and Miss Pauline Weir of Toronto, spent the past few days at their parents' home.

Mrs. J. McNeely and Miss Marguerite of Peterborough, are guests of the former's brother, Mr. J. McLaughlin.

Mr. and Mrs. Gordon Girven and Mr. and Mrs. Andrew Knox motored to Toronto and spent the past few days.

Miss Ruth Hendren spent Sunday and Monday in Toronto.

Mr. Norman Irwin of Oshawa, has been visiting Mr. Errol Buck.

Mrs. Tackaberry of Windsor, is a guest of her sister, Mrs. E. C. Squire.

Mr. and Mrs. John Rogers and family were in Belleville for Sunday and Monday.

Mr. and Mrs. Oliver Baskin have moved to Kemptville. Mr. Baskin has sold his residence here to Mr. Russel Thompson.

Miss B. Pearce of Marmora, is visiting her cousin, Miss Helen Pearce.

Mr. Keith Waters of Toronto, has been a guest at the home of his parents, Mr. and Mrs. P. W. Waters.

Mr. Snider who has been in the employ of Mr. Joe Rahal, has returned to Toronto.

Miss Brooks, of Toronto, is a guest of Mrs. G. Groover.

Miss Josephine McNicholl has returned to Rochester.

Mr. and Mrs Cutcliffe and family have gone on their vacation.

Mr. and Mrs. J. Moore and Miss Susie Moore, of Keene, were in town on Monday.

Mr. Wilfred Weir, who has been visiting at the home of his uncle, Mr. John Weir, left on Tuesday for his home in N. Carolina.

Weddings.

On Wednesday in Asphodel at the home of the bride's parents, Mr. and Mrs Wm. Knox, the marriage was solemnized of their only daughter, Elsie, to Mr. D. H. MacFarlane, of Keene.

The ceremony was performed by Rev. Cafley, assisted by Rev. E. Cook.

The wedding march was played by the bride's cousin, Mrs. (Rev.) Cooke.

Mr. and Mrs. MacFarlane are taking a motor trip through Western Ontario before returning to their home near Keene

Obituary.

In Hastings on Saturday morning, the death occurred of Roxie Scott, wife of Mr. E. Lemoire, Deceased was in her thirtieth year.

The funeral took place on Monday afternoon to the Norwood cemetery.

CAVAN NEWS.

CAVAN, September 8. — Mrs. John Staples is visiting her sister in Hamilton

Mr. John Mason was a visitor to Toronto last weeek.

Mr. and Mrs. Herbert Lough have returned to their home in Toronto, after spending two weeks with Mr. and Mrs. John White.

Mrs. C. Miler and son, Earl, have returned to their home in Boston.

Miss Winona Cathcart returned from Toronto Saturday night.

Mrs. Wm. Hill motored to Toronto last week and attended the exhibition.

Mr. Oscar Hutchinson of Kemptville is visiting at his old home here.

The Misses Grandy and Mrs. Wm. Cathcart of Millbrook, were visitors at the home of Mr. Robert Howden last week.

Mr. Harry Seymour took in the Exhibition in Toronto last week.

Mrs. M. McDowell has returned home after a month's visit in Wingham.

Mr. Gusty Howden of Peterboro, spent the week end with friends here.

Mr. McDowell was a visitor to Toronto last week.

WELCOME LITTLE STRANGER.

WINDSOR, Ont., Sept. 9. — The Border Cities Sun, a new morning newspaper, made its first appearance yesterday. The Sun is published by W. F. Herman, also owners of the Border Cities Star.

The Short Cut to the Country Club

EARLY away to the bounding ball on the springy turf—time to enjoy *your* special recreation hobby whatever it is—every business duty well done. The "Office Specialty" Efficiency Desk clips that precious hour off the day's work by making it easy for you to handle with prompt dispatch, everything that comes to its roomy top.

"OFFICE SPECIALTY"
EFFICIENCY DESK

The big desk for the big man. Its files hold for immediate reference every paper and card record you need in your day's work. No haphazard hunting through sheafs of documents. The system in the files brings out *instantly* the one you want.

With every "Office Specialty" product goes the knowledge and experience of more than 30 years of successful achievement. Every article that bears our name is made in our Canadian factories.

Our local Service Store will make prompt deliveries. In addition we offer, *without charge or obligation* the advice and suggestions of "Office Specialty" System Experts to aid you in solving your office organization or routine problems.

A card or telephone message will have prompt attention.

VOICE OF THE PEOPLE

Editor of Examiner:

A writer in yesterday's issue of the Examiner aparently fails to understand why the work of the Fire Department at the Bell Apartment fire should be the subject of criticism. He claims it would not have been safe for the firemen to go on the roof in order to fight the flames. The firemen had no desire to go on the roof to fight the flames. What they wanted to do was to go on to a lower roof at the rear of the building, which at that time was not in any way affected by the progress of the fire. That would have put them half way up the building and in closer touch with the seat of the fire than from the middle of Hunter street. Failing this they could have placed ladders at the front of the building long before the cornice of the building was weakened by fire.

In this way they could have smashed through the windows of the second and third storeys and would not have ordered a police constable to shoot with a revolver at the third storey windows for the purpose of breaking them. The streams of water directed from the middle of Hunter street were so weak that they would make no impression on the windows and the fire, which was originally in the roof of the building, burned down through to the second storey before it was finally extinguished. If the property of the tenants did not fare so badly as the writer claims, the same cannot be said for the owner of the building who suffered what the firemen and many others believed to be an unnecessary loss. Members of the Fire Department who were on the scene should be considered qualified to speak for themselves. The majority of them have wives and families and are not anxious to endanger their lives any more than the Chief of the Department. They themselves claim that the fire could have been fought at much closer quarters and the loss reduced to a minimum. Several of the men attempted to put a ladder up the front of the building but were ordered back by the Chief. It was then that the comedy of a bunch of stalwart firemen standing in the middle of the street directing a couple of spluttering streams at a fire three storeys high was enacted to the disgust of the firemen themselves and a gathering of citizens.

MILK PROBE BEGINS IN TORONTO TO-MORROW

(Canadian Press.)

OTTAWA, Sept. 8. — All three members of the Board of Commerce will leave to-night for Toronto, where to-morrow they will commence an investigation into the milk situation and decide whether they will enforce their orders to the milk and cream producers, prohibiting them from charging the winter price for milk as from Sept. 1. In other years the winter price has gone into effect on Oct. 1, but this year the milk producers claimed that pastures were poor, and it was necessary for them to feel their cattle concentrated milk feeds earlier in the year.

The board, a short time ago issued an order suspending their prohibitory order from going into effect until after the hearing, which takes place to-morrow.

THREATEN TO BURN WHOLE TOBACCO CROP

NORTH CAROLINA GROWERS BITTERLY RESENT REDUCED PRICES

NEWBERN, N.C., Sept. 8.—With five million pounds of tobacco ready for American and foreign buyers on the opening daty of the world's largest loose leaf tobacco markets, several towns in eastern North Carolina closed their tobacco warehouses in protest against the low prices offered by large tobacco corporations.

Prices opened 25 to 40 per cent. lower than last season, the best grades selling from forty to sixty cents per pound, while the poorer grades brought only eight to fifteen cents.

Farmers and business men in various sections of this State are holding mass meetings to-night to determine what action further thon temporarily closing the market shall be taken. It is pointed out that with a 25 per cent. decrease in tobacco production this year and a big increase in consumption, the market should be as high if not righer than last year.

At Wilson, N.C., the largest single loose leaf tobacco market in the world, prices averaged 20 cents per pound, against 40 cents last year. The farmers declare they will burn their tobacco before they will sell at these prices.

RED PIMPLES ITCHED TERRIBLY

On Chest, Face, Arms. Burned Badly. Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry, red pimples. They were scattered all over me, and itched terribly at times, and I scratched them, causing them to fester and get sore. Sometimes they would dry away and form scales which burned badly.

"Then I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was healed with one box of Cuticura Ointment together with the Cuticura Soap." (Signed) Miss Bertha Kass, Russell, Manitoba, February 19, 1919.

Use Cuticura Soap and Ointment for all toilet purposes. Soap to cleanse, Ointment to heal.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.

Cuticura Soap shaves without mug.

Messrs. David Kempt and brother Archie spent the past week with Toronto friends.

Mr. James Churchill of Toronto, spent the week end at the home of his father in law, Mr. William Kempt.

Miss Mary Burley of Peterboro spent the week with her parents.

Mrs. Henry Fletcher, and Alfie Godfrey have returned from Juniper Island, where they spent the summer.

Mr. Leonard Brown and little daughter Mary are very ill with "Summer flu."

Mr. Gus Bohn is in Toronto this week.

The Keene public school opened on Tuesday of this week with an enrolment of 50 pupils.

Mr. Roy Kempt was in Peterboro Tuesday on business.

The ladies of the W.M.S. of St. James Church, will have charge of the service at the Methodist church next Sunday evening.

Mrs. May Kingsley returned to Peterboro on Tuesday.

Miss Mollie Boyle has returned to her home at Ottawa.

The Keene baseball team are rejoicing over their victory over the Lakefield team on field day at Indian River.

Mr. Joseph Thornton has accepted a position at G. T. Gall's general store.

Mr. Alfred Fletcher is in Toronto this week.

Mr. Michael Maher of New York, is visiting at the home of his sister, Mrs. David Wallis.

PEACHES ARE PLENTIFUL AND PRICES HAVE FALLEN ON THE LOCAL MARKET

PLUMS ARE SELLING AS LOW AS 65 CENTS A BASKET—GRAPES COMING IN.

The Niagara peninsula fruit district is recording crops of peaches, plums and other fruits that far surpass those of any other season in years. The peaches are an unusually heavy crop and the supply far exceeds the demand. As in any other commodity, the price has fallen but the high price of baskets and the wages paid for picking have remained up leaving the growers in a most uncomfortable situation with a strong temptation to let the fruit stay on the trees.

The buying public are waiting for cheaper fruit, but they may get none at all, it is alleged.

First-grade peaches were to-day selling in the stores at $1.25 an 11 qt. basket, and second grades at $1.00 First grades are very hard to obtain, fruit dealers and wholesalers say, because the growers did not thin out the fruit because of the high cost of labour.

Plums are selling at 65 and 75 cents a basket or 10 cents a quart.

Blue grapes are 75 cents a small basket. "Green ones will be in in two weeks," said a dealer to-day. "You will see tomatoes 75 cents soon," he opined when asked if the price would advance. They are now selling 30 cents wholesale and 40 and 45 cents in the stores. Baskets cost the growers 15 cents and with labour at a high figure there is no money in selling them at such a low figure, the growers aver.

"To bring a car of peaches from Grimsby to Peterborough once cost $28; now it costs $76," said W. J. Oke to-day. With peaches and other fruit selling so low freight rates eat up the small profits to be made in handling fruit this season, he declares. Car service is hard to obtain, he said, and the railways are too leisurely about handling fruit.

LOCAL POULTRY MEN SATISFIED

GOVERNMENT NOW FAVOURS STANDARD BRED FOWL

At the regular monthly meeting of the Poultry Association held last evening the matter of the design for the special shield to be presented by the association was finally settled upon with an inscription, "Presented by the Peterborough Poultry Association."

A Right-About Face.

After opposing Government propaganda for years, which encouraged the keeping of "bred to lay" fowl, the association, which, like all other poultry associations, had advocated standard bred fowl, having proved that they were in reality the bred to lay stock, was more than satisfied that the opposition had taken a "right-about face" turn when a letter was read from President Donovan of the Amalgamated Poultry Association which met in June. In this communication he stated that Prof. Graham at the convention had advocated the installation of one hundred standard bred birds in every farm yard in Ontario as it had been proved that thoroughbred birds are giving the best results and are bred to lay.

President Donovan also outlined the steps which had been taken by the representatives at the meeting to plan a campaign to promote the raising of poultry by the boys and girls.

Plan a Booklet.

The association is considering having a booklet this year instead of the sheet formerly used.

Cook the cauliflower entire, the leaves and stems that surround it are delicious served with it.

THREE MORE POLICE FOR EACH COUNTY

Plans are under consideration for increasing the establishment of the Ontario Provincial Police to a strength of one hundred men instead of thirty-five as at present. Premier Drury, it is understood, is favorable to increasing the strength, but whether or not the Cabinet is prepared to embark on an undertaking which would mean an expenditure of $250,000 annually is a matter which has yet to be decided.

Last year the total expenses of the Ontario Provincial Police amounted to $61,254. Increases amounting to about 15 per cent. more than the present rate of pay are proposed. It is suggested that there should be three provincial policemen for every one of the thirty seven counties in the province.

M'CORMACK-KREISLER COMBINATION

"When Night Descends," now being sung by John McCormack and Fritz Kreisler to the greatest audience in the world, is something that Victrola owners should add to their lists. The song is a love serenade fitted to Mr. McCormack's voice as if it had been specially written for him and adorned with an obligato for the violin. Ye Olde Firme Heintzman & Co., Ltd., George and Hunter streets, Peterboro, will send this to anyone on request for the list price of $2.

SALADA BUYS HUGE WAREHOUSE.

In February next the SALADA TEA COMPANY will occupy the magnificent new building at the corner of St. Lawrence, Le Royer and St. Jean Baptiste Streets, Montreal, the building at present occupied by SALADA at St. Paul & St. Sulpice Streets, and erected by them eleven years ago, having for sometime been inadequate for their business. Other SALADA warehouses are situated at Toronto and Boston.

COL. BURNHAM TO HAVE SAFE PASSAGE TO ENGLAND

(Canadian Press.)

LONDON, Sept. 8.—The Canadian Associated Press understands that Col. Burnham, of Winnipeg, who had trouble with the Serbian authorities while conducting a medical mission in Montenegro, has not been arrested, but is at Scutari, and will have a safe passage to England.

EMINENT ENGLISH ACTORS FOR CANADA

FIRST COMPANY OF SEASON ARRIVES FOR COMPLETE TOUR.

MONTREAL, Sept. 9. — The system of bringing to Canada theatrical companies direct from England, which companies will produce plays that have made hits in the old-country, was inaugurated with the arrival of the Maid of the Mountain Compan.

Arrangements for the tour of this and other companies in Canada this winter were made in England by George F Driscoll, general manager of Trans-Canada Theatres Limited, who accompanied the English actors back to Canada on the Empress of Britain. A novelty of the trip was a dress rehearsal on board.

Dr. Driscoll announces that during the season such well-known actors as Martin Harvey, Henry V. Esmond, and Mary Moore are to tour this country.

Lightning at Lexington, Mo., struck a city buildings, then hit the fire whistle on the town hall, causing it to sound.

A BANNER APPLE CROP IN ONTARIO

PRICES WILL BE HIGH BECAUSE OF INCREASED COSTS

(Canadian Press.)

TORONTO, Sept. 9. — Although Ontario has a banner apple crop the price will be high in part because of increased cost in orchard work and in part because of the strong demand for best quality of Canadian apples from Britain owing to the crop failure there.

Enquiries made by the Canadian Press show that packers are contracting at two dollars and a half in the orchard for best grade of winter apples. Farmers do their own picking, but packing is done by a contractor, at a cost of a dollar a barrel for labor Barrels cost a dollar and a half as against eighty cents last year. This means a total cost of five dollars before the barrel leaves the orchard. Then there is freight, storage and the middlemen's commissions before the apples reach the retailers. Farmers say that at present prices there is nothing in it, considering the high cost of labor and amount of work that goes to making of productive orchards. This year's fine crop follows several seasons of partial or total failure.

NO SOLUTION OF THE COAL CRISIS

MINERS DEMANDS NOT MET BY THE STATEMENT

(Canadian Press.)

LONDON, Sept. 9. — Conference held this morning between Sir Robert Horns, President of the Board of Trade and a delegation from miners' organization, in an effort to reach a solution of the coal crisis resulted in what is generally regarded as failure. At the conclusion of the conference Robert Smillie., acting as spokesman for the miners, informed Sir Robert that the miners' executive body was of the opinion that the statement made contained no new proposal which would lead to satisfactory settlement of the miners' demands.

RAPID ADVANCE OF PETERBORO' MAN

In connection with the rapid advance of Edward Huff, formerly of Peterboro, who is now president and general manager of the Tanner-Gates Corporation, one of the largest brokerage firms in Michigan, the following item appears in the Third Page," of Windsor, September 2nd:

"Claiming that one-half of the $10,000,000 required to build the proposed bridge from Windsor to Detroit, is already available, and that considerable impetus will be given the undertaking when the International joint commission decided upon a lakes-to-ocean waterways, Edward Huff, the president and general manager of the Tanner-Gates corporation, one of the largest brokerage firms in Michigan, which is interested in the enterprise, expressed the opinion this morning that the new overhead bridge will be started within a year."

NO DEFINITE DECISION AS TO LEEDS RIDING.

John G. Mitchell of Ottawa, may be Conservative Candidate.

BROCKVILLE, Sept. 8. — John G. Mitchell of Ottawa, mentioned as a possible Conservative candidate in Leeds riding, following the resignation of Sir Thomas White, as representative of the constituency, has issued a statement regarding the rumour as to his candidature, in which he says when Sir Thomas White has submitted his resignation as a member of the electoral district and his resignation has been accepted, any proposal of this nature must naturally receive consideration.

It is announced that a Liberal convention will be held in Spencerville Town Hall on September 18 for the purpose of selecting a candidate to contest the riding of Grenville.

"I like you better as BOVRIL"

IN Bovril you get the concentrated nourishment of prime beef. No food does more to strengthen you against the colds, chills and influenza which winter brings. It is the "under-nourished" who run the greatest risk of illness; but you are sure of being nourished if you take Bovril.

TENDER GUMS —A WARNING

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea—many under forty also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infecting the joints or tonsils—or causing other ailments.

Forhan's positively prevents Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

NEW THEATRE TO LOCATE IN CITY

PANTAGES VAUDEVILLE HOUSE WILL BE ERECTED ON GEORGE STREET

Peterboro is to have a new theatre, a Pantages vaudeville house.

Negotiations have been under way for some time for the purchase by the Pantages Theatre Corporation of the Ackerman lot, adjoining the Barrie building on George street. It was impossible to ascertain to-day whether the deal has been closed, but as it is known that the Pantages corporation has arranged for the storage of a large number of bricks, and that it is negotiating for a laneway to Water street, it is assumed that the transfer of the land has been completed.

At first the Pantages Corporation considered buying the Grand Opera House, which it is said was offered to them for $50,000. This offer, however, was refused, and the corporation decided to build.

Two other chain theatre corporations, the Famous Players Theatre Corporation and the Paramount-Artcraft Company, have been considering locating a theatre here but the Pantages Corporation evidently was successful in eliminating the possibility of either of its competitors locating here.

The Pantages Corporation, of which Albert Pantages of Seattle, is president, has established a chain of theatres throughout the Western United States and Canada, and about ten days ago opened a $1,000,000 theatre in Toronto. The Pantages circuit supplies high class vaudeville.

DID NOT WANT TO FIGHT, BUT COULD NOT HELP IT.

Such is Report of Soviet Prisoners Recently Captured.

(Canadian Press).

CONSTANTINOPLE, Sept. 9. — General Wrangel, head of the South Russian Anti-Bolshevik forces, is within twelve miles of Alexandrovsk, headquarters of the field staff of the Thirteenth Soviet Army, despatches received to-day report.

All Soviet soldiers captured by General Wrangel's troops had been sent to the southern front from Siberia and outlying provinces. They are unkempt and clothed in rags, with shoes made of untanned horse hide. The men have long shaggy beards, and when fed ate ravenously. When asked why they were fighting, they answered, "We could not help it. We were made to fight."

DECLARE SEA NO PLACE TO BURY FOLK.

(Canadian Press.)

ST. JOHN, N.B., Sept. 9.—The New Brunswick undertakers met here, and adopted a resolution against burial at sea.

CARRY IRISH MAILS SAFELY IN AIRPLANES.

New Government Plan to Prevent Sinn Fein Thefts.

DUBLIN, Sept. 9. — In order to check the constant attacks on the Government mails throughout the country, an airplane mail service has been inaugurated for the conveyance of mails for Dungarvan, County Waterford, and other points where police and military are quartered.

WOULD LICENSE REALTY DEALERS

ONE REAL ESTATE MAN THINKS RENTS HAVE REACHED PEAK

Real estate is comparatively calm in Peterborough now, but in a few weeks a boom approximating that of last spring is expected to begin. This information was given by representative real estate men to The Examiner to-day. The sale of houses is not very brisk now and ones that are being sold are sold far below what they could be built for to-day. Both house values and rents are bound to advance, declared one dealer. He predicted rents of $100 yet for apartments, but another dealer felt that rents were at the peak. He admitted that rents were much higher in Toronto, but he did not think Toronto rents should be used as a thermometer for rents here. There are few apartments for rent here now, he said, and when the summer cottagers are all back in the city rooms of any kind will be at a premium.

Real estate dealers in Peterborough are not licensed and the contention of one dealer seen to-day was that the should be. He is a legitimate dealer paying office rent, business tax and other incident expenses that all contribute to the welfare of the city. Meanwhile there are about a dozen "scabs," as he called them, operating around the city and with no law to prevent them doing so. They do not have any offices and pay no expenses like other dealers, but lay in wait for the dealer's customers, he alleged, and pick up considerable business. He declares they should all be licensed and thus remove the handicap under which those with offices now work.

CLAIM TO DISCOVERY OF SLEEPING SICKNESS

(Associated Press)

SARATOGA SPRINGS, N.Y., Sept 9.—Discovery of the cause of "sleeping sickness" was reported here b. Dr. I. S. Wechler of Columbia University to the State Conference of Health Officers and Public Health Nurses in session here. The origin, he said, was found to be a filterable virus, which, in experiments, has transmitted the disease from man to monkeys.

SAYS DRURY IS RIGHT.

Lindsay's Council had before them a communication from Secretary Hannigan of the Hydro Railway's Association, inviting Council's presence at the Association's annual meeting in Galt this month in reference to the proposed Hydro Radial scheme.

The communication was promptly filed on motion of Deuty-Reeve O'Reilly, who said: "Premier Drury is right in his policy regarding the radial. The rest of the Province should not be bonded in the interests of the western section."

TORONTO'S POPULATION OVER HALF MILLION.

(Canadian Press).

TORONTO, Sept. 9.—According to Assessment Department returns, Toronto's population is now 512,812, which places the city twelfth in the roll of North American cities. The assessment for this year totals sixty-one millions.

TROUBLE AT FIUME.

(Canadian Press).

FIUME, Sept. 9.—The Fiume National Council resigned to-day.

COAL STRIKE INEVITABLE.

(Canadian Press).

LONDON, Sept. 9.—A conference of miners and Government officials fails to avert the prospect of a general strike called for September 26.

ANOTHER DEADLOCK.

(Canadian Press).

LONDON, Sept. 9.—Another deadlock in Russo-Polish negotiations, following Russia's demand for the immunity of delegates, is to-day reported.

WANT $3 A BUSHEL AS WHEAT MINIMUM

KANSAS, Sept. 9.—A minimum price of $3 a bushel for No. 2 wheat in Kansas City was urged, and millers who profiteer were condemned in resolutions adopted here yesterday at a meeting of several hundred wheat growers.

CLEMENCEAU TO HUNT HIMALAYAN TIGERS

PARIS, Sept. 9.—Georges Clemenceau, the former French Premier, will leave for Indian on Sept. 20 aboard the steamer La Cordilliere, sailing from Marseilles.

He will land at Singapore, where a British ship will carry him to Calcutta.

M. Clemenceau will proceed to Himalaya to hunt the tiger and will return to France about New Year's Day.

A cow which strayed on to the railway track delayed the Irish express from Fishguard for over half an hour.

Mr. and Mrs. William Yelland, Jr., closed their cottage at Hurricane Pt., on Tuesday, and returned to Toronto

Mr. F. G. Canfield of "Solitire," was in Peterboro on Tuesday.

Mr. R. Harvey of Apsley, was in Toronto last week, attending the exhibition; he retuned on Tuesday.

Mr. B. Conway of Peterboro, is at Mount Julian.

The Labor Day crowd on the Empress was the record of the season. So many people closed their cottages and returned home that the boat was loaded to its capacity.

Mr. H. S. Smith of Rochester, is visiting Mr. F. G. Canfield, at "Solitaire."

HOLLAND A PARADISE FOR HUNGRY GERMANS

(Canadian Press.)

OLDENZAAL, Netherlands, Sept. 9.—Students of the food situation in Central Europe have a good opportunity to observe the effects of a long-continued spare diet at this place, which is the first station on Holland soil after leaving German territory, on the main route from Berlin to Amsterdam.

Here Germans have the first opportunity to recoup themselves for lost calories. Fifteen minutes' ride to the east, the bill of fare is meagre; here it is plenteous and sustaining, and the big station restaurant is daily jammed with hungry, clamorous crowds, whose capacity for solid trencher work is amazing.

Mountains of white bread sandwiches melt away like snow, and from a score of points cries arise for glasses of fresh milk—an unobtainable luxury in Germany. The meal here only serves as a preliminary snack for an even more plenteous feast aboard the train.

As the Associated Press correspondent was watching the operations a German theatrical company, with a contract to fill in Holland was making a vigorous frontal attack on the luncheon counter. The profession in Germany is in a bad way; salaries are low and living is correspondingly precarious. Competition for joining touring companies in Holland is keen.

Their delight in facing a square meal was pathetic. One, holding aloft a ham sandwich of generous proportions, exclaimed: "Beautiful, bountiful Holland! Behold the ham in thy sandwiches is draped in luxuriant festoons, far surpassing in beauty and fragrance the roses in the gardens of Semiramis!"

One woman sat with folded hands in rapt contemplation of a chunk of fresh butter the size of a brick.

"This is truly paradise!" she was heard to gasp.

PLOUGHING HELD UP.

Land is Very Dry in This Section of Country.

Ploughing in Otonabee has been seriously retarded by the shortage of rain, and wells about the country are drying up in an alarming manner. The farmers state that it is impossible to obtain enough water for the cattle.

A Simple Treatment That Will Make Hair Grow, Now Sold In Canada

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using DELMAY'S FRENCH HAIR TONIC, the Great French Hair Tonic.

Every reader of The Examiner can have an attractive head of hair in a few weeks by using DELMAY'S FRENCH HAIR TONIC.

All first-class druggists. It is guaranteed to banish dandruff, stop falling hair and itching scalp in ten days, or money back.

DELMAY'S FRENCH HAIR TONIC is a beautiful, pleasant, non-sticky Hair Tonic. Price, $1.00 a bottle.

Sold in Peterborough at Bond's Drug Store, corner Hunter and George street. Madill's old stand.

EXCHANGE AND CUSTOMS PREVENTS MUCH TRADE.

(Canadian Press).

OTTAWA, Sept. 9.—France needs many products, such as building materials and food stuffs, machinery and other goods which Canada has to sell. But the exchange rate and unfavourable Customs regulations are keeping down the volume of trade which would otherwise spring up, in the opinion of Hon. Phillippe Roy, Canadian High Commissioner to France, who is conferring with Sir George Foster in Ottawa to-day.

To the Canadian Press, Dr. Roy expressed the opinion that with an improved exchange rate and favourable trade treaty, France would soon be buying Canadian goods to a greater measure than she had ever done before.

TO KEEP UP LEVEL OF WORKINGMEN'S INCOME.

Responsibility For Unemployment Thrown on Industry.

(Canadian Press).

PORTSMOUTH, Sept. 9.—The Trades Union Congress adopted a resolution to-day, declaring that the responsibility for unemployment shall be born by industry, and that in no case should the level of income fall below eighty-five per cent. of wages earned when in full employment. Power should be obtained to force a levy on industry to raise the necessary fund, the resolution added, and the Parliamentary Committee of the Congress was instructed to take necessary action to this end.

SAYS MILK PRODUCTION COSTS MORE THIS YEAR.

Evidence in Price Probe Being Taken To-Day.

(Canadian Press).

TORONTO, Sept. 9.—Giving evidence before the Board of Commerce to-day at the enquiry into the proposed increase in the price of milk, J. E. Brethour, Brant County, declared that milk production costs are higher this year. Concentrates, he said, are twenty to twenty-five per cent. higher and labour is being paid more. He claimed he was now feeding full winter rations, oats, grain and so on, to his herd of sixty milking cows. He had sold twenty lately, and was going out of business. President Stonehouse, of the Milk Producers' Association, gave evidence of a similar character.

MANY ARE KILLED IN EARTHQUAKE SHOCK.

(Canadian Press).

ROME, Sept. 9.—Another violent earthquake occurred in Emilia district at 3 this morning, causing the loss of lives and heavy damage. The communities suffering most were Reggio, Ospedaletti, Bussana, Toana and Cavola. This morning's shock was more violent than that of Tuesday.

PREPARING FOR VOTE ON TEMPERANCE ACT

(Canadian Press.)

OTTAWA, Sept. 9.—With almost one quarter of the work of the general election on their hands through the vote on the Canada Temperance Act being taken in four provinces simultaneously in October, the staff of the chief electoral officer is spending busy days getting all necessary documents and instructions into the hands of returning officers. There will be voting in 57 districts on one day. The four provinces which vote are Manitoba, Saskatchewan, Nova Scotia and Prince Edward Island.

WOULD BAN HEARST PAPERS FROM CANADA

WARM ARGUMENTS AT CONFERENCE OF CANADIAN CLUBS

At a session of conference of Canadian clubs in Montreal, Saturday, an animated discussion developed over the question of banning the Hearst publications throughout the Dominion, and the argument became so heated at times that it threatened to end in a sharp divergence of opinion being laid down between the eastern and western delegates. Amendment after amendment was suggested, the keynote of which indicated the desire that something be done with regard to the Hearst propaganda and eventually a much-divided resolution was adopted, simply drawing the attention of the Government to the Hearst anti-British propaganda, and also drawing the attention of the Canadian Clubs to the matter, with recommendations that steps be taken to find a remedy for it. This was adopted unanimously.

On behalf of the Canadian Clubs of Winnipeg, an invitation was extended by Mr. Craig that next year's meeting be held in that city, and the invitation was unanimously adopted.

DOWNEYVILLE CORRESPONDENCE

DOWNEYVLILE, Sept. 19.—Mr. and Mrs. Patrick Herlihey spent Wednesday in Peterborough.

Miss Pearl Herlihey, who has been visiting in Peterborough, has returned home.

Miss Ethel Gosselin is attending the Toronto National Exhibition.

Miss Ida Murray, who has been the guest of her uncle, Mr. Martin McCauliff, has returned home.

Miss Delphina Piggott has left for Cobourg, where she will open her school.

ASKED FOR BASKETS.

Fruit Growers Asked Retailers to Return Them if Possible.

Owing to the scarcity of baskets, some of the growers in the Niagara Peninsula who have big crops of the late fruits ripening for the markets have asked dealers to return as many baskets as possible. Mr. D. M. Minicola received a telephone message yesterday from one of the growers, who particularly requested that if any baskets were available here that they be returned.

Alkali In Shampoos Bad For Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

FOOD PRICES TUMBLE.

Montreal Professes to See Evidence of Cheaper Produce.

(Canadian Press.)

MONTREAL, Sept. 9.— There is evidence in the markets of Montreal that prices are falling. Potatoes are going at $1.00 to $1.80 a bag of 80 pounds. Montreal melons were as low as 50 cents but the best were obtainable at $1.25 to $1.50. Squash were 75 cents a dozen; turnips at $1.00 a bag of 76 pounds; red onions at $3.00 a bag, or 35 cents a bunch of 12; leeks at 10 cents a bunch; cucumbers at 75 cents to $1.00 a bag; corn at 15 to 20 cents a dozen; tomatoes 30 to 35 cents for a gin box loaded to capacity; eggs were 75 cents a dozen for special; and some others as low as 60 cents a dozen, while butter, best quality, was 62 cents to 64 cents.

The Great French Tonic "VITAL" TABLETS

Makes Men and Women Strong. Go to Your Druggist and Get a Box and Be Healthy.

Since the introduction of VITAL into Canada the sale has been phenomenal. VITAL is purely a tonic—it builds up the run-down system, creates a new lease of life. Everybody should take a tonic. The only question is what to take. You can rely upon VITAL as one of the greatest, if not the greatest, that man ever prescribed. Every Tablet of this wonderful French tonic contains life. Your nerves are toned up to their proper tension. The stomach and the bowels are made healthy and strong, while the kidneys and the liver are cleansed and put in good working order. Headaches, biliousness and all blood impurities are at once removed. The skin becomes clear and healthy. VITAL, in short, will change your whole system, making it pure and healthy. Your druggist will refund your money if it fails. Price 50c a box.

The Warne Drug Co., Ltd., Special Agents.

To Make a Tart Salad Jell

Jiffy-Jell is for salads as well as desserts. Get the lime-fruit flavor and it will make you a tart, green salad jell. Mint flavor makes a mint jell.

The fruit flavors in Jiffy-Jell are fruit-juice essences in vials—a bottle in each package. They are real fruit, and the flavor is abundant. No artificial flavors—no saccharine.

Try loganberry or pineapple flavor for a dessert, and learn what delicious dainties Jiffy-Jell brings to your table. A package will serve six people.

Jiffy-Jell with its natural fruit flavor costs much less than jam or marmalade.

FARMERS' SUN ULTIMATELY TO BECOME DAILY PAPER

TORONTO, Sept. 9. — Notwithstanding the troublesome times for newspapers, with the rising tide of costs, the Farmers' Sun, at the annual meeting of the shareholders here, reported a dividend of seven per cent, would be paid and there would still be a considerable balance on hand.

It was stated that probably before the year was out the paper would be issued three times a week, instead of twice a week, and that ultimately a daily paper would be published.

W. A. Amos, president of the U. F. O., was added to the board of directors.

Badly spotted tan shoes should be put on a shoe tree and scrubbed with soap and water.

MURINE FOR YOUR EYES — Night and Morning. Have Clean, Healthy Eyes. If they Tire, Itch, Smart or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes. Safe for Infant or Adult. At all Druggists and Opticians. Write for Free Eye Book. Murine Eye Remedy Co., Chicago

Try Gallagher's Blood Purifier for Constipation or Indigestion

For sale by all our City Druggists, and one or more Stores in your Town. Price—75c.

Twenty-Five Year Ago

It was as cold as this in Summer, but not since. This year it has been overcoat weather every night. Think of numbers of nights last summer when our throats were thirsty and our foreheads feverish. We'll forget about the minor obstacles.

WELL!

In spite of all this, our Ice-cream sales have been greater than ever. We have sold 35% more Ice-cream than last year, so far.

WHY?

Because the Toronto City Dairy know how to make Quality Ice-cream Creations, and we know how to serve them, and our Customers know where to get them —That's why.

PRIZE LIST FOR PLANTS AND CUT FLOWERS AT EXHIBITION

DIRECTORS APPEAL FOR INCREASED SUPPORT FROM THE PUBLIC THIS YEAR TO BRING THIS DEPARTMENT ABREAST OF THE GENERAL ADVANCE THAT IS NOW ASSURED.

The Flower Show is one of the most popular attractions at the Peterboro Exhibition. Its development during the latter years of the Fair has been steady and encouraging, and every effort to improve this department has been supported by those exhibiting and also by the visiting public.

This year's plans contemplate a bigger entry list than ever. It is true that the season is far advanced for many flowers, but others will be in their prime, and should make a splendid attraction. The directors are appealing for the fullest co-operation of all those exhibitors who hitherto helped to make the Flower Show a feature of the Fair. In all the Agricultural and Stock Departments there are assurances that the entries will set up new records, and to make the Exhibition's expansion rounded and uniform the flower department must not merely be as good as last year's, it must be notably superior.

The accompanying prize list should be cut out by citizens who are potential exhibitors. Begin now to plan an exhibit in one or other of the classes. A little extra attention to the home-grown flowers during the next ten days will materially improve them and will prepare them for the exhibition. Don't consider what others may do but decide to enter this year's show yourself. Your co-operation will have at least one essential result, namely the upholding of the Flower Department of the Fair. Don't think only of whether you will win a prize or not. That is a primary consideration of course, but it may tend to deter some whose flowers are worthy of the contest, and deserve to be entered, and others whose displays will enhance the success of the Flower Department.

Remember, all entries close on September 18th, and amateurs' exhibits should be received not later than 5 p.m., on Monday, September 20th. Judging begins at 10 a.m., on the 21st.

The Prize List follows:

No.	1st	2nd	3rd
1—Best group of greenhouse plants, arrangement to count in judging. The group of plants not less than 10 feet and not exceeding 15 feet	$30 00	$25 00	$15 00

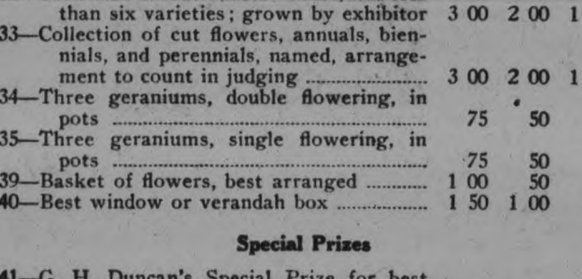
LENS SHIPS COAL.

Great French Industry Gives First Signs of Life Since War.

LENS, France, Sept. 9.—A small shipment of coal left one of the pitheads here yesterday. This coal was the first that has ben taken out of the Lens mines since they were flooded by the Germans during the war.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"



The name "Bayer" identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BANK CLEARINGS FOR THE WEEK

Clearings week ending Sept. 9, 1920, $864,686. Same week last month, $829,533. Same week 1 year ago, $718,118. Same week two years ago, $695,972.

KINGSTON VETERANS WILL ESCHEW POLITICS

THOUGH INDIVIDUALLY URGED TO TAKE AN INTEREST IN PUBLIC AFFAIRS.

(Canadian Press)

KINGSTON, Sept. 8.—The advisability of again taking an active part in politics either municipal, Provincial or Dominion, came up for a lengthy discussion by the Kingston Great War Veterans and from the various members who spoke on the subject the opinion gained was to the effect that, while every member should individually take an active interest in the administration of his city and country, it was felt that the association, as such, would be far wiser to leave politics alone and devote the whole of its energy to the work it is pledged to do, that of providing for and looking after the interests of the returned soldier and of his dependents.

SERIOUS TROUBLE IN MILAN.

(Canadian Press)

ROME, Sept. 9.—Milan is a centre of upheaval caused by the metal workers. A serious feature is that many of the important works occupied by the men contain guns, armored cars and tanks.

DANDRUFF IS DANGEROUS

Dandruff is so common that many people disregard its warning and rely on shampoos to keep their scalp clean. This is not sufficient. The dandruff soon returns and shows the presence of the dandruff "germ" which cannot be washed away. The dandruff germ is dangerous because it destroys the life and vitality of the hair root and relaxes the muscular tissues which hold and protect the hair sac. Then the hair gets thin, brittle and dead looking, falls out badly and in time baldness results. To save your hair the dandruff germ must be destroyed. Here is a simple prescription which you can easily make at home. It is perfectly harmless and will not stain the scalp.

Get from any druggist 6 oz. Bay Rum, 2 oz. Lavona (de composee) and one-half drachm Menthol Crystals. Mix together and allow to stand over night before using. It is not enough to merely put this on the hair. It should be rubbed right into the scalp with the finger tips or a stiff brush. It doesn't take over ten minutes a day and I know of nothing so effective and certain in its results. E. W.

ESCAPED U.S. CONVICTS CAPTURED AT ST. THOMAS

Arrest on Wabash Train by Railway Detective.

ST. THOMAS, Sept. 8.—Two well dressed young men were arrested on the arrival of a Wabash train from Windsor in St. Thomas for stealing a ride on the bumpers. The men were captured by the railroad detective, and when they appeared before Magistrate Maxwell yesterday morning the court had just received a commcnication to look out for escaped prisoners from the sheriff of Bay City, as no less than seven had sawed their way out on Sept 1. One of the men answered the name af Leo Barnell, alias Leo Norwalk, charged with a serious offence against a young girl. The identification of this prisoner was certain as his name was tattooed on his arm. The other escaped prisoner was Frank Senseback, alias Frank Staly, held on the charge of burglary. The other five prisoners who made their escape at the time had headed for different parts of the United States and are still at large. It is expected the authorities from Bay City will arrive in St. Thomas to-morrow to take back the prisoners.

VALUE OF 1920 CROP GREATEST IN HISTORY

CALGARY, Alta., Sept. 9.— That the values of the 1920 crop will be the greatest in the history of Canada, was the statement of Sir Joseph Flavelle, head of the National Trust Company, last night after a tour of the Saskatchewan and Alber-

NOTICE School Opens This Month

His First Shave

The first shave marks the threshold of Manhood. Proud days, these!

Many a student entering high school, college, or university within the next week or two, will carry his own razor with him—and that razor should most certainly be a Gillette!

The Gillette is the razor of Today and Tomorrow—it is right in Principle—abolishing Stropping and Honing—and it is right in Practice—as is attested by 20,000,000 users.

Fathers will spare their sons the "casualties" of the early shaves, and bestow the gift of comfortable shaving for life, by advising the investment of $5. in a Gillette Safety Razor now.

Any good dealer will gladly assist you the choice of a Gillette set.

A run on lunch room pie counters is predicted as the result of a ruling by Prohibition Commissioner at Washington that mince pies may be seasoned with liquor.

Ready?

WHEN you feel the crunch, crunch, of fallen leaves underfoot, and a sharp edge to the whipping breezes—it's nice to know that you're all ready to keep pace with the falling thermometer. There's no use, or reason, to wait until shivers drive you in, for big new stocks of everything from Overcoats down are ready for you now.

Swell Fall Coats - $20 to $45
Comfy Raincoats - $18 to $35
Classy Suits - $30 to $65

Size Up the Fall Hats

We Have all sizes—also all shapes and all colors—including a style that you'll like for yourself. Prices not too high either.

SPORTING NEWS, VIEWS AND GOSSIP

FAST CLASSIC TEAM WILL PLAY THE PETES AT RIVERSIDE SATURDAY

The Petes will finish their training for the Ontario championships on Saturday, when the fast Classics of Toronto will meet the local crew at Riverside Park. Efforts were made to secure the St. Mary's team, but the latter could not come. The Classics, however, stepped into the breach and offered to start their star speed ball pitcher, "Chuck" Grover, against the Petes, in order that they might get a final tuning up against a twirler with lots of smoke.

The game will be a great test for the home brigade. The Classics were beaten out in the T.A.B.A. play off by the Hillcrests by the close score of 2 to 0. The Scott-Hennessey team scored their pair of counters in the first innings, and after that were helpless before Grover's slants. The Classics team have a 3 to 2 victory over the Petes to their credit, beating the locals here on Civic Holiday morning, but the Peterborough crew hope to get revenge on Saturday. The visitors will have a full team in action, and the game should be one of the best of the season. The fans should be out in goodly numbers for the battle, which is called for 3 o'clock sharp.

BALL PLAYERS WILL ATTEND

PETERBOROUGH TEAM WILL BE GUESTS AT PERFORMANCE OF "MY SOLDIER GIRL" TO-NIGHT

The members of the Peterborough Ball Club will be the guests of Manager Philips and of the management of "My Soldier Girl" company at the presentation of the big musical comedy at the Grand to-night in honour of their feat in capturing the Central League Championship. The Petes' quartette is expected to sing between acts, led by Manager Jake Solomon. The boys will occupy the boxes.

LOOK OUT FOR OSHAWA.

Port Hope Guide: Brinsley Lowe was treasurer for the baseball and hockey clubs in Port Hope for years, and as soon as he moved to Oshawa he was made treasurer of the Central League team there. Brinsley's statement this year shows a balance to the credit of the Oshawa team of $587.00, after handing over $162.00 to Pitcher Paton from the benefit game a week ago. Watch out for Oshawa next year.

BOUNCE GAME OF FOOTBALL

On Saturday afternoon the Caledonians are going to play a bounce game of football at the Exhibition Grounds. Kick-off at 3.30 p.m. Referee, Mr. Frank McKinley.

A. team—Brunton, goal; Brown and uDthie, backs; Talyor, Brown and T. McArthur, half-backs; McFeat, Dingwall, Mitchell, Clarke and Hurry.

B. team—Fenner or Murray, goal; Service and Sam McMillan, backs; Frost, Stew. McMillan and J. McMillan, half-backs; Roberts, Hannah, Jas. Willshaw, Jas Shaw and R. McDowall.

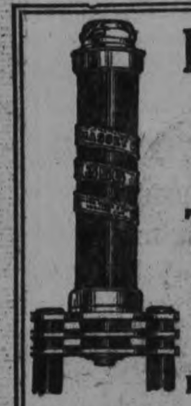
COMRADES VS. G.W.V.A. GAME POSTPONED

This forenoon the Comrades' Football Executive made arrangements to postpone the schedule game for Saturday afternoon at the Oval with the Great War Veterans to some future date. Owing to a number of players being on the sick list, the Vets were agreeable to the change and tried to get the Caledonians to play a league fixture, but the Caledonians found it difficult because they have made a number of previous engagements that had to be filled.

THE P. B. I.

"The P.B.I. or Mademoiselle of Bully Grenay" is Canada's epic of the great war. Written and played by the men who took part in the very scenes depicted, the production is convincingly realistic, having been rehearsed in the firing line for an average of 27 months by each of the actors.

This play is not an exaggeration of the war but the real life of Johnny Canuck in France. He has his good days and his bad days and through it all he comes up smiling and triumphant. For those who were so unfortunate as to miss seeing France in war-time, the chance is now open while those who were there may have the pleasure of living over again the brighter moments with the boys at the Grand on Saturday, 11th of September.



NOW IS THE TIME TO BUY THAT NEW BICYCLE.

Bicycles selling now at $52.00 and $57.00 will sell at $60.00 and $65.00 in the Spring. If you need a new machine or will need one in the near future Order now. No luxury tax on bicycles

PLAY BALL!

Ten million boys are playing ball,
And half a million men;
From coast to coast, from gulf to lakes,
The city kids and country jakes
All hearken to the might call,
"Play ball!"

The baseball parks and vacant lots
Are all chock-full of fans;
Athletic fields and village greens,
Trim uniforms or old gray jeans—
The grown-ups, youths and boyish tots
"Play ball!"

It matters not what race or creed,
Or where the neighborhood—
A ball, a bat, mayhaps a glove—
The game is on, the game we love!
"He's safe on first!" Gee whiz, such speed!
"Play ball!"

Just stop a minute, watch this game,
You simply cannot pass.
You get the spirit in your blood,
Enthusiasm grows a-flood,
Off peals your cost as you exclaim,
"Play ball!"

Can you resist it? I guess not,
If you are human kind,
You watch a moment, beg to play—
You'll take the field, you'll even pay
For just one chance to make a swat!
"Play ball!"

It is the greatest, finest sport,
This melting-pot, Baseball.
If you are down and out of luck
It lifts you up, clear of the ruck—
It makes us brothers, proper sort!
"Play ball!"
—Thomas K. Elliott, Jr., in Kingston Whig.

LAKEFIELD NEWS

LAKEFIELD, Sept. 9.—Misses Gladys Pearson and I. O. Moire, of Toledo, are guests of Mr. and Mrs. D. B. Miller.

Mr. Warren Payne spent the holiday week-end in Toronto at the Exhibition.

Mr. G. Lake, editor of the Powasson "Star," is visiting his brother, Mr. C. Lake.

Mrs. (Dr.) Gibson was in Peterborough on Tuesday.

Mr. Roland Morrison, of Toronto, is with his relatives in the village on a vacation.

The storm on Monday night put the Hydro lights in Lakefield out of commission.

Miss Alice Hill has returned to the Peterborough Business College, where she will renew her studies.

Mr. R. M. Graham spent the Labour Day week-end with Mr. and Mrs. W. M. Graham at "Viamede."

Miss Alice Johnson, of Peterborough, was the guest of Miss Effie Webster for a few days last week.

Mrs. W. Gillman has returned home from a visit to friends in Bobcaygeon.

Mr. A. H. Clarke, of Timmins, is visiting friends in the village.

Miss Myrtle Moore, of Douro, is attending the Peterborough Business College.

Misses Doris and Helen Burgess were in Peterborough last week, visiting friends.

Miss M. Butler spent the holiday in Hastings.

Miss Helen Head, of Peterborough, was the guest of Miss Braden last week.

Mr. James Blackwell, of Best's, was in the village on Monday.

Mr. J. N. S. Dixon and Miss Kathleen Dixon, of Peterborough, were visiting their parents, Rev. and Mrs. Dixon, at The Parsonage last week.

Mr. and Mrs. Harold Kidd and family, who have been occupying Mr. D. H. Charlton's house on Queen Street for the summer, motored home to Toronto on Tuesday.

Mrs. P. Baptie has returned from a visit to relatives in Toronto and Hamilton.

Mrs. Ada Nicholls is in Toronto this week, attending the Exhibition.

Mr. and Mrs. E. White, of Cleveland, are guests of Mr. and Mrs. R. White.

Miss Aggie Miller returned home on Saturday from a visit in Toronto.

Mrs. S. Spence spent Tuesday in Peterborough.

Mr. H. G. FitzGerald went up to his cottage at Sandy Point on Tuesday.

Mr. and Mrs. H. E. Peacock are in Toronto, attending the Exhibition.

Mr. F. J. Moore was in Peterborough on Tuesday.

Mrs. Sutton and Miss Isobel are in Toronto with friends.

Mrs. Grace Burke was in Peterborough on Tuesday.

A Close Call.

Mr. Wm. Bickell of Smith, who lives on the Peterborough road, had a rather close call on Monday night. A chimney in his home was struck by lightning. The electric fluid followed the chimney to the cellar and expended itself in the furnace, smashing the latter to pieces. The furnace was a new one, installed last fall. The family, though badly frightened, sustained no serious injury.

"MY SOLDIER GIRL"

When the musical spectacle, "My Soldier Girl," is presented at the Grand to-night, theatre-goers will be treated to gorgeous costumes, elaborate stage settings, novelties that are new and effective ,a complete new version of book, lyrics and music, and an excellent cast, supported by a bewitching beauty chorus, who present the many stage pictures that make a show a success.

One of the many novel features in the tuneful musical play is a gorgeous stage setting which presents a brilliant follies production on the roof of a New York theatre with a grand illumination of the city in the distance. In rapid succession follows "Flirtation Walk," an illuminated runboard extending out over the heads of the audience on which the clever dances are introduced by bewitching beauties. A lawn fete at Colonel Stone's home, Miami, Fla., with banks of flowers and lights. Novel drills and dance ensembles. The famous "pony" ballet from the roof of a New York theatre, and a brilliant musical spectacle in all its merry making. There are fully some twenty musical numbers, including "My Soldier Girl," "Just For You, Dear," "LaVeeda," "Bundle of Love," "That Dixie Wedding Tune," "I Want a Regular Man," "New York" and "When You Dance With the Girl You Love" are among the real favorites.

"BABES IN THE WOOD"

The master effort of Mr. F. Stuart Whyte in his pantomine, "Babes in the Wood," which comes to the Grand for two nights, commencing to-morrow. Other years have had these English productions under his supervision, and they have all been very popular, but this year the acme of gorgeousness is presented. A dozen magnificent scenes painted and customed by artists of renown comprise the stage pictures, while forty people take part in the entertainment. The dancing this year is under the direct supervision of Mme. Van Vlissingen, who possesses the unique distinction of being the tutor of Isadore Duncan, and with her are Audrey Burnham, Arline Goldsby, Elsie Spielman, and Gloria Thompson, sprightly little queens of terpshicore. Wee Dorothy Mackay is the dainty leading lady, and six famous fun makers headed by George H. Summers will furnish the laughs which interlard the musical and dancing features. Little Gloria Thompson will play "Cupid" and all through the story creates the love interest with charming grace and appeal. The music is by the well-known composers, B. C. Hilliam, Pierre Bayard and Clive Hamilton, who were responsible for the tuneful setting of "Little Red Riding Hood" and "Cinderella." Those who enjoy the pantomine this year will agree that Mr. Whyte has spent his time and his $30,000 to some purpose.

FIND 7 WOMEN'S BODIES TIED UP IN A HEMPDEN BAG

TOKIO, September 8. — The mutilated bodies of seven Russian women, encased in a hempden bag, were recently found in Vladivostok harbor, according to special despatches received here.

FIXES LUMP SUM FOR MACKENZIE INTERESTS

(Canadian Press.)

TORONTO, Sept. 9.—The Star today says that Sir William Mackenzie has fixed the lump sum which he is willing to take for the Mackenzie light, power and radial interests, and has given the Ontario Hydro-Electric Commission a virtual ultimatum to accept or reject it immediately. The price asked is reported to be most reasonable, allowing practically nothing for franchise rights and being on what might be termed a scrap basis. It is millions below the prices first mentioned by electric magnates.

PA'S SON-IN-LAW TAKES A REST

The Examiner is advised that owing to illness Mr. C. H. Wellington, the talented cartoonist who draws "That Son-in-Law of Pa's," has been forbidden after Saturday to work for at least six weeks. During his enforced rest that exceedingly popular comic strip, entitled, "Toots and Casper," by Mr. J. E. Murphy, will be substituted for "That Son-in-Law of Pa's." On Mr. Wellington's complete recovery our readers will be again given opportunity to enjoy the many joyous moments assured by the reproduction in these columns of those humorous experiences which befall "That Son-in-Law of Pa's" from day to day.

WEDDING BELLS

STENSON—McWHINNIE.
At "Idleside," Stoney Lake, yesterday afternoon, a charming wedding was solemnized in the presence of about twenty-five guests, when Ethel Goodfellow, daughter of Mrs. Robert McWhinnie, was united in matrimony to Norman Stenson, son of Mr. Fred. Stenson, of North Monaghan. The ceremony was performed on the porch of "Idleside," which had been most artistically decorated in autumn leaves, ferns and profusions of gaily colored flowers, the bride and groom standing under an arch of evergreens, from which hung a bell cleverly constructed of flowers The bride, who was given away by her uncle, Mr. Felix Bronscombe, looked lovely in her wedding dress of white georgette, embroidered in chenille, over which fell her wedding veil, caught at the sides by the conventional orange blossoms. She carried a shower bouquet of sweetheart roses and orchids.

Immediately after the ceremony, which was performed by Rev. F. E. Majott, a wedding breakfast was served on the porch, after which the bride and groom departed by motor for a honeymoon trip. They will reside in North Monaghan.

HARRINGTON—JACKSON.
On the afternoon of Wednesday, September 8th, Mrs. May Jackson was married to George Frederick Harrington of Millbrook, Ontario. The wedding took place in Christ church, Tamworth, and was conducted by the Rev. S. E. Harrington, the groom's brother. The bride was unattended and looked very lovely in a smart navy tricotine suit and wide-brimmed French hat of navy velvet ribbon. Her corsage bouquet was of sweet heart roses. After a motor trip, including a visit to New York, Mr. and Mrs. Harrington will take up their residence in Millbrook.

CHALTON—BULMER.
In Brantford, in Zion Presbyterian church on Tuesday, September 7th, 1920, the wedding was solemnized, Rev. G. A. Woodside officiating of Ainsley Kathrine, only daughter of Mrs. Sarah Charlton of Lakefield, and Oscar Alexander Bulmer, son of Mr. and Mrs. A. Bulmer, of Peterborough.

ESTIMATED CROP OF AUSTRALIAN WHEAT.

(Canadian Press).

LONDON, Sept 9.—The Australian Wheat Board estimates the crop at 167,000,000 bushels. The record price of ten shillings a bushel is expected by the farmers.

RUN ON SILK SHIRTS THAT COST $18.00 EACH.

CHICAGO, Sept. 9.—Manuel Meyerhoff, proprietor of a general store in the Stock Yards district, testifying here in the Stock Yards' employees' wage hearing, said the cheapest suit of clothing in his store sold for $50.00, and the cheapest shoes were $10.00 a pair. Counsel for the packers and the employees were endeavouring to learn whether prices are higher this year than last.

Meyerhoff said that the Stock Yards employees, especially the younger men, purchased silk shirts in great numbers. "The young fellows between 17 and 24 years are demanding shirts that cost $16.00 to $18.00," he said. "They are the same men who formerly paid $1.50 for their shirts."

When Mr. Meyerhoff was asked if the workers ever complained of high prices, he said: "I should say they do. You should hear them yell, but what can they do? They buy just the same."

Minced boiled ham may be moistened with meat jelly, chilled and coated with mustard.

Social and Personal

Mr. and Mrs. Ed. Hamblin, of of Washington, D.C., are visitors in the city.

Mr. and Mrs. John F. Allin, 205 Sherbrooke Street, returned from Toronto last night after a two-days' visit with friends.

Mr. Robert Scott, of Orillia, is this week spending a few days with his mother, Mrs. Scott, and Mr. and Mrs. J. F. Allin, 205 Sherbrooke Street.

Miss Edna M. Allin is spending a few days in Toronto, visiting the Ex.

Mrs. W. F. Skitch and children returned after spending a very pleasant two weeks' holidays with Mr. and Mrs. W. R. Skitch, Thurstonia Park.

Miss Ada Lee has returned home after spending the past two weeks at Thurstonia Park on Sturgeon Lake.

Mr. Charles Rusaw and Messrs. Wm. and Ross Kelsh, of Glenalda, motored to Peterboro on Tuesday.

Miss Luella Kelsh, McGill street, and Miss Clara Barnes, Orpington Road, motored to Cobourg for Labour Day.

Miss Elia Barnes, of Toronto, and Mr. Harry Clubine, of Brantford, are spending a week's vacation at the home of Mr. and Mrs. W. H. Barnes, Orpington Road.

Mrs. L. Moshier and Raymond are visiting friends in Uxbridge.

Mr. Jas. Phalen, of this city, spent the week-end in Toronto and Niagara.

Mr. Jerry O'Brien and Mr. Henry Austian have returned home from Toronto.

Captain Douglas Pares and Mrs. Pares, who have been staying at Mr. Roland Strickland's ranch at Eel's Creek, Stoney Lake, have returned to their home in Milwaukee, Wis., U. S. A.

Judge Hudspeth, Mr. and Mrs. Hall and Miss Audrey Hall have closed their cottage at Stoney Lake and have gone to Port Hope and later to New York.

Mr. Harry Baldwin and Mr. Harry Casey, of Toronto are visiting Mr. Harry Crubbe at Hazelwood Lodge, Upper Stoney Lake.

Lieut. Eric Scott and Mr. Kenneth Scatt, of Toronto have been guests of Mr. Harry Grubbe at his cottage at Stoney Lake.

Mr. and Mrs. E. P. Clarkson, who have been staying with Mr. and Mrs. Douglas Lundy at Stoney Lake, have returned to Toronto.

Mr. Keith Waters, of Toronto, is spending his holidays with his family at Stoney Lake.

Captain Robert Rushbrooke, of Rushbrooke Hall, Rushbrooke Park, Suffolk, England, is coming out to Canada to stay with his cousins, Mr. R. W. Grubbe and Mr. Harry Grubbe, at their island in Upper Stoney Lake and later will spend some time with Mr. Harry Grubbe in Toronto.

Miss Alice Logan, of New York, is spending the holidays with her parents, Mr. and Mrs. Logan, McDonnell street.

Mr. and Mrs Vincent Eastwood entertained about one hundred of the young people at a dance at their home, Athol Place, last evening after the Matthews-Eastwood wedding.

The out-of-town guests and members of the Golf Club, who were guests at the Matthews-Eastwood wedding were entertained yesterday afternoon at the Golf Club at the dansant by Mrs. T. F. Matthews.

Miss Grace Elston left this week for Boston where she will spend the winter.

Miss Madeline Pearce was in the city for the Matthews-Eastwood wedding.

Miss Lillian Howell has returned to her home in Toronto after spending the past two weeks with Mrs. G. W. Fitzgerald, 600 Gilmour streeet, city.

Mr. and Mrs. D. McQuaig, Sherbrooke Street, are visiting relatives in Madoc and Marmora.

Mr. and Mrs. John A. McVean and small daughter, Mary Trevor, of Dresden, Ont., motored to the city to visit Mrs. McVean's parents, Mr. and Mrs. Cuffe.

Miss Dorothy Addison is in the city visiting Miss Florence Cameron.

Mr. W. H. Bailey, 476 Bolivar Street, left for Detroit, Mich., this morning.

Miss Willa Cuffe, of Toronto, is visiting her parents at 32 Benson St.

Miss Dorothy Lancaster of Toronto returned yesterday, after spending the last few days with the Misses Cuffe.

Mr. and Mrs. D. McQuaig, Sherbrooke Street, are visiting relatives in Madoc and Marmora.

Mr. and Mrs. J. H. Renwick, 567 Aylmer Street, have returned from Toronto.

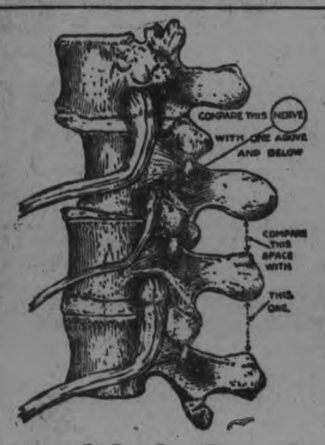
Chiropractic Plus Nature Equals Health



It may not be proper to classify Chiropractic alone, since it is a part of Nature—a Natural process of keeping fit.
There is nothing new or revolutionary to Chiropractic adjustments... They are now as they have been for thousands of years, a part of the natural system which aboriginal peoples use to keep their bodily processes normal.
Chiropractic adjustments remove the cause of disease, which is pressure upon nerves by segments of the spine that have been misaligned from their normal position.
The Chiropractor restores the offending vertebræ to normal position in the spine, relieving the pressure, and Nature restores Health and normality to the body.
We will be glad to tell you frankly just what Chiropractic adjustments will or will not do in your case. See us to-day.

VOL. XVLII. NO. 59 PETERBOROUGH, FRIDAY, SEPTEMBER 10, 1920 PRICE THREE CENTS

FUNDS SENT BY REDS TO LABOR PAPER

THE "HERALD ADMITS RECEIVING SEVENTY-FIVE THOUSAND POUNDS FROM BOLSHEVIKS

ASKS FOR OPINION

(Canadian Press.)

LONDON, Sept. 10. — Admission was made this morning by the "Herald," organ of Labor, that it has in its possession seventy-five thousand pounds of "Bolshevik gold." The newspaper staes the money is being held pending decision by the shareholders as to whether it shall be used. Opinion of accepting the money is asked by the paper, which publishes the admission on the first page under glaring headlines.

Last month, it was reported that the Russian government was subscribing to foreign newspapers for the purpose of carrying on propaganda .The Herald refers to the Soviet funds as a "magnificent demonstration of real working class solidarity and of what the Russians mean by Internationalism."

NEEDS MONEY.

Special to Examiner.

LONDON, Sept. 0. — The Daily Herald, a Radical Labour newspaper, frankly asked its readers to-day if it should accept an offer of $375,000 from Russian sympathisers.

Without this support, it is said, it will be compelled to double its price.

While denying the offer is a Bolshevik subscription the Daily Herald characterized it as a "magnificent demonstration of real working class solidarity," and a "noticeable episode in international serials.

In many quarters the newspaper revelation was regarded as extremely dangerous to the labour movement, and likely to cause an open spit between the extremists and the moderate element.

Sometime ago charges were made that the Daily Herald had been subsidized by the Russian government.

At that time the publishers emphatically denied this and declared a large shipment of newsprint offered by representatives of the Soviet government was purely a commercial transaction.

THE JEWISH HOLIDAY

MONDAY AND TUESDAY WILL BE ANNUAL NEW YEAR'S CELEBRATION

On account of the Jewish New Year's holiday coming on Monday and Tuesday of next week, M. Fine's store will be closed for those two days, and as a preparation for that he will make a special effort for a mammoth day's business on Saturday (to-morrow) by making unsual price reductions on all lines in his store, ladies' ready-to-wear, suits, coats, dresses, waists, skirts, children's clothing, men's wear, millinery and bedding. This day's shopping at Fine's will present an opportunity no one can afford to miss and customers will find many lines at half price and others nearly so. Be sure and find the place, M. Fine, 427 George street, and get a share of the pre-holiday bargains.

PLANE DROPS MEDICAL SUPPLIES FOR BESIEGED.

Disturbed Conditions in Mesopotamia Reported By War Office.

LONDON, Sept. 10.—A War Office communication shows that disturbed conditions continue in Mesopotamia. The insurgents are attacking at various points, but order has been restored in Kifri area by the energetic action of a small column.

An airplane reconnaissance over the garrison besieged at St. Mawas was heavily fired on, but succeeded in dropping medical supplies and rations for two other isolated places.

A concentration of 5,000 of the enemy is reported in this neighbourhood. Aviators report all quiet at Kut-el-Amara.

LIGHT RATE PROTEST ENDS IN TRAGEDIES.

KOTO, Japan, Sept. 10. — Two thousand citizens of the town of Mineyama, enraged at the increase in the price of electric light, attacked and seriously damaged the residences of the directors of the company. Several persons were killed and many injured in a clash with the police.

GOOD EYES INCREASE PRODUCTION.

The need of to-day is increased production, but if your eyes are not efficient you cannot do your share. If your vision is poor or if you cannot comfortably stand working or reading for any length of time, your eyes need attention. See W. H. Lacey, Optometrist, 410 George St.

DANCE AT CHEMONG.

Italian Workers In Turin Capture Three Wandering Citizens

WERE MADE TO WORK IN THE FURNACE ROOM FOR EIGHT HOURS —COMPELLED TO SIGN A STATEMENT.

TURIN, Sept. 10.—Three peaceable but curious citizens, wandering near the plant of the Flat Automobile Company yesterday, were captured by metal workers, who were armed with muskets and revolvers. The men were taken inside the plant, where they were severely cross-examined and searched by the workmen's tribunal, which sentenced them to be set to work at the furnaces. They were stripped of their clothes, given workmen's blouses and compelled to labor for eight hours in the furnace room, where the temperature was above 100 degrees Fahrenheit.

Half-exhausted, the captives were then taken again before the tribunal, which expressed belief in their innocence, but compelled them to sign a statement in which they declared they subscribed to the principle that workmen should arrest, search and identify anybody approaching the works. They were also forced to declare that they approached the works only to satisfy their curiosity, that they had been treated better than any "bourgeois Government" treats its prisoners of war, and that work inside the plant is proceeding to fullest capacity, and they promised not to participate directly or indirectly against occupation of the works, indeed, would agitate in favor of that movement.

WASHINGTON MAKES STUDY OF DISARMAMENT SITUATION

MOVEMENT FOR UNIVERSAL DISARMAMENT PROCEEDING VERY SLOWLY—NATIONS UNWILLING

JAPAN OPPOSED

WASHINGTON, Sept. 10.—Informal investigation has been started by the United States Government of the progress being made by the nations of the world in the movement for universal disarmament.

Inasmuch as control of armaments was made one of the objects of the League of Nations, the inquiry into the movement for universal disarmament has developed, officials said to-day, into an investigation of the present status of the armament control clauses of the League of Nations Covenant.

Without having taken up the main problem of a radical and general disarmament of nations, the League of Nations, according to reports received here to-day in official circles, has begun the organization of machinery for solving the problem. Preliminary investigations and studies of the league have commenced, and some subsidiary phases of the main problem, such as the control of the manufacture of munitions and of the use of gas in warfare, have already been discussed with a view to reaching a universal agreement.

Control Clauses.

Orangization of the "Advisory Committee on Military, Naval and Air Questions" as provided in the League covenant for advising the council on the means for execution of the armament control clauses of the covenant was made by the League Council, according to official advices, in Rome on May 17. At that time the question of disarmament in its broadest phase was not considered, and it was understood that it would not be considered by the League immediately. Some of the smaller nations of the League pressed very anxiously but vainly at that time, according to the advices, for the taking of steps looking to the application of the control clauses of the covenant.

In August the Advisory Committee on Military, Navy and Air Matters met with the League Council at San Sebastian, Spain, where its first agenda was, according to official advices as follows:

"Elaboration of the regulations on the League as to the military, naval and aerial forces and armaments of States requesting admission to the League; control of the traffic in armament and munitions, use of poison gas in warfare and duties of the committee as to the eventual exercise of the right of the League of Nations to make investigation at any time in Germany under the Treaty of Versailles."

American Co-operation.

As a result of the necessity of seeking American co-operation, whether within the League or without, in any effectual program for the limitation of armaments, the official advices reported that early action on any scheme for universal disarmament was not to be expected. At the same time, the clashing of the nationalistic interests of many nations also was recognized as temporarily obstructing any plans for the immediate reduction of armaments.

Advices from Japan have indicated that strong opposition exists there against any limitation of armaments, as it is claimed that Japan, on account of her peculiar position, is entitled to exception by other nations from any program for disarment. Inquiries from other sources have indicated an unwillingness on the part of other nations to consent to reduce in any way their armaments short of the most universal co-operation of all other Governments.

Canada's railways have placed rolling stock orders aggregating many millions.

A BIG CUT IN WOOLLEN PRICES

BUYERS SURPRISED AT THE EXTENT OF THE REDUCTION

NEW YORK, Sept. 9.—Woollen buyers discovered to-day that the American Woollen Company had made cuts of from 15 to 25 per cent. in its products compared with prices of a year ago.

The fall exhibits of the company was opened here to-day, and thereby the discovery was made when price lists were examined.

Some buyers had expected a reduction in prices, but all were surprised at the depth of the cut made.

TRAINS TOOK MANY CITIZENS TO EXHIBITION

Far more people took the train to Toronto this year than motored, in the opinion of A. MacNab, local agent of the C.N.R. Passenger travel to Toronto the last week has far exceeded that of last year. The high price of "gas" and the increase in the upkeep of a car may be the cause of this. Mr. MacNab believes the difficulty of handling a car in the rush of traffic in Toronto at Exhibition time, and the mishaps many local drivers have met with has deterred many from making the trip by motor.

MINISTER OF MILITIA LEAVES FOR ENGLAND

HON. HUGH GUTHRIE WILL ATTEND CONFERENCE IMPERIAL WAR GRAVES COMMISSION

(Canadian Press)

NEW YORK, Sept. 10.—Hon. Hugh Guthrie, Minister of Miltia and Defence, said with Mrs. Guthrie on the Imperator yesterday for a trip to England, where on Sept. 21 he will attend the conference of the Imperial War Graves Commission, composed of delegates from all parts of the British Empire.

Later he will go to France to see the extent of the progress of the work in the erection of eight war memorials for members of the Canadian expeditionary force who fell in action. It will be two years before the memorials are completed. At present the work is on the roads and the approaches to the memorials.

The Minister will on Sept. 24 attend the first financial conference of the League of Nations, and he will act as the delegate, with two financial advisors who are already in London.

LOOK AND LISTEN!

WHY NOT COME WITH THE BOYS OF THE 93RD TO THEIR SECOND ANNUAL RE-UNION AND PICNIC AT WALLACE'S POINT, BY THE STR. STONEY LAKE, TO-MORROW (SATURDAY). GOOD RACES, OPEN TO ALL COMERS, WITH LOTS OF FINE PRIZES. THE OLD 93RD BAND WILL BE IN ATTENDANCE, AND THERE WILL BE DANCING ON THE GREEN. COMMUNITY SINGING ON THE BOAT, LED BY THE BAND, WITH ALL THE OLD-TIME SONGS. BOAT LEAVES GEORGE STREET WHARF AT 1.30 P.M. ADULTS, 50c; CHILDREN (OVER 6), 25c. ALL ARE INVITED.

1d-60-2425

RESCUE WORK SHOWS SCOPE OF DISASTER

SURVIVORS TAKEN FROM RUINED TOWNS IN EARTHQUAKE CENTRE

MANY HOMELESS

(Canadian Press.)

FIVVIZANO, Italy, Sept. 10.—The survivors of Tuesday morning's earthquake, which laid the once flourishing city of Fivizano in ruins, are as the hours pass, coming to realise more and more the extent of the calamity that has befallen them, and they seem stupefied with the horror of the disaster.

The work of rescue went on all last night, and doctors, sanitary assistants, sailors from the Italian Dreadnought Cavour, students, nurses, and volunteers wore themselves out in their efforts to bring comfort to as many sufferers as posible.

Motor lorrie are beginning to arrive regularly, bringing cooked food for the men engaged in the work of excavation. Portable ovens are being set up, since there is hardly a house standing in the city.

As in former earthquakes, some families have been rescued almost without injury from the ruins of their homes, while in other cases every inmate of the shattered dwellings was killed.

NEED CEMENT FOR COUNTY CULVERTS

OTHERWISE GOOD ROADS PROGRAMME IS PROCEEDING SMOOTHLY

The county's good roads operations are proceeding, according to the programme mapped out by the Special Committee, and the work will likely continue until winter is close at hand The scarcity of cement has held up for ten days the building of culverts, but the other improvements are reported by Mr. D. MacFarlane, the superintendent, to be shaping out, according to schedule. Otonabee's share of this year's allowance was spent sooner than that of the other townships on account of an overdraft from last year of money that had been spent in Otonabee. The county's total appropriation will be expended before winter comes, but in the meantime there are the funds for the suburban road work which will carry the activities late into the fall. A meeting of the Good Roads Committee will be held at the Court House next Tuesday.

TRAGIC ENDING TO A MERRY GATHERING

SAD SCENE ENACTED IN THIS MORNING POLICE COURT

A tale of a merry little party, in which the principals were three local young men, two female members of the "My Soldier Girl" company which played at the Grand yesterday, a gallon jar and a quart bottle of whiskey, and ended in the theft of the whiskey and a charge of the theft of a watch and money from one of the young men, was aired in this morning's police court.

The young men motored beyond the city limits early last evening and disposed of a quart bottle of whiskey. Returning to the city they added two girls from the "My Soldier Girl" company to their party and drove to the south end in quest of more forbidden fluid with which to entertain the ladies. The whiskey was secured, but for some unknown reason the ladies deserted the party for two other men, who, as one of the trio put it this morning, "probably had more whiskey than we did."

Deserted, the three proceeded to a cafe. The driver entered the cafe, and in the meantitme a second member of the party disappeared with the gallon of whiskey belonging to the third man. On the return of the driver of the car from the restaurant the victim of the theft accused him of being a party to the theft. The two drove toward home, arguing over the matter and eventually the victim of the theft seized the driver and demanded his watch and money as security for the return of his whiskey. The driver objected but his assailant was insistent and accomplished his purpose.

Whereupon the driver proceeded to the Canadian Pacific Railway station and telephoned for the police. The loser of the whiskey was placed under arrest and this morning was charged with the theft of the watch and money and having liquor in a place other than his private residence. The charge of theft was dismissed but the second charge was pressed and he was relieved of $109.10.

Canada will supply $1,250,000 worth of asbestos roofing for French reconstruction.

Sugar Control Is A Boon In New Zealand Says Former Minister

TWELVE CENTS PER POUND IS THE PRICE IN NEW ZEALAND NOW —HAVE FARMER GOVERNMENT TOO

TORONTO, Sept. 10.— "Sugar is selling in New Zealand for 12 cents a pound, and until July 1 sold throughout the war at 6 cents." Such was the answer made by Hon. George Fowlds, C.B.E., of Auckland, New Zealand, when asked whether there were a sugar "situation" in that Dominion. The low price in New Zealand Mr. Fowlds attributed to the action of the Government in making arrangements with the refineries.

Hon. Mr. Fowlds arrived in Toronto yesterday morning. He reached Vancouver three weeks ago, and since that time has been touring the country on a combined business and pleasure trip. He was formerly Minister of Education in New Zealand, and is taking particular note of the educational system here.

Bought Empire Output.

Mr. Fowlds went into the sugar question fully, and explained to his interviewer the steps the Government had taken to control the price. The Government had practically bought the whole output of the refinery that supplied New Zealand and then had handed it back for distribution at a set price.

Sugar had sold at six cents a pound from 1914 until July 1 of this year. Then the Government had agreed to a twelve-cent price. At six cents the refiners had made a good profit. They were not grumbling at all about the profit they were making now at twelve cents, Mr. Fowlds stated.

More and more the taxes in New Zealand were being levied from the land, Mr. Fowlds said. A national tax amounting to $7.50 per head of population was levied direct on land, and municipalities were given the right if they wished to exempt improvements from taxation.

Have Farmer Government, Too.

Cities that had followed this course had gone ahead rapidly. New buildings had sprung up and, despite the tax, vacant land had become more valuable on account of the growth of the community. Towns that had adopted this system of taxation had grown nearly twice as fast as towns that had clung to the old system.

Already a measure of proportional representation had been introduced, and Mr. Fowlds predicted that it would soon be in general use.

When asked if New Zealand had anything corresponding to the U.F.O., Mr. Fowlds replied that the farmers controlled the Government there as much as they did in Ontario, though officially they were not in power. The Conservative Administration remained in office through the sanction of the "Farmers' Union." Were the farmers to turn against the Government it would have to resign.

CANADIAN FLEET TO BE MANNED BY CANADIANS

LETTEER CARRIERS ARE GRATEFUL FOR ASSISTANCE

The Peterboro Branch of the Federated Association of Letter Carriers take this opportunity of thanking Mayor McIntyre and the City Council, Mr. Edgar Worth and the other members of the Board of Trade, Mr. T. H. Lane and all the citizens who so kindly assisted in making the convention of the Federated Letter Carriers of Canada such a complete and gratifying success.

CRUISERS AND DESTROYERS WILL ARRIVE AT HALIFAX NEXT MONTH.

(Canadian Press)

HALIFAX, Sept. 10.—The Cruiser Aurora and destroyers Patriot and Patrician, which will arrive at Halifax in October, will be manned chiefly by Canadians, according to information given out this morning at the Naval Department.

The Patriot will be commanded by Lieut. C. T. Beard, grandson of the late Chief Justice Taschereau, of the Supreme Court, and the Patrician will have at her head Lieut. R. C. Jones, a young British Columbian, who enlisted in the Canadian naval forces previous to the war. Capt. H. C. W. Adams, of the Royal Navy, commands the Aurora. All officers on the destroyers are Canadians and also a number on the cruiser.

Review at Quebec.

Following the arrival of this little fleet they will be taken for a review at Quebec, Three Rivers and Montreal.

MAN BADLY SHOCKED BY ELECTRIC WIRE

HOOK CAUGHT LINEMAN BY THROAT WHEN THROWN FROM POLE

TORONTO, Sept. 10.—Coming in contact with a wire carrying 13,200 volts while working on a telephone pole opposite Lever Bros. works, Eastern Avenue yesterday afternoon, James Craig, aged 52, a Bell Telephone lineman living at 73 Scollard street, was badly shocked, torn from his hold and in plunging downward was caught by the throat by a climbing hook embeded in the pile. He is in St. Michael's Hospital and his condition is reported as very favorable.

Craig was rescued from his perilous position by George Wood, 84 Bartlett Avenue, and William Love, 538 Brock Avenue ,fellow linemen. With ropes, Wood and Love managed to lower the unconscious Craig to the ground in safety. Foreman Belanger, 4 Whitby Avenue, and Constable Beach gave first aid, and when pulmotors were sent by the police and Live-saving station ,operated the apparatus, Dr. Armstrong, 149 Broadview Avenue, was called and ordered Craig's removal to the hospital. Examination of the injured man showed that he was badly burned about the hands and body and had a bad gash in his throat.

RECEIPTS FROM INLAND REVENUE TAKE JUMP.

(Canadian Press.)

OTTAWA, Sept. 10. — Receipts from inland revenue as a result of the luxury and other special taxes imposed, have taken a big leap forward. For the five months ending August, the receipts were nearly $21,000,000, while during the corresponding month last year they were $7,750,000. For the month of August alone, receipts were four times larger than in August, 1919.

LOST SON WRITES HOME.

A Woodstock mystery which had its origin about six years ago was solved Wednesday by the receipt of a letter from her son, Jack, by Mrs. Charles Chisnel, Railway Street. Just previous to the commencement of the war Jack Chisnel disappeared. He left no word as to where he was going, but simply vanished. Advertisements were placed in newspapers in all the large centres in Canada and the United States, but to no avail. His letter states that he is now in River Inlet, B.C., engaged in the salmon fishing industry, but he gives no explanation of his long silence.

BOLSHEVIKI CONCENTRATE FOR ATTACKS

POLES DELIVER SERIES OF SUCCESSFUL ATTACKS AGAINST THE REDS

MANY PRISONERS

(Canadian Press)

CONSTANTINOPLE, Sept. 10. — Russian Bolshevik forces are being concentrated to make a desperate effort to recapture Kokova, an important town on the south side of the Dneipor River, forty-five miles above Kherson, before the fall rains deepen the mud and make campaign impossible. The British say Indian troops, which have formed a garrison at Ismid but who have been relieved by Greek forces, are leaving for Mesopotamia where Arab tribesmen are engaged in scattered outbreaks against the British.

SUCCESSFUL ATTACK.

(Canadian Press)

WARSAW, Sept. 10.—Polish armies on the northeastern front delivered a series of successful attacks upon the Russians yesterday and took thirty-three hundred prisoners, four guns and two armoured trains.

WILL OPEN DRIVE ON DELINQUENTS

TRUANT OFFICER MILLER WILL GO OVER THE TOP NEXT WEEK

Parents who are inclined to be delinquent in the matter of sending their children to school are reminded by School Attendance Officer F. Miller that he is still "on duty." Next week he hopes to institute a drive to enforce the attendance at school of pupils who have in the past, and he believes they do yet, show a marked aversion to a close acquaintaneeship with the text books and the fundamentals of an education to be derived from them and close attention to the teacher's orations.

There are too many parents who do not consider schools a necessary adjunct to our 20th century life and will not send their children to school, he stated.

WHERE TO GO TO-NIGHT

GRAND—The Babes in the Wood —a Pantomime.
ALLEN—William S. Hart in "Blue Blazes Rawden."
EMPIRE—Marion Davis in "The Belle of New York."
REGENT — Peggy Hyland in "Faith."

—WANTED—

COUPLE OF SMART GIRLS.—APPLY LAVOIE KNITTERS (COR. HUNTER AND MARK STREETS).

LAKEFIELD RECTOR RESIGNS

Rev. Walter Archbold Resigns on Account of Ill-Health.

LAKEFIELD, September 0. — Rev. Walter Archbold, rector of St. John's Church, Lakefield, has resigned due to ill-health. His resignation will take effect at the end of September. Rev. Mr. Archbold has been associated with St. John's church for one year.

WINDSOR WEATHER BUREAU FOR WESTERN ONTARIO.

(Canadian Press).

WINDSOR, Sept. 10. — Announcement was made last night of the establishment here during this month of a Government Weather Bureau, which will serve western Ontario. Negotiations with the Director of Meteorological Service, Toronto, were conducted by W. C. Kennedy, M.P. for North Essex, and W. C. Low, Principal of the Windsor Collegiate Institute. Two science masters of the Collegiate, R. A. Brunt and P. M. Thompson, will be in charge of the work.

Peterboro' Industrial Exhibition Notes

The Floral Tent alone will be worth the Price of Admission.

The New Poultry Building will be filled to the roof.

The Maple Leaf Attractions and Superior Shows United will be located on the Football Field on the East Side of the Grounds.

No Change in Admission— Adults 35c—Children 15c.

M

For Play Ground and Class Room

Now that the classroom and playground again occupy the overflowing energy of boyhood — mother is confronted with the need of supplying numerous school day wants.

Not the least of these is the need of a new suit — possibly first longs—for the young man attending Collegiate.

M. & M. values enable you to KEEP the boy WELL dressed at a moderate price.

Epworth League Re-opening.

The Epworth League of the Millbrook Methodist Church will hold its re-opening service for the fall and winter season on Monday, 13th September, at 7.45 p.m., in the Sunday School Room. A special programme, followed by a social good time, is prepared. Come along and bring your friends. Everybody welcome.

The Late Miss Dean.

Death removed on Friday, 3rd September, a highly respected citizen in the person of Miss Dorothy Dean, who passed away at her home, King Street East, Millbrook. Deceased was a faithful member of the Methodist Church, a consistent Christian and a kindly neighbour. The funeral to Gardiner's Cemetery on Sunday was very largely atended. Services at the family residence and the grave were conducted by Rev. S. Tucker. Canon Allen also spoke in the highest terms of the late Miss Dean and her family. Besides her two sisters, the Misses Harriet and Sarah, deceased is survived by one brother, Mr. Armstrong Dean, of Toronto; two nephews, Dr. W. E. Dean, of Toronto, and Mr. George Dean, superintendent of Education in British Columbia.

NOGIE'S CREEK A HEALTHY SPOT

GROWING IN POPULARITY WITH HEALTH-SEEKING VISITORS

NOGIES CREEK, Sept. 10. — A large number of summer visitors have returned after holidaying here.

The number of boarding houses are increasing each year, showing that the number of summer guests are increasing also.

No Sickness.

There has been no illness this summer in our neighbourhood. None of the prevailing diseases have reached us here.

Crops Large.

The crops are large, except where grasshoppers spent their time destroying pastures. Otherwise everything is abundant, both in garden and field.

Many Guests.

"The Cedars" has had an exceedingly prosperous business this summer, from fifty-five to sixty being an average register.

"Cedar Wylde," which is only a few rods from "The Cedars," had also a goodly number of guests, considering that this is their first year.

N. Crowe, proprietor of "Cedar Wylde," was for many years proprietor of "The Cedars," and was pleased to meet many of his former guests this summer.

There are three other boarding houses on the north side of the lake, and they also had many boarders the past season.

Personal Mention.

Mr. and Mrs. George Ray, of Saskatchewan, who have spent the summer here with friends, have not yet returned home.

Mr. W. Hamilton has moved his portable sawmill to the short of Tate's Bay, and is doing a good business.

Mr. and Mrs. Croft, of Bobcaykeon, motored to Toronto on Sunday.

Mr. and Mrs. Woollard, of Bobcaygeon, motored to Toronto for the Exhibition.

Mr. John Cairndoff, who has been spending a few months in this neighbourhood and Bobcaygeon, has returned to the West.

Mrs. Emory Taylor and little Miss Telma are visiting Mrs. Taylor's parents, Mr. and Mrs. N. Crowe of "Cedar Wylde."

The Misses Vina and Nellie Cairndoff are visiting their grandparents at "Cedar Wylde."

Notice to Creditors

IN THE MATTER OF THE ESTATE OF ELLEN GRAHAM, LATE OF THE CITY OF PETERBOROUGH, IN THE COUNTY OF PETERBOROUGH, SPINSTER, DECEASED.

Notice is hereby given, pursuant to the Trustee Act, That all Creditors and others having Claims against the Estate of the said Ellen Graham, who died on or about the second day of July, 1918, are required, on or before the 15th Day of August, 1920, to send by post prepaid or delivered to the undersigned Solicitor for Helen S. Roger, the Administratrix of the Estate of the said Deceased, their Christian and surnames, addresses, and descriptions, the full particulars of their Claims, the statement of their Accounts, and the nature of the Securities, if any, held by them.

And further, take notice that after such last mentioned date the said Administratrix will proceed to distribute the Assets of the Deceased among the Parties entitled thereto, having regard only to the Claims of which she shall then have notice, and that the said Administratrix will not be liable for the Assets or any part thereof to any Person or Persons of whose Claims notice shall not have been received by her at the time of such distribution.

Dated this 15th Day of July, 1920.
JAMES FORDYCE STRICKLAND,
124 Hunter Street,
Peterborough, Ont.,
Solicitor for the Administratrix.

THE FIRE DEPT. CONTROVERSY

Editor The Examiner:

Dear Sir,—With your permission I would like to express my opinion on the finding of the Fire, Water and Light Committee's investigation re fire brigade inefficiency. To my mind it is one of the most unfair and one-sided investigations in the history of our City Council. The deciding factor of it passing smoothly to its forecasted conclusion, as stated in your paper last night, was the fact that the suggestion came from the Trades and Labour Council. While Ald. Whitehouse said he had the greatest respect for the Labour Council, yet he failed entirely to conceal the fact that because it came from that quarter he was prepared to lower his manhood rather than give justice. I might say that I have no more use for the Board of Trade than Ald. Whitehouse has for the Trades and Labour. I know this should not be so as our interest should be one in common, but we don't seem to be educated up to this point. During my short term in the City Council there was a request came from the Board of Trade asking for the Council's co-operation in trying to secure a better train service to and from Peterborough. This I went into with heart and soul because it was in the city's interest and should it ever become my misfortune to find myself in a similar position, I would give justice irrespective of class or creed that demanded it. This cannot be said of the present members of the Fire, Water and Light Committee.

In reviewing the finding of their investigation I cannot see any reason for the dismissal of Fireman Menzies as he proved efficient so far that he told the chief not to turn the ladder at the Metal Products fire, which the chief took no notice of, the result being the ladder broke and fell down amongst the men. Menzies at the Neil fire also suggested a line of hose to be taken to a certain position. This the chief refused to do till a gentleman of our city, supposed to be Mr. Bradburn, asked if it could be done. After allowing the line to be laid the chief admitted it was a mistake in it being removed by the automobile, which tore it out of the hands of the firemen.

In Fireman Lebar they claim he did not exercise proper care in having his horse brought out, which got away from him through carelessness. At the same time they suggest to the chief that the general efficiency of the horse should be improved by continuous training which would be sufficient for them to run under their collar when the fire signals sound. This, to my mind, is a graver insult to the chief than the action of the men in taking their grievance to the Labour Council. They made suggestions too numerous to mention here and suggestions that did not need to be made if our chief knew his duty. No greater proof of the men's claims being justified than that of the hose drill that took place yesterday 150 yards from the fire hall. It took 5 minutes and 10 seconds before water was coming from the line of hose. Compare this with the underwriters' test of about two years ago when an alarm was sent in from the De Laval. The brigade turned out and had water coming from the hose in 3 minutes and 5seconds.

Now I feel sufficient has been said but before finishing I feel it would be unfair of me not to say a word of appreciation on behalf of Ald. Turner, who returned to Council after a holiday spent in the old land. I cannot say I see things always from the same angle as Ald. Turner, but he is one who has the courage of his convictions and always uses good common sense and judgment in his arguments which has brought him very much in favour of the working people of this city, and I regret very much he was not at the investigation.

CARS COLLIDE.

Ex-Mayor Duncan's Car Was Slightly Damaged.

At 7.40 o'clock last evening an automobile driven by Earl Edwards, of 155 Aylmer street, ran into an automobile driven by ex-Mayor George Duncan at the corner of George and Hunter streets, smashing the rear left mudguard.

Edwards apparently did not see the other car until it was too late to stop, and offered to make good the damage.

Belgium is spending $10,000,000 on Western Canadian cattle.

NO PEACE BETWEEN JAPS AND RUSSIANS

NOTE: The following statement of the relations between the Japanese and the Far Eastern Republic of Siberia was obtained by the Associated Press corespondent in the course of a journey from Vladivostok across Siberia and Russia to Moscow and Finland.

VERKHNE-UDINSK, SIBERIA. — Representatives of the Far Eastern Republic recently established here, have been frustrated in their efforts to make peace with the Japanese military command in Siberia by the refusal of the latter to treat with them except as concerns territory west of Chita, according to a statement by A. M. Krasnotchekoff, Foreign Minister of the new Republic, to the Associated Press correspondent. Parleys were broken off when the Russians insisted that the scope of the negotiations should embrace the entire Far Eastern situation, should assume an international aspect instead of parleys between military commands, and that military operations should be completely suspended while the negotiations were in progress.

Efforts of the Far Eastern Republic to establish friendly relations with the Japanese even at the expense of surrender temporarily of sovereign rights to a wide belt of territory, were described by Krasnotchekoff, as follows:

Peace Parleys.

"Parleys between the Japanese military mission and a mision of the Far Eastern Republic were begun on May 24 at the station Gongota, between the Japanese-Semenoff, and Russian fronts, about 70 miles west of Chita. The Japanese mission, headed by Colonel Rurosawa, presented three demands, namely that the Soviet army must return west of Lake Baikal; that a neutral zone be established west of Chita 70 miles in extent and containing no armed force, that free transport and communications be established and that the Japanese have representation in the railway management.

"The Russians replied that the Soviet army had not progressed beyond the left bank of the Selenga River (southwest of Lake Baikal) and that the question of their return west of Lake Baikal, must be taken up by Japan with Soviet Russia.

"The Far Eastern Republic Mission proposed that the railway in the Chita and Stretensk districts be considered within the sphere of influence of the Japanese military command in Siberia temporarily, until an agreement regarding Japanese evacuation could be reached; and that through transportation and communication be established eastward.

International Conference.

"The Russians insisted upon parleying regarding the Far Eastern situation as a whole; that fighting cease on all fronts, and that the negotiations assume the aspect of an international conference instead of parleys between the two military commands.

"On May 25 the parleys were interrupted because the Japanese wished to discuss the situation west of Chita only, stating that they were not authorized to do more.

"On June 2 Krasnotchekoff sent a memorandum to General Oi expressing surprise that the Japanese mission was not empowered to treat with the Russian mission and repeating the offer that the pre-Baikal railways be considered temporarily within the Japanese sphere of influence, thus practically renouncing sovereign rights in this territory for the sake of peace."

SWEEPING CHANGES AT AMERICA'S GATEWAY

NEW YORK, Sept. 10.—Sweeping changes are being made at America's gateway—Ellis Island—by Immigration Commissioner Frederick A. Wallis, who proposes to make the big immigration station more comfortable for the newcomers to the United States.

Freedom and sunshine is being planned for the new arrivals by the Commissioner, who has just announced plans for improving conditions in general on the island. Larger buildings are to be asked, he said, sanitary conditions improved, additional cots provided for those unable to get beds and many other conveniences for the immigrant are to be installed.

Kind Treatment.

Kind and decent treatment for all new arrivals has been demanded by Commissioner Wallis, who has already announced the discharge of some of the veteran attendants for alleged harshness or inefficiency in receiving immigrants. Their places have been filled by more courteous, attentive and younger men.

Representative of U. S.

"I propose to make this receiving station representative of all America promises," he said.

Commissioner Wallis asserted that he planned to install baths at the island in order that every individual entering the country will be given a bath and have his clothes sterilized before he enters the station.

"They made our soldiers do this," he said, "so why not make our immigrants. This will be a big step towards preventing disease from entering our gates and will have a great moral and physicological effect."

One of the latest improvements by Commissioner Wallis has been the supplying of warm milk to mothers with babies. This was done as soon as the Commissioner learned that chilled milk made the infants sick.

When he learned that hundreds of immigrations were jammed in the detention pens, the Commissioner ordered the liberation of the occupants and gave them the freedom of the large examination hall.

Remove Radicals.

Commissioner Wallis has appealed to Washington to remove the alleged radicals and anarchists detained at the island for deportation, because of the crowded conditions at the immigration station.

"They are a defiant lot and should be deported," he said. "They occupy a room that could accommodate a couple of hundred immigrants."

Stop Crafting.

Railroads have also been asked by the Commissioner to provide better transportation facilities for the immigrants and stop employees from "grafting" from the newcomers. He also wants them to be properly fed while being detained for entrainment.

While funds are not immediately available for improvements at the Island, Commissioner Wallis said, he will ask Congress to provide the money. He said that he had already asked permission to raise funds by public subscription if the necessary money could not be provided by the Government.

Wm. C. Kendall, of Newark, is suing a drug store for $10,000. He says that after using a hair tonic they sold him his head expanded to twice its size, that for two weeks he was unable to see and suffered intense pain.

"Peterborough Presents Possibilities Unsurpassed."

FRIDAY, SEPTEMBER 10TH, 1920.

A SERIOUS MATTER.

The worst thing about the authorized increase in freight rates is not the actual increase itself, although that is bad enough. The trouble is that when the added freight charges are passed on to the public, as of course they will be, the consumer will find that his goods are costing him practically 100 per cent. more than the increases in rates will amount to. Mr. Hugh Blain, President of the Canadian Wholesale Grocers' Association, declares that the result must be to raise prices again to a very high degree because the extra impost will have to be paid twice in many cases, freight being paid first upon the raw material and again on the finished product. The judgment of the Railway Commissioners is being roundly condemned by the press and public and rightly regarded as a serious matter for the whole country. Confidence in the Board has been shattered by the decision and there is an agitation to appeal directly to the government and seek redress from that quarter.

MARKETING METHODS.

Most people who have read with their mouths watering the descriptions in the newspapers of the fruit trees in the Niagara district bent almost to the ground beneath their weight of fruit and who have afterwards found that fruit of all kind was selling at high prices in the stores, have ben at a loss to understand the situation. The fault seems to lie primarily in the poor methods that exist for bringing producer and distributor together. It is a sign of lack of business efficiency on the part of Canada that fruit should be allowed to rot on the trees while the consumer in the city is paying good prices, Canadians pride themselves upon their modern business methods, but the fruit situation is proof that we still have a lot to learn. There must be some practical scheme for marketing at much less expense than under present conditions. The man who puts it into effect will be a benefactor to the whole country.

THE COST OF LIVING.

The foundation in Ontario of the Producers' and Consumers' League leads the Montreal Star to declare that "most of our attempts to reduce the cost of living on this continent have been sporadic and hysterical." Our Montreal contemporary is undoubtedly correct. The various campaigns that have been undertaken have commenced with enthusiasm and soon petered out without producing any appreciable reduction in the cost of living. The overall "drive" is one notorious example of a campaign that was widely entered into and enthusiastically advertised and yet failed to achieve the purposes for which it was created. And there have been other efforts ,although not quite so spectacular that met with the same general effect. The remedy suggested by the Star is common sense rather than commotion. Thrift in buying and an increase in production are two policies that will help to adjust the situation and the former should be employed until the later has restored conditions to somewhere near their normal state. As the Star puts it, "All the drives in the world directed against shoes or sugar, pins or pianos, or anything else which we have to use, are just waste time."

THE EXHIBITION.

With the people of Peterborough and district the big matter of interest during the next couple of weeks is the Peterborough Industrial Exhibition, which this year goes a day closer to the week's fair that is the ambition of the Exhbition Board and that in view of the steady advancement that has been made promises soon to be a reality. This year the Exhibition will be held for four days, and upon the success of the experiment will depend whether or not the time will be further extended next year. The people can do their part not only by their attendance at the Exhibition but by enthusiastically "boosting" the big event wherever they may be and in their letters to their friends. What is desired in Peterborough is an atmosphere of enthusiasm in regard to the fair such as is found in Toronto in connection with the Canadian National. In the Queen City everybody from the newsboy on the street to Mayor Church is a press agent for the Exhibition. There is a civic pride in the big annual event that makes every citizen a worker for the success of the "Ex" and the attendance figures are more closely followed in the newspapers every day than are the baseball reports or the stock market quotations. This great interest is one of the chief reasons why the Canadian National is setting up new records in attendance.

In the past few years there has been an awakening interest on the part of the people of this district in the Peterborough Exhibition. Whereas citizens were accustomed to speak of the fair with a sort of patronizing indulgence and refer to it as being "the same old thing every year," they are now enthusiastic over the annual event. They have been impressed by the progress that has been made, the transformation of the grounds, the increase in the exhibits, the superiority of the amusement features and the thousand and one signs that behind the Exhibition is a hustling, live coterie of workers. This year the Examiner has no hesitation in advising the citizens that they will be on safe ground in commending the Exhibition to their friends—it promises to be a record-breaker in every respect.

AT THE ALLEN

J. G. Hawks, who has furnished Wm. S. Hart with as many vehicles as any author, is enthusiastic over his latest scenario, which is a story of the Canadian Northwest and is the fourth Hart photoplay produced by Thomas H. Ince for Artcraft. It is entitled "'Blue Blazes' Rawden," and will be shown at the Allen Theatre to-day and to-morrow.

Mr. Hawks' contention is that "Bill" Hart is always big and convincing in any atmosphere or in any surroundings, and that his admirers will welcome an incursion into new territory. So the great delineator of western types on this occasion doffs the sombrero and chaps and goes through five reels of thrilling adventure garbed in the mackinaw, fur cap and moccasins of a Canadian lumber jack. The horses of the Hart company have enjoyed a well-earned holiday, and will be in a fine fettle for the next Western story.

THE P. B. I.

Come and laugh through an evening with the troops. The Great War was not quite all mud and crumps. Wander into Julie's estaminet and visit No. 16 Platoon in a real cushy billet. Listen to the language of the troops, hear their quips and jests, and laugh with them. If 'Erbert 'Awkins does "grouse," don't forget that he and his kind are of the die-hard breed.

If your son or nephew landed at the Front with "his" commission, come and see what a time he had. Maybe he hasn't told you all about it. Now you will understand why he is so glad to meet any of the men who served in his platoon.

Hear marching songs and trench ditties which helped to make the rough sports easier. But first, last, and all the time, find out the spirit that carried the Army through until the war was won. See the Poor Bally Infantry "carrying on" in the Great War, at the Grand Theatre on Saturday, 11th September.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Sept. 10.—The price trend of securities continued irregular at the stock market opening today. There was a good volume of buying. Anaconda opened off 1-4 at 53 3-4; U. S. Steel 89 5-8, off 1-8; Sinclair 31 5-8, off 1-8; Reading 92 3-4, up 1-2; Studebaker 62 5-8, unchanged; Crucible 125, up 1; Southern Pac., 94 1-2, off 1-4; American International Corp'n. 77 1-4, off 3-4; Pan-American 92, up 5-8; Texas Co.. 51, unchanged; General Motors 21, off 1-4; New Haven 33 3-4, off 3-8; Atlantic Gulf 136, unchanged; Mexican Pet. 173, up 3-8; Houston Oil 107, up 1-2.

The market acted well during the first hour, with Houston Oil leading stocks of this class. Houston reached 110 1-8, a new high on the present movement. American International ran up to 78 -34.

EXCHANGE MARKET.

NEW YORK, Sept. 10.— Foreign Exchange was easy at the opening today. Sterling Demand opened 83.51 1-4. Francs Demand .0671, Lire Demand .0438, Marks Demand .0187; Cables .0188; Canadian Dollars Demand $.9060.

CONSTABULARY BEING ARMED

(Canadian Press.)

DUBLIN, Sept. 10.—Service rifles for the police. The Irish constabulary are being supplied with up-to-date weapons.

REDS PLAN FOR A DRIVE.

Ten Thousand Reds Escape from Prussia.

(United Press.)

WASHINGTON, Sept. 10.—The Reds are reported to be planning a fresh drive on Warsaw.

LONDON, Sept. 10.—Ten thousand Reds have escaped from Prussia under cover of the Lithuanian advance.

ON SATURDAY WE MUST DO THREE DAYS BUSINESS IN ONE

Monday and Tuesday being our holidays, our store will be closed on those days. In order to make up for lost business, we are giving extra good values on Saturday, and if value counts, we will certainly do a big business on Saturday. In fact we have bought a large stock of cancelled orders from a large manufacturer, but as we have not yet received invoices we cannot advertise these lines. However, all will be on sale Saturday, so do not fail to come and see them.

A LADY'S SEMI-BROGUE OXFORD AT ONLY $5.98

Made of genuine calf in black or a cherry shade, with low heel and perforated tip. Sizes 2½ to 7.

In Black $5.50
In Brown $5.98

We have several other Brogue Oxfords in stock.

LADIES' SAMPLE BOOTS IN SIZES 3 TO 4½ FOR $4.98

In this lot are boots which would ordinarily sell for $12.00. The majority, however, are $8 and $9 boots. If your size is among this lot you will get a wonderful bargain. They come in black, brown and with coloured tops. Sizes 3, 3½, 4, 4½. Sale price, $4.98

SPECIAL FOR SATURDAY LADIES' BROWN KID OXFORDS, $4.98

Made of fine Havana brown kid, with leather soles and low heels. A. H. M. make. Sizes 2½ to 7. Taken from our $7.50 stock. Saturday, only $4.98

THAT SON-IN-LAW OF PA'S — Breaking a Violin Is Going to Break Pa — By C. H. WELLINGTON

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

MAGIC BAKING POWDER

contains no alum or egg albumen and is guaranteed to be composed of the ingredients printed on the label—and none other.

Made in Canada By Canadians For Canadians

BREAKING CAMP AT STONEY LAKE

(By SAM HUNTER)

Practically the last of the summer sojourners on the lakes will leave this week. It is the end of a summer, very uncharitable in its beginning, cold and wet and windy, but "made glorious summer" by an August and early September, beautiful beyond the memory of the oldest camper.

The summer trade has been the best in years, both for steamers and for hotels and summer boarding houses. The fishing has been excellent, and an abundance of native wild fruits has made catering a much simpler matter than usual for all. For about two months, the hotels have been so crowded with American transients that one instinctively looked around for the familiar announcement, "Standing room only." Three States are particularly well represented amongst the annual cottagers and hotel guests on the Kawartha waters, New York, Pennsylvania and Ohio. At one hotel eight medical doctors were registered in one day. This appealed strongly to the imagination of a sad looking man who was alternately essaying to assuage a lingering thirst with sweet cider, spring water and "near" beer, over at the store the other night. "Do you know, sir," he asked the proprietor, "if these here doctors, any of 'em or all of 'em, is empowered to issue prescriptions?" No, he was told, being American doctors, such was not their privilege. "Dear, dear," sighed the thirsty one, putting down a nickel for a ginger ale, and gazing wistfully at a poster announcing an excursion to Montreal and back, "ain't it awful, Mabel? Doctors, doctors everywhere, but not a drop to drink." But on the whole this has been a happy, enjoyable season, and one notices few such sad cases.

No great success has attended the efforts of maskalonge fishermen, the best catch being a twenty-three pounder up near Burleigh, but bass fishing has seldom been better, the day's limit being frequently secured in an hour's fishing. And the small mouth black bass in these lakes is a fish apart. You canot get his equal in muddy-bottomed waters.

What the heavy fruitage of the trees may indicate as to the character of the coming winter, if anything, I do not venture a guess, but I cannot recall a season when the trees have been hung more heavily with fruits, cones and nuts. Everywhere they are in abundance. And wasps. Wasps are in almost every hollow log, and bumble bee like, have taken to sod nests, the few nests suspended in the trees being very low. Maybe some weather 'sharp' can find a weather portent in that. For the wasp's sake I should be almost reconciled to an annihilating winter. They swarm in every cottage and over every meal table and are as full of fight and fury as a Belfast dock laborers' convention. If 'twere feasible to assemble every food profiteer in Canada under one roof, sprinkle an inadequate supply of their high priced sugar on each, and turn the Stoney Lake wasp population loose under the same roof a high mission might be found for an otherwise mean dispositioned breed of insect. It was my privilege this past week to have three bee trees pointed out to me. One, a huge hollow basswood, at the bottom of which a hen had made her nest, disclosed its character one day when a section of honey comb slipped down and hit old speckle on the head. The same evening the first born arrives at the farm house hatless and white faced, yelling, "A bear! a bear!" And it was, Bruin was backing down the bee tree when the small boy went up to take a look at that hidden store of honey at the edge of the woods. He was still full of it when he went up for the milk in the morning. "Never mind, son," said the father, "we'll likely get that bear before night, and I'll bet when he heard you howl he was more scared than you was." "If he was scarder 'n me, dad, you ain't goin' t' git that ther bear nohow this side of the township of Galway."

I expected to send the Editor a fish story this week and to that end have been asking for a certain old settler who has been in the habit of providing me with fish stories for the past few seasons. I find that he was struck by lightning some six weeks ago while huckleberrying. Some say he shouldn't have taken shelter under a tree. Some say it has been coming to him for a good while. Anyway I shall have to hunt up another old settler next year.

We break camp in the morning.

Stoney Lake, Sept. 6th. S. H.

One Egg Cake

No chance of failure or waste of expensive materials. Only one answer to its richness—

Borden's

ST. CHARLES MILK

THE RECIPE:

½ cup Borden's diluted with ½ cup cold water; ¼ cup vegetable cooking oil; ½ cup sugar; 1 egg; ¼ teaspoon salt; 1½ teaspoons baking powder; 1 cup barley flour; ½ cup cornstarch; ½ teaspoon vanilla; ½ teaspoon lemon extract. Beat egg light and cream with sugar, salt, and flavorings. Combine milk diluted, with cooking oil. Sift dry ingredients together and add alternately to first mixture with the milk. Beat thoroughly, turn into lined, medium-sized pan, sprinkle nut meats, chopped raisins or cocoanut over top. Bake in moderate oven

ARRIVING

PLUMS, PEARS, PEACHES

Musk Melons, Watermelons Tomatoes, Cauliflower and Pickling Cucumbers, Peppers and other Garden Vegetables.

GAS IN THE STOMACH IS DANGEROUS

RECOMMENDS DAILY USE OF MAGNESIA TO OVERCOME TROUBLE, CAUSED BY FERMENTING FOOD AND ACID INDIGESTION

Gas and wind in the stomach, accompanied by that full, bloated feeling after eating, are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas, which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water, right after eating. This will drive the gas, wind, and bloat right out of the body, sweeten the stomach, neutralize the excess acid, and prevent its formation, and there is no sourness or pain. Bisurated Magnesia in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take, and the best form of magnesia for stomach purposes. It is used by thousands of people, who enjoy their meals with no more fear of indigestion.

GERMAN FLAG MAY AGAIN FLY IN RHINELAND.

(Canadian Press.)

COBLENZ, Germany, Sept. 9.—The German flag may again be displayed from public buildings and carried in parades on special occasions in all the Rhineland, except the American area, under the High Commission's order. Germans must obtain a permit for each such display.

Major-General Henry T. Allen has not approved the order for the American area because the armistice status still exists there.

Your Physical Condition is reflected in your face.

Ruddy cheeks and a clear eye are generally indicative of health.

On the other hand, a sallow complexion may indicate that coffee is causing the indigestion, sleeplessness and upset nerves which are responsible for your condition.

INSTANT POSTUM

instead of coffee will prove "There's a Reason"

Made by Canadian Postum Cereal Co., Ltd., Windsor, Ont.

YOU REALLY DON'T HAVE TO BE PRETTY

BUT, GIRLS, YOU SHOULD BE GOOD HOUSEKEEPERS

COLUMBUS.—Wealth and fame are classed as non-essentials to a happy marriage in a measuring test to evaluate certain traits and achievements of a potential husband or wife made by the 31 men and women students of Dr. Edwwin W. Clark's class in sociology at Ohio State University.

Fundamental virtues far outshone social accomplishments and business was most highly appraised as the occupation of an ideal husband by the co-eds while the men students declared almost unanimously that capability of self-support made the most ideal wife.

Physical attractiveness in both sexes was marked most desirable, but neither men nor women students declared facial beauty of more than moderate value.

The list of qualifications voted upon was formulated by members of the class. The were marked according to the following scale: absolutely essential, highly valued, moderately valued, slightly valued and indifferently regarded with corresponding negative values.

With few exceptions, men and women placed the same value on like characteristics. Among physical qualifications, the essentials chosen were: being of the same race, sound family stock, good health and physical attractiveness. Nearness of age was regarded as non-essential, but of high value. Nearness of height and weight were matters of slight importance.

In marking mental traits, both sexes classed the following as absolute essentials: affection, intelligence, desire for and love of children. Comradeship was also considered an essential in the ideal husband, but only moderately valued in the wife.

In the order of points given them, certain high values are quoted: interest (not dull) personality strength of will, interest in partner's work, domesticity, refinement of manner, taste in dress, dignity, optimism, humor, harmony of tastes and executive ability.

Men showed greater appreciation of keenness than was registered in the qualifications for an ideal husband. Enjoyment of music was ranked higher than that of literature or art by both sexes. Fondness for dancing and cards were regarded with practically total indifference.

High value was placed an possessing the same degree of education which should consist of at least a high school training. Men students said that good housekeeping and the ability to care for and train children were absolutely essential in a wife.

Instead of desiring wealth or fame in a husband, the women students said that a good provider was all that was necessary for them.

Sincerity, honesty, fair-mindedness, truthfulness and wholesomeness in thought and action were absolutely essential moral traits for both sexes and high values were placed upon religious ideals, industry, good temper, manly and womanly strength, self-control, sympathy, economy, cheerfulness, frankness and loyalty.

FRANCE FACES HOPEFUL FUTURE

(Canadian Press.)

PARIS, Sept. 9.—A little booklet entitled "Facts and Figures Regarding France," in which the story of the devastated departments and the work of reconstruction is visualised in a series of tables, is being given to Americans visiting France. It is issued in English by the Commission for the Devastated Regions, whose president is Andre Tardieu.

Contrasted with the burdens of a national debt seven times that of 1914, and taxes more than four times as great, are the hopeful possibilities of a rapidly improving export trade, the acquisition of the potash, iron, and steel industries of Alsace-Lorraine, and the gradual development of France's water-power possibilities.

The new source of electric power is estimated at 9,000,000 horse-power, of which 750,000 horse-power have been utilised and an additional 850,000 horse-power will be producing during the coming year.

Now that France is so short of coal, the power question is regarded as among the most important, for each hydraulic horse-power is considered equivalent to a ton of coal saved.

NEW YORK BIRTH-RATE INCREASING RAPIDLY.

(Canadian Press.)

NEW YORK, Sept. 9. — Despite the high cost of living, shortage of housing, and the scarcity of domestic servants, the actual birth-rate in New York City is going up at a rapid rate, according to health authorities statistics issued here.

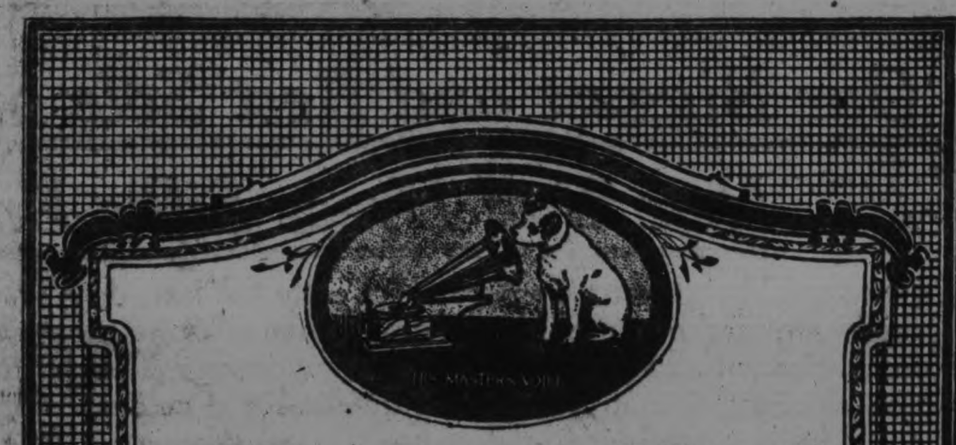
The figures show that the birth-rate per thousand for the first seven months of 1920 was 22.34, against the rate of 21.90 in the same period last year.

While the birth-rate is on the increase, the health department's statistics show that the death-rate of children in the city is on the decline. The rate of infant mortality for the past year on each 1,000 births was 83, while the preceding years a much higher figure is on the records.

The decline in death-rate is attributed by the authorities to the laws of sanitation and healthful living, which are now better understood by the mass of the people.

INJURED IN AUTO ACCIDENT

BELLEVILLE, Sept. 8. — James July, an elderly man, last night had his right leg fractured and was otherwise injured when he was knocked down by an auto.



"The Love Nest"

A charming Fox Trot, introducing "The Music Box" from "What's in a Name." This musical combination as played by Coleman's Orchestra certainly makes a wonderful dance number.

"So Long, Oo Long" on the opposite side is another attractive Fox Trot by Raderman's Novelty Orchestra.

Advance Autumn Modes in Suits, Coats, Dresses and Blouses

In Our Ready-to-Wear Department

Interest centres now upon the arrival and display of Fall garments. Fresh chic styles are replacing the summer fashions and the store is gradually assuming a decided Fall time air.

Many lovely new fashions have been produced for the coming season, and the best of them will be found in our Ready-to-Wear Department. You will be pleased with the attractive styles already shown.

New Suits by the Score---Beautiful Models

Simplicity is the very foundation of all the new fashions; but perish the thought that because these New Suits are simple, they are less attractive than those of past seasons. They're the most artistic models brought out in years, and we've never seen their equals for trimness, effectiveness, and charm. We have Hundreds of pretty styles, and the Prices are most reasonable.

The New Dresses

Scores of lovely new styles are here—many of them having just arrived. See them To-morrow. You will find the display extremely interesting, not only from a style viewpoint, but from a price viewpoint as well. Considering the beautiful styles and excellent qualities of these Dresses, their prices are most moderate.

Stunning New Coats in the Newest Fashions

Women who have already seen these NEW WINTER COATS are as enthusiastic in their praise as we are. You cannot help but admire their trim, graceful lines and cleverly designed Models.

We carefully selected these Coats, so we can guarantee their correct style, their excellent quality, and their perfect tailoring and fit. And as for prices—we can offer you some very exceptional values.

The New Blouses

are more attractive than any we have shown in years. You are sure to like them—to admire their beauty and grace of line, and to appreciate their aristocratically high qualities. Good values, too, every one of them.

RICHARD HALL & SON LIMITED

CANADIAN MAJOR NOW IN PRAISE OF TANLAC

FORMER MEMBER OF MOUNTED POLICE AND OVERSEAS OFFICER SAYS IT RESTORED HIM TO COMPLETE HEALTH.

"I have tried Tanlac and give it my unqualified endorsement," declared Sed Park, of Victoria, B.C., who formerly was connected with the Royal Northwest Mounted Police and during the war was a major in the Canadian Expeditionary Forces.

"For the past two years my health declined, brought on by a chronic case of stomach trouble," said Maj. Park. "My appetite was gone and I ate very little of anything for gas would form on my stomach and give me a heavy bloated feeling and cause my heart to palpitate till I could hardly breathe.

"I was constipated, had awful headaches and many times I wasn't able to work. While in France I was shell-shocked and my nerves were simply a total wreck. It was hard for me to get to sleep at night and then I was disturbed by terrible dreams. My back, too, was weak and pained me constantly.

"A few weeks ago I started taking Tanlac and I feel better and stronger in every way and am enjoying the very best of health. My appetite is fine and everything agrees with me perfectly. I am not troubled with constipation or headaches and my back never hurts me at all. My nerves are quiet and steady and I sleep fine every night."

Tanlac is sold in Peterborough by W. B. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co., Ltd., in Fowler's Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son. (Advt.)

LAKEFIELD DRILLERS STRUCK GAS POCKET

MATCH WAS APPLIED TO GAS AND FLAME SHOT UP TWO FEET

LAKEFIELD, Sept. 10.— While drilling a well on the property of Stephen Harrison yesterday the drillers struck a pocket of gas forty-seven feet below the surface. A match was applied and the flame from the gas shot up about two feet. It remained burning from six o'clock in the evening until long after midnight. Drilling was resumed to-day. The well is located on the main street of Lakefield and the presence of the gas in the well was first revealed by a gurgle.

FAIR WAGE OFFICER SPENT A WEEK HERE

PREPARING A FAIR WAGE SCHEDULE FOR CANADA

E. N. Compton of Toronto, representing the Dominion Government Department of Labour, has been in the city during the past week investigating wage conditions here for the purpose of preparing a fair wage schedule for Canada to be used by the Civil Service Commission as a basis for wages paid to government employees.

Mr. Compton has investigated the wage conditions in Toronto, London, Hamilton, Windsor and Brantford, and stated that as Peterborough was the smallest city he had so far studied, he would not consider a comparison between wages paid here and in the other cities of his district fair.

The purpose of the Civil Service Commission in investigating wage conditions is to fix a wage schedule for government employees which will be fair to both employers and labor.

He told the Examiner that he had little difficulty in obtaining the desired information from manufacturers and labour here, and remarked upon the kindness of business men in giving him so much assistance. This sort of work established one's faith in the general goodness of human nature, he said.

The Government is to build a $3,000,000 graving dock near Vancouver.

"MY SOLDIER GIRL" AND THE BALL CLUB

CLEVER MUSICAL COMEDY PLEASED AUDIENCE AT THE GRAND LAST NIGHT

"My Soldier Girl," with the clever comedian, Billy Moore, and an excellent caste of principals and chorus, proved an entertaining attraction at the Grand last night. It was baseball night for the members of the Peterborough Central League Club were the guests of Manager Phillips of the Grand, occupying the boxes, and Billy Moore took advantage of their presence to deliver some amusing quips at the expense of Manager Solomon and his players, to the delight of the audience. Miss Maxine Lockwood, who played the title role in charming fashion, was presented with a beautiful floral tribute from the ball club.

The 1920 edition of "My Soldier Girl" is superior to last year's production, and is a melange of fun and music that is very pleasing. Billy Moore is as funny as ever as Jasper Pebbles, and Billy Murphy, as "Rickets," is the same amusing comedian. Geo. B. Hall sang nicely, as did Georgie Emmett, whose vocal numbers were enthusiastically received. Of the song numbers, "My Soldier Girl" was probably the most popular, although "Wrap me up in a Bundle of Love" and "You're my Loving Sugar Baby" were warmly applauded. An illuminated run-way gave the audience a chance to view the charms of the chorus at close range. They stood inspection nicely.

To-night Mr. F. Stuart-Whyte presents his fifth annual pantomime, "The Babes in the Wood."

The members of the Peterborough Ball Club have asked the Examiner to express their hearty thanks to Manager Phillips for his kindness in entertaining them last night.

INVESTITURE AT LINDSAY SUNDAY

RECEPTION PREPARED FOR BISHOP O'BRIEN BY CONGREGATION

LINDSAY, Sept. 10.—His Lordship Bishop O'Brien, of Peterborough, will pay his first visit to Lindsay, since his return from Rome, to-morrow, and will be accorded a welcome by the congregation.

His Lordship will arrive on the 6.40 p.m. G.T.R. train, and will be escorted in a procession to St. Mary's Church, where an address of welcome will be read. His Lordship will afterwards impart the Apostolic Benediction, after which Benediction of the Blessed Sacrament will follow.

On Sunday morning, at 10.30 the investiture of Monsignor Casey as Prothonotary Apostolic by the Bishop will take place. It will be preceded by the presentation of an address to Monsignor Casey by the congregation. The sermon will be preached by Rev. Father Primeau, S.J., of Montreal.

TO BE FORCIBLY FED.

MacSweney Will Be Fed When He Loses Consciousness.

(United Press.)

LONDON, Sept. 10.—MacSweney is to be forcibly fed when he loses consciousness. His friends have given up all hope of his recovery.

TRUE TILL DEATH.

(Special to The Examiner.)

STORE OPENS AT 9 A.M.

The CRESSMAN Company Limited

STORE CLOSES AT 9.30 P.M. SATURDAY

New Autumn Merchandise Greets You at Every Turn Throughout The Entire Store

Yes, everywhere throughout the store you are greeted with autumnal colors in foliage and merchandise. We rejoice that the Fall season is under way. We are glad that the months of clearance and clean-up sales are past and we launch into the Fall campaign with an abundance of fresh, new things that everyone is seeking. We will be pleased to show you or yours any of these splendid creations that skillful makers have produced and we will take genuine pleasure from seeing you become enthusiastic about their fine appearance and good quality.

One of Our Most Charming Coats is Priced at $175

It is of that luxurious material called bolivia and the colour is Adriatic blue. The collar is a wrap style—very deep and banded with seven inches of grey squirrel. The back is gathered on a yoke at the waist line and panels hang loose at the sides and suspend heavy black tassels.

Here Is a Lovely Coat of Velour at $82

The colour is African brown and the collar is of Hudson seal and will button close up or lay flat if desired. The back shows a yoke, from which falls four box pleats and the sleeves are balmaccan style. The belt is inside and is for the sole purpurpose of holding the fulness from front to back. You will find the pockets to be a novel cut-in arrangement.

A Dress of Duchess Satin Is Very Beautiful —Price $49

It is a short sleeve model and the colour of the satin is elephant grey. The bodice is much on the Russian order, and on the left side is a beaded motif done in green and rose. The skirt portion is puffed over the hips in panier style and tracings of beads are also to be seen here.

Many Stylish Serge Dresses at $45

You can have navy, taupe, brown or sand and in every instance the serge is a fine botany quality. Some have long sleeves and others short ones. The straight silhouette is the order of the day and they naturally follow the fashion. Russian tunics, over-blouses or coatees make them correct and braiding and self buttons and strappings accentuate their smartness.

Silks for the Afternoon Frock or Evening Gown

So long as silks retain their sheen and rustle, just so long will their popularity remain. The assemblage that now drape our counters and stock our shelves has these desirable features and more, for many have the added charm of pretty patterns.

SWISS CHARMEUSE AT $6.75 YARD.

A Swiss Charmeuse will never show a watermark and this is the genuine Swiss quality. You have choice of the following colors: Coral, jade, peacock, citron, turquoise, flesh, American beauty, black or white. The width is 40 ins.

DUCHESS SATIN AT $3.75 TO $4.50 YARD.

The width is 36 inches and the colors are several shades of taupe and brown, and also all the shades mentioned in the above item describing the Swiss Charmeuse.

FRENCH CREPE CHARMEUSE AT $6.95 YARD.

This fabric is very soft and supple and has a delightful crepe finish. The colors are black, navy, orchid and coral. The width is 40 inches.

GUARANTEED TAFFETAS AT $4.00 AND $4.50.

These two qualities are superior grades and are fully guaranteed. The colors are unusually pleasing—shot blue, Nile green and a lovely shade of brown in a mid shade and also black. The width is 36 inches.

Neat Looking, Neat Fitting Footwear in Comfortable Lasts

We have selected this footwear with the greatest care and we do not consider that our duty to you ends there—we consider our service to you ends only when we have properly fitted them and are assured that you find them to be comfortable. That is our idea of the kind of service a shoe department should give and it is the kind you will find is characteristic of this store.

We recommend these Oxfords and boots we mention below because they embody everything a good shoe should possess.

These Brogue Oxfords have flat heels, recede toes and have Goodyear welted soles, and have a pretty perforated pattern. The leather is a dark brown calfskin. They can be had in widths from AA to D and the price is **$11.50 pair.**

These boots are of a dark brown calfskin and have medium height walking heels, medium length vamps and recede toes. They are plain but neatly cut, and decidedly smart. The widths are from AA to D and the price is **$11.50.** The same can be had in black at **$11.00.**

"Pepsodent" Tooth Paste 39c "Cuticura" Soap, 2 for 49c "Lady Mary" Talcum, 39c

These three splendid values will be on sale at the new toilet goods section on Saturday. Pepsodent Tooth Paste and Lady Mary Talcum Powder are standard 50c values and Cuticura Soap retails regularly at 30 cents. These prices are for Saturday only. We cannot accept phone orders.

"One Day" Main Floor Saturday Snaps

$6.50 Plaid Blankets, large size **$5.29.**

Millinery Models that Bring with Them All the Glory of a New Season

Again the charming new hats in our millinery show-room will be a source of wonder and delightful surprise—for great is the variety and artistry of these new modes wrought by clever, deft fingers. A softly crowned, softly draped hat of black will add piquancy to an interesting face. Feathers, flattering and dear to the feminine heart, grace many a saucy brim with soft swirls or fine strands. There are also dashing little street hats that will be perfect with the trig new autumn tailleur or street frock.

The millinery show-room will welcome your inspection of these many new modes.

THE JEWISH NEW YEAR WILL BE OBSERVED BY LOCAL JEWS

ARRANGEMENTS MADE TO OBSERVE SUNDAY NEXT AS THE COMMENCEMENT OF SEVERAL IMPORTANT EVENTS IN JEWISH HISTORY

The Jewish New Year begins at Sunset on Sunday and continues for two days, till Tuesday the 14th at sunset. New Year's Day ranks only second in importance to the Passover in the Jewish Calendar and it will be observed by the Peterborough congregation in keeping with its national and religious importance.

Sunday evening the Jewish year 5681 begins. The calendar of the Zionists dates back to the beginning of the world. The Jewish calendar differs from the Roman in that the months number from the Passover in April and not from the beginning of the year. Exodus, Chapter 12:2, "And God said to Moses and Aaron in the land of Egypt: This month shall be to you the first of months; it shall be to you the first of all months of the year."

Teeshree, the month ushered in by New Year's Day is not, therefore, the first month but is the seventh month. The names of the months the Jews derived from the ancient Babylons and have been unchanged for centuries with the exception of one or two taken from the Scriptures.

Business Placed Closed.

New Year's Day is strictly observed as a holiday and all Jewish business places will be closed. It is a time of thankfulness for the manifold blessings of the year and it is the beginning of ten days of penitence. The S.O.E. hall will provide a temporary synagogue for the Hebrews for the religious ceremonies, but before many years have passed the Jews hope to have a synagogue in Peterborough that will be a credit to them and the city. Rev. L. Rosenfield, who has only recently come to this city from Cornwall, will be in charge of the services that will be held almost continuously except for brief respites at meal time during these days.

Prayer Service.

Prayers commence on Sunday evening in the synagogue and here that evening and the following days will be found every Jewish boy or girl over 13 and every man and every woman who is physically able to attend, praying before God for the forgiveness of their sins and uniting in songs of praise to God.

It is also called "a day of blowing of trumpets" as recorded in the Bible. "And in the seventh month on the first day of the month ye shall have a holy convocation; ye shall do not servile work; it is a day of blowing the trumpets." In accordance with God's commandment the Jews have always associated blowing the trumpet with their service and the sacred ram's horn will be blown in the synagogue at the services here.

A General Fast.

On Wednesday after New Year's a general fast is observed, called the fast of Gedaliah, in memory of his murder. Gedaliah was the son of Ahikam, whom Nebuchednezzar, King of Babylon, had made the chief of the Israelites who remained in their own country after the destruction of the first temple. Gedaliah was on this day slain with many of his friends, by Ishmael. The Jews deplore the loss of Gedaliah by fasting and lamenting. Saturday ,the 17th, is known as the Sabbath of Penitence and on the following Wednesday the ten days of penitence are brought to a close by Atonement Day, a day of strict fasting and praying.

Holiday Season.

On Sunday evening, the 26th, the Tabernacle holiday begins and lasts till Oct. 5. During this holiday, which is not observed as widely as the priests believe it should be, the Jewsih families should take their meals in the open air protected overhead only by a bower of palm leaves or some such protection from the sun. This observation of the holiday is not general because of the impossibility of carrying it out under present day living conditions, but with players and other services the holiday is observed. On the last two days a Jew is not supposed to engage in any occupation.

Prayers will be made during the services that commence next Sunday for the Jewish nation that is rising up out of the ruins of the Holy Land left by the Turk and nurtured by the British government, promises to reach again its one time influence in things religious, intellectual and commercial.

REJUVENATED BY "VITAL" TABLETS

People are to-day trying every means to keep young. Some are being fed on monkey glands, and others are having glands of other people injected into their system. We claim the method of injecting glands into the system is unnecessary. The revival of youtn can be brought about by taking the French rejuvenator, VITAL Tablets. A person of sixty can feel like a person of twenty. We do not claim VITAL Tablets will do all this instantly, but by taking them regularly for a time, and the time will depend upon the person, but one will gradually feel younger, and eventually you will come back to the land of youth and pep. Diseases of every description will gradually disappear, men and women will be healthy and strong, doctors' bills will be reduced to a minimum. If you are not feeling yourself, go to your drug store and procure a box of these celebrated French Tablets, and you will experience such a change for the good, that you will forever bless the inventor of this wonderful rejuvenating tonic. VITAL Tablets are sold at all good drug stores, at Fifty cents per box. Start taking them today. To-morrow you will feel better.

The Warne Drug Co., Ltd., Special Agents.

INSURANCE SCHEME IS WELL RECEIVED.

Requests Received From Returned Men All Over the Country.

(Canadian Press).

OTTAWA, Sept. 10.—Though the scheme has only been in operation since the first of the month, there is every indication that the State insurance scheme launched by the Federal Government is going to be well taken up by returned men, particularly those whose health since returning from the front is such that they are unable to secure protection elsewhere. Requests for further information have been received from men in all parts of the country.

LAKEFIELD DEATH DUE TO LOCKJAW

MRS. JAMES RIDPATH STEPPED ON A RUSTY NAIL ABOUT A WEEK AGO

LAKEFIELD, September 10. — The death occurred last evening of Mrs. James Ridpath, wife of the editor of the Lakefield News. About a week ago Mrs. Ridpath stepped on a rusty nail and two days ago lockjaw set in, from which she never recovered. She was formerly Miss Lottie Sanderson.

BESIEGED BY TURKS.

French Troops Engaged in Action to Relieve the Garrison.

Canadian Press.

CONSTANTINOPLE, Sept. 10. — Tarsus ,about twenty miles southwest of Adana, is being besieged by the Turks, and the French garrison and twenty-five thousand inhabitants are short of food, according to a letter received here from Prof. Paul Nil on.

The French column which attempted to relieve the garrison met a reverse in the Saro Ibrahim village, while marching from Mercina.

The automobile age has put the cart before the horse.

LOCAL BOARD TO BE REPRESENTED

SERBS TURN ON BRITISH AND CANADIANS

STOP MISSIONS FROM DOING RELIEF WORK IN MONTENEGRO IS CHARGE BY ALEX. DEVINE

(Canadian Press.)

LONDON, Sept. 9.—Charges that the Serbian military forces have stopped a British and a Canadian mission from doing relief work in Montenegro are made by Alex. Devine, of Winchester, in a statement he has just issued.

Mr. Devine describes himself as a friend of Montenegro, whose "only interest in that country is that it shall have the chance of determining its own fate—a right that has been denied to Montenegrins alone of all the recognised Allied nations, owing to the forcible seizure of their country by Serbian troops." Mr. Devine denies the report that he is a "paid agent" of Nicholas, formerly King of Montenegro.

Mr. Devine alleges that the British relief mission was prevented from entering Montenegro by the Serbian military forces acting on orders from Belgrade, and under threats of violence was compelled to retire to a base in Italy.

According to Mr. Devine, the Canadian Medical Mission, headed by Colonel Burnham, which had been operating in Montenegro for some time, also has been stopped. He states that Colonel Burnham has appealed to the British Foreign Secretary for protection, informing the Secretary that "the seriousness of the situation here, created by the Serbs, admits of no delay," and asking that the British Government ensure the safety of the mission. Mr. Devine quotes Colonel Burnham as accusing the Serbians of seizing the boats and material of the mission and of terrorising his people. Mr. Devine says:

"Colonel Burnham says that he has been threatened with assassination, and that the mission is spied on to such an extent that even the sick are afraid to come to the hospital for relief. The Colonel adds:

"'When the veil is lifted from the Ipek country, there will be found a condition of affairs which will come as a rude shock to those who have put their confidence and given their help to Serbia. The reign of terror is complete, there are not many Montenegrins, and in another year there will be none left. The entire country is mourning, and it is no longer possible for these people to exist; many have lost their reason, and all are in the direst distress. Montenegro is being done to death.'"

LABOUR UNIONS IMPOSE THEIR OWN EXPORT TAX

BUENOS AIRES SHIPPING COMPANIES AND EXPORTERS SUFFER FROM EXTENSIVE BOYCOTTS

(Canadian Press)

BUENOS AIRES, Sept. 10.—Unions of laborers connected with port activities in Buenos Aires and other ports of Argentina have imposed upon exporters "their own private export tax" as a means of maintaining extensive boycotts now in force against exporters and shipping companies, according to a complaint made by packing house establishments here to Minister of Finance Salaberry. At the present time far more than 100 exporting firms are under boycott, in addition to the powerful Mihanovich Company, owner of most of the river and coastwise shipping of the country.

A committee representing meat and hide exporters told the Finance Minister that the dock laborers were refusing to load their overseas shipments unless the shippers made a contribution toward the support of the union of $7 for each 200 bales of wool and $3.50 for each 100 casks of tallow and like products.

Export Duties Scheme.

The delegation pointed out that these contributions could be called "extraofficial export duties," and that some of them have been demanded since last May. It was stated that before any shipment can be made, application must be made to the labor union officials and that several days often elapse before the requisite "authority" is allowed for embarking. The Minister was told that in some cases the unions have demanded to see the exporter's books in order to make sure that none of the produce to be exported came from any firm under boycott.

Wool Tie-Up.

A list of 106 exporters under boycott was submitted to the Government and it was pointed out that while there are more than 220,000,000 pounds of unsold wool in the country and more than 1,000,000 hides, most of the leading exporters of these products, whose services are needed in relieving the congestion, are not allowed to do business on account of boycotts.

The boycott of the Mihanovich Company has held over 200 vessels in port for six months. Efforts of the Government to settle the differences between the company and the workers have not met with success. Meantime the losses to domestic commerce have been enormous.

Speaking in the Chamber of Deputies, a representative from the Province of Entre Rios, largely dependent upon river transportation, declared that the apparent object of the maritime workers was to obtain control of the country's water transport. "They publicly announce," he said, "that the boycott is not a strike over wages or hours of labor. They talk about the social movement, especially that in Germany and applaud the one that has taken place in Russia, declaring that the maritime strike has nothing less for its object than the socialization of the transport services."

Loss to Arrange Crop.

During the months of the boycott the Mihanovitch Company has been able to return to service a few of its boats by transferring them to the Uruguayan or Paraguayan flags. Several cases of violence against the members of the crews of the vessels so changed have been reported. It is said that among the damages incurred has been the loss of a large part of the orange crop from the region along the Parana River.

33

years ago an ulcer appeared on my ankle," writes Mrs. Jeffrey, of Methuen, Mass. "In spite of all the remedies I used, it spread to my knee, and developed into an open sore. I had medical treatment for twenty-five years, but only got temporary relief. The pain I suffered was terrible, and for years I was unable to leave the house.

"One day I saw in a newspaper an account of a bad ulcer having been cured by Zam-Buk. Although I was skeptical, now, of anything curing me—having tried so many remedies in vain—I decided to give Zam-Buk a trial. I applied the balm freely every day and to my delight the sore soon showed some improvement. Gradually the inflammation was drawn out, the pain was ended, and, after thirty years of suffering, I realized I was on the road to recovery. With perseverance, the awful sore was finally completely healed, and, although that was three years ago, there has not been the slightest trace of the ulcer returning."

Zam-Buk is the best remedy, also, for eczema, boils, pimples, blood-poisoning, piles, burns, scalds and cuts. All dealers, or Zam-Buk Co., Toronto, 50c. box, 3 for $1.25.

Zam-Buk

WORTH OF A GOOD NAME

The success that has come to Ye Olde Firme Heintzman & Co. Limited, George and Hunter streets, Peterborough, is due primarily to the quality of the piano that they have made for more than 70 years. Unless every piano reaches the very high standard set by this firm it is not alowed to leave the factory. It is this particular care on the part of this old-established firm that gives this piano a distinctive place among the world's pianos.

PONZI UTTERLY BANKRUPT, FEDERAL RECEIVER SAYS.

BOSTON, Sept. 9.—Charles Ponzi is hopelessly bankrupt, William R. Sears, Chairman of the Federal Receivers for the get-rich-quick promotor, announced at a hearing in the United States District Court here.

The court appointed James M. Olmstead, Referee in Bankruptcy, to co-ordinate all bankruptcy proceedings now pending against Ponzi, and to determine, among other things, whether he had any partners in the Securities Exchange Company, in which from $5,000,000 to $7,000,000 of investments are tied up.

Counsel for Ponzi was assured by the court that the case would go to jury trial after the Referee had finished his inquiry.

Just a minute, please!

Let's get right down to cases —Watch cases

OPEN up an Ingersoll Maple Leaf; you'll see a busy little time-keeping plant in operation, happily, smoothly, accurately functioning—every little movement with a meaning all its own.

Now look the Maple Leaf in the face—it's an honest face and a truthful face. And you can believe what you see there.

After all, the primary purpose of a watch is to keep time. The Ingersoll keeps time and does it under conditions that would send any other watch to the repairer's.

And its sturdiness, dependability, and cheapness aren't obtained at the cost of appearance. The Maple Leaf is really a good-looker.

$3.25—at the nearest dealer's. And that will be quite near.

MOTOR LICENSES ISSUED LOCALLY

CHEAP RATES FOR THE REMAINDER OF THE YEAR

Some 15 or 16 motor licenses have been issued to date this month by Mr. H. P. Lindsay. Many people are now buying the new models and a decided impetus in the numbers issued is expected soon. From the first of this month on the license fees are only half the usual fees.

Knowledge of this fact is not very general, he said, and several motorists buying licenses, he said, have been very much surprised when told of the "cheap rates."

NEGRO WORKERS REPLACE WHITES

SEQUEL TO STRIKE OF IRISH LONGSHOREMEN IN NEW YORK TWO WEEKS AGO

(Canadian Press).

NEW YORK, Sept. 10.—Negro workers to-day replaced the Irish longshoremen who deserted the White Star Line piers two weeks ago as a protest against the treatment of Archbishop Mannix and Terence MacSweney by British authorities. There were no disorders when two hundred negroes appeared outside the piers, although the police reserve had turned out to supress such outbreaks.

REV. E. J. WOOLAND, B.A., IS LEAVING NORWOOD

At the Sunday morning service in the Norwood Presbyterian Church, the pastor, Rev. E. J. Wolland, B. D., made the announcement to his congregation that he had handed in his resignation to the Peterborough Presbytery, and had asked to be released on December 31st.

Rev. Mr Wolland has had charge of the local Presbyterian pastorate for six years, having succeeded Rev. M. F. Cree, B.A. During his term, Mr. Wolland has made many warm relationships, not only with his own congregation, but of outside denominations.

Rev. Mr. Wolland has not yet definitely decided where he will locate, although certain charges have been seeking his services for some time. It is quite probable he may devote some time to further study leading to the degree of Doctor of Divinity. Rev. Mr. Woolland, prior to coming to Norwood, had just graduated from McGill University, Montreal, having taken a very brilliant standing in his course.

A DONATION OF $18.00.

A donation of $18.00 has been made by the Cressman Athletic Club to The Examiner Serbian Relief Fund, which has been handed over to Mr Dunsford and will be forwarded to Toronto.

GROCERS APPEAL AGAINST RATES

SAY INCREASE IN FREIGHT CHARGES SHOULD BE POSTPONED FOR ONE YEAR

TORONTO, Sept. 10.—The Canadian Wholesale Grocers' Association has sent the following wire to Premier Meighen:

"In our opinion the Canadian Railway Commission are not justified in anticipating a condition that warrants such an enormous increase in freight rates to the railway companies. Prudence in view of the high cost of living, the serious unrest existing and the probability of economies in the management of the Canadian National Railway System, would seem to dictate caution until business becomes more stabilized. It is impossible in the unsettled state of affairs to accurately forecast requirements. The investigation has not changed the opinion that the Canadian Pacific Railway may still be able to give an efficient service and provide a reasonable dividend to its shareholders. To take perhaps two hundred million dollars or more out of the people already so heavily taxed would be a great hardship on the Canadian consumer. An advance, and especially so large an advance, under present circumstances, is in our opinion premature and should be postponed for at least one year. We, therefore, appeal from the judgment of the Railway Commission to your Cabinet and request that the decision should be reviewed by the Railway Committee of the Privy Council and that interested parties be heard." H. Blain, president; A. C. Pyke, secretary.

WILSON'S FLOCK OF SHEEP IS BEING DISTRIBUTED.

WASHINGTON, Sept. 10.—Distribution of President Wilson's flock of sheep which have roamed the exclusive White House lawns for several years began here, when a score were shipped to "somewhere in Virginia."

Eight had already gone from the original collection of forty-eight.

President Wilson made gifts of several prize specimens to friends, while other sheep were sold. Many applications for sheep have been made since it was announced that they would be sold. It is understood that the price quoted for the lambs was $50 each.

BOOK-KEEPINC BY FARMERS' HELPS

The majority of farmers up until the present day have not kept accounts and records of their farm business, but the number who to-day guess at what they are doing is growing less all the time.

Farming is one of the few businesses which has not outgrown slack methods of operation, and to have neglected the business principles of the industry has not served to make it more attractive. The more progressive farmers are studying systematic methods of conducting farm work, and from this have awakened to the need of detailed statements and more exact accounts of their business.

For some who farm, and many who should be farming, the industry has taken on the disastrous aspect of slavery, but we are glad to know that the management of a farm to-day demands intelligent headwork and that a thorough knowledge of everyday conditions is necessary to produce and sell stock of good breeding and products of good quality.

The introduction of bookkeeping will not directly make money for the farmer but it will relieve him of his inability to know his financial standing, and provide insurance against the operations of the different departments being unprofitable from year to year. There is no excuse for the farmer being unable to keep books through lack of time, although there is a great shortage of help, the lack of system in farm management causes a loss of money that would more than pay the present scale of high wages.

Farm business, like the manufacturer requires a Cost System. Unlike the retail business man, who buys and sells again at a profit, the farmer's gain is the difference between the cost of production and the selling price, therefore he cannot use a cash system to advantage, because he has few customers, which would make the entries for reciepts too infrequent. A thoroughly simple and efficient Cost System must be provided.

The actual gain on a pen of pigs; the years' dairy production, etc., that has been determined by accurately kept business methods, will be looked upon with a great deal more pride than to have received a cheque having no conception of the amount of profit.

To-day we have to fill income tax papers, we have also a law lately come into force known as the Bankruptcy Law, compelling business men and farmers to keep accounts providing them with a financial statement each year showing their standing and thus preventing insolvency.

The progresive farmers of to-day, and especially the young men, must introduce business methods on the farm and be undaunted with the possibility that in keeping accounts they will be brought face to face with their actual standing. These facts will in the end go only to improve and to raise the standard of the agricultural industry.—Farmers' Sun.

GIFTS TO PETERBOROUGH PROTESTANT HOME

The Protestant Home acknowledges with thanks the receipt of men's clothing from Mrs. Winch, and also a quantity of magazines from Mrs. Goodfellow.

OFFICIAL DENIAL.

(Special to the Examiner).

LONDON, Sept. 10.—Official denial given report that the King expressed hope for MacSweney's release.

BEER PRICES REDUCED.

The Ontario Government dispensaries announce a reduction in price of domestic ale, porter and lager from $4.50 to $3.60 per dozen quarts, and from $3 to $2.40 per dozen pints. It is understood that the high prices charged by the vendors has almost ruined their trade in ale, porter and lager.

TOURING AN AUTOMOBILE WITH CARGO OF LIQUOR.

(Canadian Press).

CORNWALL, Sept. 10.—On Wednesday Provincial Officer Wm. McCready arrested W. Lafave on the East Front Road with a car in which 24 cases of liquor were stored. The automobile was in tow of another car. Lafave appeared before Deputy Police Magistrate C. H. Cline, pleaded guilty to a charge of having liquor in a place other than his private dwelling, and was fined $1,000 and costs of $7.60, and was sentenced to serve 15 days in jail as well. D. C. Paupst was fined $1,000 and costs for drinking liquor in a public place, and August Duchene, who failed to answer a summons to appear on a charge of having liquor for sale, was fined $500 and costs or three months in jail.

Substantial Clothes for Substantial Men

Every substantial man knows that quality is the only sound structure upon which to build business and service—that service is the only true measure of value. With that idea uppermost in our minds at all times we have definitely planned all our Semi-ready Clothes—especially for the man of social and business consequence.

Hundreds of such men come to us yearly, never questioning the quality of Semi-ready Tailored Clothes, for they realize they get the quality in texture, quality in tailoring and quality in characterful styling.

Fall styles for young men and for men of mature years, $35 to $75—in genuine physique type Semi-ready Suits and Overcoats.

CANADA SENT 834,450 IMMIGRANTS TO UNITED STATES IN ONE HUNDRED YEARS

ALTOGETHER, THIRTY-FOUR MILLION IMMIGRANTS SETTLED UNDER AMERICAN FLAG IN THE PAST CENTURY.

WASHINGTON, Sept. 10.—Thirty-four million immigrants have entered the United States in the past century. In the same time the population of the country has increased ninety-seven millions.

Until the World War the effect of immigration on the population increase was very marked, amounting to more than 50 per cent. in the decade ending in 1910. It exceeded 40 per cent. in the ten years ending with the present year, and imigration bureau officials are of the opinion that had the war not intervened, the percentage of this decade would have been greater than that of th last.

During the first ten years of the century, or from 1820 to 1830, the number of immigrants arriving in the United States was less than one per cent. of the increase in population, the figures being 143,439 immigrants and 3,227,567 population increase. In the next ten years this one per cent. had grown to 12, the census of 1840 showing a population of 17,069,453, with an increase of 4,203,433, while during the same period 599,125 immigrants entered the country.

In the next decade, ended in 1850, the population increased 6,122,423, while immigration totalled 1,713,251, or slightly more than 16 per cent

In the ten years ended in 1860, the population increase was 8,251,445, while immigrants entering the country numbered 2,508,214, or more than 25 per cent. of the population increase.

The next decade saw the population increase 7,115,050, and immigration totalled 2,314,824, or slightly more than 28 per cent. The percentage decreased during the ten years ended with 1880 owing to an unusually large increase in population. This increase was 11,597,412, while the total of immigration was 2,812,101, or about 10 per cent. In the decade ended in 1890 the population increased 12,791,931, while 5,246,613 immigrants entered the country, making the percentage about 42 per cent.

In the succeeding decade ended in 1900, there was a sharp decrease in immigration, with the result that persons coming into the country represented only about 23 per cent. of the population increase. This was 13,046,861, while the number of immigrants arriving was 3,844,420.

While the population increase remained at about the same ratio during the decade ending in 1910, there was a very decided increase in the number of immigrants, the former being 15,077,691 and the latter 8,795,386.

The estimated increase for the ten years ended this year (1920) is 14,000,000, while the total number of immigrants during this period was 6,100,000. The percentage ratio thus was only about 43 per cent., this being due to the falling off in immigration during the four years of the World War.

Of the 34,000,000 immigrants entering the country in the last hundred years, nearly one-fourth of them, or 8,205,675, came from England, Ireland, Scotland, and Wales. Germany furnished the second largest number, 5,495,539, and Italy the third largest, 4,100,740. Austria-Hungary was next behind Italy with 4,068,448, while Russia was fifth with 3,311,406. The Scandinavian countries, Denmark, Norway, and Sweden, have sent 2,134,414 of their citizens to the United States.

The total of immigration from France in the hundred years has been 523,806, the largest number from that country, 20,126 coming here in 1851. Switzerland has sent 256,707 persons to the United States, and the Netherlands 214,508. British North America, including Canada, has sent 834,450, and Mexico 217,256.

Belgium and Roumania have sent the smallest number of any of the European countries, the total for the former being 76,587, and for the latter 76,222. It was not until 1894 that the nationals of these two countries, as well as those of Portugal, Greece, and Turkey, began coming across the Atlantic in any appreciable numbers.

The total for Portugal is given by the Immigration Bureau as 159,702; for Greece, 352,883, and for Turkey 311,404.

Chinese immigrants have numbered 288,398, beginning in 1853 with 42, and virtually ending in 1883 with 8,031. The peak was in 1882, when 39,579 Chinese arrived. Chinese exclusion laws became onective about that time.

Immigration from Japan was first taken note of in 1892, and reached its peak of 30,226 in the year 1907. In 1919, 10,064 Japanese entered the United States, while the total for the 27 years was 29,030.

From countries not specified, including parts of Poland, Serbia, and many others, have come a total of 2,100,000.

At the outset England, Ireland, Scotland, and Wales furnished the bulk of the immigrants, the largest total from the British Isles, 272,740, coming over in 1851. By that time there also was a large flow of immigrants from Germany, the total in 1853 being 215,009, or the largest in any one year, except 1882, when the high mark of 250,630 was reached.

Immigration from the British Isles began to decrease in 1831, fluctuating between 32,000 and 160,000. In the 12 years preceding the World War the number of immigrants from those Isles averaged about 80,000 annually.

The tide from Germany began to turn in 1887, and since that time the number of immigrants arriving here has steadily decreased, reaching the low mark of 35,734 in the year before the World War.

At about the same time that immigration from the British Isles and Germany began to decrease, that from Italy, Austria-Hungary, and Russia advanced rapidly. It was not until 1891 that the number of immigrants from Italy passed the 50,000 mark. It averaged slightly better than that total for the succeeding ten years, and then increased almost every year, attaining a record of 285,731 in 1907. The year before the World War it was 283,734.

Immigration from Austria-Hungary exceeded 50,000 in 1901, went to 100,000 in 1902, reached the high mark of 338,452 in 1907, and was 278,132 the year before the war. Russia did not pass the 50,000 mark until 1890, and it was not until 1902 that immigration from that country exceeded 100,000. The high mark, 291,040, was made in 1913.

The peak of the movement from the Scandinavian countries was reached in 1882 with 105,326. It gradually decreased thereafter until it was only 26,851, in 1895. The total the year before the war was 29,391.

In only six years of the one hundred has the total of immigrants entering the country exceeded one million. Twenty thousand more than that number entered in 1905. In 1906 the total was 1,100,000, and in 1907 it reached the record of 1,285,349. The million mark was not reached again until 1910, the total for that year being 1,041,570.

Two years again elapsed before the million mark was reached, the total for 1913 being 1,197,892. In the year that the World War began 1,218,480 aliens passed into American ports, but in the first year of the war this total had decreased to 326,700. In 1916 it was 298,826. In 1917, 295,403; in 1918, 110,618; and in 1919 it was 141,132.

PURCHASE OF THE MacKENZIE INTERESTS

(Special to The Examiner)

TORONTO, Sept. 10.—The purchase of the MacKenzie interests depends on the price, says Premier Drury. Unofficial report says the figure asked was $35,000,000.

PRESCRIPTION WRITER IS TOO SWIFT FOR CHICAGO.

CHICAGO, Sept. 10. — Federal authorities have revoked the liquor license of Dr. M. A. Fash, who is termed the champion prescription writer. It developed during the hearing that the physician wrote 308 liquor prescriptions in one day. The record for four days was 710.

It was figured that with this record the doctor must have started to work at 7 in the morning and did not stop until midnight. The physician declared that he had given an examination of three and one-half minutes to each patient before deciding that their system needed a stimulant. He admitted that he did not stop for meals, having his lunches brought to his office.

He attempted to defend himself on the ground that he did not understand the law.

Special Reductions Saturday AT— P. BLACK'S

NOTICE Is given our many customers that as the Jewish New Years holiday falls on Monday and Tuesday next, Septemcer 13th and 14th, this store will be closed those days. SCOTT'S CASE IS STILL UNDECIDED

NOT KNOWN IF HILLCRESTS' STAR HURLER WILL BE ABLE TO PLAY IN O. B. A. FINALS.

TORONTO, September 9.—Whether Ed. Scott, Hillcrests' fireball pitcher, will be eligible to pitch in the Ontario amateur series IF the Pit Leaguers are fortunate to beat Oslers Saturday, is locked up in the minds of President Frank Robbins of the O. B.A.A. and his executive, Secretary Dulmage, S. H. Armstrong and Ward Patterson, Peterboro.

In reply to a wire sent asking what had been done in the Scott case, President Robbins wired from Hamilton as follows:

"Scott case undecided. Information so far not available."

It is over two months since the T. A.B.A. asked the O.B.A.A. for a ruling on Scott's case, and so far the T.A. B.A. has never heard officially by letter whether their request was ever received by the O.B.A.A.

Different Views—Maybe.

The question of Scott's residence in Toronto was raised by the T. A. B. A. and after hearing Scott decided he was O.K. to play but the O.B.A.A. may think differently. But if the T.A. B.A. heard Scott's case and accept his word—why is the O.B.A.A. stalling to see if E. S. Scott is torpedoed next Saturday by the Oslers? And why does not the O.B.A.A. accept the T. A.B.A. running?

Will not Play.

Right now the situation is a serious one. If Hillcrests win and Scott is declared null and void by the Ontario moguls, Hillcrests will not play in the Ontario series, and if anyone doubts this please interview the Hillcrest players. It is hardly fair to keep putting off the decision. The O. B.A.A. had an executive meeting in Toronto last week, and Scott was here ready to meet the executive, yet nothing was done.

Deserves Every Consideration.

Amateur ball in Toronto is welded into the hearts of the fans and O.B. A.A. should wake up and look after the interests of the T.A.B.A. who were the pioneers of amateur ball; and also do justice to Scott, who is probably the biggest asset to amateur ball in this city.

Scott vs. Spring.

It will be the survival of the fittest when Scott and Joe Spring, Osler's famous pitching ace, square away on Saturday to settle who is the best pitcher and what club is Toronto's best. The fans will see the two best amateur pitchers in Toronto. Scott has won 15 straights, and with the scalps of Classics and St. Mary's Colts dangling at his belt, he is in fine form to take on Osler's peppery team. Spring has several kinds of stuff to feed the Hillcrest hitters and judging by the way "Chuck" Glover held Hillcrests and the manner Joe Foley stood them on their heads after Kelly went out last week, Hillcrest hitters will have to be on the job. Scott is distinctly a speed ball artist, and rests entirely on his speed to tide him over the dangerous spots, so the fans will be able to compare the styles of pitching.

TO-MORROW'S GAME WILL GIVE LINE ON CHANCES OF PETES IN THE FINALS

The battle between Classics of Toronto and the Petes at Riverside Park to-morrow promises to be much more interesting than the usual exhibition game in view of the fact that a week from to-morrow the local crew play in Toronto in the first game of the Ontario semi-finals. To-morrow's clash is therefore a final test before the big struggle and the Petes will be on their toes all the way.

The Classics were eliminated from the T.A.B.A. finals only after a desperate struggle. Hillcrests only beat them 2 to 0, getting two lucky runs in the first innings. After that session Chuck Glover, their crack speed ball pitcher, had the Hillcrests completely baffled.

Glover will pitch against the Petes to-morrow, and battling aaginst this clever pitcher will be a fine work-out for the Solomon outfit for their fight with Ed. Scott of the Hillcrests or Joe Spring of the Oslers next Saturday.

Both teams will be at full strength to-morrow and the Petes are determined to bring home the bacon by beating the Riverdale League champions. The game will be called at 3 o'clock sharp.

PETES WANT SCOTT TO PLAY IN THE BIG SERIES

So far as Mr. Ward Patterson, of Peterborough, is concerned, Pitcher Ed. Scott, of the Hillcrests, will be allowed to play in the Ontario finals if his team succeeds in beating Oslers and winning the Toronto title to-morrow. Mr. Patterson, who is vice-president of the O.B.A.A. and a member of the sub-committee, received a wire last evening asking if he was favourable to allowing Scott to particiapte in the big series and he replied at once in the affirmative.

Mr. Patterson's action meets with the unanimous approval of the Peterborough ball club. They feel that if Hillcrests are the team they have to meet in the finals they want to meet Nip Duvan's bunch at full strength. There would be scant glory in beating Hillcrests without Scott, and the Petes feel just as they did in the case of Patton at Oshawa, that they want to win from an opposition that is not handicapped. Had the Petes pressed for the suspension of Patton, the Oshawa twirler would have undoubtedly been out of the big game. Instead, Manager Solomon wrote urging that Patton be allowed to play because he and his outfit preferred a fight to a hollow victory. And they have the same sentiments about Scott and the Hillcrests.

"BABES IN THE WOOD"

Mr. F. Stuart Whyte's new $30,000 pantomine, "Babes in the Wood," will be presented at the Grand to-night and to-mororw with a company of forty people and most lavish scenic display. All other efforts of Mr. Whyte to present this popular form of entertainment have been excellent in the present production of the great English pantomine. There are twelve scenes of remarkable splendor, and the costumes are a marvel of beauty in medieval effect. The company contains the names of many persons prominent in musical productions in England, and the dancing will be a big feature in the performance. Besides the two little child stars, Dorothy Mackay and May Strachan, are Charles Cardel and Harriett Fawn who have become popular with their Cockney delinations, and Victor Dyer and Thomas Ellis. Reginald Hincks and Frank Gillions, clever English actors, have been engaged, and the Canadian comedian, Geo. H. Summers, will play the most laughable part of "Captain Kidd," the bold, bad buccaneer, who quits the Spanish Main to go into the real estate business. The principal boy this year will be Miss Mona Warren, who is a stately beauty with a magnificent voice whom Mr. Whyte expects will charm Canadians by her splendid vocal abilities and winsome stage presence. The dancing will be supervised by Mme. Jean Van Vlissingen, who brings her talented troupe of dancing stars to interpret her terpsichorean interpolations This glorious galaxy of beauty and talent is the master effort of this well-known producer to entertain his patrons. No one can afford to miss the pantomine this year for it is an epoch making presentation in the theatre.

PEGGY HYLAND WINS AUDIENCE IN "FAITH"

Peggy Hyland, as usual, captured her audience when she appeared yesterday at the first showing of "Faith" —a new William Fox production presented at the Regent Theatre. As usual with a Hyland picture, the house was filled, the star got a hearty welcome and she gave a performance full of charm and spirit.

The story pictures the life of a pretty Scotch lassie, who is a kitchen drudge working for her keep with her rich arrogant old uncle. She loves a brave lad, a sheepherder, son of a one time noted doctor; but her uncle orders her to marry a man he believes to be of high social standing. It takes all the girl's courage to outwit her uncle and two scheming "friends," but she does it and the play ends as happily as one likes to see all plays end.

With Miss Hyland in the cast are J. Parks Jones, Edward Hearn, Winter Hall, Edwin B. Tilton, Milla Davenport and Frederick Herzog. The story is from the pen of J.Anthony Roach and the picture was directed by Howard M. Mitchell.

ANOTHER BIG GAME
BASEBALL
CLASSICS (Toronto) vs. PETERBORO C.P.C.
At Riverside Park
SATURDAY, SEPT. 11th
Game Called at 3 o'clock
This will be the Petes' last game before playing for the Ontario Championship, and Classics are one of the best teams in Toronto and will give the local squad a hard battle.

PETERBOROUGH, Ontario.

12 MEN WILL BE HANGED IN PARIS

CHICAGO, Sept. 9. — All records for legal executions in Cook county, and possibly in the State of Illinois, will be broken here October 14 and 15, county officials believe, when 12 men are to be hanged for murder.

Eight of the men are under sentence to die one Oct. 14, and four on the following day. In addition two other slayers, who have been convicted, are awaiting sentence, and it is possible that they also may hang on one or other of the two days.

Chicago has had several wholesale executions in the past—the most notable on Nov. 11, 1887, when four of the Haymarket anarchists were hanged—but nothing in the history of jail officials approaches a death list of 12 in two days.

Hangings in the Cook County jail take place in the corridors of one of them main cell blocks. There is just room for a double gallows so it is probable, acording to George F. Lee, the jailer, that the men will be executed in pairs. The hangings will cost the state approximately $3,000, including a $100 fee for the sheriff for each man hung.

Those to be hanged on Oct. 14 are Sam Cardinella, leader of a black-hand gang, whose members confessed to several murders; Nick Viani, Thos. Errico, Frank Campione, Sam Lopez, Joe Castanzo, Sam Ferrara, and Henry Reeze, the latter a negro.

The October 15 list includes Arthur Haensel, Richard Wilson, Harry Andre and Frank Zager. Haensel, who killed his wife, was to have been executed last spring but was granted a reprieve five minutes before he was marched to the gallows. Andre was convicted of killing a watchman while robbing a factory safe. Wilson was found guilty in the same case although he was on another floor of the building when Andre, his partner, killed the man. The jury decided that as an acomplice he was equally guilty.

LOCAL FOOTBALL GOSSIP

C. G. E. VS. CANADIAN WOOLLENS —COMRADES VS. G.W.V.A. POSTPONED—OTHER ITEMS OF INTEREST

On Saturday afternoon the return league fixture between the C.G.E. and Canadian Woollens will be played at the Exhibition Grounds. Kick-off at 3.30 p.m. The official referee will be Mr. T. Hensbey.

The other league fixture was the G.W.V.A. vs. Comrades at the Oval, but this game was postponed at the request of the Comrades Executive through a number of players being on the sick list.

It is a well-known fact that the Canadian Woollens team have lodged a protest against the C.G.E. for playing Gash last Saturday against them when his transfer to the G.W.V.A. had been officially acknowledged with no objections about the transfer.

According to local data it is in all probability the Executive may have a visit of a representative from the local Athletic Association to propound the advantages of being connected with that body and give any information that may be asked.

To make the football a success the Executive of the local association will please keep Tuesday evening, Sept. 14th, open for the meeting when important business will be transacted. Please remember that 8 p.m. prompt is the time, gentlemen.

Now the C.G.E. may have a surprise for the Executive when this protest is brought up and if it comes to be a cumbersome question to decide the Executive can transfer the technicality to C.F.A. headquarters to give a ruling.

On the west side of the Exhibition Grounds the Caledonians will play a bounce game of football between two teams chosen. The Caley's are in need of finances and it is hoped that the response will be satisfactory. Come along and see the "Din Yins" whacked the regulars.

All Scots of Toronto are playing Oshawa to-morrow in Toronto in an exhibition game. Why not some of the Peterborough teams take the initiative.

The C.G.E. team for to-morrow afternoon will be C. Griffin, goal; J. Davis and J. Williamson, backs; A. Parkins, H. Turner and A. Bestard half backs; A. Manders, J. Williams, C. Hotston, Ted Bartley and E. Hotston. Reserves J. Mann and J. McDonald.

SMOKE WILL RACE AT EXHIBITION

OVER FOUR HUNDRED ENTRIES IN THE MODIFIED MARATHON

The Peterborough Amateur Athletic Association received a letter this morning from the Canadian National Exhibition asking them to enter Albert Smoke, the Indan Marathoner, in the Modified Marathon which will be held at the Exhibition in Toronto on Saturday afternoon. Over 400 entries have already been made for this race.

The matter will be considered at the meeting of the Board of Directors of the Athletic Association which will be held in the Board of Trade rooms at 7.30 o'clock in this evening. New by-laws will also be passed upon at the meeting.

Following the meeting of the directors there will be a meeting of the rugby and hockey enthusiasts of the city for the purpose of considering plans for the revival of rugby on a large scale in Peterborough and the forming of a city rugby league and club for entry in the Canadain Rugby Football Association.

All those interested are invited to attend the meeting.

ALBERT SMOKE,
Who will race in Toronto to-morrow under the colours of the Peterborough Athletic Association.

RAN QUITE A BAR.

License Inspector McGregor, of Smith's Falls, with the assistance of special license department operatives, raided the premises of one Cohen, located near the Frost and Wood plant and seized several suitcases filled with liquor. Cohen is alleged to have been selling liquor and to have had a bar fitted out, where whiskey was dispensed at 50 cents per glass.

Alberta is selling potatoes in San Francisco.

Rub 'em out!

Erase the retailer's and wholesaler's profit on your Fall clothes purchase

When you buy a Suit or Overcoat in the average retail store—whether ready-made or tailored-to-order—YOU PAY TWO PROFITS—the retailer's and the wholesaler's.

For instance on a $60 suit of clothes—the retailer gets at least $15—the wholesaler, $12. That's the tribute you are paying to this DOUBLE PROFIT account.

When you buy Tip Top Clothes you pay $27—THE MAKER'S PRICE — with no taxation for jobber or retailer.

LAWN BOWLING.

Dr. Allen and H. Catlen, of Peterborough, made a successful start in the Globe Scotch doubles bowling tournament in Toronto yesterday, winning their games in the preliminary and first rounds. They beat a Toronto rink in the preliminary by 14 to 12 and F. MacKay's Oakland rink by 20 to 12 in the preliminary.

MOTHER, IS IT "DECLINE?"

"Oh Geel what's the matter with me"
Said a typist fair like Mardie;
Sure the typewriter looks right,
But b'lieve me I'm tired at night.
Jimmy was there as sure as fate,
And talked "TYPEWRITERS" till late,
The Manager said "I now understand
Why typists work to beat the band."
Nelson sold a new machine
The typist's happy as a queen.

FIFTEEN YEARS IN PRACTICE

Social and Personal

Mrs. Barnhardt of North Bay, is visiting her daughter, Mrs. W. H Bell, Charlotte street.

Miss Lilian Wells from England is visiting her brother and sister, Mr and Mrs. Alfred Wells, city, before leaving for China.

Mr. and Mrs T. C. Elliott and daughter, Jean, have closed their summer home, "Larison Hall," Stoney Lake, for the season and have returned to the city.

Mr. and Mrs. H. Greenly, of Flint, Mich., are visiting Mr. and Mrs. Jas. Kenny, 368 Downie street.

Mr. R. H. Hunter received the sad news of the very sudden death of his only sister, Mrs. Chas. Pococke, of Rochester, N.Y., who had been visiting him for the past month, leaving for her home only one week ago.

Mrs. Moore and daughters left Peterborough to-day for Toronto where they will reside.

Mr. and Mrs. R. E. White, of Cleveland, Ohio, returned to Cleveland on Tuesday after spending their holidays with the former's sister, Mrs. D. White, 112 Murray street, and mother, Mrs. Robert White, of Lakefield.

Mr. and Mrs Robert White, of Lakefield, spent Sunday in the city, the guest of their daughter, Mrs. D. White, 112 Murray street.

Miss Mary White, 303 Maitland avenue, returned home on Tuesday after spending her holidays in Toronto.

Miss Alberta White, 303 Maitland avenue, is spending her holidays in Windsor.

Mr. and Mrs. J. M. Gemmell have closed their cottage at Chemong and returned to their home, 333 Burnham street.

Mr. and Mrs. H. W. Gray and baby Harold are holidaying at Chemong.

Mr. and Mrs. F. H. Sanderson and Mr. and Mrs. F. Jopling have returned home from a motor trip to Niagara, Hamilton, and Toronto.

Mr. and Mrs. Richard Lees, Gilmour street, left to-day for Ottawa to be present at the marriage of their son, Dr. Harold Lees, of Windsor, which takes place to-morrow.

Mrs. Clara Hughes, 583 Bethune street, has returned from Toronto and will resume her teaching in piano and singing on Saturday, 11th.

Mrs. Manning and Miss Edna, of Harvey street, have returned from a two weeks' visit in Montreal where they were the guests of Rev and Mrs A. J. Thomas, of St. James' Church, Montreal.

Mr. and Mrs. W. E. Bailey and family, of Vermillion, Ohio, returned home yesterday after a few days' visit with Mr. Bailey's mother, Mrs. Lavinia Bailey, Park street, and his brother, Walter, of this city.

Mr. Earl Barrie, London Street, returned home, having spent the past three months in Prince Rupert, B.C., visiting his father.

Major Miller, D.S.O., M.C., and Mrs. Miller have taken up residence in their new home, 385 Stewart Street.

GOVT. EMPLOYES ARE IN MONEY LENDERS' HANDS

(Canadian Press.)

RIO DE JANEIRO, Sept. 9. — That money lenders have apparently gained a great hold on a large number of government employes is indicated by the introduction in the Federal Chamber of Deputies of a bill authorizing a special loa nof about $25,000,000, part of which is to be devoted to liquidating such debts. The bill provides that the Treasury shall reimburse itself for the payment of these debts by deducting the amount from the employes' wages in 60 installments and take interest at six per cent. annually on the balances outstanding.

Part of the special loan, the bill provides, would be used to reimburse government employes for the amounts taken from their salaries by the special tax during the war period.

MANY DRUNKS ON STREETS IN LINDSAY

At the regular meting of Lindsay's town council considerable emphasis was placed on the number of drunks see non Lindsay's streets both day and night.

In this connection the following police report for August will be found of interest:

Number of cases before Magistrate, 22; B. of T.A., 11; assault, 6; breach Motor Vehicles Act, 3; breach by-law 869, 2; convictions 14; dismissed 2; withdrawn (no cases), 3; withdrawn, paying costs, 2; committed, 1.

Amount fines imposed, $221.30; ton of Lindsay, $171; License Inspector Thornbury, $43; cab hire, $1.50; Constable Conquergood, serving summons, $1.50; P.M. for certificates, $4.00; paid Treasurer, $171.50; old fines, 285.00; dog tax, $32; transient trader, $50. Total paid Treasurer, $287.50.

NEW INDUSTRY OPENS UP IN NORWOOD

The McGillquinn Handcraft Products, a new manufacturing concern, opened in Norwood this week.

From an item in another column it will be noted that the McGillquinn Handcraft Products, the new manufacturing concern, has opened in Norwood this week and is advertising for help.

Mr. F. P Quinn, the manager, is quite busy getting things underway and arranging for the occupancy of the concern's premises, which were recently leased from Mr. H. G. Buck. Some of the raw material has already arrived and operations will commence at once. The firm for the present will manufacture only floor and pedestal lamps, which from the samples we have seen are a very artistic piece of furniture. They are made from pulp fibre and in Canada they are practically a new thing. Mr. Quinn states there is a splendid demand for these lamps and his firm is booked ahead with orders.

WEDDING BELLS

NOONAN—GANNON.

A quiet but pretty wedding was celebrated, Sept. 1st, in St. Martin's Church, Ennismore, when Bertha, daughter of Mr. and Mrs. John Gannon, was united in the holy bonds of matrimony to James Maurice Noonan, of Perth, Ont. Reverend Father McAuley officiated.

The bride was tastefully attired in a travelling suit of navy velour with hat to match. She was assisted by her sister, Veronica, who wore a similar suit with brown and coral hat. Mr Jack Noonan, brother of the groom, was best man.

A dainty wedding breakfast was served at the home of the bride's parents, after which the happy couple left for a short trip to Toronto, Niagara Falls and Buffalo.

Mr. and Mrs. Noonan will reside in Perth.

HAMLY—TREBILCOCK

A pretty wedding took place on Wednesday, Sept. 8th, at "Ingleside," the home of Mr. and Mrs. P. C. Trebilcock, Bowmanville, when their youngest daughter, Minnie Gertrude was united in marriage to Norman H. Hamly, late Lieut. R. A. F., the ceremony being conducted by Capt. the Rev. John Garbutt, of Oshawa, assisted by Rev. S. Moore. The bride looked charming in an afternoon gown of white Georgette crepe over satin, with black picture hat, and carried bride's roses and white heather. She was attended by Miss Hilda Hamly, the groom's sister, who wore French blue tricolette, with black hat, and carried pink roses. Mr. Dolph Tucker was best man. The wedding music was played by Mrs. Hutcheson of Toronto, sister of the bride, who sang "Love's Coronation" during the signing of the register. The house was profusely decorated with asters and ferns, and the marriage took place under a large Union Jack. The buffet luncheon was served to about fifty guests, after which Mr. and Mrs. Hamly left on a motor trip. On their return they will live in Peterboro'. The groom served four years in France and Italy and was decorated with the D.F.C. and the Italian Military Medal.

BONUS--WOOD.

An interesting event took place on Tuesday at Bailieboro, Ont., in Christ Church (Anglican) when Miss Marion M. Wood, daughter of Mr. T. J. Wood, was wedded to Mr. W. H. Bonus, B.A.Sc., of Toronto, the ceremony being performed by Rev. Canon Allen, rector, and witnessed by a number of friends and relatives of the contracting parties. The bride who was given away by her father, was becomingly attired in her travelling costume and carried a sheaf of Ophelia roses. After the ceremony the happy couple left mid showers of confetti and the good wishes of their friends for a short honeymoon trip, after which they will reside on Howland avenue, Toronto. Some of the friends in attendance at the wedding were:—Mrs. Hutchinson and son, Arthur of Huntsville, Ont., Dr. and Mrs. Hollaway of Peterboro; Mrs. Bonus, mother of the bridegroom; Mr. Roy Byers of Edmonton, Alta.; and Mr. and Mrs. Fair and daughter, and Mr. and Mrs. McCamus of Cavan.

Twenty Years From Now

You will want good sight twenty years from now. But if you are going to have it you must not neglect your eyes **now.**

If your eyes pain, don't put off attending to them. Have Dr. Fowler examine them at once. If you need glasses he will prescribe the correct lenses to relieve your eye trouble.

ANNULING OF MMARRIAGES GROWING INTO SCANDAL

Easy Way of Obtaining Divorce, Says Canon Scott.

(Canadian Press.)

QUEBEC, Que., Sept. 10. —Decisions of Judges in Quebec Inferior Court annuling the marriages of Catholics and non-Catholics performed by Protestant ministers, was becoming nothing less than a scandal and an easy way of obtaining divorce, stated Rev. Canon Scott in the course of a statement he made to-day relative to the annulment by Justice B .R. Uneau of the marriage of John Bernard Dahlemann and Gertrude Barbeau, performed by him in September, 1914.

Sting of Illegitimacy.

Canon Scott said the Supreme Court of Canada had decided that such marriages were legal, and he hoped that in the public interest steps would be taken to put an end to decisions of Judges of Inferior Courts, which enabled people by consent to secure nullification of sacred marriage obligations, and bring unhappiness and the sting of illegitimacy upon innocent children.

LATE WANT ADS.

VOL. XVLII. NO. 60 PETERBOROUGH, SATURDAY, SEPTEMBER 11, 1920 PRICE THREE CENTS

The Sinn Feiners Kidnapped King George's Youngest Son

RESTITUTION ORDERED IN THEFT CASE

BROOKES BROTHERS ALLOWED TO GO ON SUSPENDED SENTENCE —MUST REPORT TO POLICE

PLEADED GUILTY

William and Harvey Brookes, of Toronto, charged with receiving automobile accessories stolen from the Nurse garage at Fowler's Corners on June 26th by Russell D. Perrin and Elmer Brookes, appeared before Judge E. C. S. Huycke in the County Court yesterday afternoon and after an eloquent plea by their counsel, B. W. Essery of Toronto, were allowed to go on suspended sentence on condition that they make restitution for the loss sustained by all parties concerned, that they behave themselves in the future, that they work honestly and that they report once a month to Police Inspector Guthrie of Toronto.

Their counsel elected summary trial before the judge and entered a plea of guilty.

He asked that the court consider allowing the young men to go on suspended sentence in view of their clean record and the suffering which already had been caused their family and dependents. He stated that since their committal in police court they had worked steadily and lived honest lives. Their family was doing all in its power to locate the brother, Elmer, who was the chief participant in the crime and was eager to make restitution for the loss which all concerned had suffered. He offered to make himself personally responsible for the good conduct of the brothers and for their making restitution.

Crown Consented.

Crown Attorney G. W. Hatton consented to Mr. Essery's suggestions, but stated that the restitution would amount to a considerable sum. The county had been put to much trouble and the case had baffled the police for weeks.

At this point a compliment was paid Sergeant of Detectives Newhall when the Crown Attorney remarked upon the work that Sergeant Newhall had put into the case and said that it had taken him weeks to find a clue, even though he worked with his usual astuteness. His Honor replied that the sergeant of detectives was particularly astute.

In view of the circumstances and Mr. Essery's promise and plea His Honor, although he expressed no sympathy for the accused, allowed them to go on suspended sentence, stating that any misdeameanor would mean that they would be brought here and given sentence on this charge.

Russell D. Perrin wo was charged with the theft of the accessories jointly with Elmer Brookes was also allowed to go on suspended sentence last month. Elmer Brookes is still at large and is believed to be in the United States.

NO TUITION FEES FOR RETURNED SOLDIERS

(Canadian Press.)

WINNIPEG, Man., Sept. 11.—Returned soldiers will not be required to pay tuition fees for non-professional courses such as Arts, it is learned from President James A. McLean of Manitoba Univrsity. Soldier students in professional courses will only be required to pay half fees. These include courses such as medicine, engineering, and others. The discrimination between the professional and and non-professional students is made owing to the greater cost of the professional courses, requiring much laboratory work. The policy of permitting special conditions to returned soldiers is one that the University of Manitoba established last year. It is a permanent policy and returned soldiers may always benefit by it.

GOOD EYES INCREASE PRODUCTION.

The need of to-day is increased production, but if your eyes are not efficient you cannot do your share. If your vision is poor or if you cannot comfortably stand working or reading for any length of time, your eyes need attention. See W. H. Lacey, Optometrist, 410 George St.

WOMAN PHONE OWNER WANTS TO CLOSE UP

CAMBRIA, Cal., Sept 11. — (United Press).—Cambria's telephone system wants to suspend operations.

Its owner and general manager, Mrs. G. Guerra, has petitioned the state railroad commission to permit her to discontinue service to her 114 subscribers. She sets forth she is 65 years old, in poor health and unable to get competent help.

Mrs. Guerra's rates are 50 cents a month for subscribers furnishing their own instruments, and $1 a month if she instals her own outfit.

Captures A Prince

SINN FEINERS KIDNAP THE YOUNGEST SON OF KING GEORGE —LATER RELEASED

(Canadian Press)

TORONTO, Sept. 11.—The Globe this morning prints the following copyrighted cable from London:

London, Sept. 11.—Prince George, youngest son of King George, was kidnapped Monday night by a party of Sinn Feiners and held a prisoner for several hours in a deserted cottage on the outskirts of Balmoral woods. The kidnappers departed without harming the Prince, leaving a note, which read: "This is but beginning; end will come if MacSwiney dies."

This became known for the first time yesterday. Details of the kidnapping are still a mystery. Balmoral castle is being guarded by sleuths from Scotland Yard.

The Prince and a man servant were captured by a party of masked men at about seven-thirty o'clock in the evening, as they were returning from a day's fishing. They were hurried to an empty cottage and there locked up and it was not until several hours later that it became known at Balmoral castle, where the royal family is vacationing, that the Prince was missing.

The King and Queen immediately organized a search party, consisting of castle servants. Royal Guards were aroused and Scotland Yard notified. The entire neighborhood was thoroughly searched and the two prisoners were found in the cottage. Kidnappers made no attempt to harm the Prince.

NASSAU LODGE HELD A MEETING

SIX MEMBERS OF THE LODGE ADVANCED

On Tuesday evening, 7th September, Duke of Wellington, L.O.L., No. 457, held one of the most successful events of the season, when some six members of the Lodge were advanced to the R. A. P. degree. The hall was filled to capacity with members and visiting brethren from Lodges No. 1175, No. 50, No. 2440, No. 80, Peterborough, No. 522 South Dummer, No. 284, Warsaw, No. 28; North Dummer, No. 122, Lakefield, who ably assisted in the work of the degree, which extended into the small hours of the morning. After the business of the meeting was ended, a short social time was spent and dainty refreshments served.

No. 457 wish, through the columns of The Examiner, to thank the visiting brethren for their assistance and kind remarks, and also extend a hearty invitation to all brethren to attend our meetings, which are held the first Monday of each month. The evening was brought to a close with the singing of the National Anthem.

WHEAT HEADED OUT IN THIRTY-SEVEN DAYS.

(Canadian Press).

EDMONTON, Alta., Sept. 11.—A. L. Sawle, of the Northern Trading Company, who has returned from a trip to the top of the map, brings back a story of wheat at Fort Simpson that headed out thirty-seven days after seeding. It was sown June 7, and by the middle of July was in head.

This is the farthest north that wheat is grown in Canada. The crop that Mr. Sawl tells about is on the Dominion Government's experimental farm, where tests of northern soil productiveness have been going on for several years. Fort Simpson is situated on the Mackenzie River, near the mouth of the Liard River, in a little short of latitude 62.

DR. D. C. KING APPOINTED ASSOCIATE CORONER

This morning Dr. D. C. King received an official communication notifying him of his appointment as associate coroner for Peterborough.

A CANADIAN'S EXPERIENCES WITH SOVIETS

SPENT FIFTEEN DAYS IN PRISON —SAYS RUSSIA WILL STARVE ITSELF OUT

GENERAL CONDITIONS

MONTREAL, Sept. 11.—"Russia, in its present state, if left alone, will starve itself out, and even if education and the higher ideals of life reach it, Bolshevism, which it now contains, will be killed by the very things the lack of which gave it birth." This statement was made here by William J. Cowen, late Lieut. and Adjutant of the Fort Garry Horse of the C.E.F. who arrived in the city yesterday.

Mr. Cowen has just returned from the Republic of Azerbidjan, one of the states which lies amongst the Caucasas which separate the Black from the Caspian Sea, where he has been acting in a commercial capacity. He gave a few new details on life, and death, under the rule of the Soviet forces.

Suddenly, withhout any warning, the Bolsheviki arrived on the very outskirts of the town, and with much cruelty and murder took over the possession of it from the republican authorities. Mr. Cowen explained that the way for the Bolsheviki was opened up by the Young Turk party, which had been promised that, if they would help the Soviet armies in their marches of conquest through the Ural and Caucasas provinces, all the pressure of which Russia was capable would be brought to bear on the Allies for the maintenance of Constantinople and other parts of Turkey in Europe under Turkish control. Thus the masses of troops which poured down on the hapless towns in the two provinces of Georgia and Azerbidjan met with scant opposition except from the forces of the Republic governments.

Mr. Cowen expressed the opinion that it would not be long, before the soviet reigned supreme over Georgia, as Bolshevik propaganda accomplished work amongst the republican population which all the forces of Lenine and Trotsky were unable to do.

Taking of Baku.

Speaking of the taking of the town of Baku by the Bolsheviki, Mr. Cowen stated that this was carried out in a most thorough manner. Houses, being under Soviet rule the common property of the state, nearly every family in the town which could boast of a decent residence was cast into the street to make way for the filthy, villainous soldiery. The civic authorities of this town, Mr. Cowen stated, were treated with the utmost cruelty and it was no uncommon sight to see controllers of the various districts of Baku working with a broom at the street corners under the eagle eyes of heavily armed Bolsheviki. Mr. Cowen stated that the manner in which some of these m vent to terrible and lingering deaths commanded the greatest admiration. As an instance he pointed out the case of the governor general of the republic, General Glechas, a good soldier and a staunch friend of the Allies. This officer defied the Soviet to do its worst and gave the Bolshevik commanders a good idea of what he thought of them before his brains were battered in by frenzied soldiers and his heart was shot out at close range with a revolver.

A Bolshevik Prison.

When the organized hordes swooped down on the town of Baku, Mr. Cowen said this morning, all those in the town who were foreigners and who belonged to a country which boasted any sort of a monarch were immediately seized and placed in close confinement. Americans, Italians, Frenchmen and others escaped this, although at times mistakes were made and even they found themselves behind prison walls. Mr. Cowen himself was amongst those who were arrested, and tells terrible accounts of the days he spent between walls covered with unmentionable filth and in rooms little larger than telephone booths which, on occasion, contained as many as six people. "At times like this," stated Mr. Cowen, "we were forced to sit on the floor, knee to knee." Here no food was given them except that which was handed through the walls by friends who has escaped the long arm of the Soviet law.

For nfteen days, Mr. Cowen stated, he was under close confinement, and had he not found a way of dodging the stern militry law he stated his belief that he would eventually either have been killed or have passed the rest of his days in prison.

Ultimately, by influence which he had previously established amongst outside officials and a friend in the Bolshevik camp, he was able to obtain his freedom, and with three American engineers who were, with the aid of passports, working their way across the country to the Black Sea on their way back home, he was able to pass across the Azerbidjan frontier into Georgia and eventually

Continued on page 11.

OFFICE SEEKS THE MAN IN REPUBLIC OF GERMANY

STRANGE CONDITION OF AFFAIRS—ELECT A CANDIDATE

(United Press)

BERLIN, Sept. 11.—Frederich Ebert may after all be a candidate for re-election to the presidency, according to reichstag leaders in touch with the situation.

The strongest pressure is being brought to bear on him to get him to change his mind, and it is reported that the pressure is so great he may finally agree, especially since his candidacy is believed to assure his election, in view of the fact that the right and left parties so far have been unable to find a candidate.

Moreover, the centre party, the majority socialists and the democrats are now inclined to support him to the limit.

Frau Ebert's plaintive appeal to "her man" not to continue in political life, since "it is such a strain on Fritzie" and spoils the "domesticity," they both love, evidently is going to be submerged. It now appears to be a real case of the office seeking the man.

WITH THE DRUIDS

United Press.

LING'S LYNN, Sept. 11. — Despite England's smallness and Labor's efforts there are some spots so remote that inhabitants have never heard of a minimum wage.

Barton Bendish, Norfolk, claims to be the loneliest place on the face of the earth and when a farmer from the back of beyond was charged with infringing the agricultural minimum wages order A. G. Hawker, who defended him said:

"Barton Bendish is one of those places you can only get to by aeroplane. Newspapers never penetrate to the place. I believe there is a parish but the people live like Druids. It is rather hard on people who disobey an order made at Westminster which has never been distributed.

"Nobody at Barton Bendish knew there was such a thing as a minimum wage."

INTERESTING CASE IN DIVISION COURT

REAL ESTATE AGENTS COMMISSION SUBJECT OF LITIGATION

Whether a real estate agent who has the agency for a property is entitled to a commission for its sale by some other agent was the point of interest in the case of Taylor and Howden vs. Alcock in the Division Court before Judge Huycke yesterday afternoon.

The house at 577 Bolivar Street had been placed with several real estate agents for sale, when Mr. Alcock gave the agency to Taylor and Howden. He signed a card, whose conditions were that they were to be the exclusive agents without noticing the conditions of the agreement on the card. The Taylor and Howden agency made several efforts to sell the property and were instrumental in fixing the prices at which it was later sold. It was sold, however, by H. J. McCannon, who had also been given the agency by Mr. Alcock.

Taylor and Howden claimed a commission of $75 in recompense for their work, and upon the refusal of Mr. Alcock to pay this, brought legal action.

Judge Huycke allowed the plaintiffs $35. They had, he said, worked to sell the property, and it was through their efforts that the price at which the house had been sold was fixed. They had been granted the exclusive right to the sale of the property, and Mr. Alcock had been exceedingly careless in signing the agreement without reading its terms.

C. R. Widdified appeared for the plaintiffs and V. J. McElderry for the defendant.

PRIZE HORSES CHANGE HANDS

SEVERAL SALES MADE BY LOCAL HORSEMEN

Mr. S. W. Blewett has sold his high-stepping chestnut mare, Babe Ruth, to James McMullen, of Brantford. It is understood that this valuable mare commanded a very good price. Mr. Blewett, besides winning at Peterborough and district fairs, has won at Cobourg and Toronto.

Yesterday he took Babe Ruth to London, where she is entered in the fair that opens there next week. The new owner will take possession of the horse immediately after the fair, it is said.

It is understood that Mr. R. Roberts has disposed of his Percheron team, which he has been showing at Toronto, to an American company. The price paid is said to have been $1,000.

BUYERS LOOK FOR A PRICE CHANGE SOON

NOT ENOUGH WHEAT TO FEED GREAT BRITAIN—GRAIN PLENTIFUL ON CONTINENT

PRICE CHANGES

MONTREAL, Sept. 11. — The British Royal Commission's requirements for wheat, amounting to 6,000,000 tons, or about 222,000,000 bushels would absorb a large part of Canada's 1920 crop, which has been estimated in various quarters to realize about 250,000,000 bushels. There is at present only cable information as to Britain's needs but it is said that Canada could by no means spare so much wheat. The Australian and the Argentine crops are unknown quantities at present, it is said, and on them will depend the price of Canadian grain. It was recalled that Australia still has a controlled price for wheat, but that would have to be adjusted if she wanted to sell in the world's markets.

"Canada cannot spare so much wheat as the British Royal Commission say they want. According to the press their requirements are six million tons, and we cannot spare more than a half to two-thirds of that amount," said Joseph Quintal, grain exporter. "Prices will be governed later on by the size of the Australian and Argentine crops, but to-day's price in Winnipeg is about $2.85 for No. 1 Northern wheat, and that price is evidently justified by the enquiries that we get from the European continent. The British government may be able to buy at a cheaper price later on but this is apparently doubtful at the moment. There is not very much movement now but some wheat has been sold to go to New York and he shipped thence to the continent.

Little Movement.

Other exporters also say that there is little movement now and cannot be expected until the receipts at Fort William, Ont., are larger. Most of the crop has been harvested—a Montreal man who returned from the West last night said he had seen no standing wheat anywhere on the journey—but so far not much had been thrashed. "Until that is done it will be impossible to rush the business," says James Carruthers & Co., Limited, "and it may be some weeks before much is doing. Meanwhile we are reciving cables daily from authorities on the other side, who are keeping themselves closely in touch with the position here."

Last year's wheat is said by grain authorities to be still coming down from the west, and some is being stored here and some shipped, the idea being to get this wheat out of the west while navigation is open. It is held however that there cannot be sufficient of that wheat left unsold to be available to the requirements for next year of the old country, and in fact that it is already sold.

It is said that grain on the continent this year should be plentiful in many parts, France in particular having sown a heavy acreage and expecting a very heavy crop. But no export can be hoped for from Russia, under the conditions there, and certain other countries in Europe have also been too unsettled to raise much wheat, so that there is bound to be a big demand later on. "Meanwhile the British Royal Commission is not buying any wheat as the price of spot wheat is 15c more than for October futures, and they are obviously waiting for a drop in price, which will probably come as soon as the new crop comes in more heavily."

FIVE BUILDING PERMITS ISSUED

TOTAL VALUATION AMOUNTS TO $1,875

Five building permits are issued from the City Hall this week, none of which provided housing accommodations for any family outside of a home for hens.

Gordon S. Matthews, $500, garage, 488 Hunter street.

Peterborough Fuel and Cartage Company, $900, office, 134 Aylmer street.

M. Butcher, $100, alterations, 85 Wolsley street.

A. McPherson, Sr., $250, alterations, 525 Park street.

James Heir, $125, hen house, 531 Roger street.

WHERE TO GO TO-NIGHT

GRAND—P.B.I., a rollicking comedy of Soldier Life at the front.

ALLEN—William S. Hart in "Blue Blazes Rawden."

EMPIRE—Marion Davis in "The Belle of New York."

REGENT — "Peggy Hyland in "Faith."

HE PRAYED FOR A DOWNPOUR—GOT IT!

LONDON, Sept. 11.—"Whenever he wants to annoy me he plays the cornet all night, and he generally spends his Sundays calling upon heaven to send sufficient rain to drown the family," said a woman at the Willesden Police Court, seeking a separation from her husband.

"Now we know whom to thank for such a rainy July," said the magistrate in refusing the application.

Fighting In Italy

SOCIALISTS FORCES AND GOVERNMENT TROOPS CLASH—WORKMEN SEIZE FACTORIES

(Canadian Press.)

MILAN, Sept. 11.—More than 200 chemical works here were occupied by the workmen at a given signal late yesterday, and red flags were hoisted above them on an order issued by the Chamber of Labour.

The plants were occupied simultaneously, the movement being carried out following a signal from a syren. Immediately afterward, red flags and banners bearing Bolshevik emblems of a hammer and scythe, were hoisted.

The workers obeyed orders, in spite of the fact that they were recently granted wage increases of from 60c to 70c a day.

The Chamber of Labour, in explaining the seizure of the chemical works, declared that the move was not in the nature of real occupation of the plants, but was simply a measure which was necessary to guarantee the metal workers the materials they need to carry on their industry.

REVOLT EXTENDS.

TRIESTE, Sept. 11.—The revolt broke out in this city, and the Socialist forces and the Government troops engaged in heavy fighting—artillery, rifle, and machine gun fire being continuous.

Bombs were being used by the contending forces. Barricades have been erected, and trenches dug in the streets of the city, and the Socialists are armed and provided with ammunition.

Order was restored last night, and troops patrol the streets.

An Italian destroyer anchored in the harbour, its guns commanding the public square.

EARTHQUAKE VICTIMS.

(Canadian Press.)

FLORENCE, Italy, Sept. 11.—More than one hundred towns and villages were destroyed or badly damaged in the district north of this city which was shaken by the earthquake on Tuesday morning last, acocrding to the latest reports received here.

FELL FROM AIRPLANE INTO THE TREE TOPS.

Pilot and Mechanic Sustain Serious Injuries.

(Canadian Press).

TORONTO, Sept. 11.—Bishop Barker, while airplane flying from Orillia to Toronto, developed engine trouble near Brooklin, about noon yesterday, and had to make a forced landing in the heart of Bickle's Wood, Pilot Capt. McRae, R.A.F., Mechanic Mr. Baker, and two passengers, Messrs. Thompson and Cairns, of Orillia, falling from the machine in the tree tops and thence to the ground.

Captain McRae sustained a broken rib and Baker a fracture of the arm, but the two passengers escaped with minor bruises.

Capt. McRae and Baker, after being attended by Dr. Moore, of Brooklin, were removed to Oshawa General Hospital. Messrs. Thompson and Cairns were able to proceed by motor to Toronto.

A MEETING OF THE OFFICERS OF THE PETERBORO RANGERS WILL BE HELD ON TUESDAY NIGHT AT THE ARMOURIES AT 8 P.M. G. G. WINTERBOTTOM. CAPT. AND ADJT. ..2d11 14 63-2482

INVESTMENT CONDITIONS ARE BETTER

CREDIT SITUATION RELAXES—EASIER TONE IN THE MONEY MARKET

MARKET REVIEW

(Canadian Press.)

NEW YORK, Sept .11.—Pronounced improvement in the investment conditions, as evidenced by the success atending the new French loan offering, and a growing conviction that the credit situation is relaxing, were the propelling forces of a fairly active and irregularly higher movement in the stock market this week.

Bonds were also stimulated by the ready absorption of the French issue, excepting the Liberty group.

Anglo-French 5's, Swiss 8's, and other international war flotations made variable advances on a broader demand. Recent inquiry for low speculative rails was less marked, notwithstanding more encouraging crop outlook, especially as to corn. Standard rails, notably Pacific and Coalers, continued to strengthen on further accumulation, apparently by substantial interests. Steels, equipments, and related shares frequently were overshadowed by the activity of oils and shippings, but motors and their subsidiaries were under occasional restraint as a result of less favourable trade advices.

Money and foreign exchange pursued widely different courses, greater ease being evidenced in the rates for the time and demand loans, while remittances to London fell to the lowest levels in almost five months, with concurrent heaviness in quotations on continental European points.

RALLY SUNDAY AT ST. JOHN'S TO-MORROW

Special Services Morning, Afternoon and Evening To-Morrow.

Rev. R. A. Hiltz, M.A., the noted Anglican Sunday School secretary, will speak at all meetings at St. John's to-morrow. The Rev. Robert Gay, of Toronto, will also address the children in the afternoon. All children of the parish should be present to hear these speakers.

All members of the congregation and any others interested in Sunday School work are cordially invited to attend.

APPOINTED TO SIGNALLERS.

KINGSTON, Sept. 11. — It is announced in an order from Major-General E. C. Ashton, Adjutant-General, at Militia Headquarters, Ottawa, that Capt. E. Forde, D.S.O., has been appointed Major and placed in command of a corps of the Canadian Permanent Signal Corps. The appointment of Major Philip Earnshaw, D.S.O., M.C., which was announced last week, is also contained in the order.

HUGE RED RIVER FOSSIL IS UNEARTHED.

(Canadian Press).

CALGARY, Alta., Sept. 11.—Work on a skeleton of the Ceratopsian or Horned Quadruped Dinosaur, provisionally named Eo-ceratops, is being proceeded with by W. E. Cutler, at Steveville, Alta. One side of the skeleton is almost intact, and part of the other side, but Mr. Cutler states that the laboratories of large establishments would have no difficulty in restoring such parts by plaster casts, tinted to show restoration. The Dinosaur is a finely preserved specimen, and Mr. Cutler was obliged to remove rock amounting to 100 cubic yards during the winter, the covering being over 12 feet in thickness. The skeleton is one of the Red Deer River fossils.

FEMALES OF HUMANITY WORSE THAN MALES.

(Canadian Press).

CALGARY, Alta., Sept. 11.—The female of the species appears to be living up to poetic specifications in this city, according to the report of A. D. McDonald, superintendent of the Children's Aid Society. Desertion of families is more prevalent among wives than husbands in Calgary these days, and for the past month or so the number of girls before the juvenile court trebled the total of the boy offenders.

HAVELOCK

HAVELOCK, Sept. 11.—Mr. Arthur Copp is in town. Mr. Copp reports Windsor being a lively town.

Mr. W. H. Roe, of Kingston, was in town over Tuesday on business.

Mrs. Milliken and family have returned from camping at Belmont Lake.

Dr. andMrs. McLean are motoring to points east.

Miss Ruth Fairbrother has resumed her music class for the coming year.

Miss Turner is back in town, and has resumed her music class.

Mr. and Mrs. Battisby, Campbellford, announces the engagement of their only daughter, Nellie M., to Capt. A. Glenn Thompson, of Campbellford, son of the late Mr. and Mrs. Thompson, Toronto. The marriage takes place Sept. 18th.

Dr. J. W. Russell, of Toronto, has been celebrating his 43rd birthday. All Round Lake cottagers join in the good time. A programme of races for babies, boys, girls, ladies and men was run off, and the evening spent in songs, speeches, music and a splendid display of fireworks.

Mr. and Mrs. J. M. McLaughlin, of Norwood, and Mrs. McNeeley, of Peterborough, were guests of Mrs. D. Vansickle on Thursday.

Messrs. Dewart and Earl Higley, and Misses Gladys and Elvia Higley, of Toronto, motored to town for over Sunday and Monday.

Mr. and Mrs. Stanley Copp and children, of Saskatoon, Sask., are guests of the former's mother, Mrs. A. J. Copp. Mr. Copp has not been home in five years. He is holding a position in the West as railway mail clerk.

Miss Vera and Pearl Jones, of Hamilton, are the guests of the latter's parents, Mr. and Mrs. W. Jones.

Mrs. Wm. Buchanan and little son, Arthur, of Smith Falls, were guests of her mother, Mrs. Copp, last week.

Mr. and Mrs. Harry Meyers and son, of Edmonton, Alta., were guests of their sister, Mrs. A. J. Copp.

Mr. Oron Aubel and daughter, Lillian, are guests this week of Mrs. Wm. Green at Hornby, Ont.

Mr. and Mrs. Ross Brown spent the week-end, guests of her sister, Mrs. Ross Richards, of Toronto.

Messrs. Charles and Timothy McCam, of Temmins, were guests last week of their uncle, Mr. P. McCam.

Mrs. Clem. Timmerman, of Smith Falls, is the guest of her mother, Mrs. John Barlow, over the holiday.

To Drain Swamp.

Mr. Harry Vansickle has been given the contract for draining the Long Swamp in Marmora Township.

Births.

Elmhirst.—On September 8th, to Mr. and Mrs. G. Elmhirst, formerly of Belmont, a daughter—Phyllis Marion.

King.—In Belmont, on September 7th, to Mrs. John King, a son.

Elliott.—In Detoro, on September 6th, to Mr. and Mrs. R. A. Elliott, a son.

Lewis.—In Belmont, on September 7th, to Mr. and Mrs. Walter Lewis, a son.

Died.

General sympathy is felt for Mr. and Mrs. Ernest Brunton, of Belmont, over the death of their little daughter, Jessie Evlin, which occurred on Wednesday. The funeral was on Friday, Sept. 10th, to Maple Grove Cemetery.

Wedding Bells.

Miss Myrtle Blanche, only daughter of Mr. and Mrs. Martin Clark, of Belmont, was married on Tuesday to Mr. David Frederick Ellis, of Victoria.

Miss Elizabeth L. Christie, only daughter of Mr. and Mrs. Newton, of Rush Point, was married in Peterborough on Thursday to Mr. Frank Godfrey, of Otonabee.

BIG DEPARTMENTAL STORE GOVERNS EMPLOYEES UNDER REPUBLICAN PLAN

SEVENTEEN HUNDRED WORKERS HAVE VOICE IN QUESTIONS AFFECTING RELATIONSHIP WITH MANAGEMENT.

(Canadian Press).

NEW YORK, Sept. 11.—The republican form of government for employes, introduced in certain industrial plants throughout the country, has been adopted by a large New York department store.

Employes of this store, numbering 1,700, have a voice in virtually all matters affecting their relations with the management, through elective bodies modelled after the bicamoral system of representation prevailing in the government of the United States.

The employes elect members of their house of representatives and senate directly, while the executive department, consisting of a cabinet of five, is named by the corporation officials. The judiciary functions are carried out by a joint justice committee from the legislative bodies. All branches of the store government derive their powers from a constitution somewhat similar to the constitution of the nation.

Fixing of Wages.

The fixing of wage scales and working conditions are included in the broad powers of the house and senate, while the justice committee may bring about the expulsion of an employe from the concern, or if they find a worker has been unjustly discharged, they can have him reinstated. The acts of the legislature may be vetoed by the cabinet, but this has not been necessary as yet, it was said, by officials of the concern.

Improvement of the service rendered by the store to its customers is the aim of much of the legislation enacted by the workers, but the bettering of the morale of the force of employes also brings many bills to the floor of the house and senate, which convenes one day each week.

"Movies" Service.

Recently a bill providing for the installation of a motion picture machine to provide "movies" in the building was passed, and the management is to spend $5,000 a year in carrying out its provisions. Another act provided for the location and installation of new individual lockers in the basement where employes might hang their coats and hats.

Passing much of the responsibility for the conduct of the institution onto the shoulders of the employes has brought about many improvements, most of them originating in suggestions which are made to the suggestion committee of the house and senate at the rate of more than 50 a week. Employes are paid cash prizes for all suggestions put into use, and no suggestion is rejected until an investigation has been made by the committee.

Increase Earning Power.

An increase in the earning power of each employe is one of the purposes of the new store government, and economy dividends are paid on the saving in the percentage of operating expense. A merit system has been inaugurated by the workers, grades for each employe being made out monthly on a basis of their ability, experience and co-operative work. An average grade is reached by balancing those turned in for all workers by their direct superiors—floor managers, buyers, assistant buyers and department heads. Salaries go up along with the ratings, and promotions also are based on them.

The house of representatives' membership is elected directly by all of the workers except department heads and their assistants. These two groups elect the senators, of whom there are 14, compared with 16 representatives. Half the membership of each body changes semi-annually, the electors holding office one year. The five standing committees from each body include those on justice, cooperation, economy and service.

Include the Public.

As soon as this industrial democracy plan has gone beyond its infancy, its originators hope to take the public into the organization in some way. Already observance of the wishes of customers by employes has resulted in bills directed toward making shopping more pleasant and suggestions for other changes are expected to come from outside the store after the government grows beyond the embryonic stage.

FEDERAL DRY LAW AND LEAGUE OF NATIONS

THESE ARE KEYNOTES OF PROHIBITIONISTS' PRESIDENTIAL CAMPAIGN

(Canadian Press)

CHICAGO, Sept. 11.—Maintenance of the federal prohibition laws is the key-note of the Prohibition Part's presidential campaign, W. G. Calderwood, Prohibition campaign manager, said here to-day, discussing the issues as viewed by his party

"The position of the party in this campaign," Mr. Calderwood said, "is that the Prohibition Party is needed in the failure of the major parties to take any stand on the prohibition question.

"Next to prohibition, our candidates will discuss the League of Nations. I think we take the best stand of any on this question. We urge immediate ratification of the league treaty together with the covenant. We believe the quickest and best way to obtain what changes are needed is to get into the league and fix it from the inside, according as experience teaches, rather than stand around theorizing to no effect on the outside and so blocking progress.

The speaking tour of the Prohibition Party's presidential nominee, Aaron S. Watkins, of Germantown, O., will begin to-day (September 11). The vice-presidential candidate D. Leigh Colvin, of New York, has already been on the road several weeks. He is swinging through the west and is scheduled to be in San Francisco to-day.

Mr. Watkins' first trip will carry him through the middle west and both he and Mr. Colvin knock off for a couple of days around September 2, to attend the International Congress Against Alcoholism in Washington. From there the candidates will go east and south, touring separately for the most part but holding occasional joint meetings in important eastern cities.

Campaign headquarters are situated in Chicago at national headquarters of the party. W. G. Calderwood, the campaign manager, is a member of the Prohibition National Committee and a resident of Minneapolis

APPOINTMENTS MADE BY MASONIC GRAND LODGE

ANNOUNCEMENT!

THE Gerhard Heintzman Player Piano holds a fascination that all the family—you, too—will enjoy. It takes care of the "mechanics" of music — strikes the notes. But it is no mere machine. You direct it, put life and personality into it, by means of its sensitive expression controls. Thus it translates into ravishing tone whatever musical feeling you possess. Through it you can enjoy all the world's greatest music at will. You now have the opportunity of learning the many exclusive essential features embodied in the Gerhard Heintzman which make for perfect tone, and unalloyed pleasure. You can buy this supreme instrument on surprisingly easy terms.

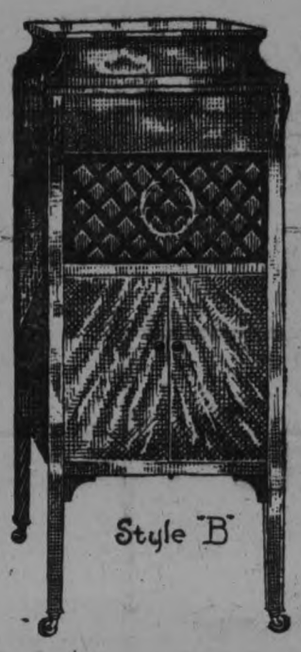
MUSIC-LOVERS who live in and near to Peterborough will be delighted to learn that we have appointed a representative in Peterborough. The nationally-famous Gerhard Heintzman Piano, the perfected Gerhard Heintzman Player-Piano and the wonderful Gerhard Heintzman Phonograph from now on can be seen and heard exclusively, amid quiet, cosy surroundings in the store of

E. V. WARNE
George Street, Peterboro

We are proud to make this appointment, because Mr. Warne is a man who knows musical instrument values intimately. You are cordially invited to inspect the range of new models on his floor —to note the exquisite designs, the consummate craftsmanship and unrivalled tone that have ever been associated with the name Gerhard Heintzman in the last half-century.

SINCE Gerhard Heintzman built with his own hands his first eight pianos—over fifty years ago — until to-day, the demand for Canada's Greatest Piano has been insistent. It has been the preferred choice of over 40,000 Canadian homes. That half-century's record alone bespeaks its wonderful merit. But still more significant is the fact that during the year just past, more Gerhard Heintzman pianos were sold than in any other year. This popularity we regard as the greatest of all tributes paid to the beauty of tone, the symmetry of design and the superior quality which mark the Gerhard Heintzman as one of the few great pianos of the world.

See the $1500.00 Phonograph



at the Fair. This famous phonograph created a veritable sensation when first shown at the Canadian National Exhibition. Built to typify the superlative design and masterly piano craftsmanship embodied in all Gerhard Heintzman phonographs—you can see it now—here in Peterborough. Like all Gerhard Heintzman phonographs, it plays every make of disc record. You will remember, too, that the Gerhard Heintzman alone of all Canadian-made phonographs, has been awarded a Gold Medal in open competition. That fact alone indicates the treat in store for you! Do not fail to visit this exhibit.

Gerhard-Heintzman Limited, Head Office and Factory, Toronto

The GERHARD HEINTZMAN

NOW SOLD EXCLUSIVELY IN PETERBORO BY

E. V. Warne, George Street

SATI IS ABOLISHED BY STATE IN INDIA

LONDON, Sept. 11.— A dispatch from Ketmandu, independent state of Nepal, India, says that aftre a fight lasting half a century a law has at last been passed there abolishing sati or the suicide of a widow on her husband's pyre. Sati is now an offence under the law of Nepal, and inciting to it and abetting it are punishable offences.

The practice of Sati is as old as the Shastras, the sacred writings of the Hindus. Close on three centuries passed in India before attempts by Akbar, the famous Mogul Emperor, resulted in any steps effectively limiting it. Finally, in the time of Lord William Bentinck, nearly half a century ago, the right of a woman to take her life on her husband's funeral pyre was limited to wives of certain age.

Later this law was amended and sati was forbidden when a wife was about to become a mother or in the event she had minor children. Thus the wall of ancient custom and religious usage was broken down, until at last the right of a wife to take her own life at the death of her husband is denied.

The present prime minister, Maharaja Chandra Shum Shere Jung, is responsible for th enew law. During his term of office he has put a ban on the use of opium in Nepal and is conducting a strong campaign against the use of intoxicating drinks.

CUTICURA SOAP

For Shaving, Bathing and Shampooing

The secret of healthy up-to-date shaving is use of Cuticura Soap, the "Cuticura Way". No mug, no slimy soap, no germs, no free alkali, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing and shampooing.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

MUST PROVIDE OWN GARBAGE RECEPTACLES

CHATHAM, Sept. 11.—The board of health in regular session unanimously passed an order that all people who do not provide proper receptacles for their garbage by October 1, will be liable to prosecution. The order was passed after listening to a report submitted by the city garbage collector that in a great many cases the proper receptacles were not provided. The order also included that a sanitary inspector call at each house where the people do not carry out the wishes of the board and inform them of the requirements.

FORTUNES MADE OVER NIGHT IN BOOTLEGGING

Runners Between States and Canada Make Millions.

(Canadian Press)

DETROIT, Mich., Sept. 11.—Profits running into millions of dollars will be taken by rum runners operating between Canada and the Detroit district during 1920, according to estimates based upon figures by American and Canadian revenue officers. In some quarters the estimates of profit from illicit liquor sales run as high as $100,000,000 for the present year.

Stories of fortunes made over night and of scores of liquor rings ranging in size and operations from groups of Canadian farmer boys who buy and sell whiskey by the quart to "liquor brokers" whose sales are measured in terms of boat loads, are being heard along both sides of the international boundary between Michigan and Ontario.

Prohibition enforcement agents are greatly hampered by lack of motor boats. It is said to be practically impossible to catch whiskey smuggling without fast craft.

Thoughtless Spending

brings only superficial pleasures which soon pass and are forgotten.

Thoughtful people are checking unnecessary expenses and opening savings accounts where their money will constantly grow and will bring contentment and security in the future.

"Peterborough Presents Possibilities Unsurpassed."

SATURDAY, SEPT. 11TH, 1920.

THE TIMBER PROBE.

The more evidence that is heard in the timber probe being conducted by the Latchford-Riddell Commission, the more apparent becomes the fact that there has been criminal carelessness and grave irregularities in the manner in which the business of the Province has been conducted. The statement of a witness yesterday that the Hayward Lumber Company had obtained a timber permit covering 405 square miles without any competition is an example of the manner in which the people's interests have been neglected. It was stated, too, that a Government fire ranger assisted in securing the tract, and afterwards resigned his position and became a member of the company. No wonder Judge Riddell felt constrained to point out that there were features in the evidence that put this transaction "in an awkward light." There have been made many disgraceful things uncovered by the investigation, and the end is not yet in sight.

THE BRITISH SITUATION.

Black as has been the labour situation in Great Britain, the outlook has grown infinitely darker as a result of the complete failure of the conference between the coal miners' executive and Sir Robert Horne. The conference has, according to news despatches, only succeeded in emphasizing the differences between the miners and the government and it is declared that there is nothing in sight to prevent a disastrous strike on September 27, a strike that will tie up industrial England and cause terrible distress and suffering. The miners' executive are defiant— they insist on dictating to Parliament what shall be done with the profits made from the export of coal. The wage question, ostensibly the chief matter at issue, is really only a minor factor in the dispute. The chief issue is the nationalization of the mines, a step that the miners are insisting upon, and the deadlock is a conflict between economic theories. At all events the crisis is rapidly approaching and the prospects are of the gloomiest unless the labour leaders themselves are brought to a realization of the folly of their position. The workers in other industries who will be thrown out of employment in the event of a coal strike may possibly exert enough pressure to prevent the strike scheduled for the end of the month. But this seems to be the only hope, and it is a slender one.

DR. REID'S ADDRESS.

The address of Dr. Reid, Minister of Railways and Canals at the Canadian National Exhibition can be searched from beginning to end without a word of comfort for the general public. The latter indeed are recommended to take the gaff without criticism and the tone of his remarks leaves no doubt as to the fate of an appeal to the Government from the Railway Commissioners' decision. There need be no hope of redress from the Government for the Minister has made it clear that an appeal will only result in one answer—a flat rejection. The address of the Minister is remarkable for the kindly consideration it shows for the Canadian Pacific Railway, on whose behalf Hon. Dr. Reid pleaded even more eloquently than for the National Railways that are under his wing and that are necessarily in competition with the great privately-owned company. It was a speech that will not help to lessen the blow that the increased rates have inflicted on the country; rather will it tend to increase the resentment of the people who will feel indignant at the statement that Canada owes a large debt to the Canadian Pacific. The services of the latter are recognized and acknowledged, but Canadians as a whole will utterly fail to agree that there is any debt on their side in the treatment that has been given the big private system.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. BOLSHEVIK GOLD.

The admission by the London Herald, organ of British Labour, that it has in its possession £75,000 of Russian gold has caused a mild sensation. The charge has been frequently made that the Russian Soviet Government has been endeavouring to carry on propaganda by subsidising newspapers in other countries, but denials have hitherto been made.

The action of the Herald in boldly announcing the receipt of Bolshevik gold and asking its readers as to whether or not the money should be used, will be somewhat of a blow to many British workers who, enthusiastic as they may be in their efforts to put their aims in force in England, have no desire to be linked up with the Bolsheviks. The Herald says that to accept this money "would be to complete a notable episode in international Socialism." But the majority of the British people will probably use a quite different description.

EVERYBODY SATISFIED BUT THE CONSUMER.

Just when the public was cherishing fond hopes that the high cost of living had reached the top notch, and was sure to decline, the Railway Commission paves the way for a general advance in the price of commodities by authorising a big increase in freight rates, says the Toronto Telegram.

Although the crops were never so good before in Ontario, Hon. Manning Doherty and his Milk Commission are quite sure an increase in the price of milk is justified.

Everybody who has anything to sell can always put up a plausible, if not a convincing, argument that he is entitled to higher prices.

To the consumer, to the man on a stated salary who cannot pass the buck, these arguments fall on deaf ears.

Hon. Manning Doherty's declaration that nobody ought to object to paying twenty cents a quart for milk ought to dispose of the whole question, but unfortunately it doesn't. To many people it means lowering the standard of living.

It is not so much what a man is willing to pay as to what he is able to pay.

With a general increase in the price of all the necessities of life, the man on a fixed salary is facing the painful necessity of lowering his standard of living.

It is greatly to be feared that the man who has to accept half a loaf will regard the persuasive eloquence of Hon. Frank Carvell, Hon. Dr. Reid, or Hon. Manning Doherty, as a poor substitute for the other half.

CLOSING IN ON THE TURKS.

Greek troops are once more moving forward in Anatolia, and a Greek division has landed at Ineboli, well down the southern coast of the Black Sea, apparently hoping to move against Angora, the stronghold of Mustapha Kemal, and his unreconstructed Turks, from the rear. It is a long march through a hard country, and not many weeks of good campaigning weather are left; but if a serious attempt is being made to dispose of the Turkish Nationalists this years its chances are at least a good deal better than before the Greek victories last spring. The fighting in Western Anatolia gave the Greeks a considerable moral advantage; it did away with the hope spread by the Turkish rising that perhaps the old fighting virtues of the Osmanli could still prevail over his European neighbors. An army that has been well beaten by the Greeks already will be easier to beat the next time.

Mustapha Kemal's affairs seem to be in a bad way from all points of view, though no doubt that news that comes from Constantinople about his situation has to be discounted to some extent. He was shot at and wounded some weeks ago, and between his wound, overwork and worry he is represented as being in very poor health, indeed. There have been numerous desertions from his army; the troops who remain are dispirited at the shortage of artillery and the failure to receive any of the assistance which the Bolsheviki promised so cheerfully. Sufficient token of this depression is Mustapha Kemal's proposal of an armistice to the Armenians. If his movement succeeds it means the end of Armenia; that he is sufficiently troubled by the Armenians to try to get them off his rear while he disposes of the Greeks in front would seem to indicate that he is pretty far gone. And the landing of the Greeks at Ineboli has been connected with a new prospect of the establishment of a Greek Republic about Trebizond, which would be an ally of Armenia. Meanwhile the Sultan's Government which a few months ago represented nothing but office holders and British hostages, is encouraged to attempt overtures which may entice most of Mustapha Kemal's remaining supporters away from him.

Whether or not the Turkish Nationalists are finally "pacified" before winter comes, a movement which last spring was a very serious menace has been, at any rate, rendered all but powerless for immediate harm. That movement represented both the continuing traits of national character which have made Turkish rule an outrage and also the best in modern Turkey. Its tendency was back to the dark ages, yet it was supported by some very modern and praiseworthy Turks because it did embody the last revival of the national consciousness of a proud and once powerful people.

Its failure may perhaps be ascribed to the fact that the Turk is done, that he is incapable of handling the problems of our time; but he would never have been exposed as an anachronism if the Greek armies had not beaten him so thoroughly. It is a pleasant historical coincidence that those who held the Turk away from Europe for four centuries have had the privilege of finishing the job of getting the Turk virutally out of Europe, and one may hope out of world politics as well.—New York Times.

THE VASSAL RACES.

Everyone familiar with the history of Poland, with all the persecutions and conquests and wars that have swept her territory for hundreds of years, rejoiced when the time arrived when the liberty which she had sought so long seemed within her grasp. But what can explain the insane ambition which prompted her to seriousiy endanger her new-found liberty by endeavouring to extend her borders beyond the generous limits delineated by the Peace Conference. In spite of all that can be said in explanation of this supreme folly, yet the solid fact remains that she was urged to abandon these ambitious schemes by Lloyd George, by Sir William Robertson, and by many other leading statesmen and generals.

"I predicted," said Sir William Robertson, the English war office expert, "that within six months the Russians would be at the gates of Warsaw. I predicted months ago that their first attack would fail, and that their second attack would succeed." It remains to be seen whether the last part of this prophecy is to be fulfilled.

Apart from the question of success or failure, any war was certain to have a most deplorable effect on the prosperity and the safety of Poland. The result can already be seen. An American recently returned from Poland declares that the misery in that country is simply appalling. Thousands of old men, women and children are roaming the forests in a half-starving condition, living on roots and herbs. The evidence that such information, together with the news of the horrible Polish pogroms, was suppressed by those who were interested in doing so, is now indisputable.

The American Jewish Societies, after several vain attempts to get the British Government official report published in the great American papers, actually had to pay the New York Times to publish the matter as an advertisement. The New York Times said that the account of these horrible atrocities perpetrated by the Poles had no "news interest," but it was careful to print elaborate denials of these same occurrences written by Prince Lubomirsky.

Who can fathom the inscrutable decrees of fate that have decreed that certain nations, such as the Poles, the Jews and the Armenians, should for hundreds of years be subjected to sufferings, persecutions and massacres. In the case of the Jews and the Armenians such persecutions have extended over a period of nearly two thousand years.

In most communities the individuals who get imposed upon are usually the weak and the least efficient. In the case of these three races above mentioned, however, such an explanation does not apply, as they are all above the average in ability, industry and courage. And to make the tragedy complete we have the spectacle of the Poles, who themselves have for centuries decried persecution and intolerance, slaughtering the Jews, stripping men and women naked, and beating them nearly to death, stealing all their property and the Government conniving at the whole performance.

These things are all testified to by the British Government Commission which was sent over to investigate. One member of the commission could find only one excuse for the Poles, and that was that the Jews were treated much worse in Ukrainia by the peasants than they were in Poland by the soldiers, police and civilians.

Some Jewish leaders have recently declared that the chief reasons why the Americans and British have achieved such astonishing success, and why their past history has been so happy, compared to other nations, is because, unlike Russia and other continental nations, they have always treated the nation to which our Saviour belonged, with comparative justice.

Many of their most honored citizens are Jews. Many are occupying the very highest positions in the Government, the law courts and the professions. These Jewish leaders also declare that the nations that have always cried "Kill them!" have suffered, and will suffer.

If that is true, and if nations must reap what they have sown, there is a day of vengeance ahead for the Poles. —London Advertiser.

GRASSHOPPER PEST NOT SO BUSY THIS YEAR.

Government Supplied Farmers With Poison Free of Cost.

(Canadian Press).

REGINA, Sept. 11.—Not more than 8,000 acres of grain have been destroyed by grasshoppers over the entire province to date this year, despite the fact that the infested area is from 16 to 18 times as great as last year, when about the same acreage was destroyed.

The above figure is the result of the compilation of estimates made by the field representatives of the field crops branch of the Saskatchewan Department of Agriculture.

During the campaign an enormous quantity of supplies has been shipped in the affected areas under arrangements effected by the Department of Agriculture, without cost to the farmer. A total of about 8,500 tons of poison ingredients have been used, including 130 carloads of bran, 13 cars of sawdust, 120,000 gallons of molasses, 6 carloads of arsenic, a carload of Paris green, and 7 carloads or 2,805 cases of lemons.

As many as 4,000 eggs ready to hatch were counted in a square foot of sod early in June by one field director.

After an application of poison bait near Carnduff, one field director counted 3,380 dead hoppers on a square yard of ground, and from 500 to 1,000 was quite a common quota for a patch of that size.

BUY A BRUNSWICK

Some very beautiful Brunswick Phonographs are to be found in the Victrola Parlours of Ye Olde Firme Heintzman & Co., Limited, George and Hunter streets, Peterboro. A Canadian-made machine it is a credit to the country that has produced it and a delight to everyone who enjoys good music. All the essentials that go to make a high class talking machine are found in the Brunswick.

THE above does not represent a period of time, but the range of income the various bonds listed in our "Investment Guide" for September, return.

Canadian Government and Municipal Bonds are now at their lowest level in many years, and investors having funds coming due for this quarter should consider very carefully which bonds will give them the greatest return over the longest period.

With this idea in mind we have listed a number of current offerings that are unusually attractive and meet the requirements of every type of investor. No amount is too large or none too small to receive our careful attention.

This "Investment Guide," which is published monthly, will keep you informed as to the various opportunities that present themselves in this field.

It only requires the effort of forwarding your name and address to have this mailed each month, as issued. There is no obligation.

September issue is now ready. We suggest writing without delay, as the edition is limited.

REGINA COAL DEALERS RAISE COAL 20C PER TON.

(Canadian Press).

REGINA, Sept. 10. — Following a meeting of coal dealers here yesterday, it was announced that coal will be advanced 20 cents a ton on Monday. Coal in transit, it was explained, would only equalize the amount of over orders. This means that Regina will pay $13 a ton for standard soft coal and $20 a ton for Pennsylvania hard.

TEN WOMEN ATTEND THE PHARMACY CLASSES.

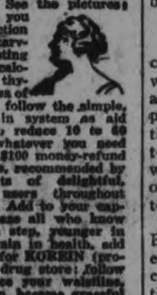
Largest Enrolment since the Opening of the College of Pharmacy.

TORONTO, September 10. — With the largest class in its history the opening of the College of Pharmacy for the 1920-21 term took place yesterday. Of the 192 pupils enrolled, over 180 were present for the occasion. Incidentally this year's class has the largest enrollment of women students, ten in number, since the founding of the college. One of the young ladies comes from Ansonia, Conn.

Last year's class, which until this year, held the record, numbered 144, but this term the lecture rooms were enlarged and 48 extra students, who were on the waiting list taken in The majority of them are returned soldiers.

The class was addressed by the Dean of the College, Prof. C. F. Hebner and Mr. Henry Watters, of Ottawa, chairman of the Educational Committee of the Council.

Be Slender



A true way to become slender, agile, healthy is now yours. See the pictures the shadows are to give you idea of size before reduction of weight. No need of starving yourself, or exhausting exercises. No salts or calomel, no thyroid, no loss of time. Just follow the simple, easy Korein system as aid for you to reduce 10 to 40 pounds (whatever you need to) under $100 money-refund guarantee. Safe, reliable, recommended by physicians. Many reports of delightful, lasting reduction from users throughout Canada: Why not you? Add to your capability and charm. Amaze all who know you. Become lighter in step, younger in appearance, attractive, gain in health, add years to your life! Ask for KOREIN (pronounced koreen) at any drug store; follow the Korein system reduce your waistline, chest, hips or double chin, become graceful and attractive. Get a small box of Korein at the pharmacy; or write for free booklet (which will come to you in plain wrapper), to KOREIN COMPANY, 277-D, Toronto, Ontario.

WOMAN PROPOSES IN OTHER PLACES

MAN A MINOR FIGURE IN MANY COUNTRIES WHERE WOOING IS DONE BY GIRLS

LONDON.—"Once again will 1920 women have a chance to take the initial step toward providing themselves with an introduction to the heavenly kingdom, a boon which marriage brings to them, according to Mormon philosophy. The return of a year which leaps forward a day, bringing to them a privilege monopolized by man three years out of four, has no significance for women of many lands, since they enjoy that liberty all the time," says a bulletin from the National Geographic Society issued from its Washington headquarters.

"The women of no race possess more freedom in the matter than the Hopi Indians of Arizona," the bulletin continues. "A maiden does not woo the man of her choice, but simply and forcibly states her proposition to his mother without any encouragement on his part. Her only preliminary proceeding is to do her hair in two gigantic whorls, one over each ear. This is her announcement that she is going a-courting. These peculiar knots are intended to represent the blossoms of a squash vine, symbol of virginity, but to those untutored in their meaning they resemble huge door-knobs set at a rather viilent angle.

Victims Take to the Woods.

"When some debutantes thus announce that they are 'out on the carpet,' it is said that as many as six or eight of the eligible young men of the tribe literally take to the woods.

"After this aggressive young lady has selected her victim and his mother has agreed that he shall be sacrificed, she serves in the house of her future mother-in-law for 30 days' grinding meal, very much after the fashion of Jacob of old served fourteen years for Rachel. The poor youth in the meanwhile does not sit idly by, but weaves her wedding garments.

"Among the Batuis of the Uganda Protectorate of Africa, if a girl is not fortunate enough to be asked in marriage in her home town, she goes to another village, and offers herself to some man there. Though not honored in her own country, she at least receives consideration in that of her neighbor, for a woman is an excellent agricultural laborer and a man is not likely to refuse such a business asset.

Woman Head of Family.

"Little is known of the marriage customs of the ancient Egyptians, but we can easily believe that women had at least the privilege of expressing a preference if they did not actually do the proposing, for, if we trust the historian, Diodorus, a man promised his wife to grant her complete control over him and to offer no objection to her commands.

"Some survival of this liberty of Egyptian women must have permeated other portions of Africa, for princesses on the west coast of that continent whose children may become future rulers, choose their own husbands. Nor is a princess limited in her choice to unmarried men. She may just as easily decide upon one who has already entered the marriage state, and the poor fellow has to put away his other wives and become her slave. Moreover, she has the power of life and death over him. He sometimes has only one consolation—He inherits all her property if he is fortunate enough to be spared until her death.

A Spirited Courtship.

"In the Tyrol a girl may express her preference for a man by presenting him with a bottle of spirits. If she is afraid that her procedure has not the indorsement of her parents she may contrive to lower the precious fluid at night from her chamber window.

"In North Transylvania, a young peasant woman may give a particular swain tip that he is the 'apple of her eye,' by going with him in his cart at the time of the harvesting of the oats to help him carry in his crop. It is said that at this season, one sometimes sees a procession of gayly-decorated carts going afield, a willing maid seated in each.

"One of the obligations of a father in Rumania and Bosnia is to provide so well for his marriageable daughter that when she is presented with a list informing her of the means and qualifications of the eligible young men in the vicinity, she will not be hampered by a lack of wordly goods on her own part in making her choice.

"In bygone days in India, women were sometimes allowed to choose their own husbands. One of their old fairy tales tells of a fair princess who, after a tournament, placed a garland around the neck of a knight who had won her heart.

"Among the Eskimos of the east coast of Greenland, a man captures the girl he wants, but from that time on the usual order of things is reversed. He has to exercise the greatest vigilance to prevent her from eloping with any other man whom she may prefer, as this seems to be her privilege. In the northern New Hebrides a bride who is unhappy seeks the earliest opportunity of running away from her husband, and seeking a home with some man she likes better. If her parents cannot induce her to return to the injured husband they usually send them a pig to soothe his wounded feelings."

SHOE POLISH

Brightest and Best

FREQUENT HEADACHES

A Sure Sign That the Blood is Watery and Impure.

People with thin blood are much more subject to headaches than full-blooded persons, and the form of anaemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia, or sciatica. Muscles subject to strain are undernourished, and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition, every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

NATURAL GAS STRUCK NOW IN ASPHODEL

Found at a Depth of Forty Feet on C. J. Blake's Farm.

NORWOOD, Sept. 10. — Percy Wilson, while drilling a well for C. J. Blake on the latter's farm, two miles west of Norwood, struck a good flow of gas at a depth of 40 feet. The gas has been coming fairly steady and the well has been capped. Mr. Blake caught some of the gas in a can and tried its combustion properties with first-class results. He only hopes that the well proves the fore-runner of a big gas well or perhaps oil.

PROFITEERING AT COBOURG

On Thursday last a party of five Cleveland people went into a local restaurant and ordered five sirloin steaks for which the list charge was 75c each. When they went to settle, the proprietor, Mr. C. Scopis, charged them $10, instead of $3.75. Mr. Phillips who was in charge of the party, complained to Chief Ruse, who however was unable to do anything as the restaurants in town are not operated under a bylaw. The town council should take up the question of licensing restaurants, so that in future in cases of over-charging, the restaurant license can be cancelled.—Cobourg Star.

The Hudson Bay Co. will build a $5,000,000 store in Winnipeg and the T. Eaton Co. a $2,500,000 mail order house.

"DANDERINE"

Stops Hair Coming Out: Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

CHOICE RECIPES

Corn Popovers.

Mix half a cup of flour, half a cup of cornmeal, a cup of milk and two well-beaten eggs. Beat well and add a little salt and half a teaspoon of baking powder. Bake in a quick oven.

Braized Sweetbreads.

Soak the sweetbreads one hour in cold water and drain. Cover with boiling water and boil 10 minutes and drain again. Brown two tablespoons of butter in a frying pan, add the same of flour and add slowly a cup of boiling water. Cut the sweetbreads in small pieces and add to the gravy with a tablespoon of walnut catsup and a tablespoon of lemon juice. Brown and just before serving add a teaspoon of grated lemon peel and the seasoning.

Rice Rabbit.

Mix two cups of cold boiled rice, half a cup of milk, and when boiling add a cup of grated cheese and half a chopped green pepper. Stir until the cheese is melted and serve on toast.

Cheese Sandwiches.

Mix half a cream cheese with a teaspoon of French mustard, a little tomato catsup and a few drops of Worcestershire sauce. Add a dash of paprika, and spread between thin slices of Graham bread.

Muffins.

Mix a cup and a half of cornmeal, half a cup of flour, three teaspoons of baking powder, a tablespoon of melted butter, a tablespoon of molasses, a cup of milk, half a cup of water and a little salt. Bake in muffin tins.

Fried Tomatoes.

Cut ripe tomatoes in slices and dredge with flour, salt and pepper. Fry in dripping until brown on both sides and remove to a hot platter. Pour in a cup of milk and bring to a hard boil. Pour over the tomatoes.

Steamed Graham Pudding.

Mix a cup of milk, half a teaspoon of cinnamon, three-quarters of a cup of molasses, three cups of Graham flour, a cup of seeded raisins, a teaspoon and a half of baking powder and a little salt. Turn into a well greased mould and steam until tender. Serve with whipped cream to which has been added a teaspoon of ginger or chopped ginger that has been preserved.

Scrambled Eggs.

Beat the two egg yolks left yesterday and one or two more eggs. Add four tablespoons of milk, salt, pepper and a large piece of butter. Turn into a hot dish and cook slowly over a good fire, stirring all of the time. When ready to serve, sprinkle with a little paprika.

Yankee Puffs.

Cream a tablespoon of butter with the same of sugar. Add half a cup of flour, two tablespoons of baking powder and two well-beaten eggs. Add a cup of flour and milk if not moist enough. Bake in a hot oven and serve hot with maple syrup.

Curried Lamb.

Melt three tablespoons of oleo in a frying pan, add one sliced onion, one pared and sliced apple and fry brown. Add a pound and a half of lamb—a cheap piece can be used—cut in small pieces, let come to a boil and add a tablespoon of curry powder mixed to a smooth paste with cold water. Then add a cup of water, cover and simmer tender. Add water if necessary

Plum Betty.

Remove the pits from a quart of plums and cut them in quarters. Sprinkle with sugar and add the juice of half a lemon and half a teaspoon of cinnamon. Arrange in a baking dish, alternating cake crumbs and the fruit. Have the crumbs on top. Pour over a tablespoon of loganberry juice and bake.

HISTORY OR ERIN.

What a splendid history of Ireland would be told by the titles of the bills put forward for the pacification of its people!—Sun and New York Herald.

Even the collar band and cuff edges need only a light rubbing between your hands —

WHAT hard rubbing the old way of washing meant! Even though you boiled the clothes, used cake soap and washing powder, the bad spots simply would not budge without a long session with the washboard. Now—with Rinso—you do next to no rubbing at all. RINSO not a cake soap—not a washing powder—but a new form of soap in granules, with power to cleanse the grimiest dirt. Yet it harms nothing—safe as pure water itself. Here is what you do:

AT NIGHT—SOAK WITH RINSO IN THE MORNING—JUST RINSE!

The dirt runs away. You've done a week's wash without rubbing, without boiling, without labor. Easy on you. Very easy on the clothes. Sounds almost too good to be true—does it? Just prove it.

Get a package of Rinso to-day at your Grocer's.

LEVER BROTHERS LIMITED, TORONTO

LORD MAYOR MACSWENEY PASSED A BAD NIGHT

(Canadian Press.)

LONDON, Sept. 10.—The Self Determination League to-day issued a bulletin that Lord Mayor MacSweney is suffering great pains in his arms, legs and back, and complains of feeling a dizziness and numbness, but is still conscious. He passed a bad night.

NEW PEASANT REPUBLIC.

(Canadian Press.)

HARBIN, Manchuria, Sept. 10. — Advices from West Siberia announce the formation of a peasant republic in the Altai region, with war council composed of military chiefs and three civilians.

REALISTIC.

Restaurant owiner: Here! What ar you doing with that broken crockery?

Dishwasher: Throwing it away, sir.

Restaurant owner: Nonsense! We can't afford to have such waste. Run it through the meat chopper, and we'll sprinkle it in the omlctes. I want the patrons of this restaurant to think I'm using real eggs.

Either way ends every corn

Use Blue-jay as you like best. Apply liquid Blue-jay from a bottle, or use the Blue-jay plaster.

The effects on the corn are identical.

The pain stops. And the entire corn quickly loosens and comes out.

Blue-jay now is ending some two million corns a month.

It has so reduced corn troubles that most folks never have them.

It will end them all when all folks know about it.

The Blue-jay method is easy, gentle, sure.

It is scientific—the creation of a world-famed laboratory.

For your own sake, stop paring corns. Cease the old, harsh, inefficient methods.

Learn what millions know—that corns are folly, the pain is needless. Anybody can be kept forever free from corns with Blue-jay.

Prove this tonight. Buy Blue-jay from your druggist.

LAKEFIELD PLANT OF THE CANADA CEMENT COMPANY MAY RE-OPEN

COMPANY WILL SEEK CONCESSIONS FROM THE MUNICIPALITY---THE PROSPECTS.

Provided the by-law to come before the ratepayers of Lakefield on September 27th carries, which provides for the fixed assesment of the Lakefield plant of the Canada Cement Company, the Company will immediately proceed with the work of preparing for the manufacture of dry process cement and will engage some two hundred workmen, a shipping staff of twenty-five and an office staff. The monthly pay roll will be $20,000.

Mr. E. W Bailey, Superintendent of the Lakefield plant, stated that the proposed re-opening of the plant was due primarily to the discovery of rock apparently suitable for the new dry process, at the Leslie Harrison farm, Douro, which the company has bought. He had experimented with the rock for some years and brought the mater of its possibilities to the company's attention, and while he himself is perfectly satisfied that it is the required rock the chemists have not brought in any definite statement.

Will Develop Power.

Another strong point considered by the company was the fact that the Lakefield plant generates its own power at Young's Point and Dam 3. Both powers will be improved directly the plant is assured and the Lakefield branch will enjoy the distinction of being the only plant of the fourteen operated by the Canada Cement Company, which owns its own power. All others depend either upon steam or the Hydro.

Present Improvements.

At present some eight or ten men are working about the plant preparing for the extensive improvements which will be undertaken if the by-law passes. Such improvements will necessitate the expenditure of a very large sum as most of the present machinery must be replaced by that which is necessary for the dry process and grinders must be installed. Additional buildings will be immediately proceeded with, which will include a crushing plant and new stock house.

Increased Capacity.

The capacity of the plant will be three times that of the former mill and three thousand barrels will be turned out daily in place of one thousand as formerly. The output will place the Lakefield mill in a prominent position with other large factories of Canada.

Provide Housing Accomodation.

While depending upon the enterprise of the citizens of Lakefield to find houses for the majority of workmen who will mean thousands of dollars to the town in a month, the company has already made provision for the housing of a large number by the drawing of plans for the conversion of the terrace of six houses owned by the company into a large, furnace heated boarding house fitted with hot water and all modern conveniences.

Start Operations.

Mr. Bailey stated that if the by-law is defeated the company will immediately look elsewhere, while if it is carried they will start operations, though not at full capacity, on May 1st, 1921. "We hope," the superintendent stated, "to put some of our cement into the Hunter street bridge. We helped supply that which was used on the Smith street bridge. When the plant opens we look for a big advance in Lakefield.

Company Misrepresented.

Mr. Bailey stated that the Cement Companyy had been misrepresented through some of the newspapers, which stated that the shortage of cement in Canada was due to the shipping of large quantities to the United States. This, he said, is absolutely untrue, as the home market has always been given the preference and any that went over the border was but the surplus. The scarcity of cement is due only to the scarcity of coal which caused the shutting down of three of the plants owned by the Canada Cement Company in this locality alone.

Open For Laborers.

As soon as the re-opening of the mill is an assured fact the company will be open for laborers and looks to Peterborough to supply a large percentage of them if sufficient numbers may not be found in Lakefield.

OYSTER BREEDING BY THE MILLION

PROPAGATION OF YOUNG ALREADY "SET OUT"—GUARANTEED BY NEW YORKER TO FLOURISH

(Canadian Press)

WEST SAYVILLE, N. Y., Sept. 11.—Propagation of young oysters all ready to "set out" guaranteed to multiply with proper care into a flourishing brood, may result from experiments just concluded by W. P. Wells, of the New York Conservation Commission, who to-day reported on his extensive study of oyster breeding.

Mr. Wells, at his laboratory on the shore of the Great South Bay, has succeeded in keeping alive millions of young oysters from the larva to the "set" stage. In his report he said that hatcheries modeled after his plant can be built wherein the oysters may be incubated until time to set them out in deep waters.

His method for developing oyster "sets" from oyster seed, or spawn, removes one of the chief obstacles in the commercial propagation of oysters, Mr. Wells said.

"The seeds are so small," he explained, "from the time they are laid by the oyster until they are mature enough to attach themselves to a surface in sets, that experimenters have had the greatest difficulty in devising a practicable commercial method of keeping the tiny shellfish supplied with a fresh supply of salt water and food without washing them all down the drain.

"When the oysters reach the set stage, the can safely be put in the beds to fend for themselves. After that time the oyster grows very rapidly for a period of some weeks and gains full maturity within three or four years."

One of the chief obstacles, that of handling the larvae, or tiny eggs while changing their water, the report says, was overcome by the use of a centrifugal machine, which concentrates the eggs in a small receptacle. The hatching apparatus was made of a series of large inverted glass carboys, fitted with tubes which permitted a fresh supply of salt water and air to percolate so gradually that the development of the eggs was not retarded. Microscopic examination is necessary in following the gradual development of the eggs to the "set" stage.

Mr. Wells declared it is a well-known fact that in the last 10 years the production of oysters has been very much reduced. It was to determine the exact cause of this reduction, he said, that his studies were undertaken. It has been suggested, he said, that pollution of the waters has injured many of the most productive beds in Connecticut and in the vincity of New York.

LAWLESSNESS IN CROW'S NEST PASS, ALBERTA.

Operations of Bootleggers Making Conditions Intolerable.

CALGARY, Alta., Sept. 11.—"Conditions in the Crow's Nest Pass are becoming rapidly intolerable, and even dangerous, with respect to lawlessness resulting from wholesale bootlegging. Bootleggers abount. They are open in their disregard of the law, and they boast about it. Many of them carry guns, and I fear that even life itself is becoming cheap where the big profits of botlegging are in the balance.

"Liquor of any kind can be bought openly in the little bars and Chinese joints up and down the pass. The foreign element, seeing this open disregard of law, is becoming lawless itself. They are all armed, and a very serious situation may arise suddenly some day if something is not done at once to check this lawlessness. You will not believe me, perhaps, if I told you that it would almost be as much as my life was worth to attach my name to this interview."

It was in this manner that a prominent resident of the Pass conversed recently with a reporter while discussing the conditions in the Pass and the revelations which had been made in connection with the chase and capture of the train bandits which recently held up a C.P.R. train at Sentinel. Bootlegging is stated to be the root of the whole trouble in the Pass.

LEMON JUICE
TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very small cost.

You grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

FISHED NAKED GIRL FROM RIVER WITH A FISH NET.

WINNIPEG, Man., September 11.—Unencumbered by even a one-piece bathing suit a Winnipeg girl jumped into the Assinboine river the other day and announced that she had undertaken a long distance swim with Montreal as her destination. When she had gone a mile and a half the police boat caught up. She refused to be picked up so the officers hauled her on board with a fish net.

PETERBORO' SCOUTS IN TORONTO

(CONTRIBUTED)

Thursday, September 1st, was a red-letter day for the Scouts, and was Scout Day at Toronto Exhibition, when the Scouts were reviewed by Major-General Williams, G.O.C. Toronto District, at 3 o'clock. The day was splendid for the occasion, rain just commencing shortly after the review. There were about 500 Boy Scouts on parade from all over Ontario. Peterborough's representation left on the early morning train, arriving in Toronto at seven o'clock. The boys had one hour's ride on the street cars through the main thoroughfare, Yonge and King Streets, arriving at the Exhibition at 8 o'clock, when they were dismissed, and told to report back at noon. Two minutes later there wasn't a boy in sight. The officers in charge met several of the Provincial Headquarters Staff at the grounds. A splendid lunch was provided, consisting of sandwiches, cakes, pie, and fruit, and all the milk you wanted. These lunches were free to all the boys. Everybody had plenty to eat, in fact some of the boys couldn't eat any more than half of their lunch. Parade was called at 2.30, and the parade marched off to the reviewing ground at 2.45. Toronto Scouts led, followed by Grimsby, Calendinia, Peterborough, Hamilton Kayuga, and St. Catharines. Peterborough and York County were put into one team, the officers from Peterborough in charge. Major-General Williams had a cheery word and a smile for every boy. After the review Major - General Williams gave an address to the officers present, telling them how pleased he was to have the privilege of reviewing the Scouts. He wished the officers every success in their splendid work, and asked them to convey to their respective troops his very best wishes and that he hoped at some future time to have the pleasure of reviewing them again. He then addresses the King's Scouts, of which there were a large number on parade. After giving three cheers for the King and for Major-General Williams, the boys were dismissed, to go where they liked until train time. One thing that impressed every one present was the orderly conduct of the boys present, showing every one there what persistent training will do. It would not be out of place here to state that the Boy Scout Association of Canada has a true and sincere supporter and friend in Major-General Williams. Peterborough Scouts had a splendid day, and all enjoyed themselves, and wished they could go again this year. One boy took sick on the road home, but he was all right when we arrived. The boys were in charge of Scoutmaster V. Sedgwick and Assistant Scoutmaster H. Ashmore.

HEAVY G. T. R. TRAFFIC.

Railroad passenger officials fail to find a parallel in recent years for the traffic over the G. T. R. this season and still continuing. Extra heavy trains are being handled over the G. T. R., and sleeping car accommodation, unless ordered a day or more ahead, is practically unobtainable.

WOMEN NEUTRAL DURING WAR MEET IN CONGRESS

(Canadian Press.)

WASHINGTON, Sept. 11.—Women from countries that remained neutral and from those that took opposite sides in the late war assembled in the first meeting since 1914 at the Quinquennial Congress of the International Council of Women at Christiania, Norway, September 8. The session will continue until the 17th.

The object of the congress is to provide a means of communication between women's organizations in all countries on questions relating to the welfare of the commonwealth, the family and the individual. Some 400 women, including several Americans, are in attendance.

Discussions will be held on such subjects as new lines in the system of education, International aspects of public health, the housing problem, the campaign against social diseases, and the League of Nations.

Delegates were received in the Royal Palace by Queen Maud of Norway, the city of Christiania tendered a luncheon and they will be entertained by various civic societies.

The meetings of the Council are being held in Norwegian Parliament buildings.

SUGAR PLANTATION SOLD AT ENORMOUS INCREASE.

(Canadian Press).

NAPOLEONVILLE, La., Sept. 11.—One example of the effect of the increased price of sugar was shown here recently when the Himalaya Company's plantation holdings were sold for $350,000. The plantation was bought 11 years ago for $20,000.

PITTSBURG CONCERNS PICNIC 500,000 HELP

(Canadian Press.)

PITTSBURG, Sept. 11.—More than 500,000 persons have this year attended the picnics given by industrial concerns in Pittsburgh to their employes, according to the estimates of amusement park managers, and a number of the most important are yet to be held.

Arrangements for these great gatherings of workmen and their families are on a colossal scale and carried out by an efficient oragnization of trained engineers and office men. It occasionally happens, as in the case of the Clairton plant of the Carnegie Steel Company, that no picnic ground was available. So the engineers selected a nice bit of virgin forest not far from the town, built good roads in and through it, erected merry-go-rounds and other traditional amusement devices, built refreshment booths and a dancing platform and when the thousands of steel workers and their families reached the place for a day's enjoyment, they found it as complete as if it had been standing for years.

The quantity of provisions required for the entertainment for a big plant and its workers astonishes those who know little of such enterprises.

Three Tons of Beef.

At one industrial picnic held here recently three tons of beef and four tons of boiled ham were required for the sandwiches. Five thousand loaves of bread were used, three men working fifty hours to cut it to size.

For the 45,000 persons who attended this picnic there were issued 65,000 free tickets for park amusements; 15,000 American flags and 40,000 toy balloons for children were distributed and 45,000 souvenir buttons were given to the workers and their families, while 50,000 knives, forks, spoons and plates were sent to the grounds for the picnic supper.

Eighty Thousand Pickles.

To provide this feast the company gave 80,000 pickles, 24,000 rolls, 8,000 pounds of baked beans, 1,800 pounds of coffee, 50,000 pounds of frankfurters and 1,500 gallons of ice cream. The food was cooked in an oven erected on the ground by the company's workmen.

While this was one of the largest picnics of the year, a number of others have equalled it and many more have come within striking distance.

Mill managers and corporation executives look upon the industrial picnic as one of their best weapons against unrest and gladly give to their employees the day for enjoyment, while bearing all the expenses, in many instances even to transportation to and from the parks.

Is Secret of Ages Now Revealed?

Kotalko, a True Hair Elixir

NOTED specialists certify that new growths of hair, after complete baldness; and eradication of dandruff are possible when certain conditions exist and that such results positively have been attained.

For ages, scientists of the civilized world have sought the real causes of the loss of hair and for the best way to overcome baldness where papillae exist in the scalp, even if dormant, and if scalp is dry and shiny.

All those centuries, the North American Indians seem to have had the secret. Indeed—who ever saw or heard of a bald Indian, unless he had been actually scalped?

A trader among the Indians—John Hart Brittain got hold of the secret by right of purchase. "Kotalko" is the name by which the elixir is known. Although almost entirely bald, hair came in prolific growth on Mr. Brittain's head after applying Kotalko and this hair growth never lessened. Legions of others, men, women and children, have had scalp and hair benefit through KOTALKO. Many have reported new growths of hair after baldness of years. Many have reported that their hair stopped falling out. Many have reported scalp dandruff eradicated completely by Kotalko. You see, there is a chance for you to test the efficacy of Kotalko. Your aim, like that of every other ambitious, self-respecting person, is

Luxuriant HAIR for You

The principle and the Kotalko formula is a compound from the Three Kingdoms of Nature. Apply Kotalko gently to the scalp and to whatever hair is still left. *Watch in your mirror!*

What Kotalko can do for overcoming the thinning, splitting, loss or combing-out of hair, also for dandruff and baldness, has been evidenced in legions of voluntary testimonials.

William Shaw testified: "I had a bald spot over 12 years that has become covered by using Kotalko." Mary Furriers: "My hair had fallen out when I began to use Kotalko. Then the hair grew again." Alfred E. H. Flary: "My head was as bare as the bottom of my foot. Since using Kotalko there has come a nice thick growth of hair." Louise A. Gray: "After using Kotalko, my hair is much thicker and longer than it was." Many—very many—other testimonials—some lengthy, are available for YOU to read. Let us send you some sheets of them; look for cases like your own.

Doctor's Praise of Kotalko

Dr. W. R. Richardson stated: "For fifteen years I had a gradually increasing bald spot due to scalp disorder for which I used many remedies without benefit. Then hearing of what Kotalko was doing for others, I used it. The scalp trouble is gone and hair is growing over the bald spot. I owe it all to Kotalko."

This preparation is not a sweet scented liquid, nor a soapy shampoo, nor anything in the "dainty" class.

Kotalko is making an unparalleled record. Remember the name is

KOTALKO

In Kotalko one of the ingredients is bear oil and, remember, it is genuine bear oil, compounded with the other ingredients of Nature and to be applied to the scalp in the Indians' original way.

$300 Cash Guarantee

THAT KOTALKO will aid to OVERCOME DANDRUFF, to stop FALLING HAIR; or to GROW HAIR, where papillae exist (even if imbedded in a shiny scalp) or YOUR MONEY BACK if you are not fully satisfied.

Proof Box of Kotalko, 10 Cents

If you wish to test Kotalko on baldness, falling or thinning hair, scalp disorder or dandruff, you may receive a Proof Box of Kotalko with testimonials and booklet by mail (plainly wrapped package) by sending 10 cents, silver or stamps, to Kotal Company, Ltd., 366-G Adelaide St. W., Toronto. Or you may obtain a full size box of KOTALKO at a druggist's or at toilet goods counter of a department store. Remember the name—KOTALKO. It is the genuine Indian hair elixir. There is nothing "just the same." $300 money-back guarantee with each box.

Quite Different Are Some Of The New Drapery Materials

There are shadow cloths in 50-inch widths with white grounds and patterns of pink and red roses and there are grey grounds with tapestry effects with red and green predominating, and entirely novel is a sunflower pattern that is shown on a fawn ground and again on a grey ground. This pattern is quiet and dignified and expresses an effect that is entirely different from anything we have ever shown. The prices of these shadow chintzes run from **$3.50** to **$4.50** a yard.

When You Decide to Select a Beautiful Picture To Adorn Your Wall

remember we have hundreds to select from, and included in the assortment are many oil and water colours by Chandler, a celebrated artist. These are landscapes and can be had in sizes 20 in. x 33 in., 29 in. x 17 in., 23 in. x 11 in., and 25 in. x 14 in. The prices are **$7, $8.50, $10** and **$14.** The frames are walnut, with a gilt liner inside.

Copies of Famous Masters, size 24 in. x 34 in., Price $20.00

These coloured Prints are almost as beautiful as the originals, but the price is a mere nothing comparatively. You will find such celebrated titles as "When Rome Was Mistress of the World," "The Garden of Love," and "The Return from Calvary." These have dark Brown coloured, embossed frames, with massive brass corners.

Cradle Pictures, size 16 in. x 21 in., at $6.50

These are Water Colours, and have dull gold frames. The titles are: "A Little Bit of Heaven," "Me and My Dog," "A Double Blessing," "The Smile That Won't Wash Off," and "Angels Kin," etc. They are done in delicate tints, and are excellent portrayals of infantile life.

If You Give Silverware or Buy It For Yourself You Will Never Be Ashamed Of or Regret That You Purchased "1847 Rogers Bros."

Silverware is most alluring. It attracts by its glint and lustre and pleases by its grace and design—but selection should not be made on appearance alone.

In Silver-plate quality is ever the most important consideration, and this fortunately is a matter easily established by the maker's reputation. 1847 Rogers Bros. Silverware, for instance, has no rival in length of time in which it has given actual home service.

Several Handsome Colorings and Patterns in Art Sateen and Cretonne

It is a real pleasure to go through this assortment and the greatest trouble you will encounter is to decide which one. There are light, dark and medium colours and conventional and floral patterns. Some are American materials and others are English. The quality of both are good and will make ideal window hangings, cushions, etc. The width is 36 ins., and the prices run from **55c to $2.25** yard.

A comprehensive assortment of Curtain Scrims and Nets in many captivating weaves. The prices commence at 35c, and go slowly upward to $3.85 yard.

Many Conveniences in Electrical Appliances

CANADIAN BEAUTY ELECTRIC TOASTER

The most exclusive, refined design ever produced. Has heavy base, don't tip, ebonized feet, won't scratch tables, has convenient Toaster Rack, won't get hot, easy to handle. Element has graduated winding on finest grade mica, new terminals, gives even heat, long life, simple renewal; toasts two slices at once. Priced at **$8.25.**

CANADIAN BEAUTY ELECTRIC IRONS.

A standard model Electric Iron, approximately 6 lbs. Has perfect balance, labour-saving back stand, really cool handle. Entirely new heating element, wonderfully efficient, economical heat distribution. The finish is different, unusually good. Has a nickel handle. Priced at **$8.00.**

CANADIAN BEAUTY KITCHEN SCALES.

Entirely different in finish and construction from any other Scales on the market; has 3-point base, steel beam with highly polished nickel finish. Scoop is one-piece aluminum, light, clean, strong. Weighs up to 24 lbs. Priced at **$7.00.**

CANADIAN BEAUTY ROUND TOASTER STOVE.

This is a handy Stove in the round shape. It has the same large cooking surface as the Canadian Beauty Grill, same standard elements. Reflector removable for cleaning. Specially designed for light cooking, heating water, etc. Priced at **$9.00.**

CANADIAN BEAUTY FLAT RECTANGULAR TOASTER STOVE

Designed for she who wants a Toaster that will also heat a kettle, and where low cost is a consideration. Has a removable bottom for cleaning —Priced at **$4.50.**

CANADIAN BEAUTY DISC STOVES.

Have enclosed high-grade heating elements, easily removable, and finished in high polished nickel. Priced at **$8.00.**

ELECTRIC PERCOLATERS.

A splendid assortment, designed for making Coffee right on the table. Each piece is equipped with a patent detachable plug, six feet of cord, and lamp socket connection. Priced from **$15.00 to $21.85.**

CANADIAN BEAUTY ELECTRIC GRILL

Has three heats, largest cooking surface, 12 square inches, over any other Grill. Independent rim, keeps cool, retains finish, heating element easily removed. Simplest system of heat control, fool proof, uses the standard Canadian Beauty plug. Each Grill has reflector plate, deep pan capacity two quarts, shallow pan capacity one quart. Finish, highly polished nickel. Priced at **$14.00.**

Monday's Mid-Day Lunch, 50c

11.30 a.m. to 2 p.m.

(Gentlemen can take the New Elevator from the Rear of the Men's Furnishing Department.)

Pot of Tea or Coffee

Any of the above dishes will be served individually, at a moderate charge, if desired.

When Varnishing Your Floor Use Marble-lte

Under ordinary circumstances it will dry sufficiently hard over night to permit of being walked on the next morning, and unlike other Floor Varnishes it does not become brittle with age, but retains its toughness and elasticity until it gradually wears off by long and hard usage.

In this Department there is also MARTIN-SENOUR PAINTS of every description; also Alabastine, Muresco, Old English Floor Wax, etc.

Martin-Senour Paints and Varnishes are 100% Pure

The GRESSMAN Company Limited

PETERBORO' MAY BE REPRESENTED AT CADET SHOOT

COMPETITION FOR KING'S CUP TO BE HELD NEXT MONTH

(Special to The Examiner)

KINGSTON, Sept. 11.—The annual shoot by the High School cadets for the King's Cup, won last year by the team from the Kingston Collegiate Institute, is to be held at Long Branch ranges, Toronto, in October. Lieut.-Col. G. H. Gillespie, O.C.C., M.D., No. 3, hopes to have this district represented by more teams than last year, and it is likely that teams from Picton, Belleville, Peterborough and Ottawa will compete for this coveted trophy.

The local camps held at Rockcliffe and at the Peterborough Exhibition Grounds were very successful, but definite plans for next year's camps will not be decided upon for some time yet, owing to the heavy expense. The two camps mentioned, while not large demonstrated there practicability because the cost of transportaion, which has always been a heavy item in the expense account, was reduced to a minimum.

RELIGIOUS SYMBOL ANCIENT PEOPLES

SERPENT 1,300 FEET LONG, BUILT OF EARTH AND STONE, FOUND IN OHIO

(Canadian Press)

WEST UNION, O., Sept. 11. — A great serpent 1,300 feet long, built of earth and stone, a symbol of the religion of ancient peoples, stands a few miles from here as the most interesting and important earthwork left by the mound builders of Ohio.

Situated in a rather secluded spot, supposedly selected by the mound builders for privacy in performing their ancient rites, the massive reptile winds, gracefully back from a glen to higher land. The serpent's head rests upon a rock platform which presents a precipitous face to the descending sun and is about 100 feet high. The jaws of the mouth are widely extended in the act of swallowing an egg, represented by an oval ridge of earth.

As the mound builders shaped the body they caused it to make four large folds as it tapered back to the tail, which is folded in three complete and close coils.

The land about this curious relic of primitive days is low at the head, but gradually ascends toward the tail. There is ample room on all sides for a gathering of many people and the belief is expressed that the idol worshippers gathered on all sides of their altar to pour forth praise, or beseech forgiveness and blessings from the beautifully hideous god of their own creation.

'The Serpent Mound" was purchased by Professor F. W. Putnam, of the Peabody Museum, Cambridge, Mass., in 1887, along with about 70 acres of adjacent land and shortly afterward a beautiful public park was laid out on the ground. Thus in present days the spot of reverence sacred to the people who preceded civilization in the nation is used as a playground for picnickers and pleasure seekers. The deed to the land is vested in the museum attached to Harvard University.

Those who have made a study of the work of the mound builders have estimated that in Ohio alone there are over 10,000 mounds and from 1,500 to 2,000 enclosures standing as monuments to their work. By the study of ancient implements and burial places fround in and near these mystery hills, it has been found possible to form a conception of their life.

CONVENTION OF PETERBORO' TEACHERS OCTOBER NEXT

MR. FLEMING, OF OTTAWA, WILL BE THE LECTURER

The annual convention of the County of Peterborough Teachers' Institute will be held on Thursday and Friday, October 7th and 8th. The departmental lecturer will be Mr. Fleming of the Ottawa Normal School. The provincial school attendance officer will also be present to give an address and explain the working of the compulsory school attendance law. There will be an evening meeting at which an address will be given by President Reynolds if the Ontario Agricultural College, who will also address the teachers on the afternoon of Thursday. Trustees and all others interested in education are invited to the sessions. The evening address will be one of general educational interest at which the public will be made welcome.

LADIES MUST HAVE BEAUTIFUL HAIR TO BE ATTRACTIVE

Delmay's French Hair Tonic

THE DAINTILY PERFUMED HAIR TONIC

Creates a Magnificient Head of Fluffy, Luxuriant Hair—Men and Women of Culture Use Delmay's French Hair Tonic, the latest Paris Hair Dressing and Tonic—It Will Make Your Hair Grow or Your Money Back

DELMAY'S FRENCH HAIR TONIC—The Pride of Hair Dressing and Tonic—at once goes to the roots of the hair and turns harsh characterless hair into beautiful wavy hair, full of character and life—hair that changes the whole appearance.

DELMAY'S FRENCH HAIR TONIC destroys the dandruff and will positively make the hair grow.

DELMAY'S FRENCH HAIR TONIC is not a sticky sulphur preparation, but a pleasant non-sticky and daintily perfumed preparation. Ladies of taste and refinement wouldn't think of using any other. All actresses in every country now use DELMAY'S FRENCH HAIR TONIC continually.

We claim and absolutely guarantee that DELMAY'S FRENCH HAIR TONIC will create a new growth of hair. If you hair is getting thin commence using DELMAY'S FRENCH HAIR TONIC at once. It will soon stop your hair from falling out and make the hair grow.

DELMAY'S FRENCH HAIR TONIC is compounded by expert chemists who have made the hair and its diseases a life-long study.

If your druggist does not happen to have DELMAY'S FRENCH HAIR TONIC in stock, insist on his getting it for you; don't allow him to sell you "something just as good," because there isn't anything "just as good" as DELMAY'S FRENCH HAIR TONIC. All wholesale drugists in Canada sell DELMAY'S FRENCH HAIR TONIC; and your druggists, if he is up-to-date, keeps it. Refuse substitutes in concentrated form.

A large generous bottle, price $1.00, worth $100.00.

Sold in Peterboro at BOND'S DRUG STORE, corner of Hunter and George streets, Madill's old stand.

WAS STRUCK BY STREET CAR

Mrs. John Young, of 470 Weller Street, was struck by a Jackson Park street car at the corner of Weller and Park Streets yesterday. Mrs. Young was crossing Park Street and did not see the approaching street car, and, as her hearing is not very good, did not hear it. Her injuries, however, are not serious, it is thought.

STILL MORE TO FOLLOW.

"Ever see an automobile turn turtle?"

"Not yet. But I've seen more than one alleged race horse do the trick."

Mercer Hospital

Graduate Nurses can always obtain positions at attractive salaries in Private Nursing, Schools, Hospitals, Insurance Companies, Industries, etc. Nurses are needed more at present than ever before.

Mercer Hospital offers a Three Years Course of instruction, with Board, Laundry, and Medical Care, in case of illness, Free. Monthly allowance is given sufficiently large to cover cost of Text Books and Uniforms, and enable the Student Nurse to take the training without other financial assistance. Classes are now being formed. For information, call or address

BACK TO MY OLD HOME TOWN.

City life with all its light and splendour has no charm, to a distant town my thought will always stray. I can picture in my mind old Peterborough, although it's many, many miles away. There's a dear old loving mother waiting there for me. Though I caused her many heartaches still I know that for me her heart must yearn. And she prays for my return. So that is why I'm longing now to go back to my old home town, where every thing is real, with its quaint old streets and maple trees, and dear old lanes. If you only knew how glad I'd be just to be there once again. It is there a friend is a real, true friend, where they'll help you out if you are down. I'd give the world if I could go once more back to my old home town.

—Irene M., Detroit, Mich.

I.O.D.E. SCHOLARSHIP.

(Canadian Press).

SASKATOON, Sask., Sept. 11. — The I.O.D.E. War Memorial Scholarship for Saskatchewan has been awarded to Miss Mary Gartside, of Moose Jaw. Miss Gartside is a daughter of Lieut. J. A. Gartside, who died of wounds in France. He was a member of the 78th Battalion (Winnipeg Grenadiers). Miss Gartside will attend the University of Saskatchewan. Her scholastic course so far has been a brilliant one.

WHY KEEP YOUR FLOWERS FOR YOUR OWN ENJOYMENT?—SHOW THEM AT THE FAIR

"Don't say you have better asters at home than those you see at the Exhibition, but make a display of your own," writes W. H. Young, one of the directors, in an appeal for a big Flower Show at this year's Fair. And this applies not only to Asters but to other late-blooming flowers.

Peterboro has many citizens who take pride in their gardens and flower beds and who achieve really excellent results but are diffident about entering the Exhibition. They are like the man who appeared at the eleventh hour last year with a collection of Sweet Peas and won the first prize. This was his first appearance in a floral competition and with the confidence he gained it is expected that he will be among this year's entries with even a bigger showing. The development of this department of the Fair depends upon the new exhibitors who are attracted from year to year, and there are already promises that this year's Flower Show will make a new record.

Mr. Young himself expects to make a bigger showing than ever in the gladiolus class and has hopes of wresting first honours from J. H. Callander. Another director says that the public are generally most interested in the horse ring and the Flower Show. He has no doubt of the success of the horse show but because the Exhibition falls a little later in the season he is anxious about the Flower Department. However, if the public cooperate to the full extent of their floral resources the display of flowers will surpass anything Peterboro has ever seen.

There are assurances that the professional growers will give of their best this year, and there are hopes of enlarging this section of the Flower Show in order that the effect may be as impressive and beautiful as possible.

OFFICE BOY LOSES IN BET ON WIFE OF BOSS

The typical inquisitive office boy and telephone operator are shown in "The Inferior Sex," starring Mildred Harris Chaplin and which will be shown at the Allen Theatre on Monday and Tuesday.

The boss' wife, being young and newly married, has the habit of calling him at the office. This is of much interest to the office boy and the operator, who sometimes, alas, listens in on the conversation and gets an ear full of the boss', private life not meant for her.

The office boy with the usual mischievousness and sporting instinct places bets on when the boss' wife would call up and how long she would talk. He is a consistent winner, until comes the day, for reasons known to herself, the young wife makes no more telephone calls. And the deeply chagrined boy wakes up to the loss of his small fortune.

"Wasn't it Barnum who said that there is a fool born every minute?"

"Whoever it was he figured the birth-rate too low." — Boston Transcript.

SIX HUNDRED THOUSAND DOLLARS FOR HOMES

Growth of Detroit Retarded by Home Shortage.

(Canadian Press.)

DETROIT, Mich, Sept. 11.— The Detroit Board of Commerce will stand back of the Detroit Housing Corporation's proposal to float a bond issue of $600,000 for building additional homes for workers in the city. This was made clear when 95 per cent. of the board's membership endorsed the idea. Virtual pledges on the part of the entire membership of the board were made to subscribe most of the fund.

The commercial organization has just completed a survey tending to show that the growth of Detroit, both in population and industry, is being retarded by the house shortage. It was revealed that workers are paying from $70 to $100 per month for places in which to live and that many workmen cities or are threatening to do so.

cities or are threatening to do so.

The bonds that the members of the board are asked to buy are in denominations of $100, $500 and $1,000, maturing semi-annually. They are to be secured by mortgages.

William Stocking, statistician of the board, reports a big reduction in house construction during July. The number of permits was 561 fewer than in July, 1919.

A great Canadian national chemical industry will be established in Toronto.

NEW COATS, LIKE CLOUDS, TO HAVE SILVER LININGS

By "MARJORIE"
(Written for the United Press)

NEW YORK, Sept 11. — Every coat has its silver lining, and the few coats that don't have silver linings have something tven better. a gold or brocaded lining. Nor is it only coats that conceal this inner beauty. The entire fashion world seems concentrated on the subject of beautifully ornate linings and accessories.

Fur and fabric coats especially revel in linings and trimmings that represent almost the sum total of the garment. Metallic cloths of gold and siiver; silks, satins and velvets of luxurious softness and wonderful coloring; beruffled and puffed chiffons and tissues, evenfluffy marabous, adorn the inner side of fashion's favorite garments.

While silk patterns are large and bright, the designs and colors are so skilfully combined that a rare artistic effect is given. Dull maroons, cheery, deep purples, brick or mahogany, and rich emerald greens are favorite backgrounds. Designs are largely conventional and the blushing rose or modest vialet is born to blush unseen this year as far as designers are concerned. Combinations of golden-brown with gold are conspicuous in both fur and fabric coats possibly because brown or cochin is one of the season's leading colors. Many expensive wraps are lined with a gold metallic cloth veiled in gold will be veiled in silver chiffon corded with coral.

The beauty of little trifles is emphasized in dresses. In line and material the dresses are extremely simple, being cut on the loose and straight ch emise lines and of ordinary materials as serge, tricotine or gabardine. But one gown may hold ten or twenty yards of gorgeously colored wool wound around in some intricate pattern. Or literally quarts of Indian-hued beads may trickle from it. Perhaps its reason for a three-figured price tag will be centered about the waist, where gleams a girdle buckled with real jade or onyx.

A new fad is the use of about five-inch-wide bandings of various colored braids, all sewn together until the effect is that of an Orientally-striped grosgrain ribbon. These bandings circumnavigate the skirts or finish the neck and sleeves. Real ribbon are more elaborate than ever. Ribbon counters resemble an Arabian Nights bazaar. Duvetyn encrusted with oil painted designs is a ribbon innovation, and every conceivable combinatian of fabric and color is used. These ribbons are used for suit and dress vests, camisoles, dress bandings, bags, and even blouses. Batik blouses, by the way, are as popular as in their heyday and many new and beautiful designs are offered. This form of Japanese art seems here to stay.

LUMBERMEN IN NEED OF MEN

THE CALL FOR FARM HELP IS ALSO STILL URGENT HERE

All lumbering interests are suffering from a dearth of lumbermen and the Peterborough Labor Bureau, 190 Charlotte street, has still a number of openings for men who are willing to go to the camps. Ten men, some of whom were mere boys, were shipped to the camps from the local bureau this week.

During the week 44 applications were fyled, 24 men placed locally, ten sent out, and 26 vacancies reported.

The call for farm help is still urgent, but very few men are willing to leave the wages offered in the city.

BRITISHERS TO ELECTRIFY NEW ZEALAND RAILWAY

LONDON, Sept. 9.—The contract for the electrification of the first section of the Midland Railway of New Zealand has been secured by an English electric company in the fact of strong United States competition.

CANADIAN DELEGATES NOT YET APPOINTED.

OTTAWA, Sept. 11.—It is officially announced that Canadian delegates to the assembly of the League of Nations have not yet been formally appointed. It is, however, expected that they will be Sir Robert Borden, former Prime Minister; Hon. C. J. Doherty, Minister of Justice, and Hon. N. W. Rowell, former President of the Privy Council.

BRITISH EXPEDITION HAS RELEASED PRISONERS

(Canadian Press)

BAGDAD, Sept. 11.—Shareban, on the Diala River, sixty miles north of here, has been occupied by British forces, which left Bakuba a few days ago. The expedition, under Brig.-Gen. Conyngham, has released some Indian prisoners and Mrs. Buchanan, wife of a British officer who was killed in that vicinity last month.

NO OFFICIAL RECEPTION.

(Canadian Press).

WINDSOR, Sept. 11.—The Dominion Trades and Labour Congress will not tender Premier Meigher an official reception.

TRIED FOR MURDER.

Special to Examiner.

LONDON, September 11. — Greenwood has been warned that he will be tried for murder by a Sinn Fein court if McSweeney dies.

Canadian Press.

LONDON, Sept. 11. — A three o'clock bulletin said that the mayor was much worse. "He apepars to have completely collapsed." The bulletin says that his mind is getting dull but that he is still conscious.

MacSWENEY IN VERY PROSTRATE CONDITION

(Canadian Press.)

LONDON, Sept .11.—A bulletin issued by the Irish Self-Determination League this afternoon stated that at one o'clock Lord Mayor MacSweney was very prostrate. He had not spoken all morning, it was added.

COST OF BREAD IS GOING DOWN

LOWER PRICES ON THE WAY—NEW WHEAT CROP

(Canadian Press)

OTTAWA, Sept. 11.—That the cost of bread has reached the peak, and in view of the abundant wheat crop, a power price may be expected when the new crop comes into general consumption during the present month, and October is the ...ion expressed by the economi... ion of the Board of Commerce in its report on the cost of production of bread in Canada for the month of July. Report show that the average cost of producing and delivering twenty-four ounce loaf worked out at thirteen cents for July. The total cost per average pound of bread was one-tenth of a cent over the June price.

"O joy supreme! I know the Voice,
Like none beside on earth or sea;
Yea, more, O soul of mine, rejoice—
By all that eH requires of me,
I know what God Himself must be."

BRILLIANT ILLUMINATION FOR THE EXHIBITION

ADDITIONAL LIGHTING EFFECTS ARRANGED FOR BY MR. REG. TURNER

Through the kindness of Mr. Harry May, Toronto, with the co-operation of the Peterborough Utilities, the Exhibition Grounds this year will be most brilliantly illuminated. The regular lighting and illumination system for the past two years has been exceptionally pleasing, and effective, but this will be augmented by thousands of lights, to which will be added a great electrical display direct from the Canadian National Exhibition at Toronto, comprising a twelve-foot electric waving Union Jack, a cluster electric flag design, ten-spot lights, and three thousand feet of coloured electric lights.

Both day and night the Fair this year will be of such a high order as to compel the greatest Fair attendance Peterborough has seen both from the city and district on all the days of the Exhibition.

A NICE PRESENT FOR THE POLICE

NEARLY A THOUSAND DOLLARS FOR THE CIVIC TREASURY

The coffers at the police station received $938.50 yesterday and this morning from the liquor fines, received as a result of the laying of charges of selling liquor, having it in a place other than a private residence, and drinking in an unlawful place, which followed the party on Thursday night in which three local young men figured prominently along with two girls from the "My Soldier Girl" company, and into which the man who sold the liquor to the party was dragged this morning and relieved of $509.10.

The merry-makers were rather subdued this morning and one of the number declared that this would be the last opportunity which the police would have of arresting him on a charge resulting from acquaintanceship with John Barleycorn.

Breaches of the O.T.A. are becoming more costly daily, following the advice of the Attorney-General to impose the maximum penalty in liquor cases and the necessity of the Crown Attorney attending liquor cases to prosecute, which means the inclusion of his fee of $5 in the fine.

WILL RESTRICT SALE OF TEMPERANCE BEERS

The Provincial License Board recently passed an order-in-Council dealing with the restriction of the sale of malt products. Under the order-in-Council, municipal councils, after the first of Sept. can pass by-laws, restricting the sale of malt products, commonly called temperance beers, within their municipalities to standard hotels. This does not effect other temperance beverages manufactured from ingredients other than malt.

"THEM CRUEL WORDS"

The story of a fight between Mrs. Charge and Mrs. Palmer, employees of the Empress Hotel, on Monday night at the hotel, in which hair was pulled out, a teapot containing scalding tea was thrown, a bottle smashed on a scalp, and epithets more violent than the encounter were exchanged, was told in police court this morning, when Mrs. Palmer charged Mrs. Charge was assault.

Each told a story which made her appear in the light of a martyr and cast all the blame on the other, and the case was not untangled until another employee, who was an eye-witness of the encounter, laid the greater share of the blame on Mrs. Charge.

The magistrate lectured both and fined Mrs. Charge $2 and costs of $3.10.

The bottle which was used as a weapon in the fight was exhibited and the magistrate cryptically remarked that it was quite evidently a woman's fight. The remark was addressed to Chief Thompson, but the Chief claimed ignorance of such matters and replied, "I never had a fight with a woman, your Worship."

EXPERIMENTS IN POTATO CULTURE

LOCAL MAN PRODUCES SOME INTERESTING RESULTS

Mr. W. H. Merrill, 590 Chamberlain Street, has conducted several experiments in potato culture with the use of fertiliser, and submits the following results, which speak for themselves:

One twelve-foot row of potatoes, in which eight whole sets were planted, produced 27½ pounds when barnyard manure was used. The same conditions produced 32½ pounds when fertiliser was used, and exactly the same test produced 34 pounds when a mixture of half fertiliser and half manure was used.

In another test, in which eight half sets were used in a twelve-foot row, the following results were produced:

Results with manure, 27 pounds; with fertiliser, 30½ pounds; and with a mixture of half manure and half fertiliser, 32 pounds.

FINED YESTERDAY

William Jewell, who shot William Mellen in the ankle at Lily Lake last Sunday afternoon, was fined $40 in Police Court yesterday afternoon on a charge of hunting on Sunday.

This practice has become very prevalent among some of the boys of the city, and has caused the farmers to the north of the city much trouble.

THE ROSE STILL GROWS BEYOND THE WALL.

Near a shady wall a rose once grew,
Budded and blossomed in God's free light,
Watered and fed by morning dew,
Shedding its sweetness day and night.

As it grew and blossomed fair and tall,
Slowly rising to loftier height,
It came to a crevice in the wall,
Through which there shone a beam of light.

Onward it crept with added strength,
With never a thought of fear or pride;
And it followed the light through the crevice's length
And unfolded itself on the other side.

The light, the dew, the broadening view,
Were found the same as they were before,
And it lost itself in beauties new,
Breathing its fragrance more and more.

Shall claim of death cause us to grieve,
And make our courage faint or fall?
Nay, let us faith and hope receive—
The rose still grows beyond the wall—

Scattering fragrance far and wide,
Just as it did in days of yore;
Just as it did on the other side,
Just as it will for ever more.

—A. L. Frink.

GERMANS INTERFERE WITH USE OF KIEL CANAL

Restrict Ships Carrying Munitions From Passing Through.

(Canadian Press.)

BERLIN, Sept. 11.— Instructions have been given authorities in charge of the Kiel canal not to allow ships carrying munitions to pass through the canal from the North Sea to the Baltic Sea, according to a telegram from Kiel. It is stated these orders were issued by the German government.

Call on Mr. White—and remember the Date.

THE HOME CIRCLE COLUMN

GIVE THEM NOW.

(One has said: Do not keep the alabaster boxes of your love and tenderness sealed up till your friends are dead. Fill their lives with sweetness. Speak approving, cheering words while their ears can hear them, and while their hearts can be thrilled by them. The flowers you mean to send for their coffins, send to brighten and sweeten their homes before they leave them. Let us learn to anoint our friends beforehand for their burial).

If you have gentle words and looks, my friends,
To spare for me—if you have tears to shed,
That I have suffered—give them not, I pray,
Until I hear not, see not, being dead.

If you have flowers to give—fair lily buds,
White roses, daisies, meadow—stars that be
Mine own dear namesakes, let them smile and make
The air, while yet I breathe it, sweet for me.

For loving looks, though fraught with tenderness,
Kindly tears, though they fall thick and fast,
And words of praise, alas! can naught avail,
To lift the shadows from a life that's past.
And rarest blossoms, what can they suffice,
Offered to one who can no longer gaze
Upon their beauty! Flowers in coffins laid
Impart no sweetness to departed days.

Your character cannot be essentially injured but by your own acts.

The Journey of Life.

You will find this journey of life is not always what it seems, or that it lies all the way through verdant valleys and flowery meadows. It is not always bright with the sunlight of pleasure. You will not find a bed of roses to recline upon every time you are weary. Don't expect it, or you will very likely be disappointed. You will find that about the time the path gets past the schoolhouse it switches off into some rather rough country. You will very probably find some rough hills to climb and some deep gullies to cross. The briars will tear your nice clothes and the stones will wear out your fine shoes, and you will have blistered heels and stone-bruises in plenty, before you get through.

There is only one way to avoid all this. That is to sit down, a whining beggar by the roadside, despised and self-despising. But if you are going through you must brace yourself for hard climbing. You will find plenty of roses by the way, but they grow among thorns, and if you would gather them you must not be afraid of a few scratches. All the fruits worth having are near the tops of the trees. You can have your game suppers and your quail on toast, too, but the game is wild and the birds roost high, and you can't put salt on their tails to catch them. You can have all this, we say, but just as likely as not when you get it you will have no teeth to chew it with, so you mustn't build too much on that.

Did you ever know a woman to regret that she knew how to do exquisitely fine needle-work or plain sewing, to bake light, wholesome bread, or delicious pies or cakes? Did you ever know one who was ashamed of her skill in pickling and preserving, or who was unwilling to admit that she could arrange a table, order a course dinner, and if need be, do the cooking herself No, indeed, but many a woman has spent years in trying to acquire the knowledge of household affairs of which she should have been mistress before she was fairly in long dresses. The mother who fails to instruct her daughter in such branches defrauds her of woman's best right, the right to a knowledge of how to make a home. Perhaps only a home for herself, but oh, how pretty and pleasant it can be if the tact, the skill, the grace of a trained hand and eye and taste are there to bring it into perfect symmetry.

We resemble insects which assume the colour of the leaves and plants they feed upon, for sooner or later we become like the food of our minds, like the creatures that live in our hearts. Every act of our lives, every word, every association, is written with an iron pen into the very texture of our being. The ghost of our murdered opportunities, squandered forces, ill-used time, forever rise up to rebuke us and will not down. How hard it is to learn that like begets like, that an acorn will always become an oak if anything; that birds of a feather will flock together. Let our young people especially remember this, and be careful with what "birds" they associate.

Whom shall we blame when life's joys are tarnished and the sweetness turned to bitterness? Whom shall we blame for the strained and weakened eye that makes the sunlight painful? Whom shall we blame for the seared and deadened conscience that makes duty a task and honour a burden? We fancy that the conscience of none of our readers is yet so far deadened that he will not quickly answer, "I, myself am to blame."

A right act strikes a chord that extends through the universe, touches all moral intelligence, visits every world, vibrates along its whole extent and conveys its vibrations to the very bosom of God.

It is easier to keep a friend than to recover him when lost.

CHILDREN OF ALL AGES

Children of all ages—whether is he the new-born babe or the growing child—have to be constantly guarded as to their health. Upon the good health of the little one largely depends his strength and usefulness in after years. Baby's Own Tablets are the ideal home medicine for children of all ages. They are a gentle but thorough laxative which are absolutely guaranteed to be free from opiates or other harmful drugs and which may be given to the youngest child with perfect safety and beneficial results. Through their action on the bowels and stomach they banish constipation and indigestion; break up colds and simple fevers and make teething easy. Mothers, you can make your little ones well and keep them well by just keeping a box of the Tablets at hand and by giving an occasional dose to the baby to keep his little bowels regular and his stomach sweet. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

TRY CIVIL CASES WITHOUT A JURY

(Canadian Press.)

DUBLIN, Sept. 11. —One important provision of the Irish Crimes Bill which was put into effect last month is that which gives power to try civil actions without a jury. It is intended to make short work of the activities of the Sinn Fein Courts which have revolutionized legal business, and largley reduced the Irish Bar to idleness.

The proceedings in criminal matters of Sinn Fein Courts are already being dealt with by the police. When the Sinn Feiners arrest a man on a charge of theft or burglary or anything else the police treat the Sinn Feiners' action as a breach of the liberty of the subject who should be only triable by a lawful court. The Sinn Feiners are prosecuted for assault, tried by court martial and sentenced to long terms of imprisonment.

The civil trials by the Sinn Feiners are more difficult to deal with, for they can be argued to be merely arbitrations by consent of the parties. But the test to be applied is whether they purport to be trials by authority of the Irish republic and where that is apparent they may be held to be sedition and those taking part in them prosecuted.

Police have recently been attending all such Sinn Fein courts. They have not interfered with the proceedings but have taken the names of those enagged so that they may subsequently be tried by court martial. It is generally agreed that the government has now the most complete powers against the whole machinery of Sinn Fein but there is some doubt whether it will strenuously employ them. It will have to deal with hunger strikes on a large scale in the prisons.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" is the thumbprint of genuine Aspirin. It positively identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

AUTO TURNS TURTLE— THREE MEN ARE INJURED.

BROCKVILLE, September 10. — Leslie McVeigh, a garage proprietor, of Smith's Falls, is suffering from internal injuries believed to be serious, as the result of being pinned under his car when it turned turtle on the Glen Tay Road, caused by the breaking of an axle. A companion named Thomas had his wrist broken and another named Hogan his knee hurt. The fourth occupant of the car, Halfpenny, escaped injury.

THE "HOLY CITY" OF MONTENEGRO

LONDON. — The problem that worries more than anything else the people of the former kingdom of Montenegro—now a federal province of Jugo-Slavia—is that 'of Scutari, writes the Cettinje corespondent of the Morning Post.

Scutari is their "Chaba"—the Holy City on which all their eyes are set, all their desires are concentrated today, as they have been for centuries, the correspondent says. This is not a movement of the politicians, not a movement inspired from Belgrade. Indeed, people of Cettinje speak somewhat bitterly of the capital. Belgrade is far off—five or six days' journey at the least—does not realize, is but lukewarm in the matter. And they gaze down at the coveted city, think of D'Annunzio up yonder in the north and mutter darkly to one another a tag from some national poet:

"While the wise were fighting each other with their wisdom,
The fools were looking after their own business."

In plain words they were itching to lay hands on Scutari, and only the presence of the Serbian troops has hitherto prevented them from doing so.

"Scutari is Ours."

During the last few weeks demonstrations have taken place all over the country. At two of them the day in each case was market day. The peasants from the neighborhood are thronging the village square, buying, selling, chaffing, joking. Then some one drags a table from an adjacent cafe, mounts it and begins to harangue the crowd.

Speaker follows speaker; all take up the same tale. "Scutari is ours, for reasons historical, ethnological, emotional, geographical, economical. It is ours beecaus the memories and traditions of the ages sanctify it to us. The home of our early kings, the appanage of their eldest sons. We lost it indeed to the Turk, but the Turk failed to make it his own. To this day its folk are our folk, or largely so; so to this day, for miles around, there is not a single place name that is not Serbian. And if we lost it we have surely brought it back again a hundred fold. One third of our whole army died for it the other year."

Outlet for Commerce.

These are arguments that leave Europe cold. And yet if the South Slav State is to have any sort of ease and freedom of life in the future, Scutari must either be Serbian or in the hands of those unreservedly friendly to Serbia.

The valley along which the Bojana carries the waters of Lake Scutari down to the Adriatic, a few miles distant, forms the only break in the mountain system that shuts off both Montenegro and Southern Serbia from the sea. This gap is not only the one possible outlet for Montenegro commerce—for the two carriageable roads that lead into the country are interesting peculiarities of engineering rather than practicable commercial routes—but it is also the natural and obvious outlet for that of the whole western interior of the Balkan Peninsula, especially the fat lands of the Metohiji and Kossovo. Through it will pass some time a railway line which will be of great importance to the commerce of the future, the line which down the valley of the Drin, will link Belgrade (and Sofia and Bucharest and Odessa) with the Southern Adriatic.

Scutaria a Vantage Point.

At the inner end of this break in the mountains commanding it and all transit through it ,stands Scutari. It is the point which anyone who wishes to transport his person or his goods into or from the interior must necessarily pass. Scutarii, or the freedom of it, is as essential to Montenegro and the south of Serbia as Fiume is to Crotia and the north.

But this is not all. The Drin has of recent years cut for itself a new channel, entering the Bajana just below Scutari, and now keeps the latter river choked with the silt it washes down. The consequences are not only that the navigation of the Bojana is rendered impossible for the larger sort of craft but that the waters of the lake have been raised vastly beyond their earlier level.

The change is welcome by fisherfolk about Scutari but it has been a disaster to Montenegro. Year by year the lake has crept further northward and eastward, swallowing up the rich sole wealth, until now thousands of hectares lie beneath its waters. Another result is that all these districts are now infested with malaria; the encroaching waters largely dry up in summer, leaving great stretches of marsh for the mosquitoes to breed in.

What Nicholas Promises.

The Serbian official policy is that if the powers set up a really independent Albania, then to such an Albania—with which it would be possible to have close relations, including perhaps a military and certainly an economic convention—might Scutari safely be handed over. But Montenegro frankly doubts the possibility of such an Albania and the will of the powers to create it. And she is afraid—afraid for her ten thousand graves, for her unborn children. And if, she says, the sacred principle of the self determination of nationalities is to be invoked she has as good a right to invoke it as anybody else.

Meanwhile in the background hovers the phantom of Nicholas, fitting the crown of Scutari to his brows; and will she only take him to her embraces again, Europe, he swears, will give her all that she asks. She will have none of him. She wants her true love Serbia. But can Serbia win Scutari for her? Can you wonder if a simple people, accustomed to simple processes of thought—with an illustrious (and successful) example before their eyes—are openly talking of putting Europe in presence of the fait accompli?

THOSE BIRDS OF ILL-OMEN

It is not by chance that birds of ill-omen are black. Their business is with the dead. They wear their uniform with the same sense of fitness as does the human undertaker. He probably learned it from them. But black, in a bird, betokens not a regard but a disregard of the conventions. He wears no marking because he feels no need to hide from watchful game nor from the equally watchful hunter. So long as he sticks to his trade only a starving owl will eat him. By the same token it hides him from the owl, who is the least scrupulous of feeders.

Back in those plenteous days when one dead mammoth furnished food for hundreds, black was probably common enough, since so many still wear a touch of it. The earliest birds had teeth; they were flesh-eaters, though they probably killed relatively little for themselves. Hard times came; the startling survivors of a greater past had to learn to live on seeds and insects. Of the birds of prey only the vulture remains black; the rest have taken up a more active life and devised less conspicuous hunting costumes.

Among the crows, both the crow and raven are carrion birds by profession, though hunger drives them to a great variety of substitutes. The magpie has given up hope and adopted a camouflage. The jay finds it convenient to wear practically the same horizon blue as the sparrow-preying butcher-bird. Possibly he tried the same tactics before he settled down to the reliable supply of acorns and caterpillars.

Then there is the blackbird family. The bronzed grackle, biggest, boldest of them all, still goes in sable. He is now a beetle-eater, and it is significant that he specializes in those of so gamey an odor no other bird will eat them. The cowbird is altogether degenerate, a creature of 'orrid 'abits, without pride, purpose, or initiative to change. But the red-wing, the bobolink, and the orioles have changed their feathers as widely as their fare. They gleam in the sun. Only their lady-wives have found it expedient to copy the meadowlarks, and paint a neat grass pattern over their dark coats—it is tan and gray on black, not black and gray on tan like the sparrows.

With all these changes going on it is no wonder we have forgotten why we call blackbirds birds of ill-omen. It is not because they remind us of our own depressing ceremonial garb. Far back in the mists of the past we hazily remember knowing that death was indeed at hand when one of these keen diagnosticians croaked his dismal hopes from our stricken roof-tree. — John Breck, in Ottawa Journal.

A company with a capital of $750,000 has been formed to raise reindeer and caribou between Hudson Bay and Great Slave Lake.

MUST NOT REGARD PENSIONS AS CHARITY

TORONTO, Sept. 11.— The first bulletins issued in connection with the Ontario mothers' pensions committee contains the information that the members of the commission do not wish applicants to be considered as aplying for charity; rather the mother, when in receipt of an allowance, is to be regarded as an employee of the Ontario Government, receiving remuneration for services rendered in the propert care of her children.

"It is the duty, therefore, of the local boards," says the bulletin, "to investigate carefully the fitness of the applicant for her position. Certificates of marriage and the birth certificates of the children may be required for examination, and, where the mother is a widow, the death certificate of her husband."

SMOKES A CIGARETTE AS HE WALKS TO END.

OSSINING, N. Y., Sept. 10.—Calmly smoking a cigarette as he entered the death chamber, Walter Bojanowski, of Buffalo, was put to death in the electric chair at Sing Sing Prison last night for the murder of George Weitz, a Buffalo pawnbroker.

Five hundred and sixty-four new industries were established in British Columbia in the first four months of 1920. The Provincial Government will loan $3,000,000 to infant industries during 1920.

FIRST STAGE OF THE DECAY OF THE TEETH.

By Rea Proctor McGee, M.D., D.D.S., Editor Oral Hygiene.

If your knife and fork, spoon, plate, cup and saucer were left from one meal to another without thorough washing, you would change your boarding-house.

But why be so particular about outside matters unless you thoroughly cleanse your own mouth after each meal?

When food is allowed to pack between and around the teeth caries, or decay as it is commonly called, gets a good start. The packed food decomposes and ferments; this makes the bacteria happy so they all move in.

As the bacteria get settled upon the enameled surface of the teeth, they cover themselves with a coating called a gelatinous plaque. Under this protective covering the bacteria grow unless they are removed by thorough cleansing.

Decay of the teeth, caries, is a disease just the same as tuberculosis or measles is a disease. In this disease the hardest tissue in the body is attacked.

The bacteria of decay are really tiny plants. They live and die as other plants do, and when they die, they decompose and ferment, forming an acid. This acid, in its fresh state, will dissolve the enamel of the tooth a very little at a time at first, but the further in the bacteria they get, the more rapidly they work.

The enamel of the teeth is not sensitive. It is composed entirely of the salts of lime, shaped into microscopic rods that are bound together by a natural cement. The rods all point toward the centre, like the bricks in an arch. Enamel is the armour plate of a tooth; when the decay gets through the armour it reaches the ends of the tiny fibres from the nerve that radiate through the body of the tooth.

D'ANNUNZIO PREPARES TO DECLARE INDEPENDENCE.

FIUME, Sept. 9.—The Fiume National Council resigned here yesterday.

The resignation of the National Council was due to the fact that the Council was unable to agree with D'Annunzio's new constitution for an independent State.

D'Annunzio, despite the resignation of the Council, is continuing to make preparations for the programme of festivities in honour of his proclamation of the independence of Fiume.

Salvation Army Bandsman's Testimonial in Favour of Dr. Henderson's Herb Tablets

Mr. Russell Reeve, 23 Cornhill St., Chatham, Ont., says:

Gentlemen: Just a few lines to thank you for the wonderful benefit I have received from Dr. Henderson's Herb Treatment. For 25 years or more I have suffered from Catarrh of the head, brought on by going under the water too much. I had a very disagreeable discharge from my ear, which was very annoying as well as loathsome. I had tried several different treatments that were recommended to me, but they did not appear to help me. I purchased a box of your Herb Treatment and after using it for a time the discharge had ceased and it has never bothered me for over a year. I am certainly grateful to your agent for ever selling them to me. You can use this letter in any way that you choose for the benefit of others.

Dr. Henderson's Herb Tablets are not a "Cure all." It is simply a combination of herbs, roots, barks and juice of fruits that act directly upon the important internal organs, aiding them to perform their functions properly and thus to expel wastes and poisons from the system. In this natural way the body is given a thorough internal cleansing and then the forces of Nature can act vigorously and freely in rebuilding and restoring the affected parts. Try a box and watch the results. Price, 25c, 50c and $1 per box at WAINE'S DRUG STORE, Peterborough.

THE HENDERSON HERB CO., TORONTO.

Five hundred and twelve companies were incorporated in Canada, 1919-20, under federal charter, with capitalization of $214,000,000 — mostly industrial.

CUTS AND BURNS

Heal Healthily When You Apply "ABSORBINE JR."

Infection won't creep in, pus won't form or proud flesh cause complications, if you bathe the wound with "ABSORBINE JR."

This home liniment—so powerful in its destruction to germs yet so soothing and healing to the flesh—stops the bleeding and eases the pain.

"ABSORBINE JR." can be put into an open wound with the assurance that it will both cleanse and heal.

It is equally good for treating Boils, Abscesses, Sores, Carbuncles, Ulcers, Felons and Run-around. "ABSORBINE JR." arrests inflammation, cleanses the sore, destroys pus and starts rapid and healthy healing.

$1.25 a bottle—at most druggists or sent postpaid by W. F. YOUNG, INC., Lyman Building, Montreal.

CANADIAN REFINERS UNDERBIDDEN IN U. S.

Canadian Press.

OTTAWA, Sept. 9.—According to a statement at the Trade and Commerce Department to-day, Canadian sugar refiners recently were underbidden by the United States in a request for the supply of twelve thousand tons of sugar to be delivered at Havre, Antwerp, Constantinople and Salonica. The price quoted by the American trade, which secured the order was 13 1-4 cents per pound.

France has secured a $20,000,000 credit for a supply of Canadian foodstuffs.

SOUTH AMERICAN BOXING CHAMPION COMING TO STATES

(Canadian Press)

BUENOS AIRES, Sept. 11.—Luis A. Firpo, South American heavyweight boxing champion, is soon to visit the United States, where he will seek the advantages to be derived from good trainers and expert management. Firpo weighs 213 pounds.

His title was gained by defeating boxers in Chile and other South American countries. In a match in Buenos Aires in June he knocked out Antonio Jirsa, who styles himself the "Czecho champion," in the first three-minute round of a scheduled 10-round bout. Firpo has a considerable ring history and before taking up boxing was a professional Greco-Roman wrestler.

BY-LAWS ADOPTED BY ASSOCIATION

ATHLETIC ASSOCIATION HELD MEETING LAST EVENING

It was decided at the meeting of the Board of Directors of the Peterborough Amateur Athletic Association last evening to enter Albert Smoke in the Modified Marathon which will be held at the Canadian National Exhibition at Toronto this afternoon.

There was a large attendance at the meeting, and several by-laws were passed upon for the approval of the next general meeting of the Association. They included elections, duties of officers, appointment of officials, meetings, Field Day, special competitions, membership, and the expulsion of members.

A special committee of Dr. Franks, Maurice Park, and C. S. Brown was appointed to consider a programme for a field day to be held during the first two weeks of October, and to recommend regarding the matter at the meeting on Friday, the 17th.

At the special rugby meeting which followed the meeting of the directors, the following officers were elected to form a rugby club and to consider plans for the formation of a city rugby league:

President—Dr. Sheehy.
Vice-president—Dr. Wood.
Secretary—Ald. N. Phelan.
Special committee — Fred Craig, Horace Walkey, C. E. Sissou.

A report will be made at the meeting of the directors on Friday next.

Following the meeting of the directors next week a meeting of all the hockey players of the city will be held.

LIMIT HORSE RACING IN BUENOS AIRES.

BUENOS AIRES, Sept. 11 — President Irigoyen's administration is considering projects of law for the suppression or the limitation of horse racing, it is announced. Buenos Aires has one of the finest race courses in the world operated by its famous Jockey Club where millions of pesos change hand in a year under the pari mutuel betting system.

Races are held on twice a week, Thursdays and Sundays and on the frequent holidays. The attendance is from 15,00 to 20,000 persons. The newspapers have commented on the fact that as a corollary to the mounting cost of living, the betting public has increased its wagers on the races. Where the total bets on a Sunday were formerly 80,000 pesos, they now sometimes aggregate 3,000,000 pesos.

The administration believes that the Thursday races, at least, ought to be suppressed.

FOUR RACE TRACKS.

(Canadian Press)

WINDSOR, Sept. 11.—A company is formed to establish a fourth race track here. Public opinion is solidly opposed.

CAVAN TEAM WON FROM BOHUNKS

TWO TETMS MET IN FRIENDLY GAME AT MILLBROOK

Millbrook and the Bohunks clashed again at Exhibition Park, Millbrook, on Thursday afternoon, the Cavan nine winning by one run after a seven inning engagement. The score was 7 to 6. Millbrook loomed up in better form than any game this year and Ross Edmunds' slants had the Peterborough team guesing from the minute they stepped up to the plate.

Doughty, the Bohunks' heaver, threw good ball as well, but lacked support. The Bohunks' line-up was A: Doughty, pitcher; C. Bergoine, catcher; R. White 1st base; C. Wolfe, 2nd base; J. Thirnbeck, shortstop; H. Tudhope, 3rd base; E. Fry, left field; E. Meredith, centre field; O. Nichols, right field.

Mr. and Mrs. Sayles were the hosts of both teams at supper at their home, followed by a dance in the evening that left the Peterborough nine with memories of the hospitality and sportsmanship of Millbrook ball fans and their wives that will not soon be dimmed.

On Wednesday next the team meets Millbrook again in Port Hope in the tournament they have entered there. Other clubs entered are Newtonville, Elizabethville and Kendall.

MUSIC AND DRAMA

"THE BABES IN THE WOOD."

Surpassing in wealth of scenic splendor and in gerogeous costumes its predecessors while at the same time preserving the same high standard of musical excellence and cleverness of comedy, "The Babes in the Wood," Mr. F. Stuart-Whyte's fifth annual pantomime delighted a large audience at the Grand last night. The Canadian playgoers owe much to Mr. Stuart-Whyte. They know that in his productions they can count upon a programme of merit, a performance that is clean and bright and all British.

"The Babes in the Wood" proved no exception to the rule. It was a treat from the prologue to the final curtain, with not a dull moment anywhere. The scenic investure was superb, some of the settings being superior to anything that has been seen here, while the costumes were the last word in richness and beauty.

Some of the old favourites of the Stuart-Whyte productions, notably Miss Zara Clinton are absent from the caste and will be seen here shortly in "San Toy." But their places have been filled by artists of ability and there was not a weak spot among the principals. Prominent in the caste was the well known Canadian actor, George H. Summers, last seen here in "In Walked Jimmy." Paintomime is a new field for Mr. Summers, but he proved thoroughly at home, providing laugh after laugh by his portrayal of the part of Capt. Kidd. The popular costermonger pair, Harriet Faun and Chas. Cardle are members of "The Babes in the Wood" caste and they were as entertaining as ever last night. Victor Dyer scored as the wicked aunt and Mona Warren was a very charming "principal boy," displaying a sweet voice in her vocal numbers.

The "Babes" were charmingly played by Miss Dorohty Mackay, who was last year "Little Red Riding Hood" and Miss May Strachan, two of the most delightful child actresses that have ever graced the stage of the Grand. Especially noteworthy was their singing. Little Miss Gloria Thompson won all hearts by her work as "Cupid." The many other roles were well looked after, while the chorus sang and danced nicely.

One of the big features of the production was the scene, "Opportunity," originated by Mr. Stuart Whyte and driving home the advantages that Canada offers to those who have enterprise, adaptability, energy and ambition. The different provinces were represented by members of the company in costumes that were so strikingly beautiful that a hum of admiration ran around the theatre as each figures appeared. No finer spectacle has been staged here than this gorgeous scene.

"The Babes in the Wood" is a fitting successor to Mr. Stuart Whyte's other triumphs. It should have a most successful season in Canada.

To-night "P. B. I." will be seen at the Grand. Two Peterborough people, Miss Marguerite Mulhall and Mr. Murray Carlisle, are playing important roles in the production.

The Algoma Steel Corporation will spend $6,000,000 on increasing its steel plant capacity at Sault Ste. Marie.

BROKE UP CONCERT BY NOTED TENOR SINGER

National Anthem Omitted and Audience Took Exception.

Canadian Press.

ADELAIDE, SOUTH AUSTRALIA, September 11. — At a concert given here on Thursday evening, by John McCormack, the noted tenor, there was a disturbance, and the gathering was broken up by a demonstration on the part of the audience, who rose, sang the National Anthem, and shouted that McCormack was a Sinn Feiner.

The singer has cancelled all his other concerts he was to have given in Adelaide.

The audience, it appears, resented the omission of the National Anthem from the programme.

In explanation, McCormack says he understood the anthem was usually only sung when the Governor was present.

SEARCH FOR ALUNINUM.

Canadian Press.

SASKATOON, Sask., September 11—Representing a big New York Syndicate and making a raid survey of Canada from Ontario westward, in search of heavy deposits of aluminum, R. E. Barthol, a mining engineer, passed through Saskatoon recently to Northern Alberta and British Columbia, to make an inspection of these territories. Mr. Bristol has been travelling in Ontario viewing some of the wilder portions of that province which give promise of bearing the mineral that he is looking for in considerable quantity. The idea of Mr. Bartol's company is to mine aluminum in heavy quantities for the manufacture of automobile and motor parts.

THREE YEARS' SANCTUARY FOR THE PRAIRIE CHICKEN

WINNIPEG, Man., Sept. 11.—Three years' sanctuary by virtue of a provincial statute prohibiting the shooting of prairie chickens in Manitoba, will be raised this autumn and sportsmen will have one week in which to shoot without fear of itinerant game guardians and lesser minions of the law.

By order in council the provincial government will declare an open season for prairie chickens from Oct. 15 to 22, inclusive, and by so doing make it legal to shoot chickens for the first time in Manitoba since 1917, when the lid was put on on account of the scarcity of the birds in Manitoba.

A MYSTERY ROCK.

A mysterious rock has been discovered in the St. Lawrence River just opposite the Ogdensburg dock, where dredging operations were recently completed

It is believed that the low level of water resulted in appearance of the rock strata, which is about eight inches above the surface of the river. The rock discovered by persons who were moving about that vicinity in small boats. It is of huge proportions and would prove a most dangerous obstruction for any moving vessel.

RENFREW'S CARNEGIE LIBRARY

The Renfrew Town Council has decided to purchase a lot on Raglan Street as a site for the Carnegie Library, plans for which have already been approved by the Carnegie Commission. The amount of the grant is $16,000, and a lot can probably be had for $5,000 The work of building will proceed at once, the structure to cost in the neighbourhood of $6,000. Some members of Council are in favour of putting the building on the public park, Low Square, so in that case the site would cost nothing, and the $5,000 proposed now for the location could be used for equipment, in accordance with the advice of the Central Library Board.

PARCEL POST BETWEEN CHILE AND THE STATES

(Canadian Press)

SANTIAGO, Sept. 11.—It is announced that an agreement has been made between the Chilean and the United States postal authorities providing for the establishment of parcel post facilities between the two countries, effective upon ratification by the Chilean congress. Parcels that would be accepted locally in either country, subject to postal regulations and not exceeding eleven pounds in weight would be mailable under the agreement.

The sun, on which all life on this planet depends, operates without suggestion of noise.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Sept. 11.—Fractional advances were registered by leading issues at the stock market opening to-day. Sinclair opened at 31 3-8 up 1-8, General Motors 21 off 1-8, Newhaven 33 3-4 up 1-8, Mexican Petroleum 174 up 1-2, Northern Pacific 79 unchanged, Canadian Pacific 119 3-4 off 1-4, A. T. and T. 98 3-4 unchanged, American Int. 76 1-2 unchanged, and Southern Pacific 94 1-2 off 1-4, U. S. Steel 98 off 1-2, Baldwin 109 1-8 unchanged.

EXCHANGE MARKET.

(United Press.)

NEW YORK, Sept. 11.—Foreign exchange quotations were weak at the opening to-day. Demand sterling opened at $3.50 1-2 off 1-4; Francs demand .0666 off .0003; Lire .0433 off .0003; Marks .0184 off .0010; Canadian dollars .9050.

CONVICTED STRIKE LEADER FOR "IRISH REPUBLIC."

WINNIPEG, Man., Sept. 11. — Wm Ivens, the convicted strike leader, at present serving two years in Stoney Mountain Penitentiary, has announced his intentions of championing the cause of the "Irish Republic" as soon as he is free from prison. In a letter read before a meeting called by the Self-Determination League for Ireland, Ivens said that as soon as he was a free man "nothing would stay his tongue in speaking for the 'Republic of Ireland.'"

SPEED FIENDS WINED.

Motorcycle spotters along the Provincial Highway are responsible for about a dozen speed fiends appearing in the Bowmanville Police Court during the past week, and Police Magistrate Horsey taxed each one $10 and costs for the gratification of satisfying that desire to exceed the speed limit. One chap made the excuse that he was hurrying to church, but his fine was just the same as the fellow who was hurrying to a picnic party.

No Message Rates Here

It is not the intention to apply the message rate plan to telephones here!

It is only in the larger cities (Montreal, Toronto, Ottawa, Hamilton, and Quebec) that message rates become necessary. The intensive use of the service by many business subscribers in large centres means the creation of an operating load the cost of which, under a flat rate, bears unfairly on the small user. Hence the message rate for big cities.

Here, telephone service will continue on the flat rate basis as hitherto.

THE BELL TELEPHONE COMPANY OF CANADA

A CANADIAN'S EXPERIENCES, ETC.

(Continued from page 1).

to reach a small port on the Black sea, were the obtaining of a passage home was comparatively easy.

General Conditions.

Questioned about the Bolshevik regime and the country under the rule of the Soviet Mr, Cowen stated that conditions are terrible and expresed himself, as strongly under the impression that the country is on the road to domestic and economic ruin. As to the price of food, he was able to obtain matches for one rouble a box when he first arrived there, but that at present the price of matches when obtainable was 20 roubles. Sugar, he stated, which is almost a thing unknown at present in the country from which he has just returned, costs now 1,000 roubles a lb., whilst before the war it could be purchased for about 80 roubles per lb.

In explanation of the Bolsheviki systems and organizations, Mr. Cowen sated that although they are organized under generals, colonels, etc., every soldier, of whatever rank, addresses his fellows as "Comrade." The officers, he stated, receive slightly higher wages for fighting than the men do but only very little more. A general might get 8,000 roubles (about $8) per month, whilst the private "comrades" get as much as 6,000 (or $6) per month.

GUS HILL COMING TO THE GRAND

Let those who bewail the passing of minstrelsy hie themselves to the Grand next Saturday, September 18, and be convinced that if minstrelsy ever passed, Gus Hill has brought it back again, brighter and more joyous and more sparkling than it was away back in the early '80s when the black-face entertainers were supposed to be at the height of their popularity. Gus Hill's Honey Boy Minstrels never used the cheap trappings and furnishings which had much to do with putting this form of amusement into the discard, but always presented a clean, snappy minstrel show that moves with machine-like rapidity. Southern scenes, darky ideals and mannerisms, sweet singing, graceful and skillful dancing and plenty of clever comedy and original features, mark the high standard of excellence set by this splendid organization. Gus Hill maintains his reputation of furnishing the amusement loving public the best that can be obtained in minstrelsy by employing the utmost prudence in selecting artists of recognized capabilities. Gus Hill's Minstrels include many old favorites, many new ones, comedians and funmakers of rib-breaking calibre, nimble-footed dancers, sweet-throated singers, forming in all the most brilliant array of burnt cork artists ever offered in minstrelsy. There are fifty people in the organization and each and every one are considered to be the best in their own particular line of business. A big street parade will take place at high noon.

"GRUMPY"

Cyril Maude's famous play, "Grumpy," which comes to the Grand Friday, Sept. 17th, derives its title from an old criminal lawyer nicknamed "Grumpy" by his adoring and adored grand-daughters because of his octogenarian querulousness. He has retired from practise and when under his roof his grand-nephew is robbed of a valuable diamond, sent home in his keeping by the South African firm he serves, the old man's sleuth-hound instincts are awakened, and he does not rest until he has discovered the thief and compelled restitution of the diamond.

This is slight material for a big play, but the joint authors, Horace Hodges and Wigney Percyal, are safe to have built up a comedy that is evidently capable when played by Edward Lewers, Frank Compton and others, of not only gripping an audience but of holding their attention unremittingly from the opening of the first act to the final fall of the curtain.

The whole plot hinges on a very trifling trifle indeed—nothing more than the hair of a girl wound around the stem of a flower, but slighter things than this have betrayed criminals before, and there is nothing illogical in the plot nor is there anything improbable in the story which is based upon an incident that many people in the old country will remember as having been a celebrated case some years ago.

The "Grumpy" company, which consists of twelve eminent London actors, is the first of an all-English company to tour Canada this season.

TO DISCARD FRECKLES, TAN, PIMPLES, WRINKLES

It is said that creams containing animal grease cause hair to grow. You run no risk of acquiring superfluous hair from using ordinary mercolized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle. The latter is naturally replaced by a clear, smooth, healthy complexion, full of life and expression. It's the sensible way to discard a freckled, tanned, over-red, blotchy or pimpled skin. Get an ounce of mercolized wax at any druggist's and apply nightly like cold cream, erasing in the morning with soap and water. Soon you will observe a most remarkable transformation.

The ideal wrinkle remover is made by dissolving an ounce of pure powdered saxolite in a half pint of witch hazel. Bathing the face in the solution brings almost immediate results.

The Business Suit of the Workingman

LONG lines of men moving into factories in their "service clothes" show that they are well dressed for work. They wear good shoes rather than shoddy shoes, and good overalls rather than an inferior sort. Thousands of them will wear none but

KITCHEN'S "Railroad Signal" OVERALLS

ROWING IS GREATEST SPORT SAYS STROKE OF NAVY CREW

CALLS IT A MAN'S GAME—TOOK PART IN WORLD'S CHAMPIONSHIP

(By HENRY L. FARRELL.)

ANTWERP, Sept. 11.—In a haze that hung over the Polo grounds like a great gray blanket late last November, a big straight, broad-shouldered boy, hardly discernable in the fog, plowed through mud ankle deep and booted two fields goals that gave the Navy a 6 to 0 victory over the Army.

Braced against the footboard in the Navy shell, the same right foot shoved 180-lbs. of Iowa brawn against the oar that stroked the Navy crew through a victorious sweep of American water that has brought the eight here to contest for the world's championship.

That right foot belongs to Clyde W. King, the 22-year old son of a wealthy Grinnell, Iowa, rancher, who preferred to work his way through college rather than accept the easier route via a proud parent's check.

King, whose name is in keeping with his rank among the midshipmen, dreamt, hoped and aspired to be a great athlete when he was running around Lodora, Iowa, in short trousers. But he was a puny little lad and couldn't stand the gaff of even the kid games in the neighborhood.

When he was eight years old his father sent him to his ranch in Saskatchewan and roughed it there for three ears returning home a youngster with a man's physique.

He played football and basketball in high school and then entered Grinnell College.

In keeping with a resolve to work his way through school, he bought a shoe shining parlor in the little college town from a Greek for $300. He decorated the place with pennants and college trimmings and advertised, making a specialty of fair co-ed trade.

His business grew until his staff of negro boys was swamped and then he took a hand at shining the leathers himself.

He made close to $1500 a year for two years and then sold the business for $600 going from there to Marion (Ala.) Institute where he prepared for Annapolis.

His dream of success in athletics came in undreamt proportions at the Academy.

Twice he has stroked the crew and twice he has won the "N" for football. He has two years more to go and plans to go out next winter for the basketball team.

Considering the condition of the field in New York during the game last year, the feat of this King in kicking two difficult goals was remarkable but it was all the more remarkable when it is considered that he played through the game with a charley-horse in his rigt leg that hurt "worse than a toothache."

"When I kicked off to the Army on the first play, my leg hurt so badly I thought I would have to quit. But when we got into action I got my mind off it," he says.

He was in the hospital at the academy for a month after the game.

"Of all sports I think rowing is the greatest," he saps. "The big crowds and the joy of personal contact bring big thrills in football, but rowing is the greatest because it is a man's game in every sense of the word."

NAZIMOVA IS SUPREME ON SCREEN AND STAGE

STAR OF "OUT OF THE FOG," ACHIEVES HER GREATEST TRIUMPH —AT THE GRAND MONDAY

Nazimova, supreme star of stage, has achieved an added triumph in her latest screen production, "Out of the Fog," which will be shown at the Grand Theatre on Monday, 13th September, for a three-day engagement. This play is an adaptation for the screen from her great stage success, "'Ception Shoals," a play which created great comment both here and abroad, and which was noted for the intensity of its dramatic situations.

Madame Nazimova is an actress of unique and original talent, she is known as the woman of a thousand moods and her art is as great in light fantastic or yhimsical momnets as it is in the heavy emotional drama for which she is internationally famed. She was born in the Russian Crimea, in a little town on the shores of the Black Sea, but was educated in Geneva, where she decided on the career of a violinist and studied accordingly. She made her first public appearance at the age of twelve at a concert in her native town, but it was not long after this that she gave up music for the drama. She studied under the great Stanislawsky, who considered her an artist of great ability, even at an early age. As leading woman in a Russian stock company, she played more than two hundred parts.

Since coming to America, Nazimova has played in both Russian and English, and is known for her great characterisations in the leading roles of "The Doll's House," "Hedda Gabler," and "Little Eyolf." Like other noted artistes, she has grown to prefer the screen to the stage, and devotes most of her time to the splendid work for which her name has become famous here and abroad. Her work in "Revelation," "Toys of Fate," and "Eye for Eye," has set a higher plane for motion picture achievement than has hitherto been reached by any other screen star, and "Out of the Fog" shows that her art is infinite.

Albert Capellani, the distinguished Frenchman, who directed this picture, also made the screen adaptation from H. Austin Adams' "'Ception Shoals," with the collaboration of June Mathis.

FIFTIETH ANNIVERSARY PROFESSIONAL BASEBALL.

(Canadian Press).

CHICAGO, Sept. 11.—The fiftieth anniversary of the first professional baseball championship game will be celebrated by the Old Timers' Baseball Association at a banquet here on October 13. The game was played between the Cincinnati Red Stockings and the Chicago White Stockings on October 13, 1870, at the old Dexter Driving Park in this city. The Cincinnati aggregation went down to defeat 16 to 3 at the hands of the Chicago team.

This game was practically the beginning of professional baseball, according to Al. G. Spink, of Chicgao, secretary of the old association.

The Old Timers' Baseball Association was organized about a year ago. It takes in persons who played in or who saw the game and now has about 1,000 members. Tom Foley, manager of the old White Stockings team, is a member.

GETS BROKEN WRIST IN HIS THIRD ARREST.

BELFAST, Sept. 9.—Peter Paul Galligan, Sinn Fein member of Parliament for the West division of Cavan, was arrested here for the third time. He sustained a broken wrist in the process.

THE P. B. I.

"The P. B. I., or Mademoiselle of Bully Grenay" is the biggest, best, and most world-famous play that has been produced since Barnum & Bailey wrote "The Pinatores of Penzance." It is overflowing with love and laughter, with crumps and whiz-bangs, with jolly songs and with the loud and raucous braying of the platoon's parody-monger, with Generals and rear-rank bucks, with working parties and inspection parades, with troops and mademoiselles, and it is absolutely saturated with the honest-to-goodness spirits of the fighting Canadians. If it hurts you to laugh, if you grow hysterical easily, if you have a reputation to maintain as a sour-face, don't come to the Grand to-night. But if you want a good, hearty laugh, come along with the troops.

British Columbia is shipping fish to Australia, also Holstein cattle and flour to Java.

WHEAT BINS NEARLY EMPTY IN KANSAS.

(Canadian Press).

KANSAS CITY, Mo., Sept. 11. — With wheat bins in Kansas City elevators practically empty and wheat arrivals inadequate to meet the demand for shipments to other markets for export, the freight car shortage is clearly reflected here.

Slightly less than 2,000,000 bushels are now stored in local elevators, which have a capacity of between 15 and 20 million bushels. A year ago the supply was nearly 9,000,000. The amount in storage here has increased only a few thousand bushels since the harvest.

The shortage of cars for grain shipment in the South-West has never been more acute, according to grain company officials here.

A critical situation in business and financial circles was predicted by local grainmen unless the car situation is improved. It will take 28 months, at the present rate, for the railroads to move wheat now in Kansas, according to Judge Clyde M. Reed, of the Kansas Court of industrial relations, who is investigating the car shortage.

THOUSANDS OF SOVIET TROOPS ARE SURROUNDED.

Some Drown in Swamps; Others Starve in Morashes.

(Canadian Press).

SEBASTOPOL, Sept. 11. — Many thousands of Soviet troops, it is declared here, are surrounded by Wrangel forces. Some of them were drowned in the swamps and others are starving in morashes along the Dnieper, especially at Kakova bridgehead, where, after severe fighting, Gen. Wrangel's troops hurriedly entrenched.

A PETRIFIED FISH.

A definitely marked specimen of a petrified fish was picked up by Carmen Ireland in a field on his farm near Colborne. It was found high up the south side of the hill in a loamy spot. The opposite side of the hill is gravelly. With the exception of the tail the specimen is a perfectly marked small sunfish, distinctly showing the lines of the mouth, nose and eyes and marks of the gills and scales.

NEW BUTCHER FIRM.
Mr. Wm. Kemp has taken his son into partnership to better handle the increasing trade in Choice Fresh and Cured Meats. Accounts due the old firm are asked to be settled at an early date. Auto delivery — prompt service. Wm. Kemp & Son, 352 Charlotte St. 28d-t.t.s.-86

THE RAILWAY WEEDER.
Additional facts about the automobile weeder the C.N.R. are using in this division with such admirable results show that there are six discs on each side of the car. Its speed when weeding is about 8 miles an hour. This car can be run off the rails, when necessary, with its own power by simply lifting a small steel dog, which forces the steering wheel and using two V-shaped blocks of wood put down beside the rail.

GEORGE STREET CHURCH.
To-morrow will be observed as a congregational rally day in George Street Church. At the morning service the sacrament of the Lord's Supper will be administered, preceded by the quarterly love feast at ten o'clock. In the evening Mr. Young will preach on "The Old Road Again." The Sunday School will resume its afternoon sessions at 3 o'clock, and it is hoped that all the members and friends of the church and Sunday School will rally round these services.

TRINITY SERVICES.
The regular services in Trinity Church will begin again to-morrow. The pastor, the Rev. F. E. Malott, will preach at both services. His evening sermon will be the first of a short series on "Men Who Failed." Mrs. Geo. H. King will sing. The Sunday School will meet at 3 p.m. A full attendance is desired. Preparations are in progress for Rally Day services on the 26th of September, when Rev. Prof. F. W. Langford, of Toronto, an expert in religious education and a most pleasing speaker, will be present.

A Good Diamond
Is a wise investment This is emphatically true of any Warne Diamond.
We offer you high quality and best value, because our selections are from expert European cutters
WARNES
DIAMOND HALL

The Ladies' Auxiliary of the G. W. V. A. will open their fall and winter meetings on Monday, Sept., 13th, at 8. All members and ladies interested are requested to attend. 1d-61-2471

Dr. R. A. Sheehy, L.D.S., D.D.S., Dentist. Office—Suite No. 2, Corner George and Hunter Streets. Upstairs over Madill's Drug Store. Telephone 319J. 26d-86-2470

TRINITY CHURCH CHOIR.
The organist and choir leader, Mr. Geo H. King, desires to meet every member of the choir, to-morrow, Sunday, at the morning service.

LANGUAGES AND MUSIC.
Prof. D. Sloane Teacher of Languages and Music. For particulars, apply 22 6McDonnel Street, or 'phone 152W. 1d-61-6492

TRINITY BROTHERHOOD.
A full attendance at the Trinity Brotherhood and Young Men's Citizenship Club is requested Sunday afternoon at 3 o'clock in the church.

G.W.V. BAND.
Special Emergency meeting tomorrow (Sunday) afternoon at 2:30. A short rehearsal after. Important, every man attend.

CENTRAL PARK.
The Gospel song service that was to have been given last Sunday night will be held to-morrow night if the weather is favorable. A most enjoyable time is expected.

TRINITY LADIES' AID.
The Ladies' Aid of Trinity Church will make a collection of papers, old rubbers, auto tires, etc., the last week in October, and ask that their people save any such until that date.—Mrs. Lane, Sec. 1d-61-2476

PIANO—ORGAN—SINGING.
Mr. J. H. Renwick, Organist and Choirmaster George street Methodist church, has resumed teaching. Pupils prepared for any examination. Graded fees. Studio, 567 Aylmer street. Phone 1098w. 26d-85-2464

ISLAND SOLD.
Miss K. S. Traill has sold her island at Stoney Lake to Mrs. McCloud of Jamaica. The deal was put through by Mrs. Lawrence Grahame. "Duneden," Mrs. Dunn's island, opposite Juniper, has also been disposed of, having been purchased by Mr. Morson of Toronto.

KNOX CHURCH.
At the morning service in Knox Church to-morrow the choir will be assisted by Messrs. A. J. Roy, D. M. Roy, and E. C. Roy, all of Toronto, who are guests of their brother, Mr. George C. Roy, and Mrs. Roy, of the Grand Central Apartments, for the week-end. Mr. E. C. Roy will render a solo, and the four brothers will also be heard in a quartette.

NOT CRIMINALS BUT FOOLS.
"Do you know tht the majority of men who make shipwreck do so not because they are criminals but fools; not because they seek wickedness, but drift into it; not because they purpose folly but because they never purpose anything." In St. Andrew's Church on Sunday night the Minister will preach on "Purpose." Mrs. Maurice Park will sing. Attentive young men will show you to seats in a friendly church.

MOTHER, IS IT "DECLINE?"
"Oh Gee! what's the matter with me"
Said a typist fair like Mardie;
Sure the typewriter looks right,
But b'lieve me I'm tired at night.
Jimmy was there as sure as fate
And talked "TYPEWRITERS" till late,
The Manager said "I now understand
Why typists work to beat the band."
Nelson sold a new machine
The typist's happy as a queen.
Phone 229. Office 332 1-2 George St.

MRS. KING,
SOPRANO SOLOIST,
Teacher of Singing.
Fall Term opens Saturday, Sept. 11.

AUCTION SALE.
I have received instructions from Mr. Bruce Snelgrove, to sell, by public auction, on the premises, Lot 23, Con. 3, Dummer Township, on Wednesday, September 15th, at 1 o'clock, the following:

4 Good General Purpose Horses.
12 Milch Cows in calf.
6 Heifers.
6 Calves.
1 Brood Sow in pig.

and all his Implements, which are practically new. Usual terms. Sell without reserve as the farm is sold.
R. H. Alford, Auctioneer.
2d-62-2478

G.W.V.A. NOTICE.
The following comrades of the G.W.V.A. are requested to attend a special meeting of the local branch executive to be held on Monday evening at 8 o'clock: Comrades Millby, Kellar, Allen Sharp, J. Peel, F. Rush and W. Fields.

CARD OF THANKS.
Mrs. David Beavis wishes to thank Drs. J. M. McCulloch and G. S. Cameron and nurses of Nicholls Hospital for kindness shown to her. Also Ladies' Aid and Berean Bible Class of Knox Church; Nassau L.O.L., No. 457; Trinity Church ladies, and all kind friends and neighbours for the abundance of beautiful flowers and other kindnesses to her during her recent illness in Nicholls Hospital.

MARSH CUT FIRST TIME IN 50 YEARS
For the first time in half a century the marsh at the lake has been cut with a mower and horses. Mr. W. Robinson did the trick this week.
The water in Lake Ontario has reached a very low level, the lowest in twenty-five years. The lake is three feet lower than last year.—Oshawa Telegram.

STILL BORING FOR GAS IN LAKEFIELD
Further boring at the Stephen Harrison home on Queen street, Lakefield, for gas which was found on Thursday evening, has so far failed to reveal any further trace of its existence, although a depth of 50 feet had been reached in the rock by yesterday evening. Lakefield residents hope, however, that the gas vein which fed a pocket discovered some twelve years ago in the village and evidently feeds Thursday's find, may be found.

PARTRIDGE SHOOTING.
Partridge may be shot between the 5th and 20th of November only, and no person shall take, kill, or have in his possession more than five birds for the season. No muskrat shall be shot or speared at any time nor shall any muskrat or beaver house or beaver dam be cut, speared, broken, or destroyed at any time. No trap must be set closer than five feet from a muskrat or beaver house. Another important change affects chiefly those who hunt, kill, take, or molest any deer or moose while in the water.

SALVATION ARMY NOTES.
The services at the Temple during the week-end will be of a very special character, it being the farewell of Candidate Henry Parnell, who is entering the Salvation Army Training College at Toronto next week to train as an officer.
There will also be a special visiting officer in the person of Adjutant Clayton, of Toronto. The Adjutant is not unknown to Peterborough audiences, and his eloquent addresses on his previous visits have won him many admirers.
Some old friends and comrades in the persons of Captains Pearl and Herbert Payton, also Adjutant Eastwell and Sister Ivy Broom are renewing acquaintances in the city, and their many friends will be glad to see them again. Altogether the week-end promises to be one of interest and enjoyment to all who attend, and everyone is cordially invited.
The morning open-air will be held at the corner of Walton and Weller Streets.

Social and Personal

Mr. and Mrs. G. S. Kingdon came home this week from their "Linger Longer" Lodge, Chemong Park, and motored to Toronto yesterday, and will be away for a week.

The many friends of Mr. Rupert Gliddon, will be pleased to know that he has been removed from the Nicholls Hospital to his home and is making fair progress towards recovery. He hopes to be well enough in the near future to conduct the last of the series of 57th Band concerts.

Mrs. Mary Beall Lyle announces the engagement of her youngest daughter, Marion Gertrude, to Mr. Fred T. Rappe, the marriage to take place quietly in the latter part of September.

Fred D. Rutherford, eldest son of Mr. and Mrs. P. E. Rutherford, 541 Aylmer Street, left on the early C.P.R. train this morning for Kirksville, Missouri, where he is enrolled in the June class, 1924, at the American School of Osteopathy.

Miss Agnes Murray, of 503 Parnell Street, left for Campbellford, where she has accepted a position with the Carnahan Company.

Mrs. Blackburn, of Toronto, is in Lakefield, visiting Mr. and Mrs. E. R. Tate at "Bendennis."

Miss Stevenson returned yesterday to her home in Toronto, after three weeks' visit with Mrs. Bayly, Water Street.

Judge R. M. Dennistoun returned yesterday to Winnipeg, after a few days' visit with Mr. and Mrs. A. Stevenson, Aylmer Street.

Mr. Robert Fanning, cousin of Mr. James Fanning, is visiting friends in Peterborough and district after an absence of forty years. Mr. Fanning has had a very successful career as a farmer in Southern Manitoba, but still has a warm spot in his heart for old Ontario.

Miss Alison Strathy of Montreal, and Mr. Lee Strathy of the Canadian General Electric Works, returned this week to Peterborough, after a paddling trip from Young's Point to Georgian Bay, which they accomplished in ten days, including the return trip. Miss Strathy is at present visiting Mr. and Mrs. W. H. Hill, Brock street.

Mr. and Mrs. O. S. Makbeth and baby, Jean, returned last night from a motor trip to Toronto, Hamilton and St Catharines.

Mrs. C. S. Curran returned last night from Toronto.

Miss Leta Brownscombe, assistant secretary of the local Y.W.C.A., left at noon yesterday to visit her brother, Ernie, who is manager of the Bank of Commerce at Sharbot Lake. She will then go on to Montreal and spend a few days with Mrs. (Rev.) Thomas.

WAGON LOADS OF PRODUCE SOLD ON THE LOCAL MARKET

VEGETABLES PLENTIFUL—LOTS OF BUYERS OUT THIS MORNING

TO-DAY'S PRICES

To visit to-day's market was to find concrete evidence that the crops of vegetables and fruits are abundant, that the horn of plenty has been scattered widely over the land. Dozens of wagons, laden high with vegetables and fruit, lined the square, and upstairs the farmer's wives displayed supplies of butter, eggs and fowl that makes the high price of these farm products understandable. It was a large market as each market will be for some time now, and Peterborough housewives with not a few male buyers were out en masse to get their tomatoes for canning and catsup, fruit for preserving and onions and cucumbers for pickling.

Tomatoes Plentiful.
Tomatoes were more in evidence than an other vegetable. The crop is not nearly over yet, a well-known gardener told The Examiner, and the price will likely be lower. To-day they sold $1.00 a bushel or 30c a basket. Yellow and red cherry and plum tomatoes were found in a few wagons at 15c a quart. A large basket of yellow tomatoes could be had at 40c or a smaller one for 25c.
There was considerable corn brought in. Some asked 15c and some 20c, most of the yellow bantam corn bringing 20c. Very large full cabbages sold at 10 and 15c. Cauliflowers were 15 and 20c. Only a few purple cabbages were on the market. They sold for 20c. Cucumbers were 5c. Radishes, beets, carrots and parsley, the same price. Large yellow onions were sold at 75c a peck or $2.75 a bushel. Small pickling onions were 25c a quart and green onions were sold at 5c a bunch. Plenty of tender celery was sold at two bunches for 25c.

Green Beans.
Not many measures of green beans were seen this morning. One lady asked 25c for long yellow ones. "The're hardly any now," she explained when asked why the steep price. Hubbard squash and marrows could be had at prices from 15c to 25c and pumkins found there way into many Peterborough households at the same price. To-morrow undoubtedly pumpkin pie will find its way into the Sunday dinner menu in not a few homes in this city, causing delight to pie lovers.
Potatoes sold at 30c a peck and by the bag $1.40 and $1.50. No great quantities were brought in.
Apples sold at 20 and 25c a peck. Plums sold at 15c.
Butter sold for 68 and 70c and the sellers admitted that they were getting an unusually good price, but this district lowers the price.

Dairy Market.
Buyers grumbling paid the price, not incoherently, about profiteering, and the money to be made in farming. Eggs sold at 60c and 30c and 35c was asked for chickens. Honey was 30c lb.
The market was resplendent with gorgeous bouquets of asters, gladioli and other flowers. Prices ranged from 10 to 50c a bouquet depending of course on the size, coloring and condition.
Anyone looking for a cute little collie pup or two of them should have seen the ones shown by one boy. The oldest one he valued at $3 ad the younger at $2. Angora and Dutch rabbits in a box were guarded over by several youngsters who evidently had a financial interest in the rabbit raising industry. They lauded their rabbits and used all the wiles of the experienced salesman but were greatly aggrieved when they found that all their efforts to sell and all their explantions were wasted on an Examiner reporter who was merely drawing them out and finding the price, $1 for the young ones, $1.50 for an old pink-eyed rascal.

CHINESE FRUIT SUPERIOR.
The Chinese are said to have some fruit which is far superior to anything that has been achieved on this side of the globe. For instance, there is an orange which is far superior in its eating qualities to any of ours and in addition to this it is frost proof.

WEDDING BELLS

HUTCHISON—PERRIN.
In the presence of a large number of friends of the contracting parties the wedding was quietly solemnized in Murray Street Baptist Church today at 2.30 o'clock of Annie Luella Perrin, of this city, and James Hutchison, of Otonabee.
Mr. and Mrs. Hutchison left by the 3.20 C.P.R. train for a short honeymoon to be spent in the West and on their return will resid in Otonabee.

OBITUARY

BABY DONNELLY.
The infant child of Mr. and Mrs. Wm. Donnelly, 425½ George Street, who died yesterday, was buried this morning in Little Lake Cemetery at 9 o'clock.

MRS. JAMES RIDPATH.
Death removed one of the most respected citizens of Lakefield on Thursday night in the person of Charlotte Sanderson, only daughter of the late John Sanderson, and beloved wife of James W. Ridpath, editor of the "Lakefield News."
Deceased leaves to mourn her loss her husband, one daughter, Jean, and two sons, Clayton and Jack, besides a great number of sorrowing friends.
Deceased was a member of the Presbyterian Church, and was a very active worker in any branch of work pertaining to the church.
The funeral was held this afternoon from the family residence, Concession Street, and proceeded to the Lakefield Cemetery, Rev. P. L. Jull officiating. It was very largely attended, and the many floral tributes showed the high esteem in which the deceased was held.

OPPORTUNITY.
"Master of human destinies am I!
Fame, love, and fortune on my footsteps wait.
Cities and fields I walk; I penetrate
Deserts and seas remote and passing by
Hovel and mart and palace—soon or late
I knock unbidden once at every gate!
"If sleeping, wake — If fasting, rise before
I turn away. It is the hour of fate,
And they who follow me reach every state
Mortals desire, and conquer every foe
Save death; but those who doubt or hesitate,
Condemned to failure, penury, and woe
Seek me in vain and uselessly implore.
I answer not, and I return no more!"
—John James Ingalls.

SOUTH END BRANCH.
For the convenience of pupils living in the south of the city the Conservatory of Music has opened a studio at 540 Chamberlain street. Miss Olga Fowler and Miss Hilda Thompson will be in charge. For terms apply at studio or telephone 335. 12d-72

NEW HAWAIIN STUDIO.
To be opened at the Conservatory of Music. Harry Wagner, teacher of Hawaiian music. Full particulars can be had at the Conservatory. Enrol now. Studios: Toronto, Peterborough and Belleville. 'Phone 355, Peterborough. 12d-72

IN MEMORIAM.
FLEETWOOD.—In fond and loving memory of our dear sister Helen, who departed this life Sept. 11th, 1919.
The gates of heaven were left ajar,
A voice had whispered come,
And in the early morning light,
God took our loved one home.
Sleep on, Dear Helen, and take your rest,
We loved you—God loved you best.
Inserted by her Sisters and Brothers.

IN MEMORIAM.
FLEETWOOD.—In loving memory of our dear Helen, who passed away so suddenly on 11th September, 1919.
O sleep on, dear Helen, in peaceful sleep,
Your memory I will always keep.
Gone and forgotten by this world you may be,
But the earth that enshrouds you is sacred to me.
Friends may think that we've forgotten you
When at times they see me smile,
But they little know the sorrow
That those smiles hide all the while
—Father.

Twenty Years From Now
You will want good sight twenty years from now. But if you are going to have it you must not neglect your eyes now.
If your eyes pain, don't put off attending to them. Have Dr. Fowler examine them at once. If you need glasses he will prescribe the correct lenses to relieve your eye trouble.

SOME FOLKS USED TO THINK
that disease and bodily affliction were imposed upon them as an ordeal the patient entertainment of which would be rewarded by a place in paradise.
This manifestly misguided attitude has caused endless pain and suffering. Such neglect of the body is a crime against Nature and above all things should never hope to be rewarded. Rather will Nature punish for such gross neglect, and if pain and suffering is not sufficient, death may enter into the scheme.
The modern conception of disease as an enemy and tyrant to be rid of as quickly as possible has preserved the health and life of thousands of individuals.
Chiropractic is the modern knight that goes out to tilt with disease, the arch-enemy of mankind. That Chiropractic is victorious in its encounter with the enemy is amply proven by the millions of adjustments which are given in this country alone.
If you are sick and desire health and vigour you cannot do better than to investigate this remarkable, new science, which is revolutionizing modern healing methods. For twenty-five years Chiropractic has lived and grown. Its growth has been remarkable in that short time, but not less remarkable than the exceptional results obtained in all classes of acute and chronic cases. This reputation has been built primarily upon the great number of cases that have been pronounced absolutely incurable. The efficacy of spinal adjustments has been instrumental in removing the science out of the experimental class, and the Canadian people have ordained that Chiropractic shall live and minister to humanity always.
You, too, have a great benefit awaiting your investigation of this new health method.

VOL. XVLII. NO. 61 PETERBOROUGH, MONDAY, SEPTEMBER 13, 1920 PRICE THREE CENTS

Several Barns Destroyed as Result of Storm in Peterboro County

NEGOTIATIONS SEVERED WITH SOVIET DELEGATES

LABOUR ORGAN'S GOLD DISCLOSURE WRECKS PLANS POR TRADE RELATIONS BETWEEN RUSSIA AND BRITAIN---PREMIER SEEKS EXPLANATION

Canadian Press.

LONDON, Sept. 13. — The Times this morning says that the Russian Soviet Government's placing of seventy-five thousand pounds of Bolshevik gold in the hands of the Herald, the Labor organ, has temporarily wrecked the work of the Bolshevik commercial mission in London at the moment when Kameneff and Krassin, the Soviet commisioners, had high hopes of immediate results.

According to the newspaper the representatives had an appointment with Lloyd George on Friday to notify him of the progress of certain trade negotiations and the prospects of establ ng trade relations. They were told at Downing street that in view of the gold disclosure it would be impossible to deal with any other subjects until that matter was explained. The representatives were informed that the Herald's announcement had entirely altered the situation and the government had decided to refuse discussion on other matters in view of the undertaking given some time ago that while the Soviet mission was in this country no propaganda should be attempted.

In the course of the interview, which lasted for three hours, Krassin assured the Premier that he and Kameneff were entirely ignorant of the Bolshevik offer to the Herald, and Kameneff said he was returning on Saturday to Moscow, where he would immediately consult his colleagues concerning the offer.

Meantime, says the Times, the activity of the Soviet mission has been completely suspended. According to the Herald the Premier fiercely attacked Kameneff for the alleged breach of faith, but disassociated M. Krassin from his charges.

Peterboro' Passengers On Stranded Metagama

LINER RAN ON A SAND BANK IN THE ST. LAWRENCE RIVER---PASSENGERS TAKEN OFF.

(Canadian Press.)

MONTREAL, Sept. 13.— Coming up the river from Quebec, which port it left on Saturday afternoon, about 5 o'clock, the Metagama, of the Canadian Pacific Ocean Service, inward bound from Liverpool, came to a halt in the early hours of yesterday morning, and it is expected, although there was no official confirmation of the fact last night from the company's officials, that the vessel is embedded in a sand or mud bank some 25 miles from Montreal. The ship struck about 3 a.m., and though there was no damage, nor hurt to anyone, it was too deeply embedded apparently to get off.

The steamship Three Rivers, of the Canadian Steamship Lines, has been sent to the spot, which is near Ile Bouchard, to take off passengers. The Metagama carried 562 cabin and 1,172 third-class passengers, all of whom and a few of the former, were disembarked at Quebec, so that there are only about 500 passengers to come off here.

It is stated that there was a fog prevailing at the time of the accident. All day yesterday tugs were trying to get her off, but up to a late hour, without success.

A Later Despatch.

(Canadian Press.)

MONTREAL, Que., Sept. 13.—C. P.O.'s liner Metagama which ran aground on Isle Bouchard, twenty miles below Montreal on Saturday afternoon, is still unable to move, despite vigorous efforts of five tugs sent to her assistance Sunday morning. All passengers, however, arrived here this morning on the steamer Three Rivers, none the worse for the extra night on the river.

Peterborough Passengers.

Mrs. Frank Whitehouse and daughter, of Peterborough, were passengers on the steamer, returning from England, where they had been since May.

3 O'CLOCK DESPATCH.

MONTREAL, Que., Sept. 13.—Further details have just been learned regarding the stranding of the Metagama about 25 miles below Montreal, the most significant being that the steamer had a collision with the freighter Wisley prior to running aground.

It appears that the Metagama had to leave the river channel to avoid running down the Wisley, and as she turned out, the liner struck the freighter across the bows a glancing blow.

According to one of the officers on board the Metagama, it was rainy and foggy at the time, and the lights of the Wisley were so blended with those on shore and the navigation lights as to be nearly indistinguishable.

GOOD EYES INCREASE PRODUCTION.

The need of to-day is increased production, but if your eyes are not efficient you cannot do your share. If your vision is poor or if you cannot comfortably stand working or reading for any length of time, your eyes need attention. See W. H. Lacey, Optometrist, 410 George St.

NOTICE.

DRAWING CONTEST FOR BOYS AND GIRLS

FIFTY PRIZES TO BE GIVEN---FULL PARTICULARS IN TO-MORROW'S EXAMINER

In to-morrow's Examiner will be given the particulars of a drawing contest for the boys and girls of the city. Fifty prizes will be given to those whom the judges award have earned the prizes.

It will cost you nothing to submit a drawing will be lots of fun and might give you a start as a newspaper cartoonist which is one of the best branches of the newspaper business just now.

Be sure and read to-morrow's Examiner for particulars of the contest.

WHERE TO GO TO-NIGHT

GRAND—Nazimova, in her greatest screen achievement, "Out of the Fog."

ALLEN—Mildred Harris Chaplin in "The Inferior Sex."

EMPIRE — Norma Talmadge in "The Probation Wife."

REGENT—W. S. Duncan in "Smashing Barriers."

THE WEATHER

The thunderstorm of Sunday afternoon, ending with the bombardment of gigantic hailstones, or rather jagged chunks of ice, was such an unusual occurrence as to arrest the attention of every one. While the electrical display was most vivid, and accompanied by crashes immediately following, neither it, nor the terrific downpour of 1 inch and 15/100 in an hour, were as rare as the final number on the programme—the descent of the hail. Hail is usually round. Many of the pieces that fell yesterday were irregular chunks of ice. Pieces 1½ inches across were common; pieces 1¾ inches were seen. Some were star-shaped with four stones surrounding a central one. Most of the larger ones were flat, and about ½ inch thick. The origin of hail is not definitely known, but it is believed by those who have made a study of it, to be somewhat as follows. When a thunderstorm is in progress there are sometimes small cyclones or tornadoes at work in the upper stratas of the atmosphere. These cyclones suck up some of the rain and carry the drops up to much colder regions. They there turn to ice, and are whirled downward to the warmer clouds again, where they gather more moisture, which freezes on their ascent to higher altitudes. The operation may be repeated many times. If a hailstone is cut in two these different layers may be plainly seen. How to account for the irregular chunks of ice I do not know, but am making enquiries. —W. P.

GOVERNMENT ECONOMY

OTTAWA, Sept. 13.—The government has decided to effect an economy in the matter of its publications.

Heretofore they have been paid for in bulk by parliament. If a thousand copies of a report were sufficient, often three thousand were run off on the principle that parliament would foot the bill. Because of the high cost of paper it has now been been decided to charge each department with the cost of its publications and compel them to justify any increase.

Worst Electrical Storm of the Season Swept Over City Sunday

DAMAGE VERY LIGHT IN CITY IN VIEW OF THE SEVERE NATURE OF THE STORM---BARNS DESTROYED IN THE COUNTRY.

The rain the farmers have prayed for during the last few weeks came on Saturday afternoon and evening and Sunday afternoon, and while the downpour was welcomed, the lightning and hail that accompanied it were unwelcome adjuncts. The lightning played havoc in the country and the hail did all the damage it could but the hail storm was not heavy enough to do serious damage.

Early Saturday afternoon dark forboding clouds gathering in the sky lit up by far-away flashes of lightning warned the farmers that a severe storm was coming up. The downpour began in a few minutes and an electrical display that far eclipsed any other storm this year began. Sections south and west of the city suffered more from Saturday's storm than Sunday's. Thunder crashed, peal after peal, and vivid flashes of lightning lit up the half darkness that prevailed in the country, showing live stock nearly wild with fear huddling under the trees in the fields. For this reason many were killed. In South Monaghan and Cavan many cattle were struck. Mr. George Berry, of Cavan, lost four valuable cows, three of which were milch cows. William Crowe, of Cavan, lost a horse in the storm. It is reported that a Mr. Hall, east of Millbrook, lost five cattle.

Barnes Burned.

In Cavan and Emily the storm was particularly severe. Two barns were burned near Mount Pleasant. The barns and outbuildings of Hubert Gardiner, of Cavan, were struck by lightning Saturday evening between six and seven and were totally destroyed. The loss of the crops in the barns will probably exceed that of the buildings.

The barns of David Dick, of Emily, it was reported to-day, were also totally destroyed on Saturday night. The barns were but recently erected and the loss will be particularly heavy, it is stated.

The rain and hail that visited the country Sunday afternoon did little damage to the crops. Some fields of corn are down, leaves and some fruit were knocked off the trees, but the farmers consider themselves getting off very lightly.

The rain came so heavy that it washed off the roads, leaving them in not as impossible a state as might at first be thought.

Rain Needed.

The rain is a God-send to those farms that have had dry wells for the last few weeks. Many farmers have been unable to plough because of the extreme dryness, but this serious condition has been overcome and the copious rains have prepared the ground well for the fall seeding.

The barns of Samuel O'Brien, a farmer in Douro, were struck by lightning Sunday afternoon but did not take fire.

In yesterday's storm the house of Albert Middleton, of Smith, was struck at the rear. A small fire which began was quickly extinguished by Mr. Middleton and his family.

FACTORY WRECKED.

NIAGARA FALLS, Ont., Sept. 13. —Niagara Falls has been visited by many severe electrical storms this year, but the worst one came Saturday afternoon. The factory of the Niarara Falls Canning Company, a branch of the Dominion Canning Company, was struck by lightning and unroofed and the upper storey wrecked. Pieces of the roof twelve feet square, were carried by the wind many hundreds of feet. The property damage alone will amount to $20,000. Queen Victoria Park is a scene of devastation. Hundreds of trees have been uprooted and blown down, iron standards carrying light and power lines were bent to the ground as if they were matchwood. Heavy limbs lie scattered all over the park and the many live power lines made it dangerous for travel to-day.

WIRES DAMAGED.

In Niagra Falls a great deal of damage has been done. Century old trees were torn up by the roots and thrown across the streets. Heavy limbs are lying on nearly all streets. At the Centre, especially there was a great deal of damage. Power, trolley, telegraph and telephone lines were thrown down by the fall of dozens of trees there. The sreet car system carried on with a short break, passengers are being transferred at the Centre. Stamford orchards have again been hard hit, many of them having been in the centre of the storm and have been torn out. Poplar trees seem to have suffered mostly, many of the trees which have been uprooted being poplars. Many beautiful old trees on Lundy's Lane have either been uprooted or broken off.

ONE MAN'S LOSS $10,000.

As an example of the damage in the path of the storm, George Walker, of Grantham, estimates his loss at $10,000.

Whenever a girls thinks as much of a man as of herself—that is love.

STORK ON STRIKE AT WASHINGTON

WASHINGTON, Sept. 13. — Now the stork is on strike. No births were reported to the Health Department yesterday or to-day, a blank record that never has occurred before. Officials say that they are waiting anxiously for to-morrow's report.

Bitterly Attacked Movement

CONFEDERATION OF LABOUR HELD MEETING IN ITALY TO DISCUSS THE SITUATION

(Canadian Press.)

MILAN, Sept. 13.—Immediate conversation of the Italian Parliament for the purpose of passing laws under which workmen may take over the management of industrial plants has been demanded by the Confederation of Labor in session here. Resolutions favoring compromise of the situation resulting from the occupation of plants by workmen throughout Italy were adopted at a stormy session of the Confederation yesterday.

Socialist leaders bitterly attacked the Confederation and demanded that the Socialist party assume control of the situation which they claimed had taken purely a political aspect. When the Socialist demands were rejected an additional resolution was passed which asked the president of the Chamber of Deputies and Premier Giolitti to call Parliament for session.

ARRIVED IN THE CITY.

Mr. W. H. Houser Joins Staff of the Imperial Life.

Mr. H. H. Houser, late principal of Wingham High School, has arrived in Peterboro with his family. Mr. Houser will be asociated with Mr. A. E. Dawson in the service of the Imperial Life in the Central Ontario Branch Work of that company.

Mr. Houser holds a degree of M. A., from Queen's University, specializing in Mathematics, and his school in Wingham is known to the department as one of the most successful in the province. Mrs. Houser is well known in Peterboro, being a daughter of T. A. Kirkconnell, LL.D., principal of the Collegiate Institute, Lindsay.

REFUSED TO USE THE SMOKE TEST

COURT IMPOSED MINIMUN FINE --POLICE COURT NEWS

Plumbing Inspector Metheral, in enforcing the plumbing by-laws, charged R. McCullough, of 317 McDonnel Street, with two breaches of the plumbing by-laws in Police Court this morning. McCullough was charged with refusing to use the smoke test on work which he did at a house at 479 Cedar Street and not obtaining a permit for work at 33 Aberdeen Avenue. The inspector showed that he had given McCullough sufficient time to comply with his demands, and the court found him guilty and imposed the minimum fine of $3 and costs of $3.10.

In the absence of Magistrate Dumble, Justices of the Peace Rush and Eastwood occupied the bench.

Horse Abused.

"Thank you, sir," politely said Robert Sherrin to the court when he was fined $10 and costs of $4.10 on a charge of intoxication and $5 and costs of $11.10 on a charge of abusing a horse, in Police Court this morning.

Yesterday he and a friend named Dixon went for a drive to Chemong. On the way they relieved the monotony of the drive by indulging in the contents of a bottle, according to Sherrin's story. The horse was driven until it was almost completely exhausted, and Dixon parted with his friend soon after the city was reached. Sherrin was taken into custody by the police and placed in a cell to dry. A search was instituted for Dixon, which has so far proven fruitless.

LEGAL ACTION OVER RUNAWAY

Division Court will be held at Colborne on Tuesday next, when a claim by Mr. Clifford Boundy, of Cramahe, against Messrs. Dingman of same township, for damages to plaintiff's horse and buggy, frightened by steel trucks left on the roadside, will be tried by a jury.

EAST CITY HOMES STRUCK BY LIGHTNING---ONE HUNDRED AND FIFTY TELEPHONES OUT OF COMMISSION --- HAIL VERY SEVERE

Though by far the most severe storm which has visited the county this summer, yesterday's electric storm did comparatievly little harm about the city.

In the city the storm came down from the west at about two o'clock, remained for an hour, and shifted back to the west to return in halt an hour's time with renewed severity, and kept up almost continually for another hour.

During the first storm the pavement on the north side of Brock Street was struck at the intersection of George Street, and several feet of asphalt were turn up. Several chimneys about the city were more or less injured by the lightning, but no one in any of the houses struck felt any shock. Two transformers on Dennistoun Avenue, opposite Inverlea Park, were burned out.

Hail Severe.

During the second storm, hailstones larger than marbles fell in the city with such force that several panes of glass at Blade's greenhouse were broken, and the plants injured to some extent.

The country, however, suffered from the hail more than the city, and a large number of apples, plums, and other fruit were dashed from the trees.

In Keene the hailstones were as large as fair-sized apples.

Saturday's Storm.

Saturday afternoon's intermittent showers, while they did no such damage as yesterday's, put a damper on the ball game, and forced many shoppers to stay indoors.

Sunday afternoon about two o'clock the real fireworks began. The thunder cracked and crashed, the weather man raised a barrage of rain that looked like a wall of water. The drains could not begin to carry away the tons of water that filled the streets, and in some places depths of two or three feet of water in the streets are recorded. The lightning was the real kind—no playful little flashes were noted; they were all the long, jagged streaks of fire, accompanied by all the pent-up infernal noises of the ethereal regions opened up in a grand crescendo.

At 3.30 o'clock the residence of H. A. Perry, maneger of the Colonial Hide Co., 454 Mark Street, was struck by lightning, but no material damage resulted, and none of the occupants were injured. The lightning struck the chimney, and then followed an iron pipe down through the bathroom into the cellar, where it grounded.

J. H. Wolstenholme, 532 Bolivar Street, had his barn struck. The bolt of lightning struck an elm tree close to the barn and glanced off, struck the side of the barn, splintering the lumber. The structure did not ignite, and a few dollars will cover the cost of repairs. The tree bears few marks of being used as a conductor.

Telephone Service.

One hundred and fifty Bell telephones were put out of service in the city as a result of th storm, but the country lines and long distance wires came through with hardly a trouble report. Considering the severity of the storm, the manager expressed satisfaction at the way the plant had stood up under these tests of its efficiency.

In Otonabee.

The barns of Gordon Bennett in Otonabee were struck, but were not fired. In Smith, Mr. Ward Bryce's cookhouse was hit about 3.30 yesterday, and Mr. Bryce and his daughter Irene severely shocked. The building did not take fire. Mr. Shaughnessy, of Otonabee, had a steer killed in the storm.

ST. CATHARINES, Sept. 13.—The most severe wind and hail storm that has ever visited the Niagara fruit belt swept over one portion of it on Saturday afternoon, causing total loss to some growers. The destruction took place in a narrow area of about a half mile in width and about five miles in length, west of Port Weller along the south shore of Lake Ontario. As telephone connection between the fruit growers in that section is demoralized the complete damage will not be known for at least two more days.

Two storms visited this district—one from the north-east and another from the south-west, converging between St. Catharines and the lake, causing a disturbance, the like of which has not yet been seen since the tornadoes of 1898 and 1902.

Vineyards heavily laden with grapes Saturday are to-day nothing but barren posts and wires with even the vines stripped off. Corn fields in the path of the storm are to-day mere stalks bereft of cobs and foliage, even the stalks in some instances being riddled with hail until portions of the stalks hang like ribbons. Melon patches were transferred into areas of garbage with the vines mising, while whole crops of onions were torn out of the ground. The greatest damage appears to have been to peaches and grapes. Nearly all of the latter remaining uncut, while great quantities of late peaches had been unpicked.

WILL BE NO STAY IN THE ORDER OF RAILWAY BOARD

NEW RATES ON CANADIAN RAILWAYS GO INTO EFFECT TO-DAY ---THE DOMINION GOVERNMENT CONFIRMS ACTION

(Canadian Press.)

OTTAWA, Sept. 13.—The Dominion Government, in an official statement handed out last night declines to grant a stay in the order of the Board of Railway Commissioners granting the Canadian railways the right of increasing their freight, passenger, and sleeping car rates.

The order goes into effect to-day. The statement points out that the decisions of the Railway Board cannot be lightly interfered with, and, that since the Board has been in operation, no judgment of the Board has been set aside by the Governor-in-Council.

The Government, however, recognises the right of appeal, and will facilitate in every way the early hearing of the appeal. The statement also sets forth "if it should appear to be a case where the appeal should be granted and the decision modified or reversed, there could, if deemed proper, be provision for rebates of rates charged beyond those ultimately fixed."

(Special to The Examiner.)

TORONTO, Sept. 13.—The United Farmers of Ontario declares the Government's attitude in refusing a stay in the freight increases is contrary to all precedents.

The Trades Congress Opens Its Conference

HON. WALTER ROLLO ADDRESSED THE MORNING SESSION---RESOLUTIONS.

(Canadian Press.)

WINDSOR, Sept. 13.—Resolutions relating to the situation in Ireland and Russia and policy of Trades Unions of Canada, in these directions are uppermost for discussion at the Trades and Labor Congress which opened its thirty sixth anuanl convention here to-day. Machinists introduced Irish question asking that congress demand Britain's withdrawal of troops from Ireland and that English workers decline to send war materials to be used against Irish. Edmonton Trades and Labor Council presents a motion endorsing the stand of British Labor on the Russian situation.

Congress will to-day be addressed by Premier Meighen.

Morning Session.

Feature of morning session was address of Hon. Walter Rollo, Minister of Labor, who declared that the present Ontario Government had adopted many planks of the labor platform and had made a record in placing progressive legislation on the statute books of the province. He also warned the delegates that the greatest danger to organized labor lay in disension within its ranks. He said he had no intention of making any rash promisse in his capacity of minister but assured delegates that anything he could do for the wage earner, he stood ready to do, the same as when he was ordinary delegate to the Congress. He ridiculed the talk of the big interests influencing members of Government. President Tom Moore in declaring convention open, counselled moderation in discussion of continuous resolution and declared that these best able to speak of the aspirations of Trades Unions movement were those who were in it.

LAST $ DAY PRIZE

MR. WILFRID STAUNTON, LOS ANGELES, CAL., IS THE WINNER

The extra Ten Dollar prize for the shopper from the greatest distance has not yet been paid out. No claim from any farther point having been made, this prize will be awarded to Wilfred Staunton of Los Angeles, California. Mr. Staunton if still in town is asked to call at the Examiner and the money will be handed to him

Following is a list of some of the points where shoppers on Dollar Day in Peterboro resided Los Angelos, Cal., South Carolina, Applegate, Mich Cranbrook, B.C., Rosemount, Montreal, Kemptville, Ont., Parnescoute, Ohio, Burkburnett, Texas, Port Dalhousie, Ont., Lanrigan, Sask., Oshawa, Ont., Kingston, Ont., Montreal, Galt and a number of others.

BISHOP O'BRIEN WAS IN LINDSAY

His Lordship Bishop O'Brien was in Lindsay yesterday, where he invested Monsignor Casey with the title of Prothonotary Apostolic in St. Mary's Church. Clergy from Peterborough at the investiture included Monsignor McColl, Rev. Father Phelan, Father John O'Brien and Rev. Father Cote. Monsignor Murray, of Cobourg, Father O'Sullivan, of Port Hope, Father McAuley, of Ennismore, and Father Guiry, of Downeyville, were also present.

BOYS WORK IN OSHAWA.

BRAMPTON, Sept. 13.—F. S. Beckwith, who for the past two years has carried on as Field Secretary of the Y.M.C.A., in Peel County, has resigned to take the secretaryship of the Boys' Work in Oshawa.

It is expected that Mr. Beckwith's successor will be Mr. Alexander McLaren, who formerly held the Chair of Rural Sociology at the O.A.C. at Guelph. A veteran of the war, he was attached to the staff of the Khaki University, and later was a member of the staff of the National Y.M.C.A.

CHARGE MARMORA WOMAN WITH ATTEMPTED SUICIDE.

BELLEVILLE, Sept. 13. — Mrs. George Riley, of Marmora, has been committed to the County Jail here on the charge of atempted suicide. The unfortunate woman made an effort to drown herself in the river at Marmora at the spot where her daughter, Mrs. Alex. Boyd, drowned herself and babe a few weeks ago.

Two neighbours witnessed her act and rescued her after a struggle, the woman declaring she would carry out her purpose of ending her life.

Everything will Open TUESDAY at One o'clock.

HON. MANNING DOHERTY will Speak immediately after the Parade.

NURSING STAFF GOES ON STRIKE

NURSES OF OTTAWA HOSPITAL SAY NEW RULES SAVOR OF CLOISTERED EXISTENCE

OTTAWA, Sept. 11.—Feeling that new temporary regulations put in force by Sister Felix de Valois, Superior of Ottawa General Hospital, Water Street, curbed their freedom unduly when off duty, and savored too much of a cloistered existence, a number of probationers at that institution Thursday refused to observe the regulations and went on strike. Faced with an ultimatum of going on duty or leaving the institution, eight probationers decided to leave, and departed for their homes.

The announcement that new regulations to govern the conduct of probationers, junior, intermediate, and senior nurses at the hospital would go into effect forthwith was made Wednesday night, and it caused consternation among the nurses and probationers. A meeting to protest against the new regulations limiting the holidays and hours during which nurses and probationers may go into the city when off duty was immediately called, and those attending—about 68 members of the nursing staff—expressed their entire disapproval. The Superior, Sister Felix de Valois, remained inflexible when acquainted with the stand of the members of the nursing staff, and told them that the regulations would not be changed. Eight probationers decided to leave the hospital at once.

Old and New Regulations.

Under the new regulations, the probationers and nurses are given one afternoon off, from 2 p.m. to 7 p.m. each week and are not allowed to leave the institution at any time during the evening or on Sunday. The old regulations, which were of a more generous character, entitled the young ladies of the day staff to every evening during the week, from 7 to 9.30, one afternoon a week till 9.30, and three hours off on Sunday.

It is reported that practically the whole nursing staff, including probationers, junior and intermediate nurses, went on "strike when it was learned that the new regulations would not be modified. The "strike," while of short duration, caused some inconvenience, a number of patients being deprived of their baths and compelled to wait several hours before being served with breakfast. The inconvenience was particularly noticeable, as the hospital happens to be filled with patients at present.

Plenty After Positions.

The hospital authorities are loath to discuss the incident. They claim that the new regulations were only intended to be temporary, and that the probationers who left the hospital did so after being informed that they would either have to abide by the rules or leave the institution. The Superior of the hospital, Sister Felix de Valois, stated that the departure of the probationers would cause no inconvenience, as there are a large number of applications on hand from young ladies desiring to become probationers and take up nursing as a career.

From the remarks of three doctors closely connected with Water Street Hospital, there is no danger of any medical men rushing in to the defence of the nurses whose hours off duty have been curtailed by the new superior, Sister Felix de Valois.

"I've been out of town. Anyway, I wouldn't like to say anything about it," said one.

Another doctor who spent his morning in the hospital also knew nothing about it. "Please don't mention my name," he added.

"I have nothing to do with it. Ask the chairman or the secretary," was the excuse of a third.

The chairman, Dr. Chevrier, had gone to Quebec to the funeral of Hon. S. N. Parent, and the secretary was one of those who had already made his excuses.

One who was a little more fearless than his colleagues proclaimed his deep interest in the welfare of the nurses.

"I think young girls who have worked hard all day deserve the night off. They need some time for recreation. The probation nurses are hard workers, and I am in favour of keeping them as happy as possible."

As a result of the new regulations eight nurses on probation left the hospital.

SAID REFORM NEEDED IN MONTREAL POLICE

Dismissal of Constable Leads to Demand For Investigation.

MONTREAL, Sept. 13.—Reforms in police administration, especially of that kind that will guard the public against abuse of authority by constables, are expected, following disclosures which resulted in the dismissal of Police Constable Astphan. The story told by Miss Margaret Raney, the young woman who was arrested some time back and who was kicked by Astphan into a condition necessitating her stay in the Notre Dame Hospital for a couple of weeks, has been told in part and reveals conditions urgently in need of reform. She claims she was accosted by a man in the street and asked for police protection. Later she was arrested for loitering, and taken to the station, where she was insulted by Astphan, whose face she smacked. He struck her with a baton and kicked her. On appearing at the recorder's court, and while still ill, she was strongly advised to plead guilty to loitering, and this she did and was released on suspended sentence. She further claims that Astphan, while his case was being investigated by the chief of police, offered her hush money. She now states that she intends to take action against Astphan.

British Columbia saw mills have received an order for 5,000,000 feet of railway ties fro mthe British Government.

CONVICTED MOTHER'S CASE UP NEXT WEEK

OTTAWA, Sept. 11.—Reports from Quebec that the Department of Justice had decided to grant a stay of execution in the case of Joseph Remillard, convicted of murder, are officially stated to be inaccurate. According to advices received by the Department of Justice, Remillard intends to take his case to appeal. Should it be found necessary for the proper hearing of the appeal that the execution be postponed, it will be within the province of the judge who passed the sentence, or of the Court of Appeal, to order a postponement. It is not usual for the department to postpone an execution, except under very exceptional circumstances.

The case of Madame Gagnon, sentenced to be hanged at Quebec on October 1, is now under consideration by the officials of the Department of Justice. It is expected to be before the Cabinet Council next week. Since being sentenced, Madame Gagnon has given birth to twins. She was found guilty of the murder of her stepdaughter, on whose body no less than 54 wounds were found.

PREMIER DRURY TO VISIT FENELON FALLS.

FENELON FALLS, Sept. 11.—Through the efforts of the local representative in the Ontario Legislature, Mr. Edgar Watson, M.P.P., arrangements have been made to have the Honourable E. C. Drury, Premier of Ontario, visit Fenelon Falls on Friday, October 1st. The local Farmers' Club and Mr. Watson have been trying to get him there at different times this summer, but he has been too busy until the present. At a meeting of the Town Council on Tuesday evening it was unanimously decided to unite with the Club in giving the Premier a public reception.

FINDS GOLD AND IRON.

KINGSTON, Sept. 13.—While digging a well on his farm in Huntley recently, Mr. Nesbitt Bradley struck what looks to be gold and iron ore a considerable distance below the surface. Those who have seen the real thing from the mines of New Ontario declare this looks good and will no doubt prove a valuable find. Mr. Bradley has sent a sample to the Government for analysis.

WEST PETERBORO' FARMERS NOMINATE JAS. C. CAMPBELL

CHOICE OF SATURDAY'S CONVENTION TO CONTEST BYE-ELECTION IN THE INTERESTS OF THE UNITED FARMERS—J. F. COLLINS DECLARED HE WOULD BE A CANDIDATE TOO.

RIFT IN U. F. O. LUTE

The United Farmers of West Peterborough at their convention in the Sons of England Hall on Saturday afternoon chose James Corbett Campbell, of South Monaghan Township, as their candidate in the expected by-election for the Federal seat, resigned by J. H. Burnham.

The attendance was variously estimated in excess of two hundred, including many women, but the number of accredited delegates present was 133. The absence of representatives of the Independent Labour Party—with whom the Farmers negotiated some time ago for support reciprocal to the assistance they gave in the election of Mr. Tooms to the legislature—was an apparent indication that the U.F.O. had decided to play a lone hand in the Dominion contest in this riding.

Mr. Campbell was declared elected on the third ballot, which gave him 94 votes against 36 for John F. Collins, of Ennismore, but Mr. Collins had announced when the second ballot showed that he had obtained 38 votes to Mr. Campbell's 72 that whatever the final result of the convention might be, he would contest the election, not as a candidate of any class, but as a "democratic" representative of the people as a whole.

When the nominations had been closed, the chairman, W. R. Shields, president of the Peterborough branch of the United Farmers of Ontario, said that five minutes would be allotted to each of the nominees to address the convention. Mr. Collins was called upon first but he objected that the time limit wasn't sufficient for a discussion of the questions which he said would be dealt with. He said that he would expect an opportunity later in the proceedings of speaking to the delegates. Of the other nominees some simply announced their withdrawal and Mr. Campbell spoke briefly occupying most of his five-minute period.

Mr. Collins' Address.

Then when the result of the second ballot was announced Mr. Collins asked for and was granted permission to address the convention. At the outset he disclosed his attitude by stating that he was opposed to class legislation but that he stood for legislation for all the people. Proceeding he said that the Lake of the Woods Milling Company had made 62 per cent. profits. This had been beneficial to the shareholders but had been detrimental to the farmers and the consumers. When the farmer had to pay an extra price for mill feed he had to increase the price of milk.

"We don't want special legislation," continued Mr. Collins. "Equal rights for all should be our desire." He referred to the satisfaction with the last results in Ontario, and expressed the opinion that there would be similar satisfaction after the next election throughout the Dominion. Mr. Cockshutt, the member for Brantford, had said that the farmers were a menace.

"Because we have organised. Everybody from the miller and the manufacturer to the bootblack is organised. The U.F.O. is the first organisation that has shown what the farmers can do."

At that stage of Mr. Collins' remarks, Mr. E. E. Anderson, a delegate, interrupted, calling for a point of order that the shift in the proceedings was unfair to the other nominees for the candidacy.

Mr. Shields ruled that Mr. Collins might continue.

"We should all be granted equal rights," said Mr. Collins. "If you had an imported man you would give him all the time he wanted. But a local man doesn't seem to suit you." This reference was directed to Mr. Anderson.

Mr. Collins concluded with a contrast of the income tax in Canada with that of Australia. In this country of ten millions, $1.23 a head was collected. In Australia, with its five million people, men were taxed according to their wealth. The average tax there was $12.00 a head, but rich men were required to pay according to the benefits they received from the country. The farmer and the labourer paid on the same basis.

When Mr. Collins declared that he wouldn't withdraw his name as "a candidate in the elections in West Peterborough," he said that he would represent all classes in addition to the farmers. He would stand for election and have his name go on the official ballot.

"This convention is not a voice of the sentiments of the electors of West Peterborough," he said.

Mr. Anderson: "We understand that this was a U.F.O. convention."

Mr. Collins: "It's called that."

Said He Didn't Agree.

The question was then raised as to whether Mr. Collins had agreed with the other nominees to make the choice of the convention unanimous. Before the first ballots were distributed, Mr. Shields had made that suggestion. Some of the men nominated answered yes and others nodded affirmatively. Mr. Shields then set the balloting machinery in motion, under the impression that all the nominees had signified their assent.

When Mr. Collins had finished his declaration of independence, Mr. Shields asked him whether he hadn't agreed with the others to make the deciding vote unanimous.

"I did not," replied Mr. Collins, who occupied a seat near the front of the hall. "I said I wouldn't."

"Well, I didn't hear Mr. Collins say it," Mr. Shields stated to the delegates.

"I certainly said it then, and I say it now," was Mr. Collins' assertion.

Several delegates contended that when Mr. Campbell received more than half the number of votes cast on the second ballot that he was then made the choice of the convention.

"We agreed to vote it to a finish," said Mr. Shields, and the third ballot was taken with all the nominees eliminated but Mr. Campbell and Mr. Collins.

The Nominations.

The nominations were as follow:

James C. Campbell—proposed by E. E. Anderson and J. Higgins.

George B. Nicholls—proposed by Robt. Shaw and Fred Pluard.

J. F. Collins—proposed by C. Killen and M. Perdue.

Robert Shaw—proposed by H. Seymour and W. Northey.

Fred R. Wilson—proposed by W. White and R. T. Lillico.

W. R. Shields—proposed by W. Grant and W. Steinkrauss.

R. T. Lillico—proposed by W. R. Shields and J. C. Campbell.

John McIntosh—proposed by F. R. Wilson and J. Robson.

The Balloting.

The vote on the first ballot was as follows: Collins 36, Campbell 56, Shaw 16, Nicholls 17, McIntosh 7.

The second ballot: Collins 38, Campbell 72, Shaw 8, and Nicholls 15.

Warden Nicholls had withdrawn from the second ballot, but that fact was not generally known to the delegates.

On the third ballot, Collins polled 36 votes and Campbell 94.

Mr. Campbell's Address.

In his nomination address, Mr. Campbell said that this convention was one of the most momentous occasions in the history of West Peterborough. It was the first time that the farmers as a group decided upon independent political action. He welcomed the ladies, and stated that their enfranchisement and participation in the elections was a fitting reward for all their great services.

Referring to a published report that a South Monaghan farmer could scarcely expect Federal support because the township wasn't included in the riding for the Provincial elections, Mr. Campbell remarked that this had appeared in the hostile press, but he was confident the expression hadn't come from a member of the U.F.O. To the best of his recollection South Monaghan had been gerrymandered three times, and so long as it straddled two electoral divisions, it stood as a glaring reminder of political crookedness.

If Canada was to occupy a proud position among the League of Nations it could be only by true statesmanship. Men should be actuated by the desire to serve rather than the hope of reward. Mr. Campbell exhorted the farmers to stand united politically, trusting in the support of other economic interests. He solicited the support of the delegates, saying that he recognised that whoever was chosen as candidate would not have a bed of roses.

W. R. Shields.

Mr. Shields said he had not solicited nomination. As farmers, the delegates knew their interests and were aroused to the duty of defending them. "It is up to us to show the people of the city we can agree, and that we can conduct a campaign clean and above board."

Warden Nicholls.

Warden Nicholls asked whether he was eligible for nomination. He was a charter member of a Farmers' Club, but it had disbanded. Since then he had paid no dues, and it had been said that for that reason he was not a member of the U.F.O. On the other hand some members said he was eligible. The Warden remarked that he had been approached by men in the city to run, but because of the rumours, he had taken no action. If chosen by the convention, he promised to do all he could in the interests of the farmers, who should come first.

Mr. Shields informed Warden Nicholls that he was a member of the U.F.O.

Reeve McIntosh.

"The farmers haven't been getting a fair chance," said Reeve McIntosh, of North Monaghan. "They have helped men from the city for years. Are we asking too much now for an agricultural representative? Mr. Burnham says that if the two Cabinet Ministers in Nova Scotia are defeated the Premier will have to go to the Governor-General and send in his resignation. Nothing of the kind. The Premier can open up two other seats. So don't be misled by that."

Mr. McIntosh promised to work in the interests of the convention's candidate.

Mr. Wilson, Mr. Shaw, and Mr. Lillico asked their proposers to withdraw their names.

Election Expenses.

Mr. Shields explained in the beginning that the candidate chosen by the convention would have to deposit $500.00 with the executive of the County U.F.O. Association for election expenses, and that he would have to assume his own expenses up to $1,000.00.

R. N. Scott: If the candidate is defeated, does the U.F.O. remit any of the $500.00?

Mr. Shields: We can't guarantee it. We are not allowed to have campaign funds.

Mr. Shields also informed Mr. Scott that the executive had decided that only U.F.O. members should be nominated as candidates.

TARIFF COMMISSION TO HEAR EVIDENCE

OTTAWA, Sept. 11. — Sir Henry Drayton, Minister of Finance, and Senator Robertson, Minister of Labor, will alone hear evidence submitted at the first two hearings of the Tariff Commission—in Winnipeg and Medicine Hat. Hon. J. A. Calder, President of the Privy Council, the other member of the commission, will not be back from England till towards the latter part of the month, and it was intended that Dr. Tolmie, Minister of Agriculture, would take his place. Dr. Tolmie, who is on the Pacific Coast, was taken ill and is not expected to join the commission before its arrival in Vancouver.

The first meeting of the commission will be held in the City Council Chambers, Winnipeg, at 10 a.m. of the 14th inst. The commission will then proceed direct to Medicine Hat, where the second meeting will be held in the Council Chamber at 2.30 p.m. of September 17. Thence the commission will go to Vancouver for the third meeting, to be held in the auditorium, Board of Trade, at 10 a.m. of the 20th.

The commission leaves Ottawa for Winnipeg by Canadian National tonight. B. J. Roberts, private secretary of the Minister of Finance, is acting as secretary of the commission.

DEPUTY TO PREMIER GETS $900 INCREASE

H. WALLIS TO RECEIVE $4,400 PER ANNUM UNDER REVISED SCHEDULE

TORONTO, Sept. 13.—Hundreds of increases for Ontario civil servants, in accordance with the recommendations of the Civil Service Commission, were announced Saturday by the Drury Government. These increases have been sanctioned by the Lieutenant-Governor and are retroactive to November 1, 1919. The employes have received their back pay. Increases granted for the Attorney-General's Department have not yet been announced, as they were not approved by the Lieutenant-Governor in time for publication to-day. It is expected that the cases of the employes at Osgoode Hall will receive attention next week.

Many handsome increases have been granted to principal officers of various branches, to employes of the Department of Education, and physicians in the Board of Health Department. Under the revised schedule the salary of Government employes has been fixed at one inclusive sum, instead of allowing them extra amounts for other work.

To Make a Tart Salad Jell

Jiffy-Jell is for salads as well as desserts. Get the lime-fruit flavor and it will make you a tart, green salad jell. Mint flavor makes a mint jell.

The fruit flavors in Jiffy-Jell are fruit-juice essences in vials—a bottle in each package. They are real fruit, and the flavor is abundant. No artificial flavors—no saccharine.

Try loganberry or pineapple flavor for a dessert, and learn what delicious dainties Jiffy-Jell brings to your table. A package will serve six people.

Jiffy-Jell with its natural fruit flavor costs much less than jam or marmalade.

MUSIC AND DRAMA

THE P.B.I.

With two Peterborough people playing important roles, "P.B.I." or "Mademoiselle from Bully Grenay" was the attraction at the Grand on Saturday. This exciting war play, written, staged, and acted by veterans of the Great War, strengthened the most favourable impression it made in its visit to Peterborough last June, the production being presented in a manner that would have done credit to a professional aggregation. The many roles were splendidly taken, and the whole effect was pleasing.

Miss Marguerite Mulhall, of Peterborough, was seen to fine advantage in the leading feminine part as "Suzanne," her charming personality and the absence from stage-fright that marked her work making her presentation of the part a complete success. Miss Mulhall was presented with a beautiful bouquet of roses at the conclusion of the performance.

Mr. Murray Carlisle, of Peterborough, scored heavily as Bill Walton, the battalion runner—the hero's role, it might be called. He was natural and effective in his acting, and made the part stand out prominent.

Mr. Russ Young was as funny as ever as Private 'Erebrt 'Awkins, with his eternal grouch, and he was given able assistance by the other two musketeers, R. Welsh as the Duke, and Art. Fair as Percy Wilkins, the ladies' man. All the other important roles were successfully presented.

The most spectacular scene was that showing Chicory Trench and the departure of a wiring party, that is subsequently surprised by the Germans. The effect was most realistic and thrilling.

The singing of all the old favourite war choruses was another feature that highly entertained the audience.

REV. WATSON RESIGNS.

Rev. Edgar Watson, M.P.P., who has been pastor of the Baptist Church, Fenelon Falls, for the past four years, has resigned his pastorate. Mr. Watson presented his resignation to the church officials on Tuesday evening, which was accepted. Same to come into effect on the October 31st.

One of the chief sources of the additional value offered in Goodyear Tires is the savings effected through Goodyear's system of distribution.

It is a system made possible by the enormous sale of Goodyear Tires.

To several thousand selected Canadian dealers Goodyear sells tires direct, and the money that would go as profit to jobber is largely saved.

Shipments to distributing points are so large that we make the saving of carload freight rates. Orders from dealers are large enough to reduce clerical expense to a small factor.

Such efficiency in practice and the resulting increased business has reduced expense-per-tire to a minimum.

The saving-per-tire between factory and dealer is *approximately $2.00*.

In total this saving represents hundreds of thousands of dollars turned back into the product to heighten quality and keep prices down.

So a 30 x 3½ Goodyear All-weather Tread Tire with Goodyear Heavy Tourist Tube costs you to-day only $31.05. Six years ago it cost you $30.45. An increase of only 1.9 per cent., while most commodities and labor increased over 100 per cent.

And Goodyear Service Station Dealers help you get all the mileage that is built into the tires.

The resulting low cost-per-mile of Goodyear Tires has built the largest tire sales in the world.

"Peterborough Presents Possibilities Unsurpassed."

MONDAY, SEPTEMBER 13, 1920.

SAFETY FIRST.

An incident which happened at the corner of George and Hunter streets last evening illustrates the necessity for careful driving at street intersections, especially at the busy down down corners. A boy on a bicycle riding madly down George street, failed to see a motor car going east on Hunter street until it was nearly on top of him. Then attempting to swerve quickly out of danger he fell in the path of the car and a bad accident would have been the result had it not been for quick action and presence of mind on the part of the motorist, who succeeded in stopping his car within a foot of the prostrate boy.

The point is that had both the man in the car and the youth on the bicycle been careless, a fatality might have been the result. But only one, the bicyclist, was reckless, and the prudence of the motorist saved the situation. Had he approached the corner with the same disregard for his own safety and that of others as shown by the cyclist, an accident could not have been averted. Fortunately for all concerned he was a driver of the sane type.

There are far too many motorists, however, who take chances at street intersections. They tear around busy corners at dangerous speed, ignoring traffic regulations and the danger of accidents to themselves or others. Had one of that gentry been driving the car referred to at the beginning of this article there would have been a very serious accident. There is no need for excessive speed at street intersections and absolutely no justification for taking chances.

MEN FOR THE LAND.

The suggestion made by delegates to the Imperial Press conference after their tour of Canada that special attention should be paid by the Canadian authorities to the task of securing imimgrants who will go on the land is one that is worthy of serious consideration. It is undoubtedly a fact that the majority of the newcomers are swallowed up by the cities. Even those who may have planned to take up farming eventually find themselves in the urban centres and the Press conference delegates rightly think that eventually this tendency on the part of immigrants to locate in the cities will be a serious matter. Advertising of the right kind in the British Isles might result in counteracting this cityward drift and in inducing many Britishers of the right type to interest themselves in Canadian farming. Thousands of men are needed to add to Canada's crop production. The war took thousands away from the land. Many of them lie beneath the wooden crosses in France and Flanders and many others are no longer, because of their wounds, physically fit for farm work. And of those who returned home uninjured, the majority having had during their soldiering a taste of urban life are reluctant to return to the farm. That popular jingle, "How Are You Going to Keep Them Down on the Farm After They've Seen Paree," was founded on an accurate perception of the situation. Special efforts should be made to secure as many Britishers as possible to settle on Canadian farm lands. They are all needed.

TWO RICHMONDS IN THE FIELD.

It has been known for some time that the Dominion by-election in West Peterborough would find a Farmer candidate in the field, but the electors will scarcely be prepared to hear that there is a very strong probability that two farmers instead of one will appeal for the support of the electorate in the coming fight. Yet that is precisely the result of Saturday's U. F. O. nominating convention. The official choice of the convention is Mr. James C. Campbell, a well known farmer of South Monaghan, who carried the nomination on Saturday by a large majority. But Mr. Campbell is not to have the field to himself so far as the farmers are concerned, for one of the defeated aspirants, Mr. John F. Collins, of Ennismore, has refused to accept the verdict of the convention and has announced his intention of running as an independent farmer candidate.

If he persists in this course it is difficult to see how the U.F.O. expect to enrol West Peterborough in their list of captured seats. The riding is more urban than rural and with the split among the farmers themselves that the presence of an independent candidate would cause, there must be even among the most enthusiastic U. F. O. workers a doubt as to the chances for victory in the West Peterborough sweepstakes.

So far as the Labour interests are concerned the farmers are evidently prepared to carry on the battle without the co-operation of the Independent Labour party. At least that organization was not even mentioned at the convention, which may be taken as conclusive proof that the U.F.O. regard the Labour party, after their attempt to place a labour candidate in the field as a Joint Labour-U.F.O. standard bearer as allies of very doubtful value, and no attempt will be made to swing them into line.

WHAT WE ESCAPE.

Every cable from Europe is burdened with its story of disaster and ruin. In Russia there is chaos and anarchy and famine, says the Ottawa Journal. In Poland there is all the tragedy and horror of war. Austria is plagued with pestilence and famine; Germany is paying the penalty of a defeated nation. In Italy there are strikes and social upheavals. The Balkans and the east are seething with turmoil; and even England and France, the two bulwarks of European civilization are menaced with disorders and problems of a magnitude which we here in Canada but dimly comprehend.

Do Canadians realize their blessed isolation from such almost universal conditions of unrest? In this country we are at peace. We have fewer strikes than any other country in the world. We have an abundance of clothing and food; famine, such as experienced in many European countries, is unknown. We are blessed with a rich harvest; employment is plentiful for all; and our people, comparatively speaking, are happy, contented and prosperous.

Truly, indeed, we are the favored of the world, a veritable paradise in the midst of a world reeling under agony and pain .Let us, then, try to be thankful. And above all, let those who try to stir up strife, who want to apply to our conditions of peace the nostrums and remedies that are put forward for the vastly different conditions of Europe, pause and see where they are going. Beyond question there is much in our national life that can be improved. But it is sheer folly to compare our condition with that of the Old World, and, to advocate canges and doctrines here which may be necessary over there.

REVOLT IN ITALY.

The unrest in Italy, which has found expression in rioting and street fighting in several cities, has not attracted the interest outside Europe which its gravity merits. The killing of a few persons in centres engaged in the metal industry has been overshadowed by the more spectacular decimation of a Bolshevist brigade or the advance and retreat of contending armies.

Nevertheless, international history is not deflected from its course by the number of corpses that block its path. A single martyr to a cause has, on many occasions, altered the political path of a people. The crossing of a group of emigrants to New England, three years ago, was destined to make an entirely new orientation of the history of the world, while the personal courage of John Sobieski, outside the gates of Vienna, stemmed the Turk advance in Europe and wholly changed the course of human events. The examples could be multiplied indefintely.

So in Italy to-day. The seizure of an industrial plant in Genoa by the employees, as a practical protest against the general lock-out ordered by the National Syndicate of Employers, has lighted a fire which is spreading rapidly and which may have a more potent influence on the course of world history than the bloody conflict between Poles and Russians. France views the situation with the gravest concern, and her statesmen have not hesitated to confess their anxiety.

These seizures of metal plants and industrial establishments are not mere sporadic outbreaks, no isolated examples of the unrest that lies beneath the surface throughout the industrial world. There has always been a considerable body of Socialists in Italy, but until now they have found difficulty in expresing their aspirations in concrete terms. There has been no machinery by which the co-ordinated desires of the workers as a whole could be given effect.

To-day this is changed, for wherever these counter-strikes have occurred the workmen have set up Councils, after the Soviet pattern, and have apoted the cruel and crafty methods that have made the practice of Bolshevism a by-word throughout the civilized world.

Such methods are foreign to the current of Italian thought, as they alien to the character of the Italian people. Italy and Russia are as opposite as the poles in national aspirations, in traditions and in development. The effort to impose the methods of Bolshevism upon the Italians, who are largely a nation of small owners, of cultured peasantry and of contented labor, affords a more interesting experiment and a far more dangerous one than the forcing of new form of autocracy on Czar-ridden Russia. It is a social upheaval, for Bolshevism is a creed of darkness, of misery, of murder and of misgovernment. The doctrine of the ice-bound steppes of Russia cannot be superimposed upon the sunny plains of laughing Tuscanny without a momentous impact that may shake the thrones and governments.

Yet everything is in favor of the success of such a revolt. The shortage of coal gives promise of another winter of suffering to hundreds of thousands of families and the curtailment of industry. The wretched harvest is a spectre that casts a dark shadow of suffering before its path, while there has been no period of booming industry, as there has been in other countries, to blot out the stains of war from tortured memories.

Italy is in a state of lowered national morale and weakened vitality. Her inoculation with the poison of Lenin may have far-reaching effect on the history of the world.—Montreal Star.

THE UNCLE WAS DENSE.

A proud young father telegraphed the news of his happiness to his brother in these words—"A handsome boy has come to my house and claims to be your nephew. We are doing our best to give him a proper welcome."

The brother, however, failed to see the point and wired back—"I have not got a nephew. The young man is an imposter."

CHURCH SERVICES AT MARK STREET

INTERESTING SERMON AT THE MORNING SERVICE

The services at Mark street church were largely atended on Sabbath, and the music by the choir was quite beyond the ordinary. The solo by Mr. C. G. McKillican was well received.

The morning subject was "Samuel, or the Listening Soul," taken from 1 Sam. iii:10, "Speak, for thy servant heareth. "The following is the synopsis of the sermon:

The birth of Samuel is like the birth of a great river. Away among the mountains is the great snow drift, and beneath the snow, the murmuring streamlet. Trickling down the hillside, it gathers weight and volume on its way. Tearing along the canyon, through sunken gorges, it leaps the cascade and goes singing on its way to the sea. Away behind the birth of Samuel stands the spotless snows of parental life. He had a clean father and a mother of prayer. It has been said that "if a young man would have a successful life, he should choose for himself a good father and mother." There is much truth in this.

We said that the mother of Samuel was a woman of prayer, but what was the burden of that prayer? Now, she did not pray for wealth, or position in society, or a poodle dog on the end of a string. She pleaded with God that her lonely life might be cheered by the merry laugh of a little child, and the thrill of a baby's kiss. And that this child might be her very own. God answered that prayer and gave her Samuel. She didn't pray, "Oh God I don't want to entertain a little babe in my home."

Then, you notice that she took Samuel to the House of God, put him under the care of Eli the priest, and so closely was he linked up with the temple and its service that he did not even go home for a vacation. When he fell asleep it was in the temple of his God, and not in a picture show. It is no wonder there is a general nervous break-down among our children. Just about the time that little boy of yours should be at your knee lisping, "Now I lay me down to sleep," you are trailing him over town to the show. Put him to bed, my dear sister, if you would have him grow up to be a Samuel.

Again, while the boy is asleep in the house of prayer, the eternal God steps to his pillow and calls him by his name. Amazing condesension. Oh, the Divine interest in a little child, or a boy of only twelve years. And God calls him four times. And God singles him out and calls him by his name. Yes, and God calls you by your name, just as surely as he called Abraham, David, Daniel, or Saul of Tarsus. I have an undying res pect for Hannah, the mother of Samuel. She belonged to the "One Big Union" of mothers, sisters, daughters and wives. The members of this Union never go on strike. They receive no salary, board themselves, and everybody else in the house. They never ask for an eight-hour day, for they are always on the job. The cry of a little child will break their deepest slumber. Thank God for such women as Samuel's mother, and thank God for the Divine Spirit that hovered over the "Listening Soul."

MADE TRIP UP THE TRENT CANAL

LAUNCH TRAVELS ALL THE WAY FROM BUFFALO

Dr W. H. Snider and son George, made the trip in their lauich, E E.E|E| from Buffalo through the Welland Canal, and Lake Ontario to Trenton and up through th Trent Canal to the Georgian Bay, spending one month at Gloucester Pool, and returning home the same way, expecting to be away from home seven weeks on their trip. The spoke very highly of the scenery along the Trent Canal but particularly so of Stoney Lake with its myriad of islands. They made a call at Viamede on Friday.

EVOLUTION OF WING TO PADDLE SHOWN

STRUCTURAL CHANGES IN FORE-LIMB OF BIRDS ARE ILLUSTRATED

NEW YORK, Sept. 11. — "From Wing to Paddle" is the title of one of the interesting exhibits on the third floor of the American Museum of Natural History, illustrating the probable structural changes in the evolution of the fore-limb from the wing to the paddle. It is assumed that the ancestry of, for instance, the penguin, had to pass through some similar series of fore-limb modifications before the flipper-like wing of the penguin was developed. Through simply-explained specimens of the white bones mounted in position against a black velvet background, the exhibit demonstrates clearly the modifications in shape, area and structure of the various types of fore-limbs, conforming with their special functions.

While the transformation is of course brought about through various adaptations of muscles and outer coverings, as well as through structural changes, the exhibit is confined to a demonstration of skeletal modifications. The other contributary factors, however, are indicated in the labels.

Transition Shown.

To be adapted for flying, a limb must be light and at the same time strong enough to support a large surface of membrane or feathers spread for flight. For this reason, the wing-bones of birds of flight are hollow, slender and long. For swimming, a limb must be strong and furnish support for a comparatively narrow paddle, so the bones are solid, stout and short.

In the exhibit the gradual transition from one extreme to the other is carefully followed out. The degeneration of the wing is traced, beginning with the classes of birds that fly high, soar and remain on the wing for extended periods (as the vulture and hawk); passing on to the birds that fly heavily and do not soar (as the turkey and hen), and, finally, to the birds that do not fly at all, but use their wings as an aid in running rapidly (as the ostrich), or as paddles in swimming (as the penguin).

The fore-limbs are broadly divided into generalized and specialized types. It is axiomatic in zoology that the simpler and more generalized the organism, the lower the form of life; while the more complex and specialized the organism, the higher the form of life. In the Wing-to-Paddle series, the fore-limb of the manatee is the most specialized, that of the beaver most generalized.

Turtle Another Example.

The snapping-turtle offers another example of generalized fore-limb, for it has no special modifications to adapt it for any special purpose, such as flight. The fingers or digits are much alike, the bones of the wrist or ankle are numerous and similar to one another, as in some of the earlier reptiles, and there is but little motion possible between the bones of the fore-arm. The vulture, on the other hand, has a highly specialized fore-limb adapted for rapid and powerful flight, and flight only.

The wing has a good sailing surface, being large in comparison with the weight of the body, and long in proportion to its own width. Of its three digits or fingers, two are small, and the three probably correspond to the third, fourth and fifth fingers of the human hand. Ascending further in the scale of life, the fore-limb of the monkey is still more highly specialized, being primarily adapted for grasping and climbing.

The fingers are long and somewhat curved, the first finger or thumb being in a slightly different plane from the others, so that it may be opposed to them for seizing firm hold of objects. The bones of the fore-arm move freely, affording the monkey facility in climbing.

The pterodactyl, an extinct flying reptile, offers an example of fore-limb which, while it exhibited certain pronounced modification, was still sufficiently generalized to permit of the performance of several functions. Thus, while it actually served as a wing by means of a membrane similar to that of the bat, and supported by an enormously lengthened fifth digit or little finger, there were also present three other and much smaller fingers which were of use in crawling and clinging. Similarly, the fruit-bat of our own day has a fore-limb highly specialized for flight, but has also, in the thumb, which is left free and serves as a sort of hook, an adaptation for crawling about and holding food.

Beaver Doubly Equipped.

The beaver is interesting because it presents two kinds of limbs—its fore-limbs being generalized and used in general locomotion and grasping, while its hind limbs are specialized for swimming. The toes are longer and stronger in the hind limb than in the fore-limb, and are united by folds of skin which give a palmate surface, forming a paddle when the toes are spread in swimming.

This arrangement helps to make the beaver a strong and fast swimmer, but it also makes him very clumsy in walking. The limbs of the sea-otter, likewise, are specialized for aquatic life. Here, again, the toes are long. They are of almost equal length, and webbed. While the sea-otter is an expert swimmer, it cannot walk, but when on land effects locomotion by a series of short springs, the hind feet being doubled back on the knuckles.

In the Great Auk—now extinct—the fore-limbs, while resembling wings, were quite incapable of effecting flight. But they made very efficient paddles for swimming. The present-day auk also uses its wings as paddles for swimming, as well as for flying, the flight being rapid, though heavy. Still further specialized for swimming is the fore-limb of the penguin.

Although called a wing, it is, like the Great Auk's, useless for flight, and is modified to form a paddle, the bones being solid and flattened. The feathers are small and scale-like. The muscles which raise the wing are much stronger than those which lower it—an adaptation just opposite to the case of the vulture, each modification being the result of a peculiar need.

In the coot, the toes, while not webbed, are all broadly lobed, so that, when brought together in the water, they make a swimming foot. In the swan, the partially webbed foot has been developed, the three longer front digits being joined by a membrane. The pelican has a totipalmate, or completely webbed foot, all four its toes being connected by membrane.

Fishes in Background.

And now comes the sea-turtle, with its paddle-like fore-limb, highly specialized for swimming, in which the bones are elongated and flattened (giving additional width), and completely enveloped by a sheet of skin to form a flipper, as is also the case with the fore-limb of the manatee.

It might on first thought appear strange that in this galaxy of swimmers the fishes—naturally the swimmers most nearly approaching perfection—are not given prominent place. But while the flying fish and halibut are represented, it is merely to emphasize the point that the fins of fishes cannot be considered as limbs.

The parts do not correspond to the bones in the fore-limbs of other backboned animals, this being one of the important differences between fishes and other vertebrates. The fins of fishes are believed not to have been derived from or to have passed through any stage comparable to those passed through by limbs of other vertebrates, but to have been developed from folds of membrane.

DROWNED IN A BUTTER COOLER

A sad accident is reported from Uxbridge Township, the little daughter of Mr. and Mrs. Garnet Lee, 3rd concession, not over a year and a half old, being drowned by falling into a butter cooler on Friday, August 13th.

It costs no more to get a really good Working or Outing Shirt—one that fits right, feels good, and wears splendidly. All you have to do is ask for, and see that you get, a "Deacon" Shirt. Sold at all good stores.

DEACON SHIRT COMPANY
BELLEVILLE - CANADA

USE DRAGON BOAT TO BRING GOOD JOSS TO CITY OF SMELLS

SHANGHAI, Sept. 11.—Seventeen masked men in a low rakish canoe, fashioned after the lines of a racing sculi, paddled past our good river steamboat Loong Mow as we hung stolidly to our brace of anchors and to our shore line in the swift current of the Yangtse under the hills of Chung-King, City of Smells.

In the bow of the canoe and facing the stern raved a Chinese, and with each rave he swung a white flag. Amidships there stood a man holding aloft a brazen breakfast gong, upon which he beat rhythmically. Behind him squatted a third man before a drum, and with each stroke of the gong and each swing of the flag at the bow he whacked out a home run on the drumhead. In perfect tune with these three gentlemen the crew of the canoe dipped their paddles into the liquid ochre and emitted a yell in chorus.

Bug on Lily Pond

The canoe pushed up river, threading its way cleverly between sampans junks and trading steamers, and turning about near the United States gunboat Palos, came back. Going nowhere, coming to the same place, blowing whither it listed, skittering about like a waterbug in a lily pond. Such energy amid such a torrid heat! Such enthusiasm shining on the dripping faces of the oarsmen! The cheer leader looked like a greased statue magically touched off into animation.

But what was it all about?

So we asked a missionary.

"Have the Mings arisen from their tombs?" we inquired. "Or have the No 1 Chinaboys discovered a new form of squeeze?"

"It is only a dragon boat," said the missionary wearedly. "It is paddling about to bring good joss to the city and its people."

A Ravaged City.

Up the hillside was a city whose population is variously estimated to be from 400,000 to 700,000. At least three of the Four Horsemen of the Apocalypse were at that moment riding roughshod over Chung-King's putrid pavements. Men, women and children were dying of cholera at the rate of 100 daily. Bandits were raiding the river shores and pirating river craft for hundreds of miles east and west and paralyzing a commerce that might have prospered mightly on this lone trade route into a land of riches. Ten thousand troops, fighting under the banners of a rival province, were feeding upon the dwindling provisions of the city and demanding a million dollars to get out without looting the city or burning it.

Setting out to visit the stricken city I engaged a sampan for 300 cash, meaning the equivalent of 300 of the coins which are minted around square holes so that a man's roll may be carried on a string.

Plague Worries People.

But I found only a few shops doing business as usual. The plague was worrying the people; the demands of the soldiery had awed the merchants; the bandits had cut off imports and exports.

For some reason the world looks to the shaded avenues of the legation quarter of Peking for its impressions of what China is doing. I travelled through great provinces where Peking is a name but seldom mentioned, where 200,000,000 of natives dwell in the valley cut by the monster Yangtse and care not whether they be of the north or of the south.

And it is safe to say the people of Peking, foreign, native, private, official or diplomatic, know little about China's internal tragedy. Almost everybody in the so-called capital seems to be exclusively regardful of the big chance at the present moment the big chance for his home commerce and home prestige, or the big chance for his individual pocket.

Chinese for Themselves.

As for the future of the millions of Chinese I saw up the Yangtse, the Chinese apparently will have to fight it out for themselves. There are foreign officers and officials judiciously placed to give some small measure of safety to foreigners imperiled by some sporadic anger of native troops or bandits. But they are not placed there to aid the Chinese.

It would not be accurate to leave the impression that the Yangtse valley folks are relying entirely on their dragon-boats to win salvation. On the pretty hills up and down the river there are pagodas. These also will certainly bring good joss.

Better than dragon-boats and pagodas, however, as a deterrent influence upon pestilence, brigandage and warfare, was the quaintly beautiful Buddhist temple I saw on a hilly slope at the river's side west of Ichang. At the tips of the temple's upcurved cornice's bells were hung. In the night when the breeze sings blithely across the rapids of the great river the bells will move and tinkle musically and all evil spirits will flee in despair.

Office of President of United Hotels Co. of America,
Niagara Falls, N.Y.
August 31st, 1920.

R. M. Hefferman & Co., Limited,
Jackson Building,
Ottawa, Ont.

Gentlemen,

In order that you may be apprised of the splendid progress which the King Edward is making, even with the limited facilities we now have, I am enclosing fair balance sheet, together with earning sheet for the year 1920, including July. You will observe there is not a month but what we have had a substantial profit, and in arriving at this profit, not only has everything been deducted in the way of operating expenses, interest, taxes, insurance, and all fixed charges, but a liberal portion of the earnings have been used for improvements, depletions, and depreciations.

You will also observe that in addition to our having paid dividends of 10 per cent. on one million dollars of Common Stock yearly since we took over the hotel in 1918, we have spent a large sum of money out of the profits for improvements, have set up a reserve for depreciation amounting to $152,417.65, and have an earned surplus of $117,011.07.

To assure you that business is continually increasing in volume, our room earnings for July, 1920, were $52,163.10, as against $30,012.89 for July, 1919; the food sales for July, 1920, were $70,008.60, as against $56,186.75 for July, 1919; and other earnings were proportionately increased.

In respect to the progress of the new building, the contractors have the excavation practically completed, the walls and foundations supporting the steel nearly finished, and it is expected the erection of the steel will begin on September 1st, and be completed by the end of November.

Yours respectfully,
(Signed) F. A. DUDLEY.

DECIDE TO-NIGHT WHEN PLAY-OFF TAKES PLACE

TORONTO, Sept. 13. — Owing to the rain on Saturday the final game in the Senior City Series between Osler and Hillcrest, was postponed. The executive of the T.A.B. A. are meeting to-night to decide when the game will be played. If Ontario wants to be represented in the Ontario championship the game will have to be played some time before Saturday for the local winners are scheduled to meet Peterboro here on Saturday in the first game and the return in the Lift Lock City on the following Saturday.

H. H. Roxmorough, chairman of the Toronto committee was in touch with Peterboro, trying to have them wait another week or play the Toronto winners in Peterboro on a Wednesday and back in Toronto on a Saturday. This arrangement would not affect the schedule already made, but Peterboro would not give their consent as they want the games played the way the draw stands. Peterboro has now been waiting three weeks for the Toronto winners.

In conversation with two of the Toronto executive they are strong for the Osler-Hillcrest game to be played on Saturday. They state that it would not be doing justice to the public to play the game through the week. Amateur ball has had the greatest year in its history and to throw the supporters of the game down at the last minute would be a black eye to the sport in the city. The fans have been longing to see the Osler and Hillcrest meet, not so much the teams, but to see Ed. Scott and Joe Spring working against each other. These two pitchers are the aces in amateur ball and if the game is played next Saturday at Scarboro Beach the atter[illegible] at the St. Mary-Hillcrest game should be smashed.

ANNUAL PICNIC OF THE 93RD BATTALION WAS BIG SUCCESS

DANCING ON THE GREEN WITH THE 93RD BAND IN ATTENDANCE —WINNERS IN SPORT EVENTS.

Great success attended the second annual re-union of the 93rd Battalion, which was held at Wallace's Point on Saturday afternoon. The rain could not dampen the spirits of the boys and their friends. There was dancing on the green with the old 93rd band in attendance, community singing, and a long and closely contested programme of sports. About 250 attended.

Following are the results of the sports:

Men's race, 1st prize hat, 2nd prize safety razor—J. Shaw, V. Stewart.

Married women's race—1st prize 5 lbs.tea, 2nd prize 3 lbs. coffee—Mrs. Whatley, Mrs. Hamadere.

Boys (under 10 years)—1st prize $1.00, second prize 50c.—R. Dyer, W. Miller.

Girls (under 10 years)— 1st prize $1.00, 2nd prize 50c.—L. O'Grady, M. Ebbs.

Bandsmen's race—1st prize umbrella, 2nd prize cigarettes—A. H. Clarke, W. Dyer.

Tug of war—(M. & S.)—1st prize box of cigars—Won by married men.

Single women—1st prize pendant, 2nd prize chocolates—Miss S. Dyer, Miss V. Paterson.

Boys and girls (3 legged)—1st prize $1.00, 2nd prize 50c.—A. Mealong and R. McGaw, Leslie Abraham and E. Breadman.

Largest family present—1st prize bread tickets—Mrs. Mongraw.

9r3d men's race—1st prize marmalade dish, 2nd prize salt and pepper shakers, 3rd prize cigarette case—V. Stewart, M. Shaw, F. Dunsford.

93rd wives, race—1st prize milk tickets, 2nd prize tomato server, 3rd prize 3 lbs. tea—Mrs. Scholay, MrsM. Marshall, Mrs. Knapp.

Children (10 to 16)—1st prize $1.00, 2nd prize 60c., 3rd prize 40c.—L. Dyer, K. Monks, F. Cripps.

Girls' 10 to 16—1st prize flash light, 2nd prize a plant— Miss F. Light, Miss M. Miller.

Boys under 10—1st prize $1.00, 2nd prize 50c.—W. R. McGraw, F. McGraw.

THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on *your* body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

FOR THE GUMS

LINEMAN FELL FROM POLE.

TORONTO, Sept. 13.—Falling a distance of 40 feet from a telephone pole at Dovercourt Road and Argyle Street, on Saturday, Samuel Roberts, aged 24, a Bell telephone lineman, sustained a compound fracture of both elbows and internal injuries. He is now in the Western Hospital.

FOREIGN EXCHANGE WAS MUCH WEAKER TO-DAY.

Arrival of Four Millions in Gold Without Stabilizing Effect.

(Canadian Press).

NEW YORK, Sept. 13.—The arrival here to-day of four millions more in French gold, making about twenty millions to France's half-share of a five hundred million Anglo-French loan, was without stabilizing effect upon the Foreign Exchange Market, which showed further weakness this morning. Demand bills on London fell to $3.48¼, while Canadian dollars were quoted at a discount of ten to ten and one sixteenth per cent.

THREE LIQUOR CASES IN COUNTY COURT.

Two Fines Imposed—Cases Heard in Lakefield.

When three liquor cases were brought before the County Police Court at Lakefield on Saturday, it looked as though the O.T.A. had not been broken but smashed. One of the cases, however, lacked sufficient evidence for conviction, and the other two amounted only to intoxication.

George Faux and Edward Dwyer paid $25 and costs for their inebriation, and the costs were swollen by the attendance of the Crown Attorney,

PERCHERON TEAM FOR EXPERIMENTAL FARM

WM. ROBERTS & SON SOLD TO MINISTER OF NEWFOUNDLAND GOVERNMENT

Wm. Roberts and Sons sold their prize team of Percherons at the Toronto Exhibition to the Hon. Mr. Campbell, Minister of Agriculture and Mines in the Newfoundland government. The price paid was $1,000. This team will be used on the Newfoundland experimental farm. Mr. Campbell stated that this team was the finest he had ever seen. He bought three car loads of prize stock at the Exhibition, including horses, sheep and swine.

THE NORMAL SCHOOL OPENS TO-MORROW

INCREASED ATTENDANCE OVER LAST YEAR—NO STAFF CHANGES

Normal School opens to-morrow morning, and many would-be teachers arrived in the city to-day, and were busy seeking boarding and rooming houses, and giving the city that will be their home for the next nine months the once over.

The great influx will take place to-night and to-morrow morning, and when the gong rings to-morrow morning at the Normal School there will be a larger attendance than any year yet since the school was first opened, it is expected.

Principal Duncan Walker could not give an estimate of the number of pupils this afternoon, for he stated that he himself had no idea of the number attending, as the pupils make application for admission through the Provinical Minister of Education.

Since there are only four schools that now give first class certificates—Toronto, Hamilton, London, and Ottawa—Mr. Walker believes that this will make crowding at these centres unavoidable, and a certain number of pupils seeking a second-class certificate will come to Peterborough, and the other schools.

For this reason he anticipates an increased attendance over last year or other years. There have been no changes on the staff at the Normal School this term.

LIGHTNING STRUCK POWER PLANT AGAIN

Lihgtning burned out some of the coils in a generator at the Auburn power plant during Sunday afternoon's storm, and the fact that this was the second damage caused by storms within a week disproved that comforting theory that lightning never strikes twice in the same place. Coils kept in stock for such emergencies enable repairs to be quickly made Otherwise the delay would run into several weeks. The manufacture of these coils at the C.G.E. works takes considerable time for their winding, dipping and baking, these processes being repeated several times as the insulation is built up.

The Utilities Commission came through the recent electric disturbances without serious trouble. "We always fear September storms", said Mr. H. O. Fisk, manager of the Utilities Commission. "They have a real kick in them and are usually vicious and destructive. I don't fear the Spring storms so much. They are generally nothing more than little displays".

The Utilities Commission report a a transformer or two put out of service, and the department considered themselves lucky to have escaped with these slight casualties to the equipment.

PLUMBERS INSPECTED UNION STATION WORK

The plumbing inspectors of the Province who attended the convention in Toronto on Thursday and Friday of last week, spent the entire day inspecting the modern work in the new Union Station and in other buildings that are under construction.

Mr. A. Metheral, Peterborough's plumbing inspector, attended the convention, and incidentally met Mr. E. Newsome, whose report on plumbing work in this city was presented to the City Council and effectually buried.

There was some proposal to discuss Mr. Newsome's criticisms which prompted the Council to engage an independent inspector from Toronto's Plumbing Department ,and that action closed the chapter. Both reports are probably stored away at the City Hall as forgotten phases of civic "efficiency."

Husband—Didn't you throw your hat in the ring for the presidency of your club?

Wife, (sarcastically) — I couldn't dear, it was out of style.

NOTED ENGINEER OUT WITH FACTS

SAYS THE RESULTS HE GOT FROM TANLAC WERE NOTHING LESS THAN WONDERFUL

Captain Andy Ospring, engineer on the Pennsylvania Railroad, pulling the fast train known as Keystone Express, between Terre Haute and St. Louis, declares that the results he has received from Tanlac are nothing less than wonderful.

Captain Ospring has been engineer on the Pennsylvania railroad for the past forty years, and is one of the best known and most popular men in the service of this road. His home address is 629 North Tenth Street, East St. Louis Relating his experience with Tanlac to friends in Terre Haute, a few days ago, Captain Ospring said:

"Tanlac will always get a good recommendation from me, for the results I have received from it are nothing less than wonderful. Before taking this medicine I had suffered from weak stomach, loss of appetite, sluggish liver and a run-down condition for several years. I could never enjoy anything to eat, suffered with severe pains in my back and chest, and was continually losing weight. The pains in my back were so severe that I could hardly bend over, couldn't even sit comfortably in my cab, and invariably finished my run, feeling all tired out. I had gotten to where I dreaded to make my runs and had lost several trips on account of feeling so bad.

"I had taken lots of different kinds of medicines, but all failed until I found Tanlac. A friend of mine in Terre Haunte put me on to Tanlac and that was the turning point with me. Three bottles of this medicine have fixed me up in fine shape and my weight has been increased eleven pounds. I have a fine appetite, don't have a pain of any kind, and feel all of fifteen years younger. I make my trips regularly, never losing any time, and come in from my runs without feeling all tired out like I used to. A medicine that will do such things is certainly worth while, and I will always say a good word for Tanlac."

Tanlac is sold in Peterborough by W. B. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co., Ltd., in Fowler's Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son. (Advt.)

The New Twenty-year Capital Return Policy

(Issued by The Canada Life)

A Young Man and His Future

He takes his first step in business affairs, is examined by the doctor, and creates an estate of $5,000.

He improves the shining hour and impresses upon an important person that he is in possession of an "estate."

His tendency to save and invest is noted by his employers.

He finds his savings of great assistance in buying a home.—

And as time goes on he is enabled to enjoy many of the good things of life.

Absolutely guarantees the return at the end of twenty years of all annual deposits, with accumulated profits, after giving you insurance protection for twenty years.

Easily Understood:

1st. Deposits are made yearly. This is what you are *saving*, and at the end of 20 years the Canada Life *guarantees* the return of every dollar paid in.

2nd. Your life is insured from the day you make the first deposit,—for $5,000, or whatever amount you decide.

3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.

4th. These dividends may be used to reduce the amount of your yearly deposits, or be allowed to accumulate at interest for 20 years.

5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.

6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends—

---or---

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the $5,000 Policy fully paid for and continuing to earn Dividends as long as you live—

---or---

this Special Cash Guarantee may be applied to increase the amount of your policy to more than $7500.

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates *immediately* an estate of $5,000, or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

OPEN MEETING OF THE WELL BABIES' CLINIC.

There will be an open meeting of the Well Babies' Clinic to-morrow, Tuesday, 14th September, between three and five o'clock in the G.W.V.A. Hall. Mrs. Hatch, a recent graduate of a New York hospital, will demonstrate how to wash and dress the baby, and how to prepare its food. Mrs. A. Stevenson will give a short address. Dr. J. A. Morgan will give a talk on "Emergencies." Tea will be served by the King's Daughters, at which Mrs. (Dr.) Buchanan and Mrs. (Dr.) McPherson will act as hostesses. Every woman is invited to be present. No admission.

SIR EDWARD CARSON'S HOME BURNED TO-DAY.

Six Irish Cities Now Placed Under Curfew Laws.

(Canadian Press).

BELFAST, Sept. 13.—Castle Lamberthouse, in County Galway, where Sir Edward Carson was born, was burned to-day, presumably by Sinn Feiners.

Under Curfew Law.

Galway has been placed under curfew laws, making six Irish cities under this law. The others are Belfast, Dublin, Londenderry, Cork and Limerick, as well as a number of smaller town and villages.

CAR FOR COBOURG'S CHIEF

The Town Council of Cobourg has purchased a car for its chief to carry on his official business.

COMPARATIVE RESULTS OF FREIGHT RATES INCREASE

OTTAWA, Sept. 13.—A computation which has been made illustrates the relative effect of the increase in freight and passenger rates on the railways of the United States and Canada. In the States the rates increase is estimated to produce $600,000,000 or $6 per head of population. In Canada the prospective revenue is placed at $120,000,000 at least, or $13 per head.

BOY PRISONERS AT COBOURG SEEK LIBERTY

COBOURG, Sept. 13. — The two young boys who are in jail here doing a sentence for alleged theft, when working in a jail yard took some bricks out of the wall and then put a box against it to cover up their work, until they got another chance. Governor McLaughlin noticed this and their vision of liberty was short lived.

Everyone Is Buying Something New These Days, and Hundreds Are Selecting from the Comprehensive Stocks at the Cressman Store

STAMPED GOODS

Novelty Centre Pieces, 85c

They are sand coloured and of poplin, and the shape is oblong, and the Shamrock pattern is suitable for satin stitch and French knots. They are edged all around with a fine silk fringe.

Oval and Round Shapes at $1.75

These are of silk moire in disc shade, and are stamped with French knot and outline pattern. They are edged with a fringe to match.

An Abundance of Knitting Needles

In Ivory. Sizes 6 and 7 sell at 50c, and size 13 at $1.00. Large wooden ones that are for doing the frilled work that many like on Sweaters are priced at 40c.

Little Knick Knacks Made of Linen Crash

They are for a Comb, Tooth Brush, Face Cloth, Needles, and Ties. They are the Natural Linen colour, and the prices are from 35c to 65c.

$49 Will Purchase One of Our New Velour Coats

The collar is a large shawl arrangement that fastens with two large bone buttons. The general lines of the garment are straight, and the back is trimmed with a cluster of horizontal pin tucks, finished with self-covered buttons. The pockets are cut-in, and have pointed flaps, and the belt is narrow. Obtainable in African Brown, Nut Brown, or Burgundy.

Some Semi-Tailored Suits at $52

The material is gabardine and the colours are black and navy. The collar is a wide sailor pattern and is bound with braid; likewise the sleeves. The back has an inverted pleat that runs to the narrow belt beneath, which fall several box pleats.

Some Modish Georgette Blouses at $11.75

You can have Coral, Pink, White, or Blue. The neck is round, and is outlined with workings of White Silk Embroidery. A bow of the Georgette with long, loose ends, suspends two beaded ornaments, and is fastened at the neck. The sleeves are short and Kimona style.

You Can Have White or Pink in This Becoming Blouse of Georgette —The Price Is $15.95

It has the fashionable round neck, and the fastening, which is at the side, is outlined with tiny Black Silk buttons. The neck is hemstitched, and a ribbon garniture of Black and Adriatic Blue hangs loosely from the shoulder. The sleeves are short.

Our Ladies' Shoe Department Is Noted for the Attention It Gives to Fitting

High price does not ensure a good fit in footwear.

It may buy good quality and good looks, but fall short on comfort.

After all, it is comfort that everyone demands above all else.

It is just as harmful to wear a boot a size too large as to wear one a size too small, and it is just as much a reflection on the qualifications of the person who did the fitting.

We know our footwear is the best that can be had for the money, and we see to it that it is not spoiled by poor fitting.

"Kremla" Flannel, Ideal for Men's Shirts and Pyjamas, $1.90 Yard

This excellent material contains a greater percentage of wool than cotton, and is made especially for men's wear and can also be used for ladies' tailored blouses.

The width is 30 inches and the ground Cream-White, with light coloured stripes; also Grey grounds with Black and White and Pink and Blue stripes.

Warm Rugs for Motoring on Cool Days

These rugs have arrived just when there is about to be a demand for them. Just in time to serve a real useful purpose and contribute to the comfort of motorists who run their cars in bleak weather.

There is a plain Black one of Imitation Seal Skin that is priced at $17.75, and several all-over patterns in Rose, Green and Brown combinations — these are priced at $21.00.

A very handsome one in the pattern of a Leopard Skin is priced at $29.90.

Good, heavy weight Wool Rugs, with fringed ends and plaid patterns are priced from $14.00 to $19.00.

To-morrow's Mid-Day Lunch, 50c

11.30 a.m. to 2 p.m.

(Gentlemen can take the New Elevator from the Rear of the Men's Furnishing Department.)

SOUPS

FOSTER PUTS U.F.O. WITH BOLSHEVIKI

CALLS THE PRESENT MOVEMENT A FORM OF REVOLUTION

AYLMER, Sept. 13.— At the Conservative Nomination Convention in East Elgin here, Sir George Foster made a slashing attack on the U.F.O., ranking that organization with the Bolsheviki and the British miners who would oust responsible Government. When it came to any class, be they miners or farmers, utilizing the tools of production to make laws, fashion policies, dictate what the people shall do, he said, it is revolution. It is overturning responsible Government. He proceeded: "What does responsible Government mean? It is the last word in the experience of the human race, worked out through six thousand years of trial and warfare, and sometimes bloodshed and strenuous work. Now in the 20th century it stands as the best expression of the experience of the ages. Be careful before you arise and from the top of the soap box or anywhere else propound that it shall be swept aside, smashed to pieces, that you shall put some class interest in its place—Soviet, Bolshevik, miners' or farmers' party I care not what it is one—one it almost as bad as the other when it puts itself upon the class basis. Be careful. Hold on to what is good, and most of the old things are good."

NEW CLASSES AT THE CONSERVATORY

A TEACHER OF HAWAIIAN MUSIC AND NEW STUDIO AT 540 CHAMBERLAIN STREET

Mr. Harry Wagner, teacher of Hawaiian Music, is opening a Class at the Conservatory of Music, where particulars can be had on request. Mr. Wagner has already studios in Toronto and Belleville.

For the convenience of pupils in the South-end of the city, the Conservatory of Music has opened a Studio at 540 Chamberlain Street. This will, no doubt, be appreciated by pupils living in the South-end as a great convenience to them.

KEEP MAN GUESSING SAYS OLD MAMMY

"Old Mammy" is one of the quaint characters in "The Inferior Sex", a picture starring Mildred Harris Chaplin and released by First National, which will be shown at the Allen Theatre to-day.

The old negress had been oft married, and as she expressed it, "Four oh dem having promised to lub and obey me."

As the cook in the home of the young married couple, she gives some wholesome advice to the wife, who spends all her time trying to please an indifferent husband.

"Keep him guessin," said Ald Mammy. "De onliest way to get along with men is to keep 'em happy. An de onliest way to make 'em happy is to make 'em unhapoy. Kep 'em guess-to make 'em unhappy. Keep 'em guessin' and dey will be onhappy and den dey'll lub yo and be happy.'"

BOARD WILL FIX COSTS FOR COUNTY

Board of Arbitration Opens Session in Court House To-day.

The Board of Arbitration to fix the division of the assessment for the cost of administering justice between the city and county is now in session. The Board meets every five years. It entered its second session to-day.

STORM DAMAGE IN FRUIT SECTIONS

TREES UPROOTED AND FRUIT CROPS BADLY DAMAGED

ST. CATHARINES, September 13.—Reports this morning from the Lake shore section of Louth an dGrantham Townships devastated by the terrific wind and hail storm on Saturday afternoon indicate that the damage will amount to at least four hundred thousand dollars.

In an area five miles in length and half a mile in breadth, west of Port Weller, not one farm escaped, and in numerous cases the loss is complete.

One farmer estimated that he would not be able to realize more than one thousand from his crop which on Saturday was worth eleven thousand. Nearly all the shade trees on the main street of Port Dalhousie were uprooted while three of the summer cottages were wrecked. No loss of life is reported.

MR. J. S. ARNOTT HAVING SUCCESSFUL TRIP

Party is Travelling From Peterborough to the British Columbia Fruit Valley.

The Examiner has received a post card from Mr. J. S. Arnott, dated at Mandan, North Dakota, in which the writer states they have had a very succesful trip from Peterborough. Mr. Arnott left Peterborough some time ago to motor to his new home in British Columbia. The trip is being made through the United States for the greater part of the journey, and at the time of writing Mr. Arnott and his party had not experienced any motor or tire troubles on his long overland trip.

Ottawa reports the location of six new factories, involving an expenditure of $10,000,000.

The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous a method to force the weight down. However, in Marmola Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or violent exercise, and have the added advantage of cheapness. One little tablet after each meal and at bedtime—as pleasant to eat as candy—will reduce your weight two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by druggists at the reasonable price of one dollar, or if preferable they may be obtained by sending the amount to the Marmola Co., 94 Garfield Building, Detroit, Mich. They will reach you by mail, prepaid, in plain, sealed cover.

Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

A GOOD PICTURE AT GRAND TO-NIGHT

"OUT OF THE FOG" IS A WONDERFUL PRODUCTION

In "Out of the Storm", a play which requires the expresion of practically every human emotion Madame Nazimova, known as the woman of a thousand moods, does some of the finest acting of her wonderful career, not excluding her great characterizations in the leading roles of "The Doll's House", "Hedda Gabler" and "Little Eyolf". Like other noted artists she has grown to prefer the screen to the stage and devotes most of her time to the splendid work for which her name has become famous internationally.

Her work in "Revelation" "Toys of Fate" and " Eye for Eye" have set a higher plane for the unspoken drama than had hitherto been reached and "Out of the Fog' 'shows her art is infinite.

With the collaboration of June Mathis, Albert Capellani, the distinguished Frenchman who directed the picture also made the screen adaptation form H. Austin Adams "Captain Shoals" and had added to the story much which could not be brought out in the spoken drama by the scope offered for scenic production. The great actress Nazimova was born in Russian Crimea in a little town on the Black Sea, but was educated in Geneva, where she decided upon the career of a violinist and studied accordingly. She made her first public appearance at twelve years of age but it was not long after that she realized her histrionic talent and gave up music for the drama, in which she has reached the heights.

"Out of the Fog", will be shown at the Grand Monday, Tuesday and Wednesday of this wek and there will be no increase in the prices charged for the regular picture programme.

CARPENTERS SEND ONLY DELEGATES TO CONGRESS

Peterborough has two representatives at the Dominion Trades Congress which opened in Windsor today. Joseph Lazure is the delegate of the local Carpenters' Association, and Ald. Gainey is representing the International Barbers' Union. Among Labour circles the Carpenters were the only Peterborough "local" that sent its own delegate to the Congress.

MAY INSTITUTE A DAMAGE ACTION

That the estate of D. B. Nichol, who died as a result of injuries received in an automobile accident on the Keene Road, near Downer's Corners, is contemplating bringing action for damages against the County of Peterboro, is the opinion of several of the county officials.

The law firm of Gordon & O'Brien, attorneys for the estate, are investigating the matter, but Mr. G. N. Gordon told the Examiner this morning that as yet no decision had been reached as to what action would be taken.

BOWMANVILLE FAIR.

Tuesday and Wednesday, Sept. 21-22.

Next week is Bowmanville's Great Agricultural Fair—considered the finest stock fair in the Midland District. Special attractions include Musical Ride by detachment of Cavalry from Royal Canadian Dragoons; T. A. Crow's world-renowned string of high jumping horses; Baby Show; Trotting Race; Chicken Show. Meet your friends at Bowmanville Fair Wednesday, Sept. 22nd.

ONE HUNDRED WITNESSES

Efforts of U.F.O. to Prove Charges Against Ferguson.

New Life For Old Tires

THE final thousand or two thousand miles of service you get from your tires can often be made the cheapest of all by timely attention.

The tire which blows out or otherwise fails before it should is too common.

Long, hard service and accidents often cause inside breaks, which, if neglected, result in blowouts.

In most cases the timely use of a Goodyear Reliner would have saved the tire for a thousand or more extra miles.

With a Goodyear Reliner for a very small cost, you can add three new layers of strong fabric to the inside of the tire. This reinforces and strengthens it, and prevents fabric breaks from becoming blowouts.

This Reliner is easily applied with a little cement. Half an hour of your time is sufficient.

If you prefer, your repairman will apply it for you for a small service charge.

Any Goodyear Service Station and most tire repairmen can supply you.

SPORTING NEWS, VIEWS AND GOSSIP

PETES BADLY BEATEN IN EXHIBITION GAME PLAYED IN THE RAIN

WERE OFF COLOUR IN ALL DEPARTMENTS SATURDAY AND CLASSICS WON AS THEY PLEASED--SCORE WAS 9-1 AT END OF THE SEVENTH

A WEIRD EXHIBITION

While Manager Solomon was absent in Toronto to attend a game that had to be called off on account of the rain, his Peterboro outfit were getting their worst beating of the season at the Riverside Park, at the hands of the Classics. When the thunderstorm finally broke up the game with Classics at bat in the eighth, the visitors were in front 9 to 1. It was the most unsatisfactory exhibition of the summer. The weather conditions were of course terrible for it rained all through the engagement, but the Classics did not seem in the least handicapped by the heavy going and played snapply ball all the way.

On the other hand the Petes were off color in every department and they are thanking their lucky stars that Saturday's game was not in the O.B.A.A. series. They made errors where they would do the most harm and were perfect ladies at the bat, getting only two hits. Both of these were made off Ramsel in the first five innings while Lou Crowe who pitched the sixth and seventh, did not allow a hit. In fact only four of the homesters reached first base during the afternoon.

Kirn started the game on the rubber for the Petes, but he was bothered with a sore arm and was ineffective while his support was lurid. As a result the Classics scored four runs in the second and came right back with three more in the third. Hap Harrison, who has not pitched for weeks finished the game and only allowed the visitors three hits and two runs.

The only feature from a Peterboro standpoint were catches of difficult foul flies by Walter Jackson, Michie Murray and Max Swanston.

The Petes simply had a day off with everything breaking wrong.

1st Innings.

Classics — Van Winkle lined to Kirn, Johnston fanned and Carl flew out to Lowe. No runs, hits or errors.

Peterboro—Cherrett and Murray fanned. Harrison was safe when the roller went through Carter but was caught off first a moment after, and was out. Ramsay to Carl. 0 runs, 0 hits, 1 error.

2nd Innings.

Classics—Readings hit to right,eluded Lowe and went for three bases. With the infield drawn in Carter cut a single through short scoring Reading. Lynch bunted safely. Comper hit to Murray and Carter scored when Swanston missed Murray's throw, Lynch taking third; Lynch scored on a wild pitch, Comper going to second. Ashton hit to Kirn and Comper was caught between second and third and run down by Murray. Ashton reached second on the play. Ramsay walked. Van Winkle was out on Murray's nice catch of his foul fly. Johnston singled to centre, scoring Ashton. With Carl up Ramsay was out at third on Swanston's fly to Murray.

4 runs, 4 hits, 1 error.

Peterboro — Swanston dropped a single into left field and took second on a pasesd ball. Rose's grounder to short advanced Swanston to third, and he scored on Jackson's sacrifive fly to Ashton, beating Ashton's quick return relayed by Ramsay with a nice slide for the Petes' only run. Lowe singled to left and stole second but Holyman flew out to Carl. 1 run, 2 hits, 0 errors.

3rd Inning.

Classics—Carl was safe when Cherrett's bad throw pulled Harrison off the bag. Reading sacrificed Swanston to Harrison; a nice play by the catcher. Carter singled to left, scoring Carl, when Swanston threw high to second, Carter took third; Lynch hit safely scoring Carter, Comper singled to left, advancing Lynch to third. Lynch scored when Swanston's throw to third hit the runner, Jackson made a niec running catch of Ashton's foul fly and Murray threw out Ramsay. 3 runs, 3 hits, 3 errors.

Peterboro—Kirn struck out, Cherrett fouled out to Ramsay and Murray fanned. No runs, hits or errors.

4th Inning.

Classics — Harrison, now pitching. Van Kinkle fanned. Harrison threw out Johnston and Swanston made a nice catch of Carl's foul. 0 runs, hits or errors.

Peterboro—Harrison flew out to Carter, Swanston grounded to Carter and Comper threw out Rose. 0 runs, hits or errors.

5th Inning.

Classics — Cherrett took Reading's fly; Carter grounded to Rose, and Lynch fanned. 0 runs, hits or errors.

Peterboro—Jackson fouled to Reading. Carter threw out Lowe and Holyman flyed to Carter. 0 runs, hits or errors.

6th Inning.

Classics—Comper fanned. Ashton was safe on Cherrett's error. Ramsay sacrifiecd. Harrison to Rose and Van Winkle was thrown out by Harrison. 0 runs. 0 hits, 1 error.

Peterboro—Lefty Crowe now pitching for Classics. McCarney and Cherrett fanned, Murray walked and Harrison struck out. 0 runs, hits or errors.

7th Innings.

Classics — Johnston was thrown out by Murray on his bunt. McCarney just reached Carl's fly after a long run but could not hold the ball. Reading singled. Carter fanned, McLaughlin batting in place of Lynch, singled to right, scoring Carl and Reading. 2 runs, 3 hits, 0 errors.

Peterboro—Swanston grounded to Crowe. Rose grounded to Carl and Jackson flew out to Johnston.

Classics had one on the bases when the game was called in the 8th.

UNDERSTRENGTH WOOLLENS TEAM GAVE A VERY CREDITABLE DISPLAY

GAME STARTED IN DRIZZLING RAIN—WOOLLENS DEFENCE GOOD —SPECTATOR'S UNCOUTH REMARKS—C.G.E. 1 GOAL AHEAD AT HALF TIME—BARTLEY MADE IT TWO—WILLIAMS' BEAUTIFUL GOAL —THORPE SCORED IN LAST FEW MINUTES—C.G.E. 3, WOOLLENS 1

Just fifteen minutes before the scheduled time for the football game between the Canadian Woollens and C.G.E. at the Exhibition grounds on Saturday afternoon the rain commenced and continued throughout the whole pame. The Woollens were minus their regular full backs and found difficulty in getting a team. The C.G.E. team played as selected.

At 3.40 p.m. Referee Hensby got the game started and the teams lined up as follows:

The Teams.

Canadian Woollens—J. McFadden, goal; J. Barton and J. Chambers, backs; J. Montgomery, R. Hodson and J. Jackson, half-backs; C. Thorpe, J. Baldwin, R. Roberts, H. Rappae and H. Wetton ,forwards.

C.G.E.—C. Griffine, goal; J. Davis and J. Williamson, backs; A. Parkins, H. Turner and A. Bestard, half-backs; A. Manders, J. Williams; C. Hotston, Ted Bartley and Ted Hotston, forwards.

Referee—Mr. Hensby.

Game Started in Drizzling Rain.

There was no advantage in winning the toss and at 3.40 p.m. the game started in a drizzling rain. From a nicely placed pass up the wing to Thorpe, the Woollens were first to press, but Davis returned the ball to mid-field, where Ted Bartley manoeuvred to get a left foot drive that was travelling into the top corner of the goals. McFadden jumped up to fist the ball past for a corner kick that was fruitless. From the gaol kick Rappae carried the ball to the other end that called Griffne out of his goal to clear. It went down again to the C.G.E. left wing for Ted Hotston to give Ted Bartley an excellent opening, but Bartley shot over the bar, accompanied with one of his war cries, 'Hah!"

Chambers' and Barton's Nice Defence.

Time and again the Woollens' defence bewildered the C.G.E. forwards by their clever play in clearing in front of the goal. On one occasion Wag had an open field in front of him, but Chambers jumped in the nick of time to punt up the field to Thorpe, who outplayed Williamson to run into goal, but his parting shot was weak.

The Slippery Ball Gave C.G.E. Goal.

Turner cleared and forced the play on the Woollens' goal. Play was confined to mid-field for a while until Turner slipped one forward to Hotston, who used close tactics on the defence and getting in between the two defence men went into goal for McFadden to get their first, but to his own surprise witnessed the ball slip through his hands for Way to touch it forward to roll through to register the first goal. C.GE. forwards came back again with nice combination through Bartley and Ted Hotston that compelled McFadden to throw himself at it to clear from the foot of the inside left.

A Spectator's Uncouth Remarks.

In spite of the weakened team the Woollens gave a good account of themselves in every department, more especially Chambers at back and Hodson at centre half. At this point of play a spectator on the line, who is well known as a lung developer or a hot air shooter , used very insulting remarks at a Canadian Woollens' player who said, "I am a sport and won't stand for being insulted—remember that—etc., etc. Play ran from end to end with the respective goalkeepers getting an occasional shot to save. A solo run down the wing by Manders outwitted the Woollens' defence, and taking his time shot across the ball in front of goal for not a single forward to put it through. Barton clared to mid-field for Turner to return the ball to Manders who shot hard for goal, but McFadden made a nice clearance. Just before half-time Ted Hotston had a clear run down the wing and running down into the corner shot the ball past. C.G.E. were pressing as half-time arrived, with C. G.E. one goal to advantage.

Half Time.

Referee Hensby ordered the teams to turn around without any interval. C. G.E. broke away like a flash for Bartley to give McFadden a hot one to hold. Manders caught on to miss the mark by inches. Woollens retaliated on the right through Thorpe, but Williamson checked nicely to have a run down the field himself until Hodson robbed him. Thereafter Turner tackled to place the ball across to Manders.

Bartley Made it Two.

Accepting the pass from the centre half, the outside right played nice football on the wing to sling across a hard drive to goal with Bartley and Barton standing together in proximity for C.G.E. forward to run into to touch the ball through. Woollens claimed offsides, but Referee adjudged otherwise, also Mort——said it was not offsides? The C. G. E. now took things easy for the Woollens to do all the pressing and were very unfortunate in front of goal.

A Heavy Downpour.

After this the game was uninteresting, because the rain came down in torrents wth the players enjoying a regular shower bath. On the C.G.E. right-wing Manders played a game of his own and gave some of his old individual touches to go into goal for McFadden to save a stinger and rushing in on the goal keeper the latter threw the ball behind his back into the corner of the field. Play deteriorated with both teams only putting in time. On a raid made by the C.G.E. forwards, Williamson scored a beautiful goal. With five minutes to go Charlie Thorpe scored the only goal for the Woollens. When the players came off the field they looked like as if they had just been pulled out of the river. Final. C.G.E. 3, Canadian Woollens 1; Goal scorers—C.G.E., C. Hotston, Bartley and Williams. Canadian Woollens, Thorpe.

Analysis of the Game.

The following gives an approximate idea of the run of play and decisions given by Referee Hensby:

Canadian Woollens—	1st Hal.	2nd Half.	Total.
Goals	0	1	1
Goal kicks	7	7	14
Fouls	2	3	5
Offsides	1	1	2
Corners	1	3	4
C.G.E.—	**1st Hal.**	**2nd Half.**	**Total.**
Goals	1	2	3
Goal kicks	5	7	12
Fouls	4	3	7
Offsides	1	1	2
Corners	1	1	2

AVERAGING UP.

"Europe is not at all the same," said the tourist.

"Not at all," echoed the other. "For years Europe was on the verge of war. Now she keeps lingering on the verge of peace."—Washington Star.

CITY LEAGUE CHAMPS PRESENTED WITH MEDALS

C. G. E. TEAM ENTERTAINED AT OUTING DOWN THE OTONABEE IN RECOGNITION OF THEIR FEAT IN WINNING THE HONOURS FOR THE BIG PLANT.

A SUCCESSFUL AFFAIR

As as mark of appreciation of their triumph in winning the championship of the City League, the members of the C.G.E. ball club were entertained by the department heads and foremen of the big plant at a most successful picnic held at the C.G.E. Anglers' cottage on the Otonabee. The affair was a most enjoyable success, the outing being thoroughly appreciated by the champions and the other guests present.

A feature of the day was the presentation to the members of the C. G. E. club of the Spalding championship medals, emblematic of the City League championship. Each member of the team received a medal and were also presented with a group picture of the team.

Congratulatory speeches were made by Messrs. Dan McCabe, Alex Kay, R. G. Dobie and others, extending a tribute to the manner in which the champions had performed on the diamond.

Mr. Frank E. Convery, the hustling secretary of the winners, was next in line for a presentation and he was taken completely by surprise when the players handed him a handsome cigarette case as a mark of their appreciation of his services. The presentation was made by Messrs. Roy Cherrett and Walter Jackson.

An appetizing picnic lunch was served at mid-day and afterwards a programme of sports, including a ball game, was run off, providing a lot of amusement.

The whole affair was splendidly planned and carried out and was enjoyed by every one.

Edward Lewers as "Gumpy," coming to the Grand Friday, Sept. 17th.

CANADIAN SHOES FOR CANADIAN PEOPLE

Why You Should Buy Shoes *Now!*

WE Shoe Manufacturers of Canada—and there are 158 of us in all—feel that there are certain features relating to our industry that you should know.

One of the principal things is this—

There is little likelihood that shoe prices will be very much lower than at present, for some months to come, at least.

IN any event, any reduction that the manufacturer may be able to make to the retailer will be slight; on the other hand, there is a possibility that prices on some styles may be higher.

Your shoe retailer bases his prices to you on what he pays the manufacturer. We, in turn, are dependent on the cost of leather and other things, as well as of labor.

We buy our materials months before our shoes are on your feet, and the price of these shoes is naturally regulated by the cost of the materials of which they are made, and of the handiwork expended on them.

Therefore, our advice to you—and we give it in all sincerity—is to BUY NOW any shoes you need for your self or your family. Don't buy extravagantly or recklessly, but do so carefully and judiciously.

Your retailer will give you this same advice too, if you ask him. He knows, as we do, that if the public demand for footwear suddenly started up abnormally, scarcity of shoes and higher prices would probably result.

This is a situation that should be mutually avoided, and will be if you buy what shoes you need, as you need them.

Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices always, of the utmost that modern skill can produce in Comfort, Service and Style.

"GRUMPY"

Mr. Cyril Maude's celebrated London and New York success, "Grumpy," a comedy in four acts by Th Wigney Percival and Horace Hodges, with an all star English cast among whom may be mentioned Mr. Edward Lewers (who has been leading man with Mr. Martin Harvey's company in London, Sir Richard Mansfield's Miss Maude Adams and Miss Ethel Barrymore, will portray the part of "Grumpy," made famous by Cyril Maude.

Another noted member of the company is Mr. Fred Compton, son of Edward Compton, the well known English comedian and manager, and brother of Compton MacKenzie, one of the leading novelists of the day, whose latest book entitled "Poor Relations," has just made a big success, and brother also to Fay Compton, one of the leading stars of the stage. During the late war he served two and one half years in the British army, of which two and one half years was spent in France. Mr. Compton was wounded once and in recognition of his services was awarded the Military Cross. He was a captain in the London Irish Rifles, 47th Division, and is well known in London and New York theatricals.

Gerald Rogers, the well known London actor has been connected with Sir Herbert Tree, Sir George Alexander, Arthur Bourchier, etc., and has played leading parts in New York with Winthrop Ames Shuberts, Comstock and Gust, etc. Mr. Rogers served in the Royal Garrison Artillery during the late war.

Mr. Bailey Hick, original "Kelbe," with Cyril Maude in "Grumpy," when playing in London nad New York, was a commissioned oficer in the Princess Pats Light Infantry during the war and was once wounded.

Miss Violet Hall Caine has been with Sir George Alexander and Drury Lane and Mr. Chas. Froman's London and New York companies.

Miss Peggy Dundas, well known in London as an interpreter of leading ingenue roles, has played ingenues in this country with W. A. Brady. Miss Dundas is well known in Australia, where she has played in most lines of business, but she is especially a favorite when playing in the role of an ingenue.

The management here of this celebrated organization will be without a doubt one of the theatrical treats of the season.

"Grumpy" will be at the Grand on Friday.

SMOKE FINISHED SECOND IN RACE AT THE EXHIBITION

PETERBORO' RUNNER WAS ALL IN AT THE FINISH

(By Lou E. Marsh)

Exhibition Park, Sept. 13.—For the first time in 12 years, 'Athletic Day" at the big Fair was marred by rain. Too bad, too, for Elwood A. Hughes the superintendent, had, in spite of the fact that all the star athletes of the continent were away at the Olympic games and could not be counted upon, with confidence, secured one of the best entry lists a Canadian meet ever had, and had arranged a beautifully balanced card of running races, walking races, cycle races, and the Canadian tug-of-war championship. The rain knocked the crowd "galley west" and spoiled the footing for both runners and cyclists, but the card went on as well as possible under the circumstances.

There was the usual gathering of local veteran officials, and some visitors like Louis Rubenstein, Presidest of the Canadian Wheelman's Association since Hector was a youthful canine. W. M. Gladish ,of Ottawa, another civic official, and Frank J. Scott, of Buffalo, Rev. John D. Morrow, the famous old- time athlete, crippled up since he came back from overseas, turned up on a pair of crutches.

"Jay Dee's" legs may have gone back on him, but his smile is still the same as of yore. He held a real court under the judges' stand, all the old-timers going over to pay their respects to the popular parson.

Marathon First Event.

The initial event started at 1.30, a half hour late, was the 32-mile marathon for General Gunn's Cup, won last year by Harry Tressider in 1.17.00 1-5. There were 29 entries and 19 starters Among the absentees were Jimmie Dellow, Norman General and Art Scholes of the Olympic Marathon team, and the Buffalo entry, W. S. Jarvez, F. E. Wendling, F. Flanagan and James E. Graham. The Buffalo lads were delayed an hour by train connections. The starters were: G. E. Holland, Harris Abattoir A. A.; James Moorecroft, Gladstone A. C.; George Stockdale, Hamilton; James A. Begley, Long Branch; Charles White, Gladstone A. C.; Tom Ellis, Broadview; Y.M.C.A.; Charles Norton Hamilton Y.M.C.A.; Frank Shepherd Gladstone A.C.; M. S. Hill, Hagersville; Robert Jamieson, Hagersville; C.A.; Harry Tresidder, Broadview Y. W.C.A.; Levi Jamieson, Hagersville; Edward T. Jetter, Buffalo; Harry Winfield, Gladstone A.C.; Alfred Atkinson, Riverside A C.; F. Jocelin, Riverside, A. C.; Robert Thelning, Central Y. M. C. A.; W. Scholes, Gladstone A. C.; W. Smoke Peterboro A.A.; W. Walmsley, Harris Abbattoir A.C.

With Dellow and Scholes out, the race, should have resolved itself into a duel between W. Smoke ,the Peterboro Indian, and Harry Tresidder, last year's winner, but the unexpected happened. Tresidder led off, but at five miles Smoke went to the front, A mile later Tresidder came back at the lead, and again they ran as a team. At this time, eight miles, James Moorecroft of Toronto was running third, and five gallopers had given up the ghost .At the end of the eighth miles Smoke slapped Tresidder on the back and said "Goodbye," and went to the front In a mile he gained 52 yards, and at 10 miles he had increased this to 50 yards and looked all over the winner. Then Tresidder threw her into high and held Smoke for a while. Then this Moorecroft lad a dark horse, came from behind unannounced, and at 11 miles was right on the heels of Smoke, the leader. He laid behind him for a half mile, and on the bell lap ran Smoke dizzy before they turned into the stretch and beat him home 25 yards. Moorecroft finished fairly strong, but Smoke was all in and staggering. Mooreecroft's time was 1.10.07 2-5, and is mighty good considering the slimy going. Harry Tresidder finished third. The others who finished were:

4—Tom Ellis, Broadview A. C.
5—F. Shepherd, Gladstone A.C.
6—Levi Jamieson, Hagersville.
7—Chas. Norton, Hamilton.
8—Harry Winfield, Gladstone A.C.
9—Robt Thelning, Central Y.M.C.A.
10—George Stockdale, Hamilton.
11—Wm. Walmsley, Harris Abb. A.C.
12—Jas. A. Begley, Long Branch.

The Dominion Government is spending $20,000,000 on good roads.

GUS HILL COMING TO THE GRAND

Gus Hill's Minstrels, the famous organiation that is breaking box office records everywhere, is the attraction announced at the Grand for Saturday next, matinee and night. This seasons offering is tdias aobeecoff2B offering is said to be a blending of old-time minstreley, the sweet-throat ed singers, graceful and skillful dancers and all the glamour and charm of minstrelsy of our forefathers and a joyful combination of modern minstrelsy, with old "King Jazz" now the popular favorite in American musical circles, as one of the principal factors of the performance, Emile Subers, Sam Curtis, Rags Leighton, Billy Monitor, Harry O'Brien, Harry Bohne, Fred Freddy, Gene Pearson, Pat Rogers, Fred Werner, Richard Barstow and John Cahill are among the well known burnt cork artists, Sam Brown's famous band and orchestra of twenty pieces will be one of the features of the performance.

A 40-year Record

NOT a drop of "water" in our stock! Money spent on telephone plant exceeds stock and bond issue by over 16 millions.

No "melons" nor bonus stock! All stock sold has averaged $106 per hundred-dollar share. Premiums on stock spent for telephone plant.

Dividends to shareholders have averaged less than 8 per cent. and never exceeded 8!

No distribution to shareholders of surplus earnings, but all surplus and reserves put back into telephone plant, relieving present revenues of interest and dividend charges of nearly a million a year.

And nowhere in the world was the general level of rates lower.

There is no finer record of honorable financing anywhere.

We invite investigation.

PREPARE FOR FALL WORK NOW
Your typist cannot possibly do good letters on a dirty machine. Do not be so uncharitable as to blame her, blame yourself for not having the typewriter attended to by NELSON'S TYPEWRITING CO. Typewriters cleaned and generally fixed as well as REBUILDING THEM. Phone 229 or call at 332½ George St. upstairs.

INTERESTING EXPERIMENT.
Mr. Ernest Harvey, Young's Point, planted sunflowers with corn, and has a good crop, which will be fed to his cattle. Should the experiment prove its value, other farmers will follow suit. A Norwood farmer, as announced in The Examiner the other day, has grown the same mixture for his cattle, and regards the two crops as fine, fattening feed.

MONTREAL'S POLICE FORCE STEADILY DISAPPEARING.
Wages Too Small to Attract Men — Crime Increasing.
(Canadian Press).
MONTREAL, Sept. 15.—This city's police force is gradually disappearing, because the wages paid are too small to attract men. Since last year nearly three hundred policemen have resigned and have not been replaced. The city at the present time is finding the greatest difficulty in properly policing its streets, and crime-waste is reported in progress.

INSPECTED HUNTER STREET BRIDGE

Frank Barber, H. W. Middlemist, engineer of the Dominion Railway Board, with D. M. McIntyre, chairman of the board, were in Peterborough to-day in connection with the Hunter Street Bridge.

Frank Barber, when seen this afternoon, would not disclose the purpose of his inspection of the bridge. He, with Mr. McIntyre, Mayor McIntyre, City Clerk Armstrong, C. J. Townshend, Fred Christie and H. W. Middlemist, went over the work this afternoon.

Mr. Middlemist stated that there was no special significance attached to his visit other than to inspect the forms for the central span before the cement was poured. Everything seemed all right, he said, and the work appeared to be progressing favourably.

Chairman McIntyre's visit was in conjunction with Mr. Middlemist's, and was made to see the progress being made with the structure.

LONDON COP KILLS SKUNK; TAKES HOLIDAY
LONDON, Ont., Sept. 13.—Constable William Gow, on duty at Richmond and Carling stret, Friday night killed a skunk thinking it to be a large rat, members of the police force often exterminating th latter during idle night hours. The constable is off duty and his list of friends has decreased appreciatively, until he fumigates himself. In addition the fire department worked in vain with hose and water to eliminate the fumes about the corner, where cafes and stores report a fall-off in business. The shunk is gone, but not forgotten, and Gow is "off" the rats for life.

LOCOMOTIVE ENGINEERS TO HAVE THEIR OWN BANK
(Canadian Press.)
CLEVELAND, O., Sept. 13.—The bank of the Brotherhood of Locomotice Engineers, charter for which was recently granted in Washington, will open November 1.
A twenty-story building will be erected to house the bank when building conditions improve, Warren S. Stone, grand chief, said.
Capitalization will be $1,000,000. The stock is to be limited to brotherhood members, most of whom are engine drivers. Dividends will be limited to 10 per cent.
The main purpose of the bank is stated to be to aid the 85,000 members and the 887 divisions of the brotherhoods.

BURGLARS STILL BUSY.
PORT HOPE, Sept. 13.—Burglars are still at work and Friday night visited the butcher and grocery store of Bramley and Ridout Streets. Entrance was gained through a cellar window and the burglars then had to force a trap door over which the counter was placed. The counter was completely overturned and a large and valuable computing scale was badly smashed. The crash, however, had no effect on the daring thieves and they made a thorough search of the premises, carrying off the entire stock of tobacco and a large quantity of rice and tea.

WOMEN ORGANIZE TO REDUCE LIVING COSTS
(Canadian Press)
CAPE TOWN, South Africa, Sept. 13.—A number of economy and thrift campaigns have been organized in cities and towns throughout South Africa in on effort to bring down the prevailing high prices for food and clothing. Most of the organizers are women, and their main purpose is to induce greater simplicity in the make, material, and number of dresses, and to aim at a simpler standard of living.
As an incentive towards thrift, some 150 savings clubs have been formed in the Cape Peninsula for the purpose of purchasing Union Government certificates. These are similar to the Canadian war savings stamps. Their popularity is spreading rapidly.

TRIAL OF ACCUSED IN THOROLD RIOTS
(Canadian Press.)
TORONTO, Sept. 13.—Information against the chief actors in the Thorold riots following the trial last month of David, charged with the murder of the little Boucock child, were laid by the Attorney-General's Department this morning. The accused will be tried before the Magistrate at Niagara Falls this week.

BELT BROKE HIS JAW.
COBOURG, Sept. 13. — Ernest Turk, of Haldimand, was brought to the Cobourg Hospital, suffering, it is stated, from a broken jaw, scalp wound, and bruises and cuts on the arm and body. He was helping Mr. David Elder in threshing operations when the belt on the machine broke and he was thrown some considerable distance.

CANOE FACTORY FOR COBOURG.
There is a good prospect of another new industry being located at Cobourg through the enterprise of Mr. Harry Langslow. The Rice Lake Canoe Company will remove at an early date from Gore's Landing to a factory to be built upon the north end of the Langslow-Fowler Factory premises, with every promise of a flourishing future.

WANTED.

Mrs. S. Blanchard and children have returned to Wabashene, after spending a visit at the home of her parents.

Miss Mary Lonergan returned today from a pleasant vacation spent in Chicago and Toronto.

CANADA'S SUPREMACY IN PAPER CHALLENGED
Papyrus, in Belgian Congo, about to be Exploited.
Canadian Press.
BRUSSELS, September 13. — The supremacy of Canada and the Scandinavian countries in the pulp and paper industry, may be challenged soon by the Belgian Congo.
Papyrus, which grows in great abundance in the congo, is to be exploited by a large company which has been granted a concession.
It is planned to establish a large plant, costing two and a half million francs, which will have an initial production of 20,000 tons of pulp.
The paprus of the Congo has shown an analysis of 37.0% of cellulose. After research and experiments, a process has been discovered for bleaching the plants. This has been vainly sought for 50 years.
The papyrus grows principally along the lower Lualaba River, near the lakes of Kabuli, Sjembja, Kisali and Noaga.

PRISONERS WORK IN PEN. TO KEEP THER FAMILIES
(Canadian Press.)
COLUMBUS, O., Sept. 13.—Warden P. E. Thomas, of the state penitentiary here, is strongly in favor of a law providing that families of criminals received the proceeds of the prisoner's labors while a ward of the state. "The state of Ohio has no right," he says, "to punish the families of criminals by depriving them of support by the family head."
The state, he says, should put every prisoner to work. He says the state should have five brick plants instead of one to keep the vast number of prisoners confined in the penitentiary employed.
"Work, religion and education bring about growth in prisoners," he says. "Idleness is a curse. Ignorance is a curse. Folks like to talk about the college graduates in the penitentiary, but they are the exception; ignorance is the rule."

GOOD WORK OF I.O.D.E.
KINGSTON, Sept. 13.—Friday evening at the George Richardson Chapter, I.O.D.E., paid a visit to Mowat Hospital and entertained the patients with a splendid concert. Col. Gordon, military chaplain, acted as chairman. Refreshments were served at the close of the concert, which closed a most enjoyable evening.

SLIGHTLY USED FURNITURE FOR SALE
I have Opened a Store for the Sale of Slightly Used Furniture at No. 217 HUNTER STREET (opp. Coughlin Marble Works). Only Clean Goods Handled.
MRS. J. WARREN

OBITUARY

MRS. JOHN LANG.
Elizabeth Shearer, wife of John Lang, ex-M.P., who resided in Keene, died at the family residence on Saturdayafternoon after a short illness, aged 76 years. She was born in Otonabee and had resided in Keene 15 years. She leaves of the immediate family six children, Mrs. G. A. Gillespie of Peterborough, Mrs. Edgar Wood and Mr. John Lang of Indian River, Mrs. W. Thompson of North Douro, Mrs. George Gall and Mr. James Lang of Keene.
The remains were laid at rest this afternoon at 1.30 in Keene cemetery. Service conducted by Rev. Mr. Honey and Rev. Mr. McEachern, was held at the house before leaving for the cemetery.

NEW YORK STOCK MARKET

NEW YORK, Sept. 13.—Prices were somewhat irregular at the opening of the stock market to-day.
U. S. Steel opened at 88 5-8 up 1-4, American Int. 75 1-4 off 1-8, General Motors 21 off 1-8, Southern Pacific 94 1-4 up 1-4, New York Central 93 7-8 up 1-4, Union Pacific 120 off 1-8, Mexican Petroleum 172 up 7-8, Reading 91 7-8 off 1-8, Pan-American 80 1-2 up 1-4, Texas Co. 49 3-4 up 2 1-4, Baldwin 107 1-2 up 1-2, Pitts. Coal 65.
The market was irregular in the early afternoon, with considerable pressure on some steels. Republic sold down to 80 1-4 off 1 1-4, and Bethlehem B. lost nearly a point. Rails continued firm. Copper stocks have again turned dull.

(United Press.)
NEW YORK, Sept. 13.—Foreign exchange quotations were irregular at the opening to-day, demanding sterling at $3.49 1-4, off 1-4; Francs $.0663, unchanged; Lire $.0432 1-2, up $.0001 and Marks $.0181, off .0001 1-2. Canadian Dollars $.9035.

CATTLE MARKET

Canadian Press.
TORONTO, September 13. — Cattle receipts five thousand five hundred, trade dull. Quotations: Heavy beef steers, $13.50 to $14.50; butcher steers choice, $12.50 to $14.50; butcher cows medium, $6 to $9; calves $17 to $19; ewes $8 to $9; lambs, $12.50 to $13.50, hogs, fed and watered, selects, $20.25.

BRITISH STATE RUN RAILWAYS SHOW DEFICIT
Increase in Rates Suggested by the Minister.
(Canadian Press.)
LONDON, Sept. 13.—An announcement from the Ministry of Transport states that there is an apparent deficit of 54,500,000 pounds sterling to accrue to the exchequer from the State control of railways in Great Britain and Ireland during the current fiscal year, ending March 31, 1921.
Among the principal items of per annum increased expenditures as figured from last October, when the question of rates revision was referred to the Railway Rates Advisory Committee are: Cost of materials, 12,000,000 pounds; coal, 3,500,000 pounds; hire of rolling stock, 750,000 pounds; rates, taxes and compensation, 3,200,000 pounds; while 24,300,000 pounds are estimated for increased labor costs.
The Ministry of Transport has requested the Railway Rates Advisory Committee to suggest increases in tariffs for various railway services which will wipe out the deficiency by the close of the following June. The last increase in rates was ordered in the latter part of December, 1919.

MACSWINEY PASSED A VERY RESTLESS NIGHT.
(Canadian Press).
LONDON, Sept. 13.—A mid-afternoon bulletin issued by the Irish Self-Determination League stated that Mayor MacSwiney's condition had not altered materially. He continues very prostrate and exhausted, and passed a bad, restless night.

ANTI-BOLSHEVIK LEADER IS SAID TO BE IN CHINA WITH A BIG BAG OF LOOT

PROGRESS OF THE BOLSHEVIK AND ANTI-BOLSHEVIK FORCES IN ALL PARTS OF THE WORLD—WRANGEL'S TROOPS SURPRISE THE REDS

Canadian Press.

MOSCOW, Sept. 14. — A report has been received here that General Semenoff, the anti-Bolshevik leader in Siberia, who some time ago was said to have declared his support of the Far Eastern Republic, has absconded to China with his large gold reserve.

MARCHING ON LEMBURG.

Canadian Press.

LONDON, September 14. — The Russian Soviet forces, it is reported from Moscow, have taken the offensive on both sides of Brody, near the old Galician border, and are now marching on Lemberg, according to despatches from Berlin. Polish and Ukrainian troops, it is declared, have been driven back by Russian cavalry.

ON THE FRONTIER.

Canadian Press.

LONDON, Sept. 1. — Bolshevik troops are advancing towards Afghan frontier from Bokhara, says a Calcutta despatch to the Daily Mail, quoting reports from Kabul and Simla. Afghan troops, it is said, have been hastily despatched to assist in protecting the frontier.

REDS ARE EXHAUSTED.

Canadian Press.

SEBASTOPOL, Sept. 14. — Troops commanded by General Baron Wrangel on the Taurada front, northwest of the Sea of Azof have surprised and captured near Pologni, in the Oriekhov region, the 124th Bolshevik Brigade, including its staff and trains, according to the reports reaching the city. The Soviet forces on this front are onw on the defensive and appear to be exhausted as a result of their recent offensive in Poland. Officers find it more difficult to arouse sentiment against Wrangel's army than against the Poles, although the former has made heavy captures in men and materials.

The expedition sent into Kuban, southeast of the Sea of Azof, seems to have been a failure both from a military and a political standpoint.

PHONEY SLEUTH BREAKS IN ON COUPLE IN THE PARK WITH DISASTROUS RESULTS

MAN ATTIRED AS THE "YOUNG LADY" JUMPS UP AND KNOCKS THE INTRUDER DOWN A FEW TIMES—SURPRISES ALL AROUND

NEW YORK, September 14. — Detective William Kenney of the Rockaway Beach precinct was seated on the sand under the Boardwalk at the foot of Beach Twentieth street, Rockaway Beach, last night, about 10 o'clock, and by his side was a charming young woman. They had been there only a few minutes when a man walked up to them, tapped Kenney on the shoulder, and said:

"What's the idea, spooning on the beach like this?"

Kenney scrambled to his feet and the man turned a flashlight on him.

"I'm a detective," said the man, sternly, "and you're violating the law. You get away from here quick. I'll take care of the young lady."

Detective Kenney backed away from the man and hid behind a pillar of the boardwalk. The man who had accosted him then turned to Kenney's companion who by this time was standing.

"Don' tworry," he said, "I'll take care of you."

"Thanks," said the young woman, "I can take care of myself."

The "detective" did not notice the young lady was quite muscular. He grinned and stepped toward her, and she smashed him in the jaw and knocked him down. He tried to get up and she knocked him down again, and then Detective Kinney came from behind the pillar and handcuffed him. After that he was taken to the police station and searched. The police say that he had in his pocket a loaded revolver. He gave his name as Arthur Jaycock of 510 Central avenue, Far Rockaway.

Young Jaycox was arraigned in the Jamaica police court when it developed that the "young lady" who had knocked him down and given him a black eye was Detective George Raeburn, attired in some of his sister's clothes. Kenney and Raeburn had gone to the beach after the police had received numerous complaints that couple sitting on the sand had been interrupted by a man who had said that he was a detective and who always chased the men away, and then tried to make love to the young women. Magistrate Miller held Jaycox for further examination in the Far Rockaway Court on a short affidavit charging him with having attacked Miss May Goodwin of 231 Twenty-first street, Brooklyn, after he had frightened away her escort by displaying a revolver.

Officials Inundated By Aliens

WASHINGTON AUTHORITIES UNABLE TO COPE WITH THE TIDE OF IMMIGRATION

WASHINTON, Sept, 14. —Immigration is increasing in leaps and bounds, with indications that the prewar record will be equalled this year, according to Anthony Caminetti, Commissioner General of Immigration, who said that the rush had become so great at New York as to make it impossible for the immigration officials, because of insufficient force and facilities, properly to handle those now seeking these shores. At present, he said, eight vessels were anchored in the stream waiting to discharge immigrants.

One of the great problems growing ing out of the rapidly increasing immigration is the desire of the new arrivals to sek the industrial centres, which have also attracted the aliens of less recent arrival from the rural districts which in the ten years preceding the war claimed more than a majority of the newcomers. This has tended to increase the housing problems in New York, Chicago and Philadelphia and has left the farming sections without the needed labor.

Until recently the greatest portion of the arrivals went West, having been headed for Oregon. Less than 25 per cent, of those who arrived in August went far from the Atlantic Coast.

Commissioner General Caminetti said that the Federal Government could do nothing and even State laws were helpless to make proper distribution. All that can be done in this direction, he said, was for States to become active at the immigration stations and try to induce the immigrants to make their residence within their borders.

"California and other States furnish examples of the good work that may be done in this connection," said Caminetti. "The national Government, while it is true that it provides for the distribution of aliens in terms, has not conferred authority to direct where an alien shall go after admission. It has the right to prevent exploitation ,and it does other things, but it cannot direct or enforce his going into any particular locality or any particular field of industry.

"Any State may keep an agent at Ellis Island or other immigration sections, for the purpose of presenting to the new arrivals the resources and advantages of the same. Notwithstanding the importance of this matter, so far the record shows that Pennsylvania is the only State that has taken advantage of this opportunity. The matter of extending this class of work is now receiving consideration in the bureau, and recommendations thereon will form part of its forthcoming report for the last fiscal year."

PETERBORO' UNITED FARM WOMEN HEAR AN ADDRESS

FORECAST:

SNAPPY WINTER GEMMED GARTERS

NEW YORK, Sept. 14.—(United Press.)— Striped stockings with jeweled garters just below the knee will be worn by smart women this fall and winter, according to Miss Isabelle M. Archer, style expert, who spoke at the recent jewelers' convention at Lousville.

"Skirts for evening wear," said Miss Archer, "will fall four inches below the knee but will be lined only to the bend of the knee. The jeweled garter will flash from beneath diaphanous laces. The The anklet watch of last winter will be superceded by the elastic ankle band set with gems, preferably diamonds. Stockings will be striped in brilliant, rainbow hues. Striped stockings will also be fashionable for street wear. Skirts will be slightly longer and narrower. They will reach ten or twelve inches from the ground. But this will be short enough to afford a generous glimpse of the gorgeously striped silken hose.

"As for men," Miss Archer added, "the scarf pin will continue in vogue but the jeweled tie holder will form the completing detail of particularly smart costumes."

IMPORTANT ISSUES OF THE DAY DEALT WITH BY MRS. FRANK WEBSTER OF OAKWOOD—BOUNDARIES OF HOME.

Co-operation, legislation and education were dealt with by Mrs. Frank Webster, Oakwood, a member of the Provincial Executive of the United Farm Women's Association at a meeting of the U.F.W.O. held last evening in the Sons of England Hall. An interesting address was heard by about twenty-two members of the organization. The speaker was introduced by Mrs. H. G. Webber, president of the local U.F.W.O.

A Difference.

After expressing her pleasure at being present at the meeting, especially in consideration of the fact that the local organization is but commencing to formulate, Mrs. Webster gave an interesting resume of the history of the U.F.W.O. for the birth of which, in 1917, she said Mr. W. Morrison, of the U.F.O., was responsible. Continuing she explained the difference between the Woman's Institute and the U.F.W.O., the former of which she had been a member always until a year ago. The Woman's Institute had done more for farm women than any other organization not excluding the church in bringing them together, but the constitution forbade the discussion of politics and religion. How, Mrs. Webster asked, were the newly enfranchised women to become an intelligent electorate if they had no discussion of politics when meeting together. The U.F.W.O. broadened the farm womens' interest and provided them with means for educating themselves upon the public issues. If women were to help their husbands in the Women's Institute, an auxiliary to the Farmers' Institute, why should they not formulate an auxiliary to their political party,

Boundaries of Home.

"They tell us," the speaker observed, "that a woman's place is in the home, but I claim the home is not bounded by the four walls which house us; its boundaries extend wherever any member of the family may be. As good citizens we must make our country our home and see by education, co-operation and legislation the standard of living in our country is raised."

Co-operation, she continued, requires us to cultivate a spirit of equality.Set the spirit of co-opeation going ,then talk of education. Only two per cent. of the country children ever enter Universities. If the spirit of co-operation is to be introduced into the great movement, the farm women of Canada must think out the reasons why their children have not the same opportunities as their city sisters and brothers. The farms will never get the children back from the city until the farming industry is placed in the plane it should be. Party politics are responsible for the place the farm has taken up to the present.

Until the formation of the U.F.O. the rural people never knew why they voted, they just marked their ballot according to the way their fathers and grandfathers. The husbands were largely responsible for conditions as they have been up to the last year or so by putting a man in and giving him a free hand. To-day, however, something more is demanded; a premium has been placed upon honesty. The farmers want to elect a man into parliament and keep a string on him that he may be recalled. Honesty in all things comes first and the U.F.W.O. must make it their great standard. When a representative is sent up, see that he is honest for the party will never get what it is striving for until honesty is secured.

Worst Element.

The worst element in Canadian politics is not the Bolshevik, it is the profiteer. The only way to get a standard of right and wrong, and rid the country of such greed is through education, legislation and co-operation. Men who understand the business they are handling must be placed in the government. The government has legislated for the big interests and the farmers' interests have been overlooked. The speaker dealt briefly with the evils resulting in the fixing of prices through which the farmers suffered more keenly than any other class.

Must Think.

Mrs. Webster impressed her audience with the great need of thought to-day. Study, she advised the statute books, try and determine what needs correction in the laws of the province and talk the weak points over with the representatives. See that some or all of the vice which threaten the home are eliminated.

Young Peoples' Movement.

In conclusion the speaker dealt with the Young Peoples' Movement and pointed out the many advantages offered by the formulation of a local branch.

Still On The Hunt

DAVID S. K. BYRNE, WELL KNOWN IN PETERBORO', TURNS UP AMONG GAY LIGHTS OF NEW YORK

NEW YORK, Sept. 14.—David S. K. Byrne, who says he is a Montreal clergyman and an heir to the estate of W. G. Byrne, amounting to several millions, is advertising in the New York newspapers to establish the facts of the death of Byrne's widow and son George W. G. Byrne, who, he says, lost their lives on the Empress of Ireland when she was sunk in the St. Lawrence in May, 1914. He is staying at the Imperial Hotel with his secretary, whose name he says is Leslie Lottridge, also of Montreal.

Byrne says his name originally was Davis S. Kidd, that he was born near Peterboro, Ontario, and that he was adopted by W. G. Byrne in 1907 for discovering Mr. Byrne's daughter, who had been missing for some time. This daughter, died, he says, in 1908, and by the death of the widow and son he is made sole heir.

The estate, Byrne says, with accumulated interest, amounts to more than $.c,000,000 and consists of mining and oil properties in Pennsylvania, Florida, Mexico, Argentina, Brazil, Australi and Spain. Byrne says his representative in Canada is D. L. Sinclair of Toronto, and his attorney in New York, he says, is T. L. Stitt, whose address he gives as 10 Bridge street, New York City.

Mr. Byrne had with him a copy of the will of W. G. Byrne, dated Aug. 15, 1908, which he said had been probated by County Judge B. B. Johnson of Hamilton County, Fla., on April 14, 1919, and letters testamentary issued to him as the surviving executor on April 2 of the same year. The will mentions the value of the estate at about $8,000,000 and provides $1,450,000 for the establishment of a Star of Hope Memorial Hall, of which fund Davic S. K. Byrne is placed in full charge.

Mr. Byrne said he had located property worth $1,200,000 belonging to the estate in and near Pittsburgh, and was about to enter into possesion of other property of the estate of which he had information. He said that W. G. Byrne, who was a resident of White Spring, Fla., at the time of his death, had expressed a wish that a mission be founded in Chicago, the city in which his lost daughter was found, in addition to the memorial hall which, he said, will be built in Toronto.

MONTREAL, Sept. 13.—David S. K. Byrne, about seven years ago, announced he had been left several million dollars by an Australian rancher named Byrne. One provision was he change his name from Kidd to Byrne Thus far he has received none of the estate, though he made several trips to Washington and elsewhere in connection with the legacy.

ENQUIRY OPENS AT THE SOUTH GRENVILLE ELECTION PROTEST

EVIDENCE PRODUCED AT THE PRELIMINARY HEARING—FISH INSPECTOR CALLED.

PRESCOTT, Sept. 14.—Hearing of the election protest made by G. Arthur Payne, U.F.O. candidate, defeated by Hon. G. Howard Ferguson in Grenville in the last Provincial election, and the counter-claim of the successful candidate opened in the Town Hall here yesterday afternoon before a crowded room.

With over 200 witnesses to hear, the case promises to be long-drawn-out, and the few heard during the course of the afternoon and evening indicated the same thing.

Mr. Justice Magee and Mr. Justice Sutherland were on the bench. Severe cross-examination by Mr. Gordon Waldron, counsel for Mr. Payne, brought out some damaging admissions from witnesses examined, and there was one direct admission of money having been paid, although some doubt existed as to whether the vote entered into the matter.

W. N. Tilley, K.C., W. H. Price, M.P.P., and H. A. Stewart, K.C., appeared for Hon. Mr. Ferguson.

Almon Cook, a hotelkeeper at Spencerville, admitted having given Mrs. Kathaleen Bellinger $2 after having driven her to the polls at Ventnor in his buggy and then back to her home, about two miles from Spencerville. Cook told of calling for Mrs. Bellinger and driving her to the poll, afterwards waiting until she came out.

The Bill for Dinners.

On the day Hon. Mr. Ferguson was nominated at Spencerville witness said his receipts at the hotel were $85. Hon. Mr. Ferguson had paid the clerk for dinners for the delegates. His usual receipts on a bad day were from $8 to $10, and on a good day, not a convention day, between $25 and $30.

He denied that he had been given $200 or $100 for the meals. Witness said further that he had not taken any very active part in the election, had not driven anyone else to the polls, nor had his carriages been employed. He also denied that any money had been given him to use in the election.

DAN WHETUNG LOOKS FOR LOTS OF SNOW

SAM JAMIESON AND DAN WHETUNG DISSOLVE PARTNERSHIP AS WEATHER PROPHETS

Mr. Sam Jamison, weather prophet, were in to with Dan Whetung for a few months is giving up the job. People are so hard to please. Some want rain, some want dry weather—and if he gives lots of rain farmers will grumble saying the potatoes will rot and heavy crop of grain will take the strength off the ground. Mr. Jamison wonder how Dan can stand all the abuse when Dan is a little astray. Dan says this is going to be stay-home winter—lots of snow—cannot get out.

PROTECTION WAS ATTACKED AT OPENING SESSION TO-DAY

TARIFF COMMISSION MET IN WINNIPEG TO-DAY—THE MANUFACTURERS' ASSOCIATION PRESENT STATEMENT OF CASE

(Canadian Press.)

WINNIPEG, Man., Sept. 14.—The principle of protection was attacked and defended in forceful statements presented this forenoon at the opening session there o fthe Tariff Commission.

The Canadian Manufacturers' Association, in a prepared statement, reaffirmed its advocacy and support of the policy of adequate protection for Canadian industry.

The Canadian Council of Agriculture took the position that the national policy based upon the principle of protection was wrong, and advocated low customs tariff and direct methods of taxation.

The Council of Agriculture viewed the protective tariff as the most wasteful and costly tariff ever designed for raising the national revenue.

Sir Henry Drayton and the Hon. G. D. Robertson sat as a tariff commission in opening the Western tour, which will take up about four weeks.

Summary of Statement.

WINNIPEG, Sept. 14.—Following is a summary of the statement submitted by the Canadian Manufacturing Association to the Committee of Cabinet Ministers at an inquiry into Canada's customs tariff, which opened here to-day:

The statement first points out that, according to the Dominion census, 700,boo people are employed in Canadian factories; that, including families and dependents, the factories support 2,000,000 Canadians; that 80 per cent, of the total annual produce of Canadian farms is consumed in Canada; that business and professional men receive part of the benefits of industrial production, and that consequently, there is scarcely family in Canada, directly or indirectly, which is not affected by industrial conditions. The position taken by the association is defined as follows:

"As the Canadian customs tariff has not been revised since 1907, revision is now overdue. After careful investigation it may be found that the rates of duty on some articles are too high, and will consequently be lowered; or, in certain other cases, that the rates of duty are too low, and will consequently be raised; or, in other cases, that the rates of duty will be considered fair, and remain unchanged. But all tariff revisions are governed by a guiding principle, and this guiding principle must be either the policy of protection or the policy of free trade. The term 'tariff for revenue' is misleading, because a tariff of even ten per cent. on an article produced in Canada yields revenue, and also affords a small degree of incidental protection.

"In presenting this statement, therefore, the Canadian Manufacturers Association respectfully begs to reaffirm its advocacy and support of the policy of adequate protection for Canadian industry (the policy which has been maintained since 1878 in Canada by all political parties that have held power).

"Moreover, the association pledges its support to any measures which will hasten the adoption throughout the British Empire of substantial customs preferences for Empire products, corresponding to the preferences now provided in the customs tariff of Canada."

Definition of Protection.

The objects of the protective system in Canada are outlined as follows:

1. To diminish, as far as possible, the importation of goods and foreign countries which can be produced at home.

2. To facilitate the importation of raw materials for manufacturing processes, which cannot be produced at home.

3. To encourage the exportation of Canadian goods as finished products.

4. To make Canada self-contained by developing and encouraging within her boundaries all legitimate activities that will give occupation to Canadian citizens.

"Support of the protective principle should not be confused with advocacy of a high tariff," says the statement. "The Canadian Manufacturers' Association has never advocated a high tariff; and does not advocate a high tariff now; but it is a conservative statement of fact to say that the Canadian customs tariff as it stands to-day is not a high tariff, and that in comparison with tariffs of other countries it is very moderate.

"During the year ending March 31st, 1920, the average rate of duty on all dutiable importations, less the customs war tariff collections, was 22 1-2 per cent.

"The average rate of duty on all importations, free and dutiable, after deducting the customs war tariff collections, was 14.66 per cent."

Tariff protection has been increased or maintained at previous rates in the following countries since the war: France, Italy, Switzerland, Austria, Spain, Balkan countries, Japan, Argentina, Brazil, Bolivia, Chili, Ecuador, Paraguay, Peru, Uruguay, Venezuela, United States and Australia.

It is argued that the fiscal policy of Canada must be guided by the present world tendency towards increased tariffs and that if the Canadian customs tariff were removed while other countries maintain and strengthen their tariffs, Canadian markets would be filled with the overflow goods from protected foreign countries, while Canadian goods would be largely shut out of foreign markets. The result would be that the home market of Canadian factories would be so reduced that Canadian productive costs would be raised above a competitive basis, and that, consequently, many Canadian factories would have to close.

Growth of Canada Under Protection.

The following instances of growth in various basic industries are given to prove that Canada has made great progress since the protective system was inaugurated in 1878: Total trade, $149,000,000 in 1879, to $2,350,000,000 in 1920; agricultural production from $365,000,000 in 1900, to $1,975,000,000 in 1919; national output of wheat from 16,000,000 bushels in 1879, to 193,000,000 bushels in 1919; value of manufactured products from $309,000,000 in 1889 to $173,000,000 in 1919 1917; forest production from $39,000,000 in 1881, to $140,000,000 in 1919; mineral production from $14,000,000 in 1899 to $173,000,000 in 1919; fishery production from $13,000,000 in 1879, to $60,000,000 in 1918; bank deposits from $71,000,000 in 1878, to $1,841,000,000 in 1919; fire insurance in force from $409,000,000 in 1878, to $2,187,000,000 in 1919; fire insurance in force from $409,000,000 in

A MIGHTY STIR

PETERBOROUGH ROUSED BY AN OPPORTUNITY TO GET BOOTS AT HALF REGULAR PRICES

Old H. C. L./ gets a jolt to-morrow when the combined shoe stocks of the Walk-Easy and Peterborough Shoe Stores will be thrown on the market in a gigantic Bankrupt Stock Sale, at half the regular selling prices. In addition to the two stocks, Mr. B. Chesler has secured a third stock from Toronto, and the offering and startling price reductions make a combination such as has not been dreamed of in Peterborough for many years. The stocks were purchased for half the wholesale price, and the entire galaxy of high-class footwear goes on sale at half regular selling prices. This will be good news for Peterborough people who have been hoping for lower shoe prices, but even they were hardly prepared to see prices cut in two. The sale lasts until the entire three stocks are entirely cleaned out.

WHERE TO GO TO-NIGHT

LITIGATION OVER DECEASED BOVINE

PLAINTIFF RECEIVES HALF OF AMOUNT OF DAMAGES SOUGHT

A cow, lately deceased, formed the subject of litigation in the Division Court yesterday afternoon before Judge Huycke and a jury.

The cow had been sold by Harold Sanderson to William and Archie Patterson. About a week after the sale the cow died. The purchasers resisted payment and Mr. Sanderson brought action for the recovery of $116 damages, the purchase price of the cow.

Considerable testimony was heard and the jury rendered a verdict in favor of the plaintiff for half the amount of the damages sought. The judge gave judgment allowing the plaintiff one half the damages and the costs of the court

F. D. Kerr appeared for the plaintiff and O. A. Langley for the defendants.

SURFACE DRAIN IS NEARLY COMPLETED

DRAIN PASSES UNDER SEVERAL RAILWAY TRACKS

The Board of Works expect to complete this week the surface drain on Rink Street between Aylmer and Park Streets, which they have been working on during the last few months. This drain replaces the old wooden Edison drain that of late years has not been efficient. It is 900 feet long, and has cost approximately $3,500.00 to build.

The building of the drain of 30-inch tile was considered too heavy an expenditure because of the unusually high cost of tile, and so the drain was made of concrete of a horse-shoe shape, 30 inches across and 34 inches deep, giving the drain considerably more volume than if it had been made of 30-inch tile.

It was particularly difficult to construct the drain because of the numerous railway tracks that have to be crossed in that short distance. Under no fewer than six C.P.R. tracks and several C.N.R. tracks the drain had to be run, and for this reason there have been innumerable delays to the work. All difficulties, however, have now been surmounted, and the men are now finishing up the job.

COMMISSIONERS THROWN IN RIVER

ANTI-BOLSHEVIK RIOTING REPORTED FROM PETROGRAD

(Canadian Press.)

LONDON, Sept. 14.— Serious anti-Bolsheviki rioting is taking place in Petrograd, it is declared in reports from that city, received in Berlin, says a despatch to the Exchange Telegraph Company from the German capital, filed yesterday. Six of the Bolshevik commissioners, it is asserted in advices, have been drowned in the River Neva, while the others have been compelled to seek places of refuge.

WHAT MAY BE ONE RESULT OF MACSWENEY'S DEATH

(Canadian Press.)

LONDON, Sept. 14.—Negotiations for the settlement of the Irish question, which are described as t . i ost promising as yet initiated, will be nullified if MacSweney, Lord Mayor of Cork, dies in Brixton Prison, where he is continuing his hunger strike, says a Dublin correspondent of The Times.

Secret negotiations on the basis of full self-government within the Empire have been going on during the last three weeks between the most prominent leaders of moderate opinion and influential republicans.

The moderates have at last been told, he adds, that nothing further can be done while MacSweney is near death, and if the Lord Mayor dies, the last hope of settlement on the proposed basis will disappear.

The appointment of an additional Under-Secretary for Ireland has been decided upon by the Government. It will be his duty to deal with all problems which may arise in the six counties of the Province of Ulster, the Unionist stronghold in Ireland.

An Indianapolis jury made up of women agreed on a verdict in just five minutes.

The sight of sugar, which a majority of them had not seen or tasted in five years, caused a riot among 1,787 aliens at Ellis Island immigrants' station.

ZAM-BUK

This illustrates but one of the many uses to which Zam-Buk, the great herbal balm, is daily put. Accidents will happen, especially where there are children. Mothers should never be without Zam-Buk. Zam-Buk is the best "First Aid." Its strong antiseptic properties kill all germs, preventing blood-poisoning and inflammation. Its rich, herbal essences quickly ease pain and build up new healthy tissue. Zam-Buk is entirely different from all other ointments. It is purely herbal and contains no poisonous coloring matter. Take no substitute. See the name on every box before paying.

ZAM-BUK HEALED SEVERE CUT

Mrs. J. E. Bierwirth of Carnduff, Sask., writes: "My little son cut the end off his finger. As it was such a severe cut, I was going to take him to a doctor, but in the meantime to ease the pain, I applied some Zam-Buk. This stopped the bleeding and gave him such relief that he ceased crying and seemed quite at ease. I therefore decided to see if Zam-Buk would heal the wound. Next day I replaced the dressing, and continued to do so each day, using nothing but Zam-Buk. Complete cure resulted."

Zam-Buk sold by all druggists and stores, or Zam-Buk Co., Toronto, 50c box.

PETERBORO' DISTRICT CONVENTION HELD BY METHODISTS AT WARSAW

REV. F. E. MALOTT PRESIDED —MANY INTERESTING PAPERS PRESENTED.

At Warsaw on Friday last, 10th inst., the Methodists of Peterborough district met in conference to discuss ways and means by which Methodism may discharge its responsibilities and fulfil its function. The Rev. F. E. Malott, M.A., B.D., chairman of the district, presided. A large number of representatives was present. The morning session was devoted to routine business and financial affairs as related to the work of the whole church. During the noon hour several committees discussed plans which were presented at the afternoon session, which was largely of an inspirational nature.

Miss Pearl Burnham.

Miss Pearl Burnham, of Millbrook, read a paper of great value on "Intercession." The whole of prayer is not included in intercession, but it is the highest peak of the prayer life. It includes more than asking favors for our loved ones—it replaces the selfish vices with the "world vision," and takes us far into the joyous intimacy of the "follow-me" road.

Intercession of Jesus.

The crowning evidence of the place of intercession in the life of Jesus is the fact that the Bible is silent about the wonderful and holy activities of our Lord since the ascension, except this one, "Seeing He ever liveth to make intercession."

What does this intercession do for the church and the world? The answer is arreshting and startling: "Therefore, He is able to save to the uttermost." It is as though the redemption which Jesus finished on earth cannot be perfectly applied nor made completely effective without intercession—His and ours.

Three Parties.

In intercession at least three must be engaged—the one spoken to, the one spoken of and the one who speaks. It implies also a sense of absolute need; a source of power and a channel in between. Hence between our impotence and God's omnipotence intercession is the link.

Cost of Intercession.

It costs and is not to be lightly entered upon. It costs time; "prayer spasnes" will not accomplish anything. It draws vitality from the soul. The mind and the will must be centred upon it, but the result of such praying is not defeat, but victory.

There are many examples in the Bible. In the twelfth chapter of Acts is the record of Peter in prison. Herod has decreed he shall die. But prayer was made without ceasing of the church unto God for him.

Even as the Greek bowman had his bow bent to the full, so the prayer of the church was "in tension"—and Peter's chains fall off and the prison doors are opened.

Primary Class.

But we do not step, at once, into this climax of communion—one begins in the primary class, the A.B.C. of prayer life, viz., asking. Whatever we receive from God is neither bought nor earned. "Ask and ye shall receive." The way to learn is to begin to do. God does not expect us to understand all the mysteries of prayer before we enter into its school. The responsibility for teaching rests with God. Our prayers are God's opportunities. Our faith-filled, persistent, loving prayer for our friend will give God his opportunity. To exercise this ministry of intercession is not only a privilege but an obligation. We never have to choose between prayer and service for prayer is service. Prayer is the power-room of all Christian service worthy of the name. If God asks you to pray for a great change in the life of another, be assured God is working in that one to answer. But it takes time to answer prayer.

Rev. W. B. Caswell.

Rev. W. B. Caswell, of Toronto, assistant secretary of education of the church, gave a forceful address on "Our Task." The only fault he has to find with some church people is that they do not seem to be aware of what is going on in the world. There are times when the voice of God commands us to do the "absolutely exceptional." Such are the times in which we live. We won the war "by the grace of God." The spirit of the pioneers in using the "Brown Bess" was the spirit that made the modern machine gun effective.

Lambeth Conference.

The speaker was an overseas chaplain and related he had been asked by an Anglican rector to preach, but permission was refused by a high dignitary. But the Lambeth Conference had shown a new spirit, and he believed it marked one of the greatest advances in the history of Christendom. We are called to dare to the full proving of the gospel.

In our land there is Bolshevism on the one side, and the profiteering spirit on the other. There are little settlements in the West with struggling churches and we must not allow the candle to be blown out by withholding support. Religious education is essential for the stability of the state.

Notes of the Convention.

The ladies of Warsaw circuit provided excellent meals.

Nearly every parish was represented, from Apsley to Pontypool and from Bridgenorth to Cavan.

Rev. F. E. Malott, Trinity Church, Peterborough, elected chairman at the recent Bay of Quinte Conference, presided with dignity and despatch.

Duetts were rendered by Messrs. Payne and Batten and by Mrs. Hamblin and Mr. Batten, and a quartette by Messrs. Darling, Crowe, Carveth and Little.

The youngest representative was Master Robert Spence, Lakefield, who came with his grandfather, Mr. Robert H. Little.

Revs. J. F. Chapman, M.A., and G. E. Ross made timely speeches on "Christian Stewardship" and "Social Service."

Rev. S. T. Tucker, B.A., B.D., Millbrook, is to receive reports of the inspirational "Christian Stewardship" campaign next February.

Peterborough district stands in the forefront in the financial returns of the Forward Movement.

Messrs. Brown and Greene, of Peterborough, representing the laymen of the Dominion Ministerial Support Committee, gave an inspiring account of the response for more adequate support for ministers. A long list of charges which have pledged the minimum salary of $1,500 in addition to horse keep (on rural charges), was read and nearly every circuit is aiming at the minimum and many are exceeding it.

Rev. J. E. Beckel is organizing the religious education forces.

On October 3rd a general exchange of pulpits is planned for the district to give impetus to the missionary cause. On Nov. 14th a similar arrangement is made for the educational work, and evangelism and social service holds the field December 5th.

A district convention will be held in November at George Street Methodist Church, Peterborough.

Rev. J. D. P. Knox, pastor of the Warsaw church, made arrangements for entertainment which worked with clock-like precision.

NO EXPERIENCE NECESSARY

The idea that bread making is a long and difficult operation is a mistake, as bread may now be included in the list of quickly prepared foods, for with

ROYAL YEAST CAKES

light, sweet bread can be baked and ready for use within four hours from the time the sponge is set. Full detailed instructions are contained in Royal Yeast Bake Book which will be sent free upon request.

10,000 SCHEMES FOR HOUSING IN BRITAIN

(Canadian Press.)

NEW YORK, Sept. 14.—Attempt to solve Great Britain's housing problem have already brought forward upwards of 10,000 schemes involving an annual capital expenditure of $600,000,000, according to a report by a representative of the Foreign Trade Bureau of the Guarantee Trust Company. After giving details as to various plans and the number of houses to be built in each of more than thirty cities visited, the report continues:

Health—complete rehousing in three years—is about one year behind, and "The program of the Ministry of is costing more than the original estimates.

"The Ministry of Health works in conjunction with the Office of Works. When a local authority defaults, the business is then entrusted to the Office of Works.

"What is keeping back housing at the present time is the fact that there are not enough skilled men to do even a quarter of the work wanted. The Trades Unions will not allow the number to be increased from the outside. The Government is using a sort of indirect compulsion by prohibiting 'luxury and unessential building,' so that if a man will not build cottages he is not allowed to build anything else. There are various suggestions for speeding up the work, including a guarantee to the trade unions of employment for a term of years to men employed on housing work, to ensure them against loss of time in bad weather by a minimum wage 'wet or dry.' In return the trades unions will be asked to consent to dilution and the employment of unskilled and semi-skilled labor, to give up their apprenticeship rules, and to abandon all opposition to the employment of ex-service men, trained or untrained. There are 'luxury building' tribunals to hear appeals against decisions prohibiting buildings regarded as non-essential.

"There are housing bond campaigns all over the country. In London subscriptions to the 6 per cent. bonds are coming in at about the rate of 100,000 pounds sterling a day. While the local governments are issuing 6 per cent. bonds, the British Government charges 7 per cent. Borrowing in the ordinary way for housing schemes not financed by bonds is usually 7 per cent.

"The total number of housing schemes in England and Wales numbers more than 10,000, covering in all land for 800,000 houses. Of these, some 7,000 have been approved with an area for 550,000 houses. In Scotland 193,000 houses have been authorized, the bids averaging about 1,000 pounds sterling per house. This is roughly 100 to 150 pounds more than it costs per house in England."

Just a minute, please!

HAVE you got $3.25? All right, this advertisement is written to tell you how you can invest that $3.25 for five years—maybe ten—and get dividends several times a day.

For time is money and an Ingersoll Maple Leaf—price $3.25—keeps time—good time—and with any sort of care lasts five or ten years. Less than a cent a week for time-keeping service!

The dividends are in moments saved, which mean money earned.

And the Ingersoll doesn't fall down on the job just because it happens to fall out of your pocket occasionally. Such an accident is a mere incident to the Maple Leaf—it's a catastrophe to most watches.

One repair bill on an expensive time-piece would buy a Maple Leaf, with enough left over to pay for that wonderful 75c Radiolite Dial that tells time in the dark.

Maple Leaf Radiolite, $4.00

Ingersoll

Models from $3.25 to $14.50

NOW IS THE TIME TO BUY THAT NEW BICYCLE.

Bicycles selling now at $52.00 and $57.00 will sell at $60.00 and $65.00 in the Spring. If you need a new machine or will need one in the near future Order now. No luxury tax on bicycles

Why does the Doctor Prescribe "More Sleep"

SOME people resent the doctor's telling them to get more sleep.

It is really the most disinterested advice he could give. If all his patients slept soundly, *every night*, they would keep their systems toned up and avoid many an ailment.

But go to bed as early as you will—you still will not sleep soundly if your bed rattles and squeaks, if your mattress is lumpy or your pillow puts a strain on your head and neck.

• • •

You should know the Simmons noiseless Bed, the Simmons resilient Spring and the Simmons sanitary, restful Mattress and Pillow.

Simmons Limited is a pioneer maker of Metal Beds *built for sleep*—

Maker of those wonderful Simmons Springs, that really do invite the body to lie out flat, every muscle relaxed—

Expert in producing Mattresses *built for sleep*—soft and luxurious.

Maker of Pillows that *rest* the head and neck.

Specialist, too, in *Twin Beds*—that fine principle of a separate bed for everyone.

• • •

Ask the leading merchants in town about Simmons Steel Beds, Brass Beds, Springs, Mattresses, Pillows, Day Beds and Children's Cribs.

The most popular sleeping equipment in the store—and they cost little if any more than the ordinary.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established *beautiful and authoritative design* in Metal Beds.

The **"FRONTENAC"**
Design 1900—in Twin Pair

Made of Simmons new Square Steel Tubing—seamless, smooth and beautifully finished.

Exquisitely enameled in the accepted Decorative Colors.

Has the Simmons patented pressed steel *Noiseless Corner Locks*. Easy rolling casters. Your choice of Twin Pair and Double Width. Specially pleasing in *Twin Pair*.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

"Peterborough Presents Possibilities Unsurpassed."

TUESDAY, SEPTEMBER 14, 1920.

A CRITICAL SITUATION.

The British labour situation grows blacker, and with the issue of strike notices to the coal miners there does not seem any possibility of averting the huge strike. The result of the meeting of the miners' executive today will be awaited with keen anxiety throughout the Empire and there will be a general hope that an unexpected twist in the situation will avert the suffering and distress of a tie-up in mining. The British government is maintaining a firm attitude and has no intention of yielding to the demands of the miners, who have refused to submit their wage demands to a competent court and who are considered to be menacing the country with an industrial strike for political purposes. The strangest feature of the situation is that while the government has apparently no doubt that the threatened strike will materialize the British people have no fear of the coming trouble.

GOVERNMENT PROPAGANDA.

In sending out pamphlets warning the people of Canada against the danger of a spread of the Soviet doctrine throughout this country the Federal Department of Labour might find that more attention would be paid to the warning literature were it not for the attempts that friends of the government are persistently making to fling up with the Bolsheviki all those who do not favour the present administration. The latest document to reach the Examiner is entitled, "Information respecting the Russian Soviet System and its Propaganda in North America." It is an interesting pamphlet covering the principal features of the Soviet system and emphasizes the fact that the Red regime in Russia has resulted in the murder of thousands, the death of millions by war, plague and hunger and in the destruction of industry, of agricultural production and financial credit. No harm can be done by hammering these truths home to the Canadian people, but the propaganda of the Department of Labour would be much more successful if its effect were not lessened by the attempt to make political capital out of it. People who are told that those who oppose the present government are in the same class as the admirers of the Soviet will be inclined to view somewhat doubtfully the warnings issued.

PIONEER HISTORY.

Premier Drury's appeal, during the course of his speech at the annaul meeting of the York County Pioneers and Historical Society, for a better story of the life and adventures of Canada's early settlers is one that will be endorsed by Canadians generally. It is true, as Hon. Mr. Drury points out, that there is a wealth of tradition in many sections of Canada that should be collected and preserved before it is too late. Our population numbers thousands of newcomers who know nothing of the pioneer days in Ontario and our histories from which the new generation is taught contain little that is descriptive of the struggles and trials of those who blazed the trail for us in this great province. York county is fortunate in its Pioneer Society, which has kept alive the traditions of the county and is a pity that there are not similar organizations throughout the province. In our own county of Peterborough, there is much credit due to Mr. F. H. Dobbin, who has collected a vast store of interesting information in regard to the early history of the district. The Examiner has been delighted to publish many articles from Mr. Dobbin's pen dealing with happenings in the old days and these, with others along the same line that we hope to give our readers, will supply a vast amount of the information that Premier Drury declares is essential.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Sample Box free if you mention this paper and enclose 2c. stamp to pay postage.

MANY CANDIDATES.

With the entrance of two farmer candidates in the field the by-election in West Peterborough grows in interest. The next development that will be closely watched is the policy that the Independent Labour Party will adopt. It is apparent that the working alliance between farmers and labour, which is in existence in many ridings that are partly urban and partly rural, is completely shattered so far as West Peterborough is concerned, unless the labour interests are willing to make an abject surrender and throw in their lot with the official Farmer candidate. The Farmers have made it clear that they are through negotiating with labour and are ready tofig ht their battles unaided so that an yadvances that may be made will have to come from the Independent Labour party. The probabilities are, however, that labour will place a standard-bearer of its own in the field. With Mr. Burnham running as an independent, two farmer candidates and a Labour man in sight, the nomination of Government and Liberal candidates would give the electors the choice of six aspirants for office, which would assuredly constitute a record field for a political contest in this riding. It is a situation that is full of interest and hat is indicative of the change that has come over the realm of politics in the past few years.

THE LURE OF THE LEAVES.

"What do we with those who grieve them
O'er the fevers of the mind?
Beauty's followers will leave them
Far behind."

Summer is the time of memory-storing for the winter months. Remembrance of flowers and trees folds itself away in our beauty-loving hearts, and who can measure the wealth it may prove on a day of grey outlook and faltering faith.

Just before they are autumn-touched to sunset shades, and wind-carried to winter sheltering, the leaves take on a preciousness that belongs to all leave-takings. The summer past has been rich in foliage and spring-kept greenness and the trees have been loved by worship. Unstained by dust and safe from parching heat, they have revelled in a season given over to every mood of the mind and sun and rain, and their beauty and luxuriance have won the notice of the most unheeding eyes.

On a windless sunlit day, or an evening of quiet rain, there is a stillness among the leaves that is reflective and reverent. Like so many beautiful hands outspread in benediction, they keep a hushed, listening quiet that penetrates to the source of evrey discordant thought within us, dispelling our "foolish fears and futile fret," "blurring remembrance and quieting pain," making room for the peace that is the very essence of their stillness. With the coming of occasional little winds, there is a busyness among them, yet every movement is restful. Beautiful aloofness and inviting intimacy blend in their graceful swaying and display a dignity of purpose and a spirit of playful adventure, withal a comradeship with each other, the warmth of which is past naming.

However furious the storms that sweep and the winds that lash, there is a tenacious devotion to every little twig, a clinging tenderness for the black and silvery-grey boughs in each frail stem and silken form. The secrets of the dewdrops, of rainbuds, of enfolding mists,of wind-whisperings, of singing birds, of stars and the velvet dark, are all too wonderful to yield without a struggle.

For moments all gay and abandoned, come the stray little gipsy breezes and each leaf takes on a mood all its own and dances each its own little interpretation of the joy of the moment. Shaking with laughter at the antics of another, whirling independently in utter yielding to a mood so gay, each little leaf invites its human companions to the carnival of the breezes and bids care be forgotten and love and laughter reign supreme.

But of all happy moods of the leaves there is none so enchanting as that in which they give forth their silken music at the invisible touch of the wind that comes with fairy fingers to play upon their hidden harps. Loving the touch of each other, their swinging melodies blend and unite in whispered notes that are unforgettable and lovely. On an evening of quiet, the "woodnotes of the rain" fill the shadows with a music like that of distant, flute-like singing, sweet and allurring "as swayed by tides of dreaming or bowed by gusts of thought." The moods of the leaves are many and their ministry ever beautiful for seeing eyes and understanding hearts.—London Advertiser.

GUS HILL COMING TO THE GRAND

With an aroused anticipation of a rare treat in store, the lovers of minstrelsy await the forthcoming engagement of Gus Hill's Minstrels, which is the attraction announced at the Grand for Saturday next, matinee and night. Gus Hill's Minstrels — justly acclaimed the greatest organization of its kind ever offered the American public—includes fifty of America's best known minstrel stars. This mammoth aggregation of unsurpassed comedians, sweet voiced songsters, talented musicians, soloists, skillful dancers and a score of gloom destroyers offer a programme of humour, melody, mirth, happiness and revelry. Among the leading fun-makers are Emile Subers, Sam. Curtis, Rags Leighton, Billy Monitor, Harry O'Brien, Harry Bohme, Fred. Freddy, Gene Pearson, Pat. Rogers, Fred. Werner, Richard Barstow and John Cahill. James Gorman, the most renowned of all the old and new producers and directors of minstrelsy, is responsible for the many new and novel features of the performance. Originality is the keynote of this sterling organization. A happy blending of old-time minstrelsy and peppy combination of the modern school of minstrelsy, with old "King Jazz" playing a leading role, sets a standard of excellence for this attraction that has never been equalled by kindred organizations. The management promises a most gorgeous and extravagant scenic production and costumes which are said to be the smartest ever seen in minstrelsy. Watch for the parade at high noon.

SUIT FOR DAMAGES FOR NON-DELIVERY OF SUGAR

TORONTO, Sept. 14.—The action by the United Farmers' Co-operative Co., Limited, against Medland Bros., Limited, for $17,550 damages for alleged failure to deliver thirteen car loads of sugar, has been set down for trial. The plaintiffs claim that they contracted with defendants for delivery of the sugar a $16.50 per hundred pounds and that when disappointed they had to purchase in the open market at $21.00 per hundred pounds. The defence is that there was no contract and that in any event the amount claimed is excessive.

New hair growth

Wonderful new growths of hair are being reported by those using Kotalko, the Indian hair compound. In many cases it has induced a full hair crop where there was a large bald spot. Kotalko is obtainable in drug stores everywhere. Or send 10 cents, silver or stamps, for proof box to KOTAL COMPANY, LIMITED, 366-L Adelaide St. W., Toronto.

SOCIAL UPHEAVAL FACING BRITAIN

JAMES M. BECK SAYS COUNTRY FACING MOST SERIOUS CRISIS SINCE CROMWELL'S TIME

NEW YORK, Sept. 13.—James M. Beck, ex-Assistant United States Attorney-General, returned on the White Star liner Adriatic from a three months trip abroad, accompanied by his wife and daughter during which he visited England, France, Germany and Belgium. Mr. Beck said that the League of Nations was dead absolutely in Europe, and the only country where it is spoken of is the United States.

Mr. Beck said that the Europeans blamed President Wilson for the failure of the League as he was its most enthusiastic supporter. Apart from the subject of the League of Nations he found that Americans were treated everywhere, judging by his experience, with hospitality ond courtesy, as the majority of the people abroad do not blame the citizens of this country for what has happened.

Giving his opinion upon conditions in Europe, Mr. Beck said:

"England is passing through the most serious social revolution since the time of Cromwell. Among the many distinguished English publicists I found a spirit of grave apprehension. The authority of the political State, as against the powerful labor group, is at stake. Apparently, an impasse has been reached, for the labor leaders were not sufficiently satisfied with the solidarity of their forces to push their extreme demands, while the Government did not assert its authority fully with the hazard of a general strike.

France is Prospering.

"The best opinion seemed to be that a sober second thought of the manual workers would save the situation. If not, the only salvation of parliamentary government lies in the patriotism of the middle classes.

"In France, social conditions were much better. Labor had rejected the spirit of Sovietism and was loyally co-operating in the work of reconstruction. Great progress had been made. The crops were in fine condition and public men spoke with confidence of the future, as was shown when before any announcement of a new loan, there were advance applications by the thrifty peasants and small business men for a considerable portion of it. The same was true of Belgian, and the worst condition in both countries was the condition of their cattle. Tuberculosis and foot and mouth disease was so prevalent that milk was a very scarce commodity.

"I visited the occupied portion of Germany, chiefly to see the American flag floating over Ehrenbreitstein, the fortification on the Rhine opposite Coiblenz. Too much praise can hardly be given to our army administration on the Rhine. General Allen rules this portion of Germany with firmness, fairness and magnanimity. He tempers justice with mercy, for each day he feeds 10,000 German children who are undernourished. If I can judge all of Germany by the Rhine provinces, it is a land of despair.

"Thousands are unemployed, and those who are employed are only too obviously suffering frm malnutrition. Only for the very little children is milk available, and for adults there is only very bad bread, no sugar or butter, and meat only once a week.

Met King Albert.

"While in Belgium I was greatly privileged to have a private audience with King Albert, which lasted nearly an hour, and we discussed many subjects. He expressed the greatest admiration for America and its institutions, and even greater gratitude for its help in Belgian's hour of dire need."

DEBENTURE DEBTS OF ONTARIO CITIES

PETERBOROUGH RANKS ELEVENTH IN REPORT FOR YEAR 1918

The statistics of Ontario municipalities for the year 1918 are a year and a half late, having but recently been published. However, notwithstanding the report's belated appearance, some information interesting to-day will be found therein. For instance, the debenture debt of each municipality is given as it was at the end of the year 1918. The assessment and population figures for the year are also shown, and they afford matter for interesting comparisons.

Total Debts.

At the end of the year 1918 the total debenture debts of the twenty-three cities, includin of course school debentures, were as they appear in the following table:

Toronto	$104,116,153
Ottawa	15,569,048
Hamilton	13,017,826
London	8,128,852
For William	7,840,399
Port Arthur	7,452,531
St. Catharines	3,588,521
Brantford	3,377,266
Windsor	2,994,532
Sault Ste. Marie	2,660,865
Peterborough	2,537,862
Guelph	2,296,143
Stratford	2,235,117
Kitchener	2,067,838
Kingston	1,776,635
Galt	1,723,093
Belleville	1,377,425
St. Thomas	1,324,791
Sarnia	1,197,781
Chatham	1,110,388
Welland	988,834
Woodstock	974,945
Niagara Falls	908,712

In the above it will be noticed that Peterborough stands eleventh in the list.

Per Capita Debt.

Per head of the population, these debts vary from $493.54 in the case of Port Arthur to $73.08 in the case of Niagara Falls. The twin cities of Port Arthur and Fort William lead all the other cities by a very wide margin. In this connection Peterborough still stands in eleventh place.

The following table shows the standing of twenty-three cities in per capita indebtedness:

Port Arthur	$493.54
Fort William	401.60
Toronto	212.62
St. Catharines	187.00
Ottawa	159.30

BUY Long-Term Securities NOW

BUY Long-Term Securities NOW

Investors who demand security first usually have to be content with low rates of interest.

High interest rates usually imply risk.

But just now, money is "tight."

To move the grain crop, the Banks are calling loans from manufacturers and merchants.

Money usually available for investment purposes is required to "carry on" business.

Interest rates therefore are high, and bond prices are low.

VICTORY BONDS are among the best long-term securities available. We recommend those falling due in 1933, 1937 and 1934.

We shall welcome an opportunity to serve you in your investment matters irrespective of the amount of your funds.

A Man! An Accident! A Miracle!

Right Here In Peterboro Last Week

A plank upon which were two men fell across my toes, crushing them so I thought the bones were broken. Upon bathing them in warm water they were swollen, purple in color and very painful. I bound them up in

GALLAGHER'S GOLDEN DROPS

In a short time the pain was gone. The next morning my toes were practically all right; I put on my boots and went to work. If anyone told me anything could do what GOLDEN DROPS did I would not believe them. It is a miracle. My name and address may be had at the Gallagher Remedy Company's office. You should keep a bottle in the house as it may save you much pain and loss of time.

CITIZEN.

Not what it will do but what it has done. Took the pain out of a bad scald in two hours and healed it in one day. Killed a carbuncle in twenty-four hours. Healed a sore which could not be healed for years. Has cured many infections and a felon in two days, and countless other unbelievable things.

GALLAGHER'S GOLDEN DROPS are for sale at all our city druggists and in every town in this district. Price, 50 cents.

THE GALLAGHER REMEDY CO.,
332 WATER STREET - PETERBORO, ONT.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

THIS LEAVES THE ARMS FREE FROM HAIRY GROWTHS

(Toilet Talks.)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get delatone.

EX-STAGE STAR IS NEW MARCHIONESS

(Canadian Press).

LONDON, Sept. 13.—By the death recently in Johannesburg, South Africa, of the Marquis of Queensberry, an ex-Gaiety girl, who three years ago was the youngest star in Theodore and Co., becomes the new marchioness, Viscount Drumlanrig, the heir to the title, romantically married Miss Irene Richards, the actress daughter of a London mill-owner, in 1917. She is an exceptionally pretty and talented girl, and studied singing under Jean de Reszke.

Miss Richards got her first big chance in the West-End when, after only three rehearsals, she took Miss Iris Hoey's part in "Mr. Manhattan" at the Prince of Wales' Theatre. When she took one of the leading parts in "Theodore and Co.," she was only 18. At the time of the wedding Viscount Drumlanrig was 21 and a lieutenant in the Black Watch. He was severely wounded just six weeks afterwards, and subsequently took a post under the Food Ministry in Cornwall.

Marriages from the stage into the peerage were frequent during the war. Last year Miss Evie Carew, of Daly's, who had married Rowland G. Winn, in 1915, became Lady St. Oswald on the death of her father-in-law. In 1913 Lord Edward Fitzgerald married Miss May Etheridge, and in the same year Lord Dangan, heir of Earl Cowley, married Miss Hay Picard, whose stage name was Pearl Aufrere. Miss Connie Gilchrist became Countess of Orkney. Miss Belle Bilton married Lord Clancarty. Miss Eva Carrington became Baroness de Clifford. Miss Anna Robinson married the fifth Lord Rosslyn.

Rich in Honors.

The ninth Marquis of Queensberry was a Douglas, whose family had figured in the forefront of Scottish history since the days of the Border feuds. He was rich in honors and dignities, yet of personal wealth he had for most of his life next to nothing. For years his seat was a villa in a Hammersmith by-street, and a little farm in Scotland was all that remained of the once broad acres of his family. He crowded a remarkably adventurous life into his years.

The elder brother of Lord Alfred Bruce Douglas was born in 1868, son of the eighth marquis, whom he succeeded in January, 1900. As a boy, he served for a short time in the Royal Navy, entering through the Britannia, but left as a midshipman. He then joined the army, and became a subaltern in the 3rd Militia Battalion of the King's Own Scotetish Borderers. Lord Queensberry did not remain with his battalion very long, and resigned from it in 1891. It is said that he found the restraints of discipline somewhat irksome to his freedom-loving nature, and, accordingly, embarked on a more independent career. He attempted several ways of earning a livelihood.

Affairs in Bad Way.

None was financially successful. On four occasions, indeed, his affairs were made the subject of public inquiry in the bankruptcy court; and in reply to a question at one such examination he candidly stated that at that time his only source of support was derived from selling wines and spirits on commission. About ten years ago he went to the United States, with the avowed intention of settling there. While in Chicago he was at one time a sporting reporter; he was also an actor, a cowboy, and a rancher; and in Canada he worked as a mining engineer, while in Australia he was a gold digger, making $250,000, which he later lost on the Stock Exchange.

And who follow not afar.

"NEWSBOY KING" IS TOURING WORLD

LONDON, Sept. 14—America's "newsboy king" Sam Cole, of Dayton, Ohio, has reached London on his "round-the-world-on-a-nickel" tour, coming here from Berger, Norway.

Cole left Dayton in February, 1919, with five cents in his pocket, and has been living like a fighting cock ever since by selling picture postcards of himself. He says his itinerary has so far included 31 American States and Canadian Provinces; then Getherburg, Sweden; followed by Stockholm, Malmo, Copenhagen and Christiana. He says that's enough to satisfy him that he doesn't like European climate, and that he is now "going to winter in South America, where it's warm." He sails from Liverpool to-day, bound for Buenos Aires.

Later he will return to France and complete his tour of the continent. After that comes Australia, and then a hope to the Far East. He expects to finish the tour somewhere between 1925 and 1927.

"The chief idea of this stunt," he said, "is to lay the foundations of an international newsboys' association to be called the 'League of United Newsboys.' I expect to write about my experiences and to use whatever money I can make from that and from this world trip to establish the league. Cole is creating a sensation in London streets by wearing a tremendous Stetson, and carrying a two-foot pencil (lead) an inch in diameter decorated with the Stars and Stripes. He uses it to autograph the postcards he sells at a quarter apiece. He also exhibits a portfolio crammed with letters signed by American and Canadian governors, that of Mr. Cox, the Democratic nominee, being among them.

MAY RELEASE BRAY FOR GOOD CONDUCT

WINNIPEG, Sept. 13. — R. E. Bray, one of the imprisoned strike leaders, will be given his freedom next Friday, it was authoritatively stated tonight. Bray was convicted and sentenced to six months.

The jail term would not expire till the end of this month, but a fortnight is being lopped off it for good conduct. Bray became prominent in connection with the strike as the leader of parades.

DRAWING CONTEST

"Hans" and "Fritz" Katzenjammer, "The Shenanigan Kids," have been in an accident. As you see by the drawings Hans' and Fritzs' noses and mouths are gone. Take you pen, pencil or you can color them with crayons, but do your best to provide them with new features, or rather the same features as are seen in the colored supplements.

To the First Fifty Boys or Girls who provide the best drawings of Hans and Fritz, a prize of a seat to the Matinee Performance in the

GRAND OPERA HOUSE

Thursday, Sept. 23, at 3.30, will be awarded.

All drawings in the contest must be mailed to the Peterboro Examiner before 6 p.m., Monday evening, Sept. 20th.

Everyone will send in a drawing so get busy at once. Prize winners names will be published on Tuesday, Sept. 21st.

Dressmaking and Ladies' Tailoring Department

These departments are now prepared to execute orders for any desired delivery and, as usual, are prepared to give satisfaction in style, fit and workmanship. By ordering early you may avoid disappointment later on in the season.

A saloon-keeper exclaimed when dying, "I have helped to ruin more than five hundred young men in the forty years of my business. I have broken the hearts of wives, parents, and children; now I am in the depths of darkness, where thoughts come and speak and strike and burn in my tortured soul. The drink leaves only the memory of blue lips and twisted smiles of starving children; ghosts of murdered loved ones make their home with me, while spirits of fallen genius, of noble ambition, now encircle me." Better a millstone about one's neck, that such a living horror!

HIS OPPORTUNITY.

"I think I'll get a chance to use my car to-day."

"How's that?"

"The chauffeur has has a quarrel with the cook"—From the Philadelphia Bulletin.

THE PETERBORO' CLOTHING MERCHANTS CUT PRICES TO STIMULATE BUYING

ALTHOUGH WHOLESALERS COSTS ARE HIGHER FOR THIS FALL—MONEY CAN BE SAVED MAKING CLOTHING PURCHASES RIGHT NOW

Although wholesale costs are higher for this fall, money can be saved by making clothing purchases right now.

It is a surprising fact that the advance buying in men's clothing in Peterborough stores has been made by shoppers in the district rather than by those actually living in the city, and a review of the situation seems to reveal that while the resident of the city is looking for a greater slump in prices, the out-of-town shopper has taken advantage of the condition, whereby the retailer for the past month or more, found it necessary in order to stimulate trade, to cut his selling prices considerably, and the shopper has profited at the expense of merchants during this time.

The consumer of all commodities is naturally hopeful for a drop in prices these days, with the war which boosted costs, now two years behind them. But that hopefulness should not engender an impatience not warranted by actual retail conditions, nor stimulate a postponement of the purchase of seasonable needs in expectation of a slump in time to acquire seasonable goods at prices below those prevailing this autumn.

Two Big Factors.

Two big factors have the past few years made for an everlasting climb in prices—labor and the European demand for raw material—and both are still at a high peak and likely to remain so for some time yet. In the matter of wearing apparel for this fall and winter, the buying public would do well not to expect any further drop. A little downward flurry in wool prices as announced by the American Woollen Company, should not induce one to postpone buying fall and winter needs in expectation of a retail clothing price tumble. The reduction in the price of wool is not reflected in the finished article until next season.

Retailers place their orders months ahead of their requirements and manufacturers are working on orders for next year. Just at present time the clothing merchants of Peterborough, in order to stimulate trade, have made unusual cuts in clothing prices, not consistent with the wholesale price of fall and winter goods for this season, and sorting up orders reveal the fact that these same goods cannot be replaced at the same wholesale cost to the retailer, as when the original order was placed. When the consumer is buying and wearing fall and winter goods the manufacturer is preparing for the following spring and summer demand; hence costs of production and selling prices are influenced by conditions existing from three, four to six months previous to the season for selling. Thus it can readily be seen that any present reduction in raw material or wages should not materially affect present retailing.

The prices of wearing apparel today are possiby as low as retailers can stand without suffering loss. In fact their profits on many lines have been cut into while the limit has been reached this fall. This policy is impelled by the need of a quick turnover, and not because a lowering of manufacturers' prices is at hand for this season. As a matter of fact, clothes are selling in Peterborough for prices at which they cannot be replaced either now, this fall or winter.

And so the consumer of masculine and feminine wear who anticipates substantial price reduction in time to lay in a supply of fall and winter clothing, is more than likely neglecting the substance for a shadow.

With regard to fruit and vegetables conditions are somewhat different. These are produced from hand to mouth, so to speak, and production this year has been extraordinarily prolific, to say nothing of people maintaining their own vegetable gardens. Such circumstances of course force a lowering in price of these perishable commodities.

TO KEEP HAIR CURLY, WAVY AND BEAUTIFUL

Here is how your hair can be curled nicely, easily and harmlessly. Before doing it up, apply a little silmerine with a clean tooth brush. In three hours you will have just the prettiest curls and waves—and they will look and feel so natural you'll never think of doing without silmerine thereafter. You won't be troubled any more with hair stringing around your face—with burnt, uneven ends, nor with that dull, dead appearance. The hair will remain in curl ever so long.

Any druggist can of course supply you with liquid silmerine, and a few ounces will last you a long time. It is neither sticky nor greasy, and is really a delightful thing to use. It is doubly useful because of also serving as a beneficial dressing for the hair.

PRESENTATION TO PIPE-MAJOR THOM

MEMBERS OF PIPE BAND PRESENTED A HANDSOMS CLOCK AS A MARRIAGE GIFT

A special meeting of the Peterboro Caledonian Pipe Band was held last evening in the Salvation Army Hall, Pyresville to present the Pipe Major Mr. J. Thom, with a marriage present from the members.

Mr. Stroyan Leith, Secretary of the Band read the following address:

Gentlemen, Members of the Pipe Band,—

We have met here to-night for the purpose of showing the high esteem and respect we have for our Pipe Major, Mr. Jas. Thom and his wife. Not only as a member of our organization but as a true stamp of Scot manhood that has left his native land for the land of his adoption to help to build up the great Empire associated with the motherland, also the masterly way in which he has taught the members of the band, and last not least, the benefit he has been to the City in organizing the Peterboro Caledonian Pipe Band.

Now, Mr. Thom, I request you to accept this handsome clock from your fellow members as a marriage present to you and your wife. May it tick the minutes of happines and good health throughout your married life is the sincere wish of all the members.

Mr. Robert French, president, handed ovr the gift to the Pipe Major who was completely taken by surprise and expressed his sincere thanks on behalf of himself and his wife. He anticipated producing a Kiltie Band worthy of recognition in the Dominion and a credit to the city.

A PRESENTATION TO MISS ANNIE JORDAN

CUT GLASS WATER SET FOR A SEPTEMBER BRIDE

Last evening a number of the members of the weaving department of the Auburn Mills assembled at the home of Miss Annie Jordan and presented her with a handsome cut glass water set in honor of her approaching marriafe to Mr. Douglas Eldred, which took place this morning and as a token of the affection and esteem in which she has always been held in the department of the mills with which she has been associated for a number of years. Miss Jordan in a graceful reply thanked the young ladies for their kindness and spoke of the many memories of happy hours spent amongst them which she would carry into her future life.

Too Fat?

Do not try to become slender by drastic doses of thyroid or salts. Reduce weight and waistline; also hips, double chin, etc., by the safe, reliable Korein system. The shadow on this picture gives you an idea how she looked and felt. By taking Korein and following easy directions of Korein system she reduced from clumsy features to graceful proportions. Now she is agile, attractive, mentally alert and in better health. Why not you? Reliable anti-fat self-treatment.

Let Korein Make You Slender

Many, both sexes, report they have reduced 10 to 60 pounds. No starving; no exhausting exercises. *Become exquisitely slender and remain so.* Safe, pleasant method, endorsed by physicians. Legions of testimonials. $100 GUARANTEE or money refund. Buy Korein (pronounced Koreen) at busy druggists'. Or write for free booklet to Korein Company, 277-A, Toronto, Ont.

GOING THE PACE.

"What kind of a time is he having on his motor trip?"

"Guess he's having a pretty lively time. He sent me a picture postcard of a hospital." —Louisville Courier-Journal.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

My representative, Mr. W. J. White, will be at the Empress Hotel, Sept. 17th, Friday

with the Finest Stock of Human Hair Goods for Ladies and Gentlemen. For Ladies' Wigs, Transformations, Pompadours, Switches, and all other Hair Needs.

Special Treatments for Scalp and Hair. For Gentlemen, the closest imitation of nature in a Natural Toupee or Wig at a Reasonable Price, and the best of Satisfaction given.

Call on Mr. White—and remember the Date.

Where Message Rates Apply

MESSAGE rates are proposed *for business telephones only* in the cities of Montreal, Toronto, Hamilton, Ottawa, and Quebec.

All other service continues on the flat rate basis--that is residence service in the above five cities, and both business and residence service in all other places.

The Bell Telephone Company of Canada

770th BARGAIN ANNEX EVENT

Bargain Annex
Registered

WEDNESDAY, SEPT. 15th, 1920

"LITTLE DARLING" AND "LITTLE DAISY" HOSE, 59c PAIR (SECOND ANNEX SALE)

These fine ribbed cashmere stockings have perfectly finished heels and toes and have no hard seams or lumps to irritate the wearer. The sizes are from 4 to 7 and nearly all are black.

LADIES' 85c SILK BOOT HOSE, 49c PAIR, 2 PAIRS FOR 95c

This excellent quality fibe silk hose can be had in black only, and the sizes are 9 and 9½. They have fine black lisle uppers and are fashioned with seamless feet. If we bought them to-day we would have to pay 85c a pair for them.

A Record Breaking Annex Sale of Many Lines at Less Than the Maker's Prices

—Every Arcade Window Is Filled with This Underpriced Annex Goods

PRACTICALLY all the Leader lines for to-morrow's Annex Event are offered at less than to-day's cost to the makers and wholesalers. We draw your attention to the ladies' sweaters, the girls' sweaters and pull-overs, the white flannelette, the men's fall weight underwear, the plaid blankets, the boys' combinations, the "Little Darling Hose," the ladies' balbriggan underwear, the men's balbriggan underwear, the girls' bloomers and the kiddies' sweater coats. To-day we could not purchase from the makers any of these lines at to-morrow's Annex prices. With this truly remarkable collection of values, we feel confident, and justly so, that a record breaking Annex will be the result. We strongly urge that you shop early if it is possible. ANNEX LEADER LINES WILL BE DISPLAYED IN BOTH SIDES OF THE ARCADE AND ALSO IN THE BACK SHOW WINDOW.

—LEADER—

Knee Length Balbriggan Drawers for Men, 25c

You may not require knee length drawers for this season, but to-morrow's record-breaking Annex price is so low that it makes buying for next season irresistible. Every garment is Penman made and early buyers will find all sizes from 32 to 40. This is only a fraction of the maker's cost.

LEADER

Men's $1.25 and $1.50 Fall Weight Underwear, 79c

This is the best value underwear we have offered in years. It is a fall and early winter weight of merino, and there is a complete range of sizes from 34 to 44 in shirts and 34 to 42 in drawers. A few of the garments are seconds, but they are mostly firsts, and in the regular stock they would sell at $1.25 and $1.50. Buy your supply in the morning while the size assortment is complete.

Boys' Fall and Winter Weight Combinations, $1.19

These garments are mostly traveller's samples, and in many instances are soiled, but can be made clean by a visit to the wash tub. They are "Zimmerknit" and first buyers will find a selection in fall and winter weights. The sizes are 26, 28, 30 and 32. The price is less than maker's cost, so we expect the entire lot will soon be cleared away.

The Greatest Values We Ever Offered in Sweater Coats and Pull-Overs

LEADER

Ladies' All-Wool Sweater Coats and Pull-Overs $2.95

REGULAR VALUES UP TO $12

This is a manufacturer's clearaway lot of over-makes and travellers' samples—a few are slightly soiled but the majority are in perfect condition. First buyers will find all-wool coat sweaters that would regularly sell at $10 and $12—these are in canary colour only. There is also a wide range of all-wool pull-overs in many colours. Their regular values are from $4.50 to $7. Nine o'clock buyers will profit by the best selection.

LEADER

Girls' All-Wool Coat Sweaters and Pull-Overs $2.95

REGULAR VALUES UP TO $7.50

See to-night's window display of these all-wool pull-overs and sweater coats. A good range of girls' sizes from 24 to 32. There are several smart styles, and the colour range includes Nile green, old rose, canary, strawberry, myrtle green, Copenhagen and turquoise. Over half the lot are regular $6.50 and $7.50 values.

—LEADER—

Kiddies' $1.50 to $2 Coat Sweaters 50c

The colors are navy and Copenhagen blue. Some are all-wool and others are union garments. There are sizes for kiddies from six months to four years. This price is only ¼ to 1/3 of the regular values.

—LEADER—

$3.00 House Dresses for . $1.95

The present-day price of the wholesalers for these same house dresses is twenty-seven dollars a dozen. They are made of a splendid quality Canadian percale; light grounds with blue and black stripe and polka dot patterns. They have white pique collars, self belts and two useful pockets. Nine o'clock buyers will find every size from 36 to 46.

—LEADER—

Girls' 75c and 85c Colored Balbriggan Bloomers . . . 49c

There are ten dozen and the sizes are 24 and 32 only. The material is a fine lisle finish balbriggan, in colors of pale blue, navy blue and grey. They are fitted at the knee and waist with elastic bands.

Ladies' 85c White Balbriggan Drawers, for 49c

Ladies' fine lisle finish white balbriggan drawers. They have the popular tight knee for Fall wear; sizes 36 to 40. They are not seconds—absolutely first quality.

Boys' All-Wool Jersey Knit Sweaters for $1.95

$2.75 TO $3 VALUES

There are button shoulder and pull-over styles and all are jersey knit. The colors are cardinal, garnet with oxford trimming and also heather mixtures.

"Gold" and P.&G. "Naphtha" Soaps 10 Bars for 94c

It is a splendid quality black and white shepherd check dress goods with medium size checks. This fabric washes perfectly and is in demand for children's school garments. The width is 36 inches.

The CRESSMAN Company Limited

EUROPEAN SITUATION IMPROVES

For the last two months the security markets of Canada and the United States have been watching with an extreme and, in our opinion, exaggerated nervousness the developments of the war between Soviet Russia and Poland. These developments have been made the so-called cause of violent fluctuations in market prices. The European security markets, which are considerably closer to the scene of operations, have not exhibited anything like the same amount of nervousness and, under ordinary conditions of Exchange, London might very possibly have been able to exercise some restraining influence upon the apprehensions of New York. But, when Sterling Exchange itself becomes a subject for the operations of American bulls and bears, it is difficult for London to exercise any direct influence upon the course of American security prices or upon financial opinion in the United States.

Apart from wars and rumours of wars, the condition of Europe appears to be steadily changing for the better. A wave of economy, much delayed but none the less welcome, is reported to be sweeping over England, France and Italy, and all three of those countries are gradually reducing their imports and enlarging their own production. The announcement that France will repay in cash a large part of her share of the Anglo-French Loan at maturity is an indication of increasing strength and confidence. The exchange rates of the various European currencies in New York afford very little indication of the real improvement in conditions, for they are at present largely affected by the actions of alarmist speculators who can see little but the fighting in Poland. It is but natural, too, that the pound sterling, particularly, should be somewhat depressed at this season of the year due to heavy purchases of food and raw materials from the American continent and the consequent heavy offerings of grain and cotton bills against London.

Clean to handle. Sold by all Druggists, Grocers and General Stores

LINDSAY BOY SERIOUSLY HURT BY MOTOR CAR

Head and Shoulders Crushed—Driver of Auto Unknown.

LINDSAY, Sept. 14.— A very serious accident occurred in the noon hour yesterday, when little Arthur, the five-year old son of Mr. and Mrs. W. Hefferman, William street, sustained serious and painful injuries.

According to an eye-witness, the little boy was playing with several other children in the alleyway beside Mr. A. C. Babcock's store and between a standing car and the wall. Playfully the child backed out into the open laneway and unwittingly straight into the path of a car entering from the street. The hind wheel caught the child, crushed his head and shoulders into the cinder path and ground his body along for several feet. The driver, unknown at present, evidently thought his car was clear of the child as he released the frantically applied brakes, when the rear wheel passed completely over the boy's neck.

Willing hands carried the child to his home and Dr. Blanchard was summoned. The sufferer was in great pain with his face and head terribly lacerated, his hair torn and his back raw from the grinding cinders. All that medical skill could devise was done and the child is now resting as comfortably as could be expected. The driver of the car has not made himself known, but his number 30970 was secured and an investigation instigated by the police.

CUTICURA HEALS RASH ON CHILD

On Body and Face. Red and Itchy. Cried For Hours. Lasted a Year.

"A rash started all over my little girl's body, and she had some on her face. It started in a pimple that was full of water, and it got red and itchy. She cried for hours. This trouble lasted a year.

"Then I started with a free sample of Cuticura Soap and Ointment. I bought more, and I used four cakes of soap and three boxes of Ointment which healed her." (Signed) Mrs. Dora Langly, 1037 Gervais St., Verdun, Que., August 11, 1919.

The Cuticura Toilet Trio Consisting of Soap, Ointment and Talcum is an indispensable adjunct of the daily toilet in maintaining skin purity and skin health.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

Aunt Ruth's Beauty Notes

THIS SEASON'S FASHIONS ARE BUILT TO DISPLAY THE HANDS.

Brilliant fans to permit a graceful motion of a perfect hand. Sleeveless gowns that lead the eye down the slender arm to rest on the finger tips. Beads with which pink finger tips may toy. These and a dozen other pretty fancies this season are especially designed to display the hand.

Never before have the hands been so conspicuous; never before have women given so much thought to their care.

The chief beauty of the hands is the nails. The cuticle must be slender, even firm. If possible each nail should show a pretty half-moon at its base.

If is unpardonable this year not to have perfectly kept nails and cuticle.

PROTECTION WAS ATTACKED AT OPENING SESSION TO-DAY

(Continued from page 1).

1878, to $4,904,000,000 in 1919; miles of railways from 6,484 in 1879, to 38,896 in 1919; railway earnings from $20,000,000 in 1879, to $380,000,000 in 1919.

"Since 1878 the composition of our population has changed, says the statement. "Then the great majority of the people were engaged in farming, lumbering and fishing. There was comparatively little business activity, and those who could not be employed in the above industries were forced to emigrate, with the result that some millions of Canadians are living in the United States to-day who would never have left Canada if opportunities for employment had been available."

British and Foreign Capital Invested in Canada.

It is argued that as a result of the protective tariff, 600 branches of United States' factories have been established in Canada. These factories employ about 87,000 people and represent invested capital of about $300,000,000. British capital invested in Canada is about $2,000,000,000. The statement then relates to various measures which have been taken to encourage and protect Canadian agriculture, pointing out that these are sound and consistent with the doctrine of protection, because they are designed to stimulate a total value of farm produce in the Province for 1919.

Statistics are quoted showing the following increases between 1911 and 1916 in the value of farm produce in the Prairie Provinces Horses, 54 per cent.; cattle, 53 per cent.; sheep, 73 per cent.; swine, 91 per cent.; poultry, 23 per cent.

The growth of industry in Manitoba, Saskatchewan, and Alberta, is also extraordinary. In 1900 the value of goods manufactured in these three provinces was a negligible quantity. For the present year a very conservative estimate would place the value of goods manufactured in the three Prairie Provinces at $300,000,000. In 1900 there was not a single member of the Canadian Manufacturers' Association located west of the Great Lakes. At the present time there are seven hundred, —five hundred of these in the Provinces of Manitoba, Saskatchewan and Alberta. In fact, Western Canada is becoming rapidly industrialized, — the industries which have made the greatest strides being milling, packing, steel and iron, clothing, textiles, building and paper.

The average value of occupied farm lands in Canada increased from $38 per acre in 1910, to $52 per acre in 1919. In 1917 the average capital per farm was $9,356. Moreover, our industrial development has not caused any undue depopulation of the rural areas. In 1911 the rural population of Canada was 54.47 per cent. of the total population. This is a marked contrast to Great Britain where the rural population was 49.8 per cent. of the whole when free trade was adopted in 1846, and had fallen to 21.9 per cent. in 1913.

The statement then draws attention to an unfair method of attacking manufacturers, and through them, the protective system:

"A few manufacturers who have enjoyed marked prosperity are singled out. They are attacked in a sensational manner in the press and on the platform. Their profits for particularly successful years are advertised. Their financial statements are analyzed unfairly. No attempt is made to average the lean years with the good years. No tribute is admitted to efficiency, economical management, or unusual business ability. These outstanding examples of prosperity are held up to the public as a general condition of entire industries. This method of argument is as unfair as it would be to hold up some phenomenal case of profitable farming, or a lucky strike in mining as an example of how agriculture or mining pays generally."

Revenue.

The statement refers to the Budget speech of the Finance Minister, estimating the country's balance sheet last year as follows:

Estimated expenditure (including capital outlays) ..	$549,649,428 00
Estimated Revenue	381,000,000 00
Estimated deficit	$168,649,428 00

It is argued that if free trade is adopted and the customs revenue which is estimated at $170,000,000 is lost, the deficit will be $335,649,428.

United States Competition.

It is pointed out that last year we bought from the United States goods to the value of $802,000,000, while the United States bought from Canada goods to the value of $464,000,000. Last year each inhabitant of the United States bought on the average $4.41 worth of Canadian goods, while each Canadian bought $100.26 worth of United States goods. Moreover Canadian purchases in the United States were mostly manufactured goods, while their purchases in Canada were chiefly raw materials. This is the situation with a Canadian tariff. What would it be if the tariff were abolished? In comparing the advantages of United States manufacturers over Canadian manufacturers, the statement argues that the United States has maintained a protective tariff for 131 years, Canada for 52 years; that the United States has a more highly organized industrial system, supported by greater wealth; that United States manufacturers are assured their home market of 105,000,000 people, guaranteeing a large output and their ability to specialize, while the Canadian home market of 8,000,000 has already been seriously invaded; that the United States has comparatively a greater labor supply; that were it not for the tariff United States manufacturers, during periods of over production, could flood Canadian markets until many Canadian manufacturers were driven out of business, and then, having secured control of the Canadian markets, could charge what prices they liked. It is argued that Canadian natural resources should be conserved and that Canadian products should not be exported in the raw state, but that they should be manufactured as far as possible in Canada in order to create business, provide employment, and add to the national wealth.

The statement expresses strong approval of arranging preferential tariffs among the various countries of the British Empire, similar to those now afforded by the customs tariff of Canada to such countries. Reference is made to the accomplishment of the Canadian industrial system during the war. If we had not built up a factory system with its allied business, if our manufacturers' business had been done for as largely by other countries, then Canada could not have sent so many men to the war, could not have supplied shells ships, and aeroplanes, could not have given large financial aid, and could not have absorbed demobilized soldiers.

Conclusion.

The statement concludes as follows:—

"In the course of this statement an effort has been made to show that manufacturing in Canada is inseparably connected with other industries; that two million wage earners and dependents secure their living through manufacturing, and that the most of the remainder of the population derive indirect benefits; that this country as a whole has made remarkable progress under the national policy of protection; that, with the entire world swinging towards protection, Canada cannot relinquish it; that the revision of the tariff should be scientific and take into consideration the requirements of all classes, that a stable fiscal policy of protection with some assurance of permanence is a vital need; and, finally, that the aim of the fiscal policy, determined as a result of this enquiry, should be to advance Canada towards her destiny as a fully developed nation within the British Empire."

A Paris Chemist Has Discovered How to Grow Hair.

In Paris the ladies have entirely abandoned wearing rats, which is due entirely to this new discovery.

It has been proven that certain herbs contain ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The French are now placing on the market a preparation containing the extract from Herbs and leaves, which is having a phenomenal sale.

This preparation is called "DELMAY'S FRENCH HAIR TONIC" and is being sold with a guarantee to remove dandruff and to grow hair in abundance. Being daintily perfumed, DELMAY'S FRENCH HAIR TONIC makes a most pleasant dressing, and is sold by your druggist. Price, $1.00 a bottle.

Sold in Peterborough at Bond's Drug Store, corner Hunter and Queen streets, Medill's old stand.

Alkali In Shampoos Bad For Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

CHICAGO TORONTO NEW YORK

TOOK THE CAR TO TORONTO. INSTEAD OF PIDGEON LAKE

ACTION TO RECOVER FINE AND EXPENSES IN DIVISION COURT

In the Division Court yesterday afternoon before Judge Huycke and a jury, Dr. J. P. Pulkinghorn brought action against John Perdue of the Fire Department for the recovery of $28.25.

It was alleged that Perdue had hired a car from Dr. Pulkinghorn, for the purpose of going to Pigeon Lake to fish. Instead he went to Toronto. On the way he exceeded the speed limits and Dr. Pulkinghorn received a summons to appear in the York County Police Court. Dr. Pulkinghorn brought action to recover the fine and his expenses.

The jury brought in a verdict in favour of the plaintiff for the full amount of the damages and the costs of the court.

B. D. Hall appeared for the plaintiff and G. N. Gordon for the defendant.

Chicago has a new type of motor bus with a covered upper deck, entirely enclosed with glass.

Four per cent. of the world's automobiles are found in Canada.

MRS. F. WHITEHOUSE SAYS PRICES MUCH HIGHER IN ENGLAND

RETURNS TO PETERBORO' AFTER AN EVENTFUL CONCLUSION TO TRIP

Mrs. Frank Whitehouse and her daughter of 771 Water St., returned last night from a three months' visit in England and on the return trip were passengers aboard the 'Metagama which ran aground on the sand bank in the St. Lawrence River.

Mrs. Whitehouse said this morning that she knew nothing of the grounding of the vessel until the morning after the Metagama had run into the sand when, while dressing for breakfast, she heard a passenger out side her door remark that it was a pity after such a delightful trip that they had grounded. Feeling the engines still working she couldn't understand the remark until coming out of her cabin, she discovered that the ship had encountered the accident spoken of and that the engines were still pounding, the captain endeavouring to take her out of the sand. She afterwards discovered that a freighter, Wisley, which was in the narrow channel, had swerved about and to avoid a collision the Metagama had run into the sand. Otherwise she had no knowledge of the misadventure.

Passengers Taken Off.

The passengers, who included His Lordship Bishop Sweeny and His Lordship Bishop Farthing and other prominent clergy who were returning from the Lambeth Conference, were taken ashore on little boats, similar to those plying the Otonabee

Conditions in England.

Speaking of prices in England Mrs. Whitehouse said that everything is much higher than in Canada, an orange costing twelve cents and eggs ten cents each. Butter is very high, while candy ranges between one dollar and seventy-five cents to two dollars a pound.

VOICE OF THE PEOPLE

To the Editor of the Examiner:

Dear Sir: Will you kindly allow me some of your valuable space to bring to the attention of the City Fathers the neglected condition of King Edward Park and to offer a few suggestions for improving it?

The South half of it was plowed some years ago—I do not like to say how many—and left in a rough furrowed condition. The grass and the weeds have since grown up and covered the rough appearance of it, but it is unpleasant to walk over and dangerous for the children to play on.

There is quite a number of fine young trees which were planted out some years ago but they were allowed to grow bushy from the ground up and have not been cared for in any way.

The said South half of it should be plowed, harrowed and levelled, and seeded down and the trees properly trimmed and cared for.

Peterboro fair is coming on with its thousands of visitors, and the appearance of King Edward Park will not give them a very good impression of the way the affairs of the city are managed.

No doubt there will be a number of farm tractors, plows, etc., on exhibition desirous of giving demonstrations of their work. Wouldn't it be practicable to allow them the park for this purpose providing that they would do the work in a satisfactory manner?

A large number of the De Laval employees pass the park every day, and that energetic company might undertake to plow up the park for the city. It is time that this city, with its numerous parks, has a Parks Commissioner and a staff of men sufficient to properly care for all the parks and the trees of this beautiful city as they should be looked after. The individual citizens take pride in keeping their lawns and boulevards in a neat and tidy condition and it is up to the city to do their share.

In closing I might say that the people of the South end of the city are wondering why there were no band concerts in the King Edward Park this summer. They pay their share of the costs of what concerts are given up town, and receive no benefit. It is too far to walk up town and stand around for a couple of hours listening to the band and then walk home again. It is immaterial to the motoring part of the population where the concerts are held. We do not seem to have a representative from the South end on the city council any more.

TAXPAYER.

IT IS EASY TO LOSE AN UNSIGHTLY COMPLEXION

Have you ever exclaimed as you beheld your complexion in the mirror, "If I only could tear off this old skin!" And, do you know you can do that very thing? Not to actually remove the entire skin all of a sudden; that would be to heroic a method, and painful, too. The worn-out cuticle comes off in such tiny particles, and so gradually, it doesn't hurt a bit. Little by little the beautiful complexion underneath comes forth. Marvelous! No matter how muddy, rough, blotchy or freckled your complexion, you can surely discard it by this simple process. Just get an ounce of ordinary mercolized wax at your druggist's, apply like cold cream, washing it off mornings. The result will be truly marvelous.

Wrinkles can be gotten rid of by an equally simple method. By dissolving an ounce of pure powdered saxolite in a half pint of witch hazel and bathing your face in the solution, every line will completely disappear. First the finer lines, finally even the deep crow's feet.

LAWYER ROBBED IN COURT.

NEW YORK. —While waiting in Harlem Court, where he was to defend three young men charged with robbery, Frank Amarow, an attorney and a former Assemblyman, was robbed of his wallet containing $50 and some valuable papers.

Twenty-Five Year Ago

It was as cold as this in Summer, but not since. This year it has been overcoat weather every night. Think of numbers of nights last summer when our throats were thirsty and our foreheads feverish. We'll forget about the minor obstacles.

WELL!

In spite of all this, our Ice-cream sales have been greater than ever. We have sold 35% more Ice-cream than last year, so far.

WHY?

Because the Toronto City Dairy know how to make Quality Ice-cream Creations, and we know how to serve them, and our Customers know where to get them —That's why.

ONTARIO SERIES IN A FINE MUDDLE THROUGH GREED FOR GATE MONEY

The baseball situation is so far as the Ontario championship series is concerned, is in a fine muddle. Hillcrests and Oslers, who were to have met last Saturday to decide the Toronto championship, the winner to play Peterborough on this Saturday, were unable to play owing to rain. Last night the Toronto Amateur Baseball Association met and ordered the game to take place on Saturday, regardless of the fact that this would necessitate a week's delay in the Ontario championship series, and that the O.B.A.A. wants a Toronto winner declared in time to meet Peterborough Saturday. The Ontario Executive is holding a conference to-day, and will undoubtedly order the T.A.B.A. to have a winner decided before the end of the week, with the result that if the Toronto Association adhere to their decision not to play the Hillcrest-Osler series until Saturday, they will be thrown out of the Ontario championship series, and Peterborough will have to play the Western winners in the finals.

The tangle is caused by the greed of the Toronto outfits, who are giving a fine exhibition for so-called amateur teams. They are anxious to grab off the big gate that would be taken at a Saturday game, and care nothing for anything or anybody else. Peterborough has been waiting six weeks for the Toronto group to select a winner, and now they ask for another week in order that they can gather in a few more dollars. They should take that word "amateur" out of the name of the Association. It certainly does not fit an organization that thinks only of gate money. There is no reason why the Oslers and Hillcrests could not meet to-morrow, except that the crowd would not be as large as on Saturday.

"The fans are our first consideration," President Verrall, of the T. A. B. A., declares. Bunk! The fans' money, and not the fans themselves, is the only thing that the "Hogtown" gang has in mind.

LOCAL FOOTBALL GOSSIP

SPECIAL MEETING OF THE EXECUTIVE TO-NIGHT AT 8 P.M. PROMPT —OTHER ITEMS OF INTEREST

A special meeting of the Peterboro Football League will be held in the G. W. V. A. Rooms, to-night at 8 p.m. prompt. Very important business will be discussed. Gentlemen, remember time and place.

Yes, the protest that the Canadian Woollens has lodged with the Association in regard to playing an illegitimate player is causing a lot of talk in footfall circles. Perhaps the Association may request the two team secretaries to write a full statement so as it may be sent on to O. F. A. headquarters to settle. We will wait and see!

At last Saturday's game the well-known goal keeper of the Canadian Woollens was an interested spectator because he was carrying a souvenir of the previous Saturday. We wish Sam a quick recovery.

The Caledonians will have to look for a new goal-keeper, owing to Charlie Fenner being unable to get away from business. Perhaps Dick Knox or Alf. Brinton will substitute.

Previous to the game two weeks ago at the Oval the Captain of the Canadian Woollens informed Gash that he had been transferred to the G.W.V.A. and should not play for C. G. E. but he replied that they were short of players.

On Labour Day in Oshawa the G. W. V. A. held a field day and had the all Scots of Toronto playing an Exhibition Game. According to paper reports the Toronto and District Secretary was present at the game and must have been presenting bouquets in abundance. He should call up to Peterboro and see some of the games that are played here

The games for Saturday afternoon are Caledonians vs. G. W. V. A. at the Exhibition Grounds and Canadian Woollens vs. De Laval at the Oval.

At present the C.G.E. team are in communication with the Oshawa G. W.V.A. Executive trying to arrange home and home games for a near future date.

Last Saturday afternoon the Young Yins defeated the Auld Din Yins in the Bounce Game of Football by three clear goals. You should have seen wee Bobbie Irwin on the wing giving some of his old time touches. He played in the Glazier team for the Burnham shield many years ago.

The Canadian Woollens Football Team will practice to-morrow (Wednesday) evening at Nichols Oval at 6.15 p.m. After the practice a general meeting of all associated with the club will be held in Windsor Hotel at 8 p.m. A full attendance is requested.

All signed players and officials of the Caledonians are requested to be the Exhibition Grounds at 6.15 p.m. for the practice game.

It was decided at a meeting of the T. & D. Executive last evening to raise a Memorial Fund in memory of the late Mr. Tom Watson.

Miss Peggy Dundas, with "GRUMPY," at the Grand Friday, Sept. 17th.

ARLIE MARKS HERE FOR THE EXHIBITION

WHAT THE PRESS AGENT HAS TO SAY ABOUT THE SHOW

This is not fiction, but actual truth. If you doubt this why not make comparison and see for yourself. Take for instance other outside attractions in the theatrical profession and compare them with a real true Canadian attraction such as Arlie Marks, the popular little commedienne, who will be at the Grand Opera House on Sept. 20, 21, and 22, with her associate players. She has shown this year that it is without a doubt the biggest and most expensive repertoire company travelling in Canada to-day. The company is guided under the successful management of Lindsay E. Perrin, and nothing has been spared in the way of proving that Canadian material can be superior to all others in their respective lines.

JANE LAMB, with Arlie Marks.

Arrangements have been made, and the company is playing the latest releases, and the vaudeville between the acts have never before, on account of expense, been attempted by any other repertoire company. Popular prices will prevail.

Opening play: "Where the River Shannon Flows."

"GRUMPY"

The coming of an all-English company of players next Friday will indicate how quickly the "Motherland" is falling back into powerful pursuits, and her people again dispersing to all points of the compass in the lanes of commerce, art, finance and entertainment.

The star aggregation to play here includes Fred. Compton, one of the late Sir Richard Mansfield's leading men. He was a Captain in the Royal Irish Lancers, and bears the scars of serious wounds, and in recognition of his services "over there," has been awarded the Military Cross.

Gerald Rogers, late of Sir Herbert Tree's company, also Sir George Alexander's and Gerald DuMaurier's, was a lieutenant in the Royal Garrison Artillery; while Bailey Hick of Cyril Maude's original cast in "Grumpy" was a commissioned officer in the Princess Pats. These gentlemen are leading London thespians, and are well-known all over England. They have very important roles in the approaching presentation of "Grumpy" at the Grand Opera House, and will be one of the first overseas' residents to play here since the war.

Ticket sale opens Wednesday.

NAZIMOVA IN GREATEST SCREEN ACHIEVEMENT

DISTINGUISHED STAR SEEN AT THE GRAND THEATRE IN "OUT OF THE FOG"—WILL BE REPEATED TO-NIGHT

"Out of the Fog," the latest screen production in which the internationally famed actress, Nazimova, will be seen, was the feature yesterday at the Grand Theatre, where the first performance was witnessed by a large and appreciative audience.

This play, which is a screen adaptation of the powerful stage drama, "'Ception Shoals," from the pen of H. Austin Adams, made famous by Nazimova to theatre-goers in her long and successful New York run, gives this distinguished star two roles of widely different character. In it she is seen as both the mother and the daughter at different periods of the play — character which for range of emotion it would be difficult to duplicate.

Deep and heart-moving as the drama is, there are, at the same time, many whimsical and delightful moments—a change from tears to laughter which would tax to the uttermost the ability and art of an other actress but which, to this woman of many moods, comes naturally and convincingly. It is a play replete with gripping power and subtle charm—bringing vividly to the imagination the griefs and joys of the ardent characters portrayed. Supporting Nazimova is a cast of sterling players numbering such actors as Charles Bryant, Henry Harmon, Nancy Palmer, George W. Davies, T. Morse Koupal, Charles Smiley, Tom Blake, Hugh Jeffrey and Dorothy Smoller. The play was adapted for the screen by Albert Capellani and June Mathis and directed by Albert Capellani under the personal supervision of Maxwell Karger, director general.

This picture will be repeated to-night and to-morrow.

ENQUIRY OPENS AT THE SOUTH, ETC.

(Continued from page 1).

Former Inspector Called.

John Boyd, farmer, and former Inspector of Games and Fisheries, was the next witness called. He is not now Inspector of Game and Fisheries, being one of those required to send in his resignation at the first of this month.

During the course of his evidence it transpired that he had paid out two sums of money, one of $7 to a boy named Albert Roach, and $5 to Lucius Matte, both on election day. In his evidence he claimed that the $7 given to Roach was for going a message, and the $5 to Matte was a sum owed to Matte for about three years. Witness said that he had driven various people to the polls. He had got them to come, and a chauffeur drove the car.

"That $5 to Lucius Matte was all the money you paid?" asked Mr. Waldron.

"Yes, that's what I owed him. He did not have any vote, anyway," said witness. He had gone to the Matte home at Merrickville and had there seen Alex. Matte, Mrs. Alex. Matte and Lucius Matte. Some three years ago Lucius Matte had taken him out fishing and had rowed him to various points, as well as giving him the use of a boat. For this he owned him $5. Matte had gone away without asking for the money, and election day happened to be the first time witness had seen him since.

PEDDLING MARRIAGE LICENSES DEVELOPS INTO REAL FARCE

PORT ARTHUR, Ont. — "With women in politics you have as much chance of civil marriages as a marriage in heaven," declared Chairman W. G. Gregory, of the Ontario Public Service Commission, during a discussion introduced by Magistrate Pallinger of Fort William, at the hearing here on Saturday. The magistrate during the examination introduced the subject of marriage by magistrates of Ontario, and followed with a statement that "the peddling of marriage licenses in the City of Fort William was a joke."

"You can buy a marriage license in any place from a grocery store to a junk shop," said the magistrate, who also declared many couples in the city procured a license, hung it up at the head of the bed, and considered that sufficient ceremony.

A man who keeps an eye on the line separating obstinacy from independence will save himself a lot of trouble.

FINGER SHOT OFF.

LINDSAY, Sept. 14.—Mr. Hudson, of Pottinger street, had the misfortune to suffer a painful accident on Saturday.

While down the Scugog river duck shooting Mr. Hudson's gun was accidentally discharged, the bullet carrying away one of his fingers. Dr. Collison dressed the wound and no serious results are anticipated.

OAK HALL

KIDDIES, HERE IS CHANCE FOR YOU

FIFTY TICKETS TO "KATZENJAMMER KIDS" TO BE GIVEN AWAY BY THE EXAMINER—READ THE INSTRUCTIONS CAREFULLY

Boys and girls would you like to see that uproariously funny play, "The Katzenjammer Kids," at the Grand on Thursday, September 23rd, without paying a cent for the privilege? You can do it and have a lot of fun in your effort to qualify for a free ticket. Here is how it can be done:

The Examiner has arranged with the manager of the play for 50 free tickets for the little folks of Peterboro. In another column you will find partly completed pictures of your old friends of the funny page, Hans and Fritz. The idea is to finish these pictures by drawing in the noses and mouths and and such other lines as you may think of to improve the pictures. You may use pen or pencil or colored crayon as you prefer.

Those who mail or bring their completed drawings to The Examiner before Monday night, September 20th, will have a chance to share in the distribution of the 50 tickets.

The judges will consider carefully all the drawings submitted and will select the 50 best. Announcement of the winners will be made in Tuesday's edition of the Examiner and the free tickets will be given out on Wednesday.

It will cost you nothing to submit a drawing. It will give you practice as a newspaper cartoonist and it will be lots of fun.

Turn to the page with the pictures of Hans and Frit now, draw in the missing lines as directed and bring the finished picture to the Examiner office before Monday night. No telling—you may develop into a Darling, or a McCutcheon or a Briggs or a Webster.

Go to it, little folks, and good luck to you, but remember to be fair—do not have some older person do the work for you.

REGULAR MEETING OF THE LOCAL BOARD OF HEALTH LAST EVENING

FACTORY SEWAGE MUST NOT BE DUMPED IN THE OTONABEE RIVER.

Dr. T. W. H. Young, recently appointed Medical Officer of Health to succeed Dr. McPherson, who resigned to fill the new position of Medical Supervisor of the Public Schools, last evening attended the first meeting of the Board of Health since his appointment.

Another new face at the meeting was that of A. T. Metheral, plumbing inspector.

Ex-Mayor George H. Duncan presided, with Mayor McIntyre, E. F. Mason, James Lynch, and C. S. Stapleton, sanitary inspector, present.

The chairman extended the welcome of the Board to Dr. Young and Mr. Metheral. On behalf of the Board he expressed regret at Dr. McPherson's resignation, but he was sure, he stated, that Dr. Young would give them his best services.

Mayor McIntyre endorsed the chairman's remarks to which the new M. O. H. replied in a few words of thanks.

Numerous communications that aroused no lengthy discussions, reports, both written and verbal, were quickly disposed of, and at nine o'clock the meeting was over.

City Solicitor Widdifield advised the Board that in the case of the extra nurse needed at the Isolation Hospital for the North Monaghan paid the regular rate considered they Harran family, the township having could not be called on to pay for the nurse. The rates at the hospital were too low anyway the chairman declared and members of the Board coincided with his opinion.

Dr. Young felt that the township under the circumstances couldn't be held responsible. The nurse, it was said, wouldn't have been required if this family hadn't been admitted.

Hospital Report.

The matron's report of the Queen Mary Hospital for July and August shows that there were 3 patients in the hospital on 1st July. Of these, one was a case of measles, the other two were smallpox. During the month 4 cases, made up of one of measles, one of diphtheria, and two of smallpox, were admitted. All of the cases were from the city. Six patients were discharged during the month, leaving one patient with smallpox in the hospital on 1st August. No local cases were admitted during the month. One outside typhoid case was admitted, the smallpox patient was discharged, and on 1st September there was only the one typhoid patient.

During July the cost of upkeep of Queen Mary Hospital was $1235.51, and during last month was $273.60—making a total expenditure to date of $6088.48.

Three nurses are on duty at the hospital now.

The unusually high expenditure and the high cost of caring for a few patients, running up as it does to more than the cost of a private room at a modern hospital per patient, prompted Mr. Lynch to remark upon this expenditure.

Dr. Young agreed that it seemed to be an enormous expense.

The chairman pointed out that the three nurses were perhaps not needed now, but in view of their faithful service it would seem ungrateful to dispense with them in a slack period. They had been busy repairing bedding and fixing the hospital up, he said. At any time an epidemic may break out, and he believed it best to maintain them. At any rate, he left the matter to the M.O.H. to recommend.

Says Conditions Unsanitary.

Gordon & O'Brien wrote on behalf of their client, Mrs. John B. Peace, 490 Gilchrist Street, that the street was in a most unsanitary condition, and asking for some action to be taken.

Considerable light was thrown on the subject of the communication by Sanitary Inspector Stapleton. It appears that Peace's house faces a row of outside closets back of the terrace owned by J. T. O'Connell on Park Street. Failing in all attempts to get him to install waterworks, Mr. Stapleton said he had at last to let the law run its course, and the owner was appearing in Tuesday's Police Court, charged with a breach of the Public Health Act.

It is to these unsanitary conditions the residents of Gilchrist Street object, and the owner will be forced to modernise the sanitary conditions of the row of houses, it is declared.

A letter from E. A. Peck, dated 26th August, was read. Mr. Peck, representing the County Council, stated that the little Biggs girl, who caught typhoid while living down the river, was in a serious condition, and must be given proper care at once. He requested that she be removed to the Queen Mary Hospital, and he suggested, with the approval of John McIntosh, Reeve of North Monaghan, that the question of responsibility for the hospital expenses be left to the County Judge.

The Biggs family were only living down the river for the summer, and who would have to pay for the child's care depended on the version taken of the Public Health Act.

Dr. McPherson claimed that the township was liable, while they argued that the Biggs family were residents of Peterborough, and as such the city was liable. There has been a complete deadlock, and North Monaghan's suggestion that it be left to the County Judge will be acted upon, and if action is necessary before His Honour will hear the case ,the city is prepared to sue the county for the sum, whatever it is.

The serious menace to the health of the city that is allowed to exist in the Canadian Packing Company drains emptying into the river in direct contravention to the Public Health Act was a matter of no little interest brought up by the Sanitary Inspector, and the Plumbing Inspector, both of whom declared that sewage and waste products were being emptied into the Otonabee, regardless of sanitary measures, and other members of the Board corroborated their statements, and agreed that it was time that action be taken by the Board.

By a motion of Mayor McIntyre, seconded by James Lynch, the M.O.H. will notify the Canadian Packing Company not to empty any more filth into the Otonabee River.

Disregard By-law.

The Sanitary Inspector reported the public disregard of the Garbage By-law to the Board. Instead of having the required covered receptacles, garbage is put out in wooden boxes, tin pans, and any container from a tea cup up. Putrefaction is unavoidable unless the tins are properly covered, and in the interests of public health this measure will have to be enforced. Citizens, he also declares, do not drain their garbage as they should, and it is now next to impossible to keep the fires up at the incinerator. They have never yet had to buy any wood to keep up the fires, depending on old boxes, but these are now no longer given them, and if the public do not co-operate by draining off the water in the tins, wood will have to be bought. Dead cats or animals the garbage men will take away, but when it comes to live ones, Sanitary Inspector Stapleton declares they do not run a cremation plant. Only the other day a batch of kittens that were evidently an unwelcome presentation by "Kitty" into the household, were found stuffed under the garbage. "Now, it's pretty hard on the men having to throw those tiny kittens in the fire, and there must be a stop put to it."

Dr. Young brought up the necessity of garbage collection on holidays or the day after holidays. Holidays mean that there are certain sections in the city that have only one collection a week. Besides this, Mr. Stapleton alleges that the garbage collectors have not skimped themselves in the way of extra holidays, and the garbage collection service has been entirely disrupted for this reason.

The Mayor's motion that the Property Committee make some provision in their by-law next year for the collection of garbage at least twice a week carried unanimously.

Rates at the Queen Mary Hospital were raised from 70 cents a day for residents of the city to $1.25, and $3.00 for non-residents to $3.50—the new rates to take effect on 15th September next.

Dr. Young favoured a $1.50 rate, but he compromised to the lower price.

WHITE GLOVE DOCKET FOR THE ASSIZES NEXT WEEK

NO CRIMINAL CASES, CROWN ATTORNEY HATTON INFORMED COUNCIL, AND ONLY THREE CIVIL CASES, ONE OF THEM FOR TRIAL BY JURY.

JUDGE MIDDLETON PRESIDES

The docket for the Fall Assizes which open at the Court House on Tuesday afternoon September 21st., is bare of criminal cases and has only three civil actions one of which is to be tried by jury.

One of the non-jury cases is a suit brought by Robert H. Fortye against T. Herbert Kendry for $1875 alleged wages and commission and for costs of the action. The plaintiff claims $25 a week wages from March 1st 1918 to july 1st 1919, a period of sixty-five weeks for a total of $1625.00 less $50 paid on account. This wage balance is $1575 and is supplements by $300 for commission on sales, making a total of $1875.

Mr. Kendry replies that Mr. Fortye wasn't employed by him on the basis of weekly salary, but says that the amount due the plaintiff is $227.94 which is paid into court.

R. R. Hall is solicitor for Mr. Fortye and Gordon and O'Brien are representing Mr. Kendry.

McIlmoyle vs. Stabler.

W. H. McIlmoyle that Fred Stabler agreed to attend a Sheriff's sale and bid in the house at 298 Pearl Avenue. Mr. Stabler bought the house and paid $45 provided by McIlmoyle, above the encumbrances. Mr. McIlmoyle claims that they were joint owners of the property. The encumbrances amounted to $1600. The defendant sold the property for $3000 and $1600. Mr. McIlmoyle claims that under the agreement he is entitled to half that difference of $2300 and asks for the sum of $1150.

Mr. Stabler denies that he bought the house under an agreement with the plaintiff, and presents a counter claim for $285 for wages alleged to be due for various work he performed for the plaintiff.

Gordon and O'Brien are the plaintiff's solicitors and Peck, Kerr and Mc Eldery the defendants.

Claim Against Mr. Bagley

In the case to be heard by a jury His Honour Judge Ruddy of Whitby asks for the cancellation of an agreement under which he alleges James G. Guise Bagley bought a lease of the premises occupied by Ruddy and Burnham at 440 Water street at the corner of Brock street. Before his elevation to the bench the premises included the law offices of Mr. Ruddy and Mr. J. H. Burnham. The plaintiff claims that on April 21st 1917 Mr. Bagley entered into an agreement to purchase the lease for $3100. The arrangement provided for the payment of $300 before May 1st 1917 and $100 on each of the following days Nov. 1st 1917 ;May 1st and Nov. 1st 1918; May 1st and November 1st 1919 and the balance on May 1st 1920. Mr. Bagley also assumed a mortgage of $1600 as part of the purchase money, and agreed to pay taxes and other charges.

Judge Ruddy reserved the right to leave his law books in the office until he found it convenient to remove them.

It is stated that Mr. Bagley defaulted payment on November 1st 1919 and of the interest on the principal sum of $1500 and that on Dec. 4th 1919 he assigned to the Shereiff for the benefit of his creditors.

The plaintiff claims that the principal sum of $1500 has been overdue since May 1st 1920 together with interest at the rate of 5 1-2 per cent. also that he failed to pay the interest on the mortgage, the taxes and ground rent.

Judge Ruddy asks th court to order defendants to surrender the agreement for sale in order that it may be cancelled and that payments made by Mr. Bagley be forfeited. He also claims costs of the action.

Defendants Reply.

In his reply Mr. Bagley says that Judge Ruddy and J. H. Burnham had a law partnership at the premises at the corner of Water and Brock streets. In March 1917 the plaintiff advertised that he had a good legal practice to dispose of. Mr. Bagley entered into negotiations for the purchase of it and alleges as a precedent to the contract that Judge Ruddy and Mr. Burnham had a good joint practice which would be transferred to him. He contends that it was this legal practice and not real estate he desired to acquire and that the purchase of the premises was expressly for the purpose of turning over the law practice to Mr. Bagley, who alleges that Judge Ruddy told him the partnership firm had done a good business.

Mr. Bagley says the plaintiff represented that he had purchased the lease for $2100 and had spent several hundred dollars in alterations, but that he was charging $3100 for the premises and throwing in the practice.

The defendant paid altogether $700 under the agreement. He alleges that Mr. Burnham had no practice and that the "so-called legal practice of Mr. Ruddy's was of no commercial value," and instead of being a good business for two partners "it was a dwindling moribund business and was not sufficient to support one practitioner."

Mr. Bagley says he was victimized by the plaintiff and suffered "great financial damage."

He asks that the action be dismissed, that $700 be repaid him, and seek $10,000 damages.

Judge Ruddy in turn denies that he sold the legal practice of Ruddy and Burnham, that the property was fairly valued at $3100, that Mr. Bagley bought it after making his own enquiries, and that his failure to carry on a lucrative practice was due to the criminal methods of the defendant Guise Bagley.

R. R. Hall is solicitor for Judge Ruddy.

BAND CONCERT TO-NIGHT.

The series of concerts by the G. W. V. A. Band will begin to-night with a concert on Weller Street. There will be a concert each evening this week, the place to be announced later. The series of concerts will close with a sacred concert in Victoria Park on Sunday evening.

PAVLOWA ORCHESTRA CLOSES SEASON TO-MORROW

LAST CHEMONG PARK DANCE UNDER THEIR AUSPICLS TO-MORROW NIGHT

The young people of the City and others who have enjoyed themselves so much at the Pavlowa Wednesday Night Dances at Chemong Park will regret to learn that To-morrow Night's Dance is the Last of the Season. The Music supplied by this Orchestra has been excellent, and a Special Programme is being prepared for To-morrow Night's Farewell Dance, at which a large crowd is expected.

AMENDMENT TO ASSESSMENT ACT

Exemption of $200 Allowed For All Dependent Children.

By a recent amendment to the Assessment Act householders are allowed exemption of $200 for all dependent children under 18 years of age from personal earnings only.

As the local income forms were returned before the new amendment went into force anyone desiring to take advantage of this should call at the assessor's office at once.

ULTIMATUM FOR THE FIRE CHIEF

One of the firemen told the Examiner to-day that the ten firemen who presented the ultimatum to Fire Chief Grange demanding immediate redress of their grievances have given the Chief until 10 o'clock to-morrow morning to make a decision and that in the event of that decision being unsatisfactory they will resign at midnight to-morrow.

WINDSOR, Sept. 14.—British M.P. delegate to the Trades Congress interviewed, says the coming struggle between Labor and Capital in England will set England back twenty years.

GOOD FISHING IN THE LITTLE LAKE
Here is a real fish story and it is right at home. Mr. K. MacInnes of 298 Mark street, who is an ardent fisherman, was out on the Little Lake before breakfast on Monday morning and caught a 'lunge weighing fifteen pounds and measuring 39 1-2 inches in length, and not being satisfied with this went out after supper and caught a ten pound 'lunge measuring 33 inches. He has caught ten 'lunge so far this season in the Little Lake, but says this record has been broken by Mr. D. Leonard. From these reports it looks as thought the best fishing in the district was right at our doors.

RE 93RD BATTALION ORGANIZATION.
The Committee wishes to tender their thanks to the following merchants who so generously donated the prizes which contributed toward making the picnic a success:
Fitzpatrick & Geraghty.
W. Lech & Sons.

C. Coleman.
W. T. Hooper.
Warne Drug Coy.
United Cigar Coy.
Peterboro Creamery.
L. Yeates.
J. Abraham, Secretary.

DIVIDEND IS DECLARED ON WOOLLENS COMMON

Will begin on Six Per Cent. Basis — Distribution of $26,250.

The announcement yesterday of a dividend of 1 1-4 per cent. on the common stock of Canadian Woollens Limited places that security for the first time on a dividend paying basis. The distribution will be made on October 1st to shareholders of record of September 20, and the 6 per cent. yearly basis which has been adopted by the directors would seem a fair and conservative one as a beginning.

The first annual report of the company issued last month showed a prosperous year's business. The net profits were $423,227, amounting to about 17 per cent. on the 17,5500 common shares. Dividends of $300,727 were paid during the year on preferred stock. The present dividend on common stock will call for a distribution of about $26,250, being at the rate of $105,000 for the year, if the present scale is maintained.

NEW YORK STOCK MARKET

United Press.

NEW YORK, Sept. 14. — Prices were higher at the stock market opening here to-day. U S Steel opened at 88 1-2 up 3-4; Marfine 23 up 5-8; Pan Amer 91 1-2 up 1-4; Central Leather 51 1-2 up 1-4; B and O 41 5-8 up 1-4; U S Rubber 85 7-8 up 1-8; Mex Pet 174 1-2 up 1 7-8; Sinclair 31 1-8 up 1-4; General Motors 21 1-8 up 3-8; Beth B 75 1-4 up 5-8; Rep 79 7-8 up 5-8; Reading 91 7-8 up 5-8; Baldwin 108 1-4 up 1 1-4; Studebaker 62 up 5-8.

Delaware, Lackawanna and Western made an high for the year shortly after the opening at 259. Oil shares acted well in early trading.

REGULAR MONTHLY MEETING OF THE NORTH MONAGHAN COUNCIL

BILL FOR SHEEP KILLED BY DOGS —PETITION FOR LIGHTS IN SOUTH END.

At a meeting of the North Monaghan Council, held yesterday in Mr. W. H. Bradburn's office, Mr. R. A. Payne and Mr. Charles Trotter, who were present, laid a claim for sheep killed by dogs on Mr. Payne's farm on the east half of lot 3, concession 13. Payne claimed that the animals, five sheep and one yearling owned by Trotter and one lamb owned by himself were worried and killed on the evening of September 6th by dogs, the owner of which is unknown.

Bill For Sidewalks.

A bill for $160 was presented by Mr. Sam Belcher for services to date for plans and specifications for the proposed sidewalks at Brownton. The account was passed and ordered paid.

It was moved by Mr. Dobbin, seconded by Mr. Rowan that the $103.31 overdraft for road division No. 5 be charged to road division No. 4 in 1920, the territory being about the same.

Bills Ordered Paid.

The following bills were presented and ordered paid, all bills being chargeable to road division number 5. W. J. Fitzgerald, 1 cord of slabs, $9.50; Robert Hicks, steam coal, $20.55; Kingan Hardware Company, oil and nails, 95c.; Peterborough Hardware Company, cyclinder oil, $3.75; J. E. A. Fitzgerald, cord of slabs, $11.00; John Taylor, 15 hours shovelling snow, $5.25.

Petition For Hydro.

A petition and plan was presented by F. C. Wallwork and others asking for Hydro light and power in the district of May's School House and Western avenue. The Clerk was authorized to communicate with the Hydro Commission at Toronto and get full particulars for the same. The meeting was then adjourned till again called by the Reeve.

Social and Personal

Miss Leone Hummel left to-day to visit relatives in Preston Springs.

Miss Phyllis Young, student of the School of Medicine of the University of Toronto, and daughter of Dr. F. W. H. Young, returned to the city last evening.

Mrs. A. Morris and son, Harry, are visiting her mother, Mrs. J. Booth, 516 Chamberlain street.

Mr. and Mrs. F. Redpath have gone to Hamilton to attend the funeral of his aunt, Mrs. Robert Lawrie.

Mrs. Stevenson and daughter, of St. John, N.B., are guests of Mrs. Stevenson's sister, Mrs. J. W. McDermid.

Miss Mary McCormack, of Vivian, Ont., who has been visiting her sister, Mrs. Harvey Stanton, returned home yesterday.

Mr and Mrs. John H. Denmler, of Pittsburgh, Pa., were guests of Mrs. Demmler's grandfather, Mr. Dan Whetung, 350 Charlotte street, en route for Chemong where they will visit for one week previous to proceeding to Hiawatha. On their return from Hiawatha they will spend a few days with Mr. Whetung and will later leave for Toronto to visit Mrs. Bateson, 23 Saulter street, Toronto.

Miss Betty Armstrong has returned to the city, after spending a vacation with her parents in Brockville.

Mrs. E. F. Torrance came up yesterday from Kingston, to bring Miss Jessie Torrance to Bishop Strachan School.—Mail and Empire.

Mrs. J. R. Stratton, who is returning from the West, is bringing with her her sister-in-law, Mrs. Ormond.—Mail and Empire.

Mr and Mrs. James Lewis and family have returned from a motor trip to Niagara Falls.

Mr. J. H. Barkey of Chicago, is the guest of his grandmother, Mrs. Barkey and his aunt, Mrs. James Lewis, Aylmer street.

Mr. and Mrs. Robert Byers announce the engagement of their eldest daughter, Pearl Evyln, to Mr. Wm. Kruse, of Toronto. The marriage to take place quietly later in September.

Mr. and Mrs. W. C. Barrie announce the engagement of their youngest daughter, Mary, to Mr. Harvey Smith, of Port Hope. The marriage to take place this month. 528 Chamberlain St. 1d-62-2527

Mr. E. Batchelor leaves this week on a business trip to England and France, accompanied by Mrs. Batchelor and family.

Mrs. Alex. Barr, who has been for the past seven years in Western Canada and the United States, remaining in Portland, Oregon, for two years with her three sons, and in Winnipeg with her son and daughter for the remaining five years, is now visiting her daughter, Mrs. J. Gilchrist, 699 Harvey Street.

Mrs. Long, 710 Water street, has returned to the city, after spending the last nine months visiting Fort William and Port Arthur.

BIRTH.

RAYNOR — At the Nicholls Hospital on Sunday, Sept. 12, 1920, to Mr. and Mrs. H. E. Raynor, a daughter.

STEWART.—On Tuesday, Sept. 7, 1920, to Mr. and Mrs. Melville Stewart, Chemong Road, a daughter.

MARRIAGE.

ELDRED—JORDAN. — At 9 o'clock this morning, at St. John's Church, Annie Jordan, only daughter of Mrs. S. Jordan, was united in the holy bonds of matrimony to Douglas J. Eldred. The ceremony was performed by the Venerable Archdeacon Davidson.

STEWART—HESCOTT—This morning, at the Mark Street Parsonage, by Rev. Ross, Chas. Stewart, of the city, to Edith Hescott, also of the city. Mr. and Mrs. Stewart will reside in the city after returning from a short honeymoon.

TRAIN SMASHED DELIVERY VEHICLE

DRIVER HAD A NARROW ESCAPE —ANOTHER BOY JUMPED

A delivery waggon belonging to A. E. Saunders, grocer, was completely smashed, the horse slightly cut, and the driver thrown to the road and rendered unconscious, when the rig was struck by the Grand Trunk Railway train for Port Hope at the crossing at Perry street yesterday noon.

The driver, Cliff Saunders, did not see the approaching train until it was almost upon him. His companion, Harry Pomeroy, jumped just in time, and then the train struck the waggon, lifting it up on the front of the engine and throwing young Saunders to the side of the road. The horse was slightly cut and Saunders was rendered unconscious by the force of the fall.

The train crew investigated the matter and reported it to division headquarters at Lindsay.

At first the crew thought that Pomeroy had been thrown under the train as they did not see him and a search was made for him there, which was interrupted by his appearance.

THANKSGIVING DAY OCTOBER EIGHTEENTH

Canadian Press.

OTTAWA, September 14. — Thanksgiving Day will this year be celebrated on October 18th. A formal order to this effect will probably be approved to-morrow.

OBITUARY

INFANT DAUGHTER

Pauline, the two months and nine days old twin child of Mr. and Mrs. John Donoghue, Lot ten, Concession four, Ennismore, died last evening. The funeral will take place this afternoon from the family residence Ennismore to St. Martin's Cemetery, Ennismore.

U. F. O. HELD A MEETING.

Disappointment Expressed at the Absence of Hon. F. C. Biggs.

At a meeting of the U. F. O., held last evening in the Sons of England Hall, the committee in charge of the field day gave a most satisfactory report of the day, and stated that outside of the disappointment felt at the non-appearance of the Minister, everything had resulted most satisfactorily to all concerned.

The evening was spent informally in the discussion of crop conditions.

Miss Georgia Cuffe left this morning to enter Jefferson Park Hospital Chicago.

VOL. XVLII. NO. 63 PETERBOROUGH, WEDNESDAY, SEPTEMBER 15, 1920 PRICE THREE CENTS

SEARCH FOR A MURDERER

COUNTRY BEING SCOURED IN THE VICINITY OF SAULT STE. MARIE

(Canadian Press.)

SAULTE STE. MARIE, Sept. 5.—Although the country has been scoured, and the police drag net placed over the city, river and Northern Michigan no trace has yet been discovered of Douglas Moore, who it is alleged on Monday night killed George Elliott, a prominent farmer and brick manufacturer of East Korah. A Sault jitney driver is believed to have encountered Moore three hours after the fatal shot was fired, on the Groscap road. The man thought to be the slayer, jumped on the running board of the motor but the driver put on speed and the man was hurled from the machine, later firing five shots at the machine. No trace has yet been discovered of Pearl Mouer or Maggie Bock, who, it is alleged, were in Moore's company. The father of the Mouer girl is being held as accessory to the escape of Moore.

LIGHT OFFERING ON CHEESE BOARD

MR. G. A. GILLESPIE SECURED THE BOARD AT 26 3-16 CENTS

Peterborough Cheese Board met to-day with five buyers in attendance and eleven factories with cheese boarded. The following was to-day's board:

	Boxes.
Warminster	90
Selwyn	70
Villiers	135
Warsaw	90
Ormonde	170
Young's Point	68
Lang	35
North Dummer	70
Stoney Lake	25
Norwood	161
Killarney	62
Total	976

The buyers were G. A. Gillespie, of the Peterborough Milk Products Co.; James A. Cook, of W. S. Cook and Sons, Belleville; T. Thompson, of Madoc; A. A. Ayres Co., Montreal; H. R. Free, of Cobourg, the Harris-Abattoir, Toronto; G. Johnston, Flavelles, Ltd., Lindsay.

The Cheese Board made its annual grant of $10 each to the East Peterborough fair, Norwood and Peterborough Industrial Exhibition for cheese prizes. Delinquency on the part of members of the Board in paying their board fees prompted James Cook's motion that they be billed by the secretary. "Its getting to be a little too thin every year," he said. His motion carried, the members agreeing that some of the buyers needed considerable spurring up.

Opening Bids.

Bidding on the board opened with an offer of 25 1-8 cents by Flavelles. Gillespie bid 25 1-4, Free 25 5-16. Gillespie 25 3-8, Flavelle 25 1-2. At 25 3-4 Cook came in. Bidding continued at 26 cents. Free bid 26 1-16 cents for selections. Gillespie made the same offer for the whole board. Cook raised him 1-8. Gillespie went up 1-16 and got the board at 26 3-16. The price three weeks ago was 27 1-16. The Board adjourned till Sept. 29th when they decided to-day to board the entire month's cheese.

CHEMONG PARK IS BECOMING DESERTED

BRIDGENORTH, Sept. 13.—With the arrival of the autumn Chemong Park is becoming deserted, more especially by parents of children who have returned to the city to attend the fall term.

Mr. and Mrs. Hodgins returned to Peterborough last week.

Mr. and Mrs. T. F. Matthews left for Toronto last Thursday.

Mr. and Mrs. Halpine returned to New York last week.

Mr. and Mrs. Simmon returned to New York during the past week.

Bought Business.

Mr. Charles Graham and Mr. Bert Jones, of Peterborough, have purchased Mr. Percy Udy's long established hardware and grocery business. As each of the young men have had considerable experience, and as the business has been established for over twenty years, there is no doubt of the public being kept supplied with first-class hardware and groceries.

Fishing Good.

Fishing has been good of late, but the ducks have not commenced to flock yet.

Crops Good.

Threshing has commenced and the crop reports are satisfactory.

LEAVES FOR OLD COUNTRY

Mr. J. Eggleton takes a well earned holiday returning in November.

Mr. J. Eggleton of the Robert Fair Company leaves to-morrow, on a trip to England and will return some time in November. Mr. Eggleton takes a well earned holiday after ten years residence in Peterboro.

Provincial Board Of Health Will Be Asked to Reconsider

BOARD OF WORKS DEPARTMENT WILL FIGHT PLANS FOR INSTALLATION OF ACTIVATED SEWAGE DISPOSAL SYSTEM IN PETERBOROUGH

Peterboro will fight the endorsement which the Provincial Board of Health has given the activated sludge system of sewage disposal if the resolution adopted by the Board of Works last night is carried out. The report of City Engineer Parsons was presented along with his doubts as to the efficacy of the system as compared with the Imhoff system. On motion of Ald. Turner, seconded by Ald. Morrison, a resolution was adopted to the effect that in view of the City Engineers' report, the doubts cast on the system, the fact that it is still in its experimental stages, and that the cost of maintenance of an activated sludge plant would be much greater than that of the Imhoff type, the Peterboro City Council should meet the Provincial Board of Health and refuse to install the activated sludge system and state that the City Engineer has information as to the uncertainty of the system and that the City Engineer has ben instructed to draw up plans for an Imhoff disposal plant.

Ald. Turner—"We must force their hand in the matter."

Ald. Whitehouse—"We might as well spend money fighting the activated sluge system as in experimenting with an uncertain type of plant."

Made a Study.

City Engineer Parsons told of the deputation from the Peterboro council meeting the Provincial Medical Health Officer and the Provincial Sanitary Engineer in Toronto and getting Professor Gillespie of the University of Toronto to argue the case. Professor Gillespie had made a special study of the subject and was considered an authority. His arguments in favour of the Imhoff system were unanswerable by the provincial officers but they nevertheless ended the conference by refusing to consider the Imhoff system.

Mr. Parsons told of his visits to sewage disposal plants in various large American cities and states that he had found that the activated sludge system had been practically a failure everywhere it had ben tried. The city of Cleveland had called in the most prominent engineers on the North American continent to solve its sewage disposal problem and they had decided in favour of the Imhoff system. Milwaukee is the only large city which is using the activated sludge system, the City Engineer said.

It was estimated that the activated sludge process would cost about $9,000 a year more to operate than the Imhoff system. The initial cost of the Imhoff process would be about 15 per cent. more than the activated sludge process but the cost of maintenance would be much less, it was shown.

Ald. Hamilton—"Let us not try any more experiments. We already have one here and that's enough."

THE OBJECTIONS.

City Engineer Parsons called attention to the following facts in connection with the activated sludge system of sewage disposal and stated that he would not recommend it.

The effluent from the process is very clear and the reduction of bacteria is high but the question of the disposal of the solids has not been solved. The solids in the sewage are changed into what is known as a colloidal state. They are 98 per cent. water in this condition. No process for extracting the water satisfactorily has been devised. Presses have not proved satisfactorily. The sludge cannot be dried on beds, as that of the Imkoff tanks is. A machine similar to a cream separator has likewise not been efficacious.

The Requirements.

This system will require a considerable amount of machinery which will have to be kept constantly in running order, and a skilled staff of mechanics. Ordinary labour could be employed in the Imhoff plant.

He thought that two storey sedimentation tanks, followed by trickling filters and final settling tanks (an Imhoff plant) would produce an effluent which would be perfectly safe to discharge into the Otonabee River. Imhoff plants have been in operation in places all over the world for years and although certain things about them have caused trouble, they have operated very satisfactorily.

The sludge from this plant is not quite as valuable as that from the activated process as it contains a lower percentage of available nitrogen.

The city of London, Ont., is considering fighting the necessity of using the activated sludge process, even in the courts if necessary. He did not think that it was the business of the Provincial Board of Health how the results were obtained as long as they were obtained in a sanitary manner and without creating a nuisance.

DOWNIE STREET CREEK IS TO BE PARTIALLY CLEANED OUT BY BOARD OF WORKS

MUCH DISCUSSED WATERCOURSE DEALT WITH AT LAST NIGHT'S MEETING OF THE BOARD—STREET SIGNS FOR CITY.

It was decided at the meeting of the Board of Works last night, on motion of Ald. Jones, seconded by Ald. Hamilton, that the Downie street creek be cleaned out under the supervision of the City Engineer between Dublin street and McDonnel street, but that the city's action in the matter not hold it responsible for damage done by future floods.

City Engineer Parsons presented his report on the condition of the creek and stated that a drain could be constructed on this stretch of the creek at a cost of about $10,815. This drain Mr. Parsons recommended to be 6 feet wide, 4 feet, 6 inches in depth, and constructed of concrete, reinforced by half inch iron bars.

It was decided that the expense would be too great for this year and it was thought that the cleaning out of the bed of the creek and in some places the cutting away of the banks would temporarily remedy matters. Mr. Dumble has already cleaned out the creek at the rear of his property between London and McDonnel streets.

It was the opinion of the committee that immediate action of some sort was necesary.

Street Signs.

Sanction was given the proposed campaign of the Board of Trade for the erection of the signs being under intersections by the Board of Works last night on motion of Ald. Turner, seconded by Mayor McIntyre, and to the erectio nof the signs being under the supervision of City Engineer Parsons.

Asked for an estimate of the cost of the work, which the Board of Trade proposes to meet by public subscription, City Engineer Parsons stated that roughly the signs would cost $2 each and that to this must be added the cost of labour and in some cases the cost of iron supports where the signs could not be placed on buildings. There are 149 street intersections in the city and 190 "T's."

The support of the Council will

(Continued on page 6.)

WHERE TO GO TO-NIGHT

GRAND—Nazimova, in her greatest screen achievement, "Out of the Fog."

ALLEN—Henry B. Wathall, in "A Splendid Hazzard."

EMPIRE — Norma Talmadge in "The Probation Wife."

REGENT—W. S. Duncan in "Smashing Barriers." Last time to-night.

GRADUATING EXERCISES of St Joseph's Hospital, at 8 o'clock.

LOCAL ENGINEERS LEFT THIS MORNING

Members of the local branch of the Engineering Institute of Canada who are attending the Institute meeting at Niagara Falls that opened to-day and continues for three days, left this morning by motor for the Falls. The party was composed of R. H. Parson, chairman of the Peterboro branch and wife, R. L. Dobbin, secretary of the Peterboro branch; L. Kilaly, P. P. Westbye, R. B. Rogers, C. E. Sisson and wife, James Mackintosh, and A. E. Cady, of the Campbellford Trent Canal staff.

Alex. J. Grant, M.E.I.C., now engineer in charge of the Welland Ship Canal, formerly of the Trent Canal staff in this city, will open the meeting with a paper on the Welland Ship Canal, and will later show the engineers over the canal. Many other papers on engineering will be delivered by eminent engineers at the meeting, and the Peterboro engineers anticipate a meeting, the results of which, in added knowledge, will be of inestimable value to them in their work.

BAND CONCERT ON WELLER STREET.

THE G. W. V. A. BAND WILL PARADE AT THEIR HALL THIS EVENING AT 6.30 O'CLOCK, AND WILL MARCH TO WELLER ST., WHERE THEY WILL GIVE THE FIRST OF THEIR COMMUNITY CONCERTS. EVERY MEMBER IS REQUESTED TO BE PRESENT SHARP ON TIME.

OLD MAUD FROM MISSOURI STILL ON ARMY PAY-ROLL

SAN ANTONIO, TEXAS, Sept 15.—(United Press.)—The army mule is staging a comeback.

Drastic steps are being taken in the Southern Department of the U. S. Army, headquarters of U.S. Army headquarters at San Antonio, for the restoration of the old methods of transportation used before the war emergency, according to Col. A. E. Saxton, adjutant. Cutting down expenses and inability to get parts for some of the automobiles at the camp are given as the reasons for the revival of the mule.

Colonel Saxton is expecting the horse and mule drawn wagons to be used for routine work while leaving the motor drawn vehicles for quick transportation.

Several In Sight

PROSPECTS FOR THE FRENCH PRESIDENCY ABOUT TO BE VACATED

(Canadian Press)

PARIS, Sept. 15.—Alexandre Millerand, French Premier and Foreign Minister, is prominently mentioned as president of the French Republic, should President Deschanel resign because of ill-health, says The "Figaro." Some of his friends declare he will refuse to be come candidate, but nevertheless there is a tendency to believe that he may be induced to accept, if the office is offered to him unanimously.

Should he refuse to become a candidate there are several other prominent men in public life who might enter the campaign. Among them are Charles A. Jonnart, now ambassador extraordinary to Vatican; Raoul Peret, president of the Chamber of Deputies; Leon Bourgeois, president of the Senate; Alexander F. Frebot, former premier; Jules Pams, former minister of interior, and Georges Leygues, former minister of marine.

INTERESTING CASE IN COUNTY COURT

DISPUTE OVER A LAND TRANSACTION—SURVEYORS DIFFER

Matilda Brownlie brought suit in the County Court before Judge Huycke this morning to recover $500 damages from William J. Byers, for trespass on the plaintiff's lands by the defendant and the erection of buildings there and, for an injunction to restrain the defendant from further trespass.

Defendant in reply claimed ownership of a portion of the land disputed and in a counter claim claimed $500 damages for juries to his property on the land by the plaintiff.

F. D. Kerr appeared for the plaintiff and G. N. Gordon for the defendant.

The principal evidence introduced was that of the two surveyors, F. W. Wilkins and G. Fitzgerald. Wilkins' finding was in favour of the plaintiff, and Fitzgerald's finding was in favor of the defendant.

Mr. G. N. Gordon attempted to show that Wilkins was not a fully qualified surveyor as he had not been registered until this week, for three years.

Mr. Kerr brought out the point in examining Fitzgerald that the difference in the findings might be due to the fact that Wilkins used Alfred St. as the governing line while Fitzgerald used the Monaghan Road. Fitzgerald admitted that Monaghan Road did not run exactly parallel to Park street and that there was a shortage in some of the lots as all the lots between Monaghan Road and Park Street are laid out with Park street as the governing line.

The court adjourned then until 3.30 o'clock, while the judge, the lawyers and the two surveyors went to the property to view it.

BIG PRODUCTION FOR POTATO CROP

The Examiner has received a sample of the potatoes grown by J. Graham Weir on the Captain Carson property, 181 Romaine street. Mr. Weir had sixteen and a half bushels on two rows 125 feet long. And the sixteen and a half bushels grew from the seed of twenty-four potatoes supplied by J. M. Lowes of Otonabee, R.R. 6.

Nineteen potatoes weighed thirty pounds. This is to show what can be grown by using good seed and a liberal supply of manure, water and bordeau mixture at the right times.

SUSTAINED A FRACTURED ARM

Wilfrid, the ten year old son of Mr. L. W. LeBarr, was the victim of a very painful accident last night. When engaged in a jumping competition with a number of companions he fell, sustaining a bad fracture of the left arm, just above the wrist. He was removed to St. Joseph's Hospital, where the fracture was reduced by Dr. McNulty.

Fifteen Allegations Left For the Judges In Grenville Enquiry

FORTY-FIVE CHARGES HAVE BEEN DROPPED—COUNSEL CLAIMS COMPANY NOT BARRED FROM PRINTIEG BALLOTS

(Canadian Press.)

PRESCOTT, Sept. 15. — Gordon Waldron, representing the U. F. O. candidate in the petition to unseat Hon. G. Howard Ferguson in Grenville, intimated at the conclusion of evidence before Justices Magee and Sutherland here to-day that "after careful consideration I wish to say it is my duty to withdraw the claim to the seat, however the action which is now before you may be determined."

The cross petition against the U. F.O. remained to be dealt with. Mr. Waldron described this as "a political harangue the object of which I do not inquire."

Mr. Tilley—"We propose to prove that the U.F.O. does dominate by intimidation or by threatening this or that or by holding out hopes of personal advantage to control votes. I hold this is a corrupt practice under the Act. Mr. Waldron claimed the U. F.O. had the right to organize as well as any other organization and also to put a candidate in the field. The first fifteen clauses we maintained were not within the Act and he objected to having to answer them.

Three fresh charges were put in by Mr. Tilley that Stanley Empey, Merrickville, was promised the position of game and fisheries inspector, that George Chapman and his wife, North Augusta, were promised a postmastership and that Alec. Lee, Merrickville was paid money to vote.

PRESCOTT, Sept. 15.—Allegations that Hon. G. Howard Ferguson as owner of The Kemptville Advance, a weekly newspaper, contracted for the printing of ballots in contravention of the statutes, were made at the sitting of the Grenville election protest trial here yesterday.

"What do you say is the result" asked Mr. Justice Magee, when it was admitted by Returning Officer Johnston.

"That he is ineligible to sit in the Legislature," said Mr. Gordon Waldron, counsel for G. A. Payne, U.F.O. candidate.

Mr. Waldron argued that as Hon. G. H. Ferguson absolutely controlled the paper, with the exception of the shares under the names of other parties to permit the paper's incorporation as a company, in effect it was Hon. Mr. Ferguson who had contracted for the printing. That he was absolutely in control of the paper was admitted by Hon. Mr. Ferguson on examination for discovery.

Company Not Barred.

W. N. Tilley, K.C., chief counsel for Hon. Mr. Ferguson, quoted the act to show that while a Minister of the Crown could not contract for any Government supplies, there was no prohibition of a company in which he was a shareholder doing so. Returning Officer Johnston showed that the Government had allowed all-told only $190.54 for printing in the election. The Advance had printed some ballots only when the supply ran short, and Hon. Mr. Ferguson explained that he had had a conversation with the manager of the paper as to the propriety of doing this. It was agreed between them to print the ballots, as the printing firm at Brockville which usually handled them, was too busy to get out the work. The Court finally decided to have a recess to talk over the legal points involved. W. N. Tilley, K.C., argued that the company was an entity under the Act, and his client merely a shareholder under the specifications set forth. The result was not announced, and a night sitting followed.

Claim Majority of Votes.

In opening a discussion on claims set forth of polling irregularities, Mr. Gordon Waldron claimed a majority for his client. "We claim to unseat the sitting memebr, and we claim we have a majority of votes," he said, but H. A. Stewart, K.C., refused to admit this, as a recount had been held before the County Judge and nothing had been disclosed at the hearing of the trial which would affect the result.

At a poll in Wolford it was claimed that four people by the name of Ireland were on the voters' list, while five appeared on the poll-book as voting. There was but one Kate Ireland and two had voted.

"A duplicate," suggested Mr. Justice Sutherland.

H. A. Stewart, K.C., admitted that four Irelands were on the voters' list, and that five appeared on the polling-book, but suggested a mistaken entry as accountable.

"That does not affect the result, and only affects one vote under scrutiny," said Mr. Justice Magee.

W. N. Tilley, K.C., said that the name appeared on the polling booth as "Ireland, Katie."

Drop Some 45 Charges.

Checking over the charges which had been covered in the evidence so far adduced, Gordon Waldron announced yesterday he was ready to drop some 45 of the charges which had been laid in the action to unseat Hon. Mr. Ferguson, the sitting member. These had not been proven in the evidence brought before the Court.

This left about fifteen charges yet to be disposed of.

Mr. Waldron took the stand that Mr. Ferguson's invitation to those

KIDDIES, HERE IS A GREAT CHANCE FOR YOU TO SECURE ONE OF THESE FINE PRIZES

FIFTY TICKETS TO "KATZENJAMMER KIDS" TO BE GIVEN AWAY BY THE EXAMINER—READ THE INSTRUCTIONS CAREFULLY.

Boys and girls would you like to see that uproaringly funny play, "The Katzenjammer Kids", at the Grand on Thursday, September 23rd., without paying a cent for the privilege? You can do it and have a lot of fun in your effort to qualify for a free ticket. Here is how it can be done.

The Examiner has arranged with the manager of the play for 50 free tickets for the little folks of Peterboro. In another column you will find partly completed pictures of your old friends of the funny page Hans and Fritz. The idea is to finish these pictures by drawing in the noses and mouths and such other lines as you may think of to improve the pictures. You may use pen or pencil or colored crayon as you prefer.

Those who mail or bring their completed drawings to The Examiner before Monday night, September 20th., will have a chance to share in the distribution of the 50 tickets.

The judges will consider carefully all the drawings submitted and will select the 50 best. Announcement of the winners will be made in Tuesday's edition of the Examiner and the free tickets will be given out on Wednesday.

It will cost you nothing to submit a drawing It will give you practice as a newspaper cartoonist and it will be lots of fun.

Turn to the page with the picture of Hans and Fritz now, draw in the missing lines as directed and bring the finished picture to the Examiner office before Monday night. No telling—you may develop into a Darling, or a McCutcheon or a Briggs or a Webster.

Go to it, little folks, and good luck to you, but remember to be fair—do not have some older person do the work for you.

STEEL MARKERS ON THE WORLD'S LONGEST HIGHWAY.

(Canadian Press.)

DETROIT, Mich., Sept. 13.—Before next winter comes, enamelled steel markers will have been placed at every confusing turn and crossroads on the Lincoln Highway rfom New York to San Francisco, making what is said to be the longest highway in the world with such guide marks, according to an announcement from the headquarters of the Lincoln Highway Association here.

The road from Omaha to San Francisco already has such markers, and the work of marking the highway from New York to Omaha now is in progress.

The Lincoln Highway is 3,223 miles long. It passes through Philadelphia, Pittsburg, Canton, O., Fort Wayne, and South Bend, Ind., Clinton, Ia., Omaha, Salt Lake City, and Carson City, Nev., among other points. The Highway never has been permanently marked between New York and Omaha.

CAMPAIGNING IN THE EAST

CLAIMS OF RESPECTIVE CANDIDATES PRESENTED BY PARTY SUPPORTERS

(Canadian Press)

ST. JOHN, N.B, Sept. 15.—Though the bye-election made necessary by the selection of Hon. R. W. Wigmore, as Minister of Customs, takes place next Monday. The first votes will probably be cast to-morrow night under the advance poll, provision of the Dominion Elections Act. It provides an opportunity for railway employees, sailors and commercial travellers who will be away on election day to vote in advance after certain regulations are met. Government campaigners are presenting their candidate as a sure winner and are boosting along the lines of "make his majority a big one." They are also citing benefits accruing from representation in the person of a cabinet minister. Friends of Dr. A. F. Emery, Liberal candidate, say "it is not going to be a walk over that the others talk of." His card declares he is in the field at the request of Hon. W. L. MacKenzie King and states his belief that the Meighen party is controlled by profiteers and unscrupulous politicians and that luxury taxes, which are burdening the people to-day, are caused by unfair and dishonest methods of these in charge of the treasury of our country.

A $1600 CAR FOR ONE DOLLAR BILL

SOUNDS UNREASONABLE DOESN'T IT? BUT G.W.V.A. PROMISES THIS BARGAIN FOR SOME LUCKY INDIVIDUAL

There was a story in the newspapers the other day of a motorist who calmly handed over a magnificent touring car to a stranger, and presented him with $10 to buy gasoline. That was probably the cheapest obtained car on record, but some lucky individual in or around Peterboro will be able next week to secure an automobile on almost as good terms, for some one is going to get a $1600 Maxwell touring car for a dollar bill. It seems almost too good to believe but nevertheless the Great War Veterans Association who made practically a similar offer this time last year, and redeemed their promise are prepared to make good again on this occasion. The G.W.V.A. is conducting a draw for their splendid Maxwell car, offering three chances for a dollar, and the tickets are being eagerly snapped up by the public, who realize that an oportunity of this kind does not turn up very often. The draw will be made on the last day of the Peterboro Industrial Exhibition so that those who have not yet invested in this splendid opportunity have not much time left. The members of the G.W.V.A. have books of tickets and will accommodate those who believe that a chance of this kind is too good to lose.

At the age of six a boy thinks his father is the smartest man on earth; at the age of 16 he imagines that he has forgotten more than his father ever knew.

EXPERIENCED DRY GOODS SALESLADY. APPLY PERSONALLY, OR BY LETTER, TO ROBERT FAIR & CO., NLTD. 3d-65-2522

SALVATION ARMY.
MOTOR CARS WILL MEET AT THE S. A. TEMPLE, SIMCOE ST., THURSDAY EVENING, AT 7.30, FOR THE BRAILEY CORNROAST —50c RETURN. 2d64 2548

G. W. V. A. DANCE
THE REGULAR WEEKLY DANCE WILL BE HELD IN THE G.W.V.A. HALL ON THURSDAY EVENING. GOOD MUSIC AND REFRESHMENTS. ADMISSION 50 CENTS. 2d 65 2533

Peterboro' Industrial Exhibition Notes

The Exhibition this year will be the most brilliantly lighted of any fair in the province outside of Toronto.

Peterboro's grand stand attractions are exclusive in this district.

The Secretary, Mr. F. J. A. Hall will be at Pres. Denne's store Thursday, Friday and Saturday to receive entries.

Special attention is being paid to the Ladies' Department of the Fair. The whole top flat of the Main Building is given over to them.

If you don't get your money's worth three times over at this Fair, it will be the biggest disappointment the Directors will have had.

AUCTION SALE OF FARM PROPERTY

STOCK AND IMPLEMENTS

THERE WILL BE OFFERED FOR SALE, by Public Auction, on the Premises, being the SOUTH HALF OF LOT NUMBER TWENTY-ONE, IN THE FOURTEENTH CONCESSION OF THE TOWNSHIP OF CAVAN, on THURSDAY, THE SEVENTH DAY OF OCTOBER, 1920, at TWELVE O'CLOCK NOON (Standard Time), under instructions from the Administrator of the Estate of the late JOHN S. CROWE, the following Valuable Farm Property, Stock, and Implements, in several parcels:

PARCEL NUMBER ONE—The South Half of Lot Number Twenty-one, in the Fourteenth Concession of the said Township of Cavan, containing One Hundred Acres more or less. There are on this Farm a Good Frame Barn, 30 x 50, on a stone foundation, with complete Stabling underneath, a 10-Room Rough-cast House, with Summer Kitchen and Wood Shed, a Hen House and Pig Pen, 24 x 20, Two Good Wells, Two Acres of Orchard. The Farm is well fenced, practically all cleared, workable land.

PARCEL NUMBER TWO—The North-east Quarter of Lot Number Twenty-one, in the Thirteenth Concession of the said Township of Cavan, containing Fifty Acres more or less. It is well fenced, has about Twenty-two Acres cleared, workable land, and the balance is Swamp and Timber.

PARCEL NUMBER THREE—The North Half of Lot Number Twenty-two, in the Thirteenth Concession of the said Township of Cavan, containing One Hundred Acres more or less, has about Eighty Acres of tillable land, with the balance of wood and pasture. On this property there are a Frame Barn, 100 x 30, on a stone foundation, with stabling underneath, fully equipped, a Frame Driving Shed, and other outbuildings, a Log House, Two Wells, and a running Creek.

All the above Parcels are well fenced, are within Five Miles of the City of Peterborough and One-half Mile from a County road, in a good Farming Community, and are good, productive Farms.

NEW SCHOOL LEGISLATION WILL DEMAND A LARGER COLLEGIATE

ADOLESCENT ACT BECOMING EFFECTIVE NEXT SEPTEMBER WILL BE EXPLAINED TO THE PUBLIC BY THE BOARD OF EDUCATION —2750 PUPILS IN PUBLIC SCHOOLS.

HOLIDAYS FOR THE FAIR

Primary steps towards finding increased school accommodation to meet the demands of the Adolescent Act, which comes into force in September, 1921, were taken last evening at the regular meeting of the Board of Education, when Dr. F. C. Neal told the Board that it was time the members should take the matter up, and formulate plans towards enlightening the public as to what the Act means, in order that all may be ready to face the demands it will make.

Mr. G. O. Cameron backed Dr. Neal up in his suggestion and stated that the Act will mean at least a larger Collegiate Institute. He thought that as there is no doubt that increased accommodation must be found it is up to the Board to go into the question at once.

Mr. H. H. Kenner said that as the average Peterboro pupil passes the entrance at the age of 14 years, the act will mean a secondary school proposition, and said that he felt with Mr. J. W. Worth that some technical education will be necessary.

Mr. A. Mowat said that the Department of Education expects the Board to supply the course of education they think necessary.

Mr. R. Denne stated that emphatically an addition to the Collegiate Institute is necessary, also a technical school, and that the public must know that it will have to stand for such.

The matter was finally left with the Supervision Committee to go into with Mr. A. Mowat, the Public School Inspector, and Mr. H. R. H. Kenner, and they will bring in a report.

Present Conditions.

At present the Collegiate Institute, while not over-crowded, due to the opening of new rooms, has classes larger than the average school provides for. In Form 5 there are 18 pupils; in Form 4, 38; in Form 3-1, 25; in Form 3-2, 28; in Normal Entrance, 24; in Form 2b, 24 girls, in Form 2c, 37 boys; in Form 1a, 44; in Form 2b, 40, and in 1c, 37.

In the commercial department there are 50 pupils in the first form and 35 in the second. The first commercial form will be divided when the new member of the staff arrives.

Mr. Kenner said that the Collegiate Institute is getting on well with the additional member on the staff.

Increase Fees.

Mr. E. G. Patterson said that he understod the fees for outside pupils were to be increased as the non-resident pupils are paying a small sum in proportion to the cost. The matter was left to the Supervision Committee.

Mr. Kenner drew the Boards' attention to the fact that the tendency of the province is toward doing away with fees altogether.

Increased Attendance.

Mr. Mowat said that the attendance at the Public School this year was 2750, which was 135 greater than last year. The King Edward, with an enrollment of 560, is overcrowded to such an extent that all the country pupils were necessarily excluded.

Appointed to Staff.

Upon motion of Mr. G. O. Cameron seconded by Mr. J. A. McKone, Miss Mary Eliott was appointed to the position of assistant in the Commercial Department at the Collegiate Institute to fill the vacancy left open by the non-appearanee of Mr. Clarke whose illness necessitated his giving up teaching for a year.

Granted Holiday.

On motion of Mr. J. A. McKone, seconded by Dr. FaNeal, the half-holiday asked for by the secretary of the Industrial Exhibition to enable the pupils to attend the exhibition was granted.

Inspection Satisfactory.

The report of the boiler inspection showed all the school boilers to be in favorable condition.

Communications Received.

An application was received from Miss Rosenfield, of Kingston, for a position on the Public School staff.

Miss Peters expressed her gratitude to the Board for their generosity in granting her an honorarium of one year's salary on her resignation from the staff of the Public School.

Dr. A. W. McPherson accepted the appointed of Medical Inspector of the Public Schools.

Mr. A. A. Fowler thanked the Board for the sympathy expressed in his recent bereavement.

Mr. Kenner's request for authorization of the introduction of Ganong's Botany for use in Form V and the High School Geometry in Form IV, was granted, on motion of Mr. G. O. Cameron, seconded by Dr. Neal.

Report of Property Committee.

The Property Committee reported that an arrangement had been made with the Trustees of the St. James' Methodist Church for a renewal of a lease of the class room in the basement for another year on the same terms, namely $300, and recommended that the lease be executed by the chairman and secretary on behalf of the Board.

Committee on Appointments.

The Committee on Appointments reported and recommended that Dr. A. W. McPherson be appointed to the position of Medical Inspector in the Public Schools for the school year, September, 1920, to 30th June, 1921, at a salary of $1200.

GOOD HONEY HARVEST IN GREAT BRITAIN.

(Canadian Press).

LONDON, Sept. 13.—The workers in the honey industry are declared to be the most conscientious and industrious to be found in Great Britain today, and practically the only ones who have not been afflicted by the strike fever. In spite of changeable weather, the bees are reported to have worked, and to be still working, well this season, and a particularly good harvest of honey is foreshaddwed. The Ministry of Agriculture is endeavouring to encourage bee-keeping by instituting a scheme for the distribution o fimported Italian queen bees among farmers. Nearly two thousand applications for these have been received to date.

Physician Explains Why He Prescribes Nuxated Iron for Run-Down, Anaemic People

Says It Quickly Increases the Strength and Energy of Men and Brings Roses to the Cheeks of Nervous, Run-down Women

Ask the first hundred strong, healthy looking people you meet to what they owe their strength and energy and see how many reply "Nuxated Iron."

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), of New York and the Westchester County Hospital says: "Thousands of nervous, run-down, anaemic people suffer from iron deficiency but do not know what to take. There is nothing like organic iron—Nuxated Iron—to quickly enrich the blood, and thereby put roses in the cheeks of women and give men increased strength and energy.

Unlike the older forms of iron, Nuxated Iron does not injure the teeth nor upset the stomach, but is readily assimilated and you can quickly recognize its action by a renewed feeling of buoyant health.

No matter what other iron remedies you have used without success if you are not strong or well you owe it to yourself to make the following test:

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. To be absolutely sure of getting real organic iron and not some form of the metallic variety always ask for Nuxated Iron in its original packages. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

MANUFACTURERS' NOTE: Nuxated Iron, which is recommended above is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped as follows and the words Nuxated Iron are stamped into each bottle, so that the public may not be led into accepting inferior substitutes. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists in tablet form only.

"Yes, madam, this is the grade of Imperial Polarine specified for your car by the Imperial Polarine Chart of Recommendations, and you will always find Imperial Premier Gasoline of uniform high quality. My customers have learned that operating costs are kept at a minimum through using Imperial Polarine exclusively."

Reduced Operating Costs

IMPERIAL Polarine reduces automobile operating costs in many ways. By providing a piston-to-cylinder seal which assures maximum power. It helps to save friction waste in every moving part, keeps the engine running smoothly and out of the repair shop *and* minimizes depreciation.

Imperial Polarine prevents friction by coating every wearing surface with a heat and wear-resisting oil film. It seals all the power in the piston chamber. Imperial Polarine gives correct lubrication to every part of your car.

One of the three grades described below is specially suited to your motor. Look for the Imperial Polarine Chart of Recommendations when you buy oil and learn which grade to use.

Imperial Polarine is sold in sealed gallon and four-gallon cans, 12½-gallon steel kegs, steel half-barrels and barrels, by dealers everywhere. There is an appreciable saving in buying half-barrels and barrels.

IMPERIAL Polarine

IMPERIAL POLARINE (Light medium body) IMPERIAL POLARINE HEAVY (Medium heavy body) IMPERIAL POLARINE A (Extra heavy body)

PETERBORO' MARKET IS LOADED WITH ALL SEASONABLE FRUITS

PRICES ALMOST DOWN TO A PRE-WAR LEVEL—PEARS ARE GETTING MORE PLENTIFUL.

Peaches are selling much more freely than last week, the local fruit dealers state, the housewives having evidently decided and decided wisely that they are selling as low as they will sell this year and get the quality which is now as good as it will be. The price in the stores to-day ranged from 75 cents to $1.75 a basket, depending on quality and size. Large 11-qt. baskets of Crawford's were selling at $1.75 in one store to-day. First grade peaches still remain hard to secure and most of the peaches are second grade.

Blue Grapes.

Blue grapes, which are just coming on to the market, sold at 50 to 75 cents to-day. Pears are also just appearing in any quantity and are selling at $1.00 to $1.50 a basket. Plums, blue, Lombards, Gages and other varieties sell at 60 cents to $1.00 a basket. Malaga grapes are 30 cents a lb. Apples are coming into the city in large quantities and in the stores are retailing at 30 and 40 cents a peck. Apples are not grown around Peterborough to any extent, but this year the crop appears to be unusually good. Duchess are the popular eating variety now displayed in the shops, but spies and other winter varieties will soon be on the market. If one wishes to buy cantaloupes they may be had at 75 cents to $1.25 a basket or 10, 15 or 25 cents apiece.

Fall Strawberries.

Half a dozen boxes of strawberries in the counter of a Charlotte street fruit store were noticed by The Examiner. "Everbearing plants," the proprietor stated. They are grown in the city and sell at 30 cents a box, almost as cheap as when they were in season a few months ago.

Celery in the stores is 15 cents a bunch or two bunches for 25 cents, radishes 5 cents and lettuce 5 cents. Tomatoes are retailing at 40 and 50 cents. Potatoes are $1.50 a bag. Sweet potatoes are priced at 2 lbs. for 25 cents.

Mr. W. J. Oke, wholesale fruit dealer, stated to-day that he did not think the storm at Niagara was serious enough to greatly effect the peach crop. He pointed out that the storm swept area was not large and no increase in the price of peaches was expected by him for this reason. Mr. Oke declared that the price of fruit has now nearly returned to the pre-war level. Peaches are selling to-day at only a little, if any, above the old levels. Plums, pears and grapes, although not yet in as large a quantities as they will be from the present prices, show they are almost down to the same level. However, the cost of picking and other labour engaged in the fruit industry remains up, baskets and containers cost more than they ever did and the freight rates are up in the clouds too. There is no money in it for the fruit growers this year, he states, and the vegetable growers are in a worse box. Tomatoes are wholesaling at 25 cents, baskets cost 10 to 15 cents each and the market gardener has left the rest for his labour all summer. "Does he make a $1 an hour. I'll say he doesn't." Advices from England, through which they buy European fruits, are to the effect that the prices over there are on the downgrade through the sheer inability of the people to pay the prices.

Some of the local fruit dealers have raised their prices slightly to meet the increased freight rates, but others have not. Oranges will practically be off the market soon and bananas will advance in price.

FINED FOR FEEDING BIRDS.

(Canadian Press)

HEREFORD, Eng., Sept. 15. — Hubert Delaval Astley, a famous ornitrologist, has been fined $250 for feeding his flamingoes and other birds with grain "fit for human food."

Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, is the cry of society and fashion. The overfat wring their hands in mortification and helplessness; revolting at nauseating drugs, afraid of violent exercise, dreading the unwelcome and unsatisfying diet, until they hit upon the harmless Marmola Tablets which quickly and safely reduce weight at the rate of two, three or four pounds a week without any change in the mode of life. The ideal figure is soon obtained, with a smoother skin and a better appetite and health improves. Marmola Tablets contain all the ingredients which made the Marmola Prescription famous. It behooves you to learn the satisfactory, beneficial effects of this great, safe fat reducer by giving to your druggist the reasonable price, one dollar, for a good size box or sending a like amount to the Marmola Co., 85 Garfield Building, Detroit, Mich., with a request that they mail to you a full box of Marmola Prescription Tablets.

COTTON SERVICE BUREAU.

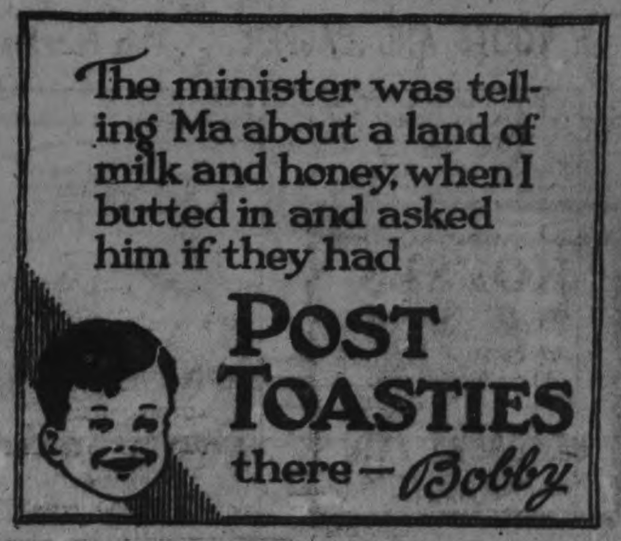
Increased Production in Undeveloped Brazil.

(Canadian Press).

RIO DE JANEIRO, Sept. 13.—Increased and improved production of cotton, especially in north-eastern Brazil, a great potential producing centre, which is at present quite undeveloped, is the object of a Cotton Service Bureau recently established by presidential decree.

The bureau will investigate the properties of the soil and climatic conditions, and establish experimental stations to study the culture of cotton and preventive measures against pests and plant diseases. Planters in the cotton zones will be provided with machinery, implements and fertilizers at cost prices, and establishments will be installed for preparing cotton for market.

A representative of the big English cotton combine is now in the northern states making a special study of conditions.



To Pay Small Accounts

where you may not wish to send personal cheques, use Bank Money Orders issued by The Merchants Bank.

This is a convenient way to settle newspaper and magazine subscriptions—to pay for goods ordered out of town—in fact, to send any amount up to $50 through the mails.

Bank Money Orders are easily secured—safe to send in a letter—will be replaced without extra charge, if lost or stolen—and can be cashed anywhere in Canada or United States at face value.

"Peterborough Presents Possibilities Unsurpassed."

WEDNESDAY, SEPT. 15TH, 1920.

THE SEWAGE PLANT.

The decision of the Board of Works to wait upon the Provincial Board of Health and endeavour to secure from that body a change of front in regard to the local sewage disposal plant seems to be in the interest of the ratepayers. While it is imperative that the pollution of the Otonabee river should be stopped as soon as possible by the construction of a sewage disposal plant the citizens want to be satisfied that the best system obtainable is chosen. It is by no means certain that the activated sludge plan favoured by the Provincial Board is the most suitable to meet Peterborough's needs. City Engineer Parsons' report indicates that there are doubts as to the effectiveness of the activated sludge plant as compared with the Imhoff system. The former is only in the experimental stage, with no guarantee that it will satisfy the requirements of the city. In addition the annual cost of maintenance of such a system is much greater than in the case of the Imhoff plant, the difference being estimated at about $9,000 a year. Certainly the people of Peterborough do not want to expend many thousands of dollars upon a sewage disposal system that may prove to be an utter failure and yet the Provincial Board of Health seems determined to force such a system on the city, regardless of the fact that it has been tried and proved unsuccessful in a number of American cities.

THE CITY PARKS.

The suggestion made by a citizen, who wrote to the Examiner last evening complaining of the condition of King Edward Park, that it is time that the city had a Park Commissioner and a staff of men to keep the civic beauty spots in order is worthy of serious consideration. His arraignment of conditions at King Edward park is entirely justified; ths park has been neglected sadly and its appearance is not a credit to the city. It could be made a beautiful breathing spot for the people of the south end with a little care and attention, and it seems a pity that it should have been allowed to get into its present condition.

Other parks in the city, too, are, it must be admitted, not in the same immaculate shape as they were a few years ago. There are signs in evidence that a better system of maintenance is necessary. The lawns are not as well kept as formerly, there are ragged edges to be found. At a little distance the general appearance may not show much change, but a closer inspection warrants the conviction that none of the local parks are in perfect condition. The caretakers are giving the best service at their command, probably, but they are none of them too well paid for their work and the staff is not large.

Sooner or later a Parks Commissioner will be necessary. Under such an official the administration of the city parks would show better results and the expenditure, while perhaps greater than under the present system, would be amply justified.

SCHOOL ACCOMMODATION.

That Peterborough will shortly have to provide more school accommodation especially for advanced pupils is a fact that the ratepayers may as well get accustomed to now. The steady growth in the school attendance under present conditions, as exemplified in the report that there are 135 more pupils now than last year would of itself soon necessitate more class rooms, while the Collegiate Institute has been overcrowded for some years. When it is realized that the coming into force of the Adolescent Act passed by the Legislature will require children to attend school to the age of sixteen instead of fourteen as at present, the problem of accommodation becomes a serious one, and the Board of Education in appointing a committee to investigate the conditions is not in the last premature. It is apparent that a large addition to the present Collegiate Institute will have to be built and undoubtedly a technical school should be provided at the same time. If children are to be required to attend school until they are sixteen years of age it is a simple matter of common sense that their last years at school many of them will require training in the various industrial lines that they will necessarily follow when they leave school. Only a comparatively small fraction of them can afford a college education or a professional career and so the last years of school should be devoted to technical training. The facilties for such education are lacking here now. They must be provided if the new School Act is to have the effect it should have.

THE DROP IN VICTORY BONDS.

Some surprise is being expressed locally at the recent reduction made in the price of Victory Loan bonds by the special committee that has the matter in hand. Naturally the holders of these issues who are compelled for one reason or another to realize on them are dissatisfied when they find that they cannot obtain the full amount they paid and are inclined to blame the government for not maintaining them at their par of value. The government however, is not bound to redeem the bonds until their due date and cannot be expected to do this at an earlier date. The trouble arises from the abnormal state of the money market and the fact that securities of undoubted worth are being offered at higher rates of interest than those carried by the Victory loans. In addition to the holders obliged to realize their bonds for personal and other necessary reasons, there are others who are attracted by the higher rates available and sell their bonds for the purpose of securing a more lucrative investment. This latter cause has thrown more Victory bonds on the market than there are buyers and the ordinary law of supply and demand prevails. There can be no doubt, however, that when these offerings reach the ultimate investor and normal money conditions are restored, the Victory bonds will appreciate in value and pass beyond par. Holders of Victory bonds who can afford to wait need not disturb themselves about present prices, even should these drop farther before the reaction begins.

Even as matters stand, subscribers to the Canadian war loans are in much better case than are the subscribers to the Liberty loans in the United States. On May 31 last there were outstanding across the border approximately $1,384,000,000 of Liberty bonds, bearing interest rates from 3 1-2 per cent. to 4 1-2 per cent. maturing at dates ranging from September 15, 1928, to June 15, 1947. That sum represents substantially what was paid for them, but to-day they are saleable only at discounts aggregating approxmately $1,500,000,000. This last figure is the measure of the direct loss to those in the United States—mostly persons of moderate means—who bought the bonds in good faith and upon official assurances of the stable value. It is again the comparatively low rate of interest that has caused this drop in values, much greater than the fall that has occurred in Canadian bonds yielding a larger interest return. A United States citizen who paid a hundred dollars for a government security now finds that his security is worth only eighty-five dollars, and for that reason feels he has a legitimate grievance against the government. It has indeed, become so strong that various proposals have been made for correcting this considerable reduction from the par of Liberty bonds. Ex-Senator Weeks of Massachusetts has suggested the calling in of the bonds and their replacement by a serial bond issue bearing interest at 5 1-4 per cent. which, he thinks, would go immediately to par. The situation in Canada is nothing like ths and will undoutedly rectify itself before very long.—Sarnia Observer.

VOICE OF THE PEOPLE

To the Editor of The Examiner:

Sir,—When is the new party going to organize in West Peterboro? There is no government party organization here now. Mr. Burnham is a Unionist, but now says he will go back to the old party system.

The Mail and Empire said the following yesterday:

Aylmer, Sept. 12.—With the nomination of a standard bearer for the new National Liberal and Conservative Party in East Elgin the attention of those who study the trend of political affairs is turning to this riding.

It is always talking about the new party, which Mr. Meighen leads. Is a convention going to be called, and an executive committee chosen, or is it going to be left to the new party organization at Ottawa, to choose a local candidate?

GET A MOVE ON.

BURNED TO DEATH.

(Canadian Press)

CLEVELAND, O., Sept. 15.—Pilot and mechanic on a postal air machine was burned to death when their machine caught fire.

CHARGES THAT VOTERS WERE INTIMIDATED

TORONTO, Sept. 15.—Particulars of the charges made against Thomas Kerr Slack by John Johnson, William Braiden, and George Moffatt, the petitioners in the Dufferin election appeal, have now been filed at Osgoode Hall. Petitioners allege that the U.F.O., with a view to intimidating electors, in their co-operative stores discriminated against farmers who were believed to be opposed to the U.F.O. candidate. The particulars go on to declare that the U. F. O. raised a campaign fund among farmers and others opposed to the existing Government, and that this money was used in Dufferin and other ridings to induce a candidate to contest the seat.

Petitioners give a list of 23 farmers' clubs said to have raised money, taken voters to the polls, promised a return of subscriptions, and provided vehicles, drink and refreshments. They also submit a lengthy list of names of scrutineers, whom they allege received $3 each and refreshments as a bribe to influence their vote. It is also alleged that money was provided members of the U. F. O. in Dufferin County with which to corruptly influence voters, and for the same reason electors were promised a rebate on goods purchased at a certain store. The petitioners claim further that a farmer was promised the position of organizer for the U.F.O. on condition that he devoted all his time and energy to the election, and that the same man is now holding a salaried position in the U.F.O. One scrutineer is accused of reminding voters "not to forget Slack," and U.F.O. organizers are charged with having used their influence right in the polling booth to induce women voting for the first time to vote in a certain way.

WILL DESTROY ANOTHER LANDMARK OF DICKENS

(Canadian Press)

LONDON, Sept. 15.—Another Dickens landmark is to be destroyed, the house where Bill Sikes met his death, as described in "Oliver Twist." It stands in a court on Jacob's Island, Bersondsey, and is being used now as a stable. The shouse was identified by the finding of some old plans of Bermondsey dated 1855, on one of which was marked "Bill Sikes' house."

The Need for Cash Capital—
The Investor's Opportunity

In 1919 it was necessary to finance a 193,000,000 bushel wheat crop, worth $333,000,000. This year, it is conservatively estimated that a crop of 300,000,000 bushels, worth at least $600,000,000 will require to be financed.

Owing to this heavy strain upon credit,—the fabric upon which modern business is built,—a number of large concerns, which required capital to provide for increased costs and extensions, found it difficult to do so by means of borrowing.

As a result, they are reluctantly compelled to convert their surpluses, some of which are naturally invested in Victory Bonds, into cash.

This condition,—supply temporarily exceeding demand,—favors the purchaser who buys Victory Bonds for investment. This is the "investor's opportunity." It has made it possible for him to buy these bonds to yield an interest return unparalleled in the history of Canada.

The **1934** maturity, at 93 and interest, which we recommend to those not materially affected by the Income Tax, will yield you **6¼%** for fourteen years.

The **1933** maturity (tax free) at 96½ and interest, which we recommend to those with incomes exceeding $6,000 a year, yields a net return of **5.87%**

MOTOR HONEYMOON ENDS IN TRAGEDY

RACINE, Wis., Sept. 15. — The motor launch honeymoon of Mr. and Mrs. John A. Jones, portrait painters, who eloped to Crown Point, Indiana, ended to-day, when the bride was drowned in Lake Michigan and Jones was rescued after clinging for hours to the capsized hull of his raft.

Jones was brought to the hospital here. He tells a thrilling tale of how he righted the raft three times after it first turned over. Twice in doing so he held his bride in his arms. He was badly bruised. He and his bride left for Chicago three weeks ago in a boat of his own design. They were on their way back when the accident happened. While Jones was attempting to repair his motor the boat was struck by a large wave and turned over. He found his bride in the water and, while he held her, he righted the boat and placed her in it. A minute later it was overturned and he rescued her a second time. This time he placed her between chains runnings from the deck to the centre-board.

The third time the boat capsized she was torn from her holdings and Jones was to exhausted to save her. Jones was rescued by a tug. His wife's relatives live in Masachussetts.

GIVES IRISH POLICE THE KEY OF HIS DOOR

(Canadian Press)

B.LFAST, Ireland, Sept. 15.—The home of an old man named Walsh, of Dungarvan, Waterford, whose son is evading capture by the authorities, has been raided at night so many times by the military and police that he has sent them the key of the door in order to have himself the trouble in future of getting up to let them in.

WASTE OF PUBLIC FUNDS IS CHARGED

(Canadian Press)

LONDON, Sept. 15.—British papers are printing almost daily examples of what they term the waste of public funds. A report just issued by the Committee of Public Accounts sheds fresh light on the subject. Nearly $8,500,000 was involved, it appears, in the Government's plan to finance the Russian general, Alexieff, just before the Bolshevik revolution brought about his collapse. Part of the plan was to set up a Cossack State Bank in Siberia, and for that purpose $2,500,000 was loaned to a Russian financier. But the bank was never set up and the committee wants to know what became of the money.

Received No Benefit.

The Ministry of Munitions paid $12,250,000 for a plant begun in 1917 and which, when the war ended, was only half finished. For this outlay, the committee points out, the country received no benefit whatever except through the "stimulus to the steel trade."

Waste of nearly $500,000 is charged by the committee to the admiralty on a scheme for establishing schools to train boys in pneumatic riveting.

Occasion for Scandals.

Cases are referred to by the committee where Government officers holding responsible positions allotted contracts either to themselves or to firms in which they were interested. Such cases, the committee asserts, "are especially liable to become an occasion for scandals."

AMERICAN COMPANY BUYS QUEBEC PLANT

QUEBEC, Sept. 13.—The Matane Lumber and Development Railway, owned by O'Brien and Doheny, has sold all its assets, real and personal, to an American company, the Hammermill Paper Company, of Erie Pa.

The deal, which involves a price of several millions, was completed last week, in Montreal.

The timber lands acquired with the mill site, river improvements, etc., lie on the rivers Matane and Cap Chat, on the south slope of the St. Lawrence, comprising an area of 133,000 acres.

Other Salada warehouses are situated at Toronto and Boston.

SHOULD POLAND COLLAPSE REDS WOULD DOMINATE ALL EUROPE

BOLSHEVISM ALSO THREATENS CANADA AND UNITED STATES DECLARES ADMIRAL HARTHY, REGENT OF HUNGARY.

DANGEROUS PROPAGANDA

(Canadian Press)

BUDAPEST, Sept. 13.—Hungary's statesmn are fearful of the consequences if the Bolshevik crush Poland. Admiral Nicholas Horthy, Regent of Hungary, when seen at his palace office by The Associated Press corespondent, said on that subject:

"Should Poland collapse Europe would have to face a serious crisis, since all international order and standing power of Central Europe has been shaken by the breakdown after five years of war and by the crushing peace treaty in addition to other evils in the wake of war. The treaties dictated by the Allies were unable to create order and tranquility, on the contrary all our evils grew more acute and all painful problems, on the way of solution more or less in the past, face us grimly like as many sphinxes. Central Europe is a volcano after the eruption, still covered with smoke, and we cannot see any re assuring sign as yet to avert dangers lurking in the future above Europe.

"I am informed about the preparations of the bolshevists. These preparations are not of a recent date and it is not exclusively Hungary they are related to. Bolshevistic propaganda is an enemy of all countries not accepting the principles of the Third Internationale, trying to spread its doctrines in the United States and Canada just as well as in Hungary.

The most dangerous means of all Bolshevistic offensives is just the propaganda and from that viewpoint there was not a single moment's cessation in the Bolshevistic offensive against Hungary. On the contrary it maintains a feverish activity against us by the means of the Hungarian communistic fugitives in Vienna aided with Russian money. It is a pity that in many Western countries people do not realize the means of the Bolshevist propaganda.

"The relation of Hungary to her neighbors depends solely upon how our neighbours wish to establish it toward us. It is in their interest that the treaty has been forced on us by the Allies so that is their duty to start better relations. Although it is much easier for them to do that, unhappily they show very few signs of their intentions to that effect up to the present. They continue their intolerable attitude toward Hungary living on territories severed from Hungary.

Day by day for 18 months our people have been fleeing from the occupied territories and our railroad terminals are not large enough to shelter the railroad cars they are living in. These persecuted families of course, are strong advocats of an irredentist propaganda. If our neighbours have a really serious intention to improve general sentiment toward us, they have to make it possible, first of all, for those fellow-countrymen of ours to return home. They have to stop persecutions so that even on that most unfortunate spot of Europe there should be open for everybody a chance to make a living compatible with human dignity. It would be of a first rate importance to have effected that improvement in public sentiment, as a preliminary condition to the resumption of economic connections.

"The misery of the people of these territories of the former Austro-Hungarian monarchy, a compact economical territory in the past, is due mainly the fact, that all the natural, economic ties are cut and they are being forced into the most unnatural connections. We quote as an instance the salt supply of the country which commodity could be procured from the mines a few kilometers distant from the present boundary line in Marmaros. In spite of all that we are obliged to supply our needs in salt from Germany. That unnatural order of things increases enormously the cost of living and paralyses all production."

THE WORD OF PROMISE.

A certain Minister of State, rather well known throughout this world for shiftiness, has pledged himself definitely to a certain course of action, and some honorable members were discussing the probability of his keeping his word. One with a pretty wit said: "I think he will, although he said he would."—London Post.

TWO MEN KILLED IN MOTOR CAR ACCIDENT

MONTREAL, Sept. 13.—Two men are dead, and a boy is lying in a hospital in a critical condition as the result of a collision of an automobile with a street car on Notre Dame street west. One of the men was killed instantly, his chest being crushed against the steering rod and the other died in the hospital as a result of the accident. The collision occurred about a hundred feet east of St. Henry Square after the driver of the machine having taken the narrow curve sharply, failed to make the right side of the street and crashed into the street car as he endeavored to cross ahead of it.

The dead are:

George Hurst, 48 years old, of 114 St. Margaret street, a bicycle dealer. He was owner and driver of the automobile. He died instantly.

Louis Patree, a janitor, 38 years of age. He suffered a fractured skull and died at 11 o'clock at the western hospital.

The injured boy is Armand Lachevesque, 10 years of age, a nephew of Patree.

HIGH PRICES ARE TROUBLE OF HUNGARY

(Canadian Press)

BUDAPEST, Sept. 15.—"No work and high prices are making Hungary a trouble centre," said Count Etienne Crouy Chanel, who claims to be the most legitimate candidate for the throne of Hungary.

"We have here upwards of 100,000 workmen who are either without work or else have to work for 1,000 crowns a month, the price of a pair of shoes," he continued. "Besides them, we have 150,000 government employes left over from old Hungary whose pay is about that of the workmen. Then we have 50,000 army officers who insist that they be paid. Then there is a large number of landowners from the provinces given to Serbia, the Czechs and the Rumanians, who have no means of livelihood, having been driven from their lands.

"When these people begin considering their troubles, they turn to the wealthy Jews as the cause, or else to the Communists, and therein lies the origin of the so-called 'White-terror'.

"The immediate solution for these people is to emigrate, but for that they have not the money or else can not secure passports. They cannot become farmers over night. Even if the Government divided the land they would need to learn to farm and would need capital to build houses and buy machinery. The factories cannot start because of lack of coal and raw materials.

"Hungary has lost more than any nation in Europe by the peace treaty. In addition she has had two costly revolutions. It is no wonder our minds are deranged.

"It would be a charity if our surplus educated population was helped to emigrate to South America or some country where it could start life anew."

WOULD BE REMEMBERED IF HE VOTED FOR PAYNE

Inquiry Into Election Methods Last Provincial Campaign.

(Canadian Press)

FRESCOTT, Sept. 14.—Good progress in the matter of disposing of witnesses was made this morning by Gordon Waldron, counsel for G. Arthur Payne, defeated U.F.O. candidate in South Grenville in the last Provincial Election.

A charge regarding the granting of a bus license was disposed of, there being no evidence to support it.

Albert Roche, lad sent by John Boyd into Welford Township, told thre farmers witness declared, there was money in it to vote for Ferguson. He told one man he would. Be remembered by John Boyd. The farmer replied he would vote for Payne and be forgotten.

Alex. Lee swore he was approached in a pool room by Thomas Kyle, of Merrickville, and asked if witness would vote for Payne.

PRISONER KILLS HIMSELF JUMPING FROM TRAIN

(Canadian Press)

COBALT, Ont., Sept. 15.—Matt. Parrny, a middle-aged man, being taken to the District of Algoma jail at Sault Ste. Marie, jumped to his death when he made a desperate leap for liberty from a moving Algoma Central train one hundred miles from the Soo, according to information received here by Provincial Inspector A. T. Rowell from Constable Fred Hughes of Cochrane, who was in charge of the prisoner.

Parrny died within a short time after being replaced on the train from the injuries he had received and the body was sent on to Sault Ste. Marie. The man had been committed for trial by the magistrate to Hearst on a charge of an offence against an 11-year-old girl.

RICHARD HALL & SON LIMITED

POOLING SYSTEM ON FARMS MIGHT BE CARRIED FARTHER

GROUPS OF FARMERS WOULD GAIN MUCH BY WORKING, BUYING AN SELLING CO-OPERATIVELY

H. E. Cook, one of the most thoughtful writers in the American farm press, writing in the American Agriculturist, advocates "farm pooling." Mr. Cook expresses the belief that one-hundredfold more advantages would be secured for farmers in this way than have already been obtained by the pooling of milk in a cheese factory or cream in a creamery.

The writer quoted does not elaborate the idea thus briefly expressed, but apparently what he has in mind is the working of a group of neighborhood farms on a community basis and the purchase of necessary supplies through one agency, together with the sale of products co-operatively for the common benefit.

As to the theoretical advantages of such a system there can be little doubt. Few individual farmers combine the qualities of good salesmen and efficient producers. In all communities there are individuals who possess either one of these qualities which might be utilized for the common benefit of all the farmers grouped together in a section. Under a system where a number of farms were operated as a group, less machinery would be required than where each farm is operated singly. Economy would also be gained by group purchasing of common requirements. Furthermore, as proved by the "changing of work" forced upon us by labor scarcity, three or four farmers working together at one operation will accomplish more than the same number will working separately in different fields. Unconscious rivalry and the fellowship that brightens toil assures this. To the methodical adoption of this whole system is largely due the remarkable material development and marvellous production attained in the Mennonite settlements of the West.

Advantages and Disadvantages.

It would be practically impossible to apply any such system in full among our people in Ontario. The idea of individual ownership is too firmly ingrained here for that; changes of ownership with us are too frequent and the difficulties of apportioning rewards during the continuance of community partnership, or settlement of claims when one member would wish to drop out, are insuperable obstacles to the full adoption of the Cook idea.

But many of the advantages the American writer has in mind could be obtained without the application of the idea of community operation to the same extent that it has been applied in the West. A start has already been made in this line by the syndicate ownership of corn binders, mowers, tractors ,trucks and beginning was long since made in another direction by pooling milk in cheese factories, and this method is now being extended with most gratifying results to the co-operative selling of hogs, cattle, sheep and poultry products.

In both lines there is room for almost unlimited extension. There is no reason why joint ownership of manure spreaders, thrashing outfits, binders, mowers, tractors, trucks and male breeding stock should not be the rule rather than the exception. There is no reason why all the staple farm products of a neighborhood should not be sold through a common agency. There is no reason why all staple household and farm supplies should not be purchased in the same way. Systematizing the grouping of help in ordinary farm operations would stmulate the community spirit, increase efficiency and lighten toil. The U. F. O. can render no greater service to Ontario agriculture than by giving increasing leadership along this line.

A Good End to the Season.

A week of fine weather followed by a refreshing shower on Saturday night has proved of almost incalculable benefit to this section of the Province. The bulk of the spring grain crop has been gotten under cover, with grain and straw, both in prime condition. The corn crop, rather late, has been sent ahead with a bound under the stimulus of the warm sun. Tomatoes for canning have been hastened toward maturity and the copious rainfalls following upon dry heat have freshened pasture crops, given further help to corn and roads and prepared the land for after-harvest cultivation.

The earlier part of the season gave farmers here a trying experience, but conditions that have existed since late June could not well have been improved upon, and prospects now are that live stock will go into winter quarters in good fresh and health, with plenty of feed in the barn for winter maintenance.

Date of Corn Planting.

Reference has been amde more than once in this department of this paper to the fact that a good deal of this year's corn crop in Ontario was planted rather late. In my opinion, corn planting is done too late in the majority of cases, and this not so much of necessity due to labor shortage as to a sort of superstitious regard for May 24 as an arbitrary date for the beginning of planting. Seasons, of course, vary and in some years spring opens much later than in other years, but in the past ten years there has not been a season in which corn could not have been safely planted here a week before May 24. Last year the seed plot on this farm was planted on May 8, and this year's main crop is the product of that seed. The main thing is to get the land well worked up as early in the season as possible, and then to plant as soon as the soil is warm enough to assure germination.

Early planting means a good start, avoidance of danger of frost damage at the end of the season, greatly lessens the danger of breaking down of the crop by fall storms and, finally, the getting of the corn into the silo at a time when the weather is most favorable for that sort of work.

Profit in Small Holdings.

Prof. Helyar of New Jersey Agricultural Experment Station, in a recent address, expressed the belief that the pork crop of the future will come from small herds kept on many farms. Whether this prediction is fulfilled or not, there is no doubt that, so far as the Eastern States and Ontario are concerned, the most profitable pork crops will be produced under the conditions stated by Prof. Helyar. Where dependence for feed is placed on grain alone, Prof. Helyar says it takes about 500 pounds of grain to produce 100 pounds of pork. This is, perhaps, a slightly wide estimate, but he is a skillful feeder who can do it on much less, and even at 400 pounds of grain to 100 pounds of pork the margin of profit is not very great at present respective prices of grain and pork, even without possible losses by death or disease. On the other hand, where by-products such as forage crops and skim milk or why are made use of as part of the ration the cost of production can be considerably lessened, but in that case the holdings of hogs must be proportioned to the supply of these feeds available. With forage as part of the ration at New Jersey Station, it has been found that 250 to 300 pounds of grain will produce 100 pounds of pork, and some Canadian experiments show similar results.

Hogs are not unlikely to remain at relatively high levels for some little time to come because of lessened production of these. In fact for a year or more feeds are not unlikely to fall more rapidly than bacon, and it is not impossible that those who have hogs will make at least as well out of them in the next twelve months as they have ever done. But the downward trend in all food products cannot be far off, and economy in production will more than ever be the watchword, and so far as hogs are concerned, Helyar is right in his contention that the largest margin of profit will be found in the small herd.

AHMIK.

Cedar Crescent Farm, Durham County.

M. H. JOHNSON, of Portland, Ore., who says no one could have done him any greater kindness than the friend who advised him to try Tanlac.—Gains fifteen pounds.

"Not in a long time have I enjoyed such good health or felt so well generally as I do since taking Tanlac," said W. H. Johnson, 139 East 43rd St., Portland, Ore., who holds a responsible position with the Northwest Transfer Company.

"About a year ago I began suffering from lack of appetite and stomach trouble and since that time—that is, until Tanlac set me right—I have left so poorly that I could hardly do my work. My food seemed to do me little good, if any, as my digestion was bad, and I lost both weight and strength continually.

"After every meal there was a dull, nagging pain in the pit of my stomach that kept me feeling miserable for hours.

"The gas from my sour, undigested food would bloat me up terribly and my nerves were so upset that I would lie awake half the night unable to sleep. I was constantly having blinding dizzy spells and could not bend over and straighten up quickly but what everything seemed as dark as night to me.

"I was telling a friend one day how bad I felt and he advised me to try Tanlac, and I just want to say he couldn't have done me a greater kindness.

"I have picked up all of fifteen pounds in weight, my appetite is fine, and although I am eating just anything I want my stomach never gives me a particle of trouble. My sleep is sound and restful and my strength and energy have been so renewed that my work is no longer a burden to me."

Tanlac is sold in Peterborough by W. B. Warne Drug Co., Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co., Ltd., in Fowler's Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son. (Advt.)

DOWNIE STREET CREEK TO BE PARTIALLY, ETC.

(Continued from page 1).

be given the Board of Trade in the work.

The Sidewalks.

The communication from R. C. Braund requesting the construction of a sidewalk on the west side of Park street, south, below Albert street, was received by the Board of Works last night and it was decided to leave the matter over until the Cty Engineer could report on it.

The committee was of the opinion that something should be done immediately, but the problem of surface drainage in this section and the feasibility of turning the present ditch on that side of the street into a drain and building a sidewalk over it was too great to be decided without an investigation.

Ald. Whitehouse stated that the sewage and drainage facilities were greatly inadequate and that if he were in the chair again next year the Board of Works would ask for a large appropriation.

C.P.R. to Extend Flagging at Aylmer Street.

A communication was received from the Canadian Pacific Railway in reply to the request of the Council for the extension of the flagging hours at the Aylmer street crossing. The Council had asked that a flagman be on duty until 11 p.m., but the railway agreed only to flag the crossing from 6 a.m. to 10 p.m. in view of the fact that the extra hour asked for would disarrange the schedule of shifts.

Douro Refuses to Take Half the Cost of Repairing.

A communication was received from the Township of Douro refusing to grant the city's request that the cost of repairing the boundary road from Nicholls Oval be divided equally between the city and the Township of Douro, but stating that the Douro Council was willing to meet the Peterborough Council and discuss the matter. It was decided to discuss the matter with the Douro Council and have City Engineer Parsons prepare an estimate of the cost of repairing the road.

Half Salary For Assistant Engineer.

Assistant City Engineer W. G. Perks was granted one-half his salary for the two months which he spent in Kingston undergoing treatment for injuries received in the war. Mr. Perks' pension has been reduced by the government.

Water Service for Board of Works' Barn.

The consent of the Utilities Commission to the request for water connections to the Board of Works' barn on condition that the Board pay the cost of the necessary excavation of 150 feet was accepted.

Contract For Bathing House.

The contract for the placing of shutters on the bathing house at Crescent street at a cost of $20 was given to John McFarlane.

Numbers on Posts Shelved.

Ald. Crowe's Proposal that numbers be placed on posts in front of houses as an assistance to those having difficulty in finding a house number was approved by the committee but was shelved on account of the expenditure involved.

Disposal of Cans at Incinerator.

The matter of the disposal of the tin cans at the incinerator was brought up and Ald. Hamilton expressed his doubt as to the feasibility of rolling the cans as formerly proposed. He was in favour of securing a press to do the work. Street Commissioner Evans believed that they could be used to fill in the adjoining lot belonging to the Canadian Pacific Railway and stated thta the C.P.R. would probably be only too glad to have the level of the lot thus raised and covered with ashes. Acting on this suggestion, the City Engineer was instructed to write to the railway regarding the matter.

New Barn For Board of Works.

The proposal of turning the building on the newly acquired lot near the C.P.R. station, formerly owned by T. Rehill, into barn for the Board of Works' horses, was approved.

Members Present.

The members present were: Ald. Whitehouse, chairman, Mayor McIntyre, Ald. Morrison, Turner, Jones and Hamilton.

BUT LITTLE INTEREST IN MANITOBA REFERENDUM

(Canadian Press)

WINNIPEG, Sept. 15.—Opening of registration for the liquor referendum election on October 25 indicated either there is little interest in the prohibition question or most of the voters are already registered Up to noon yesterday there had been only a scattering registration in any of the districts.

REVISION OF VERSAILLES TREATY IS NEEDED, SAYS PRINCE MAX OF BADEN

(Canadian Press)

MANNHEIM, Germany, Sept. 15.—"The present military operations are only a very minor part of a world-wide offensive which Soviet Russia is now setting in motion," declared Prince Max of Baden in the course of a lengthy interview which appears to-day in the Baden State Gazette. Asked whether he saw a way out of the present dilemma for Germany, Prince Max, according to the report, said:

"There is only one very slender hope; it consists in an unconditional maintenance of our neutrality both to the east and the west, and in one last desperate effort to effect a revision of the Versailles peace treaty."

Prince Max believes that what he calls the German resistance to the moral invasion of Bolshevism is bound to crumble down if the checking pressure from the west is kept up.

"It would be doing scant justice to Lenine's uncanny personality," he continued, "if one were to believe that he is capable of keeping more than a sham peace with so-called capitalistic states. Lenine believes with religious fanaticism in the victorious march of his idea; the dictatorship of the proletariat or of the communistic portion of the proletariat. He is, of course, enough of a psychologist to understand that a military invasion of any country he wants to disrupt would be the very means of consolidating it. His plan would rather consist in provoking and fostering civil war in the bordering states so that, when the time was ripe for invasion, he would find an open door and a union of comrades."

Prince Max believes that the prospects of such a plan succeeding in Germany are not wholly unpromising, as the "moral invasion" he declares has already set in and news from East Prussia plainly indicates that the red propaganda among farm laborers there is already taking effect.

"Europe to-day is aflame," he concludes, "and the task of extinguishing the conflagration cannot be postponed. The situation demands the restoration of President Wilson's 'fourteen points,' which constituted the basis for the treaty, but which were wholly ignored at Versailles.

All artificial edifices erected there have already tumbled down or are threatened with imminent collapse. The fate of Poland is a horrible example. The Polish state can only be revived if, in keeping with President Wilson's words, it comprises an unchallengeable Polish population."

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons in to a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

PUGILIST JOHNSTON GETS YEAR IN PENITENTIARY

Transported American White Girl For Immoral Purposes.

(Canadian Press.)

CHICAGO, Sept. 4.—Jack Johnson, former heavyweight world's champion, was sentenced to one year and a day in Leavenworth penitentiary and fined one thousand dollars to-day, by Federal Judge Carpenter, for violation of the Mann Act. This sentence reaffirmed that passed on Johnson in 1913, when he was convicted of transporting a white girl from Pittsburg to Chicago for immoral purposes.

ST. JOHN, Sept. 15.—Hon. D. E. Smith, Minister of Lands and Mines, has resigned.

Rinso

Saves Your Clothes from being "Rubbed Out"

NO need for the wash board any more. Use Rinso. It is so rich in cleansing power that all the dirt in the clothes is loosened while they are soaking in the bubbly Rinso suds. Think of it—no work for you—no wear for the clothes.

At Night—
put the clothes to soak with Rinso.

Morning—
rinse them, that's all. The clothes are sweet, spotless, clean.

Rinso does the work yet it's so pure that the clothes are as safe as in pure water itself.

Don't wash even once more the old-fashioned, hard way. Get Rinso—one package does the week's wash.

At your Grocer's—today

A Great Anniversary Sale

Celebrating our 22nd Birthday and Making Merry with a Festival of Underpriced Goods—Three Days, Thursday, Friday and Saturday

22 Years In Business To-Morrow

Twenty-two years ago to-morrow morning at 8 o'clock, this store opened its door for the first time. To-morrow morning at 9 o'clock, which is now our opening hour, we commence a three days' celebration of the founding of this establishment. We propose to make it a gala occasion for our patrons by presenting a varied assortment of unusually fine merchandise and making the price as low as is consistent with good quality. We consider this a fitting way to celebrate the birthday of a store and have left no stone unturned to make this twenty-second anniversary a mile stone long to be remembered by those who participate in the value giving.

22 Years In Business To-Morrow

Four Splendid Offers from the Redfern Store

Smart Tailored Gabardine Suits at $45

They have that smartness that is characteristic of tailored models, if they are well made. The back is plain except for an inverted pleat and a little braid trimming, that is also to be found on the front; buttons are also used for trimming. You can have either black or navy blue in this model.

Coats of Silvertone and Velour for $47.50 and $49

They are cut on the straight lines and have the fashionable narrow belts and convertible collars. Novelty buttons play an important part in the trimming, and there is lining to the waist line and also in the sleeves. You can have brown, navy, taupe or grey.

Dresses of Silk and Georgette at $35

They are well made, good looking dresses with dainty frills, round and V shaped collars, and long or short sleeves. Some are made entirely of georgette and others are of crepe de chine and several combine these materials. The colors are taupe, navy, brown or black.

$6.95 and $7.25 Voile Blouses for $5

These beautiful quality fine white voile blouses are daintily trimmed with lace, insertion and fine tucks. The quality of the voile is not to be despised, the mesh being fine and even.

$3.50 All-Wool Navy Blue Serge, 52 Inches Wide, $2.69 Yard

This is a guaranteed all-wool English serge that is 52 inches wide and is an excellent weight, suitable for ladies' dresses and suits and also for misses' school skirts.

$3.25 Self-Stripe All Wool Navy Serge $2.33 Yard

This all-wool navy serge is fifty inches wide and has a neat self stripe pattern. To-morrow will be an opportune time for you to purchase.

$2.50 Yard-Wide Habutai Dress Silks, $1.69

This excellent quality habutai wash silk is 36 inches wide and can be had in a range of colors, including brown, Copenhagen, emerald green, mid-grey, Russian green, maize, turquoise, black and white. Every piece in the lot is a regular $2.50 value and a few are selling at $1.75.

$3.25 Pailette Dress Silks, $2.38 Yard

This beautiful quality paillette dress silk can be had in brown, taupe, old rose, reseda green, mauve and flesh pink. The everyday price is $3.25 yard and the width is 36 inches. There are only half pieces of each color, so come early.

Our Famous $3 Elbow Proof Georgette Crepe for $1.95 Yard

This is the same good quality that you have always so much admired and always purchased and there is a wide selection of shades to select from, as taupe, brown, grey, navy, Copenhagen, Pekin blue, reseda, old rose, peach, pink, sand, turquoise, coral, black or white.

Men's Likable $4.50 and $5 Shirts, $3.39, 3 for $10

They are from the factories of such celebrated makers as Arrow Brand, W. G. & R., Star and Gordon. The materials are English percales, Zephyrs and Madras and the patterns are fancy stripe designs. You can have any size from 14 to 17 inclusive.

Boys' All-Wool Jerseys, $2

REGULAR $2.75 AND $3 VALUES

These are excellent all-wool garments and are made to button on the shoulder and have a roll collar. The colors are plain cardinal, plain heather and garnet trimmed with oxford.

Men's 15c White Lawn Handkerchiefs, 3 for 25c

It is seldom that the price for lawn handkerchiefs is, even, as low as this. These have hemstitched edges, about half an inch deep and the lawn is a fairly fine quality.

Men's $50 Indigo Blue Serge Suits, $37.85

These good suits of blue serge are just the kind that we are proud to point out as coming from our shop—good fitting, fine appearing and excellent wearing garments. Some of the styles are two-button models and others are the three-button style. Some are cut to suit the ideas of young men and others are more conservative models for men of quieter tastes.

55c Heavy Bungalow Nottingham Curtain Nets, 39c

Neat conventional designs that you will like and you can have either white or ecru. The width is 36 inches.

$1 and $1.10 English and American Cretonnes, 69c Yard

There is a good variety of designs and colors, suitable for drapery purposes. The width is 36 inches.

$1.50 Linoleum, 4 Yards Wide, for $1.35 Sq. Yard

It is a heavy quality and can be had in floral, tile and oriental designs and light or medium colors.

$1.25 Brusselette Stair Carpets, 98c Yard

They have plain centres of brown or green with band borders. The width is 27 inches.

$1.50 Brusselette Hearth Rugs, $1.19

They can be had in either brown or green shades with medallion designs and fringed ends. The size is 24 in. x 54 in.

Some Good Reductions on Kongoyen Jute Rugs

Heavy qualities, seamless and reversible. Can be had in shades of blue or green, plain centres with fancy borders.

Size 9 x 12.	Regular price	$24.50 for $16.00
Size 9 x 9.	Regular price	$16.00 for $12.00
Size 9 x 10.	Regular price	$16.00 for $12.00
Size 6 x 9.	Regular price	$9.00 for $7.00
Size 4 ft. 6 in. x 7 ft.	Regular price $5.00 for	$4.00

Attractive Millinery at $12

There is an extensive assortment of models at this price. Threy are dressy creations suitable to wear with suits or dress. You will like their smart trimmings and general lines.

"Penman's" $1.55 and $1.75 Black and Brown Heather Hose $1.29 pair 2 pairs for $2.50

"Penman's" fashioned seamless hose in all black and brown heather mixtures. The sizes in the black are 8½ to 10 and in the heather 9 to 10. At this price we consider they are worth buying in lots of half a dozen.

Ladies' $2.25 and $2.75 Novelty Silk Hose $1.83 pair

These hose are in lace designs. The colors are plain navy, black and white and the fancies are black and purple and navy with purple in shot effects. There is a good assortment of sizes.

Ladies' 85c Balbriggan Drawers, with tight knees, 49c

They are suitable for fall wear and are of white balbriggan. There is a good range of sizes from 36 to 40. They are not seconds—every pair is first quality.

Boys' and Girls' 50c to 65c Ribbed School Hose, 39c, 2 pairs for 75c

You will find fine ribbed ones for girls and heavier ribbed ones for boys. There are all sizes from 6 to 10 and at this price they are decidedly worth buying in sufficient numbers to last the family for an entire season.

Ladies' 85c Fall and Winter Weight Ribbed Undervests, 59c

Ladies' fall and winter weight ribbed undervests with buttoned fronts, long sleeves and they can be had in white or grey. Only by purchasing them in large quantities and carrying them in stock since last year is this price possible.

"Griffin's" $1.25 Chamois Cloth Gloves, 97c Pair

A NEW SHIPMENT

Over fifty dozen pairs in this new shipment. They are made of a good quality chamois cloth and the color range includes: greys, browns, white, black and natural color. In most colors you have choice of plain or black embroidered backs. We honestly believe they are the best $1.25 glove value on the market to-day.

Four Hundred Dozen of Men's and Ladies' Hemstitched Handkerchiefs

Especially fine qualities of Irish Lawn Handkerchiefs. They have narrow hemstitched hems on both men's and ladies'. They are exceptionally good buying at the reduced Anniversary Sale prices—

Men's regular 25c values, 3 for 49c

Ladies' regular 15c values, 3 for 29c

To-morrow's Mid-Day Lunch, 50c

Ladies' $11 and $11.50 Boots, With Good Style, For $8.75

Brown or black calfskin boots with Goodyear welted soles and high and medium heels. They are made on graceful lines, and we can fit you in any width from AA to D.

$9.00 and $9.50 Kid Boots for $6.95

These have low heels and cushion soles and there is every reason in the world why we should receive the regular prices for them, but we have decided to let them go, in this Anniversary Sale, for the above figure.

Ladies' $10.50 Black Kid and Patent Oxfords $6.49

Some will buy them because they have Goodyear welted soles and others will like them because of their modish shapes. Whatever is the reason you will not be disappointed if you procure a pair. Some have high and others low heels. The sizes are broken, hence the reduced price.

Children's Footwear Can Be Had At Reduced Prices

All of our children's lines can be had at reduced prices and we know of no other time when this news would be more welcome. Hundreds of people have found it to their advantage when outfitting the children for school.

Children's Stamped Pique Dresses 98c

Fine quality white pique dresses in sizes for the little tots of from one to two years. They are stamped with neat floral designs.

Andalusian and Zephyr Wools, 2 for 25c

ABOUT SIX HUNDRED SKEINS IN THE LOT

To-day's retail prices for these wools are 35c and 40c a skein. For to-morrow's sale we have six hundred skeins of these popular wools and a splendid range of colors as well.

This is a manufacturer's sample lot of pull over sweaters, made with and without sleeves. Colours—Adriatic blue trimmed with coral, rose trimmed with white and Pekin blue trimmed with maize. There is also a few plain colours.

$12 is a moderate Price for an Accordion Pleated Serge Skirt

They are accordion pleated all around and the serge is a good quality. They are trimmed with four rows of narrow braid about six inches from the bottom. Obtainable in navy blue or black.

Real Pretty Georgette Crepe Blouses for $5.49

They are slip-over style and have sleeves and in many instances are piped with contrasting colors, as flesh combined with French blue. Silk embroidery and beads also play a prominent part in the trimming. The colours are Flesh and White.

Ladies' Cosy Winter Coats for $49

The material is a good quality velour and the style follows the straight line effect and the collar is large and can be buttoned close up if desired. You have choice of brown, taupe, navy, Burgundy and also brown silvertone.

Swagger Dresses of Good Quality Serge at $39

Fine English serge is employed in the making and the color selection includes: navy, black and sand. They are trimmed with braid, embroidery and buttons and are fashioned on modish lines that you will like.

TURNBULL'S
FALL OPENING
ANNOUNCEMENT

Like the opening night of a new production, raising its curtain before an audience eager and expectant, this carefully prepared fashion fete now sounds its welcome to all women of Peterboro.. You will find a thrill and gratification in its presentation. Everything is so new, yet there is an air of finality about it that puts one at ease regarding the authenticity and popularity of these styles for the new season.
And aside from the absorbing interest of the merchandise itself those who have the privilege of serving you here have mastered their part. They are equipped, ready and cheerfully willing to assist you with suggestions and information about the minutest details of Autumn apparel.

A Long Jacket on your Autumn Suit

And if you read between the lines you will know at once that variety is the dominating feature in the suits this Fall. The tendency is toward tailored models, but with the long coat very fashionable, with all sorts of belted styles in vogue, with skirts that are narrow and plain, you have a selection that is limited only by your personal preferences.
An extremely clever model is this suit; in colour it is a beautiful shade of plum coloured broadcloth. The coat is long and at the bottom it is embroidered, a very pretty design being worked in black silk. The loose over panels which hang from the hip are very new. These are finished with black silk tassels, which add a very charming appearance. Hudson seal, used as a collar, eliminates the necessity of wearing a fur piece with this suit, and also beautifies it with its richness. Not only is this model beautiful on the outside, but the lining of satin distinguishes it as a better suit. A plain tailored effect is shown in the skirt, with gathered back and narrow belt. This suit is priced at **$125.00.**

Autumn Wraps and Coats have a Luxurious Air

To be sure there are many utility coats which for practical purposes have avoided extensive trimmings and adornment. But in the fashionable wraps there is the luxury of large draped collars; the witchery of the rich, beautiful fur in collars, cuffs and pockets. If one were to mention the predominating colour it would be brown—yet it comes in so many variations! Long capes give some models an accentuated draped effect. Such fabrics as duvetyn, velour and tinseltone, indicate that even the materials have a fashion interest wrapped up in their names.
A wrap of silk Bolivia cloth in the predominating shade of brown presents itself. The loose lines give this coat the popular draped effect, and also with its large collar of beautiful soft seal it will be admired by all the discriminating women of fashion. The narrow, string belt, which passes all around is a clever means of fastening. It is lined full length with satin to match. This coat is priced at **$125.00.**

The Opening of Autumn Millinery

What Paris has done and what American women will do as regards the Hats of Autumn will be brought home most forcefully to the women who attend this opening. That duvetyn hats are eminent in the vogue there is no denying, yet presented here for you to review are modes of velvet and this always fashionable fabric combined with equally lovely satins, brocades, laces and taffetas. There is much variety in contour and size but not a bit of difference in becomingness.
Duvetyn is given precedence over all other materials, appearing in sailors, hats of notched brims, tams, modes adorned with pleated frills and embroidered. Velvets, clipped beavers, metal brocades and embroidered taffetas also have established vogue.
The small hat because it caters to woman's love of veils is eminently the mode of Autumn. Here it finds varied expression. Toques, Egyptian and Hindu turbans, and hats with diminutive brims are favoured.
Conspicuous among the garnitures are gorgeous hand embroideries, self fabric frills, burnt goose, wings, quills, glycerine ostrich, coque, hackle and blondine. Altogether this is a most impressive and instructive showing.

New Autumn Apparel Accessories—Gloves and Hosiery

Silk Gloves or Kid Gloves to wear with the new suit or coat, and in all the fashionable shades, may be had at our glove and hosiery department. All the new shades of silk hosiery are here for your inspection in qualities that are unsurpassible and most moderately priced.

(North Aisle—Main Floor)

Autumn Versions of the Blouse

When suits are more than ordinarily important is it any wonder that the new Blouses are of absorbing interest? And they merit your interest for we are sure a more representative assortment of the smartest modes is hard to find. Handwork, delicate and skillful, distinguishes countless Blouses of fine soft voile and batiste. Modes of Georgette crepe, Taffeta and Satin are tailored or elaborately adorned with beading or embroidery, as the fancy wills.

To be worn with your new autumn suit. An overblouse of navy blue Georgette, which is most handsomely embroidered in wool and silk, will satisfy the most fastidious. The short sleeves with their dainty finishings for cuffs and the round neck are very becoming to all. At the back the blouse is finished with a large bow of Georgette. This blouse is priced at **$25.00.**

THE J.C. Turnbull CO. LTD

LABOR TALKS SOVIET GOVT FOR CANADA

BUT PRESIDENT TOM MOORE REPRIMANDS BOLSHEVIK ADVOCATE PETER M'CALLUM

(Canadian Press).

WINDSOR, Sept. 14.—Sovietism as a proper form of government for Canada was suggested at the Trades and Labour Congress of Canada at Windsor to-day, during the debate of a report of the Executive Committee regarding political action.

Delegate Peter McCallum declared himself definitely in favour of a workers' republic with a board or Soviet form of government. This brought forth expressions of approval from a spector in the gallery, a reprimand from President Tom Moore, and various interruptions from delegates.

The discussion on the direct action of the report was unfinished when the Congress adjourned for the day.

GIRL SCREAMED MAN MURDERED

SHOCKING TRAGEDY AT. SAULT STE. MARIE OVER THEFT OF CHICKENS

(Canadian Press.)

SAULT STE. MARIE, Sept. 14.—George Elliott, a married man with three children, was murdered last night at his home in East Korah.

Elliott had been missing chickens, and on his way to the barn grasped a girl in the darkness, believing her to be the thief. He then took her into the barn, where his brother was milking, to assure himself of her identity. The girl screamed, and a man appeared, who almost on sight shot Elliott in the abdomen, from the effects of which he died at three this morning.

The man who did the shooting disappeared in the darkness.

ALL CONDENSED MILK FACTORIES TO CLOSE

SEQUEL TO MILK PRODUCERS PROPOSAL TO INCREASE PRICES

(Canadian Press).

TORONTO, Sept. 14.—As a sequel to the recent hearing before the Board of Commerce of the milk producers' request for increased milk prices, comes the announcement that all Canadian condensing factories are to close down indefinitely at the end of the month, because the market is overstock with their products, for which there is no demand.

Local representatives say they fear heavy losses. Shutting down means that a large quantity of farmers' milk will be on the market this winter.

MONTREAL ROBBERS MADE COOL GET-AWAY

MONTREAL, Sept. 13.—Robbery took place at the Windsor Hotel in this city, which for cool and calculated daring rivals the best chronicled performances of the so-called international crooks. Thieves entered the apartments of two lady guests of the hostelry during their absence Sunday, appropriated jewelry and other valuables, including in the haul the ladies' transportation to the Pacific Coast and also the checks for their baggage. The matter was reported to the police authorities who, on investigation, found that the miscreant had not only obtained rebates on the railway tickets, but had in addition redeemed the ladies' baggage and made off with the contents, the value of some two thousand dollars. Detectives have recovered most of the stolen property in a house in the north end of the city, and took into custody a man and several women as they were preparing for departure for unknown destinations.

JAMES THOMPSON'S PULPWOOD COMPANY GOT TIMBER LIMIT

BUT CONCESSIONS WERE CANCELLED AFTER PROVINCIAL ELECTIONS

How the pulpwood company of which Mr. James Thompson, ex-M.P. P. for East Peterborough secured timber concessions in New Ontario prior to the last provincial elections only to have them cancelled by the Government in April of this year, was brought out at yesterday's session of the investigation that is in progress at the Parliament Buildings, Toronto.

E. R. Heyland, who was largely interested in the Monteith Pulp and Paper Company, told the Commissioners that the group behind the company included four members of the Legislature—two supporters of the then Government, Thompson of East Peterborough, who, although his financial interest was small, was president of the company, and Benneweiss, South Perth, and two Liberals, Lambert Wigle, of South Essex, and Udney Richardson, of East Wellington. With this assurance against the hazards of a general election the company in September, 1919, about six weeks before the general election, secured a pulpwood concession in the vicinity of Monteith. It was granted to them without advertisement and without tenders.

Cancelled the Concession.

But, alas! no pulpwood was ever taken from it. Neither of the quartette of Liberal and Conservative members returned to the Legislature, and the seats of the mighty in Queen's Park were filled by gentlemen not personally known to the four. The upshot of it was that along in April last, about the time the Royal Commission was getting ready for the investigation, the Government cancelled the concession — just wiped it off the books.

Mr. Heyland was asked by Commissioner Riddell if he could explain why this company should get something worth more than was being paid for it, without advertising or competition of any kind. The witness was not prepared to argue the matter of competition, though the pointed out that his company was the only one that could economically handle the timber in question. He did, however, contend that the Government was to get a good price for the wood taken out. That price was to be $8 per thousand, plus $2 dues for pine, 7 cents each for ties, 40 cents, plus 40 cents, dues of spruce, and 20, plus 40, for other pulpwood.

"We accepted the price the Government fixed," said Mr. Heyland, "but I objected. I thought it was too high. Much of the timber was inaccessible and expensive to cut." He pointed out, further, that his company already owned a number of veterans' claims in Sheraton, and that for this reason it had wanted the rest of the block in order to permit operations.

DOURO TOWNSHIP COUNCIL MEETING

DOURO, Sept. 15.—Council met at the Town Hall, Douro, on Wednesday, Sept. 8th, pursuant to adjournment. All the members were present.

On motion the minutes of last meeting were read and confirmed.

Moved by G. Graham, seconded by R. Maloney, that the treasurer be authorized to pay F. C. McRae on or before Sept. 17th the sum of $20.00, to be used for prize money at the Douro township school fair.

Moved by W. Quinlan, seconded by R. Maloney, that Wm. Quinlan be appointed a commissioner to expend the sum of $50.00 on Dummer Road in concessions 1 and 2, and that the treasurer pay same on the order of above named commissioner. Carried.

The following municipal by-laws were passed, viz.: By-law No. 889, authorizing the levying and collecting of the sum of $4,788.00 as a county tax, $670.00 as a House of Refuge tax, $2,394.10 as a highway tax, $1,300.00 as a township tax, $2,966.33 as a general school and equivalent tax, and also the trustees' rates in the different school sections; by-law No. 892, appointing Patrick Farley collector of rates for 1920, and by-law No. 883, authorizing the expenditure of $600.00 in accordance with the pensions of the Colonization Roads Act.

The following accounts were passed, viz.: Joseph Curtis, shovelling snow, $2.30; Geo. Hamilton, shovelling snow, $5.60; Geo. Whibbs, shovelling snow, $7.20; Joseph Coughlin, el. $0.00; John W. Condon, shovellellip gan ow .$8 .00;P .

elling snow, $7.20; oJseph Coughlin, shovelling snow, $6.20; F. D. Baley, bottle of ink and letter pad, 60c; Canadian Woollens, gravel, $3.20; Peterborough Examiner, school requisitions, 36c, voters' lists, $45.97; Elias Beavis, repairing road, $4.00; R. Maloney, gravel, $1.65; W. Barry, shovelling snow, $4.00; John P. Condon, work on road, $6.50.

Council adjourned to meet at a call from the reeve.

AN APPLE TREE IN BLOOM.

An apple tree in bloom in September is a rare sight, yet such can be seen in the orchard of W. J. Hunter, of the Isle of Man, a few miles east of Kingston Mills. Mr. Hunter on Saturday displayed some very pretty apple blossoms gathered from a Red Astrachan tree. The same tree is producing fine aples as well.

SEEK CUSTODY OF CHILDREN FROM CHILDREN'S AID SOCIETY

A NUMBER OF THE CASES WILL BE INVESTIGATED—MEETING YESTERDAY AFTERNOON.

Saturday, 9th October, was chosen as the annual tag day by the members of the Children's Aid Society present at the regular monthly meeting yesterday afternoon, and Mrs. Knox was appointed convener of a committee, to be named by herself, to look after the day's proceedings.

Many Applications.

Application after application was read and received from parents and relatives wishing the custody of children previously placed out by the Society. One father, who appeared in person, angrily refuted charges made by members of the Society of his being a useless citizen, averse to work. He produced recommendations from former employers and from the Army—from which he had been discharged—all testifying as to his willingness to work and good character, and made a touching appeal for the return of two of his little ones, referring to the unhappy home caused by his wife fretting for her children.

A number of the members of the Society, however, claimed that one of the children, a little girl, is inclined to be unmanageable, and that her return to her home at present would mean serious consequences. It was nally decided to return one child to the parents at present, over whom a careful watch will be kept.

In another case, the uncle and aunt of some children left orphans through the war and the influenza epidemic, applied for the little ones' custody, but as it was shown that the relatives had returned the children in seemingly unnecessary haste some time before, the secretary was instructed to write the would-be custodians, and ask them to state their case, and why the total change of attitude to the children.

Varied the Monotony.

After dealing with the several cases on hand of persons wishing the return of children, the monotony of the proceedings was varied by deciding to take away two children, wards of the Society, from their mother, who is apparently not living according to the rules of the Society.

Gave Boy a Future.

Mr. J. Edgar, in referring to a boy—a ward of the Society—who had run away from his foster-parents, told the Board of his activities in securing a future for him. He said that the lad had told him that he was dissatisfied with him home in the country, especially on account of the fact that he had never been given a clean shirt since he went to the home some months ago. Mr. Edgar immediately asked him what he would like to do, and on finding the boy desired to learn a trade, had secured an apprenticeship for him in one of the local factories, where he will learn to become a machinist.

Upon the report of the case, Dr. King advised that a closer inspection should be made of all homes in which wards of the Society are housed, in order to see if conditions are all right, and a committee of Mrs. Fanning, Mrs. W. A. Sanderson, and Dr. King was appointed to look into the matter of a systematic inspection of the homes in the city and country where wards are at present.

Report of Committee.

Father Phelan, a member of the committee appointed to look into the matter of drawing up plans for the betterment of the Children's Aid Society, which committee met recently in Toronto, reported that the conference had shown him that the local Society is behind other societies in the matter of being helped financially by the townships. He also stated that it had been suggested that closer touch be kept upon the different wards of the Society. After the deputation which will wait upon the Minister with many suggested improvements, Father Phelan is confident a better Children's Aid Society will result.

Shelter Reports.

The report of the agent showed 8 applications for children during the month; 2 brought in not wards, 4 made wards, 5 wards placed out, and 6 returned to the Shelter. The matron's report showed 17 children involved during the month, 9 brought in and 5 placed out, and no illness in the home during the month.

Members Present.

Members present at the meeting were Rev. Father Phelan, Mr. John Edgar, Mr. H. B. Cowan, Rev. F. E. Malott, Mr. E. A. Peck, Dr. De C. King, Mrs. Walter Stocker, Mrs. W. A. Sanderson, Mrs. W. H. Gibbs, and Mrs. Fanning.

ANOTHER LARGE POTATO CROP IS RECORDED

Twenty bags of potatoes grown from one bag of seed is the yield James Gray records from his garden at the corner of Aylmer and Aberdeen avenue. In four 108 feet rows out of the nineteen in the garden he has taken up 5 bags and one peck and from this he makes his calculation of 20 bags or over. The potatoes do not belong to any fancy variety, he states, but in size and quality they are excellent tubers.

Food and Shelter

Human beings always must be fed and housed.

People are always flocking to a city for business or pleasure.

A well run hotel in a big city always earns big profits. And thus money invested always earns big dividends.

CELEBRATED THEIR 40TH ANNIVERSARY

SIXTY RELATIVES AND FRIENDS ASSEMBLE AT HOME OF MR. AND MRS. WESLEY THOMPSON

About sixty of the relatives and friends of Mr. and Mrs. Wesley Thompson assembled at the home of their son Norman, near Bailieboro, to celebrate the fortieth anniversary of their wedding day on September 8th. The following address was read by Mrs. Charles C. Dawson and a pair of beautifully upholstered easy chairs presented at the conclusion thereof.

Bailieboro, Sept. 8th, 1920.

Dear Mr and Mrs. Thompson,—This assembly of your relatives and friends comes to greet you with best wishes for long life and continued prosperity on this, the fortieth anniversary of your wedding. We congratulate you upon this happy event, and some of us remember the day when as bride and groom you came to settle on this very farm where you have spent so many useful and happy years. As neighbors we can readily testify to your willingness to help, and your giving of your best talents to help in every good cause. Many happy scenes of church activities have been witnessed within these walls and each of us has found a cordial welcome extended to us from time to time to share your hospitality. We hope you both will be spared many years to further the best interests of the community and enjoy the fruits of your labors.

In your leisure hours we trust these chairs will be restful and while in them pleasant memories will float over your minds of happy days we spent together.

Mr. and Mrs. J. W. Dawson.
Mr. and Mrs. C. C. Dawson.
Mr. and Mrs. N. Thompson.
Mr. and Mrs. L. Byers,
Mrs. Bateman, Polly Thompson.

After a reminiscent address by the pastor, Rev. M. W. Leigh, B.A., of Fraserville, the remainder of the evening was spent in games, music and refreshments.

NORTH MONAGHAN L.O.L. CONFERRED DEGREES LAST NIGHT

North Monaghan L.O.L. Number 2440 had a big night on Tuesday last when conferring of degree work was the special attraction. Many visiting brethren from Lodges 50, 80, 1175 and 457 were present, and all visitors discharged their duties ably while assisting in the work. The evening was concluded in the small hours by the singing of the National Anthem.

Officers and members of L.O.L. Number 2440 wish to extend their thanks to the visiting brethren for assistance received and urge all to come to Lodge again.

REVOLUTIONARY AGENTS HAD LITTLE SUCCESS WHERE GOSPEL PRECEDED

REV. THOS. JOPLIN OF THE SHANTYMEN'S CHRISTIAN ASSOCIATION SPEAKS OF INCIDENTAL BENEFIT OF MISSIONS IN LUMBER CAMPS

ASKS FOR RENEWED HELP

The revolutionary propaganda that has been disseminated throughout the Canadian lumber camps during the last year by "Red" agitators of the I.W.W. and radical advocates of the One Big Union failed to attract the men in those districts, where the Canadian Shantymen's Association had carried on its work. This report by Rev. Thos. Joplin, Field Secretary of the Association, who is on his annual visit to Peterborough, will be particularly encouraging to those citizens who have supported this branch of the home missionary work, which has gradually extended its activities until it now reaches from coast to coast.

In the British Columbia camps the radicals have been rampant, in Ontario and Quebec they gained a few followers but in the east their doctrines did not make a deep impression. They were more successful in Nova Scotia and New Brunswick, but their influence was widest and strongest among the shantymen of the British Columbia woods. Mr. Joplin tells of the conversion of one of the most energetic agitators. He had come into contact with the missionaries of the Association and has since become a Christian, repudiating all his former doctrines and declaring his intention of devoting the rest of his life in spreading the gospel. This man is of alien birth, a college graduate, and possesses marked abilities.

"It shows," said Mr. Joplin, "that without the steadying influence of the Gospel education only makes men worse." The literature of the Independent Workers of the World is debarred from the Ontario lumber camps which Mr. Joplin said were in a healthy condition.

Asks For Assistance.

"The great increase in our work along the railways in Northern Ontario and in Nova Scotia and New Brunswick and also in parts of the west during the summer has left us with a deficit of roundly $1,000. We hope to extend our work this winter and we are appealing to the public for their financial assistance. Peterborough has always been generous and we are asking that they give as freely as they can to the Shantymen's Christian Association."

During the year ending April 1st, 1920, the Association sent out thirty missionaries to the lumber camps, 740 of which were visited. Of the 43,400 men who heard the Gospel from these missionaries, 8,500 were foreigers and 7,000 were French speaking. The summary of the work includes the item that 7,000 miles were tramped on foot by the missionaries.

Rev. Mr. Joplin will be in Peterborough until after Sunday and is staying at the Y.M.C.A. where he may be communicated with by telephone or letter.

BABIES' CLINIC HELD A MEETING

DR. J. A. MORGAN GAVE AN INTERESTING ADDRESS

The open meeting of the Well Babies' Clinic, held yesterday afternoon in the Great War Veterans' rooms, was very well attended and great interest was shown in the afternoon's proceedings.

An excellent address was given by Dr. J. A. Morgan on emergencies. He said, in part, that in case of an accident people are apt to become excited and do the wrong thing, when it would be much better to do nothing than make a mistake. Convulsions in children are very alarming, but the best thing to do before the arrival of a doctor was to put the child in a hot mustard bath with a cold cloth on its head. But the parent should be quite sure the water is not too hot as to scald the child or too cold as to be useless.

Speaking of burns he said that frequently substances which did more harm than good and required a great deal of trouble to remove were put on the burn, while the best and most simple thing to do was to use vaseline. In case of a child swallowing poison the best plan is to make it vomit at once. He had found by experience that the best manner of accomplishing this was to put the finger down the child's throat and rub the tissues. That frequently is successful when hot mustard and water and other things given for the purpose have been unsuccessful. In cases of cuts, bleeding may be stopped by pressure being applied until the arrival of the doctor.

If a child should break an arm never alter its position for in so doing a simple fracture is frequently made into a compound fracture, which is fifty per cent. harder to heal.

Splendid Address.

Mrs. A. Stevenson followed Dr. Morgan with a splendid address, taking as her subject the question of home environment.

Able Demonstration.

Mrs. Hatch demonstrated to the satisfaction of all the best ways of dressing and washing a baby according to New York methods.

Served Tea.

The King's Daughters served tea as usual, and Mrs. Buchanan and Mrs. A. W. McPherson, the hostesses of the afternoon assisted in passing the refreshments in their usual genial manner.

HUNTERS SAY DUCKS ARE FLYING HIGH

Reports on the duck shooting from the Indians at the Indian Village indicate that the shooting is very good but there is not a great many gunners out after the elusive water fowl. There are plenty of that king of water fowl, the black duck. Good bags are recorded by practically all the hunters on Chemong and Pigeon Lakes, but next month they all anticipate better gunning. The weather has been compartively warm and the birds are flying high, but once the cool autumn winds begin to blow in earnest and the clear cool nights set in the northern lakes will be a paradise for duck hunters.

Partridge may be shot this fall for the first time in several years. The close season has had the desired effect of increasing the depleted numbers of the birds and the little drummer will be a popular game bird this fall. There are, however, only six teen days' shooting for partridge, from the 5th to the 20th of November. Five partridge is all that is allowed for one day's hunt and only ten in the whole season.

The deer, caribou and moose season opens this year on the 5th of November as in other seasons and lasts until the 20th. North of the Mattawa and French rivers the season is from the 25th of October till the end of November. For this reason northern districts are sure to be popular shooting grounds.

"Diamond Dyes" Tell You How

A Child Can Follow Directions and Get Perfect Results

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, faceless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

FIGHTING RESUMED.

(Canadian Press)

WARSAW, Sept. 15.—Lithuanians and Poles are again engaged in hostilities, it is announced in last night's official Polish statement. Fighting has been resumed between two forces in the Suwalki sector, near the German border.

SPORTING NEWS, VIEWS AND GOSSIP

MUST PLAY PETERBOROUGH SATURDAY OR DROP OUT OF THE ONTARIO SERIES

O.B.A. ISSUES AN ULTIMATUM TO THE TORONTO ORGANIZATION --IF THEY WANT TO COMPETE FOR THE PROVINCIAL HONOURS THEY MUST HAVE A WINNER READY SATURDAY.

It is up to the Toronto Amateur Baseball Association. If they persist in their decision to play the Hillcrest-Osler game on Saturday, instead of having a winner ready to meet Peterboro on that date the Toronto Association is out of the Ontario Series, and the Provincial Championship will have to be decided without them.

The O. B. A. A. has declined to allow the Toronto gang to run the organization. At a meeting of the subcommittee held in Hamilton yesterday the O. B. A. A. decided to stick to their guns and the T. A. B. A. have been ordered to produce a winner to play Peterboro on Saturday or else drop out of the series. There was no other course that the Ontario body could logically follow and maintain their self respect.

The dates for the semi-finals were set early in the summer and the T. A. B.A. has had plenty of time to wind up the City Series. The trouble has been however that gate money rather than sport has actuated the moves of the Toronto body. At the last moment in order to drag the series out and get an extra gate they admitted the Kipling team of the Lake Shore League, thus requiring an extra Saturday to decide the series, which otherwise could have wound up in two Saturdays.

Then last week the Hillcrest-Osler game, which was advertised to be played at three o'clock, was called off at 2.30 without waiting to see what the weather conditions were like. It was figured undoubtedly that the coming Saturday would be a better day for the final than last Saturday, when the Leafs were making their farewell appearance at the Island and it was sports day at the Exhibition. Accordingly there was no hesitation in early calling the battle off, the T. A.B.A. imagining that it was a foregone conclusion that the Ontario Association would weakly postpone the semi-finals to accommodate the Toronto teams.

But fortunately the O.B.A.A. officials are made of sterner stuff and they have met the defi of the T.A.B. A. in the proper spirit. The T.A.B.A. can either select a winner by playing to-morrow or Friday or they can get out. The issue is clear.

The Toronto teams have no kick coming. The O.B.A.A. is simply following the policy it has adopted in connection with the championship series throughout the province. Look at Wingham and Stratford who played game in Stratford Monday and the return game in Wingham yesterday, the winners being called upon to play in Hamilton to-day. Three games in three days and yet the Toronto crew kick over the traces because they are asked to play a mid-week game.

If the T.A.B.A. decline to change their dates Peterboro will get the Toronto series by default and will go into the Ontario finals on Oct. 2 and Oct. 9, the first game to be played on the grounds of the western winners.

Violet Hall Cain, Daughter of the Famous Novelist, with "GRUMPY," Grand Opera House Friday Night.

RUGBY TEAM FOR THE COLLEGIANE

Yesterday afternoon the Boys' Athletic Association of the Collegiate Institute was re-organized for the year and the following officers were elected:

President—Fred Green.
Vice-President—Howard Bleecker.
Secretary—Edward Bailey.
Treasurer—Alex. Elliot.

This afternoon the various forms will elect their representatives to the executive and at a meeting of the officers and executive an honorary president will be chosen from among the teachers and plans made for the Rugby season. It is the intention of the association to form a team as soon as possible and to enter a team in the proposed City Rugby League, and perhaps in an Inter-Scholastic League, should one be formed in this district this season.

FULL OF BOLD ADVENTURE

An action-crammed story of virile adventure is told in "A Splendid Hazard," an Allan Dwan production adopted from Harold MacGrath's novel of the same name, which will be the Allen Theatre's offering to-day. The thrill of a hunt for hidden treasure; the bizarre color of life on the Mediterranean shores, the tensity of a mystery skillfully unfolded; the heart throb of unrequited love; all spring from this fascinating story. The cast is headed by Henry B. Walthall, one of the silent drama's foremost character actors.

ARLIE MARKS HERE FOR EXHIBITION

COMPANY INCLUDES SEVERAL WELL KNOWN STARS

Monday night next and for three nights during the Exhibition, the popular little comedienne, Miss Arlie Marks, supported by an exceptionally strong acting company, in a repertoire of really high class dramatic successes at popular prices, will be the attraction at the Grand Opera House. Miss Marks has ever been a favorite in Peterborough, and since organizing her own company, under the able management of Lindsay E. Perring, her success and popularity have fulfilled the expectations and wishes of her father, Canada's favorite comedian, Tom Marks.

The company supporting Miss Marks this season is far above the usual repertoire calibre, and the 5 big vaudeville acst carried, to keep the audience entertained between the different acts of the plays, are entirely new to the average stock company vaudeville.

"Heverly," the Man of Mystery, is something different and will cause a lot of discussion after each performance, then "Saloma" the thought transmission wonder, is another new venture in repertoire show vaudeville. These two extra added attractions, together with 4 other real high class acts and an extra strong acting company will give the theatre goers of Peterborough 3 nights of the best amusement ever given in the Grand at popular prices. Seats will go on sale Friday morning.

"Saloma" the girl with one thousand eyes, a special feature with Arlie Marks' Stock Company, here next week.

GUS HILL COMING TO THE GRAND

The one big sensation of the current season is Gus Hill's Minstrels, which appears at the Grand on Saturday next, matinee and night. Gus Hill's Minstrels numbers fifty persons, with Emile Subers, Sam Curtis, Rags Leighton and Billy Monitor, James Gorman, Jr., as principal comedians. Gus Hill has gathered together a score of splendid singers, whose voices blend harmoniously in the concerted numbers, and the soloists were selected, for tone and quality of their voices, from hundreds of applicants. It is said that Gus Hill has the greatest and sweetest singers that ever graced the minstrel stage. Sam Brown's famous band and orchestra will be one of the features of this mammoth organization. There will be a big parade at high noon.

Saxophone Sextette, with Gus Hill's Minstrels, Grand Saturday, Matinee and Night.

SCHEDULE OF GAMES FOR NEXT TWO WEEKS

A FULL REPRESENTATIVE MEETING —ATHLETIC ASSOCIATION DEPUTATION—ABIDE BY C.F.A. RULES IN FUTURE

A full representative meeting of the Peterborough Football Association was held last evening in the G.W.V.A. Hall to transact the usual monthly business. Representatives Mr. Cairns, C.G.E., J. Rappae, Canadian Woollens; E. Hardie, Caledonians; G. Coleman, G.W.V.A.; J. Haw, Comrades; J. Coombs, De Laval; Vice-President Sid. Whatley, Secy. J. Bates and President Cook occupied the chair.

Deputation from Athletic Association.

Dr. McPherson came before the Football Executive to give an approximate idea of the aims and objects of the Athletic Association in every shape and form to encourage sport. After giving a lengthy discourse, he answered questions asked by the Executive to their satisfaction.

Motion to Abide by O.F.A. Rules.

After lengthy discussion the motion was made that in future that this association abide by O.F.A. and D.F.A. rules.

Games as Schedule.

In the future all games must be played according to schedule or lose the points.

Mr. Clark Added to Referee List.

It was unanimously moved and seconded that Mr. Clark be added to list of referees.

Schedule of Games.

Saturday, Aug. 18th — Canadian Woollens vs. De Laval—Referee Mr. Hensley. Caledonians vs. G.W.V.A. —Referee Mr. Frank McKinley.

Saturday, Aug. 25th—Comrades vs. C.G.E.—Referee Mr. Hensley. G.W. V.A. vs. De Laval—Referee Mr. Alex. McKinley.

GREAT FINISH IN AMERICAN LEAGUE

The American League pennant race enters its closing three weeks with no signs of a break on the part of any of the three clubs which have been battling for championship honors for the past two months. Crowded into the scant stretch of eleven percentage points the Indians, Yankees and White Sox are stepping along in the order named and nothing in sight can be considered as giving any of the contenders any marked advantage over the others.

A few days ago the Yankees were not highly rated in comparison with the Indians and White Sox, because the Hugmen had to play most of their games away from home while the Westerners were battling on home soil before friendly crowds. In four days of travel the Yankees have won three games while the teams playing at home had to be content with even breaks for the same period. By taking two out of three games at Cleveland the Yankees made it plain that they are far from out of the race, whether at home or travelling, and if they can repeat the performance when they meet the White Sox for three games this week few will be found to chant a requiem over the Yankee's chances.

Much may depend on the success, or lack of it, that the Yankees experience on their return to the East. Seven games must be played in this section by the Hugmen, four with Washington at the Polo Grounds and three with the Macksmen at Philadelphia. So far this season the Yankees have taken five of their seven home games with Washington, and they have won seven of their eight at Shibe Park. These figures would indicate that success may be looked for in these games on eastern soil. Meanwhile the Indians and White Sox will hook up in a series of their own that may turn out to the marked advantage of the Yankees.

For the past week the Yankee pitchers have been bowing better than the boxmen of any other American League club, the runs scored against the New Yorkers, even including yesterday's game at Detroit, being the low total of the league in the past eight days. Thormablen's return to form, as indicated by his work against the Mackmen and Indians last week, and the pitching of Collins at Detroit yesterday, furnish much encouragement to Yankee followers as it was in pitching that a break threatened. Capable successors have stepped in to fill the places of Ruel and Bodie and the outlook is brighter now than it has been for weeks. The Yanks can take much satisfaction in having outplayed both Indians and White Sox in the inter-club series but other and greater honors may be theirs by a continuation of the playing done in the past ten days.

GIVES WARNING TO FOOTBALL HOOLIGANS

MR. WM. MALEY'S STRAIGHT TALK TO HIS CLUB SUPPORTERS

Perhaps the following cutting from Sports Post, England will be of interest to followers of the game in Peterboro and may act as good advice.

In his annual report, Mr. William Maley, manager of Celtic F. C., gives a warning to the hooligan element of spectators, who frequented the club's ground last season, and by their bad behaviour caused it to be closed during the first two weeks of this.

Mr. Maley points out that the conduct of the element in the midst is a disgrace to the club. Players of both sides are barracked if they do not do everything in perfect fashion: acting officials are abused for doing their duty, and even Celtic's own officials are insulted in the execution of their duties.

He goes on:—"I am instructed by my Board of Directors to state clearly and plainly that this has got to stop and my directors intend to take steps to clear our ground of the stigma of bias and hooliganism. In future, misconduct, bad language, abuse of officials or barracking will lead to immediate rejection for the offender or offenders, and they (the directors) rely on the assistance of every true Celt and genuine sportsman to see this duly carried out."

"GRUMPY"

That Peterboro' may take its place among those cities whose patronage entitles them to the best touring productions, Manager Phillips and the Trans-Canada Theatres, Limited, has booked the celebrated drama made famous by Mr. Cyril Maude—a great London and New York success. It is a delightful production of a high class comedy acknowledged a "stage classic".

The excellent company to be seen represents leading players from such noted organizations as Sir Herbert Tree's, Sir George Alexander's and Gerald DuMaurier's, truly London favorites brought to our doors, at the Grand Friday night.

A DANGEROUS WARNING —BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

FORHAN'S, LTD., Montreal

Forhan's FOR THE GUMS

TWO EXPLORERS DROWNED IN GREAT SLAVE LAKE.

EDMONTON, Sept. 14.—While on their way from Sulphur Point, where they had been detailed to do some special survey work, to Hay River post, T. Ronning, and J. C. Macdougall, members of an Alberta Government exploration party, were drowned in Great Slave Lake on 13th August, according to information received at Mounted Police headquarters from Inspector Fletcher, officer in charge of the Mounted Police at Fort Fitzgerald.

The men were members of a party under Alan E. Cameron, Superintendent of Mining at the University of Alberta, and had apparently left Sulphur Point to join the main party at Hay River post when caught by a storm.

Neither body has been recovered. Their canoe, partly filled with sand, was washed ashore.

The Mr. Cameron referred to in the above despatch is a son of Mr. John Cameron, of the Customs House staff.

BIG PROGRAMME FOR THE TRADES CONGRESS

Peterborough will be one of the best represented cities in Canada at the ninth annual congress of the Chambers of Commerce of the British Empire, which opens in Toronto on Friday. The local Board of Trade are sending Edgar Worth, W. R. Brevfogle, G. A. Gillespie, and Leonard Frazer, secretary.

The whole Empire will be represented and an extensive programme has been planned. This is the first congress of representatives of the commercial bodies of the British Empire to be recognized by the King.

DURHAM RIDING LIBERALS NAME W. T. R. PRESTON

CANADIAN APPLE EXPORT SYSTEM ATTACKED BY CANDIDATE

FARMERS LOSE MILLIONS

ORONO, Sept. 15.—W. T. R. Preston of Port Hope, was nominated here yesterday by a Liberal convention to contest the constituency of Durham in the next Federal election.

Mr. Preston's nomination followed his fighting speech against the conditions under which Canadian products, particularly apples, were marketed in Great Britain. He maintained that cold-storage facilities should be established overseas by the Government so that profits of distribution and production should come to Canadians, and not to British traders. He also went gunning after an alleged combination of shipping interests in the North Atlantic, which combination, he asserted, set rates so high as to take all profits from Canadian producers.

Have Confidence in Chief.

The meeting endorsed by resolution Mr. Preston's solution of export distribution problems, and also passed a resolution of confidence in Hon. W. L. Mackenzie King, Liberal Leader.

In his Chairman's address Mr. Preston said that the Liberal platform and the Farmers' platform coincided in not a few particulars, and on other points the divergence was very marked.

Never Stood For Free Trade.

"The Farmers' platform specifically calls for the entire abolition of the customs tariff and stands for free trade, and in respect to that the Liberal party is at issue with it. The Liberal party was never, in recent years, associated with the policy of free trade; it always favored a revenue tariff.

"The Farmers' Union policy is in favor of direct taxation instead of any tariff at all. Look and see where that will place you. It means, by wiping out the $250,000,000 a year derived from the tariff, that that money will have to be raised by a direct tax on land, and it means that in this country every farmer will have to put his hand in his pocket and hand out $250 a year to fill that vacancy."

Apple Shilling a Pound.

Mr. Preston then came to the apple problem. As far back as 1907, he said, Canadian apples were selling in London at a shilling a pound. The CAnadian producer was receiving $1.50 a barrel, and the consumer in England was paying from $35 to $40 a barrel.

In 1909 he discussed the question with Sir Wilfrid Laurier in Ottawa, and two years later in London. Mr. Preston said he showed Sir Wilfrid in London that everything brought into London in the way of fruit was bought at pennies and sold at shillings. "I convinced him that warehouses should be erected in all the cities so that profit going to English traders should come to Canada."

Storage Plants Planned.

Sir Wilfrid referred him to Mr. Fielding, then also in London, who said he would put $10,000,000 to $15,000,000 in the estimates immediately on the assembly of Parliament for the building of the storage plants. But the Government went out of power before anything could be done.

He presented his solution, said Mr. Preston, to the new Government in 1912. Flour manufacturers, he said, complained of ocean rates, and Mr., now Sir Henry Drayton, went to London to investigate.

"Mr. Drayton went to London and got evidence of a combine. He made it known that he, on behalf of the Government, was ready to receive offers of a steamship service on the Atlantic to enter into competition with this combine." An offer was made, asserted Mr. Preston. Its terms would have cut the rates in half, the Government would have had control of the charges, the profits would have been limited to seven per cent. on the net cash investment, and the Government was to have access to the company's books at all times.

Not Even an Answer.

"Nothing was done," declared Mr. Preston. "To the offer there was never even an answer. To realize the enormity of that you have only to consider for a few minutes what it has cost the country to fail to accept that offer."

During the last 20 years, he said, Canada exported $60,000,000 worth of apples to Britain. Those apples, he asserted, cost the British consumer $550,000,000. The farmers, as producers, did not receive more than $30,000,000. The Government has been aware of this enormous los sto the apple producing population of this country for years. Farmers in Durham are getting $1.50 a barrel for apples being shipped now from Montreal, and they are selling in England at one shilling to one shilling sixpence a pound. Here, $1.50; there, $30 to $47.

In to the Finish.

In accepting the nomination, Mr. Preston said:

"I am in this fight to a finish. On this question I'll carry the banner from coast to coast. I believe there can be elected 30 to 50 members in the Dominion House who will say they are going to have that combine destroyed and that they are going to get our rights in the European market."

Real-Fruit Desserts The Rarest Sort

The only gelatine dessert which has fruit-juice flavors sealed in glass is Jiffy-Jell.

No artificial flavor can take the place of fruit. For Jiffy-Jell the fruit is crushed, condensed and sealed in vials. A bottle of this liquid essence comes in the package. And sugar is used—not saccharine—to sweeten Jiffy-Jell.

Jiffy-Jell comes in ten flavors. Try loganberry and pineapple for desserts. Try lime-fruit flavor for tart salad jell. Try mint for a refreshing mint jell.

SUFFERS FROM LOSS OF MEMORY

A man who was remanded in police court a week ago on a charge of intoxication and who told Crown Attorney Hatton a tale of an unknown philanthropist who met him with an automobile, took him out of the city, gave him a drink and then disappeared into the oblivion from which he came, appeared in police court again this morning and was again quizzed in vain as to the source of his liquor.

Consequently he was sent back to Castle Nesbitt to recuperate his powers of memory.

FIFTEEN ALLEGATIONS LEFT FOR THE JUDGES

(Continued from page 1).

attending the meeting brought in "promoting the election of a candidate." Mr. Ferguson had asked all those present to support and work for him. Boyd and others attended this meeting, and were agents for the candidate, Ferguson.

Concedes This Point.

Answering Mr. Justice Magee, Mr. Waldron admitted there was no evidence to connect Lambkin with Mr. Ferguson directly or to show that Lambkin had any authority from Mr. Ferguson for the acts alleged.

"Do you concede that?" asked Mr. Justice Magee.

"I concede that," replied counsel for Mr. Payne. Mr. Waldron said Lambkin's acts were to be taken as showing the extent of corruption in the election and petitioner's claim to the seat.

In regard to the band serenade incident, Mr. Waldron claimed that the evidence showed Mr. Ferguson to have been in the house of Dr. Reid's mother on the night in question. The money was paid with the knowledge of Mr. Ferguson, said Mr. Waldron.

MACSWENEY IN A RAVING DELIRIUM

IMAGINES HE IS LEADING A SINN FEIN ARMY

LONDON, Sept. 15.—Terence MacSwiney, hunger striking Lord Mayor of Cork, was in a raving delirium during a great part of last night, his sister announced to-day as she left Brixton prison after visiting him.

Imagining that he was leading a Sinn Fein army, MacSwiney talked wildly and shouted commands, his sister said.

This morning, realizing that he might betray Sinn Fein secrets while raving, MacSwiney asked his relatives to forcibly gag him if he became delirious while the prison doctors were present.

TARIFF ENQUIRY REVEALS CANADA'S DEBT FOR THE YEAR

THE TEXTILE INDUSTRY IN THE WEST—OPPOSED TO FREE TRADE

WINNIPEG, Man. Sept. 15.—At the Tariff Commission Inquiry, which opened here yesterday afternoon, it was revealed that some $610,000,000 are required to meet Canada's financial obligations the coming fiscal year, and it is in an effort to determine what portion of this expenditure should be levied against the Dominion's imported commodities that the Tariff Commision is starting out on a round of the country to learn the viewpoint of all the interests who will be affected by the revision in tariff which the Federal Government has promised.

This inquiry will be extended from coast to coast, and this city saw day the preliminary defences of the two big interests which are commonly regarded as being the big battlers over the question of tariff. The interests were the Canadian Manufacturers' Association and the Canadian Council of Agriculture, and their general statements as presented before Sir Henry Drayton, chairman of the Tariff Commission, and Senator Gideon Robertson, Minister of Labor, show that there is a big gap to be bridged before the wishes of these two bodies with regard to tariff revision, can be met.

Summed up briefly, the C. M. A. made it plain that they feel that while a tariff revision is long overdue, they must still have protection from foreign industry, and they are reaffirming their advocacy of a policy of adequate protection for Canadian industry. The objects of the protective system, which they insist upon, are to diminish as far as possible the importation of goods from foreign markets which could be produced at home; to facilitate the importation of raw materials for manufacturing processes; to encourage the exportation of Canadian goods, and to make Canada self contained by developing and encouraging, within her boudaries, all legitimate activities that will give occupation to Canadian citizens Conditions which would make for the development of Canada, it was insisted through a series of speeches, could be attained only by the application of an "adequate" being defined by the particular measure of protection which each industry may require to put it upon a fighting footing with its competitors in the United States, Japan and other exporting nations. The general statement of the C. M. A. was presented by Mr. John S. McKinnon, of Toronto, president of the association.

On the other hand, the contention of the organized farmers of the Dominion, as presented by Mr. Norman Lambert, secretary of the Canadian Council of Agriculture, was that agriculture is Canada's basic industry and that for many years it has not been justly considered and dealt with by Federal legislation. Mr. Lambert's statement, which had previously been endorsed by the council, emphasized that the farmers of Canada are not asking for any drastic legislation, which would tend to unsettle and injure Canadian industry, but it did take the position that a national policy based upon the principles of protection, is wrong. The suggestion accordingly was that any tariff which the commision may leave in force should aim at reducing the customs to a strictly revenue basis. That is the big point of conflict between the opposing forces. The United Farmers ask for a tariff which will be strictly revenue-producing. The C. M. A., representing the industries of Canada, declare that a tariff, levied for revenue only, is entirely wrong, and that the aim of any tariff should be to protect industries.

Direct Taxes.

There was also a repetition of the farmers' tax platform, covering personal income tax, inheritance tax and graduated tax on business.

In pointing out the purpose and scope of the inquiry, Sir Henry Drayton agreed that Canada's fiscal policies, while insuring the necessary revenues, should be applied in a manner least burdensome to the public. At the same time, he wanted all parties to understand, when presenting their claims or suggestions, that Canada must meet her financial obligations brought about by the war.

Opposed to Free Trade.

Mr. Thomas Findlay, president of the Massey-Harris Company, large manufacturers of agricultural implements, made it quite plain that his firm are absolutely opposed to free trade on implements. He contended that materials, machinery and all other articles entering into the manufacture of their goods and the operation of our plants, his firm would be as well off with free agricultural implements."

LABOUR TO STAY OUT OF POLITICS

DECISION VOTED ON AT THE WINDSOR CONGRESS

WINDSOR, Sept .15.—Discussion on political action by delegates to the Dominion Trades and Labor Congress, which was carried over from yesterday's session proved of short duration to-day and a report favouring maintaining of Congress as a non-political body was carried with but few dissenting voices.

Matters which it was thought would prove contentious were quickly disposed of, in a particular section of a report dealing with the Winnipeg strikers' trial and defence. This was passed over practically without discussion. Recommendation of executive that efforts be put forth to have British North America Act amended so as to make it legal for the Dominion government to enact an eight hour law was concurred in.

CANADIAN WOOLLENS LIMITED

COMMON SHARES—DIVIDEND No. 1.

Notice is hereby given that a dividend of one and one-quarter per cent. (1¼%) has been declared on the COMMON STOCK of Canadian Woollens, Limited, for the quarter ending the 30th day of September, 1920, payable Friday, the 1st day of October, 1920, to shareholders of record at the close of business Monday, the 20th day of September, 1920.

By order of the Board.

WILL ARREST THE THOROLD RIOTERS

PROVINCIAL OFFICERS SENT OUT TO MAKE ROUND-UP

(Canadian Press)

NIAGARA FALLS, Sept. 15.—Provincial Police Officers Day and Kelly left here for Thorold this morning to arrest twenty men concerned in the Thorold riots which occurred last month at the trial of David McNeil They will be taken to the Welland jail. Many prominent Thorold men are in the first batch to be arrested. Although it has been said that trials would be held at Niagara Falls nothing definite is yet known.

At least fifteen persons were taken into custody at Thorold this morning in connection with Thorold riots last month. Motor cars were being procured to rush first instalment of prisoners to Welland jail. It is understood that forty warrants are to be served and fast as the arrests are made prisoners will be removed to the jail. It was impossible to obtain the names of those arrested this morning, officers stating they were powerless to give the information.

FEATURE PICTURE WILL BE REPEATED

MANAGER OF GRAND HEEDS SPECIAL REQUEST

By special request of those who were unable to see the Grand programme on the three first nights of the week, Mr. Phillips has made arrangements to show "Out of the Fog," the feature picture starring the great Nazimova on Thursday evening. The picture ranks with the greatest productions in the movie world, and has made an unusually strong impression about the city. Those who, through social and business engagements, were unable to see the programme at the beginning of the week, will no doubt appreciate Mr. Phillips' generous action in showing the film an extra day.

This is one of the best programmes that has been shown at the Grand in a long time.

SKIN DISEASES AND CONSTIPATION

What Mr. G. Prouton, Gordon street, Ottawa says;

Gentlemen:—It is a great pleasure for me to recommend Dr. Henderson's Herb Treatment for constipation, having received great benefit from them in that respect, also your Hou-Tan Ointment. Ten months ago my youngest child, which was then eight months old, had her head all covered with boils. We purchaseed a box and in a short time, they all disappeared, and she has now a beautiful head of hair, which convinces me that it is a splendid preparation for the hair, as well as curing the disease. No family should be without a preparation of that kind in their home.

Dr. Henderson's Herb Tablets, and Hou-Tan Ointment are two excellent preparations for all forms of skin diseases. Don't fail to give them a trial, and you like others, would not be without them in your home. They are for sale at Warne's Drug Store, Peterborough. The Herb Tablets are 25c 50c and $1.00 per box. The Hou-Tan Ointment 50c per box.

The Henderson Herb Co., Toronto.

tw 38

"What happened to that young fellow? He started out so promising that I was sure a great future was to be his."

"Yes, but he's a total failure now."

"I can't understand it."

"Well, it was this way. He was fine while the going was good, but he got one jolt a year or so ago and then just quit trying."

"His wife is a very intelligent woman."

"That so! How did she come to marry him, then."

Widows are not always as mournful as outward appearances would indicate.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Sept. 15. — Prices were generally higher on the stock market at the opening to-day. U. S. Steel opened at 89 up 3-8, American Hide and Leather Pref. 69 off 3-4. Sinclair 32 1-2 unchanged, Corn Products 87 1-2 unchanged, Reading 93 1-2 up 1-2, Texas Co. 50 3-8 up 1-8, General Motors 21 3-8 up 1-8, Mexican Petroleum 175 up 3-4, Atlantic Gulf 143 up 1, Southern Pacific 95 up 1-4, Canadian Pacific 120 3-8 up 3-8, Bethlehem B. ex div 75 1-2 up 3-4, Pan-American 91 3-4 up 1-2, Republic 81 3-8 up 5-8, D. L. and W. 26 1-2 up 2.

The trade was upward, with the Oils leading the way. An exception to the general movement was Republic Motor Truck, which sold at 25 1-2, a new low from yesterday.

Sinclair responded to an announcement of the bringing in of a 40,000 barrel well by the Mexican Seaboard Oil Co.

By advancing to 32 1-2 in the early afternoon, Mexican Petroleum made a new high at 177 1-2. American Writing Paper Pref. advanced a point to 54.

The buying was led by banking interests, which anticipated a restoration of dividends on earnings of more than $20.00 a share this year.

EXCHANGE MARKET.

(United Press.)

NEW YORK, Sept. 15. — Foreign exchange was off at the opening to-day. Demand sterling opened at $3.46 off 1-2; Francs $.0649 off .0007; Lire $.0425 off .0004; and Marks $.0167 off .0002.

GETTING READY FOR NEW FRENCH PRESIDENT.

Preparations Being Made to Secure a Successor.

(Canadian Press.)

VERSAILLES, Sept. 15.—Reports that the resignation of President Deschanel was imminent because of the failure to regain his health, were given colour to-day by preparations already apparent here for the meeting of another National Assembly, which would elect his eventual successor.

The Assembly Chamber, where the Senate and Chamber of Deputies meet in joint session to select the Republic's President, was being prepared, and the employees of the chief hostelry in Versailles were busily engaged registering guests.

MILLION DOLLARS FOR NEW ST. JOHN'S HOTEL.

(Canadian Press.)

ST. JOHN'S, Nfld., Sept. 13. — A company, capitalised at $1,000,000, has been formed and registered for the purpose of erecting a badly needed modern hotel in this city. A quarter of this sum has already been subscribed locally, and it is hoped to interest outside capitalists for such amounts as is not subscribed here.

The site selected is conveniently located near the steamship wharves and the business part of the city, and at the same time gives a good view of the harbour and ocean.

According to the present plans the building, in addition to the guest rooms, will contain a theatre, assembly room, and roof garden.

In recent years hotel accommodations in St. John's have not kept pace with the growth of the city, and have been insufficient to meet the demands of the travelling public.

HE KNOWETH ALL.

The twilight fails, the night is near,
I fold my work away
And kneel to one who bends to hear
The story of the day.

The old, old story, yet I kneel,
To tell it at the call,
And cares grow lighter as I feel
That Jesus knows them all.

Yes, all the morning and the night
The joy, the grief, the loss,
The roughened path, the sunbeam bright,
The hourly thorn and cross.

Thou knowest all. I lean my head,
My weary eyelids close,
Content and glad awhile to tread
This path since Jesus knows.

And He has loved me; all my heart
With answering love is stirred.
And every anguished pain and smart
Finds healing in the word.

So here I lay me down to rest
As nightly shadows fall
And lean confiding on His breast
Who knows and pities all.

—J. H. Taylor.

LABOR IS ENEMY OF BRITISH CO-OPERATION

(Canadian Press)

BATH, Eng., Sept. 15.—Bolshevism is eating its way into the co-operative movement in Great Britain and labor has now become the enemy of real co-operation, declares R. G. Naish, formerly a member of the Central Board of the Co-operative Union of Oritain. Mr. Naish made his accusation in explaining his withdrawal from the labor movement. He added that the whole co-operative movement is in danger.

Mr. Naish said that some months ago the English Co-operative Wholesale Society sent a cargo of goods to Russia, but it had not yet been paid for.

USUALLY THE WAY OF IT.

Scandalizing She — "Everybody knows about it. Some people take her part, and some her husbands."

Mere Man — "And a few ecentric individuals mind their own business."

"DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

"CORNS"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with the fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Are Your Funds Waiting Investment?

Close to $1,000,000,000 is now being distributed from coast to coast in connection with our crops. This will shortly result in a freer circulation of funds throughout Canada's industrial, mercantile and financial world.

Our foreign trade is running 25% over the previous year. Our domestic trade, as shown by bank clearings, is over 28% above the previous year, and bank deposits are over $150,000,000 higher than the record year ending June, 1919.

At this time, during the past few years, Canadians have had an opportunity, through great public loans, of purchasing Victory Bonds, and over one million Canadians evidenced their approval of Canada's Premier Security by purchasing in the aggregate over $2,000,000,000 worth.

Beyond doubt Canadians are financially able to make further substantial investment records. We cannot conceive of any better form of investment for the large funds now accumulated than Victory Bonds, which undoubtedly will be bought up freely.

NOW IS NO TIME FOR IDLE FUNDS

The new prices for Victory Bonds make them the greatest investment bargain in Canada. There will be no public loan this year. The present supply is not large. Do not let your funds lie idle and "rust." If you have funds available we cannot too strongly recommend that you purchase Victory Bonds to the limit.

Your order will receive our best attention.

An open meeting of the Local Council of Women will be held on Thursday, 16th September, at 3.30 p.m., in the Y.W.C.A., at which reports of the National annual meeting held in St. John, N.B., will be given. All women are invited.

TWO PAIRS OF GLASSES.

An extra pair the same as you are wearing would not be a luxury, but may save you much inconvenience in case of the breaking of one pair. We have every facility for duplicating your glasses. See W. H. Lacey, Optometrist and Optician, 410 George Street.

TO HOLD AN "AT HOME."

The entertainment committee of the G. W. V. A. intend holding an "at home" on Armistice night, Nov. 11th, and have engaged Manley's 7-piece orchestra of Toronto for the event. A cabaret singer will also be here with the orchestra. Invitations will be issued later.

INSTALLATION ATH THE REGENT THEATRE

The Perkins Electric Co. has just installed a new mirroid screen at the Regent Theatre, Hunter street. This screen has the effect of doubling the visibility over the old style and at the same time detracting from the radiating rays, thereby avoiding eye-strain.

TRINITY CHURCH—IMPORTANT MEETING TO-NIGHT.

To-night in Reid Street Hall there will be an important meeting of the teachers and officers of Trinity Sunday School. The members of the executives of the W.M.S., Ladies' Aid, and Epworth League are also asked to attend. The meeting will open at 8 o'clock.

SUCCESSFUL CORN ROAST IN EMILY.

Visitors from Toronto and Montreal and many residents of the section attended the corn roast given last Friday at the W. Howden farm, Emily Township. The evening was a splendid success, everyone thoroughly enjoying the varied programme provided. Music supplied by the Salvation Army Band was much appreciated, also the vocal selectinos by members of the Band. Rev. Mr. and Mrs. Harrington, of Bethal Church, and Miss Dobe, were largely responsible for the success of the evening, they having put forth every effort in entertaining the gathering.

FIFTEEN YEARS IN PRACTICE

WEDDING BELLS

PETHERICK—DOBBIN.

The drawing-room of the home of Mrs. Geo. Dobbin, Toronto, was the scene of a pretty wedding on the morning of Saturday, September 11, when her eldest daughter, Welma Olive, was united in the holy bonds of matrimony to Mr. Charles Grey Petherick, of Toronto, formerly of Havelock. The bride, who was unaccompanied, entered the drawing-room on the arm of her brother, Mr. M. Dobbin, Lindsay, to the strains of the wedding march, played by Mrs. Geo. Robinson, of Toronto. Her gown was of ivory charmeuse and georgette, and she wore a veil and orange blossoms arranged in coronation style. Her only ornament was a rope of pearls, the gift of the groom. The ceremony was performed by the Rev. J. Coulter, pastor of the Danforth Avenue Methodist Church. Only the immediate relatives were present owing to illness in the bride's family.

After the ceremony a dainty breakfast was served. The young couple, after a short honeymoon, will reside in Toronto.

HIBBARD—FLEMING.

On Wednesday afternoon, September 8th, 1920, a very interesting event took place at the home of W. D. Moncrief, Fraserville, when one of South Monaghan's heroes, one who sacrificed a limb in the great war and whose life at one time was despaired of, Wesley D. Hibbard, led to the marriage altar his faithful bride, Miss Annie Fleming.

The ceremony was conducted by Rev. M. W. Leigh, B.A., in the presence of about fifty guests and after the ceremony all joined in the heartiest congratulations.

Mrs. W. A. Kidd of Fraserville, played the wedding march and Percy C. Barnard and Nellie Fleming were the witnesses. The bride was attired in a beautiful gown of white and carried a shower bouquet of pink and white asters. A dainty buffet luncheon was served to the guests on the lawn. Many useful and valuable presents were left for the happy couple as souvenirs of the occasion.

After a short visit to Toronto Mr. and Mrs. Hibbard will reside in South Monaghan, near Bailleboro.—Com.

MEAGHER—TERRION

The church of the Sacred Heart was a scene of a very pretty wedding this morning at six o'clock when Rev. Father O'Brien united in the holy bonds of matrimony Nellie Terrion, eldest daughter of Mrs. Frank Bedore and Basil Meagher, youngest son of Mr. Wm. Meagher of Niagara Falls. The bride entered the church on the arm of her father to the strains of the wedding march played by Mr. Armstrong. The bride looked charming in a white satin dress with veil and carried a bouquet of sweetheart roses. She was assisted by her sister, Miss Pearl Terrion, who looked pretty in pink voile dress with hat to match and carried a bouquet of white asters while the groom was supported by his brother, Mr. Vincent Meagher of Niagara Falls. After the ceremony a dainty breakfast was served at the bride's home after which they left on the 12.05 G. T. R. amid showers of confetti and good wishes for Chicago and Detroit. The bride travelled in a navy blue suit with taupe feathered hat and fur. The bride received many beautiful presents. On thier return the happy couple will reside at 61 Ontario avenue, Niagara Falls.

WHITNEY—GRASETT.

In St. Peter's Rectory this morning, Rev. Father Phelan officiating, the wedding was quietly solemnized of Constance Grasett, daughter of Mr. and Mrs. Henry Grasett, and Claude Stafford Whitney, son of Mr. and Mrs. Forbes Whitney, of Wellesley Crescent, Toronto.

The bride looked very pretty in her travelling suit of taupe and wore An Alice blue hat with touches of cloth of gold and corsage bouquet of sweetheart roses and maiden hair fern.

Mr. and Mrs. Whitney left by the noon train for Quebec and Montreal, where they will spend a couple of weeks.

Mr. Whitney is a member of the engineering staff of the Hunter Street bridge. The bride's father who is at present with the Japanese Steamship Company, was formerly manager of the local branch of the Ontario Bank.

NICHOLLS—MILLIGAN.

At the home of Mrs. W. G. Milligan, 20 Langley avenue, Toronto, at three o'clock Tuesday afternoon, the marriage was solemnized by the Rev. W. E. Wilson, of her daughter Gladys, to Mr. E. W. Nicholls, son of Mr. and Mrs. Hugh Nicholls, of Bobcaygeon. The bride was wearing a blue charmeuse dress with tunic of blue Georgette.

Miss Lena Milligan was her sister's bridesmaid, in blue taffeta, with pink roses. Mr. P. Hutton attended as best man. In a navy blue suit and hat, the bride left with her husband to spend their honeymoon across the line, before going to their home in Bobcaygeon.

DECK—HUDGINS.

A quiet wedding was solemnized at St. Paul's manse to-day at noon when Iva Maude Hudgins of this city, became th wife of Clifton John Deck, also of this city. Rev. Robert Pogue performed the ceremony. The young couple will reside in Peterborough.

GARRETT—DUNFORD.

Very quietly in Trinity Methodist church this morning the wedding was solemnized, Rev. F. E. Malott officiating, of Miss Pearl Dunford of this city and Mr. John Garrett, 93 Hunter street. They were unattended.

Immediately after the ceremony Mr. and Mrs. Garrett drove to the station and left for London, Ont., where they will spend a few days. Mrs. Garrett travelling in a chic suit of navy blue with hat to match.

MILLOY—O'CONNOR

A pretty wedding took place on Tuesday, Sept. 14, at 7 o'clock a.m. at the church of the Immaculate Conception, when Miss Mary O'Connor of Peterboro, was united in the holy bonds of matrimony to Mr. John Milloy, Downeyville. The bride looked lovely in a suit of brown with hat to match and wearing beaver furs, the gift of the groom. The bride was attended by Miss Irene Mann of Bridge north, wearing a navy suit and hat, while the groom was ably assisted by his cousin, Mr. Arthur Collins of Lindsay. The ceremony was performed by Rev. Mons. McColl of the Immaculate Conception. The groom's gift to the bridesmaid was a pretty ring, and to the groomsman a gold tie pin. After a sumptuous repast at the home of the bride's mother, the happy couple motored to their home in Downeyville.

OBITUARY

INFANT SON.

The infant son of Mr. and Mrs Joseph Rivard, 272 Lansdowne street died to-day, aged four months.

The funeral will be held tomorrow morning to St. Peter's Cemetery.

GROCERS WILL CLOSE THURSDAY AFTERNOON

DECISION OF MEETING HELD LAST NIGHT TO DISCUSS THE MATTER

At a fairly well attended meeting of the Grocers of the City held last evening in the Y.M.C.A., it was unanimously decided to close on Thursdays at 1 p.m. for the remainder of the month of September, and a meeting is to be held later to discuss the question of closing on Thursday Afternoons throughout the entire year. 1d-64-2542

Sluggishness

with many people is a common trouble in summer, and it is a dangerous one. Sluggishness is due to improper functioning of the organs of elimination, and such improper functioning is frequently responsible for the damming up of the poisons of waste in the body. This gives rise to fevers and other diseases peculiar to summer, which frequently leave a person too weak to combat the severe weather conditions of winter.

A person in perfect health, whose elimination is absolutely up to par, never suffers any condition of lassitude, but has the usual pep and energy necessary to good work and sane living. Keep yourself in good form. See that your elimination is up to par. Only nerve pressure can cause it to be otherwise. Have the pressure removed. Nature will do the rest.

TELLS A NEW STORY OF HIS WIFE'S DEATH

JONES ASSERTS HE HELD ANNA MITCHELL FOR HOURS IN OVER-TURNED DORY OFF RACINE

DOCTORS CREDIT ACCOUNT

CHICAGO, Sept. 16. — The real story of the tragedy that interrupted and ended the honeymoon of Jack Jones, President of the Dillpickle Club, and his bride on Sunday morning last, six miles off Windy Point, Wis., was told for the first time today.

Jones, somewhat recovered from the harrowing state of mind that led to so much confuson in his tale, convinced the listeners that he spoke the truth.

He told how his wife died, while he held her in his arms, and how she slipped from him into the lake, and of how he clung to the boat for life, and how eventually he righted the craft and waited for the rescue.

Jones was terribly bruised and cut. His eighteen hours in the water, his fight against great odds, and his efforts to right the boat had painted his body black and blue and purple in spots and there are red spoltches where the skin was rubbed off or cut open. From head to feet he is a mass of bruises.

"It was about 4 o'clock Saturday afternoon when we left Milwaukee in our 18-foot motor dory," he said. "The off shore breeze gradually grew stronger and soon was a regular gale. We were away out in the lake and the motor was failing. The gas pipes were leaking.

"Presently we found ourselves almost on the sand bank off Windy Point, with the motor stopped and the waves ferocious. I was rowing and Anna was trying to put some more gas into the pipes, when suddenly the storm hit us and turned the boat completely over.

"We were both good swimmers, but we were about six miles from shore in a terrible storm, our boat upended, the night pitch dark. There was only one thing to do.

"We swam under the boat. In the bottom of the boat, which had suddenly become the top, there is a steel centre-board, hinged. There is a chain on either side leading from the sides to the centre-board.

"One of the chains broke. I placed my wife upon the good chain in such a position that her body would not make the boat sag on one side. Then I put my right arm around her waist and held her in position.

"We both felt that we were going to drown. It was early in the evening and there would be no chance of rescue until morning. The waves kept smashing us all the time and we were growing weaker. We were nauseated and bruised.

Said Good-Bye.

"We said good-bye many times to each other. What things we said, trying to cheer each other! We even laughed now and then, and the next moment one or both of us would be drenched by a monster wave hurled against the side of the boat and left dazed and sick.

'How long I held her I do not know. I remember her saying that she was going. I remember feeling how limp she was, and then it semed her flesh was hard—like cold wax. I knew she was dead, but I determined to hold her to the end.

"But my arm became almost paralyzed with its task of holding her. I could hold her no longer—it was a thing of wood. She slipped from it and disappeared. I don't remember much that happened until I, too, let go and came up to the surface and saw the sun.

"The sun was bright. It hurt me like a knife. I clung to the side of the boat and cried out, and got back some little of my strength.

"The sail was dragging behind the dory, and there was some rope tangled in it. I got the rope. I went back under the boat and fastened the rope to one of the seats. Then I climbed up over the boat, jumped into the water on the other side, and pulled the rope. The dory was righted.

"I unscrewed the motor, capsized it so the motor would fall out, righted the boat again and climbed in. The tug William, Jr., rescued me. The Captain wanted to tow the boat in, but I said 'To Hell with it.' What should I want of it now?"

The police and the Federal officials, who doubted Jones's story, or rather stories, when he first was taken to St. Luke's Hospital at Racine, Sunday ev-

Controversy Over Fire Department Is Discussed By Labour

POLICE NEED NO CARDS TO GET "IN ON" GAME.

BIRMINGHAM, Ala., Sept. 16. —Gamblers of Birmingham are liable to be subjected to nocturnal calls from the police without the formality of the officers being compelled to present their cards at the door, under the provisions of an ordinance just enacted by the city commission. Police are empowered by the ordinance to "break down" doors of houses in which gamblers are suspected to be holding forth, and it will not be necessary for the cops to carry with them a search warrant.

TRADES AND LABOUR COUNCIL PASS A RESOLUTION OF PROTEST —EX-FIREMEN HEARD.

The Trades and Labour Council's rejoinder to the City Council's refusal to hold a public enquiry into the charges of inefficiency in the Fire Department, was a resolution passed last night prot sting against the "closing of this matter without a full and satisfactory investigation."

This expression of disaproval of the Council's action was followed by the appointment of a committee to arrange for a public meeting to discuss the complaints of the three dismissed firemen, which are said to be only symptoms of the general conditions in the Department, and any other phases of the events that succeeded the Trades Council's request for an investigation.

Complying with the Trades Council's request to attend last night's meeting and explain the attitude he took in the investigation by the Fire, Water and Light Committee, of which he is chairman, Ald. Morrison said that he believed he took the proper course at that time, and was now more convinced than ever that he was right.

"Is that enough?" he asked. "The stir first came from the fire hall, and it seemed to me to be out of place for the Fire Fighters' Union to come to the Trades Council to make a stir. I don't know that this is a satisfactory place to air their grievances, when only a dozen members or so are present. The Chief was away when the communication was brought in. It is all settled now and I hope satisfactorily. The men went over my shoulders and the Trades and Labour Council went over my shoulders. The Council referred the matter to the committee. I made the casting vote, and that's the way it was decided."

Ald. Morrison said he believed ex-Ald. Murray was the agitator among the firemen.

"I heard no grievances at the fire hall," he continued. "It was said that the men could not get to the council because I would not take their complaints. Any man has the privilege of approaching the City Council or any of its committees. Some say they did not get justice. No one has any complaints except the three or four discharged men. The other firemen signed the paper because it was presented to them for that purpose. Every man had his chance and the freedom to say what he wanted to say. I claim that they got a fair shake. I will not be dictated to by any man, such as the man who came to the council," said Ald. Morrison, referring to ex-Ald. Murray, who he said he had helped to get elected two years ago.

Menzies Efficient.

A delegate said that three-fourths of the people regarded Bruce Menzies as a better fireman than the Chief, and that there was no cause for inefficiency for which he should have been dismissed. He also objected to the Fire, Water and Light Committee's procedure in admitting Chief Grange to hear the evidence.

"We all know that men who want to keep their jobs also keep their mouths shut," said this delegate.

"Some of the aldermen have been in this city only a few years and they have heads as big as the Kaiser's. I pay as much taxes as the average man and I say that the Fire Brigade should get as fair a deal as I would expect Ald. Morrison to get."

Ald. Morrison replied that Chief Grange remained in the committee room at the request of the Mayor and the aldermen present. "You could not do better than that yourself," he added. "It was not his wish that he stayed. I believe the Chief is as efficient as any man I know. Were the three firemen inefficient? A man who carries things so long in his chest without dumping them out is inefficient. I'm saying nothing about them as firemen, but I say they had inefficiency in them. They were carrying a grouch around with them."

"I don't think this matter would have come up hadn't it been for what the Chief said. That matter came from here to the fire hall by Lebarr. I have nothing against Lebarr, but he could have told me. Lebarr filled the bill all right, but he should not have been an agitator, especially when the Chief wasn't on the job. I uphold the Chief. I maintain he is right, and you can maintain he is wrong."

Ald. Morrison mentioned the dismissal of Fireman Drummond, and in giving his version of that incident said he was as sorry as anyone that Drummond was dismissed, but the Chief was boss, and the Department had to have a head.

"I heard the Chief say he would give $10 or $15 toward Drummond if he needed it."

Ex-Fireman Lebarr.

Victor E. Lebarr, one of three firemen whose dismissal followed two days after their attendance with seven other of the men at the Trades Council meeting a month ago, replying to Ald. Morrison, stated that Chief Grange was in the city when

(Continued on Page 8.)

MINERS WILL HOLD CONFERENCE

HESITATE TO CALL A STRIKE ON SEPTEMBER 25TH

(Canadian Press.)

LONDON, Sept 16.—Indications that leaders of the Miners' Federation have some misgivings relative to calling a strike on September 25, are found in the announcement that a full conference of delegates from every mining district in England will be held next Tuesday. It is reported that a large number of miners have failed to give strike notices and the assertion is made that many leading Trade Unionists are luke-warm in their support of the miners. Another conference with Sir Robert Horne, President of the Board of Trade, will be asked by miners' representatives, it is said.

JURORS FOR THE FALL ASSIZES

GRAND AND PETIT JURY SELECTED

Following are the juries selected for the High Court Sittings which begin on Tuesday:—

Grand Jury.

George Lundy, H. W. Stock, Bruce Fowler, Jeremiah Mahoney, Archie Campbell, W. H. Hamilton, Sidney Whatley, George Baird, William Robson Thomas Bailie, Daniel Taylor, Arthur Carveth F. H. Dawson.

Petit Jury.

S Crough, Stewart Cullen, George Cockburn, I. F. Francis, H. A. Fife, R. H. Fortye, Alex. Gerdon, James Grant, Stewart Hagg, Albert Hunter, A. A. Haskill, John Jamieson, Louis LeBarr, J. M. Lillico H. Metheral, T. W. Morrison Michael Perdue, Walter Rosborough, William Rutherford, John Smith, Jr., R. I. Scott, J. A Stewart, George Sexsmith, William Shearey, James Theobald, Wilfred Timm, J. R. Thompson, Alex. Tate, Charles Woodcock, Frank Walsh, M. J. Welch.

A SENSATIONAL RUSH

WALK-EASY BANKRUPT SALE AI SCENE OF EAGER HUSTLING FOR THE BARGAINS

The Bankrupt Sale of fine boots and shoes at the Walk Easy Shoe store opened with the rush that was expected. People crowded the store to its capacity from the opening moment.

Whether they came to buy or simply look they all stayed till they got an armful of bargains.

There wasn't any doubt about the bargains; they are there, and with every pair of boots in the store on sale, it will be bargains all the time, till the stock is cleaned up. Prices are as good to-day as they were on Wednesday morning, when the sale opened. They couldn't be cut away more unless the boots were given away.

Anyone who has not seen the wonder of it, fine footwear at half price, should not delay a minute in getting to the Walk-Easy Store. A big staff of salespeople are there to look after the big throng of eager buyers.

G. W. V. A. DANCE

BONAR LAW 62 TO-DAY

(United Press.)

LONDON, Sept. 16.—Andrew Bonar Law, Conservative Leader, and virtually assistant Premier to Lloyd-George, celebrated his 62nd birthday to-day, and was the recipient of hearty congratulations from all parties. Born in New Brunswick, Canada, Bonar Law did not enter British politics until 1900, but so quickly did he make his mark that when Arthur James Balfour resigned the leadership of the Conservative and Unionist Parties ten years later, he was selected for the post, which he has held ever since.

Control Railway

3,000 REDS MADE PRISONERS AND 36 GUNS WERE TAKEN

IS IMPORTANT POSITION

(Canadian Press).

WARSAW, Sept. 16.—Polish operations against the Soviet forces along the upper reaches of the Bug River have been completely successful and the Soviet troops which had been defeated, according to reports, are reaching this city. The Poles have captured 3,000 prisoners, 26 cannon, five airplanes, two armoured trains and 50 machine guns, it is officially announced.

WARSAW, Sept. 15.—It is officially announced that Kovel, in Volhynia, has been occupied by the Poles, who took 3,000 prisoners, captured 36 guns and a large quantity of war material, which included four locomotives, three airplanes and three hundred cars.

The loss of Kovel deprives the Bolsheviki of railway communication between the Lemberg sector and the southern front. Kovel was a junction point for six railroads, and three of these lines are brought within the Polish area of control by its capture.

Surprise Attack.

The Lithuanian fighting was brought on through a surprise attack on the poles, which forced them to withdraw from Seyny. The reports indicate that the Lithuanians are advancing in the direction of Augustowo. A military decree has been issued calling up five new classes, which is estimated to bring into service more than 200,000 men. The classes called are from 1889 to 1895, inclusive.

In the north quietness prevailed along the battle line where recently there were encounters between the Lithuanians and the Poles over the disputed boundary line.

Heavy engagements with the Poles in the region to the east of Brest-Litovsk and in the Kovel area in Volhynia, are reported by the Russian Soviet staff in Tuesday's official statement from Moscow. It reads:

"North of Kobryn (30 miles east of Brest-Litovsk) fierce fighting continues. In the Kovel region the Soviet troops were engaged with an enemy column in the region of the Brest-Litovsk highroad. We have again occupied the town of Rohatyn (40 miles south-east of Lemberg).

"In the Crimea, in the Verkhne-Tokmak sector, we repulsed the advance of considerable enemy forces (General Wrangel's), which were supported by two armoured trains."

A PUBLIC PLOWING MATCH

TO BE HELD ON THE FARM OF JOSHUA SMITHSON

A meeting of the Directors of the Plowmen's Association will be held in the City Council Chambers on Saturday, Sept. 18th, at 1.30 p.m. As this is the last meeting before the match all the Directors are requested to be present.

Wm. Cleghorn, President — Hugh McFee, Sec'y,
R. R. No, 2, Keene, Ont.

2d-65-2572.

AN EYE-OPENER FOR THE CITY COUNCIL

A local citizen stopped long enough to-day to remark upon the large number of juveniles that took in the 93rd Battalion excursion on Saturday last. "If the City Council had been on board," he remarked, "the Aldermen would have found some justification for carrying the proposed housing scheme to a more satisfactory and complete conclusion."

Terrific Explosion In New York District Many Persons Killed

STOCK MARKET WAS DEMORALIZED AND BUSINESS CLOSED DOWN —VAGUE REPORTS.

TARONTO MARKET CLOSED

NEW YORK, Sept. 16.—A terrific explosion, which rocked all of the Lower Manhattan, occurred at noon outside the offices of J. P. Morgan & Co. on Wall Street.

Several persons were killed and many others injured.

Officials of the company denied the first reports that a bomb had exploded in the Morgan building.

At one thirty an unofficial estimate of the dead was thirty, with the number of injured estimated at two hundred.

Broad street hospital reported that two hundred persons had been treated for injuries. Doctors were summoned from all over the city.

Various opinions are given as to the cause of the explosion, the police inclining to the theory that it was caused by an explosion of T. N. T. truck and an automobile on Wall St.

Police Commissioner Enright was informed by members of the Morgan firm that the cause yas dynamite on the street.

Members of the Police Bomb squad on the other hand doubt the accident theory, expressing the opinion that it was a bomb that exploded.

They said that fragments of the metal picked up were being examined in the belief that they may have been pieces of the infernal machine.

Trading on both stock and curb exchanges was ordered suspended for the day.

The financial district this afternoon presented a scene of the greatest demolition. Great blotches of blood appeared on the walls of several of the Wall street offices.

Almost every pane of glass in the vicinity was shattered and the streets were covered with glass and fragments of brick and stone blasted fro mthe base of the walls of the sky scrapers.

Several persons were hurt in these buildings when missiles hurled through the windows.

The front of the Morgan building was demolished and the sub-treasury was badly damaged.

It was reported that shortly before noon a motor with two men drew up in front of the Morgan Office and that when Morgan detectives approached the machine one man alighted and either accidentally or purposely dropped what appeared to be a bomb. Another version was told by occupants of another building who said they had seen the car draw up and the men leave it. The first story had it that the chauffeur and passengers were among the dead or injured. Among the bodies were those of three girls, terribly mutilated. A police cordoon was hastily thrown around the entire financial district when thousands, hearing explosion flocked to the tip of Manhatton Island. An emergency call was sent to Governor's Island, from which a heavy detachment of police was sent to New York to guard the sub treasury and aid the police.

It was announced from Washington that Federal authorities will make investigation. William J. Flynn, chief of investigation bureau was expected to leave for New York during the day.

TORONTO MARKET CLOSED.

(Special to The Examiner.)

TORONTO, Sept. 16.—The Governors of the Stock Exchange, local men were informed, were to meet at 3.30 p.m., and at that meeting an official statement will probably be made.

Delivery of stock orders is held until Wednesday next on account of the tragedy, and local dealers are agreed that there must be fairly complete demoralisation of business in the Wall Street section.

"We have had very little news of it," said Osler & Hammond. "little more than that there had been an explosion."

The market was strong this morning, and as New York closed down at noon, local brokers have been merely sitting in their offices since.

"All In the Air."

"Discrepancies in the reports from New York were explained by one broker who said, "They are all in the air and don't know what they are doing."

Though the brokers remained in their offices, the ticker service stopped at noon. There was much discussion as to the cause of the explosion, one rumour being that it was the work of Reds, another being that it was an effort to assassinate J. P. Morgan, a third that a truck load of dynamite had been left standing in front of the Stock Exchange on Wall Street, and had been accidentally set off, and fourth that the blow came as a result of some excavating for a new office building. But in all this there was nothing certain or definite.

WOMEN TAKE PLACES ON ENGLISH JURIES

BRISTOL, Sept. 16.—Women jurors have just served at the Bristol Sessions for the first time. Counsel prosecuting in the first case paid them a warm tribute. "I congratulate you on oa last taking your proper place in the jurisdiction of the country," he said; "and I congratulate the cause of justice itself."

The women jurors, however, were not quite certain how much congratulation they required. One of them was apprehensive about her three children who mshe had to leave unattended, and another had been obliged to close her shop to serve on the jury.

This was probably their first taste of the bitter which has to be swallowed with the sweets of sex-equality.

LICENSE FEE FOR DANCE HALL

ROWDIES TAKE ADVANTAGE OF THE PROPRIETOR

By a by-law passed by the Harvey Council, Michael Pluerd, proprietor of the dance hall at Buckhorn is required to license his pavilion, for which a license fee of $50 will be charged. The dance hall is further required to close its doors at midnight.

This activity by the Harvey Council in this direction is the result of the reports of the High County Constable to the Reeve and other members of the Council on the rowdyism that has characterized the Buckhorn dances during the summer. The Council has not had its eyes closed to the situation and from other sources information has come to them that the dances have not been all they should have been.

Liquor, it is alleged, has been brought to the dances by young men, not only from that district, but from Peterborough. They carried on a thriving business in the prohibited liquid until the County Constable and License Inspector visited one dance and while they did not effect a capture this interruption to the liquor traffic was an effective warning to them and the bootleggers vanished. Efforts by the County police to discover their whereabouts have failed.

Several fights and drunken brawls, it is alleged, have been staged at the hall. The proprietor plays the violin in the dance orchestra and declares he is unable to see all that is going on. It is expected now that the township's action will end the series of events that have made the Buckhorn dance hall notorious throughout the northern half of the county.

WATER ST. ALLEYS RE-OPEN TO-NIGHT

JAKE SOLOMON TURNS HIS ATTENTION TO THE INDOOR GAME

Jake Solomon returns to the indoor game to-night. In other words, the Water street Bowling Alleys open for the season and the pilot of the Peterborough Ball Club, who has been devoting most of his attention to baseball for the past three months, will be found presiding over the destinies of the alley pastime, of which there will be many devotees in Peterborough. It is expected that there will be several leagues, both in five pins and ten pins this season as there are many players anxious to get into the competitions. The re-opening of the alleys is another reminder that summer has gone.

TO IMPROVE CONDITIONS FOR MINERS

COMMISSION REPORTS ON CONDITIONS OF THE NOVA SCOTIA MINERS

THE INCREASES

Canadian Press.

HALIFAX, N.S., September 16. — The living conditions of the Nova Scotia miners are described as absolutely wretched and a menace to themselves and to their families, in a report of the Federal Royal Commission which recently considered the and the demands of twelve thousand miners in Eastern Canada for salary increases, and which is published to-day.

The report recommends a number of improvements in the housing system of the miners and also wage increases of a dollar a day for the men and 20c per ton on all tonnage rates.

Increases are practically the sums demands by the men.

Both mine owners and men are urged to cooperate for the purpose of increasing the output of the mines.

OFFICIALS FOR LADIES' WORK

PREPARATIONS MADE TO TAKE CARE OF A LARGE EXHIBIT—SPECIAL PRIZE OF $5.00 FOR PERSON HAVING MOST NUMBER OF ENTRIES

The Ladies' Work Department of the Fair is receiving special attention this year. The manner of taking care of the exhibits is greatly improved the whole top floor of the main building being turned over to Ladies' work and arts.

GERMAN ASSETS HELD BY SOUTH AFRICAN GOVT.

(Canadian Press).

CAPE TOWN, Sept. 16.—Property of Germans to the value of £9,000,000 is to be retained by the South African Government as a loan repayable in 30 years. This intention of the government was announced to-day in the South African House of Assembly by the Premier, General Smuts.

He explained that enemy assets held by the Custodian of Enemy Property in South Africa totalled £13,000,000, of which £3,000,000 had already been paid out to Germans domiciled in South Africa. Of the remaining £10,000,000, one million pounds would be temporarily employed, applied in satisfaction of South African claims on Germans for debts or for property in Germany sequestrated by that government.

On the balance of £9,000,000, the government of South Africa has decided to pay interest at 4 per cent., raising the total to £10,000,000, which will then be held by South Africa as a loan from the German owners for a term of 30 years, the government paying owners 4 per cent. interest.

Premier Smuts added that the government did not propose to pay this money to the Reparation Commission, which would practically mean confiscation. As there was no guarantee that if the money was sent to Germany it would ever reach the proper owners, he said, it had been decided to take it over as stated, namely, as a loan.

Many American business concerns, chief among which are dairy produce companies, provide for the maintenance of from six to twenty cats as a protective organization. These cats are considered a necessary part of the operating expenses, and it is said that they save thousands of tons of food yearly from destruction by rats and mice.
